TO TRANSFER SILK MARKET TO COLT ST.

Duffy Confers With Brokers To Put
End To Nuisance

SEEK CITY'S PERMISSION

Efforts on the part of police to keep the sidewalk of Washington street between Market and Ellison clear, following complaints of tenants in buildings of that area may result in the removal of the picturesque Paterson silk curb market to the Colt street side of city hall.

Charges Dismissed

A conference during which this proposed plan was discussed was held this morning in police court between silk merchants charged with creating a nuisance in this area and Police Recorder Vincent C. Duffy after charges against the merchants, 35 in number, had been dismissed because of insufficient evidence.

The complaint had been brought by a tenant in the Romaine building who had charged that the daily congregation of merchants to discuss silk prices and transact business obscured his show window.

Offers Use of Court

During the course of the conference, Judge Duffy offered the merchants the use of the court room in which to carry on their transactions, but the proposal did not meet with any noticeable endorsement. (continued on page 5)

BROWNE HINTS APPOINTMENTS MAY BE MADE

Lists 5 Possible Vacancies In Police-Fire Ranks

Commissioner E. A. Browne, chairman of the fire—police board's police committee, intimated this week that while no provisions for the appointment of new men to the departments which he heads had been made in the new budget, there is a possibility that new men will be added to the fire and police personnel.

Five May Retire

"I understand," said Commissioner Browne, "that there may be two retirements in the police department and three in the fire department later in the year. We cannot tell, of course, what action will be taken at that time, but it is possible that the new vacancies will be filled."

His statement was made in answer to requests on the part of candidates for appointment to the departments who have successfully qualified for positions and who are waiting for vacancies to occur.

Seeks 14 New Men

Police Chief Murphy several weeks ago had reported 29 vacancies in his department and had urged that 14 new appointments be made this year. Over 250 men are now on the waiting list. Their period of eligibility expires in June.

Seeks To Transfer Silk Curb

JUDGE VINCENT DUFFY

Gambatese Ass'n Installation Tonight

Newly elected officers of the Peter M. Gambatese Democratic association will be installed at ceremonies to be held in the organization's headquarters, 120 Carlisle avenue, tonight.

Assemblyman Gabriel C. Roberto will preside at the induction of Sal Constantino into his fourth consecutive term as president of the organization.

Officers' Staff

Others who will take office tonight are Daniel O'Connell, vice president; Frank Daly, recording secretary; Patrick Ciccone, financial secretary; Matthew Farberio, treasurer, and Albert La Puz, sergeant at arms.

Italo-American Women's Club Plans April Fete

The Italian-American Women's Democratic club laid plans for the organization's annual dinner dance at a meeting held last week. The date for the affair was set for Friday evening, April 16.

Mrs. Michael D. Miriello, president of the club, was in charge of the meeting.

Serving on the committee in charge of the affair are Marie Martino, chairman, Margaret Opirato, Concetta Malatesta, Flora Zoppo and Josephine Zoppo.

TO GET AWARD

Paterson Engineer To Be Honored In Washington

The Manly Memorial award for 1936 will be presented to Raymond D. Young, engineer for the Wright Aeronautical Corporation of this city, at the banquet of the Society of Automotive Engineers in Washington, D. C. tomorrow.

The Paterson engineer merited the award after winning high distinction for his paper entitled, "Air-Cooled Radial Aircraft Engine Performance Possibilities."

ARCHITECT'S FEE PROPER, SAYS SCEERY

Park Commissioner Answers Taxpayers' League's Charge

CALLS INSINUATION 'WICKED'

Park Commissioner Edward M. Sceery, at a meeting of the parks board yesterday, vigorously made answer to Theodore Haefell, president of the Taxpayers' league, for what he termed "wicked insinuations" regarding the "integrity of the board."

Answer Haefell

Haefell had been quoted as asserting that an architect's fee paid by the parks board had been done so illegally, and that it had been approved by only two members of the board, whom he did not care to identify.

Other members of the board were inclined to ignore the charges in the light of those made by irresponsible persons, but Sceery, who has served on that body for more than 25 years and has never been known to have dodged an issue, plunged headlong into the discussion and provided records to prove that the sum of \$802.85, paid for architect's services in a WPA park program in August, 1935, was a legal appropriation and represented but one and one half percent of the total cost of the project.

"Property Duty"

"The board has done its proper duty in the matter," declared Mr. Sceery, after producing records proving that the entire board had approved the fee to the architect in question.

FIREMEN SUBDUE 2 BLAZES WHICH CAUSE \$35,000 LOSS

Two fires, wreaking damage estimated at \$35,000, broke out in the business section of Paterson yesterday and kept the city's fire fighters busy for the greater part of the day.

Two Are Burned

The Adler Boys' Shop, located in the Kitay building, was the scene of the first blaze which resulted in severe injuries through burns to David Levine, 64, of 21 Carroll street, who was working at a tailor's press in the establishment, which fire officials believe started the blaze.

Bernard Price, owner of the store, also was burned about the hands while assisting Levine from the premises. Firemen, after a stubborn battle, succeeded in preventing the flames from eating further into the four story building.

Smoke A Handicap

Shortly after 5 o'clock in the afternoon, an alarm sounded which called firemen to the Giant Food Arcade, 119 Broadway, where dense clouds of smoke were issuing from the basement of the building.

Seven engine companies and two trucks responded to the alarm and had difficulty in locating the blaze

GANGSTER'S ESCORT Stetko Taken From County Jail To Face Conn. Charges

Paul Stetko, alias Michael "Kid" Carson, Passaic auto thief, was taken yesterday to New Haven, Conn., by a heavy guard under the command of United States Marshall Eli Nochimson of this city, to face federal charges there.

Stetko had been in the county jail since his arrest by officers two weeks ago. He waived extradition proceedings to face the Connecticut charges.

County Employee To Face Charge Of Incompetency

William Cunningham, an employee of the county road bureau who was suspended from duty this week will face charges of incompetency, inefficiency, neglect of duty, insubordination and disorderly conduct entered against him by County Engineer George Hewitt, it was announced Tuesday.

