## DONOHUE BILL RETURNS SITE TO PATERSON

Assembly Restores Almshouse Tract To The City

### DRAWN UP TRAFFIC BILL

A bill, sponsored by Mrs. Nan V. Donohue, assemblywoman from Passaic county, authorizing the return to the city of Paterson of the almshouse tract, given by the city to the state as a site for a normal school, was passed by the state assembly early this week.

The introduction of the bill marked Mrs. Donohue's first speech in the assembly chambers. She was elected to office on the Democratic ticket last November.

Mrs. Donohue won a hearty round of applause as well as a unanimous vote after she presented the bill to the assembly.

#### Seek Housing

Efforts are being made to obtain the use of the almshouse tract as a site for a low cost housing project, but the prospects are dim in respect to the realization of this hope.

Mrs. Donohue will introduce a new bill on Monday night which is designed to transfer the jurisdiction of the traffic department of the city of Paterson from the board of works to the board of fire and police commissioners.

#### For Traffic Bill

Should the bill receive the approval of the assembly, it will mark the first concrete step toward the solution of Paterson's traffic problem. It has the endorsement of Mayor John V. Hinchliffe.

## New Snag In Way Of Camp Hope

### Branchville Offer Unacceptable To Freeholders

The offer of the Federal government to donate the buildings of an abandoned CCC camp at Branchville for use at the Camp Hope children's health center is not as attractive as it first seemed, the county board of freeholders decided yesterday after an investigation of the situation.

#### "Another Headache"

The county had been offered the Branchville equipment as a replacement for the Camp Haledon (continued on page 5)

### NIXON RITES

#### To Be Held At St. Joseph's R. C. Church Today

Funeral rites for the late William L. Nixon, prominent insurance broker and son of Freeholder John J. Nixon, who died Tuesday morning, will be observed at the St. Joseph's R. C. church this morning. Interment will be made in the Laurel Grove cemetery.

Mr. Nixon passed away suddenly at his home Tuesday morning the victim of a stroke. Full military honors will be paid in his memory. He was a World War veteran.

## Her Bill Passes

NAN V. DONOHUE

## Petitions Back Rafferty's Plan

### Ask Congress To Enact Its Principles Into Law

Petitions supporting the suggestion of James Rafferty, a Paterson silk worker, that a federal 8-hour, one shift day law be instituted as a remedy for the silk industry in particular and the textile industry in general, were being forwarded to members of congress in large numbers this week.

Labor and civic organizations alike joined in supporting Rafferty's contention that only through the enactment of a measure containing these principles could stability be restored to the textile industry.

#### Wins Endorsement

Rafferty's plan, which has already been forwarded to Secretary of Labor Perkins and which has drawn favorable comment from U. S. Senator A. Harry Moore and Congressman George N. Segor, won hearty endorsement in the Northern New Jersey area from manufacturers and employees alike.

## Dr. De Rose Opens Dental Office Here

Dr. J. S. DeRose, Clifton dentist who had been practicing in Tampa, Florida for the last three years, this week announced the opening of his dental office in the Garden theater building, 202 Market street. He will enter upon a general practice here.

Dr. De Rose is the son of Mr. and Mrs. De Rose of 242 Clifton avenue, Clifton. He completed his pre-dental studies at Tusculum university, Tennessee, and was granted his degree in dentistry by the Atlanta Southern Dental College.

He has done public health work in Florida and is a member of many dental societies. His wife is the former Dr. P. C. Midulla, also a dentist.

## "SUGAR KING" GUILTY; FACES 4-YEAR TERM

Operated Illicit Still In South Hackensack

### TWO OTHERS CONVICTED

Angelo Lapadura, the "sugar king" of the bootlegging racket during the era of prohibition, today faced a possible sentence of four years' imprisonment. He was convicted of operating a still in South Hackensack by a jury in the United States District Court in Newark yesterday.

#### Long Suspected

Lapadura had long been suspected of being the financial backer of illicit stills in the Passaic-Bergen area. He is a resident of East Paterson.

Convicted with him were Joseph Lombardo, 20, of Lodi, and Dominick Gesualdo, 24, of 20 Ward street Paterson.

#### May Serve 4 Years

His conviction on two counts, each of which bears a maximum penalty of two years, lays him open to a maximum sentence of four years. Two other defendants, Anthony Greco and Rudy Zock, both of Lodi, were acquitted.

### WINS AWARD

#### Rutgers Gives Ralph Russo A Scholarship

The Upson scholarship, Rutgers University's most coveted scholastic award, was given this week to Ralph J. Russo, a Paterson boy who resides at 61 Madison avenue.

Young Russo, who is a chemistry major at Rutgers, compiled an impressive scholastic record during the last semester. He has been working his way through college with the aid and encouragement of Henry Marelli, prominent local lawyer. The scholarship will pay all his expenses for the coming semester.

## VIGORITO THROWS HAT IN RING; TO RUN FOR MAYOR

### Announces His Candidacy At Dinner Of League

Thomas F. Vigorito formally entered the race for the Republican nomination for mayor of the city of Paterson Saturday. He made official announcement to this effect at an installation dinner at the Alexander Hamilton hotel of the league which bears his name.

More than three hundred members and friends of the Vigorito league applauded vociferously as their standard bearer, speaking to them in the main address of the evening, declared:

"I now launch my campaign as the Republican candidate for mayor."

#### Raps Discrimination

Mr. Vigorito devoted a major (continued on page 5)

THOMAS VIGORITO

## On Dental Staff

DR. FRANK BONGIORNO

## 2 Mills Sold, New Industry Comes To City

### Pharmaceutical Laboratory To Employ 200 Here

The sale of two mill properties to make room partly for the establishment of a new industry in Paterson was the highlight of industrial developments this week.

#### Contracts Signed

Contracts for the purchase of the B. Edmund David mill on Goodwin avenue and the Peter Garino and Sons Silk Dyeing plant on Third avenue were signed Tuesday.

Under the arrangement, the Lorr Laboratories, Inc., a subsidiary of the Reis-Premier Company, will take over the David Mill, while the 177 Third Avenue corporation will become the owner of the Garino plant.

#### To Hire 200

The opening of the new plant of the Lorr company will bring a new industry to Paterson. Approximately 200 persons will be employed here in the manufacture of pharmaceutical supplies.

## BONGIORNO IS APPOINTED TO DENTAL STAFF

Succeeds Dr. Black As Member Of School Dental Examiners

### BOARD REAPPOINTS OTHERS

The board of education last week made its annual appointments to the staff of school dentists, naming Dr. Frank Bongiorno as the only replacement on the dental staff. He succeeds Dr. John A. Black.

