

Miss Angelina Halamandaris became Tau Beta Pi Women's Badge wearer No. 101 at a banquet given on November 22 by New Jersey Gamma. The badge was presented to her by Dr. C. A. Mantell, chairman of the chemical engineering department at the Newark College of Engineering. In presenting the badge, Dr. Mantell pointed out that Miss Halamandaris was about to join the few women who had invaded another of the so-called male professions and, through their ability and integrity, made their presence in engineering known. A senior in chemical engineer, Miss Halamandaris is a native of Paterson, N.J., and was graduated from Westside High School in Newark, where she received a Bausch and Lomb Science Award. She is active in the student branch of the American Chemical Society, secretary of the student chapter of the A.I.Ch.E., features editor of the *Yearbook*, and she writes a column for the school newspaper.
