WAS THE POSTMASTER TO BLAME?

We fear that you did not receive the report of the work your money made possible last year. As an old friend and subscriber you will be interested to see how far a penny can be stretched and with what returns in health and happiness. We are proud of our new friends, won by last year's achievements, but we cannot afford to lose our old ones. We planned this year's work on the basis of your support. Must we return to the streets eight out of every ten children who come to our door?