#### Re-appointed

Those who were reelected to the staff are Dr. David Holstein, Dr. August Hermann, Dr. Philip Provvisor, Dr. Peter Frank and Dr. Martin Gerber.

The new member of the staff, Dr. Bongiorno, is the son of Peter and Lillian Bongiorno and the brother of Dr. Henry D. Bongiorno of River and Sassafras streets. Dr. Bongiorno was born in Passaic and received his grammar and high school education there.

#### Georgetown Alumnus

He is a graduate of Georgetown university and the Georgetown university dental school and is a member of Psi Omega, honorary dental society. His offices are at 593 River street.

## McCutcheon's Appearance Is Rally's Highlight

### Makes First Public Appearance Since Dethronement

John McCutcheon, former state comptroller and county Republican chairman, made his first public appearance since his retirement from the political scene several years back at an installation dinner held in the Alexander Hamilton hotel in honor of the officers of the Passaic County Republican league Tuesday evening.

#### Gets Ovation

Approximately 400 Republican representatives gave the former G. O. P. chieftain a rousing ovation when he was presented to them at the climax of the evening's program by County Clerk and Leader Lloyd B. Marsh. Mr. McCutcheon, however, did not speak.

Referring to him as "my predecessor", Marsh presented McCutcheon to the audience by saying: "In spite of everything that may (continued on page 5)

### NO RESTORATION

#### Water Commission Employees Will Not Get 10% Back

The Passaic Valley Water Commission declared this week that the restoration of 10 per cent salary cuts to its employees was "virtually an impossibility."

The declaration was made in answer to a petition presented by workers for return of their pay cut in accordance with the policies of other governmental bodies in the state.

## Ethiopian Empire Is Recognized By Pope

Pope Pius, still confined to a wheeled divan, in observing the fifteenth anniversary of his coronation, offered his apostolic benediction to Victor Emanuel as King of Italy and Emperor of Ethiopia.

In extending full recognition to Italian sovereignty over Ethiopia, the Pope returned the King-Empor's anniversary greetings.

In excellent spirits, he granted audiences to distinguished persons who came to extend congratulations.

A fairly comfortable night's rest and the fact that his attacks of pain were growing less gladdened the anniversary for the Pontiff, although it was in sad contrast to last year's resplendent ceremonies when the Pope, surrounded by his entire suite, attended pontifical mass in the Sistine Chapel.

Visitors noticed that the furrows of his face and his pallor betrayed the effects of many weeks of serious illness.

## DIVERSION OF GAS TAX IS ASSAILED

If State Legislatures continue to divert gasoline taxes to other than highway purposes, the Federal Government may have to curtail its nation-wide road building program. Congressional authorities sounded the warning.

Representative Wilburn Cartwright (Dem., Okla.) chairman of the House Public Roads Committee and author of the \$488,000,000 Hayden-Cartwright road act, declared that State Legislatures were "diverting" annually more than \$200,000,000 of gasoline taxes intended for highways into school relief and other funds. He said the practice is increasing.

Cartwright said that many of the forty-three Legislatures meeting now to determine budget needs are using the highway tax funds improperly already.

"It is high time this practice ceases," Cartwright warned. "It is unfair also to the motorist who pays his taxes thinking that he will get good roads in return."

Under his measure, the Federal funds, in some instances, would be matched dollar for dollar with State funds while in others they would be outright grants to States whose conditions are approved by the Secretary of Agriculture. The \$488,000,000 bill covers the 1938 and 1939 fiscal year.

## Trade Authority Is Urged By Committee

The Committee of Industrial Legislation of the Trade and Commerce Bar Association recommended the establishment of a Government agency to enforce agreements voluntarily made by various industrial groups.

This agency, it was explained, would be empowered to undertake enforcement of trade practices suggested by the industrial groups and would have authority to disapprove and withdraw the regulations if they were found to be unfair or against public interest.

George Nebolsino, chairman of the committee, said this decision had been reached following a study of legislation designed to regulate competition in view of problems remaining after the death of the National Recovery Administration.

## Law To Place Ban On Child Marriages

Judge Henry S. Waldman, of Union County's Domestic Relations Court, suggested enactment of a law in New Jersey which would prohibit a boy or girl under the age of 18 years from marrying, even though his or her parents consented.

The suggestion was made coincident with the filing of his annual report, which showed that a total of 980 new complaints were filed with his court in 1936.

Of the 890 complaints, the basis for 139 was assault and battery committed by husbands against wives, 373 for desertion and non-support and 152 cases asking for marital separations. Custody of minor children was sought in 96 cases. In addition the court heard more than 100 dependency petitions involving the custody of 160 children.

"A startling revelation," said Judge Waldman, "was that more than 60 per cent of the married couples who appeared before the court did not attend any kind of church."

In suggesting a new law covering the marriage of minors Judge Waldman said that there was nothing to prevent a repetition in this State of the recent episode in Tennessee where a 9-year old girl was married. "Under the New Jersey marriage laws," he said, "it seems that a boy or girl of any age can marry provided that they have the consent of their parents. This is most deplorable and can be the subject of many abuses."

## URGE A STUDY OF RESOURCES

State planning boards were urged to continue their decentralized studies and seek greater State appropriations for the work to assure through a six year program the future economic welfare of the nation. The National Resources Committee made the state wide statement.

Reporting to President Roosevelt on the efforts of thirty five planning boards and twelve Governor's planning commissions, the committee said it had succeeded "beyond its expectations" in creating interest "in this important work."

President Roosevelt, in a message to the American Planning and Civic Association Convention here last night, advocated "official staff agencies for planning in cities, counties, districts, States, interstate regions and the Federal Government."

"It is encouraging to find in the report that State and regional planning agencies are doing effective work in collaboration with the Federal Government with each other and with local planning boards," he said.

## TOOK OFF 17 LBS. OF UGLY FAT

HEEDED DOCTOR'S ADVICE

Mrs. Robert Hickey, Roseville, Calif., writes: "My doctor prescribed Kruschen Salts for me—he said they wouldn't hurt me in the least. I've lost 17 lbs. in 6 weeks. Kruschen is worth its weight in gold."

Mrs. Hickey paid no attention to gossipers who said there was no safe way to reduce. She wisely followed her doctor's advice. Why don't you?

Get a Jar of Kruschen to-day (lasts 4 weeks and costs but a trifle). Simply take half teaspoonful in cup of hot water every morning. All druggists.

## Would Cost Each Person \$267. To Void U. S. Debt

Climbing since 1930, the nation's debt stands at unprecedented heights with the total reaching \$34,500,000,000. This is about double the figure of the late 1920's and almost eight billion over the 1919 wartime high.

