## BUDGET SETS PAY RETURNS AT 50 P. C.

To Hold Public Hearing On Budget  
On February 24th

The date of February 24 was set aside by the board of finance this afternoon for a public hearing on the budget which was introduced at today's meeting.

The new budget which the board placed upon its records this afternoon calls for the restoration of 50 percent of salary reductions taken by all municipal employees in Paterson. Restorations however will not be made officially until the public hearing has taken place. Howard Bristow, secretary of the board of finance announced.

### Affects All Employees

Today's statement was the first official one regarding salary restoration, although much unofficial discussion had taken place previously. The new provision in the budget affects policemen, firemen, school teachers, and all other employees of the city of Paterson.

The new budget anticipates a tax levy of \$7,719,319.63. Tax collections for the five day period ending January 30 totalled \$276,025.72. Tax Receiver Walter Hunziker reported to the board at today's meeting.

## Board Fights To Save Camp Hope; Asks F.D.R.'s Aid

Freeholders Ask That CCC Building  
Be Given To County

A plea to make the abandoned CCC camp at Smith Mills available for use as a fresh air camp for undernourished children of this county was forwarded to President Roosevelt in a resolution drawn up by the county board of freeholders yesterday afternoon.

The action was taken after the local board was notified that the government buildings could not be turned over to their use by J. J. McEntee, assistant director of emergency conservation work in Washington, D. C.

(continued on page 5)

## Carlo Renard To Be At Lazzara's

Jerry Lazzara will present Carlo Renard and his company in two performances at Lazzara's Music hall Sunday. The time set for the presentations is at 2:30 matinee, and 7:30 in the evening.

Signor Renard's troupe is composed of the same artists who appear on the Lazzara Baking company radio program over Station WOV daily at 9:15 A. M. and 3:30 P. M.

### Members of Troupe

In addition to Carlo Renard, those who will appear are Anna Coraggio, Gina Lantella, Antonio Conte, Pietro Todisco and Aldo Aldini.

## Named By Board Of Education

DR. ALVIN E. CORTESE

DR. JOSEPH A. MAFFONGELLI

## BOARD REAPPOINTS CORTESE; MAFFONGELLI NEW MEMBER

Will Head Medical Inspectors For  
Another Year

Dr. Alvin E. Cortese, director of the city staff of medical inspectors in the public schools, was reappointed to his position this week by the board of education. Dr. Cortese was born in Paterson. He is the son of the late Mary and Judge Robert A. Cortese. After graduating from local grammar schools he entered Central High school. He then took three years pre-natal at New York University, entered Temple University at Philadelphia. Upon his graduation he served an internship in the Paterson General Hospital and St. Joseph's hospital in Paterson.

### Started in 1927

Dr. Cortese started active practice at 13 Ward Street in Paterson in 1927. In 1934 he moved his office to 26 Ward Street where he is now located. He was appointed supervisor of school hygiene for the fourth consecutive term by the Board of Education at the beginning of the fiscal year, Feb. 1, 1937.

Dr. Cortese is a member of the staff of the Paterson General Hospital; physician for the Charles V. Duffy League; Passaic County Medical Society; Sigma Phi Epsilon Medical Fraternity; Italian National Circle; Second Ward Democratic club; Third Ward Democratic (continued on page 8)

Succeeds Dr. Pernetti As Medical  
Staff Inspector

At the annual organization meeting of the Paterson Board of Education, Dr. Joseph A. Maffongelli, of 494 River Street, this city, was appointed school physician, succeeding in that position, Dr. Anthony M. Pernetti, also of this city.

Dr. Maffongelli, one of the youngest local physicians, was born in Paterson on April 4, 1910. He attended Public schools No. 18 and No. 10, and was later graduated from Eastside High School, Paterson. In 1932 he was graduated from the Georgetown University School of Medicine.

### Internship

He served a year's Internship at the Georgetown University Hospital, Washington, D. C. and another at the St. Joseph's Hospital of Reading, Pa., at the end of which time he came home to practice.

The newly appointed school inspector is a member of the dermatological staff at the Paterson General Hospital. He is also a member of the Lambda Phi Mu, a national Italian-American Medical Fraternity, of the Susquehanna Pleasure Club, the Advance Forum the City Club and other organizations.

### TESTIMONIAL

Stephen Radics, New Comptroller,  
Honored By Friends

Stephen Radics, newly appointed city comptroller, was the guest of honor at a testimonial dinner given him by several hundred of his friends, mostly parishioners and members of the St. Boniface Holy Name Society in St. Boniface hall Tuesday night.

Mr. Radics was presented with a black onyx desk set. Dr. Charles L. Ritter, a member of the Zoning board, served as toastmaster.

## DONATIONS TO FLOOD FUND EXCEED QUOTA OF \$28,000

Continue Appeal, Says National Chairman To Local Red Cross

### SHERIFF'S BIRTHDAY

Gavin Is 32 Tomorrow; Youngest  
To Hold Office In County

Sheriff John A. Gavin will quietly celebrate his thirty-second birthday tomorrow.

Holding the designation of the youngest sheriff ever to serve in Passaic county and the youngest incumbent in that particular office in the country today, Mr. Gavin's three months in office have been characterized by the highly aggressive and active policy which he has instituted.

Sheriff Gavin first won public attention since taking office by his fight for separate housing facilities for juvenile delinquents. Since then he has instituted many reforms in department which he heads and gives indication of being the most progressive sheriff to hold office in this county.

## Fire In Grand Street Subdued After 2 Hours

Dense Smoke Handicaps Firemen  
In Butcher Shop Blaze

A butcher shop at 351 Grand St. owned by George Bothyl was heavily damaged by a fire which broke out in a three story brick building at that address last night at 6:30 o'clock.

Heavy smoke which hampered the efforts of local firemen in controlling the blaze prolonged the battle for two hours before the flames were extinguished.

### Cause Unknown

Apartments in the upper two stories of the building were damaged by smoke, but the butcher shop on the ground floor bore the (continued on page 8)

## Taxpayers League Seeks Lower Rate

The Taxpayers' league of Passaic county, through Theodore Haeffell, its president, declared yesterday that refinancing of city indebtedness at lower interest rates would be the solution of over expenditures in the city budget.

"A saving of over half a million dollars in 1937 would be effected by the city of Paterson," said Mr. Haeffell. "If the outstanding bonded indebtedness were to be refinanced at from 3 to 3 and one half percent."

### Could Be Reduced

"Paterson," Mr. Haeffell continued, "pays approximately \$1,400,000 each year in interest payments on outstanding indebtedness. This amount could be pared by half a million dollars by refinancing it at reasonable interest rates."

The quota for the local chapter of the Red Cross, set ten days ago at \$28,000 to aid in relieving flood sufferers in the middle west, was exceeded yesterday, local officials announced.

Last night's total of contributions received was \$28,707.97 and indications were that the \$35,000 mark would be reached within a few days.

### Officials Elated

The success of the local drive to raise funds for the flood victims elated local officials of the Red Cross chapter. With the fund receipts over the top, they made clear their appreciation of the aid given them by local organizations and newspapers through a statement by Harry M. Smith, chairman of the committee in charge of city wide solicitations.

