BORLOSO MAY GET SCHOOL BOARD POST

Transfer Of O'Dea To Finance Board Creates Vacancy

PROMOTION FOR GREEN

The appointment of Richard E. O'Dea to membership on the board of finance led to rumors today that Professor Alfred N. Borloso, well known Italian Democratic leader and instructor in Italian language and letters, would be named by Mayor John V. Hinchliffe as a member of the city board of education.

O'Dea's appointment fills the vacancy on the finance board caused by the resignation from that body by Joseph Hammond, and in turn, leaves an opening in the school board, on which O'Dea has been serving.

Warm Friends

Professor Borloso and Mayor Hinchliffe have been friends for many years and the former seems to be the logical choice for the post.

Mayor Hinchliffe, at the same time, is said to be considering appointing Harold D. Green, present counsel to the board of education, assistant secretary of that body and merging both jobs, thus saving the city approximately \$1500 annually.

Police Chiefs Favor Gavin's Crime Bureau

See Necessity Of Using Modern Methods Against Crime

The Passaic County Police Chiefs' association this week gave its endorsement to the plan for a scientific crime detection laboratory proposed last week by Sheriff John A. Gavin.

After hearing an address on the matter by the sheriff, the group expressed its formal approval of the project, which according to present plans, will consist of a bureau of three crime experts, who will serve at only a nominal cost to the county.

Police Chief John A. Murphy, of Paterson, presided over the meeting which was held at Ryle Park Hotel, West Paterson, and called upon his organization to aid in the introduction of modern methods in the war on crime.

ITALIAN VETS ELECT

Name Vincenzo Corozio Their New Commander

The Paterson Italian War Veterans this week named Vincenzo Corozio their commander at a meeting held in their Totowa avenue headquarters.

Alexander Aquaro was named vice commander and Joseph Vaccaro, adjutant.

PUBLIC FORUM

Ruth Bryan Owen To Lecture Here November 8th

Directors of the Paterson Public Forum, Inc., announced yesterday that Ruth Bryan Owen Rohde, former minister to Denmark and daughter of the late William Jennings Bryan, will speak here on the evening of November 8.

Mrs. Rhode will replace Martha Gellhorn, noted woman foreign correspondent, in the second of the fall series of lectures presented here.

VALLEY VIEW WORKERS TO GET INCREASE

Board Votes To Restore Salaries To 1932 Level

WILL COST COUNTY \$5,000

The salaries of Valley View sanatorium employees which total \$2,100 or less annually and were cut to less than minimum requirements set by the state civil service commission, will be restored to their 1932 status, the board of managers of the institution decided yesterday, after obtaining permission of the board of freeholders.

Yesterday's move, made in the county administration building, will benefit most of the sanatorium's 104 employees, it was announced.

It also brought to a climax months of agitation for salary restoration on the part of the institution's employees. Pay will be restored from the date of last February 1 at a cost of approximately \$5,000 to the county.

Funeral Rites For Late Miss Walsh Friday

Assistant Music Supervisor Passed Away Tuesday Morning

The body of Miss Frances Ann Walsh, assistant supervisor of music in Paterson's public school system, who died suddenly Tuesday morning after a heart attack in her home, 14 Eighteenth avenue will be laid to rest Friday morning, according to plans tentatively announced yesterday.

Funeral services for the late Miss Walsh will be conducted by her uncle, the Rev. Peter J. Walsh of St. Charles R. C. Church, Waltham, Mass.

Miss Walsh began her teaching career 20 years ago and won her promotion to the post she held at her death on October 1, 1930. A native Patersonian, she was the daughter of the late Luke and Mary A. Walsh and had been residing here with her aunt, Miss Theresa A. Walsh.

HEALTH PLAN NEEDED HERE, SAYS IRELAND

State Director Addresses County Educators Here

STRESSES SOCIAL SYSTEM

A Paterson audience heard Dr. Allen G. Ireland, director of health for the state department of education, tell them that a sound program of health education is the greatest need today.

Addressing a gathering of school superintendents, teachers, physical education instructors, nurses and physicians from the county, Dr. Ireland declared that manifestations of the modern social system "constituted the greatest challenge to a sound program of health education in the public schools of the state."

"We must teach the coming generations how to live healthily," he concluded.

NEW QUARTERS

Pasquariello Post Of Legion Moves To Gavin Building

The Pasquariello Post, American Legion, No. 187, this week announced the removal of its headquarters to 49-53 Ward street, in the Gavin building.

Formerly located at Prospect and Van Houten streets, the post's new quarters will consist of a meeting room, canteen, officers' room, game room, and custodian's room.

COLUMBUS DAY FESTIVITIES IN CITY PROVE COLORFUL

Parade, Banquet Feature Day's Activities Here

Italian organizations of this city paid a colorful tribute to the memory of Christopher Columbus on the 445th anniversary of his discovery of the western hemisphere Tuesday.

Thousands participated in a program which was climaxed in the afternoon by a colorful parade and in the evening by the annual Columbus Day committee banquet.

After the parade, a capacity crowd at Lazzara's hall heard speakers remind them of the significance of the life and deeds of Christopher Columbus.

Vigorito Speaks

Among the many prominent speakers who addressed the large gathering were Thomas Vigorito, who stressed the need of following the precedent set by Columbus and called upon all Italians to "emulate his principles of brotherly love"; the Rev. Domenick Cecere, of St. Anthony's R. C. church; Henry H. Marelli, prominent Paterson attorney, the Rev. Didacus Roberto, pastor of Our Lady of Pompei R. C. church, the Rev. Modesto Valenti, of St. Anthony's R. C. Church and Tullio D'Addario, former health commissioner.

POOR-BOX LOOTER?

Police Say They Have Man Who Robbed Charity Funds

Police claimed today that they had solved the series of poor box robberies which churches in this vicinity had reported recently.

They were holding Bart M. Toomey, of 42 Mill street, who they say, confessed looting the poor box in St. Agnes R. C. church on two separate occasions.

COLLECTION OF 1937 TAXES INCREASING

Receipts Show Gain Over 1936 And 1935 Figures

57 PERCENT ALREADY IN

Tax receipts in the city of Paterson at present enjoy a lead over collections over a corresponding period of time during the years of 1935 and 1936, Walter J. Hunziker, city receiver of taxes and assessments, announced yesterday.