Thus, it was deduced that if all the nation's 129 million inhabitants pitched in to wipe out the Federal debt it would cost them \$267.37 each.

More than half of the debt is owed to banks, another large chunk to insurance companies and corporations and most of the remainder to individuals.

There is about \$2,000,000,000, however, that the Government, in effect, owes to itself. This is represented by obligations held in trust accounts by the Federal Deposit Insurance Corporation, the Postal Savings system and similar agencies.

Of the remaining \$32,500,000,000 banks hold \$17,400,000,000 of which \$2,400,000,000 is in Federal Reserve banks.

Against the present debt, there are several offsetting accounts, which, if deducted in their entirety would pull it down about \$7,000,000,000. These include "recoverable assets" in excess of liabilities held by the Reconstruction Finance Corporation and other credit agencies. They are carried on Treasury books at \$4,000,000,000.

In addition, the Government has about \$1,000,000,000 in its "working balance" or ready cash box, and \$2,000,000,000 is "frozen" in the exchange stabilization fund.

## New Lighting, Even Bubbles in Color To Beautify Fair

NEW YORK. (Special).—None of the scientific discoveries or developments being hurried from the laboratories to make the New York World's Fair unusual and thrilling will produce more startling results than the latest technique in illumination.

This statement was issued by Grover Whalen, President of the Fair Corporation, at the inauguration of experiments by the Fair's staff of engineers and illumination experts or their consultants. These men are already at work with quarter-inch scale models of the Fair types of lighting equipment never before used in comprehensive manner, and utterly new principles never developed practically. They are dealing with everything from fluorescent dies and colored bubbles to concentrating lamps and floodlight systems.

The plan is not to create spectacular effects in the usual sense if the term, says Mr. Whalen, but rather to create designs in light that will make their appeal through their magnitude and their sheer beauty.

## DUFFY LEAGUE BEEFSTEAK

Annual Affair At Paterson On February 25th

The Charles V. Duffy League will hold its annual beefsteak dinner at 38 Park Avenue, Paterson at 7:30 o'clock Thursday evening, on February 25.

Mayor John V. Hinchliffe will be honorary chairman and Police Recorder Vincent C. Duffy the toastmaster, William Kearney and Ambrose R. Matthews are co-chairmen.

Others on the committee appointed by President Edward J. O'Byrne are Thomas Mislop, William Kane, Harry F. Weiss, Robert Friend, Raymond Dougherty, James O'Germain and Hugh C. Spernow, vice-chairman. Vincent Murtagh, secretary and Michael O'Rourke, treasurer.

## CARRY PLEA FOR CAMP HOPE TO PRESIDENT ROOSEVELT

A personal appeal to President Roosevelt to have the CCC camp at Smith Mills preserved for at least another Summer will be made by Freeholder Ernest T. Scheide, Mayor Benjamin F. Turner and Mayor John V. Hinchliffe on their way to Washington for an audience with F. D. R. today.

Those interested in the maintenance of the Smith Mills camp had fears already that the camp was being demolished the latter part of last week when authorities ordered demolition of a garage on the property.

Captain Harold Raymond, in charge of Company 239, at Butler, said he had no intention of razing the buildings for the time being at least. Had the buildings been demolished, it would have spelled the end of the proposed visit to Washington.

By the summer of 1938, it is expected that Passaic County will have a permanent Summer camp site of its own, where underprivileged children of the County will

be given the opportunity of spending two weeks out in the sun and enjoying two weeks of weight-producing foods.

Already a camp site has been offered the County, the title to the land being deed of a passable trail to the property. It has not yet been given serious consideration because Camp Hope, as it is now constructed, is ideal for the County's use.

## Commerce Department Aides Feel 1937 Will Top 1936 Business In "Recovery"

Commerce Department economists agreed that business is good and getting better.

The outlook is for "further recovery" rather than of future prosperity. For 1937, they said, the outlook is "good." There is every indication that it will be better than 1936, they feel, but they wouldn't hazard even a guess as to when the nation's business activity will reach the peak levels of prosperity days" or 1928 and 1929.

Recovery, primed by more than \$13,000,000,000 of Government spending in the last four years, is now moving along under its own impetus, they contend. However, they pointed out, the situation might reverse if there should be a change in economic conditions abroad. For example, they said, if foreign nations should suddenly decide to withdraw their almost \$7,500,000,000 invested here, it might have an unsettling effect on credit

structure.

Secretary of Commerce Roper viewed 1936 from the standpoint of business activity as the best year since 1930. The domestic recovery movement during that year he said, was reflected in the increase in national income from \$53,587,000,000 in 1935 to \$60,000,000,000 in 1936 highest since 1931, when it was \$61,000,000,000.

Other commerce officials estimated that national income in 1937 will reach \$67,000,000,000 which would be the highest since 1930, when it was \$72,000,000,000 and about \$11,000,000,000 under the, all time high in 1929.

Other factors reflecting improved business include:

Stock market prices at the highest levels since 1929-30.

An anticipated Federal income in the 1938 fiscal year, beginning July 1, 1937, of \$7,294,000,000.

## Building And Loans Make 38% Gain In FHA Mortgages, Underwood Says

During the last six months of 1936, building and loan associations of Passaic increased their volume of mortgages accepted for insurance by the Federal Housing Administration 38 per cent, according to George S. Underwood, N. J. F. H. A. Associate Director.

"In financing home mortgages in the Passaic area, these associations had 112 loans totalling \$522,420 accepted for insurance through December 31, 1936 as compared with 82 mortgages accepted as of June 30, 1936 amounting to \$378,520," said Mr. Underwood.

Evidence of home ownership promotion was shown in the report by the fact that 45 per cent of the associations' volume of mortgages accepted for insurance since the inception of the Federal Housing Administration was advanced for the construction of new homes. This represented the purchase of 47 moderate priced homes which will be debt free in a period of 20 years or less through the medium of small monthly mortgage amortization payments. A volume of \$233,300 in mortgages accepted for insurance on a low cost amortization basis which is payable like rent.

"This splendid cooperation by the Passaic associations," said Mr. Underwood, "contributed to a 313 per cent increase by savings, building and loan associations nationally in their volume of mortgages accepted for insurance by the Federal Housing Administration during 1936."

### ASK NEW AUTHORITIES

A bill was introduced in Washington this week to carry out President Roosevelt's suggestions for eight regional authorities to co-ordinate flood control, power, reclamation and rehabilitation in the

The measure would establish authorities similar to the Tennessee Valley Authority. The eight regions would blanket the entire nation in a co-ordinated drive to preserve and develop natural resources.

Barkley and Bulkeley said they had drawn the measure in line with suggestions of the President in his message transmitting the report of the National Resources Committee, which recommended expenditure of \$2,750,000,000 in the next six years.