Contributions are still welcome, it was said, and would be receivable at Red Cross headquarters in Paterson.

Word from Cary T. Grayson, national Red Cross chairman, urged the local group to "maintain its local appeal."

## State May Open Childrens' Office Branch In City

Scheidemann Urges Board To Re-  
lieve Load Here

The possible establishment of a branch office of the state board of children's guardians in Passaic county was discussed this week in Trenton at a conference attended by Freeholder Director Ernest T. Scheidemann and County Adjuster Joseph Greene.

Director Scheidemann assured Joseph Alloway, executive director of the children's board, that every effort would be made to find space for the new office in the court house annex in the event that the state saw fit to open a branch office here.

### Overloaded

Mr. Scheidemann emphasized the fact that the county is carrying a tremendous load of duties which could be taken over by the state. More than 600 widows and 1540 children are on the county's lists.

### BARBERS TO DINE

Will Hold Annual Banquet In Col-  
onial Inn Sunday

The Master Barbers' association of Paterson will hold its annual banquet in the Colonial Inn, Singac, Sunday evening.

Final plans for the affair were made at a meeting of the committee in charge, under the direction of Moses Calabrese, at the organization's headquarters, 1 Broadway Tuesday evening. Reservations can still be made, it was announced.

## PAY CUT CURB A BUDGET JOB, TAXES GO UP!

Local government budgets in New Jersey will show increases from all indications of elimination of pay cuts and restoration of salary increments for county, municipal and school employees.

The new "cash basis" Local Budget Act is another factor in the 1937 "budget season". Its fiscal effects are a subject of controversy and legislative action at Trenton.

For several years the Legislature has authorized officials of local governments to suspend otherwise mandatory increases in salaries and to make outright cuts in salaries. The existing control measure permitting this will expire tomorrow at midnight. No bill to authorize continuance of the suspension has been introduced in the 1937 Legislature. If the Legislature does not act quickly by passing an enabling measure at its session tomorrow night, there will be no legal basis for reduced payrolls in the 1937 local budgets now in preparation.

Some municipal officials say the Local Budget Act, which is intended to put the local governments on a "cash basis" by 1943, is too drastic for application this year, and will cause such large increases in tax rates that serious "diminishing returns" in tax collections will result. Movements have been started to seek amendment of the act or its suspension until 1938.

Last Monday night the Senate passed and sent to the Assembly a bill authorizing State Auditor Walter R. Darby to alter 1937 county and municipal budgets after their adoption under the act.

"This office is not going to be lenient," Mr. Darby said upon hearing that the Senate had passed the measure. "If we are given the power, it will be used sparingly and cautiously."

Under the Local Budget Act, the last day for public hearings on budgets is Feb. 24 and budgets must be adopted finally by March 11.

## BANK TO GIVE ITALY CREDIT ON COTTON BUY

The United States Export-Import Bank agreed to aid in financing the sale of from 50,000 and 500,000 bales of American cotton to Italian cotton spinners on nine months' credit.

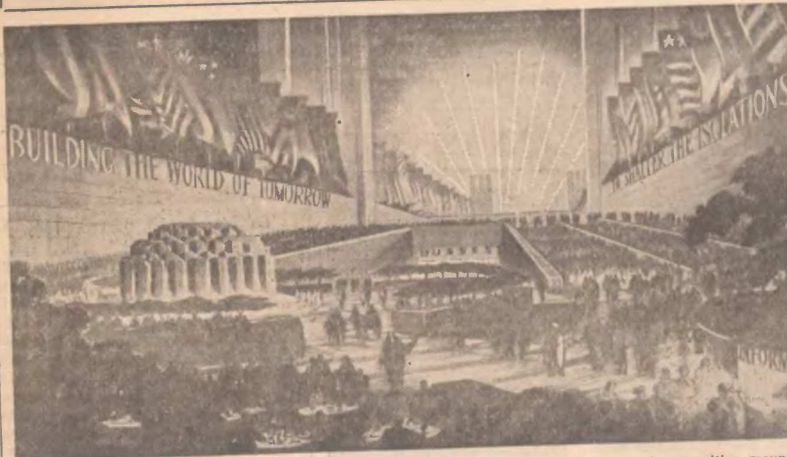

Officials of the bank have held today that they would participate up to \$3,600,000. The total transaction is expected by them to involve between \$7,000,000 and \$8,000,000.

Before agreeing, the officials said they insisted that the credits be guaranteed by Italian banks and that the Italian Government give assurances that dollar exchange would be available to meet the obligations at maturity.

Italian banks in cooperation with New York financial institutions, are understood by officials here to have agreed to underwrite 40 per cent of the total, and the United States shippers 15 per cent.

Officials of the bank have held that the nine months' commercial credits contemplated are not in violation of the Johnson act, which outlaws loans to foreign governments which have defaulted in their obligations to the United States Government.

## THROUGH BROAD AND BEAUTIFUL ENTRYWAYS VISITORS WILL PASS TO THE NEW YORK FAIR

NEW YORK, (Special).—Forty thousand persons an hour—visitors from every state and every nation—must be accommodated in comfort at but one of the entryways to the New York World's Fair of 1939, according to arrangements the Fair Corporation is completing to handle a maximum daily attendance of 800,000. The artist's drawing, as reproduced above, calls for a magnificent double-decked entryway with underpasses, overpasses, pedestrian walks, bus terminals, comfort stations and bridge connections assuring comfort while providing an area of architectural splendor.

Shown is a ramp leading from the exposition grounds toward the I.R.T.-B.M.T. subway terminal, at a point where it is necessary to cross over the Long Island railroad tracks and to avoid undue congestion of pedestrian traffic. Shown in the left foreground is a domed restaurant within a fountain basin and a concourse bordered by grown plane-trees, and, nearer, an open-air cafe and an information kiosk. Along the flanking walls the artist has delineated the Fair's world concept which looks to the building of a peaceful, happier World of Tomorrow.

## U. S. Illiteracy Cost Put at \$1,200,000,000

Dr. Louis R. Alderman, national director of the educational system division of WPA, told a gathering at the meeting of the association of Educational Supervisors of WPA that illiteracy is costing the United States \$1,200,000,000 a year in decreased earning power.

Dr. Alderman made this estimate in summarizing the work which 40,000 WPA teachers are doing in extending the adult education program to 2,000,000 students each year.

"It is evident," Dr. Alderman said, "that the best way to secure the continuance of a program of adult is by making this project so effective that public opinion will demand that it be continued."

"Novocaine and its known relatives cause a pronounced fall in blood pressure, as does cocaine in the ordinary concentrations. After discarding many such drugs because of undesirable effects we finally have synthesized epinephrine, which is both a local anesthetic and a vasopressor."—Dr. Samuel L. Osborne, DeLamar Institute of Public Health.

## Louis Griffo, Barber, Fined \$10. For Violation

Louis Griffo of 379 Lanza Avenue, Garfield, was found guilty by Judge Lloyd L. Schroeder of the Criminal Court of the Second District of Bergen County on the charge of operating a barber shop without first obtaining a State Barber's License.

