NEILLEY TO FILE TICKET IN PRIMARY

Will Challenge Hinchliffe For
Party's Leadership

THE BREACH WIDENS

The breach between Mayor John Hinchliffe, county Democratic leader, and Bob Neilley, Passaic Democratic chieftain, appeared complete today with the report that the latter will file a complete ticket in the coming primaries to contest the leadership of the regular machine.

Added to this was the announcement that John "Beefy" Tulenko, who for the past few years has consistently challenged Neilley's leadership in Passaic, had been

(continued on page 5)

Ward To Give Early Answer

Is Asked To Enter Race For GOP
Mayoralty Nomination

Former Assemblyman John M. Ward announced yesterday that he would reach a decision early next week regarding his possible candidacy for the Republican nomination for mayor.

Mr. Ward became the latest rumored entry in the mayoralty race Tuesday when it was learned that groups had approached him with the request that he become a candidate for the Republican nomination for mayor.

"While I gave them no answer one way or the other," he explained, "I assured them that I would give the matter careful consideration and announce my decision in the near future."

He is a member of the law firm of Ward and McGinnis.

29 Directors Begin Duties Here Monday

Will Augment City's Recreation
Staff For Summer

The board of recreation this week appointed 29 playground directors to its staff for the summer months. They will begin their duties on Monday.

Previous to entering the employ of the city, the newly appointed directors will undergo a two day period of training under the guidance of Recreation Supervisor Alfred C. Cappio today and tomorrow.

The part that the WPA will play in financing the city's recreation program appeared vague today. Cappio reported to the recreation board, curtailment of its program after this month is expected to cut aid from this source considerably.

FUNERAL RITES

Dr. Vanderbeck, Jr., To Be Laid
To Rest Tomorrow

The body of Dr. Andrew Vanderbeck, Jr., 33 year old Paterson physician who died after an acute attack of appendicitis in Knoxville, Tenn., Tuesday, will be laid to rest tomorrow afternoon, it was announced today.

Services will be conducted by the Rev. Louis Vanderburg in the First Presbyterian church. The young doctor had been attending a class reunion when he fell victim to the attack.

Marsh Calls On Party To Support Clee

Asks G. O. P. To Present United
Front In Primary

Calling upon "all Republican county leaders to avert a primary fight at all cost, Lloyd B. Marsh, county clerk and Republican leader, asked his party this week to support State Senator Lester H. Clee for the gubernatorial nomination.

"I make this plea out of loyalty to my party," Marsh's statement read, "and with conviction that we have in Senator Clee a candidate for governor who will bring honor to all.

"The next few days are vital ones for the future of Republicanism in New Jersey. Every county leader in New Jersey knows that I am speaking the truth. I plead that we do not now make a great and regrettable blunder."

CIO ASKS PROBE OF SHAW'S ACTIVITIES AT LITTLE FALLS

Charge County Employee Aided In
Hiring "Gorillas"

A demand that Sheriff John A. Gavin investigate the activities of Court Attendant Warren M. Shaw in the Little Falls Laundry strike was made this week by Leo Perlis, Ben Kraft and Frank Porco, three officers of the CIO union involved in the strike here.

Coming on the heels of charges by former Recorder Harry Joelson who Saturday declared that a court officer on the county payroll was working for the Vander Mays brothers by hiring "gorillas" to combat the strikers at the plant, the demand brought a denial from Sheriff Gavin's office.

Sheriff's Demand

"There are no gorillas at Little Falls," said Sheriff Gavin yesterday. "All are regular guards and constables and are residents of the county. This was shown by my last check up made, yesterday morning."

The demand read in part: "We have repeatedly called your attention to the activities of Warren Shaw at Little Falls. We demand that you make a thorough

DECISION IN POLICE SUIT NOW REMOTE

Verdict Is Not Expected Before
September

COURT'S ORDER CHANGED

A decision in the suit of Paterson police to test the city's right to impose pay cuts on their 1937 salaries appeared remote today as far as reaching a verdict before the end of this month is concerned.

District Court Judge Filbert Rosenstein, who is hearing the case, had promised a decision before (continued on page 5)

Duo Forced Way In Winery, Held For Jury

Homeless Men Arrested Early
This Morning

Arrested at 2 o'clock in the morning on charges of having forced entrance into the Mlown Winery company, 1-5 Erie Street, two homeless men, who gave their names as Michael Kopfer and Archie Hook were held without bail pending the action of the grand jury by Recorder Vincent Duffy in Police Court today.

At the same time, Recorder Duffy handed out a ten months sentence to Clarence Peet, 38, of 33 North West street, on a charge of disorderly conduct.

Investigation of his activities.

Ask Inquiry

"We further demand that you inquire into the character and past records of the guards in the plant of the laundry. We are informed that many of them have prison records and that many of them carry fire-arms."

County Given \$70,000 From Vehicle Fund

Sum To Be Used In Paying Off
Road Bonds

The sum of \$70,000 was allotted this week to Passaic county from the total receipts of state motor vehicle payments.

The money will be used for the payment of road and bridge bonds and interest accruing therefrom. Two other counties were also included in the allotments. They are Union and Sussex and will receive \$100,000 and \$29,000 respectively.

CLEAN-UP

Bar Committee Continues Drive
Against Malpractices

Declaring that it is "determined to run down the unscrupulous and unqualified persons who practice law without the necessary requirements," the special committee appointed by the bar association will make another report of its studies on the problem at its meeting this afternoon at 4 o'clock.

Michael D. Miriello, chairman of the committee will present Stanley Ford chairman of a similar state committee, to the bar group at today's meeting.

Alas! Hoboes Can't Find A Place To Meet

Even Almshouse Is Too Good For
Them, Board Decides

That august body of "Rambling Hoboes of America" whose slogan is "be presentable on the road" received a flat refusal on the part of the board of recreation this week after it had requested that group to give them permission to use the almshouse site for their coming convention.

The board was polite and even sympathetic, but it could not view the personnel of the "Rambling Hoboes of America" as entirely desirable. And besides, the almshouse property had already been designated as a baseball field for the use of local athletes.

Board Says "Nay"

And so the board said "nay" politely but firmly to Morris Friedman, Paterson secretary of the organization. Now it looks like the "hoboes" will have to keep on rambling if they are to find a site for their coming convention.