## Wallace In Favor Of Trade Treaties

Secretary of Agriculture Henry A. Wallace opined that improved economic conditions and unfavorable weather—and not the reciprocal trade program—had been the causes of increased agricultural imports.

Mr. Wallace testified before the Senate Finance Committee, which is considering a bill to extend the program for three years after June 12.

"The Department of Agriculture is heartily in accord with the trade agreements program," he said.

Mr. Wallace said much of the increase in total agricultural imports was in non competitive products, such as rubber, cocoa and coffee.

Increase in imports of competitive products had been in those affected by the drought, he said.

"Whenever there is a drought as severe as those of 1934 and 1936 I believe we should welcome rather than deplore agricultural imports," he said.

## Set Up 3 Styles For Post Offices

Without too much regard for authorities of taste, the Government has whacked up the United States into three great architectural sections.

Using post offices as its medium, the Treasury's procurement division slowly is peppering the nation with a neat and lasting building pattern.

Federal designers have divided the country into these artistic subdivisions: Georgian and Colonial, Spanish and French, modern and miscellaneous.

The Georgian Colonial group is bounded on the north by Maine on the south by the southwest corner of Georgia and Alabama and on the west by Mississippi, Tennessee, Kentucky and Ohio.

Feeling the Spanish and French influence are Florida, Louisiana, Texas, New Mexico, Arizona and the lower ends of Georgia and California.

The rest of the nation is modern and miscellaneous.

## Demand Census Of Nation's Employed

Steps were taken this week to broaden President Roosevelt's proposed unemployment census to include a count of the employed as well.

Officials favoring the move said voluntary registration of unemployed might provide no more information than the National Re-employment Service has gathered from 6,500,000 jobless by the voluntary method.

Plans for a nationwide check to provide definite figures on which to base Federal relief and welfare programs are approaching a meeting of minds. President Roosevelt indicated that such an agreement was near. Previously he had opposed a "bell-ringing" canvass like that conducted every ten years as too expensive.

Agencies now estimating unemployment strike an average of about 9,000,000. National Re-employment Service voluntary registration figures on active job applications are 2,500,000 lower.

## 1 1/2 Million Share In FHA Program

According to figures of Stewart McDonald, Administrator of the F. H. A. more than a million and a half of individual loans have been made by private lending institutions for home financing and property modernization under the Federal Housing Administration.

Approximately 160,000 home mortgages amounting close to \$650,000,000 have been accepted for insurance by the Housing Administration for financing new and existing homes.

Modernization and repair notes numbering 1,357,100 for over \$516,000,000 have been insured. Under this phase of the Housing Administration's program 1,150,000 families have improved their homes. In addition, approximately 100,000 small business concerns have been enabled to modernize their plants and equipment.

## Predicts Large Labor Shortage

Prediction was made by Dr. Virgil Jordan, president of the National Industrial Conference Board, that a labor shortage will occur by 1940, unless continued expansion of business is prevented and further rise in the American standard of living becomes impossible.

Dr. Jordan, in a talk at the 20th annual meeting of the State Chamber of Commerce called an economic myth "the prevalent assumption that the United States is doomed henceforth to carry at public expense a permanent body of unemployed amounting to five six or eight millions, regardless of the extent of business recovery in coming years."

"Continued increase in business activity at the same rate as since 1933, with prevailing hours of work would bring us face to face with a labor shortage of at least a million persons by 1940," Dr. John T. Jordan estimated.

## \$2,000 PURSES FOR TROTTERS AT FREEHOLD

Two thousand dollars in prize money will be posted for the four-event card of light harness racing which will reopen the Freehold race track at Freehold, N. J. on Decoration Day, it was announced yesterday by Harry S. Gould, Sr., of Park Ridge, president of the Freehold Trotting Club and owner of the plant.

The Freehold track, the oldest chartered race track in the State, has had a checkered career in recent years, being saved from oblivion a few months ago when Mr. Gould purchased the half mile strip, grandstand and stables to prevent its acquisition by a realty development corporation.

"My heart is in harness racing," Mr. Gould said, "and I intend to give the men who own and drive trotters and pacers a real spot to race for real purses. We're going to have four races on the inaugural program, and there'll be a \$500 purse for each race, which is good money at any trotting track on Memorial Day."

The condition book for the opening day is now being prepared, and it is expected that the speediest trotters and pacers in the New York, Pennsylvania, New Jersey area will be entered.

**SAVE CAMP HOPE**

No great stretch of the imagination is necessary to conceive of the bountiful pleasure of underprivileged children at Camp Hope, the Passaic County fresh air camp for children at Smith Mills. In its first season 822 youngsters, including 200 girls, had each two weeks of sublime freedom and sunshine.

We feel certain county residents are grateful to Freeholder Director Ernest T. Scheidemann for his thought of utilizing the abandoned CCC camp. His plan worked out wonderfully. Government equipment at the camp was adapted for use by those in charge at Smith Mills Fresh Air Camp and everyone's co-operation in the project made the sun much brighter than it really was.

There is a possibility more than a thousand children will take advantage of the camp this year and every year—IF.

The great big "if" is the government's consent that the county be permitted to make the camp a permanent fixture for underprivileged and undernourished children. The Legislature turned down the first proposal, despite the vigorous battles put up by Senator Moore and Congressman George N. Seger.

Today, Freeholder Scheidemann, with Mayors Turner and Hinchliffe, intend to place the proposal squarely before President Roosevelt. We pray that the busy chief executive will be able to spare the necessary time to consider this project. If there ever was a warm spot in President Roosevelt's heart, we hope it is in full evidence today.

Every county resident can feel no differently about the Smith Mills project for our underprivileged children. Let us hope that the project will meet with the approval of the highest officer in the land.

**HOW TO ABOLISH CHILD LABOR**

President Roosevelt, his foe in the last election and his predecessor all have been opposed to child labor. When Roosevelt, Landon and Hoover agree, there must be some reason for the abolition of child labor.

Why isn't child labor abolished? How can it be abolished?

Denouncing employers of children in labor is not the answer, even if they deserve it. Or should we rightfully suppose that fathers and mothers throughout the United States selfishly exploit their children, as some do.

The reason children work in the United States is the same that they work in other sections of the world—to make money in order to increase the income of the family group. There is no argument against the statement that, in many places, a laborer, unskilled and untrained, cannot make enough money to decently support a wife and children. Inevitably, the wife and the children seek employment.

We feel the way to abolish child labor in the United States is to make it possible for workingmen to make enough money to support their families. Most of them would like to do it.