Cunningham is due to appear before the board of freeholders next week to defend himself against the charges listed against him. The citation was prepared by County Counsel Harry L. Schoen.

County Charge

The defendant filed counter charges of assault and battery against County Road Superintendent Fred F. Faraci, his superior officer, Saturday night, and is alleged to have often clashed with Mr. Faraci in the course of their duties.

FIREMEN SUBDUE 2 BLAZES WHICH CAUSE \$35,000 LOSS

because of the heavy smoke. Stock in the store and lumber which was to be used for alterations were damaged to the extent of \$10,000.

The building is the property of the Ray-Lo Investing and Holding company of 126 Market street, Paterson.

Construction Of New Sewer Is Voted By Board

The board of works this week took under advisement a suggestion made by the Paterson Safety Council that a traffic light be erected at Beekwith, Madison and Twenty-second avenues.

At the same time, the board approved an ordinance authorizing the construction of a sanitary sewer in East Thirty-second street between Market street and Twenty-second avenue.

Share Expense

The cost of the project will be shared by the city and by owners of the property benefiting from the construction of the sewer.

BREAKERS OF R. C. A. STRIKE AIDED BY GOV.

Senate Group Hears He Recommended Private Guards

HOFFMAN DENIES CHARGE

WASHINGTON—A senate committee today heard an official of the RCA Manufacturing company of Camden testify that his company had hired strike guards from an agency in New York which had been recommended to it by Governor Harold G. Hoffman.

The guards, who were hired to break a strike in 1936, were believed to have been state detectives. Robert Shannon, vice president of the company, told Senator LaFollette's Civil Liberties committee, but actually were in the employ of the Sherwood detective agency which had a "personal contact" with Governor Hoffman.

Sent Letter

Governor Hoffman's recommendation that Sherwood's agency be used to break strike came in the form of a letter which read, in part:

"I have been acquainted with Mr. Sherwood for some time and I have been most favorably impressed by his work. He feels that there may be some opportunity for service to your company, and I would more than appreciate it if you can grant him a short interview or refer him to the proper official of your company."

"Did Not Know"

Governor Hoffman, reached at his executive offices in Trenton, said:

"I had no knowledge that he ever supplied men for service in industrial disputes." The governor was referring to Mr. Sherwood.

Quick Action On Streets Projects Sought By City

Board Of Works Seeks Conference With WPA Officials

A request that WPA officials grant representatives of the city of Paterson a conference as soon as possible to determine whether immediate action can be had on the city's proposed street repair program will be made by the board of works, C. Waller Lotte, chairman of the board, announced early this week.

The street repair program, which had long ago been arranged at a cost of \$1,292,191 was to have provided the city with the repairing of more than 100 of its streets and would have given many months of employment to from two to three thousand men.

Long Delay

The project had received the approval of district and state WPA officials and finally had been OK'd at Washington, but because of the formulation of new rules for the conduct of WPA projects, its start has been delayed many months.

MAGEE SELECTS SINGLE CAR INSPECTION SITE IN COUNTY, LOCATES 2 IN BERGEN COUNTY

With every thought given to accessibility and convenience to the greatest number of motorists, Motor Vehicle Commissioner Arthur W. Magee announced the locations of State owned and State operated automobile inspections in 22 municipalities.

In this section, stations will be situated at 803 East 27th Street, Paterson, leased from the Paterson Vehicle Co., Hackensack Avenue, Hackensack, leased from the Harper Terminal, and on Chestnut Street, Ridgewood, leased from R. M. and Vandela Prophet.

Local traffic conditions and available sites had much to do with Commissioner Magee's selections.

Civil service tests have been held in half a dozen cities and the army of applicants has already taken a physical and written tests. Oral tests will be given soon.

This new safety regulation calls for the inspection of every New Jersey registered motor vehicle exclusive of vehicles used for the transportation of passengers for hire (which are under the jurisdiction of the Board of Public Utilities Commissioners) every six months at a cost of fifty cents for each inspection.

Car owners will be notified by public notice or mail when and where to present their cars for inspection, in an effort to avoid congestion and delays at the stations. It is proposed to use a stagger system whereby dates will be set for different groups of registrations.

Cars will be inspected for defects in brakes, wheel alignment, steering mechanism and general equipment such as windshield wiper, opaque windshield glass mirror, mutilated or obscured license plates, head and tail lights and other equipment.

There will be no guesswork in the inspections, Commissioner Magee says. In the brake and wheel alignment tests, mechanical devices will be used which will show up the actual condition of these parts on dials or indicators in full view of the owner.

Cars that fail to pass inspection will not receive an approval sticker until adjustments or repairs are made. A limited number of days will be allowed in such cases for the adjustment after which the car must be presented for reinspection.

Heavy penalties are provided in the act for owners who avoid or disregard the inspection regulations. First offenses are punishable by a fine not exceeding \$100 and second and succeeding offenses by a fine not exceeding \$200 or a jail term or both. In addition, the Commissioner can suspend the registration plates of cars that have not been brought within the law.

Industry Best Since '29, Analysts Says

Analysts studying data indicating net profits exceeded \$7,000,000,000 agreed that American industry made a long stride in 1936 toward prosperity of thumping proportions, even to rank it the best year since the 1929 peak.

The tentative estimate, which would indicate a 30 per cent advance from 1935, although 40 per cent, under the \$11,654,000,000 earned in 1929 was based on state-

ments from 1,000 corporations and experience with reports of previous years.

Reports already available indicate a 50 per cent hike in net profits over 1935 but statisticians, in placing total net profits at \$7,000,000,000 or possibly more, pointed out that wider gains usually are shown in the earlier reports in a period of recovery.

Navy Approves Hindenburg For 1937 Operations

New York — Navy Department approval of a six months operations schedule of the A. S. Hindenburg this year has been announced by Edward P. Farley, president of the American Zeppelin Transport Corporation which is acting as general agent in the United States for Deutsche Zeppelin Reederel, operating company of the 70 passenger dirigible.