The court fined him \$10.00 and then suspended sentence with a warning to obtain a license.

The complaint was made by Anthony Gaglione, secretary of the Passaic Local of the Barbers Union.

## Colleton Finds New Funds Available For FHA Home Construction In Jersey

Thomas E. Colleton, FHA director for New Jersey feels that real estate has taken a leading part in the prosperity of this state in 1936. He reports that more than 4,000 homes were erected here during the year and of these 75 per cent were financed under the FHA single mortgage system.

"The prediction can be made with considerable assurance of realization," said Mr. Colleton, "that the builders and prospective owners in the State will construct approximately 8,000 new homes this year. Judging from the number of mortgage applications for new home construction since the first of the year, it is possible that the prediction of 8,000 new dwellings may be exceeded. Thus far mortgage requests for new home construction since January 1 are 500 per cent greater than were presented in the first two weeks of 1936."

"The renewal of confidence by realtors in home development was an important factor, in the real estate field last year and that confidence is growing stronger. There is a ready market for land suitable for home sites and the subdivision plan of the FHA, which met with marked success the closing months of 1936 is expected to reach new heights in 1937."

The subdivision approval has to do only with the eligibility of the property. Any building to be constructed on a site must be approved as to FHA requirements, and the buyer must also prove eligible for an insured loan.

"There is no question of available funds either for new construction or the refinancing of existing home mortgages. Banks, building and loan associations, insurance companies and title and mortgage companies are well supplied with funds and are not only willing but anxious to make FHA insured loans. Bank deposits have increased measurably during the past year. A feeling of friendliness between the financial institutions and FHA officials is resulting in wide cooperation."

"The refinancing of mortgages on existing homes under the insured single mortgage system form a large phase of the FHA work in New Jersey, exceeding new construction FHA insured loans in the State. It has also been very helpful to banks and building and loan associations in enabling them to dispose of distressed property. At present many banks are checking their mortgage portfolios checked up with the thought of recasting their old style mortgages under the FHA plan. The home mortgage structure in New Jersey today is such that the future can be traced with much satisfaction by both lenders and borrowers."

## GAS PRICES UP ONE HALF CENT

Atlantic coast auto owners are paying more for their gasoline as a result of an increase in the price of one half cent a gallon posted by the Standard Oil Company of New Jersey in all of its territory excepting Delaware.

The same advance in price has been posted by the Standard Oil of Louisiana and the Shell Union Oil Corporation and the reason given was the recent increase in the price of crude oil in the major producing areas.

The Texas Corporation, Socony Vacuum Oil Company and Tidewater Associated Oil Company have met the advance throughout Eastern territory. It does not include New York and New England.

It is expected in local oil circles that all of the major companies will meet the advance with similar postings in the next day or two, and that the higher price will prevail in the East except in localities affected by intermittent gasoline price wars.

Increased consumption has cut heavily into gasoline stocks and observers say that those supplies must be built up before there is any real danger of a gasoline price war due to overproduction.

## Discover Vaccine To Prevent Colds

A discovery for which medical science has been searching all this century was reported discovered by two London doctors — a preventative of the common cold. The doctors are David and Robert M. Thomson, brothers from Scotland, and the task of defeating the common cold has taken them twenty-five years.

Now they have produced a vaccine which will not only make every one immune from colds, they say, but will also prevent complications of influenza, including can be taken in powder form as capsules or drunk in liquid form. Three doses will last a month, and the total cost of preparation of the three is \$1.25.

Most of the Thomson brothers' twenty years' experimental work was done in a little laboratory on the top floor of a London hospital. A year ago the two doctors reached a stage where they were certain that their experiments amounted to something important.

Tests had to be made on human beings. They did not want to risk the health of others, so they used their own bodies as test tubes for their own experiments. Once a week, before breakfast, they swallowed a dose. It had no bad effects despite deliberate exposure to colds.

Tests are now being conducted on a large scale in England. Hundreds of bottles of the vaccine have been sent to a famous boys' school. Half the boys are being given regular doses of the mixture. The school doctor is waiting to see how they compare with those not treated.

## MID-WESTERN FLOOD DIAGNOSED AS CAUSED BY DISEASE OF EARTH

Because of the great flood in the Ohio and Mississippi Valleys new impetus has been given to the study and plans by various governmental agencies and authorities for practical water control from the raindrop to the largest river.

The National Power Policy Committee, now almost ready to report its findings, has studied intensively this phase of regulation of streams but, because of the problem's importance and its ramifications, may treat it in a supplemental report. Morris L. Cooke, administrator of the Rural Electrification Administration, has urged the committee to include in any scheme for power regulation a program for up stream control which would include soil erosion prevention.

Such a program, if launched on a twenty year basis, would result in preventing the major floods on large streams. Mr. Cooke believes and, more important, would conserve the fertile top soil which is washing into the rivers to an alarming extent.

"If we will but think," Mr. Cooke declared, "of our great hydro works in terms of the dynamic organism of the drainage basin which lies behind them, rather than merely as the inert wall which barricades the stream, we achieve a true picture of cause and effect. Within this structure we can scientifically diagnose ills and prescribe remedies to be applied at the source of trouble. Dams sited to the dashboards, thriving towns flooded to the housetops, are but symptoms of a disease."

## Employment Gains In N. J. Factories

Labor Commissioner John Toohey reported an increase of 3,227 workers in New Jersey factories last December and that payrolls for the same month were 5.6 per cent higher than during November 1936.

Returns from 777 factories showed an average of 250,364 persons were employed last December with total weekly earnings of \$6,308,332.

The most pronounced employment gain occurred in the vehicle group, with 14.9 per cent more wage earners than during the preceding month. Gains were also reported in the durable goods industries, iron and steel, metal products, lumber and stone, clay and glass groups.

The figures by areas included: Newark, Harrison. — Employees dropped from 55,010 to 54,683; weekly pay rose from \$1,334,418 to \$1,351,109.

Paterson—Employees increased from 12,930 to 13,383; weekly pay increased from \$281,584 to \$316,764.

Passaic — Garfield — Employees increased from 22,319 to 24,285; weekly pay rose from \$485,084 to \$568,870.

Bogota, Edgewater, Lodi — Employees increased from 11,199 to 12,314 weekly pay rose from \$286,394 to \$330,839.

## ITALY-FRANCO PACT

### Trade Agreement Signed With Insurgent Government

A trade agreement between Rome and the Burgos government acts from the areas controlled by Franco, Spain on January 28.

Details were not released, but they were generally supposed to

provide for the payment of supplies shipped to General Francisco Franco by Italy by means of raw materials and agricultural products from the areas controlled by the Insurgents.

The agreement in any case was taken as additional evidence, if any were needed, of Italy's intention to back General Franco to the limit permitted by the present and future non-intervention undertakings.

## Banks Will Confer On Job Insurance At Trenton Today

Determining their position will be the aim of the State banks planning a conference at Trenton today, subsequent to the passage of the New Jersey Unemployment Compensation Act. Bank heads state that they have found themselves at decided disadvantages following passage of the Act.

