Special Notice.

In ordering by telegraph or cable use code word following each title. Customers ordering films by code should be careful to spell out the code words exactly as they are printed in the catalogues, as wrong spelling often causes confusion and delay in filling orders and in some cases necessitating our telegraphing the customer for further instructions.

Terms.

Cash with order, or C. O. D. when accompanied by reasonable deposit to guarantee charges and delivery. Goods not sent on approval. We use nothing but first class material throughout.

A Request to Exhibitors.

We desire to broaden our field of subjects so as to be in a position to supply and list all films that will meet with the requirements of all classes of exhibitors. Many exhibitors have ideas for new films which they would like to see carried out. We will be pleased to receive suggestions from our customers as to new film subjects. When sending in such suggestions we would request the exhibitor to write them as plainly as possible. We will execute the ideas provided we find them practicable, and in this way motion picture exhibitors will doubtless be able to secure special subjects that are particularly desirable for their exhibitions.

PRESERVE FOR FUTURE REFERENCE.

Mr. Edison's Latest Discovery Has made a complete revolution in our printing and developing departments. We now employ an entirely new process for making animated film subjects. The results surpass anything hitherto produced. The pictures when projected show great improvements both in clearness and definition, and have that mellow tone which has so long been sought for, but not until now obtained.

We will shortly announce a number of new and startling features in Animated Pictures.

Such films as President McKinley's last speech, the funeral ceremonies at Buffalo, Washington and Canton will offer material for accurate description that was impossible previous to Mr. Edison's invention of the KINETOSCOPE and motion pictures.

Film Coloring We have improved our coloring process both in quality and rapidity, and are now prepared to furnish in appropriate tints, all films that are suitable for coloring. All ordinary subjects which contain from one to four figures, $5.00 for each fifty feet. Special prices will be quoted on coloring all subjects which contain more than four figures and on all special subjects. It will take from one to two days for the coloring of 50-foot films; other lengths proportionately longer.

IMPORTANT ANNOUNCEMENT.

Class A Films.....$7.50 per 50 foot length.

Class B Films.....$6.00 per 50 foot length.

Longer or Shorter Lengths in Proportion.

To counteract the effect of cheap films, duplicates, worthless subjects and *short length* films that are being offered in the market, we are listing our *Genuine Edison Films* in two classes. Some of our subjects cost us large sums of money to obtain, while others are procured at a nominal cost. Therefore, the films of inexpensive subjects, we shall list as Class B at the net price of $6.00 per 50 feet. Those of the newer subjects and more expensive to get, will remain at $7.50 per 50 feet. REMEMBER, we are manufacturer's prices and the best materials are guaranteed. The quality of Class B films is precisely the same as Class A. The above prices are strictly net. There are no discounts.

OPERA OF MARTHA.

The Second Act of this beautiful opera . Unbefleckt

Class A Price reduced to 15 Cents per foot.

Complete Set $195.00 (reduced from $320.00).

Consists of five scenes, about 1,300 ft.

1. Duet outside the Inn. **2.** Quartette inside the Inn. **3.** Spinning Wheel Chorus. **4.** Martha singing "Last Rose of Summer." **5.** Good Night Quartette. This film shows a quartette of well-known opera singers acting and singing their parts in this ever popular opera. The subjects are taken with the greatest care and the films manufactured by the Edison Manufacturing Company. Managers can arrange to produce this exhibition throughout the country, and can obtain a quartette of church singers to remain behind the scenes and sing the parts and produce a remarkably fine entertainment, besides giving a local interest to the same by utilizing local talent. If it is desired to do so, however, the quartette can be engaged to travel with the exhibition.

THE GREAT BULL FIGHT.

This must not be confused with incomplete and more or less imperfect bull fight pictures which have been sold in short lengths from time to time. Remember, that we here show in 1,000 feet, a complete bullfight from start to finish. By the aid of a specially designed panoramic camera, and by special arrangements with Sr. Antonio Fuentes and Sr. Luis Mazzantini, we are able to keep the bull within the field of our lens during the entire fight. The bull and the fighters are also very close to

THE VISIT OF PRINCE HENRY OF PRUSSIA.

ILLUSTRATING THE GREATEST INTERNATIONAL EVENT OF THE TWENTIETH CENTURY. EVERY FILM OF PRINCE HENRY IS A HEADLINER.

