3 Cents a Copy

The Clairvoyant

By OJAY

IS IT TRUE that Counsellor Ben Jamin J. Spitz received in the neighborhood of \$30,000 for legal fees and costs in connection with the liquidation of the Merchants and Security Trust Companies? Counsellor Peter Hofstra, who has been counsel to Commissioner Withers of the State Department of Banking and Insurance, has been allowed about \$25,000. Lawyer William W. Evans, Colonel Edward T. Moore and former Judge Peter N. Perretti have also served as counsel to Withers in addition to Spitz and Hofstra. When the sum total of the fees awarded counsel for the commissioner, together with the allowance to Withers, are counted, the amount will undoubtedly exceed \$100,000.

Is there something to the report that Paterson's part time \$7,500 consultant to the Industrial Relations Commission is considering a similar post in Johnstown, N. Y? Swan, a resident of Upper Montclair, has served on the commission since September 1936.

THAT CRACK MADE by Advisory Master John Matthews at the Bernie Stafford dinner Saturday evening was not meant for Mayor John Hinchliffe, but it will take a long time to convince some people that it wasn't. Mayor Elect Stafford showed his devotion and unselfishness to the citizens of this city when he kicked in with a \$250 check given him as a gift. The needy families of the city will benefit therefrom, no doubt. Sheriff John A. Gavin, incidentally, proved to be the best toastmaster at the largest dinner ever held in the Alexander Hamilton Hotel. The sheriff certainly handled himself well and everyone was proud of his work in carrying out the program. The old excuse of not being invited to a dinner was sprung by Mayor Hinchliffe for not attending the Stafford dinner. Not one person was invited. Everyone laid it on the line.

The John McCutcheon league is still a deciding factor in the Republican ranks. The women's division never ducks or quits fighting. McCutcheon, himself, has a large personal following which would like to see him run for Congress or the State Senate in the near future.

FORMER PROSECUTOR Nicholas O. Beery, who campaigned for Mayor-Elect Stafford, while a member of the Central Republican club, may not be suspended by the G. O. P. organization after all. As a matter of fact, friends in the organization are planning to run him for president. As long as Abe Kamelring stay in Florida, he has nothing to fear for none of the other members will take steps to oust him.

(continued on page 5)

TRIO HELD IN DIVORCE CASE PLOT

Had Attempted to "Frame" Local Man's Wife

ALL PUBLIC OFFICIALS

Police were holding Justice of the Peace Joseph Scalzitti, 27, of 94 Marcellus avenue, West Paterson, Constable Gus Cusick, 33, of 314 West First street, Clifton and Special Investigator James Galardi of Hawthorne on charges of conspiracy to obtain a divorce this week.

The trio is charged with having aided Nicholas Cokinos of 98 North Third street, Paterson in an attempt to "frame" the latter's wife, Mary Cokinos, in order that he might obtain a divorce.

"This is one of the most despicable cases that has come under our observation," a statement from the prosecutor's office read. "For a few paltry dollars, men holding responsible, official positions are willing to despoil the reputation of law abiding citizens and besmirch the administration of justice in this county."

18 Local Men Candidates For Inspectorships

Eighteen Paterson men began a training period today to qualify as motor vehicle inspectors under Motor Vehicle Commissioner Arthur W. Magee.

They were William C. Kummer, Louis J. Lefevre, James Johnson, Seldon L. Randall, William Waibel, John V. Stouter, Croom V. Stancill, Elbert Basley, Donald Robertson, Arthur J. Benz, William H. Buckley, Jesse H. Casperson, Herman Fishbein, James Clark, John R. Rait, Ellis B. Karpas, Charles A. Merand and George Roefner.

Before the men can successfully qualify for the posts, civil service approval must be obtained. Initial pay is \$1500 annually. They will handle compulsory automobile inspection here.

Board Fills 2 County Posts

The board of freeholders yesterday filled two vacancies on county commissions.

It named Miss Mary E. Majkowski of 72 Graham avenue, Paterson, a member of the Passaic County Welfare Commission, and Frank A. Himeschoot of Hawthorne a director of the Board of Managers of the Valley View Sanatorium.

Miss Majkowski succeeds Mrs. Anna Hutton of Pompton Lakes in the welfare post, while Mr. Himeschoot replaces Mrs. Helen Romano of Paterson on the Valley View body. The appointments are for five years each.

IT'S GETTING CROWDED

Trueman Joins Ranks Of County Employees Asking Back Pay

Add the name of County Detective James Trueman to the list of present and former county officeholders, who have instituted suit or filed claims for the recovery of salary slashes instituted during the depression in the interests of economy.

Trueman filed a demand for back pay amounting to \$2,000 with Freeholder Clerk Stanley Burgess this week.

MOST REV. McLAUGHLIN NEW BISHOP

Is Appointed First Head Of New Paterson Diocese

FORMERLY NEWARK AIDE

The newly created diocese at Paterson will be headed by the Most Rev. Thomas H. McLaughlin, D. D. as first bishop, it was announced today by the Apostolic delegate in Washington.

The Most Reverend Bishop McLaughlin served as auxiliary bishop of Newark until his appointment was announced today. He was born in New York City July 15, 1881 and received his early education there.

He has studied at the College of St. Francis Xavier in New York, the Imperial Royal College at Innsbruck, Austria where he was ordained as a priest. His first post in the United States was at the St. Michael's Church, Jersey City. He will have three counties under his guidance in his new position.

BEWARE OF FRAUD

Paterson's Lodge of Elks warned citizens today to beware of a man who was fraudulently soliciting funds for the lodge's Crippled Kids' Committee this week.

Labor Group Backs Bill Calling For Pre-Marital Medical Tests

Labor's Non-Partisan League went on record this week in favor of pre-marital medical examinations. As a result, it will throw its full strength behind any measure providing that applicants for marriage licenses undergo a medical examination.

The group, however, insisted upon a provision of free clinical examinations for those who cannot afford the expense of a private medical service.