The Bureau of Internal Revenue has notified the commission that national banks and State banks which are members of the Federal Reserve Commission are exempt from the provisions of the act, it was announced by George Dye, secretary to the commission. The few State banks that must comply with the act find themselves facing contributions to the unemployment fund.

J. Fischer Anderson, general counsel for the New Jersey Bankers Association and Carl K. Withers, State Commissioner of Banking and Insurance, have been invited to appear before the commission to determine what course can be followed to make application of the act uniform as to the banks.

The commission discussed extension of the act to bring in a greater number of employers and employees. The act now applies only to employers of eight or more persons.

The commissioners are also facing the problem of providing for continuance of temporary employees on its staff. The budget for salaries for such workers, which provided \$8,500 for four weeks, will be exhausted by Saturday.

## Plans For Italian Carnival, Feb. 5, 6 Near Completion

Preliminary plans for a celebration, "The Carnival of Venice", which will be presented at Lazzara's Music hall on Friday and Saturday, February 5 and 6, were laid at a meeting of a committee chosen from the ranks of representative Italian societies Tuesday evening.

Vincent Tomaselli, general chairman of the affair, presided at the meeting which heard an eloquent plea by Col. Matteo Riccio, Italian consular agent, for donations for the Red Cross to aid in relieving suffering in the flood area.

### Advance Sale

Plans for the carnival call for the presentation of Skipper Garrison and his orchestra to provide dance music for the occasion. A large advance sale of tickets was also reported to the committee in charge.

Final plans for the affair will be drawn up when the committee meets at Lazzara hall

## Retail Sales Cut By Floods, Crazy Weather, Strikes

Unseasonal weather in this part of the country, coupled with the floods in the Ohio and Mississippi valleys and strikes elsewhere reflected in diminished retail and wholesale activity.

Leading industrial indices, however, continued to widen their spread over the 1936 comparative Dun & Bradstreet reported. On the credit side of the ledger this week is the 29th successive week of gain in electrical production and increases in bituminous coal and crude oil production.

The other side of the picture shows a drop in steel operations and a decrease in freight car loadings due to the flood and a decrease in lumber output because of the prolonged West Coast maritime strike.

Despite the tragic whims of nature, however, retail sales are up 8 to 12 per cent for the country as a whole over the corresponding 1936 week, the Dun report said. The spread over last year's comparative was narrowed by a complete absence of activities in some areas and a decline in volume in others.

In the wholesale markets a more leisurely pace was adopted by most of the principal centers, but volume exceeded the 1936 period by 15 to 20 per cent.

With rail traffic paralyzed at many points and highways impassable, requests for postponement of shipments were numerous, but cancellations nearly were absent, the trade review found.

The monthly review of credit and business conditions of the Federal Reserve Bank of New York declared that in the first half of January total sales of reporting department stores in the metropolitan area were 5.7 per cent higher than in the corresponding period of 1936.

## BANK AIDE 50 YEARS

### Paterson Man Predicts New Business Boom Here

In the opinion of Henry Hobson Tattersall, who celebrated his seventieth birthday in Paterson last week and who this month past marked his fiftieth anniversary as an employee of the Second National Bank, business conditions are improving to such an extent that an economic boom equal to that of a few years ago is likely to occur in a few years.

Mr. Tattersall served the bank first as office boy and for thirty five years has been paying teller.

He has been treasurer of the Paterson Orphan Asylum for twenty five years and is active in other organizations. He finds time, however, for his favorite diversion, pin occhio in the Winter and horsehoe pitching in the Summer at his home in Preknese.

## RHEUMATISM

Pain—Agony Starts To Leave in 24 Hours

### Happy Days Ahead for You

Think of it—how this old world does make progress—now comes a prescription which is known to pharmacists as Allenru and within 48 hours after you start to take this swift acting formula pain, agony and inflammation caused by excess uric acid has started to depart. Allenru does just what this notice says it will do—it is guaranteed. You can get one generous bottle at leading druggists everywhere for 48 cents and if it doesn't bring the joyous results you expect—your money wholeheartedly returned.

## American Federation Of Labor Estimates 8,894,000 Unemployed As Of October, '36; Business Council Seek Industry's Aid

Secretary of Commerce Roper's Business Advisory Council adopted a nine point program of co-operation between business and administration close upon the heels of the American Federation of Labor's estimate that 8,894,000 men and women were still without normal employment in October. The first phase of the program is the creation of additional employment by industry.

The A. F. of L's report revealed that 8,907,000 of the more than 17,000,000 unemployed at the low point of the depression had gone back to work. It also estimated that 33,021,000 persons were in non-farm employment in October a decline of 2,637,000 from 1929.

The labor organization figured that 1,250,000 had been displaced from industries by technological change.

"Our working population has grown rapidly since 1929 and there are today 4,500,000 more workers seeking jobs," the report said. "By the time we reach 1929 business levels, the army of new workers will exceed 5,000,000. Thus, even at pre-depression peak levels, we may expect at least 6,250,000 still to be without work."

"To give work to all, therefore, business must greatly exceed 1929 and this it is not expected to do in the present upswing," the survey stated.

"Government economists estimate that coming prosperity will probably not reduce employment below 4,000,000, even if it achieves that before the next depression overtakes us."

The wasted labor force will cost the nation from a minimum of \$4,000,000,000 to up to \$12,000,000,000 in national wealth, it is estimated.

LORD ENGLAND . . . . . Lord Wardington this week warned that the United Kingdom's present wave of economic activity

must not be allowed to degenerate into a boom, Lord Wardington is head of Lloyds Bank.

Heads of other great banks similarly flew danger signals urging Britain not to forget that maintenance of foreign trade remains as important as ever for national prosperity.

"We ought to look ahead" Lord Wardington said, "to that time when the two chief causes of our present internal activity have come to an end—our building operations and our rearmament program—and take all possible measures to fill the gap by increased foreign trade."

Point was given to these warnings by Board of Trade statistics published today which showed a considerable drop in British foreign trade for 1936 as compared with 1930.

Taking into account price changes which have occurred during the intervening period, the volume of imports for last year was about 3 per cent below that of 1930. Export of British goods dropped 7 per cent, while re-export of foreign made goods fell off 18 per cent.

## TOOK OFF 17 LBS. OF UGLY FAT

### HEEDED DOCTOR'S ADVICE

Mrs. Robert Hickey, Roseville, Calif., writes: "My doctor prescribed Kruschen Salts for me—he said they wouldn't hurt me in the least. I've lost 17 lbs. in 6 weeks. Kruschen is worth its weight in gold."

Mrs. Hickey said no attention to gossipers who said there was no safe way to reduce. She wisely followed her doctor's advice. Why don't you?

Get a jar of Kruschen to-day (lasts 4 weeks and costs but a trifle). Simply take half teaspoonful in cup of hot water every morning. All druggists.

**HELP FLOOD VICTIMS**

The Messenger urges its readers who can do so to contribute to the Red Cross Relief Fund.

Estimates have been made that \$10,000,000 will be needed. To date \$28,707.97 has been received by the Red Cross. Although this exceeds the local quota the National Red Cross has asked for additional contributions from the local chapter.