Eighteen round trips across the North Atlantic, eight more than were made last year, have been scheduled for 1937, Mr. Farley said, with the Naval Air Station at Lakehurst, N. J. remaining as the American terminal. One day stops at Lakehurst will be the rule, as against the 48 hour visits of last season, which means that round trips will be possible in approximately five and a half days.

The complete schedule, calling for westward voyages of two and a half days and eastbound trips of two days, is being announced by the Hamburg American Line—North German Lloyd, which again will serve as general passenger agent. Other operations arrangements have been considerably expanded, Mr. Farley declared.

A Manhattan passenger terminal will be established in the Hotel Biltmore where outbound travelers may check in with their tickets and baggage before going via airplane to Lakehurst. Having checked in at the Biltmore and flown to Lakehurst, passengers may board the airship without further formality. A new Lakehurst passenger office will be opened near the heavier than air landing field where inbound passengers may go through customs and board planes directly, eliminating much of the movement which obtained last year when space in the big hangar was used for passenger and customs arrangements.

American Airlines, Inc. will conduct a connecting plane service for passengers, mail and express to and from Lakehurst, and negotiations are taking place for the Air Express Division of the Railway Express Agency to handle all arriving and departing freight. Servicing arrangements have been completed with the Standard Oil Company of New Jersey for lifting gas and diesel engine fuel, this service to be supplied so rapidly that the Hindenburg this year will arrive in the early morning and sail in the late evening of the same day. During each visit the airship will remain at the mooring mast in the "riding out" circle of the Lakehurst field.

The Hindenburg will be a paying guest of the Navy at Lakehurst, although in further return for Navy cooperation the Hindenburg operators have invited two naval or government observers to

make each voyage again this season. Aboard the airship, a ship's doctor will be added to the crew, in addition to the stewardess who joined the Zeppelin's personnel the middle of last season.

Treasury Sees Big '36 Millionaire Crop

If the forecast of Treasury officials is correct, the biggest crop of millionaires in six years will file income tax returns this month.

Although they will not know definitely until clerks have thumbed through 1936 returns, officials said the accelerated pace of the Nation's business machinery last year indicated an upturn in \$1,000,000 incomes.

Forty one millionaires were among the 4,500,000 persons filing returns last year. If the millionaire class was increased by ten this year, it would be the largest since 1931.

Millionaires, as the Internal Revenue Bureau refers to them, are persons with incomes of more than a million dollars a year.

Altogether, officials estimated about 6,000,000 returns would be filed by the March 15 deadline, including 500,000 or so from corporations.

G. M. OUTPUT AT OLD HIGH

Setting a goal of 285,000 passenger cars and trucks for the month of March, General Motors Corporation returned to its usual place at the top of the automobile production list this week, as the first week's production for the month ended.

Ward's Automotive reports estimated that General Motors approaching capacity operations again after the strikes that reduced its output to a negligible point produced 49,700 units this week. This compared with 36,883 last week.

The same source listed this week's production for the Ford Motor Company at 30,325 and the Chrysler Corporation at 29,050. Both of these figures varied only slightly from the previous week.

The total output for the present week was the greatest of any since the 1929 peak, Ward's said. It is also estimated that the March production of the industry would total 560,000 units and the first quarter of 1937 approximate 1,335,000 both of which would exceed all years except the boom period of 1929.

Extreme Cold, Rain, Drought, Dust Storms Delay Spring Planting Plan

Extreme cold, rain, drought and dust storms, making for abnormal weather, are delaying preparations of the soil for spring planting, a department of agriculture survey said.

While some sections have had a record rainfall this season, others have suffered from a deficiency. Frost damage has been heavy in California and Southeastern States.

Very little planting has been done because the ground is too dry in some sections, too wet or too cold in others, the department said. Winter crops already in the ground have been set back by adverse weather.

The early crop of potatoes has been planted in North Carolina and some other potato sections, but in South Carolina the ground has been too wet to plow. Late frosts as far south as the Gulf have damaged truck gardens.

"In Southern States where vegetation had been abnormally advanced by warm weather in January, freezing temperatures during the first week of this month damaged fruit trees and early vegetables," a crop bulletin said.

"Farm work was generally inactive during the week, but in the South, the Eastern States and the Ohio Valley area the soil is still generally too wet for working and but little progress in seasonal operations is yet in evidence."

Buses In Lieu Of Cars On P. S. Line

The Public Utility Commission approved the application of the Public Service Coordinated Transport to substitute motor vehicles for street cars on the Passaic line between Secaucus and Paterson.

Approval was withheld pending filing of a schedule on the same company's application to substitute buses for street cars on Clifton car line No. 9 in Newark.

Public Service will operate fifteen buses from Rahway to Metuchen under a Board ruling whereby municipal consents granted to Peto's taxi service of Rahway were transferred to Public Service.

Application of Public Service to change the route of the Paterson Boonton bus Route 80 was approved as was also the company's request for extension of its present Plainfield-Panwood route.

Mrs. Poynatovsky Sells Furnishings Of Home On Saturday

The tale of a huge fortune, diminished by the ravages of the depression and business failure, will be concluded Saturday afternoon, when the remains of Count Stefan de Poynatovsky's furnishings will be sold.

Count Poynatovsky headed the once flourishing Cretona Print Works in Clifton.

Furnishings removed by his wife from their former home in Englewood prior to the sale last October will be sold at auction to be held at the Imperial Auction Galleries, 23 West 47th Street, New York.

According to the sales announcement, Mrs. Poynatovsky intended to use them to furnish a "large New York City apartment, but circumstances were such... that the Poynatovskys decided to live in an apartment hotel."

Included in the collection are English and Italian period furniture, bronze sculptures, Oriental rugs, household knens and decorative porcelain.

Belongings of Count Poynatovsky were sold at the six day auction in October.

First Issues By Home Loan Soon

The Federal Home Loan Bank System, offering consolidated debentures, plans to enter the open market for the first time early in April.

A series of issues is under consideration to provide additional capital for the system. The debentures may be tendered semi annually or quarterly and offered to the public by a private underwriting syndicate.

