## BRESLIN TO CONFER WITH VALENTINE

Redwood Case Sidelights Come Up For Discussion

### POLICE HEAD WILL EXPLAIN

What is described as "a straightening out meeting" will be held this afternoon in the Prosecutor's office of Bergen county between Police Commissioner Lewis Valentine and New York and Prosecutor John Breslin, Jr., of Bergen county.

Valentine and Breslin will meet to iron out differences arising from an interview in which the former was quoted as charging Bergen county officials with laxity in their investigation of the Redwood murder.

#### Had Charged Laxity

Valentine is said to have scored Breslin for not having asked the indictments of killers, who he is said to have charged, were known by the police of that county to be residing in Atlantic City.

Later, the New York police commissioner retracted part of his allegations and denied other statements which were attributed to him.

(continued on page 8)

## Eligibility List Expires With No Appointees

300 Candidates Disappointed As Board Fails To Meet

Hopes that they might be among last minute appointees to either the fire or police department were stifled for about 300 young men who are on the civil service list of eligibles when the fire police board failed to meet this week.

Since it was the last opportunity for a meeting of that body before June 5, when the list for qualification expires, there was no hope for candidates unless they submitted to another civil service test.

Many of the eligibles were present Tuesday when the Board was scheduled to convene. However, the lack of a sufficient number of members to form a quorum precluded all possibility that a session might be held.

## Aquino To Open Service Station

Oscar "Soup" Aquino, well known athlete and sportsman, announced today that his new modern service station, "The Home Service Centre", will be open for public inspection on Saturday June 5.

The station, located at Oliver and Mill streets, will carry Conoco products as well as automobile accessories.

### NO SOAP

Board Rejects Bid Of \$2,000 For Thompson Mill

A bid of \$2,000 for the Old Thompson mill at State and Chestnut streets and Twenty-first avenue was rejected by the board of finance today.

The board, which seeks a better price for the property, announced the entry of a new bidder into the picture was the cause of its decision. A new sale will be held on June 17.

## Miller Begins Life Sentence In State Prison

Wife-Slayer Silent As He Is Taken To Trenton Prison

Howard A. Miller, wife slayer who was sentenced to life imprisonment by Judge Robert Davidson last week, began his sentence in the state penitentiary at Trenton yesterday. He was taken there Tuesday afternoon.

Miller pleaded non-vult to a charge that he had fatally beaten his wife, Edith, an expectant mother, in her Haledon home last March 22 in order that he might be free to marry Josephine Collins, 21-year old Newark stenographer.

His mother, 78 year old Mrs. Anna Miller, saw him in county jail last Friday after making a 3,000 mile bus trip from Los Angeles. He also leaves a 14-year old son, Kenneth.

## Lendrim Rites This Afternoon

Late City Tax Assessor Will Be Laid To Rest

The body of Thomas J. Lendrim city tax assessor, will be laid to rest in Cedar Lawn cemetery following funeral services at the home of his brother, Hugh C. Lendrim, in Preakness, this afternoon at 3 o'clock.

Mr. Lendrim died Tuesday after a three weeks' illness. A heart attack was ascribed as the cause of his death. He served the city as tax assessor from 1917 to 1922 and from 1927 until the time of his death.

The Rev. James Dykema, of the Prekness Reformed church, will officiate at the services for the late Mr. Lendrim.

### NEW CITIZENS?

406 Get Hearings As Naturalization Court Is Held

Naturalization court will continue today with Judge Robert H. Davidson presiding. The two day session got under way yesterday.

A total of 406 applications for citizenship will be heard by the court this session comes to a close.

## LITTLE FALLS STRIKE FRONT STAYS CALM

Picketing Continues As Deputies Guard Property

### UNION TAKES NO ACTION

With deputies in charge of the situation, all was quiet on the Little Falls laundry strike front yesterday.

Strikers continued to patrol the environs of the company's property, but after the turbulent events of earlier days in the walk-out comparative calm reigned while disinterested parties sought to bring union and company leaders together at a conference to settle their differences.

The only move of significance during the entire day took place at a meeting of the Passaic County Central Labor union where delegates were asked to go on record as labeling the Little Falls Laundry company as unfair to union labor. No definite action was taken on the proposal, Carl Huyser, president of the group declared.

## D'Annunzio, 22, To Hold Outing

The Gabriele D'Annunzio Lodge No. 22, of the Order Sons of Italy, will commemorate the 28th anniversary of his existence at a grand outing to be held on Sunday, at Idlewild Park, West Paterson. The outing will start at 9 o'clock in the morning and will continue through out the day.

Games will be enjoyed during the afternoon as well as dancing. There will be the roll call of societies at 5:30 P. M. and the society present with the largest number of its members will receive a gift.

American and Italian notables have made known their intention of being present, and a few short addresses will be given.

## FREEHOLDERS STILL UP IN AIR REGARDING CAMP HOPE

Discuss Preliminary Plans But Reach No Site Decision

The problem of selecting a camp site for the approved Camp Hope project continued to plague the board of freeholders, who met for their regular weekly session yesterday.

Many of the preliminary details for the construction and opening of the camp were discussed but when the session drew to a close, the board had yet to reach a decision regarding the location of the camp.

#### Many Problems

Uppermost in the minds of the members of the board were problems relating to the power which the county had in respect to caring for the health of children en-

### 119 TO GO

Board Revokes Liquor License—Goal Still Far Away

The first move to prune liquor licenses down to the limit of 300 which they set several weeks ago was taken by the board of aldermen this week when the license of an alleged owner of a disorderly house was revoked.

At present there are approximately 420 liquor licenses in the city.

## Memorial Day Exercises Will Be Held Here

Jacob Lotz To Serve As Grand Marshall Of Parade

The city of Paterson will observe Memorial day Monday at exercises to be held in Bauerle field, Eastside high school following a parade through the city's streets at 9 o'clock of that morning.

Announcement of the plans for the ceremonies were made this week by Grand Marshall Jacob Lotz, County Counsel Harry L. Schoen will be the principal speaker at the exercises.

A military review and patriotic exercises will compose the main portion of the exercises which will be held indoors in the event of rain.

### NO FISHING

Wanaque Reservoir Closed To Clan Of Izaak Walton

With Clifton the only municipality in favor of the measure, a move to permit fishing in the Wanaque reservoir was defeated this week at a meeting of the North Jersey District Water Commission. Questionnaires to the member cities of the Wanaque reservoir system revealed that seven of the eight municipalities had voted down the proposal.