Approximately 57 per cent of the total amount levied has been collected, Hunziker declared. This represents a total of \$4,429,849.71 or five per cent more than the 1936 collections at the same period, and four percent greater than that of 1935.

Receipts for the period of October 4 to 9 totalled \$52,000.92 on 1937 taxes and \$27,011.87 on 1936 taxes. Only \$39.93 was collected on 1938 taxes.

SILK HOLD-UP NETS \$6,425 FOR BANDITS

Audiger And Meyers Plant Scene Of Morning Robbery

POLICE WITHOUT CLUES

Paterson police were today still without material clues which might reveal the identity of the bandits who yesterday morning made a \$6,425 payroll holdup at the Audiger and Meyers Silk plant on State street.

The robbery, staged shortly after 10 o'clock in the morning occurred as Alfred Buchnor, of 251 Illinois avenue, office manager of the company, was being driven by Max Ablass, chauffeur of the company who resides at 69 Prospect street, Midland Park, into the driveway leading to the company's garage, on return from a downtown bank.

Show Guns

Two men leaped on the running board of Buchnor's car as it slowed down to make the turn, and forced him at the point of guns to turn over a brief case containing the money. They made their escape immediately in 2 cars which followed closely.

Detectives took every precaution at the scene to obtain clues to the identity of the hold up men, but results, to date, have proved fruitless.

Chamberlin To Barnstorm At Local Airport

Murchio's To Be Scene Of Famous Flyer's Visit

Two 27 passenger Curtis Condor planes will be brought to Murchio airport over the week end by Colonel Clarence Chamberlain, noted trans-atlantic flyer, it was announced yesterday.

A crew of eight men will assist the famous aviator in trips above the city during both day and night rides. The colonel will fly one of the huge ships while the second will be piloted by Captain Herbert Sherman.

Chamberlain's stay here will be the last stop before he leaves on a barnstorming trip through the South.

IMPROVED

Freeholder Nixon Recovering From Heart Attack

The condition of Freeholder John J. Nixon, who is confined to his 410 East Fortieth street home because of illness, was reported as improved yesterday.

Visitors, however, were barred from the freeholders home on orders of his physician, Mr. Nixon suffered a heart attack last Friday.

Sheriff Gavin Obtains Approval By Freeholders For "Crime Laboratory"

Two \$1-A-Year Men On Bureau,
Another Donates Services—
Gavin Is Commended

Sheriff John A. Gavin was given the approval of the Board of Freeholders for the formation of a crime detection laboratory in the County Jail. The appointment of three persons to the bureau also met with the approval of the freeholders. Two serve at \$1 a year and the other without salary.

The dollar a year men are J. Cahill, newspaper man, described by Sheriff Gavin as a handwriting expert and criminologist; Assistant County Physician Joseph E. Donnelly, a blood expert, William M. Evans, now head of the Identification Bureau, will donate his servi-

Sheriff John A. Gavin

ces. Others to be named to the bureau in the future. Sheriff Gavin said, will also be dollar a year men.

"The laboratory will have its offices in the County Jail," the Sheriff wrote, "and will operate from this source. This department will assist all law enforcement agencies in the County. I feel that we are fortunate in obtaining the services of these men at practically no expense to the taxpayers of the County. This bureau, I am assured, will soon write history in the County's detection annals."

Freeholder Director Ernest T. Scheidemann said he believed the Sheriff should be "encouraged and congratulated."

Butler Near Retirement

Rear Admiral Henry V. Butler, born in Paterson and commander of the Sixth, Seventh and Eighth Naval Districts with headquarters at Charleston, S. C., looked ahead to retirement in April.

Admiral Butler supervised the building in Camden more than a decade ago of the Saratoga, one of the Navy's aircraft cruisers, which he commanded when it was commissioned.

Born on March 9, 1874, Admiral Butler entered the Navy in 1891 when he was appointed to Annapolis from the Sixth Congressional District in New York. He saw active service in the Spanish American and World Wars and won the Distinguished Service Medal in 1916 when he commanded the San Francisco, a mine layer of the Atlantic Fleet. He was promoted to Rear Admiral in 1929.

LO, THE POOR MILLIONAIRE!

Only 41 Cropped Up In 1935, As Compared To 33 Previous Year—My, My, My

Forty one persons in the United States reported incomes of more than \$1,000,000 in 1935, compared with thirty three in the previous year. The disclosure was made by Secretary of the Treasury Morgenthau in a partial report of 1935 income statistics.

The biggest increase in the rarified income brackets was in those between \$3,000,000 and \$4,000,000 where the number jumped from one to seven. The individual who in 1934 reported more than \$5,000,000 apparently fell back to the between \$4,000,000 and \$5,000,000 classification, for not one reported over \$5,000,000.

NEW DELEGATE'S HOME

Papal Envoy To U. S. Will Get \$480,000 Italian Villa Here

A new \$480,000 Italian villa type home will be built for the Papal Delegate to the United States.

Archbishop Michael J. Curley of Baltimore, applied yesterday for permission to erect the new three story building on a 150 foot front lot on fashionable Massachusetts Avenue in Washington.

The most Rev. Amleto Cicognani is the present delegate from the Vatican. His neighbors will be the Ambassadors from Japan and Great Britain and the Ministers from Austria and Norway.

HOUSING MAIN INTEREST FOR EDWARD HERE

Duke And Duchess Of Windsor Will Have Plenty Of Plans Operating In Country

If he carries out early plans to study housing in America, the Duke of Windsor and the Duchess will have plenty of examples of the American Government's way of tackling the housing problem in almost every state.

The Duke announced in Paris recently that he and his American born Duchess planned an American visit shortly. The former British monarch said he wished to study the housing problem as it concerns the poor.

The Housing Division of the Public Works Administration can tell the former King about its \$134,000,000 program of 51 projects in 36 scattered cities and two insular possessions.

The program is designed to eliminate slums and provide low rent sanitary and comfortable living quarters.

New Jersey has two such projects. The Stanley S. Holmes Village erected on the site of a slum in Atlantic City has 277 living units and each is now occupied. The average monthly rental for each room is \$8.08. This includes heat, hot water, light, refrigeration and cooking. The Emergency Relief Administration allotted \$1,550,000 for this project.

An allotment of \$3,116,160 was made for Westfield Acres being built on a vacant site in Camden and now 77 per cent complete. It will have 515 living units to accommodate persons now living in slum areas.

