## **Introduction**

It is required by the enabling state legislation and Township Ordinance that the Livingston Environmental Commission create and maintain an Open Space Inventory.

This ***Open Space Inventory*** is a listing of properties that are "of interest" to the Livingston Environmental Commission (LEC). They could be of interest because of their size, value as open space, value for recreation or as a potential greenway. Most are open spaces, publicly or privately held; undeveloped or underdeveloped; or used for active recreation. The inventory also includes all Township owned land.

For the sake of this document, the LEC has classified properties into three (3) subjective categories: defined as undeveloped, underdeveloped and developed.

undeveloped – no structure, no pavement, no active recreation playing field, or playground

underdeveloped – a piece of land that has a structure or active recreational facility but a large percentage of the site is wholly undeveloped (looked only at lots greater than one (1) acre)

developed – a piece of land that has little to no open space value; the majority of the land is building and/or pavement

This inventory is a snapshot in time. The basis of the inventory is a database of properties from 1998 merged with other available information: the Master Plan, the Recreation and Open Space Inventory as supplied to NJDEP's Green Acres, information from the Township Manager and the Planning and Building Department, tax lists and tax maps (April 1993) and visual investigations by the LEC.

The LEC's goal is that this comprehensive list will be the basis for future Open Space Planning. This document will not attempt to address the Open Space Plan for Livingston. It is viewed as a resource to be used by the Open Space Trust Committee, the Planning Board, the Township Council, the LEC, the Board of Education, the Department of Recreation and Parks and any other interested entity. The properties in this inventory are first sorted into categories and then sorted by Block and Lot. The categories used on the list and corresponding maps are as follows:

**B** = Livingston Board of Education

These lands are owned by the Livingston Board of Education. Some of these lands are developed schools and parking lots. Other parts of these lands are developed as active recreation, i.e., ballfields and playgrounds. The remainder is undeveloped woodlands. The recreational facilities are used by the Livingston Parks & Recreation as well as private clubs like the Livingston Soccer League, Livingston Lacrosse and Jr. Lancers.

- CU** = Owned by Essex County or the State of New Jersey – undeveloped or underdeveloped
- Riker Hill Art Park and the West Essex Park (along the Passaic River) are the majority of the county lands.
- G** = Golf/Country Club
- These properties are considered valuable open space. These lands are privately owned and zoned residential and therefore could be developed.
- H** = Historic Value
- The LEC has proposed no definitions on what is included here. This list is a subjective view taken by the LEC through available written lists, oral interviews, external observations and the help of the Livingston Historical Society.
- PD** = Owned by Township of Livingston – fully developed with buildings and/or parking with little or no open space value
- All Township owned lots are included in this inventory partially out of convenience and for future need. Full accounting of Township owned lands and each parcel's particular use is essential for Green Acres funding.
- PU** = Owned by Township of Livingston – undeveloped or underdeveloped
- This category is important for future planning. These are currently held for recreation, conservation or held by the township without designation. Some of the town owned pieces are small pieces known as "remnants" and are not buildable.
- Q** = Quasi-public – includes houses of worship, private schools, civic organizations and hospitals
- Many of these properties are large. The school properties are used for active recreation now. Some of these lands are contiguous to other open spaces and with the owners permission could be included in future greenways.
- U** = Utilities – Rights-of-way owned by PSE&G and JCP&L
- Could be used as open space and greenways through the use of agreements or easements. Currently a piece of the Essex County/Sierra Club's Lenape Trail follows PSE&G Right-of-Ways at the North end of Livingston.

- W** = Water – East Orange water reserve and New Jersey-American reservoir
- This is valuable open space and is zoned Conservation. In addition to its conservation value it could be used for passive recreation through agreements with its owners.
- X** = Undeveloped privately owned
- This is valuable open space. Could be purchased or donated outright. The development rights or conservation easement could be purchased
- Y** = Underdeveloped privately owned
- A larger piece of property that is only partially utilized. The development rights or conservation easement on the open space portion could be purchased.
- Z** = Approved for development or under construction