Asks Free Clinics

"We realize that the enactment of such a law will help control the spread of venereal diseases," declared Carl Holderman, state chairman "but we realize also that the work of the unemployed of the state can ill afford to pay for additional medical examinations."

NEGRO YOUTH, 19, CHAIN GANG FUGITIVE, FIGHTING EXTRADITION PROCEEDINGS

South Carolina Authorities Seek Local Man On Old Charge

EMPLOYER BACKS HIM

Paterson had a fugitive from a chain gang in its midst this week. Free On Bail

He is Fleming Mix, 19 year old

ORDERS HEARING

Governor Harold G. Hoffman stated today that he would not permit the extradition of Fleming Mix 19-year old negro youth who is a fugitive from a South Carolina chain gang, without a hearing.

The governor indicated that the hearing would be held between January 6 and 10.

Negro, who was released on \$5,000 bail by Recorder Vincent C. Duffy Tuesday to await hearing on ex-

tradition proceedings being brought by South Carolina authorities.

Mix escaped from a South Carolina chain gang four years ago after serving less than one year of a 10 year term which had been inflicted upon him on a charge of an alleged criminal attack upon a small Negro girl.

Unfair Trial?

The youth, however, claims that the charge was made as the result of a family feud, and that he was sentenced without a fair trial for an offense which he did not commit. He was but 15 years old at the time.

A resident of Paterson for the last four years, Mix has been in the employ of Herbert Roessler, Clifton truckman. It was Roessler who furnished bail for him and who has retained counsel to represent him at extradition hearings before Governor Hoffman in Trenton.

Highest Court To Hear Appeal Against S.U.M.

The city of Paterson's suit to have the ancient charter of the Society for Useful Manufacturers declared void, will reach the state's highest court.

Former City Attorney Charles H. Roemer, who has been delegated to carry the appeal Tuesday filed a notice of argument before the Court of Errors and Appeals in Trenton in the name of Attorney General Wilentz. The latter maintains that a previous ruling upholding the charter was erroneous.

Paterson has long sought to free itself from the S. U. M. which enjoys a tax free career in this city as a result of a charter obtained in 1791 through the influence of Alexander Hamilton.

Board's Move Seen Halting Renclark Suit

A resolution prohibiting the installation of parking meters in front of the property of the Renclark Realty company at 51-57 Clark street was passed by the board of works Tuesday.

The move was interpreted as a means for voiding a proposed suit on the part of the realty company to have the Karjark meter contract recently signed by the city declared invalid. The case is set for Saturday in Trenton.

By preventing the installation of parking meters on the Renclark property, the latter would have no grounds for bringing the suit since its property would not be affected.

Woman Routs Hold Up Girl

One burglar made a successful haul of \$21 while another was frightened away by quick thinking of a Paterson housewife yesterday.

Rosario Genai, of 331 Twenty First avenue, reported to police that cash and jewelry totalling \$21 in value were stolen from his home yesterday afternoon.

Mrs. William McCorry, of 382 Main street, wife of a Paterson fireman, told police she had frightened away a girl bandit in her home. Answering the ring of her door bell yesterday afternoon, she was confronted by a young woman with a pistol who ordered her to throw up her hands.

Reacting quickly, Mrs. McCorry slammed the door in the woman's face. The latter fled before police could be summoned.

Despite Presidential Economy Plans, There'll Be 350,000 New W.P.A. Jobs

Proposed Expansion, Higher Than Estimated, Will Cost Gov't. \$23,000,000 Monthly

WPA spending will be expanded by \$23,000,000 a month despite Presidential economy plans, increased unemployment being explained as the reason for the action. Employment rolls in the WPA, now totaling 1,575,000 persons, will be enlarged to provide jobs for an additional 350,000 persons.

The announcement was made by Administrator Harry L. Hopkins recently before he left for a physical checkup at the Mayo Clinic, Rochester, Minn.

The proposed expansion was reported to be slightly higher than earlier WPA estimates of the Winter's relief peak, but Hopkins said it could be handled within his budget.

For the year ending next June 30 WPA has been allotted \$1,275,000,000. It has been spending about \$100,000,000 a month and has \$775,000,000 left. The increased expenditure

can be carried on for a while within that appropriation.

Hopkins declared there was no implication in his announcement as to the number of people who should be employed this Winter. He said he was not considering at this time any request for additional funds.

"I simply say that on the basis of the realities of the present situation," Hopkins added, "we think the requirements of the relief problem so far as employable people are concerned indicate we should increase our number by 350,000."

Balancing Supply Demand Crop Aim

Gigantic Attempt Being Made To Balance System For Five Of Our Major Crops

A gigantic attempt to balance supply with demand for five major crops, corn, wheat, cotton, tobacco and rice, appears to be the underlying theme of the "ever-normal granary" system now being debated in Congress.

Broadly, the program would estimate how much of each product is required and would attempt to divide the acreage needed to grow this amount among states, counties and individual farmers.

Whenever supplies of these products appeared large or prices slid downward, farmers could obtain government loans and store the crops, instead of selling them.

Advocates of the program say this would provide an "ever normal granary," or constant supply of grain, from year to year.

Both the Senate and House bills follow this general outline. They also provide machinery to clamp down rigid control over what the farmer markets, if stored supplies become excessive.

BUY CHRISTMAS SEALS

Old, New Tube Tolls The Same

Geo. Washington Bridge, Holland And Lincoln Tunnel Fee Fifty Cents, Port Authority Says

Identical toll charges will be made for the George Washington Bridge, Holland and Lincoln Tunnels, when the latter opens next week. Port of New York Authority heads announced.

However, reduced combination tickets will be sold permitting the use of any of the three Hudson River crossings in conjunction with either of the three Staten Island bridges. Trucks of more than five tons gross or with upgrade minimum speeds of less than 20 miles per hour will not be allowed to use the new Lincoln Tunnel. There will be no facilities for pedestrian travel.