Opposition May Arise Against Additional Fee

Application For Legal Fee Now
Before Chancellor

In February 1936 four mortgage companies were placed under Bank Commissioner Carl K. Withers and Peter Hofstra was named counsel. In the latter part of December 1936 counsel Peter Hofstra made application for \$7,500.00 fee and was granted. In May 1937 he applied for additional fee of \$9,000 for legal work from December to May 1937.

The application is pending before Vice Chancellor Virgil M. Lewis.

No notice of application was given any mortgaged participation certificate holders in any of the four companies affected.

It is believed that there will be opposition to the payment of the fee.

LAUNDRY CO. SAYS NO TO MEDIATION

Political Leaders Offer Arbitration
Plan

SAFEGUARD RIGHTS

The Vander Mays brothers, owners of the embattled Little Falls Laundry company, said "no" today to a proposal made by CIO unions participating in the strike at the plant that mediation in the disagreement take place through a committee appointed by Democratic and Republican county leaders.

The CIO had announced earlier that Republican Leader Lloyd B. Marsh and Democratic Leader Hinchliffe had offered to appoint three men each to a mediation board. Company approval of the proposal, however, was not forthcoming.

(continued on page 8)

Two Hurt By Automobiles

Suffer Possible Fractures; Taken
To Hospitals

Two men were injured in automobile accidents this week in Paterson.

Patrolman William S. Dowling of 230 Union avenue, is in St. Joseph's hospital with a possible fracture of the left hip after having been struck by an auto driven by Harold Peto, 489 Summer St., while he was directing traffic at the intersection of Liberty street and Wayne avenue.

Peter Ragusa, 19, of 349 Belmont avenue, sustained a possible fracture of the left leg when run down by an automobile driven by Albert Gorab of Woodridge on West Broadway Tuesday night. He is in the General Hospital.

Chemical Plant Will Move Here

C. Of C. Announces Opening Of
New Paterson Industry

The chamber of commerce continued to withhold the identity of the "large chemical company" which has leased the premises of the Lyons Piece Dye Works and which is reported ready to move into Paterson in the near future.

Officials of that group, however, announced that the new industry would occupy 18,000 square feet of space in the plant, but because of the wishes of its directors it was requested of the chamber that no announcement of the company's identity be made at this time.

At the same time, the chamber revealed that the Murphy Day Bed company would move its plant to the westerly wing of the old Nicholson File Works and would occupy 70,000 square feet of space there.

Insecurity Only Result Of Desire For Security, Princeton Head Says

Believes Society's Elevation Of Desire For Security As Dominating Principle In Life Breeds Insecurity

Society's elevation of the desire for security to a dominating principle in life will result in insecurity only, President Harold W. Dodds of Princeton told 2,000 alumni, faculty members and graduating seniors in his baccalaureate address at Princeton.

In urging the subordination of the desire for security, Dr. Dodds said his purpose was to "reaffirm the more heroic doctrine that life is an adventure with a higher purpose than insurance against risks."

"In our quest for happiness we are in danger of elevating security from the minor position in which it belongs to a dominant place in the scale of human values," he continued, although warning that "security against abject need is essential if we are to be a nation of free men."

Speaking directly to the senior, Dr. Dodds declared: "You cannot afford to burden your luggage at this hour of your life with ideas of security." He told them the greatest periods of history have been the periods of change.

"It is true that thoughtful persons realize that the world today is not the world of a few years ago when a blithe, sophomoric optimism set our cultural tone," the speaker continued. "Indeed so baffling have social problems become of late that our confidence in our ability to adjust ourselves to innovation and to maintain harmonious balance among changing parts has been gravely impaired."

Who'll Succeed Rockefeller Sr?

America Looks For New Symbol Of Wealth And Power

John D. Rockefeller, Sr., for years America's wealthiest man, was a living, yet legendary, symbol of success and power in American industrial and commercial life.

The modern day insists on living legends and symbols and it will find some one to fill the place left by Rockefeller's death. Who will it be? J. P. Morgan or Andrew W. Mellon? Or will it be Henry Ford?

The chances are that it will be Henry Ford.

There are contrasts, sharp ones, in the careers of Rockefeller and Ford, but there are many similarities. In their environment of birth their way of living, and in not a few of their views, there are parallels.

Morgan and Mellon were born into wealth. Their boyhood was spent in a metropolitan atmosphere of luxury and affluence.

Rockefeller and Ford came from the farm and village. Their surroundings were modest, their boyhood the same as that of millions of other youths. They typify the American tradition of the country boy who amassed wealth and power.

Ford lives as Rockefeller lived, quietly, simply, with no liking for society or the grand manner. Rockefeller was abstemious, a prohibitionist, pious. So is Ford.

F. H. A. LOAN BIDS GO OVER 80 MILLIONS

Mortgage Applications Involve 16,000 Homes In State

Home mortgages submitted to the New Jersey office of the F.H.A. for investigation and valuation as to their eligibility for FHA insurance, is steadily mounting, according to Thomas E. Colleton, FHA state director.

The records up to the present week show that 18,301 mortgages have been received carrying an insurance value of \$80,405,940.

The manner in which existing home owners are availing themselves of the FHA plan for refinancing is shown by the fact that 10,423 mortgages were for the refunding of existing home loans, while those submitted for new construction number 5,578. The value of the refunding mortgages is \$48,256,500, and new construction loans \$32,149,440.

The aggregate of the commitment mortgages set forth a value of \$56,572,640, or about 70 percent of the value of the total of mortgages on applications submitted. New home commitments have reached 4,361 carrying insured loans of \$23,614,200, while refunding commitments total 7,144 and \$32,958,440.

Sees Record For Motor Output

Knudsen, Of General Motors, Optimistic About 1938

"We feel the demand for motor cars will hold up and that there is enough obsolescence in the field to warrant a good output in 1938," said William S. Knudsen, president of the General Motors Corporation, visiting one of the company plants.

Sales of General Motors cars in trucks in overseas markets in the first five months of this year soared to a new all time peak, totaling 154,609 units, a gain of 5.4 per cent over the same 1936 period.

May sales amounted to 33,306 units, up 7.4 per cent above the volume in the same month a year ago. In the twelve months through May, sales aggregated 332,688 units, an increase of 7.4 per cent over the year before.

Bureau Aids 864 Pay Old Medical And Dental Bills

First 17 Months Of Service Shows Great Achievement

There were 864 individuals aided by the Medical Dental Service Bureau of Passaic and Bergen Counties during the last seventeen months. The bureau has aided in paying either physicians, dentists or hospital bills on a deferred payment plan without any service or interest charge.

