"THE MESSENGER"

1936

OLDEST AND MOST LARGELY CIRCULATED ITALIAN-AMERICAN WEEKLY NEWSPAPER IN PASSAIC AND BERGEN COUNTIES

Vol. XXIX.—No. 1207

PATERSON, N. J., THURSDAY, NOVEMBER 5, 1936

3 Cents a Copy

## F. D. R. To Press On After Sweeping Nation

### Gavin Elected Sheriff; Roberto Donohue Win

#### Only Congressman Seger Survives Tide Of Roosevelt Sentiment

Carried to victory on a great tide of pro-Roosevelt sentiment, the county Democratic ticket proved highly successful in Tuesday's election and triumphed to so decisive a degree that every incumbent Republican office-holder was swept to defeat with the exception of Congressman George N. Seger of Passaic.

Heading the list of victorious candidates was John A. Gavin, who scored a decisive triumph over Harry Page, his Republican opponent, in the race for the sheriff's post. This was Gavin's first contest for public office and his triumph indicates a successful career for him in county politics.

#### DONOHUE, ROBERTO WIN

The contest for the Assembly was completely dominated by the Democrats with Mrs. Donohue, Gabriel Roberto, Harrison and Stark emerging decisive winners. Mrs. Donohue had compiled a notable record of service as president of the Paterson Board of Education while Mr. Roberto has long been prominent as a leading Italian-American citizen of this county.

Another fine showing was made by Police Judge Walter H. Gardner who as the Democratic candidate for the state senate from this

(continued on page 5)

### DE VITA SCORES GREAT VICTORY IN 1st WARD

One of the truly notable victories registered in Tuesday's balloting was that of Michael U. De Vita who won an alderman's post in the First Ward. It was the first time the Democrats elected an alderman in that ward in 47 years. De Vita received 2,836 votes while his opponent, Peter Botbyl, Republican, tallied but 2289.

### Food Shortage Likely; Seamen Continue Strike

San Francisco — The possibility that the seamen's strike would handcuff maritime trade in every port of the country loomed stronger than ever today. Union warehousemen joined in the walk-out by refusing to move fresh fruit and vegetables stored in waterfront warehouses.

The threat of a walk-out and general strike of seamen in Eastern ports also grew ominous as mediators for both warring groups sought to reach an agreement.

The treat of a walk-out and general strike of seamen in Eastern ports also grew ominous as mediators for both warring groups sought to reach an agreement.

Meanwhile, government officials were concerned over the possibility of food shortage as sit-down strikes increased in number in ports all over the country and in Alaska

### Re-elected For 2nd Term

FRANKLIN D. ROOSEVELT

Sweeping victories in 45 out of 48 states gave President Roosevelt and Vice-President Gardner the most impressive pluralities ever piled up by any presidential candidate in the history of this country.

#### NAN TO BE FETED

#### Friends To Honor Newly Elected Assembly Member

The Hinchliffe Democratic Woman's Club will meet Tuesday night to formulate plans for a testimonial dinner in honor of Mrs. Nan Donohue, Assemblywoman elect from Passaic County.

The place and date of the affair will be determined at this meeting. Mrs. Donohue is a former president of the organization.

### GARDNER TO RESIGN HIS JUDGESHIP FOR SENATE

Police Judge Walter H. Gardner, who came through successfully in his campaign for a seat in the state senate against Charles K. Barton in Tuesday's election, will resign his police judgeship shortly, it was predicted today.

When asked about this report, State Senator-Elect Walter Gardner said: "I have nothing to say at the moment. I will make a statement within the next few days."

### Il Duce Says Italian Workers Ready To Fight

Pavia, Italy — Declaring that Italy's workers were ready to "cast aside their overalls in favor of soldier's uniforms," Premier Mussolini warned that his country was prepared "for any eventuality" in an address here yesterday.

Il Duce went on to say that Italy was prepared to defend its recent conquest in Ethiopia "against any one."

"The Italian people," he declared, "present to the world a spectacle of political, economic and spiritual unity which never existed before in history or with any other people on earth."

Mussolini's address was part of a ceremony at which public works in Pavia were formally inaugurated.

### PREPARE NEW PROGRAM FOR NEXT SESSION

#### Roosevelt Majority Nears 10 Million As Votes Are Still Counted

Sweepingly endorsed by the nation's voting populace, President Roosevelt was today drafting a broad program expanding the principles upon which his first administration upon which his first administration

While the last dregs of the nation-wide poll returns indicated that the President's final majority over his Republican opponent, Alf M. Landon, would reach the almost incredible majority of 10,000,000 votes, plans were being laid by administration executives for a program which would call for a vast low-cost housing plan, an "ever-normal granary" for farm lands, farm-crop insurance, regulation of working hours and wages, and a drive to convert farm tenants into farm owners.

#### Congress To Meet

All of these items will probably come up for consideration in the new and heavily Democratic congress which will convene on January 5.

No details in regard to the form of these proposed measures would take were available, however. The President, meanwhile, has declared that there are a "thousand and one things to do."

(continued on page 5)

## DEMOCRATIC CANDIDATES WHO SWEEPED TO VICTORY IN TUESDAY'S ELECTION

WALTER N. GARDNER  
State Senator-Elect

ERNEST T. SCHEIDEMANN

Sheriff-Elect

## North Jersey Building On Increase; 9-Months Operation Shows 140% Jump

According to figures released by F. W. Dodge Corporation, current building in the Newark area is moving forward to higher levels for total value of construction has increased 140 per cent, in the first nine months of this year as compared with a similar period last year.

January through September construction in Newark in 1936 has pyramided to \$60,439,500 making a most favorable comparison with \$28,902,600 spent in construction projects in that period of 1935. These figures represent actual construction started and do not include building permits or plans filed.

The Newark area for which the cities of Newark, Jersey City, Paterson and Elizabeth as well as the entire counties of Bergen, Passaic, Essex, Hudson and Union, with a total 1930 population density per square mile of 2,496.558 persons dividing into a density per

square mile of 3,537 persons. Since gains in total construction in the entire 27 state east of the Rock'les amounted to 71 per cent, the Newark district advance of 140 per cent is all the more significant.

The current nine month figure of \$69,439,500 is especially promising for private as opposed to public construction, for \$38,880,400 of it is going into private construction. This marks an 81 per cent. advance for the nine month period of 1936 over the first nine months of 1935 when private construction totalled only \$18,751,900.