We beg to advise our patrons that owing to the fact that we were granted exclusive concessions by the Townsend & Downey Ship Building Company of Shooters Island, N. Y., to make motion pictures of the launching and christening of Kaiser Wilhelm's yacht "Meteor." We are able to furnish a marvellous set of pictures, showing the chief occurrences and the leading officials and civilians taking part in them. These ceremonies took place on February 25th, 1902. We had exclusive permission from the government (which permission was signed by Dr. D. J. Hill, Assistant Secretary of State), allowing one of our operators to accompany Prince Henry's special train. This permit carried with it the entry to all ceremonies connected with the entertainment of Prince Henry. REMEMBER we have the ONLY GENUINE pictures of Prince Henry ceremonies. All others must be either fakes or copies. The Prince Henry pictures will positively not be sold in shorter lengths than those given in this catalogue. The ceremonies are described in separate subjects as follows; but customers desiring the entire series will secure them connected together with dissolving effects introduced

PRESIDENT McKINLEY AT THE EXPOSITION.

Our cameras were at work at the Pan-American Exposition during President McKinley's entire visit, and we recorded many scenes incidental to the coming and going of the Presidential party. We were also fortunate enough to have our camera in position while President McKinley was making his speech at the Pan-American Exposition, on Thursday, September 5th, 1901, and thus secured a picture of our Executive while making the last address before the cowardly assault upon his life. On Friday, September 6th, 1901, we also had our cameras in position to photograph the President as he left the Temple of Music, but the deplorable assassination, of course, prevented our getting this picture. We did, however, secure an excellent panoramic view of the mob surging in front of the Temple of Music attempting to get at the assassin. These pictures have created intense excitement and interest. In addition to being the best and easiest recognized views of the President and Mrs. McKinley, they depict the last acts of our beloved ruler before he was shot. Our cameras were the only ones at work at the Pan-American Exposition on the day of President McKinley's speech, Thursday, September 5th, and on Friday, September 6th, the day of the shooting. We secured the only animated pictures incidental to these events.

SPECIAL ANNOUNCEMENT.

Letters and telegrams from the leading exhibitors throughout the world advise us that the series of pictures of President McKinley at the Pan-American, and the President McKinley funeral ceremonies at Buffalo, Washington and Canton, have drawn crowds never before accorded since the inception of motion photography. The Proctor's, Keith's and Showman's who are featuring these pictures and also those who are adding them as box strengtheners, tell us they are playing to packed houses.

JEFFRIES-RUHLIN SPARRING CONTEST.

On the night of November 15, 1901, James J. Jeffries, of Los Angeles, California, and Gus Ruhlin, of Akron, Ohio, engaged in a sparring contest in the ring of the Twentieth Century Athletic Club, at Mechanic's Pavilion, San Francisco. By special arrangements with the promotors of the contest, Messrs. J. C. Kennedy, Wm. Madden and Wm. Delaney, our cameras were on hand, and we secured authentic pictures of the contest. In order to record these pictures, it was necessary to specially equip the building with a large number of arc lights. To this end no expense was spared, and when the fighters entered the ring it was illuminated with 300,000 candle power of light. Thus we are able to present to our customers, not imitation or fake pictures of the contest, but the actual exhibition just as it took place, with the audience assembled. The pictures that were secured show every movement in the contest, from the time Jeffries entered the ring until he left it a victor, in the 5th round. We give herewith an outline of the salient points of the exhibition by rounds. When Jeffries came through the throng and clambered into the ring there was great cheering. Ruhlin also received his share of encouragement when he arrived a moment later. Once in the ring the opposing factions showed the best of good nature. The preliminaries were arranged, Jeffries and Ruhlin shook hands pleasantly as they passed from one corner to the other across the canvas. The fighters were then introduced by Billy Jordan, the introduction causing a sensational shout. Captain Wittman, of the San Francisco police, then appeared to examine the gloves. Immediately he had left the ring the fighters shook hands and "went at it."

THE GALVESTON CYCLONE.

At the first news of the disaster by cyclone and tidal wave that devastated Galveston on Saturday, Sept. 8th, 1900, we equipped a party of photographers and sent them by special train to the scene of the ruins. Arriving at the scene of desolation shortly after the storm had swept over the city, our party had [illegible] the risk of [illegible] [illegible]

[illegible]

that Galveston was under martial law and that photographers were shot down at sight by the excited police guards, a very wide range of subject has been secured.

The series, taken as a whole, will give the entire world a definite idea of the terrible disaster, unequaled since the Johnstown flood of 1889. The following pictures are all copyrighted and fully protected by law. They are made from the original negatives, taken at a great expense, and expressed to us immediately after they were taken. We will prosecute anyone who copies or uses copies of these films.