T.B. Threatens Young Women

Leading Statistician States Latest Facts On This Serious Situation

"Leading tuberculosis authorities call tuberculosis the foe of youth," says Miss Jessamine S. Whitney, statistician of the National Tuberculosis, "but I go even further and call it the foe of girls and young women. Why? Because the deaths from tuberculosis among them are one and one-half times as many as those among their brothers of the same age."

The death rate from tuberculosis has been cut to less than one-third of what it was thirty years ago when it was the leading cause of death. Yet when we analyze these deaths we find that tuberculosis is still the leading cause of death for men and women between 15 and 45 years of age and we also find that among young women between 15 and 30 one in every four deaths is from this highly contagious disease.

Miss Whitney in answering why tuberculosis is twice as prevalent among young women as among young men says, "No one knows. Today it is an outstanding mystery in public health."

In an attempt to solve this mystery the National Tuberculosis Association made a careful study of the life histories of all girls between 15 and 25 who died from tubercu-

losis in a single year in Detroit and in New York City. Industrialization did not affect their health because 35 per cent had never been employed outside their homes and 20 per cent had been employed less than a year. Dieting, clothing habits, their educational levels were all discarded as clues to the mystery. A recent study of one of the New York City tuberculosis clinics did show, however, that the young women who lived in homes where there was a person sick with tuberculosis were very remiss in getting proper examination of themselves.

"Every case of tuberculosis comes from another," Miss Whitney further says.

The 1937 Christmas Seal on sale in December to support the educational campaign of national, state and local tuberculosis associations.

periodic physical examinations. If we can catch the disease early we can nearly always cure it. Do this," concludes Miss Whitney, "and we tuberculosis statisticians can all go out of business. This public health mystery will have solved itself."

STATE WATER SUPPLY WILL BE SURVEYED

Project To Determine Possibility Of Linking System If Needed —Ely Says WPA OK Made

With the Federal government and the State Water Policy Commission contributing toward financing, a statewide project for the study of water supplies will be undertaken as a WPA project, according to State Administrator William H. J. Ely. The Federal government will provide \$13,737 and the Commission \$6,650. The commission is the sponsor of the project.

A technical staff of nine persons and a field staff of 23 will be employed on the project which is expected to take six months. H. T. Critchlow, engineer for the Water Policy Commission, will supervise the survey.

Ely described the project as follows:

"Specifically, the WPA project sponsored by the water policy commission, proposes to make an immediate survey of public water systems in the metropolitan area to determine the possibility of inter-connecting existing systems and thus assure adequate supply in periods of emergency which might otherwise curtail the supply available in certain portions of the area."

One of the first steps proposed is determination of the methods of distributing surpluses from the large Wanauke Reservoir in Passaic County to municipalities in Bergen County now served by an adequate artesian wells. Orange, West Orange, Irvington and other suburbs of Essex County, according to commission estimates, also could be supplied.

MEAT PRICES TAKE A DROP

Agriculture Department Reports First Real Decline In Past 6 Months In State

The State Department of Agriculture reported the first appreciable drop in meat costs since prices began to soar in early Summer.

The average prices of beef and beef products in November were 9 per cent less than in October, and the average cost of all meats was 6.87 per cent lower. Lamb and poultry products rose slightly.

The buyer paid on the average 30.5 cents a pound for chuck roast, three cents less than in October; 42 cents for rib roast, a five cent drop; 48 cents for round steak. A six and one half cent drop: 51 cents for sirloin steak, a seven and one half cent drop.

Eighty three principal food articles, the department said, averaged 3.29 per cent, cheaper than in October, but were 1.29 per cent above last year's prices and 25 per cent higher than five years ago.

Fresh fruits and vegetables cost 2 per cent more, the report said, because of a shortage supply. Butter, at 44.5 cents a pound, was three and one fourth cents higher while milk remained unchanged. Canned fish, beverages and chocolate were also more costly.

Poultry-Raising Becomes Second Ranking Agricultural "Industry"

Once Sideline For Farmer Or His Wife, Now State Raises 7 Chickens A Year

Poultry raising—once a sideline for general farmers or their wives—is now a big business in New Jersey. In fact, it's the second ranking agricultural industry in the state.

State poultrymen now boast an annual output of nearly 7,000,000 chickens and 20,000,000 baby chicks. Statisticians expect poultrymen to gross about \$24,000,000 this year, compared with \$26,500,000 for the front ranking milk producers.

Change and progress have been rapid during the last quarter century, with agents of the State Agricultural Extension Service—salesmen of science they are—carrying to the farmers results of research by the U. S. Department of Agriculture and New Jersey Agricultural Experiment Station.

The backyard flock of 1912 has

Room For 10,000 New Men On WPA

New Jersey can provide for an additional 10,000 persons on WPA jobs, under provision of a raised quota from Washington, according to William H. J. Ely, State WPA Administrator.

Ely urged municipalities to design projects on which they would maintain a 20 per cent, average in contributions and which could be started by January 15.

Terminating the arrangement an emergency one, Ely said projects providing jobs for unskilled labor would be considered first because a large enlistment of skilled workers, he said, would absorb the additional funds without providing the number of jobs required, virtually disappeared. In its place

is the large commercial flock, housed in modern, electrically lighted houses, managed by experts. A flock of 1,000 chickens was a rarity 25 years ago: a 10,000 to 12,000 bird flock is not uncommon today.

The setting hen has gone too. In her place is the electric incubator. Electric brooders are gradually replacing the old time brooder house. Artificial insemination is a new development. Poultry tattooing, developed a few years ago by New Jersey state police and pushed by country agents, is another sign of the transition. Its widespread adoption has virtually ended professional poultry thievery.

FRANK BENTI IS RE-ELECTED

Frank J. Benti was re-elected president of the Passaic Local No. 1932, of the Federation of Dyers, Finishers, Printers and Bleachers of America, affiliated with the CIO, at a meeting held at Moose Hall, Saturday.

For the office of Secretary and treasurer, Louis Vespaziani, was unopposed. He has held that office for five years, at which time the Local was organized.