A 67 per cent increase in residential construction in Newark and its environs is reported by the Home Owners' Catalog Division of F. W. Dodge Corporation with \$19,144,100 in the nine month period of 1936 as compared with only \$11,613,300 in the similar period of 1935.

## BROADWAY SWINGS INTO THEME OF THE "WHITE HORSE INN"

Even the tall towers of Manhattan seem to be wearing saucy Tyrolean hats these days in honor of the town's biggest smash-hit, "White Horse Inn," which recently established itself at the top rung of the season's theatrical ladder.

Opening October 8 at in Radio City's huge Center Theatre, largest legitimate playhouse in the country, the spirited new Laurence Rivers presentation of Erik Charell's notable International success clicked so impressively that the echoes of the cheering critics' gallery will reverberate for months to come.

The company of 300 is headed by William Gaxton, Kitty Carlisle and Robert Halliday. Augmenting the roster of stars are Billy House, Carol Stone, Buster West, Melissa Mason, Frederick Graham, Tommy Gavin, Arnold Korff and Marie Marion. A myriad of singers and a group of stalwart Bavarian dancers who were imported especially for

"White Horse Inn," enhance the big musical which contains more spectacular scenic effects than ever have been employed in a single production. The Center Theatre has been remodeled to accommodate the gay colossus, even the lobby having been transformed into an Alpine village where numerous shops feature displays inspired by the spirit of the Austrian Tyrol around which "White Horse Inn" revolves.

A brilliant musical score includes "Leave it to Katarina," "I Cannot Live Without Your Love," "Blue Eyes," "High Up In The Hills," and "White Horse Inn."

Already a distinct sensation in various European capitals and well into its fifth successive year in England, "White Horse Inn," is presented here by the well-known firm of Laurence Rivers, Inc., which was responsible for the immortal "Green Pastures."

## Price-Fixing Charge Made Against 34 Water Supply System Companies

The Federal Trade Commission of price-fixing and price maintenance practices, this week, accused a group of thirty-four corporations and their officers, said to constitute, substantially, all the country's makers of water supply system parts.

The companies involved sell chiefly to municipalities and State and Federal Governments. They are charged with engaging in price fixing practices which prevent price competition and restrain business, increase prices and create in themselves a monopoly in the sale and re-sale of their products."

The respondents are said to have abandoned competition among themselves in December, 1933, and entered into a price fixing agreement. They are alleged to have divided the country into zones in which they fix and maintain uniform discounts, enhance uniform prices and establish the prices at which jobbers and distributors must sell them.

The Commission today also issued trade practice rules for the private home study schools, designated to "foster and promote fair competitive conditions in the interest of the industry and the public."

## Wallace Denies He Asked For \$1. Corn Price Limit

Secretary of Agriculture Henry A. Wallace asserted that any one who quotes him as favoring a \$1 limit on corn prices "is an ignoramus or a liar" or "has been deceived by an ignoramus or a liar."

Wallace struck back at a version of his Bloomington, Ill. speech published in a Chicago morning newspaper and widely quoted in publicity from Republican National Headquarters. The story said Wallace favored importation of corn when the domestic price reached \$1.

"By partial quotations and deliberate omissions, the partisan press has endeavored to give the impression that I am in favor of Government action to keep corn prices from going above \$1 a bushel," he said. "Any one who says I am in favor of setting a specific limit on corn prices at \$1 a bushel is an ignoramus or a liar or has been deceived by an ignoramus or a liar. The Republican proposal is to set an absolute embargo on corn imports even in years when

## Panthers To Meet Dodgers At Hinchliffe Sunday

The powerful and fighting football club, the Paterson Panthers will meet the Brooklyn Dodgers, of the National League in a return engagement at the Hinchliffe Stadium Sunday afternoon. The kickoff will be at 2:15 o'clock. Mr. Elm publicity director of the club announced that no advance in prices will be made.

The Silk City eleven played a very thrilling game last Sunday when they gave the Rosentover Wessie Reds club a good lashing to place them in an even position in the series for county and State honors. Prospects are bright of scoring their first triumph over the National league opponent.

With that popular line crusher Dick Baltzell and Jim McDonald, flashy and speedy back added to their backfield the Brooklyn Dodgers may expect a different score than the one previous when they first met.

## Expect 2,000 At Big Trade Parley

The National Foreign Trade Convention at Chicago, November 18, 19 and 20 is expected to attract some 2,000 men interested in international trade. These men will come from all parts of the country and abroad.

One of the most important matters scheduled for discussion is that of monetary stabilization. Speaking on this subject, Leon T. Fraser, vice president of the First National Bank of New York, will dwell on recent events in connection with the tripartite agreement, the action of France and Italy on quotas, and tariffs.

There will be separate sessions of the American Japanese and American Chinese Trade Councils, the National Federation of Foreign Trade Associations, the Latin-American Advisory Council and meet ings devoted to merchandising, credit, exchange and collections.

## Hull Sees World Crisis In 2 Years

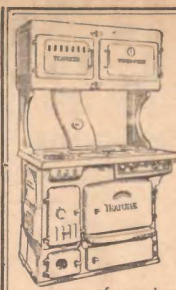

It was the opinion of Secretary of State Cordell Hull that the world faces a military or economic "explosion" within a year or two and that the repercussions will "hit us right in the nose."

Hull, who came here for an address recently, told newsmen that the United States' reciprocal trade program offers the only alternative to the extreme economic isolation which has resulted so disastrously which brings about huge armaments and—in the end—war.

"The world must abandon the unsound policy of economic isolation," he said. "That policy is leading in only one direction. If there is not a military explosion within the next year or two, there will be an economic explosion,

the crop is less than 60 per cent of normal.

"The Democratic proposal is to continue the 25 cent tariff on corn but not to have an embargo in years when the crop is less than 60 per cent of average I am convinced that those corn imports which come in over the 25 cent tariff wall are to the immediate benefit of the livestock farmers and those whose crops have been burned up."

## WHY NOT REPAIR NOW

Keep your Furnace (Steam or Water), Range or Stove in such shape that they give you the best there is in them, and add to the appearance of your home—Poor range or heater pipes, grates, linings, or any imperfect parts, waste, fuel, therefore HEAT and MONEY and are often times dangerous as well—If Grates or Grate Frames, Lining or Guards, Waterfronts or Coils, Legs, Shakers or Ash Pans; Pipe; Elbow or Dampers are in bad shape, let us look over your heater and range and quote you prices on putting same into such shape that you get results—Have your repairs done now. Don't wait until cold weather, when everyone wants his work done first.