## BOARD SEEKS CUT IN COST OF DEPUTIES

Freeholders Alarmed; Strike Patrol Costs \$300-\$400 Daily

### SCHOEN TO STUDY RIOT ACT

Declaring that "there should be a limit somewhere" in expenditures on the part of the county to protect private property during the course of strikes now going on in this area, the board of freeholders yesterday assigned County Counsel Harry L. Schoen to a study of the responsibilities of the county under the Riot Act of 1877 in an effort to cut down expenses of this sort.

Deputies are now being employed by the sheriff's office to maintain order at both the Little Falls Laundry company's plant and that of the La Favorite Rubber company where strikes are now in progress.

#### "Monumental Cost"

Said Freeholder Director Ernest Schoedemann: "The sheriff has employed deputies and assigned them to do duty at each of these plants by way of protecting the properties of these two companies. If this practice continues to grow, it may become monumental with taxpayers shouldering the burden which already amounts to between \$300 and \$400 per day."

The Riot Act, County Counsel Schoen explained, makes the county responsible for property damage done by rioters in the event of the sheriff's failure "to take all legal means to protect the property attacked or threatened immediately after being apprised of any threat or attempt to injure property."

## County Reaches Century Mark On June 5th

Pageant, Dedication To Feature Day's Observance

Three county offices, the board of taxation, the Mosquito Extermination commission and the superintendent of schools, were ready to move into their new quarters yesterday as plans for the dedication of the new county administration building on June 5 were being completed.

The dedication will be made simultaneously with the county's observance of its One Hundredth Anniversary.

A pageant depicting the historical, industrial and cultural growth of the county since its founding 100 years ago will feature the day's ceremonies. Among the speakers will be Congressman Seeger, U. S. Senator A. Harry Moore, Dr. William H. Rauchfus, D. Stanton Hammond, Chris L. Edell, and Freeholder Director Ernest Schoedemann.

## COUNTY'S DUAL CELEBRATION AT PATERSON SET FOR JUNE 5

County To Mark Hundredth Anniversary And Dedicate New Administrative Building—Outside Office Space Out

Rapidly nearing completion is the new Administrative Building of Passaic County, which will enable the county government to expand with the times. This great improvement arrives at the turn of the second century of the existence of Passaic County.

Appropriate ceremonies to commemorate the hundredth anniversary of the county and the dedication of the new Administrative Building will be held Saturday, June 5.

Overcrowded conditions in the court house became a thing of the past with the inception of the new building.

In addition, the county will save a considerable sum each year in rent now paid for office space outside of the court house for the county election board, school superintendent and others. These offices will move into the new building.

Freeholder Willard De Yoe, the chairman of the centennial committee, consisting of himself, and Freeholders, Harry Behrman and Leo Becker, has announced that a complete program for the centennial celebration to be held on June 5 at the Court House will be announced in the near future.

## Lapadura Appeal At Philly Today

Weinberger Tries To Have Four Year Term Set Aside

Argument will be heard in the United States Circuit Court of Appeals in Philadelphia today of an appeal of Angelo Lapadura, former Passaic "sugar king" against a 4 year prison sentence on a charge of being the owner of an unlicensed distillery.

Harry H. Weinberger, counsel for Lapadura, has based the appeal on six points in his attempts to have the United States District Court conviction set aside. They are that the Court erred in denying appellant's motion at the end of the case to direct a verdict of not guilty on the ground the evidence produced by the Government was insufficient; that it erred in refusing to charge the jury as requested by counsel for Lapadura; that it erred in the language used in charging the jury and that there was an error in denying appellant's motion for a mistrial because of the language used by the United States Attorney in addressing the jury.

## N. J. SWIFT TO RECOVER

New Jersey has experienced greater recovery from the economic depression than any other State in the second Federal Reserve district, the State Bankers Association was told at a recent conclave.

Little banks have been leading the recovery march, the report said, coming back at a more rapid rate than the big ones.

However, "public approval has not yet been rewon" completely the report said, and as a result

other financial institutions have been able to make inroads on the business of banks, especially loan agencies sponsored by the Federal Government.

The time has come for Congress to get back on a balanced budget, the bankers were told recently by Orval Adams of Salt Lake City, first vice president of the American Bankers Association.

## To Print Stamp Series To Honor American Indian

Secretary of Interior Harold Ickes announced that a series of stamps to honor the American Indian will be printed soon. Mr. Ickes said the project has been inaugurated in response to requests from interested stamp collectors.

Mr. Ickes's statement continued, "This plan appeals to me not only because of my enthusiasm for stamp collecting and my keen concern for the welfare of our Indian people, but also because it is in harmony with my belief that a nation should employ its stamp designs to send its history ideals and aspirations throughout the world. Stamps go everywhere. It therefore follows that they should say something worth saying about the countries of their origin."

"Our National Park series advertised the beauty of our national playgrounds as nothing else could. Similarly, the territorial series soon to be released will publicize our possessions, Alaska, Hawaii, Puerto Rico, and the Virgin Islands."

"Philatelists throughout the land have endorsed the plan, and I am glad also to endorse it," he concluded.

## No Donation To Clean-Up Drive

Board Declines Chamber's Bid For \$125 Contribution

The Passaic Chamber of Commerce's request of the Passaic board of commissioners for a contribution of \$125, in order to aid the city's Clean-Up Drive here June 1 to 5, was turned down on Tuesday when Finance Commissioner Henry Whitehead said the request did not constitute an emergency.

"There are no funds in the 1937 budget for such work. While the purpose of the Chamber of Commerce is commendable, we can't set a precedent. It is in no sense an emergency appropriation and this board has no power to furnish the money," Commissioner Whitehead said.

Secretary of the Chamber, Richard Wilcox, said the money, if appropriated, would be used for the printing of posters and inspection blanks for school children, who are to participate in the annual clean-up campaign.

SEND IN YOUR NEWS

## FDR'S BID TO ASK 40-CENT HR. MINIMUM

Objective Also 35-Hour Week In Interstate Commerce Industry

Congress is expecting President Roosevelt to submit a wages and hours program this week, establishing a 40 cent an hour minimum wage and seeking an objective of a 35 hour week in interstate commerce industries.

Secretary of Labor Perkins predicted that Congress would enact new minimum wage and maximum hour legislation before this session adjourns.