**HONORING ARTISTS**

If anyone accuses us of being scrooges, we're sorry, but we feel it a sacred duty to rise in protest against the plan of Representative Tinkham of Massachusetts for an American Hall of Fame at Washington.

The practice of giving dead artists a stone while denying live artists a cheese sandwich has gone on long enough.

If an important modification is made, we may be inclined to favor the plan. Let the Congressional Hall of Fame Committee pick out a man it delights to honor—say Mark Twain. Let Twain be approved in both houses in Congress assembled. Then, instead of appropriating \$5,000 for a statue of Twain, let a Mark Twain Pension be set up, the proceeds to be given to some deserving writer for life, or until he rises above need.

Five hundred such pensions would support five hundred aspiring talents at a total annual cost of possibly \$500,000, or less than the price of one little post-office. The structure of living art thus erected would be a greater mansion than any public building of which we have knowledge.

A subsidiary reason for our position is that peculiar inappropriateness of a Hall of Fame as a way of recognizing genius. How sad and how silly to take all the free spirits of the ages, men who have journeyed long and ventured far into unknown regions and then honor them by crowding effigies into a little room, blank stone faces staring at each other.

**WINTER WEATHER**

In almost every section of the United States mild weather during January and the first half of February has been enjoyed. This caused many predictions for 1937 to the effect that it would be a year without a winter.

This is possible. With winter half over, according to the calendar, the weather may surprise us. However, don't forget that January of 1936 also began in mild fashion but the before many weeks honest-to-goodness cold was at hand, with sub-normal temperatures staying with us for almost three weeks.

Don't be surprised at the mild weather in February for the same reasons.

There is only one safe rule in prognosticating the weather: Don't.

**HITLER KILLS**

The sharpshooter of the modern era, the Reichsfuehrer Adolph Hitler "killed" the already beaten corpse of the Treaty of Versailles. We do not begrudge Der Furor his heroism.

Nor do we disagree with his statement that the "war guilt" clause in the Versailles Treaty was a lie. Germany was not guilty of starting the World War but—thanks to Hitler—it looks as though she will certainly be guilty of starting the next.

It might be well to add the observation that the socialization of the banks and the railroads, claimed as a Hitlerian achievement in the last four years, has been an actuality for the past sixty years!

**Quotations**

From the News

"The depression has made wives unusually tender and considerate of their husbands in trouble. While in normal times the old adage 'when poverty comes in the door love goes out the window' has held true, the depression has brought out the great capability of men and women to adjust themselves to lower incomes."—Dr. Albert Van Dusen, former Syracuse University professor.

"Most people travel so they can talk about it. I talk about it so I can travel more."—Barton Holmes, travel lecturer.

"The sound policy for business might be to oppose the radicals from both ends of the scale: the Communists on the left and the reactionaries on the right."—Harper Sibley, noted lawyer.

"I am still a rebel against conventions. The mood, if not the manner, of revolution is still the most fertile soil for ideas."—Ellen Glasgow, novelist.

"All the people I admire are a bit puffy under the eyes. To be beautiful today, really beautiful, you must have a very large mouth, high cheek bones, unashamed laugh wrinkles and a blunt or upturned nose. It's the look of the original clown, the mask of the eternal clown. The Duke of Kent has it, Fred Astaire has it, Gertrude Lawrence has it, The Marx Brothers have it. All really attractive people have it."—Cecil Beaton, photographer and painter.

"Smoking is not done by the best Christians."—John Penrose, English clergyman.

"The time has now come for Congress not to delegate powers to the President, but to take them back."—Hamilton Fish, New York Congressman.

"An error we have fallen into in recent years is the assumption that power could be more safely lodged in a number of men than in an individual."—Frank Orren Lowden, former Governor of Illinois.

"The people should get behind the President and give him all the assistance they can, but preserve the right to criticize, providing that criticism is constructive."—Harry T. Nice, Republican Governor of Maryland.

"The historical law of dictatorship makes a war in Europe inevitable."—Emil Ludwig, noted historian and biographer.

"You will be better off if you spend the weekend in bed than if you try to crowd seven days' exertion into two."—Artie McGovern, former boxer and trainer.

"Tiger," the opus generally held responsible for the birth of "swing" both as music and a dance form.

The co-feature on the same bill will feature "A Doctor's Diary".

"Most businessmen haven't the time to dig down into the complexities of foreign trade."—Francis B. Sayre, Assistant Secretary of State.

## L'Alba Italiana Installs New Staff Saturday

The sixth annual formal supper dance of L'Alba Italiana will be held at the Swiss Chalet Saturday evening. Newly elected officers of the organization will be formally installed.

Final reports presented at Tuesday's meeting of the committee in charge of the affair under the direction of Miss Rose Badagliacca, chairman, indicated that the event will be one of the most successful ever sponsored by L'Alba Italiana.

Vincent Perneti is the chairman of the board of trustees of the organization.

## Vigorito

(continued)

part of his address to an attack on discrimination against Italian candidates for office.

"This," he said, "is not an Italian American, but an exclusive American dinner. Rumor has it in some quarters that it is not right for an Italian to carry on, that is it not right for an Italian to go out for mayor. If this is true, I protest with all my power.

"Proud American"

"Before you," Mr. Vigorito said, "stands a proud American, equally proud of his ancestry, and I don't have to bow my head."

The speaker launched into an attack on Mayor John Hinchliffe, the present incumbent, terming him a "Leftist" and criticizing his policies in general and the fact that Paterson teachers were the "most underpaid in the nation" in particular.

"I seek the Republican nomination for mayor as a citizen," he concluded. "I started with the Republican party as a boy 25 years or more ago, serving my party at a great expense to my wife and children. I pledge myself to restore the city government along the platform of ideals of Abraham Lincoln a government of the people, by the people, and for all the people of Paterson."

Marsh Speaks

Lloyd B. Marsh, county Republican leader who also spoke at the banquet, told the league that while no candidate had as yet been decided upon, Tom Vigorito would be given every consideration in the matter.