Caution In View Of Business Men

Feel 4th Period Of Year Will Not Be As Good As 3rd Period—Alarm Over Production

Standard Statistics believed that fourth quarter volume of business will not be up to optimistic expectations entertained earlier in the year and production in a number of lines will be under third quarter levels.

"On the whole, though, aggregate volumes are not likely to be more than moderately below the satisfactory levels attained in the final three months of 1936", the report continued.

In this latter period industrial production was only 9 per cent below the high 1929 average, so that a volume this year approaching last year's levels would be regarded as entirely constructive.

Regarding the outlook for 1938 the opinions of executives led to a conclusion that no major business recession is imminent.

"SMASH HAGUE MACHINE", MARSH URGES VOTERS

Cites Spoils System And Other Factors Making Hague's Power In Jersey Tammany-Like

LAUDS SENATOR CLEE

Says GOP Candidate For Governor Will Lead Forces For Better Government

Opening the Republican campaign in Passaic County today, County Clerk Lloyd B. Marsh called on the County's citizens, regardless of political faiths, to "smash the Hague machine in New Jersey and put a halt to the spoils system."

"We are entering a campaign," he said, "which exceeds in importance the usual yearly contests. It is a campaign to restore the government to the people and take it out of the hands of the selfish interests whose chief concern is political patronage and power."

"This is a campaign in which we the people, must put an end to the power of the Hague machine and call a halt to the spoils system."

We certainly cannot permit our great State to fall into the pitfalls of another Tammany Hall.

"We're not going to let ourselves be blinded by the soft speaking, sincere appearing appeals of those who are so closely associated with the Democratic political 'boss' and who come before us with inspiring fronts under the guise of good government."

"This is the people's fight. It is a challenge to rise up against the political boss and ward off the menace of domination of all important State offices solely for political gain. In Passaic County, as in other Counties in the State, we mean business because we realize the seriousness of the threat to our vital institutions."

"In Senator Clee, the man of the hour, we have the champion who will wrest this Goliath from the stranglehold he has on State politics. The splendid victory in the

Primary is the call to arms to fight for this cause.

"They will find Senator Clee a match for any boss or set of bosses who may oppose him. He is possessed of the needed courage and resourcefulness to restore the government to the people to whom it rightfully belongs."

"His record stamps him as the type needed to lead the fight. His qualifications, accomplishments and background equip him for the task."

"I appeal to all good citizens to fight for Senator Clee and join us in this great movement to restore and preserve good government. The threat as it presents itself today was never so great. We must act."

Length Of Cold Cut By Vaccine

Frequency Can't Be Pared Any,
Test Of 20,000 Persons Prevails
—Useless On 20 Per Cent

The American Public Health Association was told that eight per cent of the 20,000 persons who were vaccinated against the common cold were helped, but for the others the treatment was useless.

The study was the largest, longest and most complete test of common cold vaccination yet reported and all known kinds of cold vaccines were tried. All, it was reported, had the same effect:—They shortened the duration of common colds, kept people from feeling very ill and averted after effects. But none of them reduced the number of colds.

Dr. Leverett D. Bristol, health director of the American Telephone and Telegraph Co. reported on the tests, saying that with human tests there could be no "guinea pigs" such as some persons left unprotected to learn how much worse off they might be. Lack of scientific verification, he said, was partly compensated for by the fact that the tests were made independently in five different companies.

A CALL TO ARMS!

Citizens of Passaic County!

Your state is facing the cost and perils of boss-ridden government. You cannot afford to ignore the threat—for every citizen, every taxpayer, every family will be seriously affected. You are needed to join the army who have already pledged to help conduct a house-to-house canvass in the interests of Senator Lester H. Clee, Republican candidate for governor and the Republican party. The election of Senator Clee, unbossed, honest, able, fearless, will restore government to the people.

The call for your help is no ordinary one. It matches a call for help to cope with a major military conflict for we are in the midst of a major political war which will decide whether the people or the politicians should govern the state. You as citizens should respond to the call and lend your aid.

FHLB Assets Go Over 3 Billions On 5th Birthday

With gross assets of their member thrift and home financing institutions at a record breaking peak far exceeding three billion dollars reached October 1, the 12 regional banks of the Federal Home Loan Bank System celebrate their fifth birthday tomorrow.

The earliest comparable report is that of January, 1934, when combined assets totaled only \$2,600,000,000. In the October 1 figure is represented a gain of more than \$250,000,000 made in August and September, attributed to an increase in the member of the bank system and growth in the size of its members.

The membership had reached 3,915 consisting of 1,286 federal and 2,480 state chartered savings, building and loan associations, 83 cooperative banks, 35 homestead associations, 23 life insurance companies and eight mutual saving banks.

Although created by Congress during the height of the depression, this credit reserve system is a permanent agency to safeguard thrift and ease the conditions of home ownership, by strengthening the financial institutions which constitute a major part of the home finance structure of the nation.

Existing for the benefit of the millions of small investors in its member institutions and the families buying their homes through long term loans from them, it functions in a manner comparable to the Federal Reserve System in the field of commercial banking. It makes no direct loan to individuals. Membership is optional—institutions, in order to qualify, must be solvent, well managed and engaged in sound and economical home financing.

New Iodine Discovery ENDS PAINFUL CORNS IN 3 SECONDS Guaranteed!

Just apply 100-15E—the iodine corn remover to that aching corn or callous. In 3 seconds the pain will be gone, the corn will dry up, loosen so you can remove it with your fingers—roots and all. 100-15E will not irritate the most delicate skin. No cutting, no filing, no discomfort—just quick relief from pain. Get a 3c bottle at your drugist's today and suffer no more. Satisfaction guaranteed, or money back.

Recommend Whippanong Lake To Stop Flood Danger In Passaic Valley

204 Square Miles Of Upper River Valley Would Drain Into Reservoir, Is Report

CIVIL SERVICE EXAMINATIONS ANNOUNCED

The immediate building of the Lake Whippanong project as a means of solving the flood problem in the Passaic Valley at a cost of \$25,000,000 was proposed to Governor Harold G. Hoffman and members of the Legislature by the Passaic Valley Flood Control Commission.

The commission is composed of Russell S. Wise, of Passaic; Mrs. William L. Rae, of Caldwell, and County Engineer George Hewitt, of Paterson.

