Surrogate Carroll J. Stark Takes Oath

NOVEMBER 17, 1957

VOL. XXIX, No. 45

LOWERING STAGE 2 OF U. S. SATELLITE ROCKET — Cape Canaveral, Fla. — The second stage of the three-stage rocket which will carry the U.S. earth satellite into outer space is shown being lowered into position atop the missile's first stage at the Vanguard launching pad here.

"BIG EAR" LISTENS TO SPUTNIK — Boulder, Colo. — Richard Carle of the Boulder Laboratories of the National Bureau of Standards is shown with one of the two radio telescope interferometers which form a unit to receive signals from the stars. On a crash-program basis the interferometers have been adjusted to receive signals from the Russian Satellite (Sputnik).

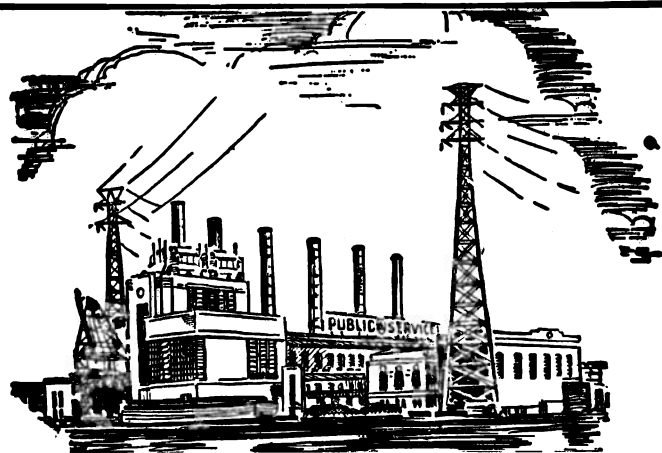

"INDIAN SUMMER" IN CHICAGO — Chicago, Ill. — This is the time of the year that we should be getting a reasonable facsimile of Indian Summer. But something slipped a cog and this is what arrived in Chicago.

GUEST OF HONOR — Colmar, France — An excellent character study of Dr. Albert Schweitzer, famed "Jungle Doctor" who was the guest of honor at the European Premiere of his own film biography "Albert Schweitzer" at Colmar. Dr. Schweitzer lives in nearby Gansbach.

NEW ATOMIC RADIATION DETECTOR — San Francisco, Calif. — Model Sue Fetz demonstrates "GARD", a gamma atomic radiation detector developed by Sargent-Raymont Company in Oakland, Calif. The small two-junction instrument is for the purpose of determining presence of harmful radioactive fall-out resulting from nuclear explosion.

COVER PICTURE:

Carroll Joseph Stark was sworn in Tuesday as Passaic County Surrogate by County Judge Salvatore D. Viviano. In assuming the office becomes the first Democrat in the county's history ever elected for a full five-year term. An astute lawyer, Surrogate Stark is a resident of Hawthorne where he has served as borough leader for his party. Surrogate Stark and his wife, Helen, have two children, a daughter, Mrs. Nancy Fette and a son, James, a student at Georgetown University.

BREAKFAST IN BED FOR A KING-SIZE FAMILY — Toronto, Can. — For the first, and possibly the last, time the Tremblay Family, all 18 members, is shown having breakfast in bed together with a maid doing the serving. The family was brought to Toronto from their home near Quebec by a tire company and installed in a luxurious Toronto hotel. Mr. and Mrs. Emile Tremblay (at far end of the row) have had 16 children in ten years.

JAILED FOR "DOGNAPING" — Los Angeles, Calif. — Sox, a brown and white puppy with a wagging tail and a yearning look, ponders his plight as he is stroked by Miss Kay Reese, 23, in Los Angeles City Jail today. Miss Reese was arrested and accused of dognaping. She assertedly said she grabbed Sox and ran, after the owners refused to sell the puppy to her.

JUST OUT FOR A DRIVE — Ft. Chaffee, Ark. — Pvt. Malcolm D. Zachary of Houks, Miss., an instructor at the Automotive Maintenance School here, proves it's no trick at all to drive a jeep through five feet of water — if you don't mind getting a little wet. The demonstration is part of water-readying vehicles for fording rivers.

This Week In AMERICAN HISTORY

BY WILLIAM BRODIE

THE "WHISKEY REBELLION"

On November 13, 1794 about 200 of the "whiskey rebels" in western Pennsylvania were arrested by Federal troops. And the first rebellion against the U. S. Government came to a quick end.