The organization, sponsored and financed by the Medical and Dental Societies of both Passaic and Bergen Counties, is carrying on as a non-profit enterprise, which is sometimes referred to as the "Washington Plan", although there is no connection with any governmental agency.

As of May 31, those 844 persons have either paid or are paying physicians \$40,141.30 dentists \$16,457.70 and hospitals \$19,967.11 for services rendered.

The purpose of this Bureau is to enable people of moderate income to receive medical, dental and hospital care when it is needed and pay for it in installments arranged according to their ability to pay.

Any physician or dentist practicing in Passaic or Bergen County, who is a member of either of the County Societies, may use the Bureau for the convenience of his patients. The current cases in the Bureau are as follows: physicians, 430; dentists, 314; and hospitals, 316.

NEW MUSEUM GARDEN

To Spring Up On Site Of Home Of Late John Rockefeller

A sculpture garden for the Museum of Modern Art will be erected on the site of the four story 54th street home of the late John D. Rockefeller, near Radio City, now being razed.

John D. Rockefeller Jr. announced the gift of the land to the museum, with an adjoining plot on which his own home stands. This also will be demolished. The garden plot will be 100 by 75 feet.

The museum itself announced plans for construction of a \$1,000,000 building on West 53rd street in the rear of the garden. Much of the land for this site also was donated by the Rockefellers.

REAL ESTATE — INSURANCE

JOBS REPORTED AT NEW HIGH PEAK FOR RECOVERY IN APRIL

Building - Loans Increase FHA Use

Colleton Reports Mortgages Accepted Totalled 2% Jump

According to Thomas E. Colleton, FHA state director, building and loan associations of New Jersey increased their volume of mortgages accepted for insurance by the FHA 2 per cent, in the amount of \$168,820 during April.

Evidence of home ownership promotion was shown by the fact that 43 per cent of the building and loan associations' volume of mortgages.

Through April 30, throughout the United States, 1,207 savings, building and loan associations accounted for 28,177 mortgages accepted for insurance in New Jersey since the inception of the housing administration was advanced for the construction of new homes. This represented the purchase of 671 moderate priced homes aided by \$3,614,980 in mortgage for government insurance amounting to \$110,659,070.

PARK INSPECTIONS

Freeholders, Park Commissioners Making Tour Of Inspection

Passaic County Board of Freeholder members and the Passaic County Park Commission will complete a tour of inspection of the Passaic County park system within the week.

The park board, on which Byron D. Benson, of Passaic, and Arthur J. Sullivan, of Clifton, are members, are desirous of showing the Freeholders how the parks have been developed by means of WPA labor and also to show some of

Nearly 42,000,000 Employed In Month—Idle Diminishing

Persons employed during April in the United States reached a new record high for the recovery movement, according to the report this week by the Alexander Hamilton Institute.

The number of such persons increased by nearly a quarter of a million, the figure rising from 41,710,000 in March to 41,958,000 in April, the report said.

The total of unemployed persons declined from 9,609,000 to 9,391,000 during the period, the report added. The unemployment figure, however, did not quite reach the low of last December, due to the increase in the supply of workers since then.

The gain in employment for April over the same 1936 month amounted to 4,416,000 persons, while the number of unemployed persons showed a decrease of 2,056,000 for the twelve months.

The institute also reported that a decline in manufacturing activity is in prospect before the end of the year.

While it is probable that the total output of factories will be larger than normal this year, it does not appear likely that the gain will be sufficient to do more than to modify to some extent the indicated decrease in activity, according to the report.

Government economists of the Bureau of Agricultural Economics also predicted that there would be a slump in industry activity during the next few months, but that the longer term outlook for industry as a whole is relatively favorable.

the work contemplated by means of the \$75,000 the Freeholders will raise shortly for the park board.

Hillman Predicts Wide Textile Strike, Warns Of "No Fooling!"

Addresses 100 Small Silk Manufacturers — Believes General Strike Necessary To Get Industry Well Organized

A general tie up of the industry throughout the county was imminent, 100 small silk manufacturers were told by Sidney Hillman, chairman of the Textile Workers' Organizing Committee of the CIO.

Hillman was invited to address an informal meeting of men who declined to give their names but who claimed to represent a majority of the industry in the area between here and Scranton, Pa. "We are not going to fool around with an unorganized industry," Mr. Hillman told the manufacturers. It appears it will take a general strike to get the manufacturers into some form of cooperation before we can negotiate with them."

The situation, as expressed in discussion among those present at a midtown hotel, was that each manufacturer feared to negotiate

with the TWOC lest his competitors hold out and force him out of business. Hillman told the gathering the United Textile Worker's Union intended to obtain a minimum wage of \$15 for unskilled workers and \$18 for weavers and that there would be no geographical wage differentials.

Hillman said an original June 21 deadline for calling the strike unless an industry wide agreement could be reached would not be kept rigid, but that the manufacturers would have to begin co-operating among themselves on grounds on which the union could be met. Of this, he said, he had little hope.

The manufacturers agreed to have a committee see what could be done but pointed out their ineffectiveness against the larger

Jersey Lists 808 Farms For Sale To N. Y. "Farmers"

Idle Properties Described As Ideal For Summer Living

New Jersey's State Department of Agriculture held out prospects for good crop yields of apples, peaches, pears, raspberries, blackberries and grapes.

The apple crop was reported at 85 per cent of normal as compared with 60 per cent last June, peaches at 88 per cent of normal as compared with 65 per cent and pears at 71 per cent as compared with 61 per cent last year. Blackberries, raspberries and grapes indices stood at about 90 per cent of normal, as compared with a 65 per cent average last June.

The green pea crop was reported almost ruined by plant lice and mosaic. Nearly 450 acres were a complete failure and were plowed under. The remaining 3,000 acres will yield not more than 35 bushels per acre as compared with 60 bushels last year.

According to the crop report, the condition of white potatoes planted on high ground is satisfactory, but those planted on low ground were badly damaged by heavy rains.

Winter wheats, rye, oats, barley, hay and pasture all were in better condition than last June. Truck crops which show improvement at this stage are lettuce, onions, cucumbers, lima beans for market, Spring spinach, carrots, snap beans and beets. A slight falling off is shown in sweet corn, watermelons, Spring celery and asparagus.

DISCUSS CLOSED SHOP

American Newspaper Guild Asks Publishers To Consider It

A special convention will be held June 29 by presidents of 10 large associations of newspaper guilds for discussion of the demands of the American Newspaper Guild for a closed shop.