## U. S. Gets 2-Thirds Of Couzens Wealth

The Federal Government will receive through inheritance taxes almost two-thirds of United States Senator James Couzens' estate, estimated at \$25,000,000 to \$30,000,000, Giles Kavanagh, United States Collector of Internal Revenue said.

Kavanagh said total Federal taxes on a \$30,000,000 estate would be \$18,500,000. Thomas T. Jacques, Probate Court registrar, estimated State inheritance taxes at \$2,400,000.

Probate Judge Thomas Murphy, yesterday appointed Mayor Frank Couzens the Senator's son: Clarence F. Wilcox an attorney and W. J. Norton, secretary of the Children's Fund of Michigan, as special administrators for the estate of the Senator, who deliberately left no will. Couzens died October 22.

## REAL ESTATE CONCLAVE

Gathering Arranged For November  
16-21 At New Orleans

Central matters before the twenty-ninth annual convention of the National Association of Real Estate Boards, at New Orleans, November 18 to 21, will be concerned with better financing methods, new home building, a tax system fair to real estate.

The question of best national means for the encouragement of home building, to avoid the pinch of the eventual housing shortage that otherwise seems inevitable is closely related to the question of favorable mortgage conditions for the home buyer and the real estate investor in the period ahead, and it is also tied closely with the question of adjustment of the State and local tax systems so that real estate may be taxed more nearly in accordance with its ability to pay. They are among the primary questions of the country's economic future, officers of the association point out.

Well it must be true that Sun-flowers die in November, but it is also true that they grow again in full blossom.

## STATE MAY INCREASE RELIEF OUT OF UNEXPENDED BALANCE

An "extra dividend" might be declared for State municipalities, State Relief Director Arthur Mudd said this week, noting that less than \$1,000,000 of the Financial Assistance Commission's \$7,500,000 had been spent. He said the new dividend might be declared before December 31, to reduce the municipalities' share of the relief burden.

The municipal share of the estimated six months' relief cost of \$9,750,000 had been set at \$2,500,000. The State was to pay the rest through reimbursements and cash advancements. Thus far the State has paid out only \$932,872-\$465,534 in advances and \$468,338 in reimbursements.

"If the cost of relief continues to follow the present trend during November and December," Mudd said, "it is quite possible that municipalities not now participating in State aid may become eligible for reimbursement."

The municipalities are graded under the Commission's formula on their ability to collect taxes, and on this ranking is determined the amount of aid they get from the State. Some municipalities with light relief burdens and healthy tax collections have not yet received cash from the fund.

Saving in relief, Mudd said, accrue directly to the municipalities, as the State fund will be spent in full. The \$7,500,000 is a constant figure, he pointed out, and the municipal share will equal the difference between the amount of the State fund and the actual cost.

## Demand For Gas Broke P. S. Record

A new peak demand for Public Service Electric and Gas Company's electric system was established October 26 when the load reached 552,200 kilowatts a 6 P. M. This exceeds by 11,700 kilowatts the previous maximum demand of 540,500 kilowatts which occurred at 5 P. M. December 17, 1930.

Normally the period of highest demand for electricity on the Public Service system occurs in the month of December. Public Service engineers expect this record will again be broken before the year is over.

## P. S. Employee Gets Service Medal

George E. Greely, superintendent, Somerville District, Gas Distribution Department, Public Service Electric and Gas Company, was awarded the American Gas Association's meritorious service medal last week at the annual convention of the Association in Atlantic City. This award is given annually to the gas company man who performs the most outstanding service in the industry during the previous year.

Mr. Greely received the award in recognition of his heroic work in averting what might have been a serious fire May 13 last, when lighting ignited vapor escaping from a large gasoline tank at the Somerville bulk plant of the Standard Oil Company of New Jersey. Mr. Greely climbed to the top of the tank and beat out the flames with his rain coat. Both the standard Oil Company of New Jersey and Public Service Electric and Gas Company presented awards last June to Greely and nine others who assisted him.

Mr. Greely has been in the employ of Public Service since 1908 and started with the company as a fitter's helper in Somerville.

## INSURED MORTGAGES RISE

N. J. Total \$10,012,844, Report  
On B. & L. F. H. A. Activity

Reports emanating from government offices indicate that the New Jersey building and loan associations are taking a particularly active part in the insured mortgage program of the Federal Housing administration.

The number of associations to become approved Federal Housing Administration mortgagees this week reached the total of 425, which is almost one fifth of the Country's total of 2,126 approved mortgagees among building and loan associations.

New Jersey is one of the largest building and loan States in the Country, the grand total of such

associations in the State being about 1,500. Since the beginning of the FHA insured loan program building and loan applications for FHA loans totalled 2,051 for a dol-

We wonder if Parku-Carcas, on the Eddie Cantor program, wasn't right Sunday night when he called the Literary Digest, literary indigestion. He meant it for a joke, but the joke is on us.

## FORUM NOVEMBER 9th

Social Work School Professor To  
Address Community Forum

Edward C. Lindeman, professor of social philosophy of the New York School of Social Work, will be the principal speaker at the next session of the Passaic Community Forum at the Passaic High School Auditorium Monday night, November 9.

Dr. Lindeman will speak on the topic, "The Prospect for Youth Today". Had the Forum committee rigidly followed its plan of presenting a lecture every two weeks, it would have been necessary to hold the next session this Monday. This was felt to be inadvisable, inasmuch as it is the night before Election Day.

Following Dr. Lindeman's address however, the Forum will return to its two week schedule.

## RED CROSS ROLL CALL

The Red Cross Roll Call opens November 11 and we believe there is no more humane cause in this world than the Red Cross. For that reason we do not hesitate a moment in urging every red-blooded citizen's support of this most worthy charity.

Consider for a moment the splendid work this organization has carried on for veterans and civilians alike in this country. The American Red Cross, chartered by Congress to aid the men of the Colors, past and present, has served these men faithfully and pledge to continue this service. Through membership at this time, the Red Cross will be able to continue this humanitarian service.