Benti's re-election was for a fifth term, and he defeated Carmen Bell, 39% to 29.

In another contest, John Condron defeated James Ferruzzo for the office of vice-president.

NO PAY FOR JERSEY IDLE WHO ARE ILL AND JOBLESS

UCC Officials Say Same Ruling In Jersey Will Apply As Now Prevails In New York State

Based on the same legal provisions applying in New York state, New Jersey jobless workers who are ill will not be eligible for unemployment compensation benefits according to a spokesman of the commission.

One of the major requirements of eligibility for benefits in the New Jersey law, paragraph C of Section 4, provides benefits if "the (the applicant) is able to work and is available for work."

While no official ruling has been made, UCC spokesmen declared the New Jersey law, as it stands, clearly bars sick persons from benefits, New Jersey under the present law will not pay benefits until January 1, 1939.

Beliefs here among UCC officials is that separate sickness insurance may be proposed by the Federal Social Security Board. Under the present system, officials say, there is a question whether the state reserve would be sufficient to pay unemployed workers able to work as well as those incapacitated by illness. As the law stands now any jobless worker receiving benefits would become ineligible as soon as sickness made it impossible for him to accept employment if offered.

COLD WEATHER BUILDERS ARE GIVEN ADVICE

**Exterior Painting Above 40 Degrees
Backpaint Interior Millwork,
Other Hints By FHA**

Now that the cold weather is here, seasonal precautions are being suggested to builders by the Federal Housing Administration. Mr. Thomas E. Colleton, state FHA director, has had prepared by his architectural department a comprehensive set of suggestions, the principal ones of which are listed below:

Exterior painting should be done during fair weather and only when the temperature is above 40 degrees F. It is advisable to backpaint all interior millwork which is installed in contact with plaster or masonry. Heat should be maintained at 70 degrees F. or more during the painting to insure continued drying.

In regard to plastering, it is urged that the builder maintain heat in the dwelling continuously during the plastering and there after until the plaster is thoroughly dry. The temperature should not be too high, slightly above 60 degrees F. is best to insure slow drying. Keep well ventilated during the drying process: cover all exterior openings with muslin to eliminate drafts.

Pre-heat the aggregates and the war used in the mix. Pour concrete immediately and then protect by covering with straw and tarpaulins or waterproof paper. Never pour concrete in trenches when the bottoms of the trenches are frozen but make certain beforehand that the ground is completely thawed out.

The following is a reliable method for testing concrete to see if it is frozen: Apply heat to the surface by means of a blow torch

or by pouring hot water on the surface. Frozen concrete will soften as it thaws out, if properly hardened, it will not be affected by the application of heat.

LABOR LEAGUE ASKS SENATE HUDSON PROBE

A request that it "investigate oppressive attacks on Labor" by May or Frank Hague of Jersey City was sent the LaFollette Civil Liberties Committee by Labor's Anti-Injunction League of New Jersey.

In response to a similar demand by William J. Carney, C. I. O. director in New Jersey, recently Senator La Follette asked Carney to submit evidence in support of his charges that Jersey City police denied civil rights.

In a resolution adopted at its first annual convention yesterday, the league termed Hague "a ruthless dictator and political demagogue" and said he had "usurped the workers' rights of free speech and free assembly."

In Jersey City, meanwhile, Hague issued a statement declaring there would be "no surrender" to Communist and "radical" groups which he said were the "moving spirits" behind attacks against him by C. I. O. unions.

Saying he would "expose prominent radicals" attacking him, Hague charged that Morris L. Ernest of New York, a C. I. O. attorney, was "the chief lieutenant of Roger N. Baldwin, one of the outstanding Communist leaders in this country."

Hague said Ernest was "active in conferring with and advising the 26 members of Congress who directed an attack upon Jersey City and its Mayor." In a letter last week the representatives asked Hague for a report on his "interference" with labor activities, and the Mayor replied: "everything is under control."

Hague's statement charged that Ernest was "actively affiliated" with a number of "radical groups" which a report of the Congressional Committee to investigate Communist Propaganda and Elizabeth Dilling's "The Red Network" linked with Communism.

Drunk Deaths Increase 116%

93 Drunk Drivers Deaths In 10 Months Of This Year Compared To 43 In 1936 Period

If Prohibition should return, and there are many who believe the day is not far distant, automobile drivers (at least a goodly number of them) can take part of the credit.

This is the opinion of Motor Vehicle Commissioner Arthur W. Magee expressed today in a statement citing the death of 93 persons during the first ten months of the year in traffic accidents involving operators under the influence of alcohol. The deaths compared with 43 in the corresponding months of last year, an increase of 116 per cent.

October was the worst month on record for deaths due to drinking drivers, eighteen persons having lost their lives in New Jersey from this cause.

"Conditions are such that it is getting to be doubly dangerous for a sober driver to take his car out after dark," said the Commissioner explaining that most of the drunk driving accidents occurs between 6 P. M. and 6 A. M. "Night driving is hazardous enough without adding to it the danger of drivers made mentally and physically abnormal through indulgence in liquor."

The situation however, is not hopeless. It would be extremely helpful if all magistrates would recognize existing conditions and impose jail sentences instead of the customary \$200 fine on first offenders.

A better idea of the seriousness of the drinking driver problem is seen in the fact that in the first ten months of the year, 1937, twenty persons were killed in accidents caused by drinking drivers. The following year the toll jumped to 29: in 1935 to 37; 43 last year and 93 already this year.

COUNTY CLERK MARSH WILL BE DINED ON JANUARY 12th

County Clerk Lloyd B. Marsh will be honored by Republicans of Passaic County at a testimonial dinner in the Alexander Hamilton Hotel, Paterson, Wednesday evening, January 12.