The text of the call said: "The issue is whether the newspapers of this country should submit to the guild's demand for a closed shop.

"This is a most serious threat to a free press, and consequently to the liberties of a free people. Many publishers throughout the country have already expressed the feeling that the newspapers should stand together against this common danger."

Jersey Soil Bill Means Big Saving

25 To 75 Per Cent Damage On N. J. Farmland Reported

War was declared on a condition which already wrought from 25 to 75 per cent damage on more than half the 1,914,000 acres of New Jersey farmland, when Governor Hoffman signed Assemblyman De Voe's soil conservation bill recently.

This war will be fought with methods already tried out on New Jersey farms, under direction of the Agricultural Experiment Station in New Brunswick.

The bill provided for a state soil conservation commission and permitted New Jersey to participate in a nationwide federal program of soil conservation.

For more than a year modern methods of erosion control have been put into practice on several hundred farms in three experimental districts, the 37,000 acre Ne-shanic River watershed in the vicinity of Flemington, and similar watersheds in the Freehold and Morristown areas.

G. M. PLANT FOR TRENTON

Fisher Body Building To Exceed Size Of Linden Unit

A Trenton plant of the General Motors Corporation will be constructed, it was divulged by officials of the plant this week.

Cost of the plant, which officials of the plant this week.

Cost of the plant, which officials said would be larger than the new General Motors unit at Linden, was not estimated. It was announced that the construction was part of a \$15,000,000 expansion program in the Fisher body division.

The plant will be known as the Ternstedt Trenton division of the General Motors Corporation, and is expected to employ 3,000 persons.

The property acquired consists of approximately 60 acres in suburban Ewing Township, three and one half miles from the center of Trenton.

Ternstedt Manufacturing Division part of the Fisher Body Division, now occupies a large plant in Detroit. The new plant will be used for the manufacture of hardware and metal interior parts for automobile bodies.

Capuchin Sisters Home To Be Scene Of Marble Statue Unveiling Sunday

Statue Donated By Charles Bentivegna, Whose Four Daughters Are At Convent — Adds Beauty To Ringwood Home

Elaborate yet simple ceremonies will be held by the Capuchin Sisters of the Infant Jesus of Ringwood, N. J. when a marble statue, donated by Charles Bentivegna, will be blessed and unveiled at a solemn high mass Sunday, June 27.

Mr. Bentivegna's four daughters are at the St. Francis Convent. He employed Joseph Lipari, of Ringwood, to do the stone work on the statue, believed to be one of the most beautiful donations ever presented to the convent.

Procession blessing and unveiling of the statue will be held in the afternoon, followed by a sermon by the Rev. Gaetano Costi, O. P. Cap, resident chaplain of the Capuchin Sisters. This ceremony is scheduled for three o'clock.

Buses are leaving for Ringwood from various points in the vicinity to include Jersey City, Passaic, Paterson, Orange and Hackensack.

The statue stands high on a pillar of beautiful colored stone, and is a white marble work of the great miracle worker. It rests in a cozy spot, surrounded by the majestic pines, evergreens and hemlocks of the Capuchin Sister's garden. The beautiful Infant in his arms is perhaps being told it was observed at the convent, that nearby is a small branch of the great Franciscan family whose Motherhouse is not far.

Little is known of the Capuchin Sisters to the world outside them, but their benevolence will long be remembered in the world.

Du Pont Buildings Sold To Arthur Co

4 Buildings, Large Tract Of Land Involved In Deal

Four buildings and a large tract of land were sold to the King Arthur Food Markets by the E. I. duPont de Nemours Company holdings in Passaic, at the close of last week.

The sale price was not disclosed but the deal ranks among the largest transfers of industrial real estate in the Passaic area in recent years. Reports have the price in the neighborhood of \$85,000. Sidney Sher, counsel for King Arthur, refused to affirm or deny the reported figure.

The purchasers are already using the largest of the four buildings for warehouse and general office purposes.

The buildings sold are those known as building "K", a three story, reinforced concrete building with 46,059 square feet of floor space; building "N", a two story iron and steel structure with 11,360 square feet; building "A", one story corrugated iron building, 6,674 square feet, and building "B", 3,375 square feet, also of corrugated iron.

The purchase gives the company access to the railroad siding on the property.

Doubtless, graduates have had their fill of graduation messages. They have had described for them our outside world, full of trickery, deceit, pitfalls, failures, successes, politics, swindlers, chiselers, communists, patriots, and the full variety of its makeup.

They have been advised that earnest toil will earn them success. They have been told that there is room in our present-day world for their services, be they green and inexperienced or not.

Graduation messages usually go into a long string of other things. The graduate listens attentively. We are speaking of the attentive graduate. To some, no amount of advice would do any good for they have already made up their minds that there will be nothing for them to do once they're graduates. The latter species has heard that every profession is overcrowded.

Take this tip from a man who has been a graduate just like you—there are jobs and professions for those who have the will to get a job and follow a profession. Notwithstanding the increased years of study now needed to attain certain professional standards, the fields (and there are many) are wide open. Come out of high school or college, prepared and determined to work hard for your due. And you'll win!

BEES AND AUTOS

Recently a man (a Passaic resident) died of injuries suffered when his auto crashed into a tree while he was trying to brush a bee from the car.

It is well to remember a few rules now, during the season when bees are honey gathering. If a bee, or an allied stinging insect enters your car as you are driving, try to remember:

First, the sting of the bee is not fatal. It doesn't hurt much more than a bite from a mosquito, though the subsequent pain and swelling are somewhat greater. Prompt application of ammonia, bicarbonate or baking soda or even wet mud—anything that is a strong alkali—will to a great degree counteract the effect of the acid injected by the bee's sting.

Second, don't get panicky. The bee in your car is just as frightened as you are and more anxious to get out than you are to oust it. The bee buzzes frantically on the windshield. Swatting at it with your hand or handkerchief only frightens it more. Then it darts about and strikes your face and stings.

This needless fear of a simple sting or the swatting which diverts your attention from the car may cause serious crash.

If a bee gets into your car, pull over to the side of the road and open both doors. The cross draft of air will carry the bee out or its natural instinct will cause it to fly out for freedom. If you're afraid, after you have opened your doors, get out of the car. The bee may even fly out before you do.

By that time, you can continue on your way safely.