## **Column Headings**

<b>Block</b> .....	the block designation on the 2002 Tax List
<b>Lot</b> .....	the lot designation on the 2002 Tax List
<b>Page</b> .....	refers to the page number on the 1993 printed Livingston Tax Maps
<b>Tax exempt</b> .....	a "Y" is entered for tax exempt property owners
<b>Army Corp</b> .....	a "Y" is entered if the lot is on the United States Army Corps of Engineers list of properties in its Passaic River flood control program
<b>Property Location</b> .....	the street or specific street address of the lot
<b>Mistakenly designated</b>	
<b>Green Acres in past</b> .....	lots included in previous ROSI (Recreation and Open Space Inventory) in support of Green Acres applications that should not have been added under the NJDEP regulations, e.g., Board of Education owned lots, privately owned lots and Township owned lots with a use that is not primarily recreation or conservation. These designations will be cleared up in early 2003. The Township Manager is currently working with the NJDEP.
<b>FUNDED Green Acres (year)</b> .....	lots that were purchased with Green Acres funds and the year that took place
<b>Proposed current Green Acres</b> ...	lots marked "XX" are either a "funded" or "unfunded" Green Acres lot
.....	lots marked "X" will become "unfunded" Green Acres lots when a Green Acres application is next submitted
<b>UNFUNDED Green Acres (year)</b> ..	lots that by the NJDEP criteria are on the Green Acres list (the Township owned the lot for recreation or conservation purposes at the time grant money was accepted)
<b>Acreage</b> .....	the best estimation of the lot size, taken where possible from the tax map, the tax list or estimated
<b>Paved (acres)</b> .....	estimated by visual inspection and/or review of 1993 Tax Maps
<b>Building (acres)</b> .....	estimated by visual inspection and/or review of 1993 Tax Maps
<b>Active Recreation (acres)</b> .....	estimated by visual inspection and/or review of 1993 Tax Maps

<b>Passive Recreation (acres)</b> .....	estimated by visual inspection and/or review of 1993 Tax Maps
<b>Woods</b> .....	subjective designation to record the characteristics of the property
<b>Wet</b> .....	subjective designation to record the characteristics of the property
<b>Field</b> .....	subjective designation to record the characteristics of the property
<b>Historic</b> .....	subjective designation to record the characteristics of the property
<b>Value as "Open Space"</b> .....	subjective designation noted by the LEC
<b>Owner</b> .....	the owner of record on the 1998 Tax Record or best available data
<b>Comments</b> .....	LEC notes – often the actual use

**Note:** a blank in any column indicates that the particular characteristic was not assessed

## **Maps**

The attached maps are the visual representations of the Open Space Inventory and other features of the Township.

This Open Space Inventory will be included in the Master Plan as the Open Space Element to serve as a guide for future planning and development. The Open Space Inventory will be an integral resource in the development of an Open Space Plan. It will need to be maintained regularly for it to remain relevant. An annual review of this inventory will need to be conducted by the LEC with the help of the Director of Planning. This review will include a review of all public and private properties currently on this list.

1. Township of Livingston **Open Space Overview**
2. Township of Livingston **Publicly Owned Land**
3. Township of Livingston **Water Features**
4. Township of Livingston **Owned and ROSI Designations**
5. Township of Livingston **Canoe, Bear and Slough Brooks**
6. Township of Livingston **Zoning Map**