In time of dire need in any and every emergency in this country the Red Cross has been the first agency on the scene of trouble and disaster. Its assistance has been marvelous and deserves every inch of support every citizen can give it. Not alone in its work for the veterans, but alike for many persons in distress, the Red Cross has never drawn a line of race, creed or color. Its assistance has been meted out to those who need it without discrimination, without favor.

We make this urgent plea for the Red Cross because we are certain you can appreciate the many wonderful things this agency can accomplish in this city and elsewhere—and how much your contribution, however small, will be so deeply appreciated.

## AUTOGYRO TRAFFIC ON ROADS

It is interesting to note, the government is experimenting with autogyros, which will be able to ride the roads as well as the airways.

This device was literally on the doorstep of the Department of Commerce Building the other day in Washington. James G. Ray, vice-president of the Autogyro Company of America, flew it to Washington. The small plane landed in a small downtown park near the Department of Commerce building. A few moments later, Mr. Ray folded back the rotors of the autogyro and by engaging the tail wheel to a drive from the engine, completed the transformation from sky to land craft.

He drove the autogyro to the front entrance of the Commerce Department, and delivered it formally to a director of air commerce.

After the delivery, the autogyro was driven back to Boiling Field, where the aircraft will be further tested this week.

The autogyro is one of six experimental aircraft manufactured by various companies as part of the Bureau's program for developing aircraft types suitable for private owners. Its roadability overcomes several obstacles which have stood in the way of ownership of aircraft by city dwellers, such as the lack of landing and storage space.

You have often wondered how long it would be before we went to our office daily by plane, instead of by car or bus or trolley. Well, the time has almost definitely arrived. Here is an airplane which can also be used as a road vehicle. You simply ride the vehicle

during the time you require it to be on the ground and when you wish to go distances or make more speed you "flap your wings" and you are in an airplane. Parking space should be of no further worry. This autogyro can be parked anywhere. You won't have to back into a parking space half the depth of your car, you simply drop into the vacant area.

Ten years from now, we predict, this will be a reality. And perhaps even sooner than that!

## KIDDISH, PRANKISH, DANGEROUS

The morning papers after the night before—that is, the reports on the activities of Hallowe'en so often contain reports of destructive vandalism, that we are prompted to seek out a means of correction.

As in the celebration of the Fourth of July, only organized, competent supervision of pyrotechnic display is the safe and sane method of celebration. So, in the midst of all the Hallowe'en pranks and vandalism, there should be a vernier of decency.

Before the next holiday arrives in Paterson, we suggest that the board of commissioners give some thought to legislation which may tend to regulate this celebration. Any one can have fun, and destroy the things it is unlawful to destroy. But how much better fun it is to have the full quota of Hallowe'en fun and come out of the celebration with no windows broken, no automobile tires deflated, no gates torn from fences—no danger of serious destruction.

## WE RECOMMEND TAXATION

Small auditorium owners face the unfair competition of cheaper rentals by our local armory, which, unlike the small auditorium owner, is not required to pay a rental fee or license.

Government property is not taxable, nor can the city exact from it a rental fee. This is the opinion of the Attorney-General.

But the Attorney General is a fair-minded gentleman, and he has suggested that the City endeavor to collect "the same fee from any private organization using the armory", since there is no legal means of enforcing the collection of a license fee from the armory.

In the light of this constructive suggestion on the part of our D. A., we urge immediate taxation of the organizations who look for the rental of the armory as a means of "avoiding" the small man, the small auditorium owner.

## SCIENTIFIC DISCOVERY

Dr. Marvin A. Stevens, assistant clinical professor of orthopedic surgery at Yale and New York University football coach, reports:

"The expectancy of life among college athletes is higher than among men in the general population, but is appreciably lower than that of college young men winning scholastic honors."

In other words, the fellow with the glasses and the book pile may expect to live longer (all other things being equal) than the husky lad in the football jersey hurrying over to practice.

We daren't comment on this thing. We can see the giant structure of physical education flopping and the blank looks of all the earnest alumni sportsmen who contribute to stadia because athletics improves the health of the student body.

We can't understand this thing that has come to pass. Can we expect a further explanation?

## Quotations

From the News

"Free speech is the prerogative of wise men only: it is also a precious possession of fools and fanatics, apocalypsts and Utopians."—H. L. Mencken, newspaper writer.

"About all you see in a clown act now are funny faces and gestures."—Sam W. Gumperts, circus manager.

"If we ever have fascism in this country it will come as a result of the activities of the economic royalists whose minds are closed against anything that has happened since 1870."—Sinclair Lewis, novelist.

"I would vote to spend the last dollar in the United States treasury to provide for the nation's destitute."—William E. Borah.

"In the long and dreary history of war no idea has not been conquered by force."—Cordell Hull, Secretary of State.

"There will always be a great art in the world, even if our civilization is destroyed."—Fritz Kreisler, Austrian violinist.

"While we have learned how to make automobiles, we have not learned how to use them."—George A. Dornin, writer.

"The preservation and reinforcement of our democracy should be the major objective of education."—Charles W. Taussig, N. Y. A. Head.

"We have spent to save and rebuild a national economic and social structure which had collapsed in the four years from 1929 to 1933."—Daniel C. Roper, Secretary of Commerce.

"A prosperous world has no permanent room in it for dictatorship or for war."—Franklin D. Roosevelt, President.

"Trunk line highways must be divided, grade crossings must be separated and every year of delay means the loss of thousands of lives."—Paul G. Hoffman, automobile industry official.

"One opera star in a peecture is ee-nuff."—Lily Pons.

"We plan no aggression. We prepare only to resist it."—Secretary of War Harry R. Woodring.

"Spinach was never a noble vegetable nor a loved one."—Joseph Auslander, poet.

"The Roosevelt Administration has not been against business. To make such a charge is ridiculous."—Jesse Jones, R. F. C. chairman.

"I do not deplore the prospect of the day when every young man will have to go on his own."—Tyler Dennett, president, William College.

"War is the deadly enemy of the church."—James E. Freeman, Episcopal Church.

## Dunn Will Not Prosecute TTC Men For Voting

The 70 TTC campers who voted in North Haledon on Election Day and were subsequently arrested on charges of Republicans of illegal voting, will not be held for charges by Prosecutor Arthur C. Dunn, it was announced today by Harry Joelson, former police recorder who represents the group as counsel.

Dunn had assured Joelson that according to a ruling by Attorney General David Wilentz, the men had a right to vote. As a result, there are no grounds for prosecution.