The Commission was organized on June 5, 1934, with Washburn Howell, of Troy Hills, as president; Mrs. Rae, vice president; Mrs. Channing Gibson, of Montville, secretary; County Engineer Hewitt, treasurer; Mr. Wise, engineering adviser; Judge John Barbour, of Clifton, counsel and Col. Hugh A. Kelly and David Boswell consulting engineers.

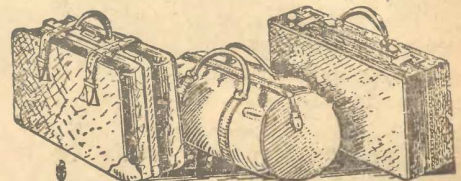

The report and recommendation are unusually timely, since engineers of the War Department are now making a survey of the

Passaic River Valley, with the idea in mind of securing information that will eventually evolve a flood control program. The money for the survey by the Army engineers was made possible through the efforts of Congressman George N. Seger, of Passaic.

The Whippanong project, the report states, is now the only logical one, since projects recommended in previous studies have been put into the prohibitive class because of the rise in value of the real estate involved. The current recommendation of Whippanong takes in a lot of swamp and meadow land, and some marginal land, out of which could be developed one of the finest recreational centers in the East, the report adds.

BID FOR PEACE

At Chicago last week President Roosevelt pledged this country to a policy of co-operation with the rest of the nations that are trying to ban or discourage war. He said: "America hates war. America hopes for peace. Therefore, America actively engages in the search for peace!"

His pronouncement was one of the most important in his career coming at a time when half the world is already on fire and the other half is threatened with being set ablaze at any moment. Mr. Roosevelt said: "When an epidemic of physical disease starts to spread the community approves and joins in a quarantine of the patients in order to safe-guard the health of the community against the spread of the disease."

So, we believe, he proposes that the world community, including the United States, join in a quarantine against the spread of the plague of international outlawry. The overwhelming majority of the peoples, Roosevelt believes, wants peace and "surely the 90 per cent can and must find some way to make their will prevail".

The President's speech is a reminder as well as a warning to Americans—that we cannot live unto ourselves alone and that mere wishing will not suffice to keep us safe.

LOVE AND THE PRICE OF IT

Everything in this country has a price tag, so it is not unreasonable to find that love, too, is on the market. But what chaos there is in the love market!

There's little Elwin Elmer Pope, of Los Angeles, whose school-teacher wife is paying him \$25 a month alimony. Mrs. Pope, whom Elwin Elmer served for six years as a husband, cook and home-maker, is willing to pay that much for his absence from her bed and board.

In nearby Hollywood, glamorous Judith Allen has sent Heriess Delphine Dodge Cromwell Baker Goode a two-million dollar bill for the alienated affections of handsome Jack Doyle, Miss Allen's ex-husband who is about to become Mrs. Goode's fourth "life" partner. Here the High Cost of Loving reaches a peak.

It may be true, as Mrs. Pope charges, that Elwin Elmer did take bottles of whiskey to bed with him and did have nightmares. And it is true that Mr. Doyle sings Irish songs with the sweetness of a thrush, pack a mean wallop as a professional boxer and is a lion among the ladies. But the disparity in the price of love between minus \$25 a month and a cool \$2,000,000 quit claim is confusing.

Perhaps love should have all its price tags removed by the abolition of civil suits for alimony, "heart balm" and breach of promise. It doesn't belong in the marts of commerce.

SOCIAL PROBLEMS

During the past 36 years, the New Jersey Conference of Social Work has carried on a fact-finding, interpreting and co-ordinating organization in social welfare work. Duplicating the work of no other state agency, but co-operating with all, it has been a con-

structive force in exploring social problems and needs and helping to forge the tools of social action.

The conference has gradually extended the scope of its activities until they now cover a wide field. This is done in keeping pace with the growing complexities of every-day living. Recognizing that social progress and industrial progress must proceed together, the conference authorized a committee to study specific social maladjustments within the neutral ground of the conference and make suggestions. It is part of a larger move to bring industry and labor into a group participating with the conference, the adjustments that industry's development enforces being at the heart and core of almost everything the conference does.

The conference must have funds, of course, to do its work. These have come from a limited group of socially minded individuals, most of whom are engaged in welfare work. Now the conference is making its first public appeal, asking for \$20,000, not a large sum, in order that it may continue to function adequately. It is a deserving appeal.

RAILROAD SAFETY

It has been demonstrated again that the railway coach is about the safest place in the world.

During the first six months of this year not a single death from a train accident occurred among the 246,997,594 passengers carried. It puts last year's record in the shade. Then, with a lower volume of traffic there were five fatalities, which was considerably remarkable.

It is reasonable to expect that the railroads will be proud of the progress made in the last 20 years in safeguarding passengers, travelers legitimately on railroad property and employees. In 1918, deaths of passengers and travelers numbered 521 and employees 3,755. Last year there were 23 passengers and 20 traveler fatalities, while employee deaths had dropped to 824. Incidentally, it was 30 years ago that railroad deaths from all causes reached a peak of nearly 12,000 but in every year since 1930 the total has been below 6,000, nearly half the victims being trespassers.

SEES PROSPECT FOR MOST ABUNDANT YULE SINCE '29

Purchasing Power High, Government Spending Continues At Lively Pace—Banks Lending

ROUNDS OUT 'FAIR YEAR'

Business may be "bleating" about "hard times" yet in the nine months just closed corporations paid out a little over three billion dollars in dividends. This is just about half a billion more than last year. This is the largest in the last six years.

In that time more than 700 corporations have been able to pay up old, accumulated stocks. Nearly 800 have been able to pay extra dividends. In September alone the dividend payments were the largest paid out by the corporations since 1930.

The fate of individual industries is interesting. The banks are supposed to have been subjected to great hardship in lending out their idle funds to government borrowers at "shamefully" low interest rates. But this last month the banks declared a melon of seventy four million. This is just twice what it was last year.

In spite of strikes and contro-

versy the motor companies and the motor equipment companies paid out very much larger dividends than last year.

Of course the reason assigned for this will be that the corporation surplus tax forces companies to distribute their earnings. This may be true, but they could not distribute handsome earnings if they didn't have them.

It is at this moment of the highest earnings for corporations since the depression got under way that the stock market chooses to go into a decline.

Does this mean that corporation earnings are going to sag or even come to an end?