Sponsored by the Paterson, Passaic, Clifton and Hawthorne divisions of the Passaic County Republican League, the affair is in recognition of the November election victory under the Marsh leadership. The County G. O. P. leader because of the key position he held in the last campaign, is now regarded as

TAKE THIS TIP

This Organization Tells You How To Make A Faster Getaway

An organization which has done perhaps more research than any other on the subject of driving, offers a tip on driving so that you will start in high gear on a pavement made slippery by ice. To quote the organization's exact words:

"When starting on slippery ice or snow using high gear in harmless and it does help to avoid spinning wheels, side slipping and difficulty in getting under way. You may be surprised to find out how much more quickly you get started. Only remember to engage the clutch very slowly."

among the outstanding Republican leaders of the State.

Herman Schulting, Jr. City Republican leader, has been named a member of the general committee which is arranging the testimonial. Passaic is expected to play a prominent part in the tribute to the County Clerk. Others serving on the general committee are William Furrey, Max Weberman and Deputy County Clerk Floyd Jones, Paterson; Wilbur Stevens, Clifton Republican leader and Raymond W. Rhodes, G. O. P. leader in Hawthorne.

Guest speakers will include some of the most prominent Republicans in the State.

WHAT'S IT NOW?

It seems that whenever the Republican State Committee gets together, some new-fangled idea makes its appearance. Now, it's a new schedule for the primary election.

It all began with a September primary, shifted to June, went back to May, was advanced to September and now, the committee's committee on legislation urges restoration of a Spring primary. New Jersey's primary date is unsettled and for all we know, it may never be. The voters who participate in the primary are unconcerned.

The committee is fearful that the party has not enough time to patch broken fences in the primary fracas between September and early November. Six weeks, they report, is quite too short for such an important and laborious task. Sometimes, six years is hardly enough time for this job.

May is too early, June too near vacation, July and August too hot, September too close to general election. January, February and March are at present hot favorites.

TRAGEDY IN DECEMBER

Let us heed the warning issued by Motor Vehicle Commissioner Magee that tragedy stalks the roadways to a greater degree in December than in any other month of the year. This grim story, though inexplicable, is written in the records and throws a discordant note on this festive season.

Pedestrians, as well as motorist, are warned that 40 per cent of the auto fatalities the year around pertain to their class. With shorter daylight and crowded streets, the hazards are naturally increased. Everybody should watch his step, whether pressing the pavement or stepping on the gas.

THE FUTURE

According to the records of the United States Patent Office in Washington, the number of patents issued yearly is steadily increasing. This has been particularly true in recent years as new industrial research laboratories have been developed and the search for new living conveniences has been stimulated.

What social effects will come from the inventions of future years? The changes resulting from past industrial inventions, such as the telephone, automobile, the airplane, the motion picture, rayon and the radio, make us believe wonders have not yet ceased. Those six major industries were developed during the first third of the current century.

We have just begun to scratch the surface, according to scientists. Imagine, then the future standard of living as they will be enhanced by another half-dozen new industries and the thousands of new jobs that will be created—within the very near future.

HAVE AN IDEA? DEVELOP IT!

There was something about the courage of this gentleman who carried on an exhibit at Lake Michigan that resembled the integrity of the Wright Bros. who dared to fly an airplane over the sand dunes of

North Carolina years ago. This man was a Lake Michigan diver, who touched bottom 420 feet below the surface of Lake Michigan and lived to tell the tale. This exceeds by 104 feet the previous deep diving record.

Using a device of his own and a friend, the diver had strapped to his back a combination of oxygen and helium at all times made available to him. The helium took the place of the oxygen of the air. The water pressure was terrific, the cold intense, visibility at the bottom only about six inches.

It proves then, that both the diver and his friend can afford to be optimistic about salvaging the wealth stored aboard the Lusitania, lying 312 feet down off the coast of Ireland. First they hope to salvage the rich cargo of the steamer Merida, lying in 220 feet of water off the Virginia Capes.

Those who feel this is impossible, are perhaps are the ones who said the "horseless carriage" would be the toy of the rich in a flat country. All those who scouted Marconi's idea of wireless overseas communications.

There is one safe rule: don't be pessimistic about inventions. Our age may be the one of continuous miracles. And it may only be the beginning.

IT'S ALL VERY SIMPLE

No matter how you slice it, a modern epigram goes, it's still bologna. And no matter how you pay it, it's still taxes. Taxes pay for government and cannot mean anything else. Whatever form they take in their imposition they must be borne by the consumer, that is, mainly by the working man and fighting man of the community.

It is well to remember that the federal government has been borrowing money. The only way it can raise money to pay back what it borrowed is through taxes. As Justice Holmes once said, it does not make any difference whether your tax is levied in disguised form, it still must be paid by the consumer.

If the tax is levied directly, it becomes a direct payment to the government. If it is levied indirectly, it becomes part of the price of what the consumer buys. No matter how you state it; no matter how many ifs and buts you add; no matter how you storm and rant about it, the facts are still the same—government debts are paid by taxes, and taxes are paid by the sweat of every man's brow.

Three New Officers For Sheffield Co

The election of new officers and a director to fill the vacancies created by the recent death of Harvey Brown, who was secretary, treasurer, and a director of Sheffield Farms Company, Inc., was announced late yesterday by Leroy Van Bommel, president.

The election took place yesterday at a meeting of the board of directors. The new officers are: Robert E. Crowley, secretary, 29 Lawrence Parkway, Tenafly, N. J.

Matthew F. McGrath, treasurer, 661 West 141st Street, Manhattan.

The new director is R. Newman Slawson, 29 Cedar Street, Hempstead, Long Island.

Mr. Crowley joined the Sheffield Farms Company in 1924 as a cost accountant. He became comptroller of the company in 1927, a post he will continue to hold. Receiving the degree of civil engineer from New York University in 1917, Mr. Crowley was commissioned a lieutenant in the Navy, and served with the North Sea "suicide squad" sweeping mines until late in

1919. From 1920 until 1924, he was with the firm of Haskins and Sells public accountants.

Mr. McGrath, who was educated at City College and business schools, joined Sheffield Farms in March, 1902, one month before the Sheffield Farms Co., was formed by a merger of four dairy companies. His first job was that of office boy. He entered the bookkeeping department in 1904 and the accounting department in 1906. He was general auditor of the Sheffield Condensed Milk Company.