These films drew immense crowds at Eden Musee and Proctor's vaudeville houses in New York City.

Procure these films and increase the receipts of your exhibitions. This great disaster, which startled the entire world, has made an indelible impression on the minds of the public, and everyone will be interested in seeing authentic moving pictures of a representative American city almost entirely wiped out by the combined power of water and wind. The films we list below are genuine, and ours are positively the only animated picture films secured while the city of Galveston was in a state of chaos.

NEW YORK'S WELCOME TO THE WAR SHIPS.

On Saturday morning, August 20, 1898, six grim black battleships of Admiral Sampson's Squadron sailed into New York Harbor and up the Hudson to receive a welcome from the people and to fire a salute of victory in sight of the tomb of the great soldier-hero of another war. We present the following films to the public as our share in the celebration, by means of which we not only satisfy the curiosity of people living too far distant to be present, but also perpetuate forever the glory of the occasion.

THE ESTABLISHED POPULARITY OF MOVING PICTURES

LED MR. EDISON to believe that a series of views photographed in various parts of the world would prove a most valuable addition to our list of subjects, thus combining instruction with interest.

We therefore sent an efficient corps of photographers on an extended tour, and the results are now placed before the public. The pictures cover noted natural scenery and institutions, places of interest in cities, and scenes depicting phases of life, customs, amusements and occupations, characteristic to the different localities in which they are taken. The views are actual reproductions, and in every instance photographed from life. We feel satisfied they are of the highest interest to the public, thereby increasing still more the popularity of moving pictures, especially when presented through the efficient and satisfactory "Edison Projecting Kinetoscope." Send for a descriptive pamphlet of the latest models.

OCCIDENTAL AND ORIENTAL SERIES.

The following subjects were taken aboard ship and in the Orient; China, Japan and Hawaii being the countries in which the scenes were taken. It is entirely due to the obliging courtesy which distinguishes all the high officials of the Occidental and Oriental S. S. Co. of San Francisco that the efforts of our artists proved so successful. We are indebted also to the kind cooperation of the captains and officers of the fine vessels of this fleet for our pictures of ship life.

The Adventures of Happy Hooligan.

A new series of comic pictures, in which the principal character, Happy Hooligan, Esq., a most disreputable looking tramp, has a number of wonderful and side-splitting adventures, from which, however, he always emerges triumphant, only to get into trouble again by a new prank. Undoubtedly the greatest set of comedy pictures ever invented. An added charm is lent to these pictures by the fact that the surroundings of each film consist of the most beautiful and picturesque scenery.

MARTINIQUE CALAMITY.

Reports from leading exhibitors tells us that Mt. Pelee films are attracting large crowds to their motion picture performances, and that they are coining money by featuring these wonderful films.

Coloring. The price of coloring the Mt. Pelee films, $8.00 per fifty feet. For this price we color all details in the film, including the flame and smoke. Coloring adds greatly to the effect of the volcanic films.

GENUINE PICTURES OF THE RUINED CITY OF ST. PIERRE, SMOKING MT. PELEE, FORT DE FRANCE AND OTHER HISTORICAL SCENES INCIDENTAL TO THE GREAT CALAMITY.

On May 28th, 1902, our staff photographer returned from Martinique on the steamship "Korona," and brought with them a complete series of typical and genuine Martinique films, which, when exhibited in connection with our Mt. Pelee films, will make a complete show in themselves.

Our photographers were dispatched to the scene of the disaster immediately after the news reached this country, and during the next two months succeeded in procuring a set of moving picture negatives that are not only of extraordinary interest on account of the subject matter, but also photographically of rare excellence.

The film "Storm at Sea off Martinique after the Eruption" is the finest sea storm picture that we have ever produced. In other respects the films are genuine, being the only true moving pictures ever [illegible] following upon a volcanic eruption of such magnitude.

The films showing native women give a clear idea as to the manual labor performed by the sex and other native customs; the panoramic views furnish the first adequate representation of the devastation, the utter annihilation of animate as well as inanimate objects that accompanied the eruption.

These views bear proof of genuineness within themselves, if such proof were necessary.

JACK AND THE BEANSTALK.

A grand spectacular performance in nine scenes and one tableau, illustrating the most popular fairy story ever written.

When selecting a special film as a headline attraction to your entertainment REMEMBER that this fairy story is known to every child throughout the civilized world. It has been printed in every language, read in every nursery and appeals to every boy and girl, because they have recently read it and dreamed of it. It appeals to every man and woman, because they remember it as one of the most pleasant illusions of their childhood.