Although the amount of the financing has not been decided upon, it was indicated that it would total between \$10,000,000 and \$20,000,000. At the end of last month, the Home Loan System had about \$10,000,000 in cash on hand, as against net disbursements of \$21,643,000 in the six months ended January 31.

The Home Loan Banks have obtained their funds for home financing through the Treasury's purchase of their capital stock up to now. The appropriation in the Treasury for the purchase of this stock, however, has been virtually exhausted.

HOUSE PUSHES NORMAL BILLS

Congress will go ahead with its legislative programs for agriculture and industry without waiting for Supreme Court decisions, it was reported by Speaker William B. Bankhead.

"We are anxious, of course, for careful consideration of all bills," Bankhead said, "but I don't think there is any hesitancy about going ahead with the agriculture and Guffey coal programs, for example regardless of what the Supreme Court may do."

Bankhead said he was not certain whether the Administration would urge wage and hour legislation this session.

Asked if he thought recent moves of industry toward reducing hours and increasing wages would have any effect on such legislation he said, "The attitude of industry might, of course, tend to mollify extreme views, but that is purely speculation."

NEW JERSEY RECEIVED 30 PER CENT IN 1935 OF NATIONAL INCOME

New Jersey was among eight other states which counted some 20 to 30 per cent of its income from manufacturing on a national scale.

Ten states received approximately 44 per cent of the national income from manufacturing in 1935. A survey, made by the National Industrial Conference Board disclosed.

The income from manufacturing exceeded the percentage for New Jersey of its aggregate productive income.

Ruggiero Ricci To Play Here Monday

Ruggiero Ricci, fifteen year old violinist who is appearing in the Paterson Y. M. Y. W. H. A. auditorium at 152 Van Houten Street, can no longer be classed as a prodigy for he has outgrown that category. Today, by common consent of the critics, he is elevated to the rank of artist.

Our foremost violin virtuosi can not produce a tone of more warmth and richness nor a legato more exquisite, phrasing cleaner cut, than this boy of fifteen. And when it comes to fire and passion, he can compete with the best. No one has had to teach him feeling for music—as if that could ever be taught.

No, this is not the precocious, hot house bred prodigy who astounds the audience only by his facile technique, but a youth divinely endowed with the great gift of genius. The audience forgets it is listening to a boy and is lost in spell bound enjoyment of the music.

Already Ruggiero has toured this country, Canada, and Cuba. He has amazed our best musical authorities by his playing. When the great scientist, Einstein, heard him, he had only this to say, "My boy, you are a genius!" This statement, coming from one who also plays the violin and knows its difficulties, carries its own weight.

Olin Downes, music critic of the New York Times, and an acknowledged authority throughout the country, wrote of Ruggiero, "He is a born virtuoso—and more."

Reservations for the concert by this young artist may be obtained at the Y. M. Y. W. H. A. desk or by calling Sherwood 2-5186. There is a slight increase in reserved seat prices over those for general admission.

ITALY GOLD DROP

Statement Shows Gain In Notes, However

The first statement of Italy's gold reserves and note circulation since the Ethiopian crisis, August 10, 1935, was published this week by Fascist Grand Council.

At the same time it announced that due to the 5 per cent loan to the Government on real estate, in addition to the normal revenues it would be possible for the Government to meet its obligations for the remainder of the fiscal year—which ends June 30—without resorting to loans or import Treasury operations.

The council also took occasion to "praise the unflinching patriotism, shown, as always, by the Italian taxpayer."

Profits At U. S. Rubber Increased

The United States Rubber Company, in issuing its annual statement for 1936, shows a sharp reduction in surplus deficit and an increase in net sales of 25 per cent, compared with the preceding year. United States Rubber Company has a large plant in Passaic located along the Passaic River.

It shows consolidated net income of \$10,172,484, equal to approximately \$3.25 a share on 1,449,531 shares of common stock after provision for dividends on 8 per cent preferred.

For 1935 the corporation reported net income of \$6,522,237, equal to \$1.74 a share on common stock then outstanding.

F. B. Davis, Jr. chairman, announced the reduction in the surplus deficit for the year was \$10,044,071.

Total salaries and wages paid in 1936 amounted to \$43,343,000. There were 32,536 employees on December 31, against 30,564 were up 21.2 per cent, and total salaries 11.9 per cent.

Reject Plan To Extend Channel In Passaic River

A plan to extend the ten foot channel in the Passaic River to Garfield, was rejected by Army engineers, a report from Washington revealed.

The engineers, in a report to the House Rivers and Harbors Committee, said the cost of the improvement would be too great in view of the small benefits to be derived.

Engineers studied a plan to deepen the Passaic River from the head of the present ten foot channel at the Eighth Street Bridge in Wallington to the Passaic Street Bridge at Garfield, a distance of 4,199 feet. The report said \$2,000,

000 was spent deepening the present channel.

"Development of any considerable commerce on the extension of the improvement now requested appears remote," the engineers said. "Anticipated benefits are small, of limited distribution and incommensurate with the cost of the improvement."

The report said the large tonnage at present is handled almost entirely over terminals below the Second Street Bridge.

NO SETTLEMENT YET

The Passaic gas price war continued unabated this morning with any sign of settlement still missing. In Clifton, gas price low was at 12.5 cents the gallon, while most of Passaic's dealers kept the price at 14.5 cents. There were a few stations in the city where the 13.5 price was posted.

RECORD OF THE BLUE EAGLE

There are no astonishing conclusions in the impartial review of the NRA which the President forwarded to Congress. The findings in general correspond to the public appraisal of the good and bad features of that brief but exciting adventure.

No amount of belittling by reactionaries can take away from the battered Blue Eagle credit for the gains it accomplished. It did give jobs to some 2,000,000 unemployed. It did raise wage standards, and the raises were the greatest where they did the most good—in the minimum brackets. It did stimulate collective bargaining and largely wipe out the blight of child labor. And it did, in the words of the impartial review board, make "a definite contribution toward changing the prevailing mood of the country from apprehension to hopeful effort, and this was vastly important in itself".