It started in 1791 when the excise tax was passed. This was a tax on distilled spirits, one of Secretary of the Treasury Alexander Hamilton's measures to provide money for running the new government. This excise tax was greatly resented by the farmers across the Alleghany Mountains in the western part of Pennsylvania.

The western frontier land of Pennsylvania was settled mostly by hardy farmers of Scotch-Irish descent. Grain was their main crop. But the long haul to the eastern markets across the few and bad mountain roads made it difficult for the farmers to sell their grain. Moreover, Spain, in possession of the Louisiana territory, had closed the port of New Orleans to American boats. The western farmers were thus deprived of the easier and cheap water route down the Mississippi to the sea.

If the farmers could not ship their grain at a profit they could make money by distilling it into whiskey which could be carried out on horseback across the mountains. They were bitter against the excise tax for it wined out their profit on whiskey. The frontier farmers could not see why they should be made to pay a tax "for drinking their grain more than for eating it." The whiskey tax seemed as unfair to them as the stamp tax had

seemed to eastern colonists 25 years earlier.

Opposition to the whiskey tax grew until in the summer of 1794 it broke out in open rebellion. Revenue officers were attacked, the houses of tax collectors burned. Mobs forced Federal inspectors to flee for their lives. The local authorities were helpless against the rebels.

President Washington issued a proclamation commending the rebellious farmers to obey the law. He also sent a commission to deal with them. But these efforts failed. Now the defiant farmers were testing the power of the federal government in an insurrection against it. Could the Government meet the test?

President Washington called on the governors of Pennsylvania, New Jersey, Maryland and Virginia for 15,000 militiamen. Governor Lee of Virginia was placed in command, although Hamilton went along and actually directed the troops' movements. When the army crossed the mountains, the rebels scattered. There was no bloodshed, and with the arrest of the leaders the revolt was over by the middle of November.

From then on the law was enforced and the whiskey tax paid. Hamilton had 20 of the leaders brought to Philadelphia for trial. Only two were found guilty, and President Washington pardoned them.

The U. S. Government had met the first real test against its authority and proved its strength under the Constitution, then only five years old.

—by OJAY

The opinions expressed in this column are exclusively those of the writer and do not necessarily reflect the policy and opinion of The Chronicle.

Mayoralty Secretary **Louis Infald** will be back in the city's official family at the turn of the New Year . . . this time, however, it is expected that he will find a more important and more lucrative post . . .

There are any number of **Iz Zabolinsky's** former buddies who are more than just a little disappointed in his action to force Sheriff Tattersall to reappoint him to the spot of undersheriff which went to **Frank Davenport** . . . Zab should have known what to expect after the private confab held as far back as Labor Day . . .

They're whispering in and about Hackensack that a certain young man whose tenure will expire shortly will find himself in a very embarrassing situation before very long . . .

There is a great deal of speculation throughout Passaic County as to what Commar. **Bernard J. Manney** will be doing from here on in. A former staunch Democrat, Manney in recent years has resisted advice from party leaders and friends . . . Nevertheless, since last Tuesday's debacle his "peace feelers" haven't been too well received as yet.

The Democratic city office-holder who has enjoyed rather generous treatment at the hands of the Republicans ought to temper his elation over a Democratic victory with a little more discretion—and a sense of gratitude . . . He should always bear in mind that his new found Luck(?) may only last for three years . . .

"Jim" Minchin and **Ethel I. Hayes**, elected to the Totowa Borough Council, did a splendid job of campaigning in an area considered a Republican stronghold. Both are fine, public spirited citizens. This will be Mrs. Hayes second trip on the all-Democratic council . . .

Walter H. Jones, the self-styled GOP leader of Bergen County, is finding it rather difficult to explain "wha' hopen" in the area where he told the GOP high command that his group would produce a 70,000 majority . . . Actually, the big lump predicted was sliced down to a mere 17,000 . . . It appears that his burning ambition to replace Sen. H. Alexander Smith "is up the flue" . . .

In West Paterson **Herb Nochimson**, who did an indefatigable job for the GOP, is slated to become Magistrate on Jan. 1. He will replace Dominic Cavaliere.

Despite several closed sessions, to press and public, Robert Ormsby, head of UAW 669, was reportedly quizzed in an all-day session Tuesday in the counter-charges being heard by a hand picked union jury. Odds are that the Ormsby suit will never get to the civil courts . . . The betting fraternity seem to lean toward a complete ouster of the Ormsby slate by next election.