Mr. Swanson is the manager of the pasteurizing department. He was educated at the DeWitt Clinton High School and entered the Army in 1917. He served 18 months overseas with the Ambulance Service.

Mr. Slawson's father, Seyer Slawson, was a partner in the dairy firm of Slawson and Coffin which was merged with Slawson Bros., one of the companies, which formed the Sheffield organization, before 1900.

QUOTATIONS

"The disease of anti-Semitism is as infectious as smallpox." .Eddie Cantor.

"A balanced budget is a product rather than a cause of industrial recovery." .U. S. Senator Robert T. Wagner of New York.

"Single answers or simple slogans will not cure the complicated economic problems which today face all nations." .President Roosevelt.

"Balancing the budget is desirable as soon as feasible, but it has far less to do with our prosperity problem than commonly supposed." .Irving Fisher, Yale economist.

"I have long wondered why so much that I read was incomprehensible to me." .Stuart Chase, economist.

"American writers do not try to tell enough of the truth to invite censorship." .James Farrell, American author.

"Try drawing your own pictures or making your own music. It will probably be lousy; but so is much that is offered professionally." .Hendrik Willem Van Loon, author.

"If legitimate business does not have a chance to properly survive none of us has a chance to survive" Arthur H. Vandenberg, U. S. Senator from Michigan.

"Old age is characterized by a lot of minor movements which are insipidly senile." .Gelett Burgess, author.

"The literary world today contains too many adolescents." .J. Donald Adams, critic.

Jersey Leads In Okayed Mortgage

Local Banks' Activities Cited As Reason For Insured Mortgage Loan Success In State

New Jersey has more active approved FHA mortgages than any other state in the union, 416 lending institutions having financed insured mortgage loans as of September 30. This figure is exclusive of branch offices and represents financial institutions lending under the Mutual Mortgage Insurance Plan.

Mr. Thomas E. Colleton, state FHA director, pointed to the activity of local banks as recognition by them of the sound business value of the underwriting system put in operation three years ago by the Federal Housing Administration. "It is significant also," continued Colleton, "that the lending institutions doing the largest volume of business under our plan are the most enthusiastic supporters of FHA. It seems that after having first cautiously tried the plan, banks have made increasing numbers of government insured mortgage loans, and their enthusiasm has grown with the size of their insured portfolios.

They like the safety provided by government insurance, and they like the liquidity afforded by the wide secondary market for this type of mortgage money. Because of these two features—safety and liquidity—the lending institution can select and purchase the particular type of mortgage it wants in its portfolio without reference to the location of the property involved.

1938 Telephone Almanac Ready

The new 1938 Telephone Almanac, compendium according to its frontispiece of "valuable information for Farmers, Business Men, Housewives, Students and other Telephone Users" arrived this week at the business office of the New Jersey Bell Telephone Company.

Packed into the slim, blue bound volume available without charge to telephone users are birthdays of events of historical interest for each day of the year, astronomical calculations of the rising and setting of sun and moon and the moon's phases, the signs of the Zodiac pictured on the front cover and explained on the back, data on eclipses during the year, temperature and rainfall, and what year it is in the Julian, Gregorian, Jewish, Mohammedan and Japanese calendars in case you want to know.

Featured are a chronicle of a dozen historical events in American history illustrating the importance of communications in shaping the destiny of the nation.

"For young readers," but readers of all ages, judging by past experience, find it fascinating, is a Rebus page telling the story of the American Pioneers partly in words but mostly in pictures. For those who need help in translating it or for confirmation of the accuracy of their efforts, a note is appended that a translation can be had on request.

Together with the boretiments and appurtenances thereto belonging, etc. Liens and encumbrances against the above described premises will be made known at the time of the sale. Approximate amount of debt Ten Thousand Five Hundred Dollars.

JOHN A. GAVIN, Sheriff

Panthers Play Final Game At Home On Sun.

The Paterson Panthers bid farewell to grid fans for the year in the finale of the season at Finch-liffe Stadium Sunday afternoon against the White Plains Bears. The Panthers captured the state championship honors as a result of the 27-7 triumph over the Newark Tornadoes Sunday.

Entire proceeds of the game will be for the players, the management announced. All net over expenses will be divided among the members as sort of a Christmas gift in recognition of their fine record. Following the game the squad will be tendered a dinner in the headquarters of the Italian National Circle.

An even break with the Panthers Sunday will give the Bears a chance at the invitation to play New Year's Day against the winner of the Dixie League in Richmond, Virginia.

"THAT'S MY STORY" IS FEATURE AT MAJESTIC

Five high class vaudeville acts plus the usual screen features make up an attractive bill at the Majestic theater this week.

On the screen, the Majestic management presents "That's My Story" a comedy drama starring Claudia Morgan and William Lundigan.

TALKS ON ROADS

The Passaic County Engineering Society will hear a talk on road building by Joseph Armstrong at Lambert's Castle tonight.

Clairvoyant

(continued)

and why should they?..he pays his dues.

There will be many surprises after the first of the year in the city hall, unless we completely miss our guess. The first surprise will be in the announcement of the mayor's secretarial appointment... could it be Tommy Tongue? ...

MAYOR ELECT STAFFORD, to date, has shown the citizenry that he can stand on his own feet.... should he continue this policy of independent thinking, he will be the best mayor Paterson has ever had...back to the Stafford dinner again Jimmy Sees, the furniture man, turned reporter and took plenty of ribbing there. Did he worry?..not in the least....good advertising, my boy. Isadore Victor "Count" Klenert lost his ticket to the Stafford dinner, but remembered the number much to the chagrin of the chap who found the ducat.

FLASH—Rumors are flying fast to the effect that a certain Democratic leader will soon lodge charges against another Democrat for obtaining money from the opposition party to defeat a certain candidate for office. If this is true, the facts should certainly be placed before the party and the public.