"Our police department apprehend at least ninety per cent of those suspected of crime and yet with 10,000 homicides in the United States per year we have only about 170 legal executions. At least 2,000 murderers should be executed in the United States every year," Dr. Richard N. Whitfield, assistant secretary and director of the Bureau of Vital Statistics of Mississippi.

Quotations

From the News

"His Chicago speech is perfectly logical and is a natural consequence of his pacifist activities and frank condemnation of imperialism."—Senor Ramon Beteta, Acting Foreign Secretary of Mexico commending President Roosevelt's recent Chicago address.

"It is hoped that positive measures will be devised soon to halt Japan's wanton violation of international treaties and elementary principles of justice and humanity."—Foreign Minister Wang Chun—hui.

"Losses to American ship operators and to American shippers the last two years from general and sporadic strikes of seamen and longshoremen are incalculable."—Newark Evening News.

"Some individuals are unhappy all of their lives because they rate second or third in the world of beauty. Others cultivate charm, personality or talent for entertainment in order to vie with easy winners of life's beauty contests."—Myrtle Meyer Eldred, noted beauty authority.

"It is a healthy sign for young persons to want to enlarge their lives by joining any club that will extend the range of their experience. And probably no club will so capably fulfill this ambition as a dramatic club."—Ruth Lang.

"Uncle Ted, former President Theodore Roosevelt, never quite recovered from the blow of being refused to raise a regiment or may be a division and lead it to Europe during the last war."—Mrs. F. D. Roosevelt.

"The President is just making out a blank check to Great Britain and the other so-called European democracies."—Quincy Howe.

"If we could get the American people to understand that Wall St. is really an extension of Main St. it would be better understood and there would be a better feeling."—Frank K. Houston, president of the New York State Bankers Association.

"That a man like Black should have come to join the Klan is one of those facts monstrously hard to grasp until you approach it not as a moral problem, but simply as a piece of political behaviour."—Max Lerner, editor of the Nation.

Post Office To Hire 150 During Xmas Season

Allotment Of \$8,967.23 Makes This Possible

Emergency funds for the hiring of extra help by the post office during the Christmas season will total \$8,967.23, it was announced this week.

The allotment, made by the federal post office to the local office will provide approximately 1440 full 10 hour days of work for temporary and substitute employees here, it was said.

Prospects are that nearly 150 men would be given work in the post office during the last 10 days of the Christmas season mail rush.

The Clairvoyant

by OJAY
Though he is not literary, he is indacious... J. G. Lockhart

You probably didn't have to read it here, in this column, that there are approximately 15,000 voters of Italian extraction in this city—enough to swing the tide of an election one way or another.

But since the next general election is so close to us, it is a point worth considering, especially if you happen to be one of this category of voters. You will find something of an annual phenomenon going on right now, in its usual amusing fashion.

I am referring to the declarations of friendship for Paterson's Italian-Americans which the politicians are making so fervently at this time. It is about this time of the year that Italian-Americans suddenly find out that every candidate on both tickets has suddenly blossomed out into a warm friend of his—something he never suspected from the actions of most of them during the earlier part of the year.

Their promises, for the greater part, are plentiful—just before election. But once they have been elected to office, these very warm pre-election manifestations of friendship have a convenient habit of vanishing.

For this reason, it is well for Italian-Americans in this city to consider carefully before they start to swallow in whole-hog fashion the fancy campaign speeches and ballyhoo which is coming their way at the present time.

There are, however, two candidates for the assembly, on the Democratic ticket, who not only have compiled impressive records during their service in the state legislature, but have earned the respect and support of Italian-American voters in this city by placing their avowed declarations in this direction, into action. During their terms in the service of the public, they have never let the Italian-American voters down.

The reference is to Assemblywoman Nan V. Donohue and to Assemblyman Gabriel C. Roberto, two candidates who have long since proven that they deserve the support of Italian-Americans of Passaic County.

NAN V. (Mrs. Leo J.) DONOHUE is a native of Paterson... has always lived here... a graduate of St. George's Grammar School, and Paterson Central High School...received her degree at New York University...upon graduation, entered business...now serving her seventh term as a school board commissioner of the board of education here...was president of that body in 1936-37...her brother, Andrew Kohns, was known as "Paterson's Youngest Soldier" after enlisting in the U. S. army during the World War...was gassed in the Meuse-Argonne fighting...Assemblywoman Nan is a state district deputy of the Catholic Daughters of America...also president of the Mayor's Club of Paterson...active in the Ancient Order of Hibernians...and the Order of Foresters of America...and in many women's civic clubs here...is also a housewife and a mother to Helen Mildred Donohue, her daughter.

GABRIEL C. ROBERTO, one of Paterson's own...attended Public School No. 10 here...also Paterson high school...and graduated from the Massachusetts College of Pharmacy...now a practicing pharmacist...is a member of B.P.O.E. No. 60...also of American Legion Post, No. 187...V. of F. W. No. 139...is president of Paterson's City Club...and a member of the Sons of Italy...Regia Marina society...Charles V. Duffy league...N. J. Pharmaceutical association and the Paterson Pharmaceutical association...his pharmacy is also

something of an employment agency...he has helped many who have come to him for aid.

Paterson's Italian-Americans can't go wrong on Gabe Roberto and Mrs. Donohue. They've proven their friendship in the past and deserve their support in the coming election.

"Russia may yet find herself with a mandate to stop Japan in the Far East. At least she may yet become the spearhead of the international effort to save China and maintain the balance of power in the western Pacific."

SWELL OFFICIATING

Were it not for the fact that the Paterson Panthers spared no expense in obtaining the finest referees and umpires available for their football games Sundays at Hinchliffe Stadium, there might very well be a completely different outcome of games at the Paterson field.

The men chosen to officiate at the Panthers' games are Paterson men, but when they are at work there is not the slightest trace of favoritism in their whistles. That is, of course, as it should be.

Thus, comes forth this gushing praise of Jack Lynch, Earl Gray and Bob Labralco.

Two weeks ago at the Shenandoah tussle, the ref and the ump and the head linesman were unanimous in their decision, each backing up the head linesman that Barnes' toss to Simmons taken over the goal line for what would have been sufficient points to give the Panthers a 15-9 lead, was ineligible. There was evident illegal use of the hands by Simmons in the play and the arbiters saw that the right decision was called.

Last Sunday night a long pass came floating through the air as the Panthers led over the Virginia Celtics by only 3-0. The ball carried off Red Mays' chest into Simmons waiting hands and Ozzie raced for a score. The play was called back as an incomplete forward, despite the muffled protest of Mays that a Celtic back had interfered with the pass and thus made it a free ball.