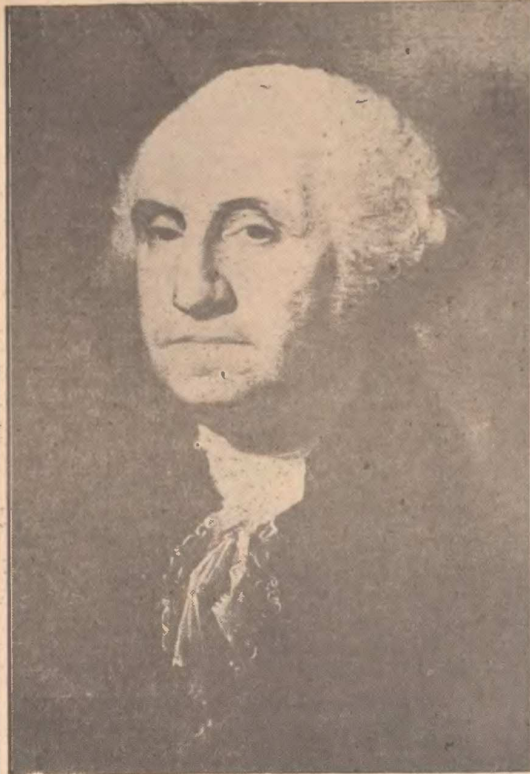

## Dunn Honored At Testimonial

Prosecutor Arthur C. Dunn was guest of honor at a testimonial dinner given him by his friends in the Alexander Hamilton hotel last night. The occasion was the Third anniversary of his assumption of his present office.

Among the speakers at the dinner were Circuit Court Judge Joseph G. Wolber, Common Pleas Judges Joseph A. Delaney and Robert H. Davidson and Advisory Master Bernard Stafford and Sheriff John A. Gavin.

Assistant Prosecutor Addison P. Rosenkrans acted as toastmaster.

## "FATHER OF OUR COUNTRY"

GEORGE WASHINGTON

George Washington's birthday will be observed as a legal holiday here Monday, February 22, when schools, banks and public buildings will close. Business houses plan holidays. Local patriotic orders are also planning appropriate ceremonies in honor of the "Father of Our Country".

## Camp Hope

(continued)

buildings which were denied to their use by federal authorities several weeks ago.

"If we accepted the government's offer," a spokesman for the Camp Hope committee explained after an inspection trip to Branchville, "it would mean just another headache to us."

Need Permission

The Branchville camp, it was explained, lies in Sussex county and is a part of Stokes State Park, and permission would have to be sought to establish the Passaic county children's health center there.

The other alternative, that of dismantling the buildings and transporting them to the present site of Camp Hope in North Haledon, was termed as too costly to even be considered.

## McCutcheon

(continued)

have been said about him, he has always been a mighty good Republican."

Others Appear

Cutcheon and Marsh were Dr. Thomas A. Clay, George C. Warren, Jr., and Thomas F. Vigorito, who has announced himself as a candidate for the Republican nomination for mayor of Paterson.

## SAVINGS DROP

### Postal Savings Figures Slightly Lower Than Usual

Postal savings accounts in Paterson totalled \$1,792,255, according to an announcement by the post office department here. There are 2,581 local depositors, it was said.

The figures, which present the latest picture of the local function of postal savings, represent a comparatively slight drop in the use of this governmental service by the public.

## Rumors Concerning Lease Of Palisades Are False Reports

The management of Palisades Amusement Park on the Jersey side of the Hudson opposite the 125th Street Ferry announced today that there is no truth to the continued published rumors and reports that Billy Rose has leased the park. Irving Rosenthal, co-partner of Jersey resort with his brother Jack, speaking for the Palisades management, said: "It is true that negotiations were started sometime ago for Rose to bring his Casa Manana show from the Texas Centennial to Palisades next summer. There were also some arrangements begun for the Broadway producer to erect his own World's Fair on the Palisades site, but nothing definite has as yet been settled."

"Definite arrangements," continued Mr. Rosenthal, "have already begun for elaborate alterations under the present management for the coming summer as well as for the 1938 and '39 seasons during the New York World's Fair."

It was further announced that construction has already begun at Palisades for a new million dollar ride known as the "Lake Placid Toboggan Slide" which will be introduced at the opening of this summer's season.

## BETWEEN THE LINES

A local wit has brewed up a scheme with which he claims he'll make millions. He plans to have facsimiles of the Old Gold wrapper printed up in thousands and sell them to persons interested in entering the cigarette contest for the \$100,000 grand prize.

His sales slogan is: "Get these facsimiles, enter the Old Gold Contest—and still smoke your favorite cigarette."

Remember the days when the only place you could get a bath was at the local barber shop. Who said I wasn't that old?

Technicality in foreign languages; in Art McMahon's column the other day he believed that "voros" was the Hungarian for red. Technically, "veres," pronounced "veresh" is redhead and "piros," pronounced "piros" is the Hungarian for the color red. There is no charge for the correction, Art.

Commissioner and Mrs. Nicholas Martini are enjoying the warm run of Havana. It's a well-earned rest for the Street Director.

A Fusion organization is brewing in local political circles. I have it on excellent authority that it will be headed by a group, who, up to this time, have not received recognition from city fathers. Both the Democrats and the Republicans mis treated these boys when they were on respective sides of the fence. Now the mistreated have decided to fuse for their own strength.

The Boys' Club food exhibit and sale will be held in the Passaic Armory in April. Sponsors of the show hope the affair will bring about \$700. The same outfit that made the Hadasah affair a success last month is rigging up the occasion for Vanderberg's club.

## BASEBALL WEATHER

You can blame these thoughts on the weather.

It's been so calm these days, I'm wondering why it wasn't at all possible for a few of the local clubs to get permission from Stadium Secretary Joe Gardner to play a few innings—just sort of pre-Spring training as it were.

Most of the baseball talk of the teams herabouts would be kind of bare. There are no high salaried press agents to gurgle about hold-outs, and no retuffed sagas of what the boys were doing during the Winter to keep in trim.

That leads us right up to the big league chatter. Talk gets around a bit with the assistance of several reams of stuff that clutters the daily newspapers. And you know, the way these fellows get to talking around the refrigerator (re. placing the hot stove league of pre-cold era).

The world champion Yankees should be as strong this year as they were last year, the Di Mag—just Joe to you—will be a year older and a year more of seasoning to help along. Lazzeri and Gehrig will also be a year older, but a year smarter in experience and all of that. The Iron Horse, incidentally, shows little sign of wearing and will likely go through this year and others without a stop.

Cleveland's "Kittle" Feller should be an interesting item. A lot of fans had to sit up and take notice of the youngster the latter part of last year, and this year we expect to hear a good deal more about him.

For half a dozen years now the Indians have threatened, only to fade again. The Tribe had something of a shake-up since last season. Vosmik, Kildebrand and Knickerbocker were shipped to the Browns in exchange for Lyn Lary, big Julius Solters and Ivy Paul Andrews. So Steve O'Neill should come to the wars with a big rearranged lineup and a great big prayer that the combination will work.

Manager Bill Terry expects to go to bat with approximately the same lineup as last year. Lou Chiozza, late of the Phillies, will take Travis Jackson's old position at third. Eddie Mayo, of Clifton, was the neighbor all Passaic believed it would see at Jackson's spot, but they sent Eddie to the Bees instead. If Mayo makes good, Passaic and Clifton will join in giving Terry the Bronx cheer.