The measure, it was understood, will not provide for a flat 35 hour work week maximum, but will seek to impose that limitation in so far as possible. In special conditions if a 35 hour week would work undue hardship, a 40 hour week would be permitted with possible seasonal adjustments providing even greater weekly working hours.

Prime goal of the expected bill, it was understood, is an effort to absorb into industry some 4,000,000 persons from the nation's idle.

The bill carries a child labor provision designed to prevent shipment of goods in interstate commerce manufactured in establishments employing persons under 16 years of age.

The bill would not affect any industry having less than 20 employees.

Violations of the act would be punished with penalties of up to \$5,000 fine or six months' imprisonment.

## FHA Safeguard On Mortgages Is Found In System

Insured Mortgage Checking Plan Aiding All Appraising

The Federal Housing Administration's insured mortgage system stands as a safeguard against speculation and inflated valuations in the present active real estate market, according to Stewart McDonald, administrator.

The FHA chief points out that home buyers would be guarding their own interests by taking advantage of the protective devices provided by the insured mortgage system.

"At times of great home building activity, when mortgage lending agencies are anxious to place their money in real estate, it is often the tendency of appraisers to make appraisals which reflect too great a confidence in the future permanence of values," McDonald said in a statement released in Washington today.

"The Housing Administration has developed a new valuation and risk rating technique which minimizes the possibility of the final appraisal reflecting the prejudice and ambitions of any one man. It is based on the judgment of several highly trained men, one of whom can have any personal interest in over valuating or under valuating. Therefore, home buyers would be protecting themselves and their families by applying for a mortgage insured by the Housing Administration."

## Hopkins Is Convinced Government Work Has Replaced Private Charity

Handled 7 Billion In 4 Years — He Believes Americans Like To Work For What They Get Instead Of Charity

Completing four strenuous years in charge of federal relief, Harry L. Hopkins was convinced that government work for the jobless permanently has replaced private charity as "the American system."

The administrator has supervised the greatest relief fund in history—amounting to almost \$7,000,000,000 for work relief alone.

"My years here have taught me that Americans like to work for what they get," he said, "and the nation has use for their labor in public improvements when they can't find a job in private industry."

After signing that bill the President telephoned his friend Hopkins in New York, where he headed state relief activities to catch the next train here. On May 22 Hopkins began acting on Governors' pleas for funds.

Hopkins brought with him an energy developed at basketball at Grinnell College, a mind which won Phi Beta Kappa honors, long experience with charity organizations and disregard for traditions as such.

"I love prize fights, horse races, modern literature and poetry," he once said.

## Seek Church Aid In Highway Drive

Department Seeks To Curb Auto Deaths With Church's Aid

New Jersey's motor vehicle department has enlisted the aid of the churches for greater consideration of the fifth commandment: "Thou Shalt Not Kill" in its campaign to cut down motoring fatalities.

"Frequent 'transgression' of the commandment is referred to in a letter Motor Vehicle Commissioner Magee sent out last week to all clergymen in the Newark Catholic Diocese. The letter was read to parishioners in the churches last Sunday. Abram Swan, director of safety education, plans to carry the message to other churches."

Magee says in the letter there were 1,107 highway deaths in New Jersey and 38,000 last year in the nation. He appeals to drivers and pedestrians to help and "this wanton disregard of human life."

## Passaic Tax Sale Fixed On June 29

Tax Collector Mueller Says 1935 Delinquencies To Be Listed

Tax Collector Joseph Mueller announced a tentative date of June 29 for annual tax sale of properties on which there are tax delinquencies for 1935.

Under law, the sale is mandatory. Municipalities are required to set up a list of delinquent properties on July 1 of each year. The statute is not specific on how soon after that date the sale must be held.

A lenient policy has been exercised in the past. The June 29 date allows the city only one day leeway. Lists of properties on which there are tax arrearages must be published beginning four weeks before the sale date. First publication will be made next week.

## Lewis Predicts Wool Union May Be World's Leader

LAWRENCE, Mass.—If it can be avoided the Textile Workers Organizing Committee of the CIO will not call a general strike, John L. Lewis, CIO chairman and Sidney Hillman, chairman of the TWOC declared here in speeches before 30,000 textile workers. More than 15,000 were woolen workers of this area.

He asked the woolen workers to sign up with the TWOC promising that the CIO would do what the American Federation of Labor failed to do in the past. He hoped, Lewis said, that woolen workers would sign up so rapidly that he could go to the woolen bosses with in two weeks and demand a contract from them.

Hillman, who is president of the Amalgamated Clothing Workers of America, said his organization's first contributing of \$500,000 to the textile drive would be increased as often as necessary "until" one day after the last employer signs up with the TWOC.

Lewis compared the textile industry and more particularly the woolen industry to General Motors declaring that the TWOC and the CIO would not relax the drive until contracts with all bosses had been signed. The textile industry, he said, had potentially the biggest union in the world.

"Those who are trying to undermine your confidence by saying the CIO and the TWOC are anti-American are false to the philosophy of America, false to themselves and the truth lies not in them," Lewis said.

"The textile industry, although the most protected of industries under the high tariffs of Republican administration after Republican administration, had the least consideration for its employees."

"Those who made profits from it from 1924 to 1929 when the depression came, took those profits and left millions of workers to live or die."

"I think this country has been operated by too few people. In a recent strike, 100,000 people were out of work because forty stockholders, who inherited their shares or obtained them on the market wouldn't settle."

"It doesn't make any difference how long the textile organizing drive takes, or how much it costs. It's worth the price. Somebody asked me how much money was lost in wages by a strike and I said: 'You tell me how much a man should spend to be free and I'll tell you how much they lost.' Lewis and Hillman were both greeted with long ovations when they made their appearance on the platform and concluded their addresses.

### AUTO OUTPUT UP

#### Comparison Shows Greater Output Than May Week Last Year

It was estimated by Ward's Automotive Reports, Inc., that the current week's output of automobiles and trucks would total 136,436 units, compared with 139,507 last week. For the week ending May 23, 1936, it estimated output at 110,845.

Cram's Reports, Inc., placed this week's production at 137,490 cars and trucks, compared with its revised figure of 140,396 last week, and 109,831 for the week ending

## Merit Awards To "Accident - Less" Jersey Drivers

### 25,000 Mile Records To Be Recognized By New Board

Licensed drivers of motor vehicles in New Jersey who have driven 25,000 miles or more without a reportable accident, as defined in the Motor Vehicle Act, are to be honored with a distinguished Award of Merit by the recently organized New Jersey Safe Drivers Committee of which George C. Warren Jr., is State Chairman.