With decisions like these it must make the skeptical fan feel ashamed of himself for ever having harbored the thought that the Panthers put those men on the field because they expect the breaks. These officials play the game as well as the men on the field. There is no favoritism, despite the fact that the men are working on the home field of and are paid by the Panthers.

These officials are doing much toward establishing a reputation for the city of Paterson as a town where a visiting football team can be assured of a fair deal every time.

ALASKA HAS HOPE

Has Chance For New Air Base If Congress Okays The Funds

Hope was expressed by Anthony J. Dimond, Alaska's delegate to Congress, that the administration would recommend funds for a huge new air base in Alaska be included in the next military appropriation bill.

The base, Mr. Dimond said, probably would cost more than \$10,000,000 and would be equipped as the permanent station for 100 fighting planes.

He urged that Alaska, rather than Hawaii, be made the first line of defense in the Pacific, and said any attack on the United States from the Orient doubtless would come by way of the Aleutian Islands.

The clerical staff of the CIO attended last night's performance of "Brother's Rat" at the Newark Shubert.

HOW NEW YORK BUILDS THE "NATION'S FAIR"

NEW YORK (Special).—There in the piers of the overpass is grey granite from Massachusetts capped by "pearl black" granite from Minnesota and supporting structural steel from Pennsylvania. Beyond are the tests for steel fencing made in Illinois, which will set off a building comprising \$900,000 worth of materials from many states that has been erected on Douglas fir pilings (see them arriving, insert) grown in Oregon and Washington and

that has been surrounded by trees from New Jersey, Connecticut, Maryland, Pennsylvania and the home state. Note, in mid air, the rivet heated white with coke made in New Jersey from West Virginia coal. What states do not aid in clothing and feeding the tens of thousands of workers who will build the New York World's Fair of 1939! The Fair's Administration Building, shown here, is already occupied by a headquarters staff of 600 persons.

Jack Dempsey, Freddie Steele Will Be Panthers Ready At Diamond Gloves Bouts In Silk City For Tornadoes In Sunday Game

Excitement High As Fans Get One Of Best Matches Of Year—Pro Grid Title At Stake

The opening shot in the State Football championships will be sounded Sunday afternoon at Hinchliffe Stadium where the Paterson Panthers take on the touted Newark Tornadoes. The winner of this tussle may be the next pro grid champion.

A return meeting is scheduled for Sunday, November 21 in Newark, the only road game on the schedule of the Panthers this year.

Panther-Tornado games are always hot and the managers' excitement over players for both clubs is given as the cause for this rivalry.

The Tornadoes outfit is formerly the Orange Tornadoes organization now including in its lineup no less than five players who were with the 1936 Red Devils. Turk Schummal, Joe Demyanovich, Harry Bergkamp, Mike Adamo and Eddie Markowski are among them.

Fans feel the tension of a spirited clash Sunday and therefore attendance records may go by the boards.

Special practice sessions are being held by both clubs this week in view of the tussle. Coach Kirkleski is confident his men will emerge triumphant, but is prepared for a bitter fight.

over.

"All that is necessary is aggressive leadership," he said. "In spite of the fact that my own industry would suffer temporarily, I am personally sympathetic to the proposal because in the long run the silk industry would be better off."

Two of fistiana's greats, Jack Dempsey, the champion of champions and Freddie Steele, the mid-dleweight titleholder of the world will be guest referees at the Paterson Armory tomorrow night, when the third show in the 1937 Passaic County Diamond Gloves tournament is presented. This annual sock classic is sponsored by the Paterson Evening News A. A. and the Patrolmen's Benevolent Association, Local No. 1 of Paterson. Proceeds of the tournament are turned over to the charities fostered by the sponsors of the competition.

Dempsey, the erstwhile "Manassas Mauler" and, Steele known as the "Tacoma Thumper" are two of the most popular figures in modern day boxing. Both have promised Abe J. Greene, State Athletic Commissioner of New Jersey and Associate editor of the Paterson Evening News that they would be on hand tomorrow night.

Fifteen action studded bouts have been scheduled for presentation tomorrow night when the third Diamond Gloves show is staged. The feature of the mitt program is the initial presentation of bouts among the open class battlers, bringing together the more experienced fighters in the tournament.

Competition, featuring champions of past tournaments, will bring together sinner pure scrappers in the 126, 135, 147, and 160 pound classes. In addition bouts are expected to be staged in the seven novice classes.

Heading the list of favorites are Joe Wood of Al Diamond's Pompton Lakes team, the "most outstanding" battler of last year's tourney, Bob Miller of North Hale don, the only Golden Gloves champion from this immediate vicinity,

Bill Taylor of Paterson 1936 featherweight king and his brother, Bernie, last year's 118 pound novice king.

Wood leading the list of open class welterweights has as rivals John Capelk of Clifton, the defending champion in this class, Otto Schreib of Paterson and Earl Cook, the Clifton hot dog vendor, who lost to Jolter Joe last year and are out seeking revenge, Bob Rohloff of Paterson and Lloyd Pohlman of Little Falls.

The fights will get underway at 8:30 P. M. sharp tomorrow night after the raising of the colors. Official include Andy Watts and Ben Rothwell of Newark, referees: Al Cappio, Dave Welsh and Bill Donnelly, Paterson, judges: Sharkey Lev and Herb Draney, Paterson, timekeepers, Willie Gardner and "Shine" Fiorita, Paterson, club seconds; and Bill Hersinger, Nat M. Bluestein and Elmer "Duke" Leddy Paterson, announcers.

Tickets for the fights, may be secured from any Paterson policeman and may be reserved at the Paterson Evening News office, Paterson Police headquarters and at Whip Wagners Cafe, Market St., Paterson.

Holderman Favor Japanese Boycott

Expressing his belief that a plan to boycott Japanese raw silk in this country with an eye to curtailing Japan's military activities in China had a fifty fifty chance of being put into operation, Carl H. Holderman, New Jersey director of the Textile Workers' Organizing Committee of the CIO, expressed need of leadership to put the plan

Trade Goods Up, Is Non-Military

U. S. Chamber of Commerce In Analysis Of World Trade For First Half Of 1937

The United States Chamber of Commerce asserted that non military goods have set the pace in world trade expansion so far in this war troubled year. Analyzing American trade statistics for the first half of 1937, the chamber said:—

"At a time when the world political situation is seriously disturbed in more than one area, the tendency of observers is to seek United States export increases in certain classes of rearmaments and other allied products.