Proceedings for false arrest may be instituted against North Haledon officials as a result of the incident, it was announced by Joelson, who declared that he was retained by Labor's Non Partisan League to represent the men.

## Gavin Elected

(continued)

district, defeated Charles K. Barton. The count was a close one but indicated Mr. Gardner's rising power in county politics.

Freeholders

Scheidemann and King, incumbent Democratic freeholders, were easily victorious over Crine Kievit and Nicholas Martini, Republican candidates for membership on the county board of freeholders.

The contest for Register of Deeds also went to the Democratic candidate, William P. Leary who won out over his Republican opponent, William P. Furrey in a close contest.

In the state, William Smathers defeated Warren Barbour for U. S. Senator in the most important contest in New Jersey. As in Passaic County, the tide of a victory carried Democrats to the fore in all but four of New Jersey's counties.

## New Program

(continued)

10,000,000 Majority

The possibility loomed that Congress might set for itself the task of revising the corporation tax act and the social security provisions.

Although many ballots as yet were uncounted, a new record of over 40,000,000 votes were cast. At the latest count, Roosevelt had 24,778,018 while Landon trailed with 15,447,771.

## French Protect Italian Consulate From Radicals

Paris — The French government today assigned guards to protect the Italian consulate against any possible assaults by Communists after a clash here this week, authorities announced.

Two Communists, charged with assaulting the Italian consul and four companions, will be prosecuted by the French government to counteract any further friction between Italy and France. It was for a time believed that Premier Mussolini would make a formal diplomatic protest as a result of the attack on the Italian consul.

## Seger Announces West Point Exam For November 27 At Clifton High School

A competitive examination for a vacancy at the United States Military Academy at West Point in 1937, will be held at the Clifton High School beginning promptly at 8:45 o'clock Friday morning, November 27.

Congressman George N. Seger, who made the announcement, said the examination would be conducted by the Congressman's Committee of the Passaic County School Superintendents in charge of all West Point and Annapolis competitions. The committee includes: John R. Wilson, of Paterson, chairman; Arthur D. Arnold, of Passaic; George J. Smith, of Clifton; F. H. Thomas, of Hawthorne; C. S. A. Walton, of Little Falls and Pompton Lakes.

Every boy who has attended at least a senior high school standing is a bona-fide resident of the 5th

Congressional District, and is between the ages of 17 and 22 as of July 1, 1937 is eligible to participate. Dr. Wilson states the subjects for the examination will be English, Algebra, Geometry and American History.

In accordance with the practice he has followed since his first election to Congress, Congressman Seger has taken all his military school appointments out of politics and he gives every qualified boy in his district an equal opportunity with the other fellow for these honors. Papers are rated by Dr. Wilson and his committee and the boy attaining the highest passing average is certified as principal and the alternates are named accordingly.

Candidates should advise Dr. T. Wilson or any member of the committee of their desire to participate.

### FOOTBALL MANAGERS

This column has expressed an earlier hatred—nay, dislike would be the better word—for the method in which friend Josephus Rosentover has dealt with the press when it comes to complimentary for the football games in which his highly touted Wessington Red Devils take part.

Fortunately for me, the Resse-Weds were visitors to the Paterson Panthers' home field a few weeks ago, and the Panthers' manager, genial Tommie Elm, came through with a couple of Annie Oakleys without a murmur. Tommie was appreciative of the fact that in past seasons and this year, too, these sports columns were open for his publicity. Elm has some sense of what justice there is in the newspaper man's method of dealing with athletic organizations. Contrasted to that is Rosentover's complete indifference attitude in the matter.

I know that Joe Rosentover hates to part with a pass, because he's thinking of his own pocketbook. Every manager has a right to that opinion and every manager should decide that question for himself. Joe Rosentover, however, has expressed a pure dislike for this newspaper and other smaller newspapers in the county because they have razed his club and because he has steadfastly refused to pay off in complimentary tickets for publicity used by these same newspapers.

Rosentover has eased his conscience with the conclusion that he wasn't satisfied with the manner in which these newspapers have razed his unfair tactics. It appears that Rosentover is the type of manager who will have nothing but praise showered upon him, and basking in the sunlight of these laudatory pieces about the great Rosentover, is content to sit back and get that stuff for nothing. I mean no monetary payment for these stories about Rosentover, but merely passes to see his team play, so that authentic stories may be written of his team.

This article would have no logic if I harped on the praise the press has for Rosentover, because that isn't all of the tale. How many columns of space have been taken up with straight news accounts of the Wessington Reds, and how much has Rosentover paid for these free columns of advertising?

Yes, the daily newspaper sports editors have been taken care of by Mister Rosentover. He fears the power of the large press, but he shows no concern whatever for the weekly newspaper man. This is unfair to the profession and Rosentover knows that.

Deep down somewhere, if Rosentover has a heart, he knows he's being unfair and wise-guys by refusing the weekly newspaper men passes to his football games.

I'll tell Rosentover that I haven't had the slightest desire to see any of the games outside of the Panthers' tussles, because I was sure that the Panthers would give his club the licking I wanted to see. It wasn't that way in the first game, but the second game saw

## Passons And Brookhattans Meet In Added Attraction At Stadium, Nov. 8

By SIG DOLIN

### New York Correspondent

On Nov. 8 at the Yankee Stadium the famous Maccabees, Palestine soccer champions, will make their farewell appearance in this country. They will meet the American Soccer League representatives in a contest that is expected to attract more than 70,000 people.

Assurance for the large crowd has been increased by the announcement that in a preliminary game which will start at 1 P. M. the Philadelphia Passons and the Brookhattan A. C. teams of the American Soccer League will meet. The added attraction will no doubt add to the crowd, about half of which will consist of real soccer fans.

The strong Passon team is on the list of scalps for the Maccabees. On October 4 at Philadelphia the Palestine lads downed the Passons by a 1 to 0 score, putting over the score after a strenuous battle in the final few minutes of play.

The Maccabees on their current tour thus far have won four games and played two ties. The seventh game of the tour will take place today at St. Louis, following which the team is scheduled to appear in Boston, Philadelphia and at the

Yankee Stadium. To date the team has played to more than 225,000 people in this country and Canada. The total is certain to reach the 300,000 mark at the termination of the tour, which is being sponsored by the Federation of Polish Jews in America and will benefit the destitute Jews in Poland and the Maccabee Tel-Aviv Sports Organization of Palestine.