On the other hand, all the blind post-mortem adulation of NRA's more feverish friends has not cleared its record of the faults that were obvious. For it did permit a rise in prices that wiped out much of the purchasing power gained through higher wages. It did, again in the words of the review board, attempt "to cover more ground and at a greater speed than could possibly be covered effectively," with the result that the administration fretted itself so much with the activities of pants pressers and the like that it muffed more important problems in the big national industries.

The objective analysis, however, drafted by Professor J. M. Clark, William H. Davis, George M. Harrison and George H. Mead contains a wealth of material from which Congress may draw in mapping a sounder attack on problems which the demise of NRA left unsolved.

ASHES TO ASHES

When they get behind the wheel of an automobile, otherwise sane citizens become thoughtless fools. This paradox cost 38,500 lives in automobile accidents last year. In the same period 10,300,000 were injured, of which number 400,000 were more or less permanently disabled.

This staggering slaughter of human life could not be much worse if the country were in a state of constant revolution. How can it be curbed? According to the Portland Oregonian there is no answer to the problem "except in more ruthless enforcement, and that cannot be achieved this side of public indignation." Thirty-eight thousand five hundred lives sacrificed on the altar of recklessness would seem to be sufficient cause for public indignation.

Safe driving campaigns, designed to appeal to the common sense of the individual, have apparently been of little benefit. Speeding, drunken driving, gross negligence in approaching crossings, weaving in and out of traffic, are increasing every day. The only ones who have been cured are the victims, and bitter experience cured them. Lying mangled in hospitals, perhaps

clinging to this earth by a mere thread, they have come to realize how precious life is. But the dead will never have another chance. In that split second before oblivion they too realized — but too late!

Next time you hit a cross street at sixty miles an hour stop and think what might have happened if you had not been alone in your foolishness. Picture yourself being lowered to your final resting place with the clods dropping on your coffin and the minister chanting "ashes to ashes, dust to dust." If you have life-loving instincts of the average individual, you will approach the next cross street with due caution and trembling knees.

CAN SPRING BE FAR BEHIND?

In Havana the New York Giants are sunning themselves into shape for the approaching season in the National League. Miami, Florida and other spots throughout the South claim occupation of some major league baseball team, in training for the season to start in April.

There are also many reports of holdouts, fellows who feel \$25,000 isn't sufficient for a year's salary playing baseball.

Lou Gehrig, Bill Terry, Carl Hubbell, Dizzy Dean, Burleigh Grimes and hundreds of other familiar names are crowding the sport pages. And on the streets, the kids are warming up for the season they hope will be their most hectic.

We might safely say that the proverbial robin is being displaced as a sign of approaching spring.

When you hear the first crack of the bat, or even remote sound like it, can spring be far behind?

DEFINING SEA SERPENTS

Percy Spencer Barnhart, something of an authority on marine life, who is a curator of a biological collection in California, tells us of any disclosures that will explain the repeated stories of mariners, describing huge sea-serpents seen in the waters of the earth. Mr. Barnhart explains the mystery.

According to this expert, the sea-serpent is nothing but a king-herring, which is otherwise listed in the books on such subjects as *Regalecus russeli*, *Regalecus glesne* or *Trachipterus ijmæ* and is recognized as a head boy of the family *Regalecidae*.

The king of the herrings has a very slender body and sometimes reaches a length of thirty feet. Its head is adorned with a bony crest, allowing it make an excellent substitute for the long-lost sea-serpent.

JOB FOR A MEDIUM

There is a story that Amelia Earhart arose from dream to call the United Airlines and direct searchers to a spot near Saugus, Cal., where a wrecked plane was found. Miss Earhart's psychic powers correctly located another plane at Newhall, Cal. later.

This is a very useful gift and we wish that Miss Earhart between crashes would go into a huddle with her psychic control to answer the following questions:

1. Why do aviation companies, whose business is being injured by repeated crashes, resent Government safety regulations which would be almost certain to reduce the number of those crashes?

2. Why does the Department of Commerce systematically cover up its own responsibility and that of the air lines for crashes, and consistently try to put the blame on dead or helpless pilots?

Perhaps the answer to those questions wouldn't even be as difficult as finding wrecked planes on wild mountainsides.

The Clairvoyant

by OJAY
Though he is not literary, he is indidious... J. G. Lockhart

Something of interest to the Jewish veterans of the World War occurred in the State Senate Monday when Senator Charles E. Loizeaux, majority leader of Union County, presented a bill to appropriate \$10,000 to secure the 1937 convention of the Jewish War veterans in Asbury Park. The bill was referred to the judiciary committee.

Assemblyman Fred W. DeYoe, Democrat, majority leader of Middlesex county has introduced a bill to provide for the appointment of special courts having jurisdiction over traffic violations, throughout the State and fixes the salary of judges at from \$1,500 to \$3,500. This was referred to the judiciary committee.

Nan V. Donohue of Passaic county, introduced a bill favorable to the beauty parlor workers. The bill is to authorize municipalities to regulate the opening and closing hours of beauty parlors. The bill was turned over to the health committee.

Carroll Stark of Passaic county also introduced a bill Monday in the assembly, to empower the Board of Freeholders to provide playgrounds and recreation buildings. This was another bill referred to the judiciary committee.

David Harrison introduced a bill to provide for the pensioning of court interpreters in first and second class counties. The bill was turned over the pension committee.

Two bills that caused some comment on Monday evening were those presented by Edison Hedges, Democrat of Atlantic county the first of which makes it an offense to flee from the scene of an accident after striking a dog. His other bill was to compel the filing of reports by persons who strike a dog with a motor vehicle were placed in committee.

Petitions are being circulated for former Alderman Joseph W. King, to run for mayor. His friends seem anxious to have him in the race but Joe is non committal at present.

Former Alderman Klenert's pet ambition is to be called upon to represent the Democratic party as its candidate for mayor.

"The Count," as he is known, smokes good cigars, anyway.

John Johnson Pisano, is still waiting for the good job that has been promised to him.

Pat Ferro visits Trenton each Monday evening as a delegate for the local civil service association.

The Women's Central Republican club will officially become an auxiliary soon. Action on incorporation is being taken.