In describing the committee's program, Mr. Warren said: "Much attention has been centered upon bad drivers who are responsible for highway accidents. There are, however, thousands of careful drivers in New Jersey who have conscientiously cooperated in the crusade for safety. These safe drivers deserve public recognition, both through an award of merit which can be attached to their car, as well as their names being publicized in their local newspapers. By recognizing the good drivers on our highways, the reckless and indifferent drivers will be more readily identified."

"Any movement which has for its purpose the reduction of the fast mounting toll of deaths on our highways is deserving of the support of every thoughtful motorist. The week end figures of highway fatalities have become so common that many newspaper readers are inclined to look upon them as mere figures unless the tragedy strikes into their own homes or that of a neighbor."

## Tell Barkeepers Of License Deadline, June 30 Last Day

### Notices Of Intention Needed Two Successive Weeks In June

Passaic barkeepers are receiving personal reminders from members of the Passaic detective bureau that present permits will expire at midnight, June 30. Each licensee is receiving a printed form from the State Department of Alcoholic Beverage Control outlining the requirements for renewal.

The licenses must be obtained on or before June 30 in order that their business continue uninterrupted. A day's delay may mean that some licensees will have to close up shop. New applications filed must be accompanied by a full annual license fee for the period from July 1, 1937 to July 1, 1938, and satisfactory evidence that a new Federal tax stamp has been obtained. They must also publish notice of intention once a week for two weeks successively in June. Investigation must be made by the municipal issuing authorities and hearings held, if necessary.

Application must be filed at or before the first insertion of the notice of intention. A hearing is to be set when an objection is filed without the necessity of any request therefor by the applicant.

May 23, 1936.

General Motors production was placed at 54,200 compared with 54,604 last week; Ford at 35,835 compared with 35,900 and Chrysler at 29,550 against 31,250.

## Thomas' Plan To Name Next Ship "New Jersey" Has Strong Support

Congressman J. Parnell Thomas 7th New Jersey District, today announced that State wide support is being given to his plan to have the next battleship authorized by Congress named after New Jersey.

Scores of patriotic organizations already have endorsed the movement, Thomas said.

The American Legion Department of New Jersey, this week forwarded to Thomas a copy of a resolution adopted by the Executive Committee endorsing the plan. The Bergen County organization likewise acted favorably upon it. Copies of similar resolutions from individual Legions Posts throughout the State are being received, almost daily, Thomas said.

Guido F. Forster, chairman of the National Defense Committee, American Legion, in commending Thomas for his attempt to honor New Jersey, points out that on April 1, 1937, Secretary of the Navy Swanson selected the names "No. Carolina" and "Washington" for 2 battleships. It marks the fourth time a war vessel has been named for North Carolina, said Forster, and the sixth time that a ship has carried the name of Washington.

Thomas declared that only one battleship has been named for New Jersey and that was used as a target and sunk in 1922.

"I believe that the movement will be successful," Thomas stated "providing my plan continues to receive strong support from our interested organizations in the State. I hope that many more Legion Posts, Veterans Associations and similar patriotic societies will endorse the plan and forward their endorsements to the Secretary of the Navy. A powerful appeal on the part of all organizations will assure success of the plan."

## Dansen Studies Crime Detection Plan For County

A meeting of a committee of members of the Bergen County Police Chiefs' Association and Sheriff Benjamin Dansen, Jr. will be held this afternoon. The object of the meeting is to discuss a bill designed to create for Bergen County a scientific crime detection bureau.

There are some differences of opinion over the bill, of which the main one seems to be over who is to have the appointing authority. It was originally intended to introduce the bill in the present Legislature but this does not seem possible now as the Legislature is expected to adjourn Friday.

Some officials feel that the bureau should be placed under control of Prosecutor John J. Breslin, Jr., while others feel that the Board of Freeholders should have the authority over it.

A draft of the bill, prepared by former Judge Abram Lebson provides that the bureau personnel be made up of men trained in chemistry, ballistics, fingerprinting, photography, handwriting and similar subjects necessary in crime solution.

### JUST STUFF

To refresh fans' memories Jack La Rue, who hails from Garfield, first played the role of a clergyman in "Farewell to Arms", which was one of his early films. Yet, after several films in which he has played the strict gangster type, Mr. La Rue is again cast as a clergyman. Which really is nothing to swoon over.

**AT LAST — SAFE AND SANE**

Paterson residents may breathe a deep sign of relief. At long last the anti-fireworks bill has been enacted, prohibiting the sale of fireworks and their display except by municipalities and religious and fraternal organizations. If properly enforced, it will go far to insure the safe and sane Fourth of July we have heard so much about and never have had.

Local ordinance were useless because Paterson folks intent on shooting up a good old celebration on the Fourth had only to cross the City line to Garfield or elsewhere and purchase the pyrotechnical supply they wished. Local control was ineffectual enough to be negligible.

To the various organizations who battled long for the passage of the legislation go this newspaper's thanks. For the parents, who viewed the approach of the Fourth of July with justifiable apprehension, may now breathe easier in the knowledge that fireworks will not be so readily accessible to childish hands.

**THOSE WERE THE DAYS**

Remember when you would think nothing of lighting your cigar with a twenty dollar bill? You've heard of people doing that, and have probably regarded them as insane.

But, if you are an average person, you consistently take chances on a fire that may cost you many times "measly" twenty dollars.

Remember when a fuse blew last winter and you couldn't find another so you established the circuit by putting a penny behind the old fuse? Thousands of fires, many of which have destroyed lives, have been caused by this highly dangerous practice.

Remember when the cord of your reading lamp wore through and you repaired it yourself, with the aid of a kitchen knife, some automobile tape and considerable profanity? The list of fires resulting from amateur electrical repairs would fill a big book.

Remember that cold morning when the fire was balky and, in a fit of anger, you turned to kerosene to get it going? That practice has burned down thousands of homes and provided many a man with an abrupt passage to the hereafter.

Remember when you noticed that your furnace doors were no longer tight, that the flues looked to be in a sad state of repair, that the chimney shot sparks and you decided to have those matters attended to another day? Sometimes the other day never comes.