Officials of the American Soccer League are engaged this week in selecting the squad which will oppose the Maccabees at the Stadium on Nov. 8. The outstanding players from the ten teams in the League will be drawn and announced in a day or two. The American Soccer Leaguers are anxious to avenge their defeat at the hands of the Maccabees on October 11 at Ebbets Field. In that game the Leaguers drew from four teams in the circuit.

When the Maccabee team sails for home on Nov. 11 it will carry as one of its trophies the flag of New York City, the gift of Mayor LaGuardia. When the Maccabee team arrived here on Sept. 14, Mayor La Guardia was presented with the flag of the City of Tel-Aviv by the team.

## Better Dough Woored Rabinowitz, Wyka To Kenyon Lineup; Open Season Nov. 15

George R. Miske, manager of the Kenyon Athletic Club, this week announced the acquisition of Phil Rabinowitz and Al Wyka to signed contracts for his 1936-1937 edition of the Kenyons basketball team.

Both Rabinowitz and Wyka have been active in American Professional Basketball League combat. Signing of these two stars means their loss to the Holy Rosary Club, with whom they had performed for several years. Rabinowitz won all city honors in most newspaper selections last year.

Better terms are said to have wooed the pair away from the Rosarians. Rabinowitz has signed a season contract with the Kenyons and barring complications because of another contract he has with the Kingston Club, he will perform for the Washington Place team every Sunday afternoon. His contract calls for the highest salary ever paid a professional basketball player in this vicinity in recent years. "Mooney" Levine, All City forward for several years, will be back with the Kenyons, along with Hen Kurtyka, one of the best ball retrievers in the State and Ben Selzer, former Iowa University star. Arrangements are being made to obtain Stan Entrup, lanky center of the Jersey Reds to round out the team.

The new lineup will give the Kenyons the cream of professional basketball players in this vicinity. The payroll is expected to amount to more than \$100 a game.

The Kenyons will open their home season at Casey Hall on Sunday, November 15, against an op-

ponent to be announced later. Pete Synott will officiate at the home games for the third straight season. The Washington Place club will hold its first practice session at Casey Hall at 2 o'clock Saturday afternoon.

the Rosentover Rovers meet their masters. The other games in which the Reds took part this season haven't been the type I would write home about. Rosentover can keep his passes, I'll do him a favor by saving my opinion of his ball club.

Some day Rosentover will come to his senses and if he does, I'm willing to forgive. It's a sin to hate a guy forever.

ponent to be announced later. Pete Synott will officiate at the home games for the third straight season.

The Washington Place club will hold its first practice session at Casey Hall at 2 o'clock Saturday afternoon.

## Boston Terrier Dog Show

The second annual Specialty show of the Newark Boston Terrier Club will be held Sunday, November 8th at the Essex House in Newark, N. J. At the first show last fall there were 93 dogs entered and shown. This year it is expected that more than 100 dogs will be exhibited. The entries are open to all Boston Terriers over six months of age on the show date and all persons owning one or more Boston will be welcome.

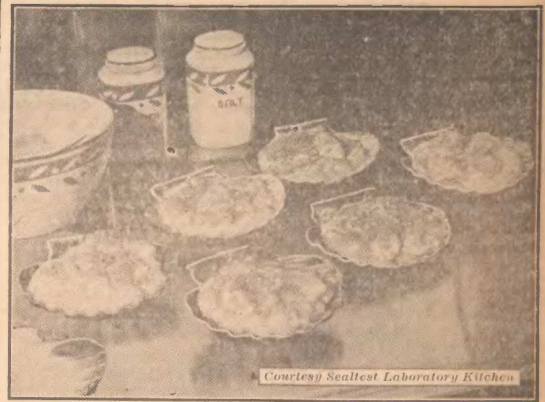

The show will be judged by Mr. Harry Clasen of New York City. He has owned, bred, trained, exhibited and judged Boston Terriers for many years and with his experience is well qualified to officiate.

There will be class prize money and in addition thereto ribbons and special prizes for successful exhibitors. The prizes will not be bound by competitive requirements. There will also be a Challenge Trophy: a large and valuable silver plated cup donated by the American Oil Co., Newark, N. J. This trophy is for the best Boston puppy bred, owned and shown by a member of the Newark Boston Terrier Club but two wins by the same member must be registered before permanent possession of the cup can be claimed. This is the only prize that is not open to competition by all comers.

Entries will probably close about November 1st but entry blanks can now be secured from Mr. Lloyd Williams, Secretary R. D. 3, Plainfield, New Jersey.

## Shrimp—For Your Next Bridge Luncheon

Courtesy Sealtest Laboratory Kitchen

By BEULAH V. GILLASPIE  
Director, Sealtest Laboratory Kitchen

BRIDGE guests are always expecting something a bit novel in the way of foods. Scallop shells filled with a luscious blending of shrimp and corn and lightly browned offer a flavorful dish they will delight in—not too heavy nor too light. Many will want to know your recipe. So here is our suggestion:—

### CREAMED SHRIMP AND CORN

3	tblsps. butter	1	cup cooked
3	tblsps. flour		corn
1½	cups milk	1	cup cooked
½	tsps. salt		shrimp
Few grains pep-	½	cup buttered	
per		crumbs	
		Paprika	

Melt the butter in a saucepan. Add the flour and stir until well mixed. Add the milk, salt and pepper and cook until thickened, stirring constantly. Add corn and shrimp and mix lightly. Fill buttered ramekins or scallop shells with the mixture and sprinkle with the buttered crumbs. Top with a dash of paprika and bake in moderate oven (350°F.) until thoroughly heated and crumbs are brown. Serves six. Crab meat may be used instead of shrimp.

## Boss, Bonica To Wrestle At Lazzara Hall

An all-star wrestling show will be held Monday night as usual at Lazzara Music Hall in Paterson. John Bonica, Italian idol, and Jack Ross, southern heavyweight cham-

pion headline the evening's card.

Art Generas, Clifton German grappler, meets Sid Dorenberg, Jewish sensation in the semi-wind up while Nick Russo, of Athenia, tangles with Don Mitchell, Columbia University, in the other star match of the evening.

Two fine preliminary matches round out the evening's card. The bouts begin at 8:30. Popular prices prevail.