Passaic County's prisoners travel to Trenton and points south in fine style for they are now being transported in an Imperial 8 Chrysler. The car is one of the most modern in police history and is fully equipped carrying a short wave police radio and siren.

Former Alderman Joseph G. Sproviere is expected to run for alderman again in the near future.

Dr. Alvin E. Cortese, has absented himself from many of the meetings of the Democrats lately. His practice and special duties are said to have kept him busy.

Dr. Andrew F. McBride, in presenting his plan for the consolidation of the various communities with Paterson, has learned that the "hicks" are wide awake and disapprove of his plan.

Assemblyman Gabriel C. Roberto will be honored at a dinner March 18, at the Susquehanna club by his buddies from the Passaic-Quarrel Post, American Legion.

Ben Turner and Harry Page are said to be preparing to be the Republican candidates for sheriff. This race is a long way off yet.

Democratic clubs are springing up everywhere in the county. Duffyites only have three organizations now. Soon they will have a baby unit.

Complete Plans For Memorial To Young Hero

Shaft To Be Erected In Honor Of Hugh Somers

Plans for the erection of a permanent monument in memory of the late Hugh Somers, Paterson youth who gave his life in an attempt to save that of a drowning friend last November, neared completion this week.

Granite Shaft

The monument, which is in the form of a granite shaft, five feet in height, three feet in width and 20 inches in depth, is the result of contributions on the part of local citizens in a drive to perpetuate the heroism of young Somers.

The inscription is planned to read: "Erected in honor of Hugh Somers who sacrificed his life in a brave attempt to rescue a friend from drowning in Lower Barbour pond, November 20, 1936. Greater love hath no man than this that a man lay down his life for his friends. Erected by grateful citizens of the city of Paterson, New Jersey, 1937."

In Favorite Park

The memorial will most likely be erected in Pennington Park, where young Somers spent many of his leisure hours. The date is tentatively set for May.

Silk Market

(continued)

thusiasm. A previous effort to have the market moved to Smith street near Clark street provided objection on the part of the merchants who insisted they needed a more central location.

"It's a pretty miserable state of affairs," said Judge Duffy, "when out of towners come in and tell us of the conduct of our pedestrians. Unless something is done about it, the police are going to go out and take notes on everyone habitually congregated there and they'll get private citizens to testify, and maximum fines will be imposed. I think we've been coddling the men over there."

To Seek O. K.

Judge Duffy's suggestion that the Colt Street side of city hall be made the meeting place of the merchants proved to be a welcome proposal. Approval of city officials however, is necessary before permission to use the area can be granted to the silk merchants.

Ask Fishing In Wanaque Waters

A resolution that restricted fishing be permitted in the Wanaque reservoir was addressed to the Passaic Valley Water Commission by the Paterson Unit of the Consolidated Sportsmen of New Jersey at a meeting of that group on Tuesday night at its Broadway headquarters.

The group took exception to the remarks of Health Officer Charles V. Caster of Newark and James Wilson, president of the commission, that pollution of the water would occur if fishing were permitted.

Speakers at the meeting declared that no pollution would take place if suggestions offered by the state body of their organization were followed.

BENNY AND BETTY FOX ON STAGE OF MAJESTIC

One of the finest bills in the history of theatrical presentations in Paterson will be offered at the Majestic theater this week. Heading the vaudeville bill will be that sensational dancing team, Benny and Betty Fox which did the "Dance of Death" atop the News building yesterday, and who have won for themselves a world famous reputation as aerialists. They will provide many thrills for Majestic movie goers.

Another act which comes to the Majestic theater direct from the Roxy theater is that of Cappy Barra and his Harmonica Swing Ensemble. Three other fine acts round out the vaudeville portion of the program.

A double feature picture, "Arizona Days" starring Tex Ritter, and "Shadow of Chinatown" starring Bela Lugosi will be shown.

Sons Of Saint Patrick Dine Wednesday Eve

Many prominent men in the political and civic life of this state will attend the annual St. Patrick's day dinner of the Sons of the Friendly Sons of St. Patrick next Wednesday evening in the Alexander Hamilton hotel.

Among the guests at the dinner will be U. S. Senator A. Harry Moore, Circuit Court Judge Joseph G. Wolber and Edward L. Whalen, clerk of the Chancery Court.

Jury Commissioner George H. Burke is honorary president of the order.

Sheriff John A. Gavin is the active chairman of the affair. He is assisted by Recorder Vincent C. Duffy.

Sylvia Sidney, (left) famous movie star, recommended Katherine Locke to producer Marc Connelly (right) for her current role in "Having Wonderful Time," the new Broadway comedy hit. When the play opened all the critics agreed that the Locke performance was the finest scene in many years, one of them called her "the next decade's Helen Hayes." The above picture was made in Miss Locke's dressing room at the Lyceum Theater, New York.

Meter Installation Improved By P. S.

An improved method of installing electric meters in homes, offices, commercial establishments and smaller factories, has been developed by Public Service Electric and Gas Company and is now available for all new meter installations. Under the plan which becomes effective immediately, the company will furnish, without charge to customers, metal enclosures for meters, switches and metering transformers. The customer will supply only the fuse box and a main disconnecting switch in a meter installation. Heretofore all equipment on the meter board except the meter, was supplied by the customers.

The company has arranged a series of meetings with electrical contractors in various parts of the state to familiarize them with the new equipment which is more economical to install.

A new meter enclosure having no hinges, rivets, bolts or seal clips will be furnished customers for installations. The cabinet is made of welded galvanized steel of high rust resisting qualities and the cover is held in position by a double tongued snap lock.

Another feature of the metering equipment is a simpler method of assembling and mounting meters and service wires which makes for a more compact installation. Periodic testing of meters is also expedited by the new cabinet, and meter reading is made easier because the registers are more visible.

U. S. ORDER TO WRIGHT

Federal Order For 141 Motors To Paterson Firm

Wright Aeronautical Corporation of Paterson, manufacturers of world famous airplane engines, has been awarded a United States Government contract for 141 heavy duty "Cyclone" motors.

Announcement of the award was made on Saturday by the War Department, in Washington.