Remember when you awakened and found the room full of smoke from the smoldering cigar butt that had fallen onto the bed or the carpet? The insurance records are full of cases where the smoker in question never did wake up again in this world.

The list of careless actions that may cause fire could be prolonged indefinitely. You may take a chance a thousand times and get away with it and on the thousand and first time it may get away with you. The man who lights his cigarette with a twenty-dollar bill is not as wasteful or reckless as the man who takes chance on fire.

**NEW ANGLE TO SAFE DRIVING**

The nation's leading highway engineers hold conference in Washington today to discuss practical ways and means of reducing traffic accidents. While the conference may have no direct bearing on local residents, it does effect them in that they use national and state highways extensively and action taken at today's conference may effect them tremendously in the future.

This meeting of engineers is not going to be the usual safety campaign meeting. It will be devoted to the purpose of recommending safer highways from a construction angle. It is our belief that such a consideration of the problem is indeed logical, although it may not effect drivers who are a menace to highways, whether they are scientifically safe or not.

The application of modern engineering methods in the building or improving of the nation's roads would do much to aid the safe and sane driver, thus protecting him from the usual "road fools." With traffic fatalities twenty-six per cent over 1936, there is little wonder new concern over the auto accident problem has been aroused. It will be interesting to watch the result of the engineer's meeting today.

**WHEN WERE YOU BORN?**

Our readers born in February or March will conclude that there is something to scientific study after all. They'll agree with Professor Huntington who says most famous people are born in these months.

Dr. Huntington is a prominent geographer, explorer and educator. He says children born then get over the critical stage of infancy before hot weather arrives. The child will receive a more adequate food supply because the earth produces its food in abundance from March onward.

Persons born in July are shortest lived, while those born in February and March are not only the most famous but are also the longest lived.

**YELLOW FEVER AGAIN**

An error has been admitted by the Rockefeller Foundation in its annual report. It retracts the claim yellow fever was defeated and presents a darker picture of the task ahead of medical science before the desired goal is attained.

Before 1929, the Foundation maintained that yellow fever had been practically eliminated as a human menace, basing its belief upon the theory that the disease was transmitted solely by the Aedes aegypti mosquito and its attack upon the destruction of the breeding place of these insects. Then, says Raymond Fosdick, foundation head, without warning, the South American jungle struck and it was discovered that an endemic type of yellow fever could occur and did occur in regions where these mosquitos did not exist.

Consequently, science is now engaged in an effort to locate this unknown source of the fever, having spent nearly \$300,000 last year in search. Altogether, more than six million dollars were spent in the campaign against yellow fever which began in 1915.

An elaborate campaign in research and demonstrations in malaria control is also being waged. There was a total of \$170,000 spent in the campaign last year. This disease, also limited to tropical and sub-tropical climates, is still believed to be caused by the Anopheles mosquito.

**Quotations**

From the News

"The thing we call recovery is in a jittery, shaky condition."—William E. Borah, U. S. Senator from Idaho.

"There is an awful lot of powder in Europe; but the people are afraid of war; they don't want it."—Felix M. Warburg, banker.

"It constitutes disorderly conduct when a diner refuses to remove his hat where ladies are present."—Magistrate Ford of N. Y.

"If I saw any one of my wives talking to any man, even my brother, I would kill both immediately."—King The Saud, of Hejaz.

"The Antarctic is land, and land, wherever it is, is valuable."—Lincoln Ellsworth, explorer.

"Billions of dollars worth of property can be tossed around for a few million dollars. It (holding company system) is absolutely wrong."—Burton K. Wheeler, U. S. Senator from Montana.

"A mixture of misery and education is highly explosive."—Herbert Samuel, British Liberal leader.

"Many men at forty-five have just reached the place where experience makes them really valuable and dependable."—J. H. Roubush, Employment Service officer.

"A monopoly of jobs in this country, is just as bad as a monopoly of bread."—Henry Ford, auto manufacturer.

"I will not tolerate that the German peoples authority shall be menaced from any quarter. That holds good above all for the churches."—Adolf Hitler.

A Passaic girl, Miss Myra Stanley, has her picture in the leading metropolitan daily newspapers of the country. Her picture is printed in an advertisement lauding the pound gaining virtues of a certain vitamin discovery.

**The Hero Parade**

by Nat R. duBester

The toast and boast of our nation,  
The heroes of the hour,  
We cheered their stride,  
Tearful with pride,  
Each a mother's flower.

The young and old, our bravest  
men,  
Marked their bodies "sell",  
Who and why?

For you and I,  
Parading straight to hell,  
Democracy dared these soldier  
men,

Who courageously repked,  
"Until the end  
We will defend",  
Echoed every aide.

They knew the price these "nervy"  
men,  
Fate prepared their roll,  
The living and dead,  
Hearts that bled,  
Bared a hero's soul.

Our darkest hour proved each  
flower,  
Ready to pay our debt,  
The hero parade,  
Paid and paid,  
Let us not forget!

# The Clairvoyant

by OJAY  
Though he is not literary, he is judicious... J. G. Lockhart

Jimmy Sees prominent business man of South Paterson, still has high ambitions to be a candidate for the assembly.

Dr. Alvin E. Cortese, in addition to being supervisor of school hygiene is a physician of a number of organizations. Last week he received the unanimous appointment as physician for the St. Jude Welfare League.

A few weeks ago I mentioned in this column that there was a movement afoot to supplant one of the Democratic assemblymen representing this county. We repeat that it is so, for not only is Bob Neilley anxious to get recognition for Passaic, but actually wanting to replace the lightweight of the delegation with a Passaic man.

In the event that the suit of Dr. Thomas E. Manly is settled with the county, he will again enter the political arena.

Labor has come out openly to compliment Sheriff John A. Gavin for his fairness in attempting to effect a settlement in several strike situations in the county. Sheriff Gavin has made this attempt to save the taxpayers of the county money ruling out all political sides in this matter.

Labor is also making a strong demand to have Thomas F. Vigorito placed on the Republican ticket as the mayoralty candidate. With the recent victory in Newark of Vincent Murphy, labor is anxious to have a man whom they can support on the ticket in Passaic county.

Already names have been mentioned for the post of the late T. J. Lendrim, city tax assessor. One who has been mentioned as being after the position is Police and Fire Pension Commissioner Samuel Moskowitz.