SIGNS OF THE SEASON

It may have been a long time coming, but it's here at last. Signs are unmistakable. The weather and the resort ads confirm the universal feeling that another vacation season is upon us. Tuna strikes along the Jersey coast excite interest nearer the heart than C. I. O. strikes along the steel front. Assorted town fathers have settled the momentous question of whether bathing suits should be built for convention or convenience.

It has also been decided just how much of the masculine chassis will be allowed to be displayed this year. They have also decided that the 1937 bathing girls may do as they please and that is exactly what they intend doing.

Pretty soon press agents will see to it that sea-serpents jump out on beaches, 12 pound brook trout will be landed 10 feet from the cabin door and temperatures of 20 degrees will miraculously appear at favorite mountain hotels. Father, who always pays, will wonder why the office ghost doesn't walk oftener.

No time, however, for sordid notes. School is almost out. Whether it's for two days, two weeks or two months, it's going to be worth all it costs.

JEAN HARLOW

A schoolgirl in a Mid-Western city eight years ago, the other day the news of her death was the biggest news of the day—biggest in the sense that it interested the most people.

Few, perhaps, would say that she was a great actress. Her sudden rise to fame and wealth was due not to extraordinary talent but to extraordinary hair. Because of her, every city, town and village in America had its "platinum blondes."

It would be unkind and untrue to deny her credit for what she achieved. In a field where many aspire and few succeed she succeeded. If the standards by which success in that field is measured are not all that philosophers think they ought to be, it is fair to remember that she did not set those standards. Her "public"—which seemed to have included most of us—set them, and rewarded her because she met them.

DON'T FORGET THE MILLIONS

Newspapers seem inclined to center their undivided attention upon the freaks and abnormalities that astound their brothers and sisters by their unusual activities. This is not entirely a criticism of the press, because after all, the public buys the kind of newspapers that the people want and if there is blame to be attached it should be tagged upon those who support the newspapers that publish this kind of "news."

Recently newspapers have given us copious columns about a young woman who killed one child and tried to kill another because they were in the way, blocking her romance with another man. They have given us the details of the killing of a mother who interfered with the romance between her daughter and young man. Countless other crimes have been duly spread in black ink for the benefit of those who delight in reading the details.

Thoughtless men and women, reading of these affairs, mumble to themselves, convinced that the world is getting worse and worse and that people are fast drifting into demons. They do not stop to think that, among 130 million people, there are always many millions of earnest, hard-working and devout individuals, steadily going about the main business of the race—making the world better for those who live and making life larger for those who come later.

Quotations

From the News

"Young people, those in full adolescence, are inclined to be harshly critical of their elders. Youth and inexperience combine to give the young people a feeling of knowledge and wisdom that is not in proportion with the facts. They are certain where informed people are in doubt. They are positive in denunciation where experienced and better informed people are silent and sympathetic". Angelo Patri, noted child specialist.

"On no point is Roosevelt more loudly condemned than for running his administration like a one man show. Most of this criticism is the chit chat of old women. Some of it is just". Jay Franklin, Washington correspondent.

"For us, an adequate merchant marine has to be a new merchant marine." Franklin D. Roosevelt.

"Some taxpayers, in crawling through loopholes, so stretched the holes that the world no longer recognizes them as holes." John J. O'Connor, member of Congress of New York.

"Keep your sense of the future and an interest in public affairs, for things of that type are a preservative of youth." Willmott H. Lewis, Washington correspondent of the London Times.

"The Supreme Court may not be changed, but it is getting so that even that body has to do what Roosevelt wants." Irene DuPont industrialist.

"I should be delighted to see a woman on the Supreme Court if she is chosen as an individual, not as a woman." Mrs. Franklin D. Roosevelt.

"Statistics show that Hollywood's divorces are no greater than those in any other city of its size." Rupert Hughes, author.

"The doctrine of laissez faire is on the scrap heap." Josephus L. Daniels, Ambassador to Mexico.

"A display of temper means you are quarrelling with yourself, quarrelling with your master." Sinclair Lewis, author.

The Clairvoyant

by OIAY
Though he is not literary, he is judicious. . . J. G. Lockhart

Having received \$7,000 for the 11 months legal work as counsel for Carl K. Withers trustee of the 4 local mortgage companies Law, yer Peter Hofstra last month applied for \$9,000 for 5 months additional legal work.

Certain candidates on the Republican slate are over confident and are in for a nice surprise in the near future if this continues.

Joseph Seymour, campaign manager for the G. O. P., also announced that his name will be on the ballot Election Day.

James D. Hetherington, former president of the Taxpayers league and republican organization candidate for mayor or a few years ago, announced last night that he will be on the ballot Election Day as can didate for mayor.

Thomas F. Vigorito, who announced his candidacy last week and whose petitions are already circulating the city, is standing by waiting for the official endorsement before announcing further plans.

Labor will have something to say on election day when they cast their votes for those who have been friendly to the cause.

Henry Marelli, prominent local attorney, is expected to be the dark horse Republican candidate for the primary. Marelli being a friend of labor and one who a year ago polled high in a straw vote is very popular.

This is sure a sore spot to be in. We believe that within a fortnight it will come to a head. With all these developments will 1939 witness the end of Lloyd B. Marsh's reign as G. O. P. leader?

The breach between Mayor Hinchliffe and Bob Neilley, of Passaic, was widened to day when the mayor appointed John Tulenko as an inspector on the Passaic Valley Sewerage Commission. Tulenko supporters last year worked openly for a number of Republican candidates, particularly for Charles K. Barton. The job pays \$50.00 a week.

In the meantime Bob Neilley announced today that in the very near future he will select with the help of some Democrats a ticket to oppose the one sanctioned by Mayor Hinchliffe. One man already being heavily considered by the Neilley clan is Edward Dyer, contractor, who has made two impressive runs as an Independent candidate.

It is a well known fact that Mayor John Hinchliffe will run again but he may not want the county chairmanship.

Jersey City is watching the political set up in this county. The Hague factions are considering Walter Hunziker, Sheriff John Gavin, and "Tom" Millsop for the chairmanship in the event that the mayor steps out.

Dr. Thomas E. Manly, former sheriff, would like to enter the political arena again and chances are he might be in the running soon.

The labor movement is gaining momentum in this city and several delegates attend State meetings while plans for a labor ticket is being considered.

With graduations on tap this week, the politicians took a well earned rest by attending these functions.

We wonder if nice smiles and personalities make a candidate as some columnists think.

Now that Pat Ferro and Johnny Scancarella of the Sheriff's staff have had their pictures taken we are waiting for the story.