While we believe the financial responsibility for rescue work in a national disaster such as this belongs squarely upon the Federal Government, nevertheless the Federal Government has chosen to delegate the responsibility to the Red Cross and to the public.

An emergency such as this is no time for quibbling. Hundreds of thousands need aid. This aid is needed at once. This aid is needed desperately. People in afflicted areas are homeless, hungry, in danger of death not only from the floods but from disease.

Give whatever you can, with the realization that every dollar will help in mitigating so far as is humanly possible the frightful effects of the flood.

Contributions to the Red Cross should be sent to your local chapter.

**CENSORSHIP BREEDS PANIC**

Officials of Louisville established a precedent under pressure of the flood emergency last week which was a serious mistake. It may be difficult to blame the officials of this distracted city, but it will help to point out the fallacy of this practice for the guidance of authorities in other towns.

An estimate of 200 dead was made by a city health department official. His superiors immediately cracked down on him. A rigid censorship was established which refused to divulge the number of known dead or their identities.

An inevitable result followed. Wild rumors began to fly about the city and the estimate of dead soon was ventured at thousands. This is always the result of censorship. A way to avoid panic in such circumstances is to let people have the whole truth. It will frighten them much less than the implications of censorship.

**LIGHTER SIDE OF LAWS**

While we readily observe the heavier type of legislation in the process of being milled by our lawmakers, there are some reflections towards laws on the lighter side of life.

A resolution was passed by the Oregon Legislature requiring all of its members to get their hair cut. This is outright regimentation and denial of civil liberties right from the very outset. It is to be expected that the Liberty League, the Sentinels of the Republic

and other alarmists will rush into print defending the right of Oregon legislators to let their hair grow.

The Oregonian resolution scarcely surpasses the one introduced by Congressman Hamilton Fish. His measure would abolish the custom that requires all wives of Congressmen senior in point of service to their husbands.

Representative Fish's measure appears humanitarian in motive since it can be assumed that Congressmen's wives are busy enough trying to explain to their relatives why their husbands haven't obtained jobs for them.

But is it constitutional? Haven't the wives of senior Congressmen a vested interest in the right to receive duty calls, an interest which Congress cannot take away without violating the due process clause?

**NO PURGES FOR DEMOCRACY**

Let us suppose that twenty years after the American Revolution ended successfully Thomas Jefferson was in exile; Benjamin Franklin, Alexander Hamilton, Patrick Henry, Robert Morris and Charles Carroll executed for opposition to the regime they had helped to establish.

That would be comparable to the situation in Russia today. Almost all the old Bolsheviks who led the 1917 revolution have gone. When Lenin died, a triumvirate of Zinoviev, Kamenev and Stalin assumed the power that had been expected to fall to Trotsky. Now Trotsky is in exile. Zinoviev and Kamenev are dead, executed as traitors to the Soviet state.

Revolutions are made by strong-minded men and it is not unnatural that they should fall out. But if democracy prevailed in Russia, the opposition to Stalin would not have taken the form of plotting and counter-revolution.

As Radek said: "I joined with Trotsky because with my political views, there wasn't anywhere else to go".

The whole judicial purge of Communist leaders is a black-eye for Sovietism; another object lesson in the value of democratic processes and the safety values they provide.

**A SYMBOL**

Although monarchy as it exists in England is doubtless a useful institution, there are times when it passes the comprehension of ordinary overseas mortals.

There is for instance, King George VI's advisers, who have solemnly counseled him to increase public respect for the continuity and historic background of the Crown by wearing a beard, like his father, King George V.

If this weren't a good idea, it wouldn't have been advised the new king by experts who know what creates respect for the Crown.

If it would be sound for George VI to grow a beard like George V, then it should also be desirable for him to gamble like Edward VII, wear shawls like Victoria, speak only German and French like several of the Georges, be a great general like William III, have as many mistresses as Charles II, acquire the gout like James I, have a temper like Elizabeth and get as fat as Henry VII.

This tradition business is all very well. But if it's carried far enough, the nice home-loving young man who is George VI may find himself dressed up in a suit of cast-iron armor made at Baldwin's foundry and sent off in an Austin "British Goods Are Best") to hunt dragons.

**Quotations**

From the News

"It is not a portent of health for us lawyers nor for our country that we are disposing of vast problems of statecraft, such as defining general welfare, interstate commerce, or due process, by legal specialists guided by precedents and boastfully regardless of reason or wisdom.

"Lawyers have been closing the roads to political compromise of basic problems which are the country's route to economic and social peace. The detour may be rough. It is not a question of favoring conservative policy or liberal policy, property rights or human rights. Our problem is to make this great federation of States work."—Robert H. Jackson, Assistant United States Attorney General.

"That part of the Versailles Treaty which deprived our nation of equality and degraded it to a position of an inferior people has found its natural end. Above all, however, I hereby most solemnly withdraw the German signature from that declaration forced upon a weak government against its better knowledge—the declaration to the effect that Germany was guilty of starting the World War."—Adolf Hitler.

"We find among them (Trotskyist Russians) a desperate hatred of the Soviet Union and evil threats to assassinate Soviet leaders with their first actual victim the ill Kirov."—Alexander A. Troyanovsky, Soviet Russia's Ambassador to the United States.

"No argument can be found to defend treason. I cannot find extenuating circumstances. I cannot say that Leon Trotsky misled me. It was an adult person, I followed Trotsky because I saw no other group which I could join in political views. I joined Trotskyism voluntarily and I will bear full responsibility."—Karl Radek, convicted Bolshevik.

"I hope for a well rounded workable program providing for the ever normal granary. It can be perfect this year. It will function with respect to the farmer and consumers in years of good and bad weather alike."—Secretary of Agriculture Henry A. Wallace.

"It is not possible to place money value on the citrus shipment losses. Price levels of fruit remaining to be shipped will reflect to some extent at least the shortage and may possibly return for the crop as a whole almost as much as would have been received had the damage not occurred and the larger crop been marketed at lower prices."—California Fruit Growers' Exchange.

"Many nations of Europe and Asia appear to be on the brink of war. Such a war, probably engulfing most of the major nations of the world, would shake civilization to its foundations, if not destroy it altogether."—Dr. Nicholas Murray Butler, president of Columbia University.

"To the people of the United States, 'neutrality' has one meaning—that we are to keep out of war. That is the meaning of the word to the man in the street. That's what the country wants."—Hugh S. Johnson.

## Tonge Presses Fight Against Pin Machine

Seeks To Inflict Severe Penalty  
On Offenders

Alderman Thomas Tonge's drive against pin ball machines, especially on the premises of saloons in this city, will reach its critical stage at the next meeting of the board of aldermen when he will introduce a measure calculated to control the "racket" as he terms it.

"The time to arrest this racket", said Mr. Tonge, "is now, before it blooms to the proportions of the slot machine racket of several years ago."

### Heavy Penalty

Tonge would introduce a measure which would provide for a penalty which would increase in severity each time a saloon keeper is convicted of keeping one of the machines on his premises. The penalty would be as great as a month's suspension of the saloon-keeper's license.