THE SPORTSCENE

SOUTH ORANGE—The basketball picture at Seton Hall University looks bright as the Setonia Pirates start their 16th cage season under the helm of Head Basketball Coach John (Honey) Russell.

They lead off their season at home on Dec. 4th when they tangle with Toronto University here at the Hall gymnasium in an 8:30 p. m. encounter.

17-10 RECORD

Last year's top notch quintet had an outstanding record of 17-10 and for the sixth time in seven cage campaigns they qualified for the National Invitation Tournament at Madison Square Garden.

After last season's 17-10 mark, Russell now sports a terrific record at the helm of the Pirates as he has a respectable 258 wins as against just 91 setbacks for a winning percentage of .737.

LOST TOP FOUR

The veteran tutor will have his work cut out for himself before the Pirates open the '57-'58 campaign as he has lost four of his top-flight stars from last season's great crew.

No player can make up for All-American Dick Gaines, the top scorer, along with three other stellar performers in the appearance of two of last season's top rebounders in 6.7 Marty Farrell, along with 6.9 Ed Chesney and jump shot artist Charles Lorenzo.

KEY PERFORMERS

Key returnees for the coming campaign are 6.10 Tommy Cross, 6.4 Phil Samuels from East Orange, Ronnie Berthasavage from Florence, along with Paul Szczech from Garfield. Paul figures to start and see plenty of action in leading the Pirates to another winning season.

OTHER STANDOUTS

Other leading lettermen on the club returning are Richie Bucklew, Vinnie Ryan, of Newark; Julie Nicolai, from Fords, and Tony Comeleo, former All-State performer from Lodi High School.

SOPHS MAY HELP

Top-rated Sophomore Candidates are Jack Rowley, a 6.5 performer and Seth Hicks a 6.3 backcourt star who was the standout on the Frosh team and incidentally he was the leading scorer with 432 points.

Others that may come up to the Varsity this coming campaign are Barry Epstein, Connie Egan from Montclair and Billy Nelson of Perth Amboy.

SPORTS SHORTS

Ronnie Simon from Paterson Eastside High School will play his basketball this year at Rutgers University.

Last season he led coach Mickey Spinelle's club to the Passaic Valley Conference basketball title.

On the gridiron another pair of ex-Undertaker stars are also shining out as Charley Ehin holds down a lineman spot on the COLGATE UNIVERSITY team while Reggie Powe is in the backfield at VILLANOVA.

Benny Gantt, who led Paterson Tech to a 15-5 record during the 1956-57 scholastic basketball campaign is attending MISSISSIPPI SOUTHERN on an athletic scholarship.

Frank Holterhoff, ex-St. Johns cage player, will display his charms this coming campaign at PATERSON STATE for mentor Ken Wolfe.

EMISSARY—The King's emissary (Jim Backus, above), a snobbish dandy, who is bored and contemptuous toward everything around him, is shown in a scene from the 90-minute filmed special — "The Pied Piper of Hamelin"—an NBC colorcast Tuesday, Nov. 26.

Education at Crossroads

The cost of schools is a burning problem in almost every American community. School taxes are at an all-time high. Even so, classroom shortage is estimated at 200,000. And school population increases at the rate of 1,250,000 a year.

These facts give weight to an article in the September issue of The Reader's Digest. Written by Holman Harvey, its title is a clue to its point and moral—"Do School Pupils Need Cos Palaces?"

Mr. Harvey begins by describing two new schools. One is an attractive plant. It has 14 cheerful classrooms, is designed to accommodate 350 grade-school children, and was built at a cost under \$400,000 or about \$28,000 per classroom. The other has the same number of classrooms and the same \$80,000 per classroom, or practically three times as much.

Why was this so? The reason is simple. In the first school, half of the space is given to teaching space—that is, classrooms. In the second school that is true of less than 25 per cent of the space. And this school is not exceptional in this regard. So, to quote Mr. Harvey, "While school funds are lavished on facilities befitting an exclusive club, America is in a desperate plight for lack of classrooms." Then, to make matters worse, "... most schoolteachers of the nation—the root of schooling our children need—are trying to live on salaries which no self-respecting bank would offer a junior clerk."

A recognized authority on construction said, "The waste of taxpayers' money in school building is fantastic," and goes on to describe some examples. One recently built high school has a \$750,000 gymnasium, and another a \$300,000 auditorium. A projected \$1 million grade school will have an auditorium with a three-stage theatre attached; a gymnasium, a library with an open fireplace, a teacher's smoking lounge, two stainless steel kitchens, and so on. Maintenance costs will be heavy. Soon the town will need another school—because of lack of classrooms.