Both parties need a rehabilitation in the wards throughout the county. Each ward has too many leaders and then there are other matters that could be straightened out as well.

The Passaic County Republican League for the Preservation has sponsored more card parties, teas and functions in one year than many other organizations hold in a lifetime.

Police Suit

(continued)

the end of the month. Accordingly, he had ordered City Counsel Salvatore Viviano to file a brief on June 25 and had instructed Judge Thomas J. Kennedy to reply to said brief on the following Monday.

To File Later

Today, however, instructions were changed. Viviano will file his brief on July 15, and Kennedy will reply to it on August 15. Meanwhile, Judge Rosenstein will sail for Europe and will not return before September 1.

P. S. QUARTERLY DIVIDENDS

The board of directors of Public Service Corporation of New Jersey Tuesday declared the regular quarterly dividends on its common and preferred stock payable September 30, to stockholders of record as of September 1. The dividends are: sixty five cents a share on the outstanding no par value common stock; \$2 per share on the eight per cent. cumulative preferred stock; \$1.75 on the seven per cent. cumulative preferred stock and \$1.25 on the no par value \$5 cumulative preferred stock. The regular monthly dividend of fifty cents a share was also declared on the six per cent. cumulative preferred stock for July, August and September.

"These next two years may well be critical in the history of Europe," Austen Chamberlain, British Prime Minister.

Get It?...Buddy De Padro, accordionist on the Old Timers' entertainment program Monday night coming, has an audition with Major Bowes tomorrow night....Luck, Buddy!

Camp Facilities Here Limited, Nadell Declares

Room For Only 3,000 In Free Camps In This Area

County officials and representatives of camps which are non-profit seeking held a conference at the Y. W. C. A. building Tuesday afternoon and heard Harry Nadell, chairman of the Youth Service division of the Social Planning council, declare that camping needs for children in this area are not being met.

According to figures released at the conference, approximately 3,000 children are cared for by county camp projects and those of cities, but would still be able to accommodate 125 boys and girls daily.

Added to the county project, there are many camps which offer children a free vacation, or at best, make a nominal charge. Among these are those operated by the Boy Scouts, Girl Scouts, City Missionary Society, The Anti-Tuberculosis League, the Y. M. C. A., Y. W. C. A., Y. M. H. A. and the Salvation army.

125 Daily

Camp Hope, declared Freeholder Director Ernest Scheidemann, would operate under limited facilities, charitable organizations.

Neilley To File

(continued)

appointed on the recommendation of Hinchliffe to an inspectorship by the Passaic Valley Sewerage Commission. The job pays \$50 weekly.

Will File Ticket

Neilley rapped the policies of the Paterson Democratic group in his statement regarding the placing of a ticket in the field.

"I am planning to call a meeting very shortly to decide on the candidates to be selected," he said. "They will not be picked by one small group as is the procedure in Paterson. Selection will be made by a gathering of representative Democrats."

6 NEW INDUSTRIES IN PUBLIC SERVICE TERRITORY

During May six new industries each employing 50 or more persons, for a total of 595 employees, moved into territory served with electricity and gas by Public Service Electric and Gas Company.

The six are: American Houses, Inc., Kearny; manufacturers of fabricated houses; Metalart Co., Inc., Paterson, furniture; Murphy Door Bed Company, Paterson, kitchen cabinets; F. V. Fitch Company, Bayonne, hair tonic; Pepsi Cola Co., North Brunswick Township, beverage; Akson Sanitary Manufacturing Company, Trenton, sanitary pottery.

In the first five months of this year, twenty-six new industries moved into Public Service territory.

"Economic issues cannot be settled with a policeman's night stick," Fiorello La Guardia, Mayor of New York.

"Republicans and Democrats will draft Roosevelt if the Labor Party nominates Lewis," Frederick H. Prince, financier.

DINE COFFEY ON JUNE 30th

Testimonial To Passaic's Chief At Colonial Inn, Singac

A testimonial dinner to newly promoted Fire Chief William H. Coffey will be held at the new Colonial Inn, Singac on Wednesday evening, June 30. Friends of the recently promoted chief are planning the dinner.

Handling the banquet arrangements is a committee composed of Fire Captain Martin Farrell, Fire Lieutenants John Doremus and Peter Surdyka, Firemen William H. Green, Victor Strub, John Hughes and John Kelly.

City Counsel Joseph Weinberger will be toastmaster at the affair, at which members of the Board of Commissioners, the Rev. Phillip J. Coyne and the Rev. Dr. George H. Talbot, fire chaplains; former Chief Reginald H. Bowker and newspapermen will be among the invited guests.

Although the committee has withheld public announcement of the dinner until today, tickets for the affair are already going rapidly. Reservations will be limited to approximately 400.

N. J. STATE LIBRARY OFFERS COPIES OF BILLS ENACTED

The Legislative Reference Department of the New Jersey State Library has just issued a Descriptive List of the Laws and Joint Resolutions enacted by the 1937 Legislature to May 28, inclusive.

This list, prepared by John P. Dullard, Assistant State Librarian gives the bill and chapter number of each measure enacted, together with the name of the introducer and a brief synopsis of the purpose of each bill. Copies may be had gratis upon application to the State Library at Trenton.

"Real" Hourly Earnings in Manufacturing, 1920-36

The above chart illustrates the improvements in "real" hourly earnings of manufacturing workers that took place from 1920 to 1937. Earnings moved upward, while the cost of living went down, making it possible for workers to buy more for their money. This is particularly noticeable in the recovery period since 1932. It should be kept in mind, however, that the average number of hours worked has been substantially reduced in recent years. On the other hand, the buying power of the consumer's dollar has increased somewhat more than is indicated because of improvement in the quality of goods and services used in the cost-of-living index.

By Home Economics Department
Public Service Electric and Gas Company

LET'S have a picnic! That's the chorus from the whole family when these warm, sunny June days appear.

Instead of the conventional sandwiches, let's have something different, Cold Fried Chicken!

For your picnic box or basket, select a container that is of a light material. It should not be air tight, as a circulation of air prevents the mingling of odors. A vacuum container for either hot or cold liquids is essential.

All foods not in containers should be wrapped separately in waxed paper before being placed in the picnic box. The neatly wrapped articles should be placed as far as is possible in the order in which the food will be eaten so that those found first may be eaten first, without disturbing the remainder. The heaviest foods, however, should be placed at the bottom.

Pack compactly to prevent foods from shaking about, filling any empty space with paper.

