

JOB NEWS

Do you need a job?

Are you having trouble getting one?

Want one immediately?

If the answers to these questions are "yes," ask our farm placement representative about farm work.

New Jersey farmers need men immediately to pick, sort and pack fruit in North Jersey orchards.

The minimum starting wage is 80¢ an hour, and free housing is provided, if you want to live on the farm.

You can work up to six or seven days a week, if you want the extra money.

Was this week's check you last one? Here is a chance for healthy, outdoor work!

Remember, you can interrupt your benefit period to accept farm employment. Suppose this is your fifth check and you accept a farm job now. In virtually all cases, you can resume getting your checks after you leave the farm job if you are still out of work.
