

Announcement.

RÉDUCTION IN PRICE OF KINETOSCOPES AND KINETO PHONES.

We take pleasure in announcing that, in consequence of advantageous arrangements having been made with the manufacturers, the price of Kinetoscopes hereafter will be \$250.00 per single machine; former price, \$350.00. In lots of four or more, \$225.00 each; former price, \$325.00.

The Kineto-phone, which reproduces both music, articulate speech and moving figures and objects (this being Mr. Edison's own combination of the Kinetoscope and Phonograph), we now offer at \$300.00; former price, \$400.00.

The marvelous earning power of the Kinetoscope has been fully demonstrated by practical tests, and the new Edison-Combination has fully doubled the receipts of some of the parlors in which it has been shown. Mr. Frank Harrison, of Atlanta, Ga., says: "I have the Phonographic Attachments in. They are working nicely and giving perfect satisfaction, and my receipts have run up to more than three times what they were before." The Kineto-phone (the new combination machine) is indeed a wonder and a marvel. The exhibition of Kinetoscope subjects in conjunction with appropriate music makes the Kineto-phone a complete and most attractive exhibition device.

One of the new machines is now in operation in the Company's office. The film is the First Act of "The Milk White Flag," and as the band is seen coming into view in the Kinetoscope, the music bursts forth with a volume and melody that is truly wonderful and realistic.

While those heretofore listening to the Phonograph have been compelled to draw upon their imaginations in forming an idea of the artist or specialist who rendered the music or dictation listened to, and while those looking at the Kinetoscope have seen the figures acting in pantomime only, this combination machine reproduces both the sounds and motions of the subject in a life-like manner.