How Tonge's proposed measure would react on the other members of the board of aldermen, however, remained a doubtful matter.

## Vigorito League To Hold Banquet On February 13th

Final plans for the installation dinner dance of the Thomas Vigorito League are in complete readiness. Dr. William Marcus, chairman of the committee in charge, announced yesterday.

The affair will be held in the grand ballroom of the Alexander Hamilton hotel on Saturday evening, February 13. Frank J. Seiro, well known lawyer, is assisting Dr. Marcus in his duties on the committee.

### Notables Invited

Entertainment and music for dancing will be a feature of the program. Many prominent Republicans including Governor Hoffman, Lloyd B. Marsh and Judge John C. Barbour have been invited.

## Board Re-Appoints

## N.J.L. Of M. To Hold Sectional Meeting Here

Representatives from cities in Passaic, Bergen, Essex, Morris and Sussex counties will meet here in Paterson on February 10 when the northern group of the New Jersey League of Municipalities holds the first of a series of sectional meetings.

Announcement to this effect was made by Mayor John V. Hinchliffe who heads Paterson's delegation. The meeting, which is one of a series expected to replace the old time method of one large mass

## Twain Do Meet — Here's Proof!

Amateur and professional boxers are not supposed to meet, but here above are pictured Allie Stolz, New Jersey's 112 pound champion and Frankie Genaro, former amateur and professional 112 pound champion of the world. Genaro thinks that Stolz will go far in the world of boxing and looks upon him as a sure shot for the Eastern team which will meet the Western team in the annual Golden Gloves competition at Chicago next month.

meeting, will be held in the Alexander Hamilton hotel.

### Other Meetings

Groups from other parts of the state will meet in Somerville, Asbury Park and Camden this month.

## BENEFIT SHOW AT STATE THEATER MONDAY, TUESDAY

The American Legion will present a gala show at the State Theatre on Van Houten Street, Paterson for two evenings, Monday and Tuesday February 15th and 16th. Sponsored by the 40-8 order of the Legion, the proceeds will be used for the welfare work in the floor areas. Daniel Kinnl, Chef De Garre of the 40-8 has selected Anthony Andora as chairman of the committee. Tickets can be purchased at the theatre or from any member of the American Legion. The Legion Band will render a presentation on the stage both evenings in addition to a splendid screen show. The tickets can be used either night offering a choice of four major screen shows. Arrangements are being made to have a parade through the city to remind everyone that the Legion is again coming to the front offering their services for a worthy cause.

## The Sports Current

by GEORGE GERO

One of the largest crowds to ever attend an amateur boxing program in North Jersey is expected at the Paterson Armory tomorrow night of this week when the semi-final bouts of the Golden Gloves tournament being sponsored by the Call and the Letter Carriers association of Paterson will take place. With outstanding performers of the tourney, including three State champions, scheduled to battle it out for the honor of entering the finals next week, a series of blood and thunder fights are looked for.

The entrance of Bill Ryans, New Jersey 147 pound class champion, in the tournament last week added a pack of TNT to the fighting slate. Ryans, one of the greatest welterweight boxers to punch his way to the State championship, scored a one minute kayo over Lloyd Pohlman of Little Falls in his debut.

Ryans is also scheduled to go this week but he probably will find the going far more tough the next time that he squares off for action listed in the same class with him are Jerry Wright, Bergen county's great 147 pound champ; John Campbell, the Clifton star and Mike Rosal of Passaic, one of the dark horses of the tournament. Rosal, in knocking out John McCrae of Newark, two weeks ago, looked like a world-beater.

Billy Tucker, the 126 pound champion, will also see action in the tournament for the first time tomorrow night and Tucker too, has in front of him a flock of opponents who may stir up plenty of trouble. Bernie Taylor of St. Agnes Lyceum and one of the most promising kids in the Paterson district; Joe Babulak of Perth Amboy who is champion of Middlesex, Somerset, Monmouth and Ocean counties and Paul Cabana, the West Paterson kayo king are the opponents who are slated to go in Tucker's class.

Allie Stolz of Newark, the 112 pound State champion, who made such a wonderful showing in his opening bout here two weeks ago, has also been notified to be on hand. Johnny Riordan, Bergen county's champion and Tony Andriani of Genaro's Gym are Stolz's remaining competitors.

One of the most attractive battles of the night is scheduled to take place in the 118 pound open class. Ray Rovelli of Teaneck, Bergen county's present champion and Charley Marmo of Paterson will battle it out for the right to take on Morris Parker, the 118 pound State champ, in the finals next week. Rovelli and Marmo are both better than average performers and a terrific struggle looms up as a sure thing.

Hot action is looked for in the 135 pound open class, too with Alex Doyle of Garfield, Norman Arthur of Paterson, Willie Harris of Newark and William Mazza of Paterson, scheduled to toss up gloves. All four turned in fine performances to reach the semi-finals.

Open class heavyweight action will also take place for the first time and Tom Schenick of Passaic, Reinhold Helbig of Moonachie and Joe Birsack of Wallington are the principals involved. Schenick be-

## Gov't. Unifying Work Will Start

The House plan for a special joint committee to handle President Roosevelt's Government reorganization program was agreed upon by the Senate and the wheels of such motion are expected to begin rolling this week.

Vice President Garner immediately named the Senate members including Senator Byrd (Dem. Va.) a critic of the President's program. The House resolution providing for the committee was approved with an amendment calling for nine members from the Senate and seven from the House. The measure goes back to the House for action on the amendment.

Garner named Democratic floor leader, Robinson, as head of the Senate committee.

Others appointed were Senators Byrnes, (Dem., S. C.) O'Mahoney (Dem., Wyo.), Berkeley (Dem. Ky) Harrison (Dem. Wis.) McNary (Rep. Ore) Townsend (Rep. Del.) and Norris (Ind., Neb). Robinson explained the new joint committee would not interfere with the work of Byrd's committee on reorganization.

## Big Demand For Better Jewelry

"From riches to rags and from rags to riches" is the way experts describe the jewelry manufacturing business in Newark in the last nine years.

Newark is one of the largest jewelry manufacturing centers in the United States. In the decade preceding 1929 the industry was flourishing here because there was a demand for the best quality of merchandise. Then came the crash of 1929. In the years that followed the demand for quality merchandise changed to one for imitations of quality jewelry. But the industry took another turn last September. The demand for quality merchandise came again and the demand for imitation jewelry decreased to a minimum.

Discussing the cycle, J. B. Bishop, a member of the manufacturing firm of Bishop & Bishop, said: "For ten years preceding 1929, the so called boom era, we had difficulty in filling orders for 14 carat gold rings, set with genuine precious stones. The demand came from bankers, business men and women, bricklayers, taxicab drivers and practically every other type of American citizens. Values for each piece of merchandise ran from \$50 into the thousands of dollars."

cause of his fine showing during the past year, will be the favorite going in.

Action in the 118, 135 and 160 pound sub-novice classes will also take place along with three special events which Bob Whiting of The Paterson Call has arranged.

Persons who have not as yet purchased tickets for the Golden Gloves semi-finals are instructed to get busy at once. One more week and the boys will be in there battling for the right to take part in the great Madison Square bouts. The interest is keen and by far the largest crowd of the tournament is expected.