The assembly passed a most humane bill Monday, that of appropriating \$25,000 with which to purchase types 1 and 2 of the pneumonia serum and which is to be furnished free to needy persons in the State.

Mentioned as still being in the race for mayor during the week are James D. Hethrington, Joseph Seymour, Thomas F. Vigorito, Joseph King, on the Republican side and Edward J. O'Byrne, Thomas A. Tonge, Dr. Thomas E. Manly, on the Democratic side in addition to Mayor John V. Hinchliffe who is said to be willing to run for re-election.

After a long wait, Donald Gavin Colletter of Clifton, was confirmed to succeed Judge Maurice F. Karp, as judge of the District Court of Clifton and James Hudson of Paterson, to succeed Robert Williams as a member of the Passaic County Board of Taxation.

Gasoline Retailers' Association members of Passaic County's unit

## POLITICAL SAGE

I'm turning political sage this week and offer a comprehensive survey of the situation in the Republican party. Some time soon I'll attempt the Democratic party problems.

The only hope Republicans in this state hold for election of a candidate for Governor against the powerful odds of Senator A. Harry Moore, is in a united party. There is no certainty right now that the customary rank splitting primary battle for the nomination can be averted.

Political observers believe Senator Lester H. Cleo of Essex will announce himself a candidate for the nomination as soon as the Legislature concludes its session, possibly this week. There are Cleo-for Governor Clubs already chartered which is one way of testing the direction of the wind.

Passaic County's Lloyd Marsh is an avowed aspirant, and there is talk that Senator Clifford R. Powell of Burlington County may bid for the nomination.

Charles A. Wolverton's friends in Camden and Salem want consideration for him and several others, including Fish and Game Commissioner George S. Warren, Jr. of Summit, are regarded as contenders.

All or none of these men may be on the ballot in September to decide who shall face A. Harry Moore.

A prominent Republican in this city advanced the opinion that the Republican party advisers are considering drafting former United States Senator W. Warren Barbour as chairman of the State Unemployment Compensation Commission if the party promises to keep the field clear for him.

Mr. Barbour, reliable sources have it, is desirous of seeking election to the Senate again in 1940 and his friends believe his election as Governor would be helpful to him. He was defeated for re-election last November by Mr. Smathers in the Roosevelt sweep. Barbour would like to even the score by being elected Governor and using that as a stepping stone to return to Washington.

Moore is not expected to resign from the Senate unless he is elected Governor. If defeated, he probably would be a candidate to succeed himself in the Senate of 1940. If he becomes Governor-elect, he'll likely hold the office until he takes over the governorship, then appoint a Democrat to succeed him in the Senate.

Republicans plan a big meeting next month to talk the situation over in every detail, to include the financial program.

At Bickford's the other night, mates separated the towel after what must have been an earlier spat... As the male member of our little tale stopped at the counter to order his food he was followed by his wife, twisted about to face her and then take two left crosses to the jaw... He smarted at the blows, pulled his hat down over his eyes and made for the exit...

have the backing of Freeholder Director Ernest T. Scheide mann in seeking the aid of the Legislature to regulate the number of gasoline stations.

## G. O. P. Slate Is Filed With County Clerk

Nominating Petitions Carry Signatures Of 1,000

Petitions for the nomination of "Regular Republican" candidates were filed in the office of the County Clerk Tuesday afternoon. They contained approximately 1,000 signatures.

Oscar Wilensky, Harry J. Donahue, Mrs. Elizabeth Van D. Smith and William J. Hanna compose the Republican slate for the assembly. The latter is the only candidate who has not already been elected to the assembly.

John McNaughton, Nicholas Martini and Leonard M. Ward are on the ticket as candidates for freeholders, while Col. Edward Moore and Mrs. Elsa Flower, present holders of posts on that body, are nominated for the state committee.

## Port Richmond Ferry Sold To Electric Ferries

Sale of the Port Richmond and Bergen Point Ferry Company to Electric Ferries, Inc., was announced by Public Service Coordinated Transport. The ferry, operating across the Kill van Kull between the Bergen Point section of Bayonne, New Jersey and Port Richmond, Staten Island, has been operated by Public Service since Consolidated Traction Company was leased to Public Service upon the organization of the latter in 1903.

If you intend to go to Atlantic City this summer you better make

## The Sports Current

by GEORGE GERO

Interest in the Davis Cup tennis matches has reached new highs on almost everyone's tongues. Naturally, we'll not be an exception. Forest Hills will be the scene Saturday of opening matches the American team plays against Australia. Upward of 10,000 spectators, capacity crowds, are expected to attend each of the three sessions of play in the stadium of the West Side Tennis Club. The receipts will be somewhere around \$75,000.

The winning team, I've been given to understand, bids fair to take the cup this year. Both teams are that strong. The end of Great Britain's four year reign as the champion nation is generally anticipated as a consequence of the loss of her chief mainstay, Fred Perry.

When Perry succumbed to the lure of pro gold last year, Great Britain was left with Bunny Austin as the only outstanding single player in the Isles.

Australia, the United States and Germany stand out as the favorites and the expectation is that whichever of these three advances to the challenge round will take over the cup. Half of the world's first ten ranking players will be gathered in the Long Island Stadium. Australia, the United States and Germany stand out as the favorites and the expectation is that whichever of these three advances to the challenge round will take over the cup. Half of the world's first ten ranking players will be gathered in the Long Island Stadium. Australia hasn't had so formidable a team since the days of Norman Brookes and Anthony Wilding.

The veteran Jack Crawford and Adrian Quist and Vivian McGrath are all experienced players who are rated among the world's best.

Against the powerful Australian array, the United States has Donald Budge, Gene Mako, Bryan (Betsy) Grant and Frank Parker.

Budge is America's best man and the backbone of our hopes to win. Budge has already beaten Crawford and Quist and should be able to turn the trick in international competition play. Mako is something of a newcomer, but is expected to come through with colors flying. Parker has been around quite a while and has advanced rapidly to rank among the first ten.

### LOUIS-CHAMP TIX

Championship Bout At Comiskey Park, Chicago On June 22

With applications for seats already totaling nearly \$350,000 tickets go on sale this week for the world's heavyweight boxing contest June 22 at Comiskey Park between Joe Louis and champion James J. Braddock. Promoter Joe Foley said he expected duceats will move fast.

Meanwhile, the principals took a day off at their training camps. Braddock, doing his conditioning at Grand Beach, Mich., planned to hold his training to golf and a little bag punching, while Louis, established at Kenosha, also was scheduled to visit the fairways.