A SUGGESTED PICNIC LUNCH

- Fried Chicken
- Bread and Butter Sandwiches
- Deviled Eggs
- Nut Butter Sandwiches
- Pickles
- Chocolate Fudge Cake
- Fruit
- Iced Coffee

Fried Chicken

Select a young chicken weighing from one and one-half to two pounds. Dress and disjoint, chill. When ready, have a deep fry pan with melted shortening at least two inches deep. Sift enough flour in which to roll the chicken (about two cups), add salt and pepper to the flour, roll each piece in flour and place in the hot fat. Cover for five minutes. Remove top and turn when the underside is well browned. Replace top for another five minutes, remove and cook in open pan. About forty minutes will be required for cooking chicken, if it is not too large. Turn chicken but once; too

much turning and too long cooking will destroy the fine flavor. Lay pieces of chicken on a platter and when cold, wrap each piece separately in waxed paper.

Deviled Eggs

- 6 hard cooked eggs
- 2 tbsp. butter
- 2 tbsp. mayonnaise
- $\frac{1}{4}$ tsp. mustard
- $\frac{1}{4}$ tsp. paprika
- $\frac{1}{4}$ tsp. salt

Cut eggs in half lengthwise, remove yolks, put in a bowl with other ingredients and mash and mix well together. Refill each white and put together. Serve on lettuce leaves, or if you are to carry in the picnic box, wrap in waxed paper.

Nut Bread

- 1 egg
- $\frac{1}{2}$ cup sugar
- $1\frac{1}{2}$ cups milk
- 1 tsp. soda
- 1 cup nuts
- 2 tsp. cream
- 4 cups flour
- 1 tsp. salt

Mix and sift dry ingredients, add nuts, then add slowly milk and egg mixed together. Bake one hour in a slow oven, 350 degrees. Do not cut until next day, should be cut real thin.

Chocolate Fudge Cake

- $\frac{1}{4}$ cup butter
- $1\frac{1}{2}$ cups flour
- 1 cup sugar
- 2 tsp. baking powder
- 2 eggs
- 1 tsp. vanilla
- 2 sqs. chocolate
- 1 cup milk
- $\frac{1}{4}$ cup walnuts

Cream the butter, add the sugar and eggs, beat well. Add the melted chocolate. Mix and sift the dry ingredients and add alternately with the milk. Add chopped walnuts and flavoring. Pour into a loaf tin and bake forty-five minutes at 350 degrees.

Iced Coffee

Make coffee of desired strength, strong coffee is best, as the ice dilutes it, or better still, make coffee ice cubes in your refrigerator with which to chill the coffee. Chill the vacuum bottle that you will use, pour in cold coffee. Add desired amount of sugar and cream.

NIGHT RACES AT UNION

UNION—The largest crowd of the season is anticipated for the opening of the night racing season at Union Speedway, located off Route 29 here, when the speed plant's giant floodlight system is illuminated Thursday night, June 24.

The world's largest half mile speed circuit is equipped with a powerful lighting system which last summer made it the country's outstanding nocturnal racing center during the hot spells. The management, headed by Andy Watts, decided to shift from afternoon racing to night events until cooler weather arrived.

The return to racing of Frankie Bailey, Eastern States AAA district No. 1 driver, brightens the field which is preparing for the third Gold Cup bonus fund series race, a thirty lap final which caps Thursday's bill.

Time trials will start at 7 P. M. and the first of three five mile qualifying events will get underway at 8:30 o'clock. A sixteen lap consolation will support the 30-lap finale.

defend his leadership in the Gold Cup point standing when injuries laid him up while the second thrill session was conducted, Bailey has returned to test his ranking among the speed wagon demons.

By placing in the money in both meets held to date at Union, John Ulesky, Newark's dare devil pilot, has gone into a hair line lead over Bailey and Wild Bill Holmes. Ulesky has eleven points and Holmes and Bailey ten each. Both are outstanding threats to regain the lead.

RACES AT HOBOKUS, JULY 4

Thrill manufacturer for years, Jack Moon who turned from trick stunts to the auto race tracks has entered the big racing meet at the Hobokus Speedway Sunday afternoon, July 4.

Moon, the Garfield ace who this season has reached the forefront of the auto racing ranks by virtue of his brilliant spurts to top atten-

tion on the various tracks where he has competed, was the sensation of the Hobokus meet last Sunday. Starting from fifth place in one of the heats, he contributed an unprecedented bit of daring to move up to the front and win the race.

The Jersey driver actually sent his car hurtling past two machines ahead of him while turning a curve and then went flying past Bob Sall who had been out front from the start of the race. Moon took the victory and then finished second in the main event with some more spectacular maneuvering of his speedy Mc Dowell.

Promoter John Kochman announced Moon's entry for his next meet today and indicated that he expects the strongest holiday field in the historic Bergen County track's history on July 4th. The leading A. A. Aces will be at the starting line when this meet, the lone July show on the Hobokus card is staged.

Every driver who competed in the last meet at the Hobokus Speedway is certain to be back for this show and in addition many other leading stars who will be in the east at the time will be in the field, seeking top honors in that hot array of competing gas-buggy pilots. A complete program has been arranged by Promoter Kochman with qualifying time trials launching the afternoon's competition at 1:30 o'clock.

You'll Eat More Turkey 'n Like It

Public Must Eat More Or Farmers Must Raise Less

Either the public must eat more turkey or farmers must raise fewer of the festive birds. That was the conclusion of the government experts discussing the problem in Washington.

Although consumption of turkeys set an all time high, they said set an all time, high, they said more turkeys were carried over into cold storage than ever before.

Suggestions by the committee for increasing turkey consumption included:

Raising smaller turkeys. A market a bird weighing from 9 to 14 pounds.

Teaching the public through advertising that turkeys are good food all year.

Cutting off the head and feet of the gobblers before marketing.

Selling turkeys in parts, frozen and ready to cook.

Jersey Fruits Thriving, Said

Rain Hits Potatoes, But Grains And Truck Crops Gain

With New Yorkers anxious to get away from it all now and again or go in for a spot of farming, New Jersey's State Department of Agriculture may soon be doing a "land office business."

The department is preparing for distribution a list of 308, idle farms in New Jersey.

In an official bulletin, the advertising minded department describes the lands as particularly attractive for families seeking summer residences.

The complete list, obtained from twenty five municipal assessors, will provide full descriptions of the available properties, including forty farms offered for sale by the Federal Land Bank.