I don't think Bill will be active at first base this year. Sam Leslie, Johnny McCarthy and Leslie Powers, purchased from Baltimore, are candidates for Boss Terry's spot.

The important point is that the Giants still have Carl Hubbell. In my book that will always be a very important factor. By the same token, the Cards still have Dizzy Dean though Branch Rickey still dicker, ing with Dizzy, overlooks the occasion to say that the Dizzy would be traded if the buyer could pay the price. I don't think there's enough money in the entire loop to buy the Dizzy at Rickey's figures.

Two Deans, Warnes, Muscles Medwick, Pepper Martin, Terry Moore, Johnny Mize and maybe

## Jersey Dress Manufacturing Trade In Throes Of Destruction — Heyman

The New Jersey Dress manufacturing business is in the throes of destruction. During 1936 and in the first two months of this year, the state lost 23 dress manufacturing establishments. The compilation was made by Sol Heyman, president of the N. J. Dress Manufacturers' and Contractors' Association.

More than 1,400 men and women have lost employment through this destruction. Shops in question, in the vast majority of cases, went out of business, unable to compete with New York City manufacturers and contractors because of the higher cost of doing business in this state. The remainder moved to New York City to enjoy the cost advantages that the big city owners have over these in Jersey.

The New Jersey Dress Manufacturers' and Contractors' Association is seeking to have the International Ladies' Garment Workers' Union return to them a wage differential under New York City to compensate them for the higher cost of doing business. This higher cost of operation is due to trucking charges that New Jersey manufacturers have to pay, and which New York City manufacturers do not have because of their proximity to the market, and it is also due to the fact that production in New Jersey is not as rapid as in New York City because New Jersey does have the skilled labor market from which to draw that New York has.

These are the more important factors, but there are others equally as costly, all caused by the New Jersey owners' distance from

the jobbing market, which is New York City.

The condition as it stands today, Mr. Heyman declared, threatens New Jersey with complete loss of the industry, which at present employs 10,000 men and women, and pays out in wages \$10,000,000 a year.

Of the 23 shops that New Jersey has lost in the past thirteen months, Mr. Heyman stated, eight went out of business, and five moved to New York City.

Passaic County was the hardest hit, he said. The number of shops lost was four, all in the City of Passaic. These four establishments employed 485 persons.

## January Volume In Construction Shows 20% Gains

January construction in the United States showed a gain of more than 20 per cent as contrasted with the figures for December, 1936, according to data issued by F. W. Dodge Corporation.

The January, 1937, total likewise was some 13 per cent better than the figure for January, 1936.

For the thirty-seven Eastern States covering all classes of construction, the total amounted to \$242,841,000 last month, compared with \$199,695,700 for December, 1936, and \$214,792,800 for January 1936.

Each major geographic district registered a gain over December

totals, except New England, the Central Northwest and the New Orleans district (Louisiana and Mississippi). Gains over January, 1936, were scored in all principal territories except New England, the Chicago district (North Illinois, Indiana, Iowa, Southeast Wisconsin), the Central Northwest, Kansas City district (Kansas, Western Wisconsin, Oklahoma and Nebraska), the New Orleans territory and Texas.

The January, 1937, construction total for the thirty-seven Eastern States as a whole included \$78,423,700 for residential building, \$56,968,900 for nonresidential building and \$68,451,400 for public works and public utilities. The residential figure was 20 per cent greater than the December, 1936, figure and more than doubled the total of \$37,439,500 shown for this class of construction during January, 1936.

## • Rice Can Have Its Big Moments, Too!

Courtesy Sealtest Laboratory Kitchen

By BEULAH V. GILLASPIE  
Director, Sealtest Laboratory Kitchen

YOU can do so many interesting things, with rice—making a delicious main dish with rice as the base. And the men folks will go for this tongue-teasing "Rice à la Valenciana" with its subtle blend of spices, vegetables and shrimp. Serve it for lunch or dinner.

### RICE A LA VALENCIANA

1½ cups canned tomatoes	2 tablespoons chopped onion
3 bay leaves	2 tablespoons chopped green pepper
¼ teaspoon ground cloves	3 tablespoons butter
1 teaspoon sugar	1½ cups milk
½ teaspoon salt	½ teaspoon soda
¼ cup flour	

Few grains pepper	1 cup cooked or canned shrimp
½ teaspoon Worcestershire sauce	4 cups cooked rice

Cook together the tomatoes, bay leaves, cloves, sugar, salt, pepper and Worcestershire sauce for about 15 minutes. Sauté the onion and green pepper in the butter until soft. Add flour, mix well and add the milk gradually while stirring constantly. Cook until thickened. Remove the bay leaves from the tomatoes, add the soda and pour into the milk mixture. Add the shrimp and pour over the cooked rice. If rice is cooked in rice ball, unroll on a platter and cover with the sauce. Serves six to eight.

Uncle Franz Frisch will be out for the Cards, and that's a plenty strong enough lineup for me.

"Business will only do right when it puts service first and finance second."—John D. Rockefeller, Jr., now 63 years old.

## Mr. Bernard Sees Good Year Ahead For Phone Industry

If use of the telephone is an indication of general conditions New Jersey's business and other activities improved steadily through the last year and continued improvement is looked for in 1937, Chester I. Barnard, president of the N. J. Bell Telephone Company, states in the annual report of the Company made public today.

Telephones in service increased \$2,343, compared with a gain of 14,406 the preceding year. More than half of the 96,900 telephones lost during the depression year had been regained by the close of 1936.

The volume of calls handled at the switchboards was heavier than in previous years, averaging 2,672,580 a day last year compared with 2,505,066 a day in 1935, and the increase in calls to more distant points was particularly marked.

Financial results improved moderately, Barnard reported. Operating revenues for the year increased \$2,983,492 over the preceding year, operating expenses increasing \$1,716,189 of which the principal item of increase was taxes. Taxes rose \$738,887 to a total of \$6,656,275 for the year 1936, taking 12.5 per cent of total revenues received and amounting to more than \$8.80 per year for each telephone in service.

After deduction of taxes, net operating income for 1936 was \$8,157,846 or \$1,267,304 over 1935 and amounted to 3.94 per cent on the investment in the business, compared with 3.38 per cent in 1935. Net profits available for dividends

amounted to \$5.63 per share of common stock as compared with \$4.33 per share in 1935.

Telephone service was made better wherever possible during the year and "in all respects was held to the high standards of quality which have been maintained by all the recent difficult years", Barnard said. Some of the measures taken to improve service included more frequent inspection and repair of telephone lines and repair of incipient defects; further centralizing and making more efficient testing and cable fault-finding activities; extending the hours in which repair service is available in many places to include evenings, Saturday afternoons and holidays and Sundays, and installation of new common battery switchboards in Berlin, Blackwood, Hopewell and Seaside Park.

