New Egypt Seminary and Female College.

This Institution has been in successful operation for the past eight years. It is pleasantly located at New Egypt, Ocean County, N.J. The Village is in the central part of the State, eleven miles from Bordentown, with which there is a daily communication by stage, connecting with the Camden and Amboy Railroad. It is noted for the health and refinement of its inhabitants; and, being removed from the pernicious influences of our large towns and cities, renders it a most delightful place for a Seminary of learning. By a recent Act of the Legislature, this Institution has been chartered as a Male Seminary and Female College. Young men are prepared for any advancement in College.

COURSE OF INSTRUCTION.

The course of instruction is thorough and practical. The design is to fit students to act well their part in the great drama of life. Pupils are received at any time, and studies assigned them according to their advancement. The mode of reciting, in general, is by analysis; thereby requiring the pupil to depend upon himself for the recitation and not the text-book. This system affords a better discipline of the mental faculties. The course arranged for gentlemen is accommodated to a future college course, to commercial or agricultural life, according to the views of the pupil or parents. Declamation and Composition are required from each student semi-monthly.