MORRIS "BIFFY" DWORETZ, prize execution clerk in the sheriff's office, is a respected leader in the Masonic order. Sheriff's Clerk Lou Gollmer and Former Sheriff Thomas Manly (Tom Mix to Commission er James Cotter, had a good time

Farmers Hear Seger, Lipman Praise Wettyn

More than 600 Passaic county farmers and their friends gathered at the Meadowbrook Inn, Cedar Grove, last night to mark the twenty fifth anniversary of the founding of the agricultural and home economic extension work in this state and to pay tribute to County Agricultural Agent Harold Wettyn on the occasion of his twentieth year in that post.

The group heard Congressman George N. Seger and Dr. Jacob B. Lipman, dean of the New Jersey State College of Agriculture laud the work of Mr. Wettyn and the aims of the extension service as it pertained to farming in this state.

Congressman Seger made a special trip from Washington to serve as toastmaster at the affair.

at "Biffy's" expense at a recent Masonic meeting.

JOSEPH SEYMOUR, secretary to the board of tax assessors, is one of the most popular men in city hall circles. Always willing to give you a hand...there's nothing too much for him to handle, either... your columnist would like to see him a candidate for the office of mayor some day in the not too distant future.

The parking lots around town ought to do a swell business after the parking meters are installed.

Two Lodi Boys Win Recognition In Cadet School

Col. A. H. Camden, president of Hargrave Military Academy, at Chatham, Virginia, announces that two Lodi boys have made outstanding records at the Academy during the fall term. They are Joe Macaluso and Chester Wondusky.

In addition to their splendid scholastic record, both boys have taken an active part in the athletic program of the school. Coach Sanford, who is Athletic Director for the school, paid high tribute to Macaluso and Wondusky as he awarded them football letters for their excellent service on the varsity team. Both cadets played in each of the eleven games of the Hargrave Tiger schedule.

Housekeeping Hints

By Home Economics Department
Public Service Electric and Gas Company

HOLIDAY season brings busy days of shopping for gifts and planning for festivities at home. This season of the year is not complete without a store of home-made goodies such as fruit cakes, cookies and candies.

Temperatures are very important in candy making; therefore, a thermometer is a good investment. It is attached to the pan when the sugar and liquid is put over the heat to cook. The mixture is taken from the heat when the temperature reaches the proper point.

A less accurate way of judging the temperature is to drop a small portion of the sugar mixture into cold water. For the butter crunch, the syrup must become very brittle as soon as it is chilled by the water; for the fondant it will be cooked to the point at which a small amount can be formed into a soft ball when cooled in the cold water.

Potato Cocoanut Candy

1 cup mashed potatoes 4 cups shredded cocoanut
4 cups coffee 2 tsp. vanilla
1/2 cup sugar 4 cups chocolate
1/2 tsp. salt

Add to the mashed potatoes, the sugar, cocoanut and salt and blend well. Press into two seven-inch square cake pans. Melt the chocolate and spread over the top. When chocolate is firm, cut into squares.

Cocoanut Kisses

1/2 cup sugar 1/2 cup candied cherries
1 1/2 cups shredded cocoanut 1/2 tsp. salt
1 tsp. flour 1/2 cup evaporated milk
1/2 cup raisins 1/2 tsp. vanilla

Combine the dry ingredients. Add milk and vanilla and mix well. Drop from a teaspoon onto a pan lined with oiled paper. Bake at 350 degrees until light brown, about thirty minutes. Remove from pan while still warm and mold into shape if necessary.

Rainbow Wafers

1 tbsp. gelatine 1 lb. (1 pkg.) confectioner's sugar
2 1/2 cups cold water 2 cups boiling vegetable coloring

Soak gelatine in cold water for five minutes. Add boiling water and stir until thoroughly dissolved. Add two cups sugar and mix thoroughly. Put onto a board dredged with sifted sugar and knead until perfectly smooth. Divide into as many parts as you wish and to each part add desired colors and flavors. Knead in enough more sugar to

make mixture stiff. Roll as thin as possible and cut into rounds, about one inch in diameter.

Almond Butter Crunch

1 cup butter 1 cup sugar
1/2 cup finely chopped almonds 4 cups semi-sweet chocolate

Combine sugar and butter in a saucepan. Place over low heat and stir constantly until sugar is dissolved. Continue to cook until a small amount becomes very brittle in cold water (310 degrees), stirring occasionally to prevent scorching. Add one-quarter cup of the nuts that have been finely chopped and slightly toasted. Pour into a lightly buttered pan, 8 x 8 x 2 inches. Cool. Partially melt the chocolate over boiling water, remove from boiling water and beat until entirely melted. Spread one-half of the chocolate over the top of crunch and sprinkle with one-half of remaining nuts. Cool until chocolate is firm. Invert crunch and cover with remaining chocolate and nuts. Cool. Break into irregular pieces. Makes one and one-quarter pounds of crunch.

Fondant

2 cups sugar 2 tbsp. light corn syrup
1/2 tsp. vanilla 1/2 cup boiling water

Combine ingredients, except vanilla, in a deep two-quart saucepan. Place over low heat and stir constantly until sugar is dissolved and mixture boils. Remove and cook three minutes; remove cover and continue cooking without stirring until the syrup reaches 240 degrees or the soft ball stage. During cooking wipe down sides of pan with a damp cloth. Pour fondant onto a cold, wet platter or marble slab. Cool to 110 degrees (lukewarm) and work with a broad spatula or paddle until creamy and white. Knead by hand until smooth. Add vanilla. Let stand, uncovered until cold, wrap in waxed paper and store in a tightly covered jar in refrigerator to ripen for at least twenty-four hours before using. Makes about one pound of fondant. Flavor and color the ripened fondant and use for stuffing dates or figs, for making bonbons or as centers for chocolates.

Tutti-Frutti Fondant

Knead ripened fondant and add to it chopped raisins, chopped candied cherries and nuts. Pat out to about one-inch thickness on a piece of waxed paper or in a cake tin and after it has set, cut into one-inch cubes.