There are many needless wastes in schoolhouse construction. It has been proven excellent schools can be built at far lower square-foot costs than are common today. This is done by use of new types of plans, new materials, labor-saving techniques, etc. Multipurpose rooms, by reducing the number of separate rooms needed, are highly economical. Carefully planned schools, constructed of first-quality materials and with all required facilities, have lately been built for about \$10 a square foot and less. Lavish schools may cost as much as \$30 a square foot.

Mr. Harvey ends on a note of advice. Here it is: "... since school boards are responsible to the citizens, you, as a voter, can stop the increase of your school taxes if you'll act on the knowledge that pupils don't ask for or need palaces that architects dream up. Remember that our first need is for better-paid teachers—and for 200,000 new classrooms."

No Wonder We're Cockeyed

The Editor Speaks

VINCENT S. PARRILLO

There has been a lot of big noise lately about the increase in juvenile crimes all over the country. For every juvenile action, people have come up with two or three suggested remedies to cut it down. There have been at least forty-seven million ideas on how to curb it and yet no one seems to be able to put the finger on what really motivates some of the kids.

Juvenile delinquency is not only on the upgrade in the big cities, but it exists in the little villages and townships in every corner of our country.

Recently, in a little town with a population of slightly over 300, three teenagers were nabbed stealing candy, cigarettes, comic books and other stuff of little value.

In another town, the son of a respectable merchant, whose wife is very active in church and club affairs, was pinched for burglary. And there have been others, too. All children of well-known, decent parents.

Somebody comes up with the idea that it's because of lack of recreational facilities and planned program. Well, in these rural communities where there are hundreds of acres of country land and all kinds of swimming facilities. How much does a kid have to have in order to "recreate"?

Something is wrong. There is nothing wrong with our police forces. Most police officers do a fine job of guarding our interests. I believe the weak cog is with our moral forces. Unfortunately, it will take much longer to get us back on the right path morally than to apply a "cure" of additional policemen.

It seems to me there ought to be more and quicker getting together of parents, teachers and clergy to find out first what and where the disease is and then to find a better remedy than night sticks and police badges.

Until we know the origin we will never be able to find the cure. Perhaps a little self analysis might help a lot.

Legislative Plans for '58: President Eisenhower and advisors have tentatively drafted part of the administration's proposed legislative program for the 1958 session of Congress.

Indications point to heavier spending for military missiles, with proposed offsetting economies in manpower and conventional weapons, in addition to those ordered. It is likely that in a missiles program speedup, Congress will provide more funds than the President asks.

It is reported the President will avoid outright advocacy of a tax cut in his January message. It is expected he will ask Congress to wait and see how the Treasury fares through April.

The President will ask Congress to wait and see how the Treasury fares through April.

The President will ask Congress to increase postal rates, permitting a modest pay increase for postal workers.

In Social Security, the administration may propose some liberalization—to head off the possibility that Congress in an election year will vote more drastic changes.

Politics: Among Republicans who will be running for office next year there is a movement to encourage them to run as "traditional" rather than modern Republicans. Representative Simpson of Pennsylvania, chairman of the Republican Congressional Campaign Committee, has urged next year's candidates to advocate "basic Republican philosophy" in their campaigns.

Representative Simpson has long been recognized as a member of the conservative wing of the Republican party.

"Well, if big, black cigars make your husband sick, why don't you stop smoking them?"

A socialite was relating his recent experiences to members of his club. "I fell off my horse and broke my ankle," he began. "My horse picked me up with his teeth, flung me into the saddle, raced home, put me on my bed and then got a doctor."

"What a smart horse," the friend agreed. "Not so smart . . . that darn fool horse got a horse doctor."

A Texas farmer found uranium on a farm he hadn't been able to give away. Now he's content with his soil bank, since it has such a nice deposit.

The best way to tell whether a man is having a good time at a party is to look at his wife's face.

Sign outside a New York corset shop: "If you're 20 and want to look like 40, that's your business. But if you're 40 and want to look 20, that's our business."

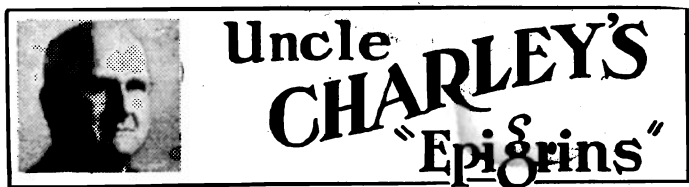

When the eager heirs assembled to hear the reading of the rich man's will, the first sentence put a swift end to their high expectations. — "Being sound of mind," the document began, "I have spent all my money."