Members of the Paterson Letter Carriers' association are in charge of the ticket sale. Tickets can also be obtained at The Call office, the "Whip", Wagner Cafe on Market Street, opposite the Armory in Paterson and at Joe Rosentover's Tavern on Garden street in Passaic. Popular prices prevail.

## P. S. Will Spend \$23,000,000 For New Improvements

Budget Is Largest Since 1929

Expenditure of upwards of \$23,000,000 for replacements, new equipment and improvements has been authorized by the approval of the 1937 construction budgets by the Boards of Directors of Public Service Corporation of New Jersey and subsidiary operating companies. Of this sum approximately \$18,000,000 will be spent by the Electric and Gas Departments and \$5,000,000,000 by Coordinated Transport. This is the largest Public Service budget since 1929.

Among the larger items in the construction budget of the Electric Department are the installation at Essex Generating Station, Newark, of a 50,000 kilowatt superposed turbine generator and two high pressure, high temperature boilers, also a reconstruction of the switch house. There will be constructed between Essex Station and Metuchen a high tension transmission line which will give increased reliability of service. A second transmission line for the same purpose will be built between the Hudson Switching Station, Jersey City and a site in Bergen County.

At the Kearny Generating Station the outdoor high tension switching facilities will be improved.

Two million dollars will be spent for the continuance of the policy of placing electric distribution facilities underground.

Provision also is made in the budget for a new substation at Hillside and for extension of lines additional connections, transformers and meters and improvement of services in general.

The main item in the Gas Department's budget is an additional boiler and an extension to the boiler house at Harrison Gas Works. The increasing popularity of gas for house heating has made this additional boiler equipment necessary.

Coordinated Transport has placed an order for 195 buses of the all service type in the extension of the company's policy of substitution of buses for street cars on various lines.

## Free Service Ban At Banks May 1st

Postponement from Monday to May 1 by the Federal Reserve board was announced of a regulation prohibiting members of the Reserve System from absorbing charges for check collection and services.

The action was taken at the request of Chairman Steagall and Wagner of the House and Senate Banking committees.

If they were prohibited from absorbing service charges, certain member banks have contended, they will lose accounts to non-member institutions which do absorb them.

"A number of members of Congress," the board said today, are considering "the advisability of amending the law under which the board's regulation was issued."

## New Iodine Discovery ENDS PAINFUL CORNS IN 3 SECONDS Guaranteed!

## Her Seal Shall Be Legion

NEW YORK, (Special).—Miss Liberty, of the statue in New York Harbor, is already playing in her newest role. An artist's impression of her graces the official seal of the New York World's Fair of 1939. Thus, from the vantage point of news columns, mail stickers and innumerable other decorated devices she carries the torch of invitation to every corner of the world and into every home in the United States.

Jefferson Girls Club met at the home of Miss Agnes Lascari Tuesday night and celebrated the birthday of the hostess.

## 'Eternal Road' Is Considered A Huge New York Success

Saluted by a barrage of unanimous praise from Manhattan's most hard boiled critics, which was summed up by a news magazine's report that "it is the only theatrical production that has ever deserved the adjectives of stupendous and colossal", "The Eternal Road", Max Reinhardt's great drama-spectacle, at the Manhattan Opera House, though less than two weeks on its way, is already the most talked of production in New York.

It gave its first performance on January 7th, after more than 3 years of preparation and rehearsals, before an audience that rivalled the most glittering Hollywood premiere as far as notables are concerned. First night critics there upon pounded out on their typewriters such phrases as "an achievement beyond comparison" "visual beauty and magnificence such as the modern theatre has never seen equalled", "the stage spectacles", "breath-taking beauty", "magnificent", "exquisite" "amazing", "lovely", "incomparable" and other superlatives that are rarely seen in drama columns.

It was universally agreed that of all the world-famous productions which "The Little Wizard of Leopoldskron" as critic John Anderson titled Reinhardt, has staged, this one is his master-work.

Into its making went \$488,000, the complete remodelling of the huge Manhattan Opera House originally built by the late Oscar H. Hammerstein as a rival to the Metropolitan; enlarging of the stage to three times the height of that in any ordinary large size theatre; enough electrical wiring and power to supply fifteen productions the work of more than 200 stagehands and carpenters to construct and set the tremendous five level stage; and at least fourteen times the usual number of rehearsals required for the usual large scale production.

During the three crowded acts which unfold a story of modern times interwoven with the greatest and most dramatic episodes of Biblical history, 300 actors, dancers and singers appear before the spectators. A corps of musicians and singers, hidden in a pit beneath the stage and unseen by the audience, their music brought into the farthest reaches of the huge theatre by an ingenious system of multiple amplifiers, is used in addition. Some 2,200 lighting cues signal the amazing color changes sweeping over the great spectacle. N. Y. Edison Company especially constructed a vault beneath the stage with two transformer stations to provide the current needed.

The creative invention of four Titans of the theatre went to the making of "The Eternal Road."

Franz Werfel, whose "Forty Days of Musa Dagh" was one of last year's outstanding best sellers, and whose earlier drama "Goat Song", produced by the Theatre Guild, is considered a modern classic in the theatre, is author of the script and the lyrics. Werfel combines, like Shaw, wide popularity with applause from the most demanding of the critical fraternity for his books and plays, and through his writings has been able to buy himself a Viennese palace, described as the most luxurious writing dugout in the world.

Reinhardt, who staged the entire production of drama, dance, music and ingenuity, and pneumonia.

## LEGION ASKS W. P. A. PROBE

Members of Passaic Memorial Post, No. 200, American Legion, called the method of placing veterans on WPA projects "unfair" at a recent meeting.

A resolution calling upon the county department of the American Legion to investigate the "unfair practices" was passed.

A "Father and Son" night will be held by the post on Washington's Birthday, February 22. Members of the post with their sons are invited. There will be refreshments and entertainment. Prominent speakers are scheduled to appear.

The annual officers' dinner will be held Lincoln's Birthday, February 11. Reservations must be made before Tuesday. Peter Wolgast, chairman of the membership committee, reported that more than 200 members have been enrolled this year.

and spectacle, at sixty two is considered the foremost theatre director in the world. Since 1902, when he opened his first play in Berlin, he has produced every type of play, from Aeschylus to contemporary American works. More than 25,000 performances of his productions have been given in Europe alone.

America first became aware of him through "The Miracle" which he produced here in 1923. Known as the innovator of every new method of staging in use in the theatre in the past two decades, he has lately also taken to the movies. He is in process of becoming an American citizen.

Norman Bel Geddes, the designer whose boldness and originality conceived the breath taking scenic effects in "The Eternal Road", is also the producer and scenic designer of "Dead End" now in its successful second year. He created the settings for the American production of Reinhardt's "Miracle" and his realistic settings for a skyscraper scene on the stage in a recent play made news.

Kurt Weill, composer of the music for the production, which rivals an operatic score in scope and death, is the outstanding modern composer for the theatre. Less than 32, he has written the music for more than a dozen productions among them "Three Penny Opera" and "Johnny Johnson" which was one of this season's successes.