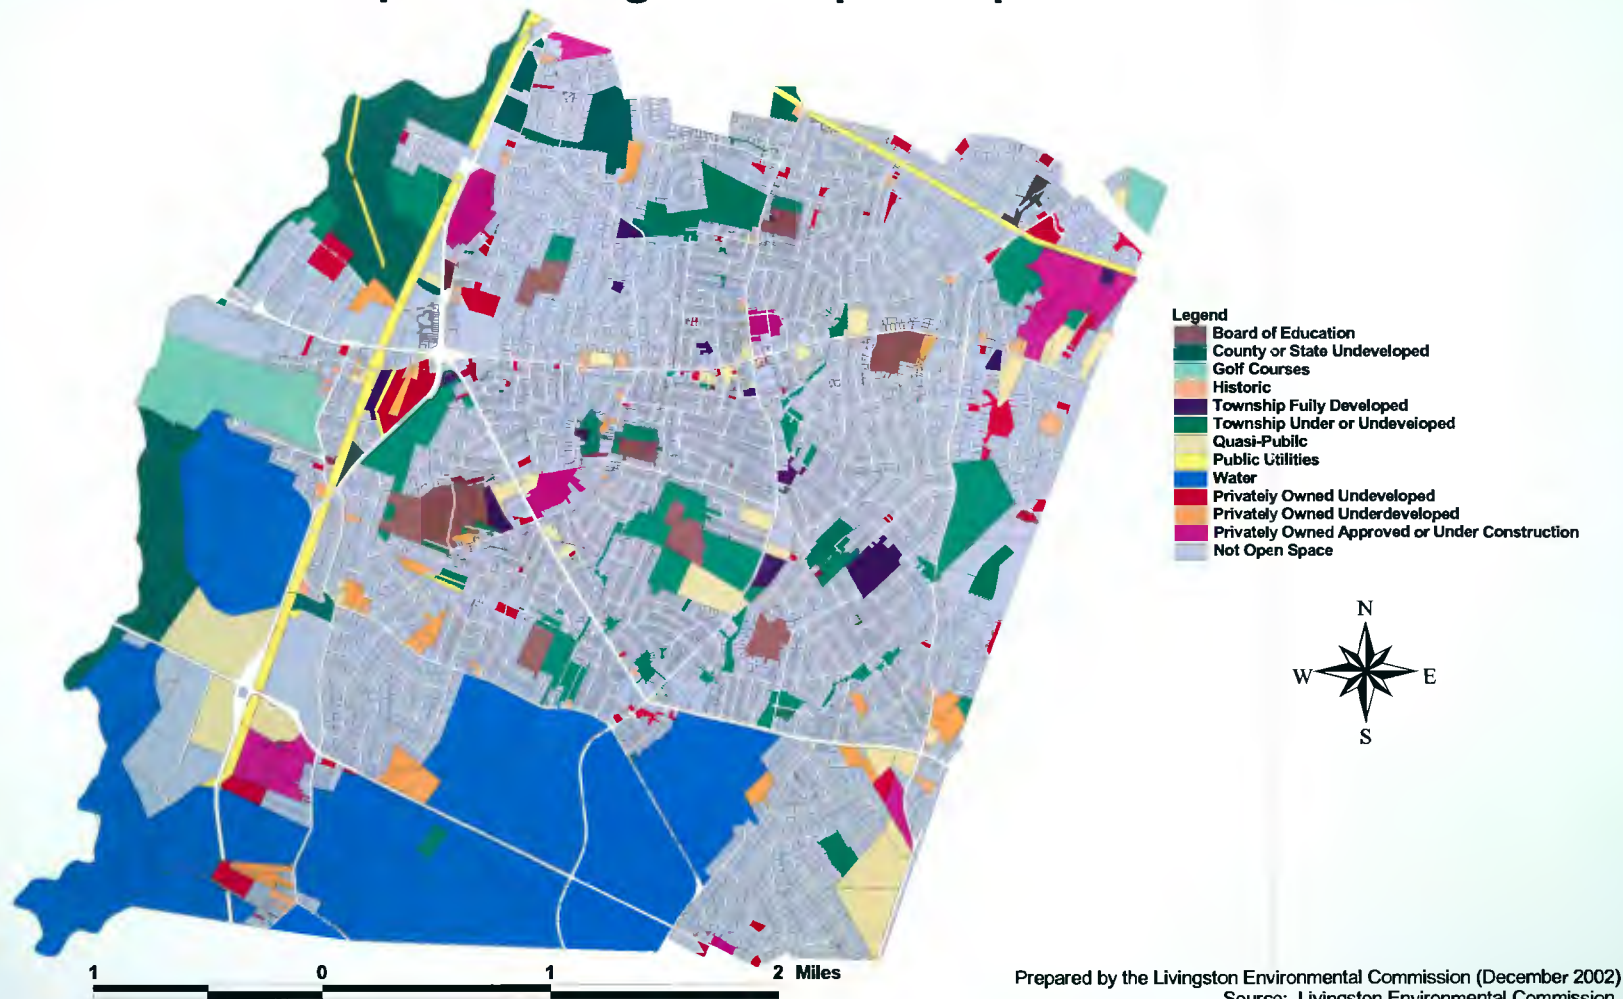

The maps were produced by the Livingston Environmental Commission using Arcview 3.2 GIS (Geographic Information Systems) software. The base parcel map was converted by Kupper Associates from the Township's 1993 Tax Map CAD Files. The CAD data was transformed from New Jersey State Plane Coordinate System NAD27 (NJSPCS NAD 27) to New Jersey State Plane Coordinate System NAD83 (NJSPCS NAD83) via Autocad Map R3. The maps were developed using GIS digital data developed under the auspices of the Department of Environmental Protection. For all data contained herein, (NJDEP) makes no representations of any kind, including, but not limited to, the warranties of merchantability or fitness for a particular use, nor are any such warranties to be implied with respect to the digital data layers furnished hereunder. NJDEP assumes no responsibility to maintain them in any manner or form.

The data layers, streams, wetlands, and floodplain are compiled on the New Jersey Department of Environmental Protection GIS Resource Data CD Series 1 Volume 3.

Note: The layers (streams, wetlands, floodplain) may not line up exactly on the correct parcel. The layers could be off by as much as 20 to 50 feet.