The engines, of the single row, radial type, are rated at 1,000 horsepower each, and will cost \$1,099,723.

Public Service Has Welfare Plan For Its Employees

During 1936 Public Service expended \$1,156,355 for the benefit of employees and their beneficiaries under its Welfare and group insurance plans and under the State Workmen's Compensation Act the annual report of the Corporation just released to stockholders shows. Of this sum, \$421,464 was spent for pension payments to retired employees; \$72,144 for company insurance and \$54,022 for sick benefits.

The Public Service welfare, or social security plan, has been in effect for more than twenty five years. The entire cost of sick benefit payments and pensions is borne by the company. Employees who have been twenty five years with the company may retire on pension voluntarily beginning at age sixty five. Retirement is compulsory, with pension, at the age of seventy, irrespective of years of service.

In 1925 a group insurance plan was started under which the cost of premiums is divided between the company and the employee. On December 31, last, 17,372 employees were covered by the group insurance plan. Since its inauguration, \$3,300,550 has been paid to beneficiaries of Public Service employees.

Pilgrimages Determined Easter Date

Easter was originally dated to suit the convenience of pilgrims who needed moonlight in their annual treks to Resurrection festivities.

Foolsore and weary, they plodded both day and night to reach sacred shrines for this observance. Hence it was decided that Easter shall fall on the Sunday following the first Paschal full moon after March 21. The occasion may therefore vary over a period of 35 days—from March 22 to April 25.

Lent, great period of fasting in Christian churches, grew from a 40-hour to a 40-day ritual as it came down through the ages. While most Christians commemorate Good Friday as the day of the Crucifixion, Mohammedans also celebrate it as the day of Adam's creation. Among ancient Germans, this date was sacred to the goddess-mother, wife of Odin.

The association of Easter Sunday with the arrival of spring arises from a coincidence. The day occurs almost simultaneously with the ancient heathen Roman celebration of the vernal equinox.

Many customs have grown up around the Easter observance. In England, figs are always eaten on Palm Sunday to commemorate Zachaeus, the publican, who being "little of stature," climbed into a tree to see Jesus pass by the way through Jericho.

Easter eggs and "bunnies" are traditions among American children at this season of the year. In Germany, spring lambs are sold for the Easter feast.

At the Cross

Forty thousand persons annually climb to the summit of Mount Davidson in San Francisco to attend Easter sunrise service. Picture shows the crowd massed about the base of a huge cross atop the mountain.

All efforts to obtain the names of two New York sweethearts of two locally prominent bachelors have proved fruitless. Both the femmes are good lookers, of that I assure you.

U. S. Marine Band Is Enduring Monument To Sousa

Oldest of the military bands of America, the United States Marine Band has not only won nation wide fame, but is also an enduring monument to the memory of John Philip Sousa, whose creative genius as a musician and leader has left an indelible stamp on the musical history of both the band and nation.

Nearly seventy years of service to America had been given by the band before Sousa, as a lad of 13, joined the organization in 1867 to learn the mysteries of music. Several years later he became its leader and through the wizardry of his musical genius did much to lift the band to the plane it has won in the hearts of the nation. Sousa remained with the band as its leader from 1880 until 1892, and during that time wrote many of the compositions which won him the title of "The March King." Under the inspiration of his leadership the band reached a high standard of musical achievement.

Later Sousa won world wide fame in the capitals of the world, as the leader and conductor of his own band, retaining his place as leader until his death in March, 1932 one of the foremost musical leaders. Organized in 1798, many famous leaders have directed the band, which made its official debut when President John Adams received at the White House on New Year's day 1801. Subsequently it has played at the inaugural ceremonies of all our Presidents, and has taken part in many historic episodes.

While Sousa wrote ten operas and several books, the world thrills to the rhythm of his stirring marches. Few of them are more popular than "Semper Paratus," motto of the sea soldiers and reminiscent of the time when Sousa's inspired baton led the United States Marine Band.

Paint Dealers To Install Officers

The Passaic County Paint Dealers' Association will hold their installation dinner on April 8 at the S. and Z Restaurant, Paterson.

The newly elected officers to be installed are: Hymen Ulrich, president; Paul Roth, vice president; Harry Tribucher, secretary; and Jacob Miller, treasurer; and Mir Chrisman, executive secretary and counsel.

Those who plan to attend are urged to call at Mr. Chrisman's office, Fabian Building for tickets.

NEW BUREAU?

Desaix Would Have County In Charge Of Electrical Works

Herbert W. Desaix, president of the Paterson chamber of commerce yesterday proposed to the board of fresholders that it set up an electrical bureau which would have jurisdiction over each of the 16 municipalities of the county.

The bureau, he said, would be self-sustaining, if not productive of revenue. His motion, termed a good one by the board, was referred to the miscellaneous committee.

Easter Parade Features Veils, Lacy Neckwear

By CHERIE NICHOLAS

Veils in all manner of treatment and lacy, frilly lingerie neckwear with the ultra feminine look is the big news for spring. And more news—many of the smart hats are worn far back on the head. See the tiny off-the-face cap (cap-hats are "it" in Paris) here pictured. Three American beauty roses are posed atop this cap of navy felt. The

perky little veil is of navy blue string. The navy crepe frock takes on dainty lace lingerie accents in accord with the latest dictates of spring fashion.

One of the especially flattering jabs of white lace so enthusiastically endorsed to enhance the simple dark frock this spring is also shown. This is a favorite type. It has the high close neckband and a full double ruffle beneath.

"Gros Bourdon"

Quebec reverts to its native French customs at Easter. Bells, led by the great 24,780-pound "Gros Bourdon," chime out tidings that year.

Royal Easter Egg!

Inside an Easter egg presented to the eldest daughter of Louis XV of France was a clockwork bird, capable of singing 12 airs.

Circus Is In Town!

Hippodrome Scene Of Big Top Activity Opening On Thursday, Mar. 18

You may doubt the groundhog and you may be dubious of the date of March 21 as the arrival of the nearness of Spring, but there can be no question of the presence of the circus as a herald of warmer weather.