## It Sounds Screwy, But Schmeling's Ready To Fight

Tickets On Sale, But Max May Be In Ring Alone June 3

SPECULATOR, N. Y.—Max Schmeling, the German heavyweight pitched into his sparring partners yesterday with renewed vigor when he learned that the sale of tickets for his fifteen round bout with James J. Braddock, at the Garden Bowl, in Long Island, had exceeded all expectations. The big German slugger has been working very hard for this jam against the Jersey Irishman and is just as confident as ever that he will be allowed to step in with the champion for the big title shot, on the night of June 3rd.

Incidentally, Joe Jacobs, manager of the former heavyweight boss, predicted yesterday that the sale of tickets for the big show would reach not less than \$200,000 before the middle of the week. "This fight is going over with a bang", declared little Joey, "and the brisk sale since the tickets were issued indicated that the public is with Max in his desire to get a shot at Braddock and his title."

Schmeling will continue to train until Friday, May 28, when he will come down to the offices of the State Athletic Commission, to be examined by the commission doctors as to his physical condition.

Quite a crowd of fight fans journeyed over to Max's camp yesterday to see him do his stunts in preparation for his rumpus with the title holder. Max started his boxing end of his program with a fast three round with Stanley Ketchell, chief of his sparring partners and Max never looked better any time. The German slashed at his mate with some terrific right and left hand smashes and soon had Stanley backing away from the savage attack.

Tommy Glynn, then stepped in for three rounds with Schmeling and like Ketchell, poor Tommy got a sound going over during the 3 frames. Following that, Max shadow boxed and gave the big bag a good pounding.

Tickets are on sale daily at Madison Square Garden with the following prices: \$3.45 for seats in outer circle, \$5.75 to \$11.50 for seats in inner circle, and \$23.00 for ringside seats.

## Newark Bears At Syracuse For Four Days

Once again the pace setting Bears are in the enemy's territory. They are in Syracuse where they are scheduled to play four games with the Chiefs who are fighting hard to obtain a place on the first division berth. The series began Thursday and will end Sunday. While away the Bears will get their first baptismal of night baseball for the season, as it is almost certain the games Friday and Saturday at the Salt City will be played under the lights. The first night game of the season at Ruppert Stadium is scheduled for Friday June 4, between the Chiefs and the Bears. The Chiefs are piloted by Mike Kelly, who was coach of the Bears when they cleaned up in 1932.

## WANT BETTER SLEEP? Read this offer

Public Service Electric and Gas Company

IT IS possible to can strawberries in the oven. In order to reduce their shrinkage special directions are given herewith. The berries are allowed to stand with the sugar until they have absorbed the sugar syrup and some of their juices have been extracted.

The jams may be made with commercial pectin. This type of jam will require less cooking, but follow the directions given by the manufacturer.

## Canned Strawberries

1 qt. strawberries 1 cup sugar  
1/2 cup water

Select firm berries and wash and stem them. Make syrup of sugar and water and cook berries in syrup for seven minutes. Allow berries to stand overnight. Pack loosely in clean hot jars with clean new rubbers have been adjusted. Fill within one inch of top. Partially seal and place in oven with regulator set at 275 degrees, allow thirty-five minutes for pint jars and one hour for quart jars.

## Strawberry Jam

Pick over berries and remove hulls. Measure berries, and for every quart of fruit allow three cups of sugar. Place berries in a preserving kettle and mash fruit as it heats. Bring fruit to boiling point, stirring frequently and crushing any berries which still remain whole. Add sugar to the fruit and boil together until thick (not over twenty minutes), stirring to prevent burning. Pack into clean, hot jars and seal immediately.

## Strawberry Preserves

4 lbs. berries 6 cups sugar  
Select ripe, sound berries, wash and hull. Add the sugar to the strawberries and heat gently until sugar dissolves and juice is drawn from the berries. Cook rapidly until the fruit is plump and transparent and the syrup is thick. Pack carefully in clean, hot jars and seal immediately. NOTE:—All berries except blackberries may be made into preserves by this method.

## Four Fruit Jam

1 pt. cleaned ripe 1 pt. cherries,  
gooseberries pitted

1 qt. strawberries 1 pt. currants  
3 qts. sugar

Mash the fruits, with the exception of the gooseberries, cut gooseberries in halves; add the sugar and put over a slow fire until juices are extracted. Then increase the heat and boil for fifteen or twenty minutes. Seal in clean, hot jars.

## Strawberry and Pineapple Jam

Wash and hull fresh strawberries, to measure four cups, add three cups sugar and mash to start the juice flowing. Cook slowly over a low heat for thirty minutes, stirring often. Add eight cups crushed pineapple and cook until thick. Pour into sterilized glasses and seal with paraffin.

## Whole Fruit Strawberry Jam

2 lbs. pressed 7 level cups  
berries (3 lbs.)  
Juice of 1 lemon sugar  
1/2 cup commercial pectin

Select about two quarts small or medium sized fully ripe berries. Measure sugar into small separate pan. Spread about one-quarter of the berries on their sides in single layer on a platter and gently press each berry to a thickness of one-quarter inch with bottom of tumbler or small bottle. (This leaves skins nearly whole, but breaks fruit inside and allows boiling sugar to soak into berries quickly). Put layers of pressed berries into large kettle and cover with layer of sugar. Do this with all the berries, placing layers of pressed berries and sugar alternately in kettle, putting balance of sugar on top. Then add lemon juice. This addition gives a quicker set, keeping the fruit evenly distributed in the jam.

Let stand overnight or at least five hours so that part of the sugar will be dissolved and mixture can be stirred and cooked without breaking up fruit. Use hottest fire and stir constantly before and while boiling. Bring to a full rolling boil and boil hard for three minutes, remove from fire and stir in commercial pectin. Skim and stir constantly for the just five minutes after taking from fire to cool slightly which prevents fruit floating. Then pour quickly and cover hot jam at once with hot paraffin.

# THEATRICAL NEWS

## ROGERS, ASTAIRE'S "SHALL WE DANCE?" AT FABIAN

Love in the headlines comprises the theme of "Shall We Dance", RKO Radio's new musical spectacle starring Fred Astaire and Ginger Rogers, starts tomorrow at the Fabian.

