VICINITY OF CAMP DIX

SHEET No. 12

SCALE 1:10000 CONTOUR INTERVAL 10 FEET

303RD ENGINEERS DEC 1917

Col. E. H. Markham, Commanding,
Division Engineer

The grid lines divide the map into 1000 yard squares. Any point may be designated by giving its x and y co-ordinates, decimal parts of the sides of the squares being estimated. Thus the co-ordinates of the road intersection at South Pemberton are x = 44.25, y = 44.80

Based on U.S.G.S. Map.