"While such increases are to be traced in some of the half year's figures, it is to be pointed out that in the much greater number of non affected products and non affected areas trade improvement in substantial degree has been generally recorded."

CIVIL SERVICE EXAMS LISTED

The United States Civil Service Commission has announced open competitive examinations as follows:

Associate geophysicist, \$3,200 a year, and assistant geophysicist, \$2,600 a year.

Special agricultural economic writer, \$3,800 a year, Bureau of Agricultural Economics.

Cottonseed technologist, \$3,800 a year, Bureau of Agricultural Economics.

Full information may be obtained from Daniel M. McArdle, secretary of the U. S. Civil Service Board of Examiners, at the post office, Passaic.

URGES WAGE LAW PASSED

Textile Makers Asks U. S. To Fix Base Wage To Wipe Out All Substandard Competition

Fred W. Steele, legislative chairman of the National Association of Cotton Manufacturers urged establishment of uniform minimum wage scales on a nationwide basis.

He said his proposal, wiping out the present regional differential would work no hardship on any section.

"It will force the chiseler into one line and will increase the purchasing power of the low wage areas", he added. "It will eliminate

the sub-standard wage scale as a competitive factor in the market place."

Other industries than cotton, he said, have become aware that standard wage scales in other areas can more than offset manufacturing efficiency or skill in marketing.

Russell Fisher, secretary of the association, asserted the United States tariff structure, "which has been reasonably adequate in protecting us from imports from England and Eastern Europe, completely falls down when competition originates in the Far East, where the coolie standard of wage exists."

WILL DINE CANDIDATES

The annual reception and luncheon to the Republican candidates running for county and state offices will be held by the Passaic County Council of Republican Women Wednesday, October 20, at the Alexander Hamilton Hotel, Paterson.

Mrs. Elsa H. Flower is general chairman, assisted by the following committee chairmen. Mrs. Jennie Harvey, tickets: Mrs. Josephine Clark, decorations. All presidents of Republican clubs through out the County make up the reception committee.

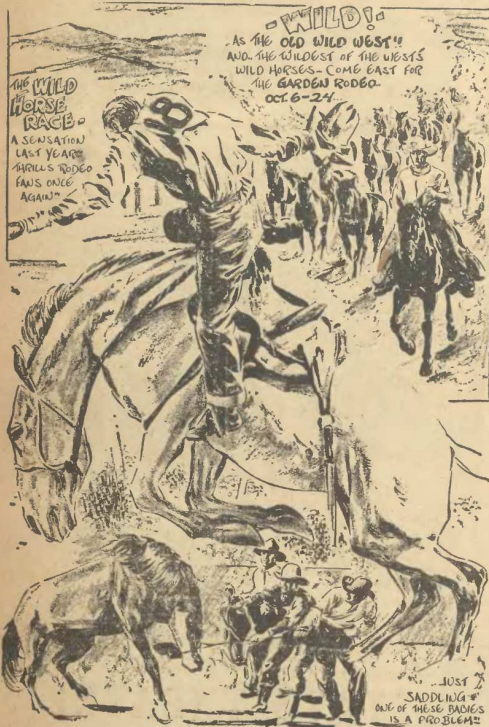

HARDWARE VOLUME UP

Is Fifteen Per Cent Above Mark Set In Business In 1936

Autumnal weather's advent benefited local hardware sales to the extent that September volume ranged from 10 to 15 per cent above a year ago, Hardware Age stated.

Some shortage of supply is developing in stove and stove furnishings. Wholesalers observe an improvement in buying from rural communities, said the trade magazine.

Mustangs Make Life Uncertain For Cowboys In Garden Rodeo

THE wild horse race introduced into the World's Championship Rodeo last year in Madison Square Garden, New York, provided so many thrills for rodeo fans that it has been included again this year in the series of contests which run from October 6 to October 24, inclusive. This spectacular event will provide a fast and furious finale for each of the night performances and the matinees on Saturdays, Sundays and Columbus Day.

Last fall the swift action of the wild horse race brought the audience to its feet at every performance. Nine wild mustangs were driven into the chutes for each race. At a signal from one of the judges all nine were turned into the arena, kicking, rearing and snorting their defiance. From that time on anything was liable to happen and it usually did.

The cowboys, in teams of three to each horse, attempted to saddle the mustangs in the arena. As the mustangs had never felt the touch of leather before it was a fierce struggle from the start. Sometimes a team would draw such a mean horse that they could not saddle him in the allotted time, much less ride him. The rules provide that the first cowboy to mount his mustang after it has been saddled by him and his team mates and ride

it across the finish line at the other end of the arena wins first money.

Until that happens, however, the air is full of cowboys and fighting, plunging horses. The mustangs resort to an astounding number of tricks to outwit the riders, some of the maven rolling about on the ground in an effort to get rid of the saddle. There is so much excitement every second of a wild horse race that the rodeo patrons cheer and yell with all the enthusiasm of a crowd watching horses race at a racetrack.