From this very simple and popular fairy tale we have produced a most pleasing, interesting and mirth producing play in motion pictures, introducing therein many surprising new tricks and dissolving effects. The subject was carefully studied, and every scene posed with a view to following as closely as possible the accepted version of JACK AND THE BEANSTALK. We have, for the purpose of producing comedy (which in reality is the life of any animated picture play), in some instances departed slightly from the story, in that we have burlesqued a few of the features; as, for instance, where the butcher trades the hatful of beans with Jack for his mother's cow, we have introduced a burlesque animal made up of two men, covered over with the head, horns and hide of a cow. This animal goes through many ludicrous antics, such as kicking, jig dancing, sitting down with legs crossed, etc., and finally, after strenuous efforts on the part of the butcher, suffers herself to be led away.

Coloring. JACK AND THE BEANSTALK offers great opportunity for coloring effects. The price for coloring the film complete, including background, figures and all details, $140. The price for coloring the figures only and tinting the beanstalk is $85.

SCENE 1.—TRADING THE COW.
SCENE 2.—JACK RETURNS WITH THE BEAN.
SCENE 3.—GROWING OF THE BEANSTALK.
SCENE 4.—JACK'S DREAM.
SCENE 5.—CLIMBING THE BEANSTALK.
SCENE 6.—JACK ABOVE THE CLOUDS.
SCENE 7.—ARRIVAL AT THE TOP OF THE BEANSTALK.
SCENE 8.—THE GIANT'S KITCHEN.
SCENE 9.—JACK DESCENDING THE BEANSTALK AND DEATH OF THE GIANT.
CLOSING TABLEAU.

The above Films are fully described in New Illustrated Catalogue No. 135. Send 2 cents in stamps to cover cost of mailing.

NOTE.—In this beautiful production, in changing from one scene to the other, transformations are made by beautiful dissolving and fading effects. There are no sudden jumps whatever, and the entire effect is at once pleasing, gratifying and comprehensive, and the audience finds itself following with ease the thread of this most wonderful of all fairy tales, JACK AND THE BEANSTALK.

CORONATION OF THEIR MAJESTIES, KING EDWARD VII. AND QUEEN ALEXANDRA OF GREAT BRITAIN.

Motion picture films of the coronation of King Edward VII., which took place on August 9th 1902 were ready for delivery from our factory at Orange, N. J., on the 18th, the Monday, next following. A cablegram from our special photographers in London on August 9th, 1902, advised us that they had secured the complete pictures on that day, that the pictures were sent to Queenstown, and placed on board the fast steamship, *"Umbria"* of the Cunard Line, Sailing Sunday, August 10th, 1902. Thus we were enabled to receive the coronation films in America at least three days in advance of mail matter which was posted in London on the day of the coronation.

Remember we had the exclusive right of kinetographing the ceremonies at Westminister Abbey, and our pictures were not only the first to arrive in America but they were *the only authentic views.*

THE EXHIBITION

Edison PROJECTING Kinetoscope

Catalogue No. K 15000 Code Word Unfardle

Price, Complete $115,00

The EXHIBITION Edison **PROJECTING** Kinetoscope **1902 MODEL** is the best moving picture machine made. The work it does combines accuracy with brilliant results. It is both a Kinetoscope and a Stereopticon, thus saving the extra cost of separate apparatus, and also the cost of extra light. The same illuminant serves for both. ONE PERSON CAN WORK THE WHOLE MACHINE. Every detail has been worked out with the greatest of care. It is the simplest and best moving picture device to be had. All parts are detachable and THE ENTIRE MACHINE CAN BE PUT INTO A HAND CARRYING CASE MEASURING 12x20x22 INCHES.

Features of the 1902 Model

The Mechanism is equipped with triple sprocket gears. The upper sprocket feeds the film from the reel into the frame device; the middle sprocket is intermittent, bringing the film to the point of exposure and stopping it for the fraction of a second required for the exposure; the lower sprocket feeds the film into the take-up device. By running the film into a loop the friction and wear on the film is entirely done away with. The mechanism is constructed entirely with gear wheels, and has no belt to cause slipping, friction or unsteadiness.

One Person Can Work the Whole Machine

The Framing Device is operated by a small lever attachment, giving an instantaneous adjustment to the film so that it is always in correct position before the frame window in front of projecting lens.

ONE PERSON CAN WORK THE WHOLE MACHINE