Jr. Hinch thinks a bum steer is a tough steak.

Millie Wright would like to go steady only she's too shaky.

Jr. Hinch was asked what state he lived in, he said: "The state of confusion."

Jr. Hinch thinks a Russian soldier is an army guy that's in a hurry.

Every time Tubby Tyler gets a bad bellyache he starts going to church.

Too many folks try to get their cheer with beer.

When the Ridge Corner parson pours it on the congregation shakes it off.

HOLLYWOOD TALK . . .

The week of Mike Todd's television birthday broadcast of "Around the World in 80 Days," the picture grossed more than \$1,300,000 . . . George Jessell signed to make record album of Irish melodies for Vik Records . . . Brenda Lee is working on her new picture "Miracle in Soho," will play "Alphrodite Goddess of Love" . . . Warner's contract player, Michael Dante, is now designing men's clothing. He has just finished working on a feature role of Clint Walker's picture, "Fort Dobbs" and has completed a design for two-tone men's trousers, which a leading manufacturer may put on the market next summer.

THE CASH BOX . . .

The top ten record juke box hits of the week, according to Cash Box, are "Wake Up Little Sisie," by the Everly Brothers; "Jailhouse Rock," by Elvis Presley; "Chances Are," by Johnny Mathis; "Honeycomb," by Jimmie Rodgers; "Fascination," by Jane Morgan; "Silhouettes," "Happy, Happy Birthday Baby," "The Tune Weavers," "Be Bop Baby," Rickey Nelson; "That'll Be the Day," The Crickets; and "Diana," by Paul Anka.

"We've noticed a trend in the thinking of the American people since the war. 'Let George Do It' is becoming a more and more popular attitude . . . Perhaps we should return to the old-time policy of hell-raising every time we see a crooked politician or a bad deal. Maybe hell-raising isn't polite but it is effective—and it's AMERICAN!"

"Maybe if we ignored the civilized peoples of the earth like we do the uncivilized people we would have no more trouble with the civilized than we do with the uncivilized."

"Hear about the careless hunter who climbed through a fence with his gun cocked? The reports are he is survived by his wife, three children and a pheasant."

"When big people get together, they discuss ideals, when average people get together, they discuss things, and when small people get together, they discuss other people."

Dorothy Thompson says: "Don't people understand that juvenile delinquents are the result of ex-cruciating boredom? Of rebellion against a life where everything is planned, analyzed and channeled into a 'correct' pattern of 'social behavior'?"

On the light side: An English teacher offered a pie to the pupil who would write the briefest essay on two of life's problems. The winner used only one word: "Twins".

Remember the words of the Lord Jesus, how He said, It is more blessed to give than to receive.—(The Acts 20, 35.)

Often, when spontaneously bestowing a friendly smile upon a lonely person, or a word or deed of help and encouragement to one in distress, we have been wondrously rewarded by such an inner satisfaction as a fortune in dollars could not equal. Indeed we are blessed when we give, unselfishly, and in love.

**OR... the
happy housewife
who knew all about
SAVINGS BONDS**

Once there was a man who didn't like salami. But one day his wife slipped a salami sandwich in his lunch box.

"I'll dress it up with a little pickle and mustard and he'll never know it from ham," said the wife.

But he did. He took one bite of the sandwich and put it back in his lunch box—along with a U. S. Savings Bond he wanted to take home.

That night his wife cleaned out the lunch box and burned its contents—salami sandwich, waxed paper wrappings, Bond—and all.

Now it was the husband's turn to be burned up.

But the happy housewife, who knew all about Savings Bonds, explained that all her husband needed to do was to fill out a form, send it in to the Treasury, and his Savings Bond would be replaced free of charge. Which he did—and they did.

This true story, suggests one of the many reasons why it's so sensible to put savings in Bonds. There are many more. For one, in Bonds your principal is guaranteed. For another, your rate of return is assured.

And now every U. S. Series E Savings Bond bought since February 1, 1957 pays a new, higher interest—3 1/4% when held to maturity! It matures faster, in only 8 years and 11 months. And redemption values are higher, too, especially in the earlier years.

That's why so many happy housewives are urging their husbands to invest regularly in U. S. Savings Bonds. Why don't you join them—today?