And the circus comes to town, or New York City to be more exact, for a short season starting next Thursday, March 18 at the Hippodrome.

The show is sponsored by the Coles Brothers—Clyde Beatty outfit and contains among other attractions, 250 performing horses, 60 clowns, 3 herds of elephants, 400 acrobatic stars and all the circus appointments. Seat sale begins on Monday at the Hippodrome.

Italy, Argentina Sign Trade Pact

Intending to stimulate the sale of Argentinian raw products Argentina and Italy have signed a trade agreement. It was revealed by government authorities.

Under the pact Argentina will sell meat, wheat and other raw products to Italy, and in turn will be enabled to buy more of Italy's manufactured materials.

Argentina, the agreement signed last night provides will give Italy an exchange equivalent to Italian purchases less 20 per cent. This 20 per cent, it was pointed out, is the customary order to guarantee an exchange balance in foreign debt service.

Italy agreed to give the Argentine 450 million lire (approximately \$22,500,000) in exchange annually.

THEATRICAL NEWS

SUNDAY AMATEUR BILL POPULAR AT THE STATE

The State Amateur Hour is still proving its popularity with the audiences and the Amateurs perform to a packed house every Sunday matinee. The audience is always assured of a first rate Amateur show each week.

In cooperation with the Sears Roebuck & Co. of Paterson, the State will give away on Tuesday evening, March 23, an 8 foot 1937 Model Coldspot refrigerator. Patrons of the Theater attending the "Lucky" nights which is held on Thursday and Saturday night are requested to sign their name and address on the back of their "Lucky" card and deposit them in the box in the lobby of the Theater, these being used in the drawing for the refrigerator. On Wednesday evening, March 31, the Theater will give to some lucky boy or girl, a real live Shetland Pony, complete with bridle and saddle, and also a cowboy or cow girl outfit as the case may be.

On Monday night, March 29, the Silk City Pistol Club will give an exhibition on the Stage of the Theater, in conjunction with the Picture the Plainsman, which will be showing at that time.

DOUBLE FEATURE NOW PLAYING AT THE GARDEN

Set against the spectacular background of a ship fire at sea, "Girl Overboard!" a fast moving Universal picture opens a seven day run at the Garden Theatre today with Gloria Stuart and Walter Pidgeon in the leading role.

The screenplay tells the story of a beautiful New York girl who flees from the sinister influence of the proprietor of an exclusive Manhattan gown shop. Just before she sails, the man is killed and the finger of suspicion is pointed at the girl.

By this time, however, she is at sea, aboard a ship on which a disastrous fire breaks out. Consumed in the blazing inferno of the ill fated liner is the only evidence of the true killer's identity. When the accused girl, by a queer twist of fate, is given shelter in the home of the district attorney whose job it is to prosecute her, the picture advances to a swift, smashing climax.

The co-feature—Starring brawny, handsome John Wayne, "Conflict" Universal's drama of the bitter feud between two iron fisted giants also opens at the Garden Theatre today.

Starring in the drama will be lovely Jean Rogers and handsome John Wayne.

In addition to Wayne and Jean Rogers the cast of "Conflict" includes such fine performers as Tommy Hupp, Ward Bond, Margaret Mann and Bryant Washburn.

"WHEN YOU'RE IN LOVE" AT THE U. S. PATERSON

The presence of "Minnie the Moocher" and the aria "Vissi Darte" from "La Tosca" on the same program might tax the credulity of any music lover who was not aware of the facts. But these two strange bedfellows are actually a part of Grace Moore's repertoire in her new Columbia picture, "When You're In Love" starting tomorrow at the U. S. Theatre in Paterson.

Eight other widely divergent songs are heard in the film. Schubert's "Serenade," the waltz number from "Romeo and Juliet," "In the Gleaning," "One Fine Day" from "Madame Butterfly," and two specially written songs by Jerome Kern, "The Whistling Boy" and "Our Song" complete Miss Moore's repertoire. In addition, a male chorus is featured in "The Sword of Ferrara."

Miss Moore's supporting cast in "When You're In Love" includes, Cary Grant, Aline MacMahon, Henry Stephenson, Thomas Mitchell, Catherine Doucet and Luis Alberni.

Cofeature—Porter Hall, who has played villains in every one of his motion picture performances, runs true to type in "Bulldog Drummond Escapes," latest of the popular detective series, which also begins at the U. S. Theatre.

"THE LAST OF MRS. CHEYNEY" AT FABIAN

Ultra smart comedy in which three of Hollywood's top flight stars participate, is the attractive fare at the Fabian where M. G. M.'s "The Last Of Mrs. Cheyney" is now showing. Joan Crawford, William Powell and Robert Montgomery combine their assorted talents in one of the most entertaining pictures to reach the screen via the stage.

In the supporting cast are Frank Morgan, Jessie Ralph, Nigel Bruce Colleen Clare, Benita Hume, Ralph Forbes, Aileen Pringle and Melville Cooper, all of whom do excellently by their respective roles.

Joan appears in the title role as the lovely American widow who creates a flurry in exclusive London society. Her butler, portrayed by Powell, is the height of butler perfection and the gentlemen of London fall in love with her, as the ladies glance admiringly at her servant. But when a string of pearls vanishes from the home in which the widow is a guest, suspicion falls on her. A young lord, much in love with her, traces the gems to her room and there confronts her with an obvious alternative to disgrace.

The Cofeature: "Midnight Court" starring Ann Dvorak will also be shown on the same screen.

sent the play, "I Due Gemelli", or the "Two Gemelli Brothers." The play is an adaptation of the story of the Siamese twins.

Cast in the important dual role is Gino Giovannetti, an old favorite with Lazzara theatergoers.

To open festivities for the evening there will be a variety of musical entertainment by Mincuccio 'O Barese and others.

The play follows the musical prologue. In the final effort of the evening, a farce will be presented with Sandrino, Perzechella and Mincuccio 'O Barese.

Last week, Lazzara's was taxed to capacity for the regular weekly performance. Much credit for the excellent bookings at the theater belonging to Manager Seoglamiglio.