Not that farming has become a lost art, or science, across the Hud-

son. Farms under operation in Jersey increased from 25,378 in 1930 to 29,375 in 1935.

Few farms are listed for sale in North Jersey suburban areas, and those are chiefly in Bergen County's northern part. Developers, it is said, are rapidly acquiring remaining tracts in urban areas.

"I'm not surprised about there having been a campers trained on the Chicago steel plant massacre before, as, and after it took place. About every place you go nowadays you encounter a cameraman grinding away. I myself have been in three newsreels this last week and haven't been out of the house hardly at all."—Sal Tinney, humorist.

THEATRICAL NEWS

Double Feature At The Fabian

Three great stars head the Fabian program this week in "Another Dawn", Kay Francis, Errol Flynn and Ian Hunter.

It is another triangle story dealing with two British officers on a frontier post, with the formula of love and duty, two officers in love with the same woman face this problem with heroics coming to a head when the husband, after signing his rival to a dangerous mission, meaning certain death, carries out the order himself, leaving the way clear for the greater love.

Flynn surpasses his performance in "The Charge of the Light Brigade", and Hunter has the best opportunity that has come to him since the Warners imported him to play the Duke of Athens in "A Midsummer Night's Dream."

The co-feature "Slim" is a melodrama dealing with a class of young men whom the movies thus far have overlooked up to now—the lads who string high tension power lines across the country, and features Henry Fonda, Pat O'Brien and Margaret Lindsay.

Fonda, a farmer boy fascinated by the work of a gang of high tension power line builders, becomes a linesman with the aid of Pat O'Brien, a famous linesman. Pat and Henry go to Chicago. Pat introduces his comrade to hospital nurse Margaret Lindsay, with whom Henry falls in love. Henry corresponds with her when he and Pat find work with a Western outfit. Henry is stabbed in a fight, and she comes to nurse him. She wants him to take a less dangerous job, but Henry carries on. She follows him East. Working in a blizzard, a terrible accident occurs to the linesmen when a cable gives way, and Henry makes a desperate attempt to save Pat. The gang rescues Henry, but Pat dies.

War-Torn Spain In U. S. Film

The first motion picture drama to use modern war-torn Spain for its background, "The Last Train From Madrid", will open at the U. S. theatre on Friday, with "Mama Steps Out", a rollicking comedy as the co-feature.

"The Last Train From Madrid",

is a powerful and moving story of ten persons, caught in the maelstrom of a modern city under heavy bombardment, whose lives and destinies are suddenly thrown together by a mutual desire to escape from the stricken city on the only means left—the last train permitted to leave Madrid for Valencia.

One of the persons permitted to leave is the beautiful patrician girl played by glamorous Dorothy Lamour. A pass had been obtained for her by her sweethearts, Anthony Quinn, a young officer. Quinn also manages to arrange for the escape of his friend, played by Gilbert Roland, only to learn that Miss Lamour and Roland are old sweethearts and still very much in love.

Miriam Hopkins On Garden Bill

Do men like to be chased by women? They love it; And don't let them tell you different until you've seen "Woman Chases Man" the rollicking Samuel Goldwyn comedy in which Miriam Hopkins begins chasing Joel McCrea across the screen of the Garden Theatre. Miriam makes a happy return to the sphere of rafter rocking comedy in this goofy story of a destitute girl architect who chased a wealthy but handsome young tightwad clear across the continent to get him to finance his nutty inventor dad's model village—and wound up with his name on the dotted line of both the contract and a marriage license.

It seems impossible these days to get a new angle in a movie thriller, but the screen achieves it in "Talk Of The Devil" also showing now at the Garden Theatre. Ricardo Cortez and Sally Eilers are co-starred, with Basil Sydney as the "heavy".

State Theater Offers Gifts

Starting Monday evening June 28th, everyone attending the State Theatre on Van Houten Street, Paterson, will receive an "Opportunity Ticket" to win a beautiful household gift. Florman's the home of "Easy Washing Machines" have donated to the patron's of the State the choice of either articles, an Easy Washing Machine

or an Easy Ironer. The tickets will be numbered and are to be registered at Florman's, located in the Broadway Trust Company building, West Broadway and Main Street. Both gifts are of the latest design and model. Every one can readily see the value of both gifts which are now on display at the Theatre. Many persons have already requested "Opportunity Tickets" which will be given every Monday night. All tickets collected will be saved until August 16th at which time the Lucky winner will be announced.

Woodring For FDR In 1940!

War Secretary To Back Him If He
Seeks A Third Term

If President Roosevelt should elect to seek a third term, he will find an avowed supporter in Secretary of War Woodring.

Unless the Democratic party locate a standard bearer "stronger than Roosevelt in his record of accomplishment in the interest of the people," Woodring said last night in an interview, the President would be a logical candidate to succeed himself.

He recalled the President's statement at the Victory dinner in Washington, March 4, that his "great ambition on January 20, 1941, is to turn over this desk and chair in the White House to my successor, whoever he may be, with the assurance that I am turning over to him as President, a nation intact, a nation at peace, a nation prosperous, a nation clear in its knowledge of what powers it has to serve its own citizens."

That statement was interpreted Woodring said, as indicating the President did not desire a third term. Woodring would not comment on present possibilities of Roosevelt's candidacy.

Asked of other prospects for Democratic Presidential timber, Woodring said

Boxers 5,000 Years Ago Had Whisker Chins

An archaeological expedition in Mesopotamia discovered that the Braddocks and Louises of 5,000 years ago fought with bandaged hands and cushioned the jab to the chin with whisker mattresses.

The joint expedition of the University of Pennsylvania Museum and the American Schools of Oriental Research opened an exhibit of the discoveries today.

In one month's work at Khafaje an ancient Sumerian site the expedition uncovered a temple dedicated to the god of fertility. It was there that a stone relief of two boxers and a cast bronze figurine of wrestlers were found.

Dr. E. A. Speiser, director of the expedition, said both were well preserved and were found near an altar sports had a part in religious ceremonies among Sumerians of that period.

"Except for the fact that one of the men is bearded, there is little in the stone relief of the boxers to show that the work was executed 5,000 years ago," Dr. Speiser said. "Both fighters are standing on their toes, with arms outstretched and even the hands are bandaged in much the same manner as is employed today."

He described the figurine of the wrestlers.

"Their feet are planted firmly on the ground and the arms of each man encircle his opponent's wrist as if in an effort to force him out of position."

Sculptures in the round antedating Greek and Roman works by 3,000 years, Dr. Speiser said were "startling."