Presenting the screen's dancing aces, the story complications revolve around their supposed marriage. The newspapers devote considerable space to their affairs, and they are finally forced to a unique solution of their hilarious difficulties.

This gaily humorous plot is worked out against glittering backgrounds of Paris and New York and aboard an ocean liner, in the engine room of which Astaire does one of the most spectacular dances of his career, in rhythm to the beat of the giant engines.

Seven other notable dances and six song hits, are featured in the film. Besides three duet dances, two numbers are presented by Harriet Hootor, considered the greatest American ballerina today. Edward Horton and Eric Blore lend their comedy, with Jerome Cowan, William Brisbane and Ketti Galian in important roles.

Co-feature—The power of superstition to dominate its victim's every act is revealed in "You Can't Buy Luck" featuring Onslow Stevens and Helen Mack.

## "AS GOOD AS MARRIED" NOW AT THE GARDEN

The New Universal, which seems to have discovered the secret of audience appeal, has found another happy combination of story and cast and director in "As Good As Married" currently showing at the Garden Theatre.

The main situation is novel, intriguing and amusing. John Boles is a successful architect harrassed by the demands of gold-digging girls and income tax collectors, who threaten to strip him of all his earnings, so what does he do but propose marriage to his secretary, played by Doris Nolan who takes him up on it because she happens to be in love with him.

The ensuing complications will send you into inner hand-springs of mirth and amusement.

Besides John Boles and Doris Nolan the cast is unusually large and unusually good, containing such well known players as Walter Pidgeon, Tala Birelli, Allan Mowbray, Ernest Cossart and Esther Ralston.

The co-feature on the same bill will be "That I May Live."

## SIT-DOWN ENDS

### Police Break Up Occupancy Of Barber Shop

Five sit-downers who occupied chairs in the barber shop of Joseph Mendello, 438 Main street, were taken into custody by police Tuesday afternoon. Members of the barbers' union, they had picketed the shop because Mendello did not charge union prices.

They were Frank Marchese, 91 Broadway, business agent for the union; Antonio Messileo, 71 Beech street, Sebastian Vermiglio, 71 Clinton street, James Gukeno, 192 Twenty-second avenue and Louis Meola, 80 Benson street.

## The Original Merry Widow Has Part In 'The Women' Now At Barrymore

Ethel Jackson, Once Big Star, Has Small Role In New Play—She's A Trouper True, Will Stay to End

Once the toast of the town, but now enjoying a minor role as the comic Mrs. Wagstaff in Clare Booth's comedy, "The Women", which Max Gordon has installed at the Ethel Barrymore Theatre, Ethel Jackson, the original Merry Widow, is philosophical about the turn of events which has taken her from the heights to the bottom rung of the stage ladder.

It's been thirty years since she stirred men's hearts by her beauty, infectious smile and golden voice in the Franz Lehár operetta. Playgoers there are who still remember her as she pirouetted across the stage of the New Amsterdam Theatre in the arms of Donald Brian in the never to be forgotten "Merry Widow Waltz". For a long time her star was in the ascendant, then retirement, and finally emergence in a small part in "Dodsworth". "The Women" finds her in an equally small role, but she is a trouper to the end. It's where she wants to be at the finish anyway—taking active part in the new world of the theatre which has grown up around her.

If there is a tear in her eyes as she recounts the highlights of her glorious past, it is only natural. Dresden, Vienna, Paris, London, the New York of Churchills, Rectors and the Knickerbocker! She knew them all in her heyday. Even a five minute characterization in "The Women" is solace to her now for the others in the cast know and do care that once her name blazed brilliantly in electric lights. It is the way of life and one can't be on top all the time, she murmurs.

The daughter of Hart Jackson, who adapted "The Two Orphans" for America, she was sent to Dresden at the age of 12 to continue her schooling and also to prepare herself for the concert stage as a pianist. She sang beautifully, however, and was urged to cultivate her voice and subsequently went to Vienna.

At the behest of D'Oyly Carte, who heard her sing, she was invited to come to London and appear in a revival of "The Yeoman of the Guard". Gilbert and Sullivan helped rehearse her. Later she appeared in Sir Arthur Sullivan's last operetta, "The Beauty Stone", the libretto of which was written by Sir Arthur Wing Pinero. The play, however, was a failure and Miss Jackson was cast in a revival of Offenbach's "The Grand Duchess", where Al Canby, London representative for Charles Frohman saw her. He signed her for America and she made her bow in "Miss Nobody", winning critical plaudits. There followed then more personal successes in "The Runaway Girl" and "Miss Bob White".

"The Merry Widow", at about this time, was creating a stir in all the capitals of Europe. Henry W. Savage controlled the American rights but couldn't get a production started because non of the available actresses suited him for the name role. He finally signed Miss Jackson and she scored

an overnight sensation. She recalls now that one costume alone cost \$400.00, a staggering sum for those days. After appearing in the dazzling operetta for almost six months, she was forced to retire because of an overtaxed heart and was ordered henceforth to dance no more. She has since appeared only at infrequent intervals, notably in Harry Frazee's "A Pair of Sixes."

"The Women" incidentally, is still playing to capacity business, and it is because so many playgoers have been unable to obtain seats at the box office that Max Gordon has initiated a special mail order campaign for out of town residents. A special block of seats has been set aside for the next two months and patrons can now obtain the choicest locations at all prices by merely writing to the Ethel Barrymore Theatre. The prices range from \$3.30 in the orchestra for all performances, to \$2.75, \$2.20, \$1.65 and \$1.10 in balcony. The Wednesday and Saturday matinees are scaled at \$2.75 in the orchestra and \$2.20, \$1.65 and \$1.10 in the balcony. A special matinee performance will be given on Decoration Day, Monday, May 31st, at no increase in prices.

## Barnum-Bailey Circus Prepares For Show Here

Ballyhoo Men Come To Town; To Perform June 12

The advance guard of the Ringling Brothers-Barnum and Bailey circus arrived in Paterson yesterday to prepare for the visit of what is billed as "the greatest show on earth" to these parts on June 12.

Yesterday's contingent of arrivals was composed mostly of the advertising department of the huge extravaganza which will shortly set about to work plastering the town with colorful posters heralding the arrival of the circus to Paterson.

Tents will be pitched on the Clifton show grounds, it was announced. The main body of the circus will arrive here in four trains of 100 double length steel railroad cars carrying 1,600 people, 1,009 menagerie animals, seven herds of elephants and 700 horses.