THEATRICAL NEWS

U. S. Features Dietrich Film

One of the most beautiful and charming screenplays the screen has witnessed in months will appear on the U. S. Theater screen beginning tomorrow, when "Angel" starring Marlene Dietrich, Herbert Marshall and Melvyn Douglas is presented. The co-feature "My Dear Miss Aldrich" is a clever comedy

"ANGEL"

The exotic Marlene Dietrich returns to the screen in the new Lubitsch picture, "Angel," which opens Thursday, Dec. 16, at the U. S. Theater. Mrs. Dietrich has two leading men in this film, Herbert Marshall and Melvyn Douglas.

about a school teacher who inherits a newspaper and stars Maureen O'Sullivan and the new Hollywood idol, Walter Pidgeon.

"Angel" is the story of a husband and wife whose efforts in establishing a home life seem to clash because the husband, played by Herbert Marshall, is too occupied with outside interests to give any time to his home. Marlene Dietrich is the wife who undertakes the right finally to look elsewhere for romance.

When Douglas returns to England he meets Marshall. He and Marshall become friends, and he is invited to Marshall's home. There he and Miss Dietrich meet, but no hint of their former acquaintance is given. Douglas is unable to make "Angel" listen to his plea to leave her husband, and in the end, worn out by the strain of the situation and the tension between the two men who have meant so much to her, she runs away to Paris.

BUY CHRISTMAS SEALS

"Stand-In" Now At The Garden

Before you do another thing, because nothing can possibly be as important as a laugh fest like this gather up the family and head to the Garden Theatre where "Stand In", Walter Wangers hilarious comedy about Hollywood has'em rolling in the aisles.

Leslie Howard and Joan Blondell head the roster of stars in this hysterical screen version of Clarence Budington Kellands Saturday Evening Post Story.

The charming Leslie emerges as a simply swell comedian in the role of Atterbury Dodd, the shy, bespectacled banker who goes to Hollywood to take over the \$10,000,000 Colossal Studios and run them by the science of mathematics, and Joan is grand as the stand in or the title who helps him over the Hollywood hurdles, helps him foil the conspirators who are plotting to get the studio, teaches him to rhumba and makes him realize that he's more than a human adding machine.

In "County Fair" Fuzzy plays the buddy of John Arledge.

He follows Arledge everywhere, participating with him in his good luck, his evil fortune, in brawls and in breaks.

Garbo, Boyer Star At Fabian

Hailed as the most distinguished motion picture in which Greta Garbo has yet appeared, the Fabian Theatre announces with pride its forthcoming showing of "Conquest", opening here tomorrow, stirring romance of the fabulous Napoleon Bonaparte and the woman he loved, in which the glamorous Swedish star makes her first

Greta Garbo and Charles Boyer in "Conquest"

costarring appearance with Charles Boyer, hero of "The Garden of Allah" and "History is Made at Night."

The new story, filled with the memories of an epochal period in world history Garbo plays the role of the beautiful Countess Walewska who forsakes her home and her husband in an heroic attempt to win over Napoleon and thus save the life of her country. Boyer in an astoundingly realistic makeup is seen as Napoleon whose power-mad determination to rule the world leads him to doom.

Reginald Owen is cast as the unscrupulous Talleyrand; Alan Marshall is Captain D'Ornano; Henry Stephenson is seen as Garbo's husband; Leif Erickson as her brother Dame May Whitt as Laetitia Bonaparte, and C. Henry Gordon as Prince Poniatowski.

The co-feature on the same bill will feature America's favorite family, the Joiseses, in "Borrowing Trouble".

Teachers Urge Continuance Of Health Camp

The board of freeholders yesterday was in receipt of a letter from the Paterson local of the Teachers' Union urging that the county health project, Camp Hope, be continued during 1938.

The teachers went on record praising the work done at the county camp during the past two summers for the betterment of the health of the county's undernourished and underprivileged children.

Rural Young Folk Deserting 'Swing' For Serious Music, Expert Declares

"SWING" may be king in the circles, but America's rural youth are showing an increasing interest in opera, symphonies and other forms of "serious music."

That is the report of Ray A. Turner, of the Extension Service, U. S. Department of Agriculture, and Mr. Turner is probably in as good a position to know as anyone in the country. As conductor of the music appreciation program of the National 4-H Club radio broadcast, he is the unofficial music counselor to 1,500,000 young people, most of them in the rural sections.

"We receive thousands of letters from young people who listen in," said Mr. Turner. "Naturally this volume of mail gives us a pretty good idea of what young rural America is thinking and feeling."

"We find that more and more of these young folks are calling for serious music. The broadcast of an aria from an opera, together with a description of the work and comment on the composer, will bring a flood of requests for other numbers from the opera. Or 4-H Club members become interested in a composer whom they have heard on the broadcast, and ask for more of his compositions. With this increased demand for serious music comes a falling off in requests for 'swing', hill-billy and other popular kinds."

The National 4-H Music Hour is broadcast from Washington over 85 National Broadcasting Co. stations from 12:30 to 1:30 P. M., Eastern Standard Time, on the first Saturday of each month by the Extension Service of the Department of Agriculture. Mr. Turner arranges the programs and describes the music, which is played by the United States Marine Band under Capt. Taylor Branson, leader of this world-famous musical organization.

Ray A. Turner

With 4-H Club membership increasing and additional States swinging into line with 4-H music programs built around Mr. Turner's broadcasts—there are now about 30—radio is a major factor in moulding the music tastes of rural youth. Since the perfection of the air-cell battery, thousands of families, formerly dependent on the old-style type of battery radio, have joined the rural radio audiences. Radio entertainment and education, with as good reception as that enjoyed in the cities, have become standard features of even the most remote rural sections.

Mr. Turner has been interested in music, both as a performer and instructor, all his life. At Michigan State College he played in the mandolin club, sang in the glee club and choral union, and studied piano. He is now a choir singer in a Washington church.