### TO FUTURE BRIDES:—

It has been our Policy to serve marrying couples with our Wedding Tray and Bon-Bon Specialties at their receptions, with that dignified and yet economical service that has given us recognition, as one of the most reliable establishments of its kind in the State.

## Appeal To Hunters To Prevent Accidents Issued By N. J. Game Commission

Trenton—With thousands of licensed hunters preparing to take part in the upland game season which opens on November 10, the New Jersey Fish and Game Commission today issued an appeal to sportsmen to take the utmost precautions in preventing accidents so that the good, record of the State may be retained.

A special appeal to hunters to refrain from hunting within shooting range of any work project in New Jersey was also issued at the request of Robert Fechner, Director of Federal Conservation Work at Washington, to help reduce the hazards of men engaged in the various Federal camps.

New Jersey was the first of all commonwealths to develop a safety first educational campaign for its sportsmen and the result has been an annual dwindling of gunning accidents, despite an increased enrollment of licensed hunters. Careless or reckless handling of loaded guns has been the main cause of injury to the hunter himself and to fellow sportsmen.

So that veteran sportsman may pass the word along to "first year" gunners on the safe methods of gun handling and other precautions to be followed in the field, the State Fish and Game Commission today issued safety regulations as follows:

Don't start on a hunting trip until you have thoroughly inspected your gun, with special attention given its firing mechanism and the interior of the barrels. "Safety First" for gunners starts at home.

Don't carry a loaded gun in your car or other vehicle and don't load until you are actually ready to hunt. This is the first in importance of the unwritten rules of the hunting field.

Don't carry your gun while hunting except with the muzzle pointing toward the ground, or, when in heavy brush, with the muzzle toward the zenith. Never let the muzzle sweep the horizon, where fellow hunters would be in the line of an accidental discharge.

Don't shoot at moving brush nor at any object until you have identified positively the game bird or animal. You will thus avoid causing an accident and with the steady delay you'll be more likely to bag your quarry.

Don't when resting, lean your gun against a tree or post nor lay it on the ground until you have first opened the breech. Never use your gun muzzle as a rest.

Don't climb a fence, nor jump a ditch with a loaded gun, unless you first open the breech. And learn to hunt with the safety lock on triggers.

Don't draw gun toward you, muzzle first, from a car, through a fence nor on the ground. A dozen different causes might accidentally spring the trigger.

Don't gun with nor near an intoxicated person. A drunken hunter is as dangerous as a drunken driver, and for the safety of himself and others, should be reported at once to wardens or police.

Don't permit yourself to become careless or reckless in the more exciting moments of the hunt. Help your State keep its record clear of hunting casualties.

Don't fail to respect the rights and protect the property of farmers and land owners. Always first obtain permission to hunt on private grounds.

Don't hesitate to report fish and game law violations.

## Electric Blanket Newest Pleasure

A new electric comforter developed by W. K. Kearsey of the General Electric laboratory will lessen the worries of impatient winter sufferers who either wear themselves out beneath a heavy load of blankets or wake shivering under too few.

Plugged into a household circuit the electric comforter obviates the necessity for any other form of covering, yet automatically keeps the sleeper comfortably warm regardless of any changes in the temperature of the room, according to General Electric's announcement.

Unlike ordinary heating pads, the comforter will give a gentle warmth over a large area rather than concentrated heat at any given point. The comforter has been tested in actual use over a period of many months.

The blanket is composed of two thicknesses of a light-weight material. Between these two coverings, many feet of fine, flexible conducting wire have been sewn in a zig-zag pattern. Both ends of the wire are brought to a terminal at the end of the comforter which is used at the foot of the bed.

## State Police Head Speaks In Passaic On November 12

Colonel Mark O. Kimberling, superintendent of the New Jersey State Police, will be the principal speaker at the Father and Son crime conference Thursday night, November 12 at the Y. M. C. A. in Passaic.

The conference is sponsored by service clubs, churches and the Y. M. C. A. of Passaic and vicinity. Previous to his appointment as Superintendent of the State Police he served as the superintendent of the Rahway Reformatory and the New Jersey State Prison at Trenton.

A turkey dinner will be served. Reservations are limited to three hundred.

The committee is composed of Amos N. Prescott, chairman, Nathaniel Curtis, Lindsay Smith, George W. Bailey, Carlton Enes, William T. Simcox, S. Wade Marks, Irving Whiting, Michael Slavin, Isidore Katz, William Petheridge and William J. Bratton.

## SIX-DAY BIKE RACERS

Kilian, Vopel In Whirl At Garden Set To Open November 29

Madison Square Garden's six-day bike race will feature in at least one of its stellar collections of riders, the bike team of Gustav Kilian and Heinz Vopel crack German riders and winners of the last two New York six-day events. The race opens at the Garden November 29. It is not yet determined whether Kilian and Vopel will ride as a team or if they will be split up.

Kilian and Vopel have brilliant records. They have won nine six-day race in a row. Besides the two victories in New York they won the Chicago race twice, Montreal twice, and Pittsburgh and Milwaukee once and only last month captured the London, England derby. Kilian and Vopel have spent the entire Summer at their homes in Dortmund Germany.

## Increase In T. B. Death Rate In Bergen County

The death rate from Tuberculosis increased by 1.6 per cent in Bergen County during the year 1935 according to a statement made today by Miss Gertrude Eckhardt, Executive Secretary of the Bergen Co. Tuberculosis and Health Association.

Miss Eckhardt based her statement on a report just released by the State Tuberculosis League, the State Department of Institutions and Agencies, and the State Department of Health coincident with the 30th anniversary of the organization of the State Tuberculosis League.

This is the first time for many years, Miss Eckhardt stated, that the Bergen County Tuberculosis death rate has increased. Despite the increase, it is lower than the rates in any of the Metropolitan Counties and fifth lowest in the State.

The Tuberculosis death rate in New Jersey has been reduced 73 per cent in the past 30 years - but even now Tuberculosis is the chief cause of death in young persons between the ages of 15 and 45.

In 1906, 156.2 persons in every 100,000 population in the State died each year from Tuberculosis - the 1935 death rate was 49.9. Bergen County's death rate from this disease was 11.9 in 1906 - its 1935 death rate was 39 per cent 100,000 population.

According to the report 2143 persons died of Tuberculosis in this state last year. More than half of these persons - 1233 were between the ages of 15 and 45 - 158 Bergen County residents succumbed to this disease in 1935.