The audience that nightly attends the Manhattan Opera House is a study in the city's cosmopolitanism. Rabbis, priests, social leaders, students, leading men and women in the theatre and other arts, Mr. and Mrs. from the suburbs, scores of out of towners who are including it on their "must" lists—and the usual theatre goer, crowd into its 2,900 seats.

## It's Easy to Make Your Valentine Party Different!

Courtesy Sealtest Laboratory Kitchens

By BEULAH V. GILLASPIE  
Director, Sealtest Laboratory Kitchen

HERE are two suggestions for that colorful, party day; and so easy to prepare and serve. Suitable for either a youngster's party—or for the grown-ups.

### VALENTINE CAKE WITH STRAWBERRY ICE CREAM

Use a plain cake batter and bake in two large square pans. Remove from pans and cut each square in a heart shape. Cut out center. Spread boiled frosting between the two heart-shaped pieces and on the sides and top. Place on a large platter, decorate with Valentine Mints, and when ready to serve fill center with strawberry ice cream. (The cake that has been removed from the center can be crumbled, mixed with soft custard, chilled and used as a dessert.)

**VALENTINE MINTS**  
2½ cups sugar ¼ teaspoon  
1 cup milk cream of tartar  
2 tablespoons Coloring and  
butter Mint Flavoring

Place the sugar, milk and butter in a saucepan over low heat and stir until sugar is dissolved. Bring to a boil, add cream of tartar, cover and cook slowly for 5 minutes. Remove cover and wipe off any sugar crystals from the sides of the pan. Cook to 238°F. or until a soft ball forms when a little of the mixture is dropped in cold water. Pour on a cold, wet platter. Do not scrape the pan. Allow to cook to about 110°F. or until just slightly warm. Work the mixture with a pancake turner or broad spatula, folding it over and over until it becomes white and solid and knead with the hands until smooth and creamy. If mixture begins to harden before smooth, add a little cream and continue kneading. Flavor fondant with mint and divide into three portions. Color portions pink, green and yellow. Pat out to about 1-3 inch thickness and cut with a tiny heart-shaped cutter.

## SetUp Committee To Safeguard Education

# THEATRICAL NEWS

## MAJESTIC THEATER HOLDS AMATEUR SHOW TONIGHT

Filled with novelties, good clean comedy, pleasing singing and dancing numbers and a scenic investiture far above the ordinary, the current stage show at the Majestic theater in Paterson offers an entertainment which should crowd the Main street showhouse for the balance of its stay there.

Other pleasing parts of the program which is three hours in length, is the picture part which exhibits two of most stirring photoplays that ever graced the well known amusement resort's screen.

Additional features are presented at the Majestic on Monday nights and Thursday nights. On Monday evenings "Bank Nite" is offered while on Thursday evenings amateurs hold sway. Both of these features get under way on their respective nights immediately after the last stage shows. At the amateur contests four cash prizes are awarded. They range from \$2 to \$10. The contests are open to all amateurs. All that is necessary to participate in them, is to sign an entry blank at the box-office. This can be done anytime between the hours of 12:30 P. M. and 11 P. M.

## U. S. PRESENTS "THE PLAINSMAN" AS FEATURE

The tender love which existed between two of the hardest characters of the old West, "Wild Bill" Hickok, two fisted hard shooting exponent of law and order as the newly opened territory knew it, and "Calamity Jane," a beauty who packed a pair of six guns and drove a six horse stagecoach over what then passed for roads, is the basis of Cecil B. DeMille's latest screen masterpiece, "The Plainsman," which begins on Friday at the U. S. Theatre in Paterson.

History relates how Hickok, played by Gary Cooper, was retained by the government to investigate gun running in the West because he was among the most feared of the hold and toughened characters of a region known for its hard and brave men, when that region was first opened for immigration, around 1870.

On the way he meets the beautiful "Calamity Jane," so named by a troop of soldiers who found her as a child in the wilderness beside the bodies of her dead parents—killed by Indians.

Hickok discovers who is responsible for the gun running after General George A. Custer and his whole Cavalry Regiment are wiped out by the Indians at Little Big Horn. But the discovery costs him dear. One of his prisoners, the notorious Jack McCall, portrayed by Porter Hall, whom he herds into the Deadwood Saloon, operated by "Calamity Jane," brings tragedy in a breathless climax.

## At The Majestic

Ray Walker and Regis Toomey in the new Republic Picture "Bulldog Edition"

The DeMille film begins around 1865 when the Civil War ended and the trek West was begun, and ends shortly after the Custer massacre. Others in the cast are James Ellison, Helen Burgess, Paul Harvey, Victor Varconi, and "Fuzzy" Knight.

A twenty minute, third dimension color classic entitled "Popeye, the Sailor meets Sinbad, the Sallah" and latest Paramount News Events complete the program.

## GEORGE ARLISS STARS IN FILM AT GARDEN

The inimitable George Arliss comes to the Garden Theatre, Paterson, in "Man of Affairs". Rene Ray and Romilly Lunge are featured in leading roles and the supporting cast includes, Jessie Winter, John Ford and John Turnbull. George Arliss plays two roles. In one he plays the part of a good nature traveler and in the other he is a high hat cabinet official. As plain Richard Richard Dunchester his interest in people prompts him to protect Bill Howard accused of murder. Thus he returns to London and also tries to save his brother from plunging the country into war.

His carefree and amusing way of getting in and out of scrapes finally finds him kidnapping his brother and impersonating him at a very serious cabinet meeting. He manages to accomplish any number of unusual feats—an altar waiting for Bill and Vera, and a laurel wreath for his brother, he exit, heading once again for the inscrutable East.

### Co-Feature

A wealthy business man learns that his money can buy everything but love in the stirring turf drama, "Racing Lady" also at the Garden Theatre. Ann Dvorak, Harry Carey and Smith Ballew are co-featured.

## "STOLEN HOLIDAY" TOPS BILL AT THE FABIAN

In the role of a French mannequin, Kay Francis, is starred in "Stolen Holiday" opening at the Fabian, Friday.

Kay's rise from the ranks of a mannequins begins when she meets Claude Rains. He comes to the modiste shop where she is working, and tells the manager that he has been delegated to select a model and some costumes to exhibit in Paris society. Kay is his selection, but when they are alone he reveals to her that what he really wants is a dinner companion with whom he can impress a rich banker.

Thus begins a partnership that endures until eight years pass, and Kay has risen to the top of her chosen profession, unaware that her backer is involved in nefarious financial deals. When inevitably, the swindles come to light, she does all she can to help him she even consents to marry him, although she has already fallen in love with a young English diplomat.

George Brent and Beverly Roberts are starred in the co-feature picture, "God's Country and the Woman" filmed all in beautiful technicolor.

Steve Russett, as played by Mr. Brent is the happy go lucky playboy partner of the Russett Lumber Co. His brother Jeff, has Steve kidnapped and brought to the lumber camp in the woods, after Steve has upset a crooked deal by which Jeff had hoped to possess himself of the Crown Timberlands, his biggest rivals.