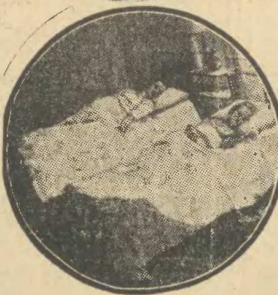

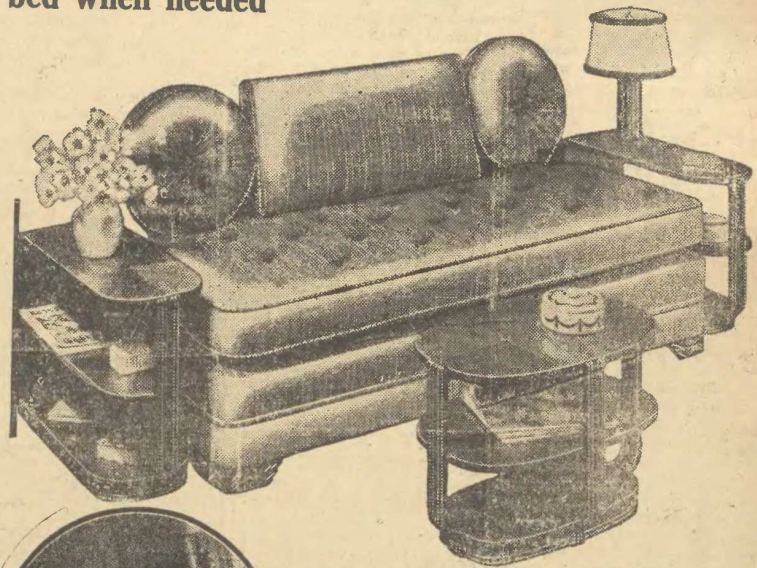

The job of catching these wild mustangs and bringing them to New York is almost as thrilling as the races themselves. This year cowboys were sent into the rough, open country of eastern Oregon and Idaho where wild horses still roam free. They trailed and trapped small herds of the wild mustangs. The sturdiest specimens were selected and shipped across the country to New York. In the Garden they will provide one of the most dangerous of the long series of Western contests in which more than 200 cowboys and cowgirls will compete for \$40,000 in prize money. Other events will include cowboys bronk riding, steer wrestling, calf roping, trick and fancy riding, cowgirls' bronk riding and a wild cow milking contest.

THEATRICAL NEWS

Geo. Murphy In Garden Feature

With effective restraint that more nearly resembles newspaper life than any recent picture, Metro Goldwyn Mayer brings to the Garden Theatre, a picture called "The Women Men Marry". It is a story of newspaper adventure and romance without any exaggeration, completely in the new technique that is producing better pictures every year. Michael Fessler, a former Pacific Coast reporter was the producer. That may be the reason for its accuracy and lack of exaggeration. George Murphy, former Broadway dancer, is the star reporter and a good one. Josephine Hutchinson has the girl reporter role and Cliff Edwards, known on Broadway as "Ukulele Ike" is a news cameraman.

A midshipman, who endeavors to uphold the traditions of the U. S. Naval Academy, and a cadet who scoffs at them, clash with each other until the love of the same girl brings about a series of adventures which eventually seal them in friendship, according to the dramatic story of "Annapolis Salute" romantic dramatic which is also showing at the Garden.

Gal, Gag Show At U. S. Theater

"This Way, Please", a smash musical comedy which goes to the head of the class among Paramount's successes for the year will come to the screen of the U. S. Theatre tomorrow, with "Bad Guy" starring Bruce Cabot as the co-feature.

"This Way, Please", marks the screen debut of Mary Livingstone, Jack Benny's Mary, to be exact, whose infectious laugh has endeared her to millions of radio fans these several years. It also brings to its cast Charles "Buddy" Rogers more romantically known to his public as Mary Pickford's "Buddy" and vivacious Betty Grable, as well as the sour pussed comedian, Ned Sparks, Lee Bowman and a chorus of very lovely lovelies trained by Leroy Prinz for the stage dance routines.

The co-feature, "Bad Guy" deals dramatically with the deeds and misdeeds of daredevil pole climbers who live dangerously and love recklessly. It features Bruce Cabot and Virginia Grey, also Cliff Edwards in the leads.

The Cabin Kids At The Majestic

If one likes good, clean fast-moving vaudeville and picture entertainment, the place to get it is at the Majestic theater in Paterson for their Managers Louis Ginsburg and Jack Ginsberg are offering for their patrons one of the best 5 act double feature bills obtainable anywhere for the money expended.

In the current show which starts tomorrow and continues until Monday evening the featured stage attraction will be "The Five Cabin Kids". Considerable could be writ-

ten about these lovable youngsters who have been seen with W. C. Fields and Bing Crosby in the screen sensation, "Mississippi" and who have also been heard over the air waves as guest stars of the Rudy Valle and Paul Whiteman radio shows, as well as in a number of screen shorts.

The Cabin Kids are made up of two boys and three girls. The time of their act, which is a knock about singing and comedy bit, in the attraction they indulge in cross fire comedy chatter, sing hot and special numbers in harmonic ensemble form, and one little lad does a solo.

The films on the same program are "The Three Legionnaires" and "Cherokee Strip".

Bank nites are offered at the Majestic on Tuesdays and Fridays evenings, and on Thursday nights Amateur Night are featured.

"Dead End" At Fabian Theater

As a Broadway stage play "Dead End" was a smash hit. Later it was cheered from Coast to Coast. Tomorrow Samuel Goldwyn's great motion picture based on the powerful Sidney Kingsley drama of life in a city street opens at the Fabian with Sylvia Sidney and Joel McCrea heading an impressive cast and Hollywood may well be proud of the magnificent production this great showman has turned out.

Sylvia Sidney gives her greatest performance as Drina, the little slum girl who fights a valiant but losing battle to save her small motherless brother, Tommy from the gangster's fate, she has seen the slum mete out to so many of its sons. Joel McCrea is grand as Dave the penniless young architect she loves and who, in turn, is loved by Kay (Wendy Barrie), the girl who has found a dubious route out of the slum into a penthouse in the fashionable apartment next door.

As for the celebrated Dead End kids from the original New York cast, their perfection as the tough, brawling babes of the slum defies description. They must be seen and heard.

The co-feature on the same bill is "Forty Naughty Girls".

"Madame X" To Be Given At Lazzara Hall Sunday, At Two Performances

Famous Play Stars Mimi Aguglia
—Modern Lazzara's Attracts
Many Italian Theatregoers

"Madame X", a famous drama which thrilled theatregoers on Broadway for many seasons and which is now being made into a talkie in Hollywood with Grace George in the starring role, will be portrayed by a company of Italian players, headed by the celebrated artist, Mimi Aguglia, at Lazzara's Hall Sunday, in an afternoon and evening performance.

The modern version of the drama will be presented in five acts. Miss Aguglia will be supported by many fine players.

George Seogiamiglio, manager of Lazzara's Hall, is confident that the Italian residents of this area will appreciate his efforts to bring only the finest of plays to the Paterson stage.

At the last two Sunday performances, record breaking attendances attested to the popularity of the shows.

Lazzara's Hall has been transformed into one of the most modern auditoriums in this section.

Amateur Show On State Stage

The State Theatre on Van Houten street, will present another "Amateur Contest" on the stage this Sunday matinee with local amateurs performing for the three cash prizes. In addition to the amateurs, Tom Edwards and his radio orchestra will present a program of "swing music" featuring Marie Russo, vocalist.

In addition to the stage presentation, two features will be shown