# Township of Livingston Open Space Overview

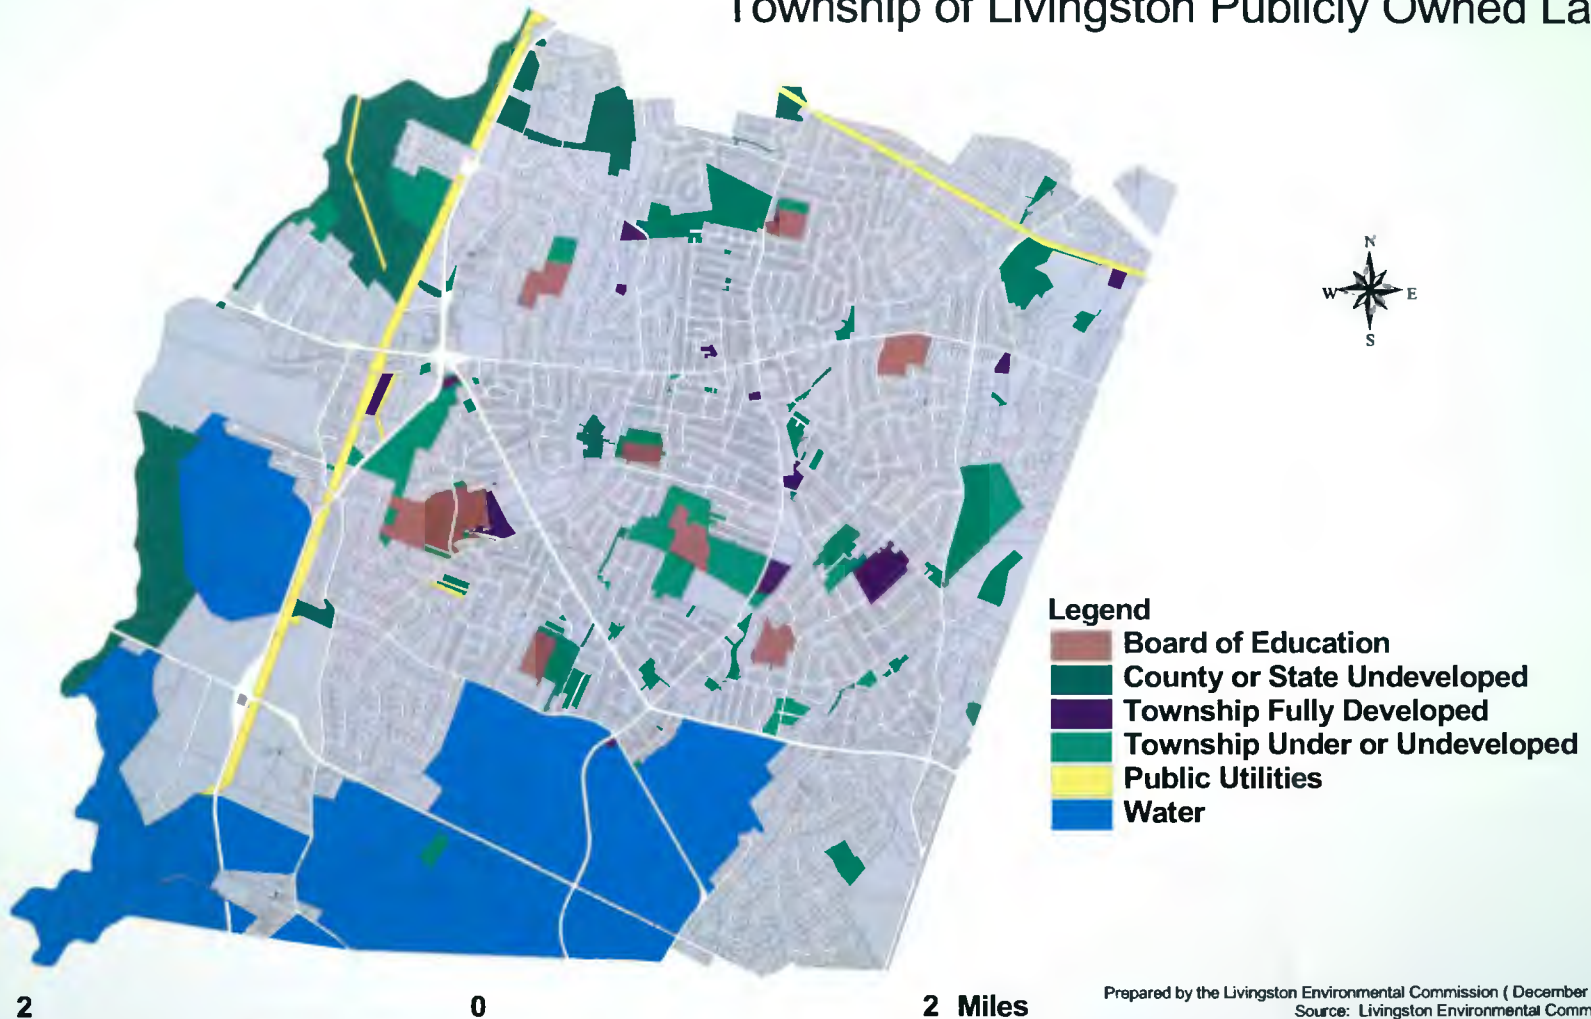

This map was prepared with the aid of a grant from the New Jersey Department of Environmental Protection Environmental Services Program.