The program of the Tuberculosis Association, Miss Eckhardt stated, is aimed to combat this great loss of life and of sickness during the most productive years of life. The Association's educational program provides lectures on Tuberculosis prevention for any group in the County - School, Church, Political, Fraternal, Civic, free of charge. It has recently purchased a sound motion picture projector and a new film on the subject which will be shown to any group without charge. 40 to 50 thousand pieces of free literature on Tuberculosis Prevention are distributed each year, a bulletin on Health Education is issued for Teachers requesting it, Institutes on Health Education and Tuberculosis Prevention are sponsored periodically for Nurses, Teachers and Doctors.

The work of the organization also includes a Tuberculosis Follow Up Nursing Service for 2700 patients and contacts in the County, and helps to finance the Visiting Nurse Services of Hackensack and vicinity, Englewood and Northern Bergen.

The work of the Association is financed entirely by the annual sale of Christmas Seals which will be in progress between Thanksgiving and Christmas.

# THEATRICAL NEWS

## Gladys George Heads Bill At U. S. Theater

A new and great film star, in the person of Gladys George, noted stage actress who made theatre history last season when she appeared in almost 700 successive performances of "Personal Appearance," makes her debut at the U. S. Theater tomorrow in the motion picture version of Barry Benfield's best-selling novel, "Valiant Is The Word For Carrie."

Miss George is noted for her dramatic and emotional roles and the mother role she creates in "Valiant Is The Word For Carrie" is said to set a new high standard for film portrayals. Assisting her are Arline Judge, John Howard, Isabel Jewell, Harry Carey, Dudley Digges, William Collier Sr., and two new youngsters, Jackie Moran, discovered by Mary Pickford and Charlene Wyatt, six year old who won a movie contract in a field of 200 contestants.

### Co-Feature

The funniest husband and wife in pictures, Charlie Ruggles and Mary Boland, are together again for the eleventh time in a delightful comedy of a great love which almost goes wrong, "Wives Never Know," which opens tomorrow at the U. S.

Aiding and abetting in the general merriment is suave Adolphe Menjou, cast as the serpent who comes into a Topeka, Kansas, Garden of Eden with some novel ideas on married happiness which he induces glibly Ruggles to try. Charlie does, with results that are almost disastrous to his happy marriage. The climax comes when Charlie turns the tables on Menjou by tricking him into a marriage which clears up the situation for him and Mary, and restores him as the Number One Husband of Topeka.

## Fabian Shows Double Feature

An exciting screen event is in store for patrons of the Fabian Theatre, for "Ladies In Love," the brilliant new Twentieth Century Fox picture featuring the greatest cast of feminine personalities ever assembled in one film, opened there Tuesday for a gala Election week program.

Janet Gaynor, Loretta Young and Constance Bennett are starred and Simone Simon featured in this fascinating story of four lonesome young ladies, looking for a love that will last forever.

Don Ameche, Paul Lukas, Tyrone Power, Jr., and Alan Mowbray are also featured in the supporting cast in "Ladies In Love."

Mystery, with added elements of romance and humor, provides the highspot of the co-feature picture "The Longest Night." This M-G-M drama has the unique advantage of a huge department store locale, which is unusual enough in itself. The incidents which occur in rapid succession there combine to build a novel story and the cast takes full advantage of it.

Robert Young and Florence Rice have the leading roles, the son of the store-owner and a salesgirl, respectively.

## 'Valiant Is The Word For Carrie' At U. S. Theater, Paterson, Tomorrow

## Colman Stars In Picture At State Theater

Through the fog and the mystery of night, Ronald Colman stumbles into the living image of himself and so starts off the stirring story of "The Masquerader" at the State Theatre Friday.

Playing with Colman in the dual roles are the patrician Elissa Landi and the dark, stately beauty of Juliette Compton, the one as wife the other as mistress.

The co-feature, "Up The River" starring Spencer Tracy and Warren Hymer, as the two wisest of wise guys who are eternally getting themselves in amusing predicaments with the law and who regard prison as a college boy thinks of his fraternity house. The dialogue is snappy, and both Tracy and Hymer portray their parts naturally and humanly.

Supporting these two excellent pictures is "Auction Nite" Friday night, Kiddies Party Saturday afternoon, and "Lucky," the original Bingo game which is enjoyed every Saturday evening, when fifteen exquisite gifts are awarded the winners.

## TAX RECEIPTS JUMPED LAST WEEK IN CITY

Returns on taxes to the City of Paterson increased last week, Walter J. Hunziker, receiver of taxes and assessments, told the Board of Finance today.

A total of 56481 percent of the annual tax has already been collected, a figure which exceeds that recorded at a corresponding time last year. The total sum now in the city treasury is \$4,417,390.28. Last year it was \$3,857,192.32.

## Thomas Tonge May Get Leary's Board Clerk Job

Thomas Tonge, Third Ward Alderman, will likely succeed William P. Leary as clerk to the board of freeholders, it was freely predicted today in this city. The position pays a yearly salary of \$4,375.

Tonge, a life-long Democrat and previously a popular baseball player, was re-elected as Alderman in Paterson's Third Ward Tuesday. Leary will resign his clerkship to the board of freeholders to assume his new position as Register of Deeds.

Confirmation of Tonge's appointment is expected to be made at a caucus of the board of freeholders this afternoon.

Frizzolino e Don Nicola

## Former Local Physician Dies In New York

Word reached Paterson today of the death of Dr. A. L. Newman, who for many years was one of this city's best known and ablest physicians. Dr. Newman passed away last night after a heart attack.

For over quarter of a century he had been one of the leading physicians of this area. He came to Paterson over 40 years ago and quickly won recognition for his skill in the medical profession.

Dr. Newman had been residing up to his death in the Hotel Navarro, at 112 Central Park, South.

at each performance in addition to witnessing a fine Italian theatrical presentation.

The grand prize is a beautiful grandfather's clock. With the purchase of each ticket a key will be issued. To the individual possessing the key which fits the lock in the grandfather's clock, will go that prize—free of charge.

In addition ten other prizes and a game of bingo are offered at each performance.

## TAXPAYERS MEET

Study Education Budget; Predict Tax Boost

Members of the Passaic County Taxpayers' League last night decided to conduct a survey of the board of education budget in "an effort to determine whether additional pay cuts for teachers are necessary."

The group predicted that this year's tax rate will jump approximately 25 points, while some estimates had it as high as 50 points.