Rate reductions made during last year resulted in savings to telephone users amounting to more than \$305,000 a year. In the last 7 years, savings through reductions have amounted to more than \$1,200,000 a year, the report said. The principal reductions last year were in the cost of out of town calls; the minimum charge for exchange service at season resorts; the charge for temporary suspension of service for periods not over three months; extension of areas in which extended scope service is available, and enlargement of base rate areas.

Increased business volume enabled the Company to restore a full five-day basic work week during the year for practically all telephone employees, of whom there were 11,646 at the end of the year. Salaries and wages paid during 1936 totaled \$20,163,412 as against \$18,860,064 in 1935.

## March 1 Deadline For Security Fund Payment To State

Employers of this state were urged to pay head to the March 1 deadline set up by the State Employment Compensation Commission, which is expecting full returns from an estimated 25,000 firms of social security monies.

Collection of more than \$15,000,000 from 1936 payrolls for New Jersey's job insurance fund is expected by the commission. Payments thus far exceeded \$400,000.

Approximately 700 firms of the 25,000 have already made returns.

The largest check received was \$22,000. The name of the contributor could not be made public.

The Commission announced it was prepared to receive a last minute deluge of checks since the experience of other Governmental agencies has been that at least 80 per cent of the returns are made within 48 hours of the due date.

# THEATRICAL NEWS

## "ON THE AVENUE" NOW SHOWN AT THE FABIAN

Swinging merrily along to the tune of the best songs ever written by the greatest writer of songs in the world, "On The Avenue," opening tomorrow at the Fabian Theatre, represents Irving Berlin at his melodious best, in a musical that is full of pep and lulling good spirits.

With Dick Powell and Madeleine Carroll making a new and romantic twosome of musical comedy, the lively Twentieth Century Fox musical presents a real life romance of New York, in a show that's as big as the town, Alice Faye, The Ritz Brothers and George Barbier add both melody and mirth to the production.

Madeleine Carroll, noted hitherto for straight dramatic roles, makes a charming sweetheart for Dick Powell. The beginning of "On the Avenue" finds her, as a wealthy debutante, entering a theatre with her father, George Barbier, and an explorer, Alan Mowbray, at the moment that Dick Powell, Alice Faye and the Ritz Brothers are engaged in a hilarious take-off on the home life of "the richest girl in the world."

Infuriated Madeleine stalks from the theatre, threatens the manager with suit, and brushes past a stage doorman to snatch Alice's wig from her and to break the window of Dick's dressing room before she is forcibly ejected.

Relenting later, Madeleine apologizes for being a poor sport, and invites Dick to dinner. Falling in love with her, Dick promises to revise the skit, and invites her to the next performance. At this, however, Alice, Dick's partner, horrifies him by adding even more caustic lines to the skit.

Madeleine takes her revenge on Dick for the public humiliation, but

In a surprising scene, in which the music of Irving Berlin plays a novel part Dick finds a way to clear up the misunderstandings that have parted them and to bring a thrilling conclusion to the film.

## "PLOW AND THE STARS" PLAYING AT THE GARDEN

"The Plow and the Stars," a fictitious story of the Irish uprising of 1916 which brings Barbara Stanwyck and a distinguished cast to the Garden Theatre has been called "the greatest drama in the twentieth century."

"The Plow and the Stars" displays Sean O'Casey's ability at its most brilliant peak, and the screen version as directed by John Ford, winner of the academy award for his work on "The Informer" is said to give film goers an entirely new slant on Irish Humor, while driving home a moving story of tragedy threatened romance in strife-torn Dublin.

The cast of the "Plow and the Stars" which takes its title from the emblem on the flag of the Irish civilian Army, features Preston Foster and Una O'Connor in support of Barbara Stanwyck.

The co-feature, "The Mighty Treve" featuring Noah Beery Jr. and Barbara Reed is also at the Garden Theatre, is based on the novel "Treve" by Albert Payson Terhune who is credited with writing stories for 30 movies. Terhune has written more than three dozen books besides his magazine stories.

## STATE THEATER OFFERS FANS MANY FEATURES

Besides offering its patrons a complete change of screen attractions three times weekly, the State Theatre gives its patrons more pro-

fitable and entertaining added features than any theatre in this vicinity regardless of the price of admission.

The fascinating game "Lucky" is played twice weekly, Thursday and Saturday evenings and has proven to be a very popular attraction to the public. "Auction Nite" is enjoyed every Friday evening when the State's Auction Sam buys nonsensical articles from the audience for cash, and provides many a laugh.

The State's Amateur Hour, every Sunday matinee, is played to a capacity house every week which proves it is unequalled in entertainment value.

## FAMOUS IMPERSONATOR ON STAGE OF MAJESTIC

Arthur Boran, radio's favorite mimic, and star of the stage and screen, will be the featured stage attraction opening a four-day engagement at the Majestic Theatre in Paterson on Friday matinee.

Mr. Boran is an impersonator of exceptional ability. He imitates 60 odd world famous characters, including the best known comedians, vocal artists, foremost dramatic stars and leading statesmen of our times so accurately that it is almost impossible to tell the make believe from the original.

Only recently President Roosevelt and his cabinet strained the confines of dignity when they roared at Arthur Boran's impersonations of political figures at a dinner tendered the President by more than 250 newspaper correspondents from the entire nation. The most amusing portion was when he impersonated the President.

In addition to Mr. Boran, there will be four other high class acts on the stage and two action packed pictures on the screen.

The program at the Majestic is three hours in length and continuous from 1 to 11 P. M. During the course of it, smoking is permitted in the upper boxes and loge seats.

## JACK OAKIE FEATURED IN FILM AT THE U. S.

Gay old Vienna is the background for songs by Gladys Swarthout, dancing by Veloz and Yolanda.

de, and comedy by Fred MacMurray and Jack Oakie in "Champagne Waltz," which comes to the U. S. Theatre in Paterson tomorrow.

Voloz and Yolanda, recognized as America's leading interpreters of ballroom dancing, do several numbers in "Champagne Waltz" in the new swing waltz tempo. Oakie plays the part of a go-get'em publicity man who introduces American "swing" music to waltz-loving Vienna. This puts the famous old Waltz palace of the Strausses out of business. Miss Swarthout is the granddaughter of the owner. She loves MacMurray, whose band does the "dirty work," and the romantic plot of "Champagne Waltz" is concerned with the way in which their love blooms despite this.

There are generous helpings of
