## LOCAL GROUP PETITIONS FOR RADIO STATION

**Four Other Broadcasting Companies Object**

The Federal Communications Commission at Washington heard a petition presented by J. Cosman of this city, on behalf of the North Jersey Broadcasting Company, Inc. for permission to install a radio broadcasting station in Paterson. Four other radio broadcasting stations objected. They were WEAF, New York; WPMJ, Milwaukee; WIP, Philadelphia, and WPRO, Providence, R. I. They suggested that the North Jersey Company's paid in capital of \$10,000 was inadequate.

The local broadcasting company holds the endorsement of the Paterson Chamber of Commerce and of a number of civic, social church and other organizations. The proposed location of the broadcaster will be atop the National Bank of America.

The testimony was taken by an examiner for the commission. It is expected the commission later will give the appellant and objectors further opportunity for testimony, then will make a decision in the matter. The decision is expected within 30 days.

## Governor Hoffman Will Not Convene Special Session

**Makes Formal Reply To Request Of State League Of Municipalities**

Trenton—Governor Harold G. Hoffman again intimated yesterday that a special session of the Legislature to enact new relief legislation would not be called. His statement was in direct reply to a request made by the State League of Municipalities for a special session to transfer to the State Financial Assistance Commission \$1,500,000 left by the old ERA before it was liquidated.

Even a one day session by the Legislature would not be advisable inasmuch as subjects to be considered could not be limited only to relief measures. Added to that, a great many legislators are at present still away on vacations.

"Whether a comprehensive relief program, such as is desired by your league's resolution could or would be worked out by the Legislature in a hurry even with the co-operation of your league cannot be predicted, the governor said in a letter to Samuel S. Kenworthy, executive secretary of the State League of Municipalities.

"If a real accomplishment is (continued on page 8)

## Industrial Board Will Retain Swan As Consultant

**"Sell Paterson To Patersonians" Will Be Motto**

At a meeting held by the new Industrial Commission of this city, it was decided upon to request of the Finance Board at its meeting this morning to furnish that body with \$8,000 with which to commence operations to rehabilitate local industrial conditions. This initial sum is expected to cover expenses for the balance of the year, after which an additional \$25,000 will be required for the year 1937.

The money to be appropriated will in part pay for the services secured by the Industrial Commission of Herbert Ewan, internationally known planning consultant, retained at Tuesday's meeting. Mr. Swan will be paid \$7,500 for one year's work after which it is expected that his services will no longer be required.

At the meeting, Charles H. Roemer, chairman of the Commission, read a number of proposals which met with the approval of all members present and also with that of Mr. Swan. Among other things, Mr. Roemer suggested that several committees be organized, into which would be drawn prominent men from all industrial branches, thus taxing not one man with too much work. Mr. Swan also added that two public meetings be held weekly at which citizens of this city could publicly express their opinions. Another proposal of the consultant was that star chamber conferences be held with prominent people who wished to avoid the limelight.

Mr. Swan's motto will be to "sell Paterson to Patersonians." He will begin with a detailed survey of the textile industry to include the city's assets, that is of the number of employables available, the amount of mill space the condition of industry from the technological standpoint, etc. (continued on page 8)

## RECEIVER IS NAMED FOR GATTI SILK DYEING CO.

Vice-Chancellor Henry Kays, placed the Gatti Silk Dyeing Co. under receivership and named W. V. Rosenkranz as its receiver upon complaint of insolvency filed against the local dyeing concern by Sandoz Chemical Works, Inc. a creditor to the amount of \$6,301 for merchandise delivered to the concern.

The Gatti company was incorporated on July 31, 1935. It is alleged that assets are not worth more than \$27,000 and liabilities in the neighborhood of \$84,000. It is also alleged that the firm has lost \$100,000 since organization and \$15,000 during July alone.

## INSTALLATION OF 1st TRAFFIC LIGHT BEGUN

**Eleven More To Be Installed During Fall**

Work on the first of a series of twelve traffic lighting systems to be installed in this city during the coming months was begun Tuesday on the corner of Madison and Twenty first avenues. Only one can be installed at a time as the streets need to be closed while work is in progress. It has been estimated that the twelve lights will be installed at an interval of twelve days.

The latest model traffic lights are being installed, as approved by Motor Vehicle Commissioner Arthur W. Magee. They are red, green, and amber signals, and will be equipped with both automatic and manual control. Lab is being supplied by the local WPA office.

As the signals are installed, traffic officers will be relieved of duty at that particular corner, and at Police Chief Murphy's discretion, they will either be transferred to other points or assigned to other duties.

Other installations to be completed this fall and winter follow: East Eighteenth street and Broadway; Straight street and Broadway; East Eighteenth St. and Tenth Avenue; Summer St. and Twentieth Avenue; Madison and Park Avenues; Wayne and Totowa Avenues; Wayne and Union Avenue, (a yellow blinker); River Street and West Broadway; Water Street and Ryle Avenue; River Street, Lafayette St., Straight Street and No. Straight Street and Broadway and Thirty third Street.

## Lodi Union Head Appeals To Workers For Cooperation

**Cangialosi States Re-employment Will Be Gradual When Contract Is Signed**

Last Monday morning, at a meeting of the Union in the Columbus Auditorium, Lodi J. Cangialosi, president of Dyers, Finishers' Union, Local 1983 informed the members that he had every reason to believe that the present contract would be renewed. He urged all workers to return to their jobs with a spirit of co-operation. If the agreement was signed, he said, "don't go back with a chip on your shoulder."

He asked all members who have been successful in getting jobs outside of town, to keep them and give the local unemployed a chance to obtain work.

The president further implied, that re-employed would be gradual, just as the layoff was, and because the management has to do away with much of its obsolete machinery, it may mean that there will not be as many workers as heretofore.

## Dr. McBride Makes Clear Reason For Post Refusal

**Refused Because City Did Not Guarantee Aid**

Dr. Andrew F. McBride, dean of the Democratic party in Passaic County, former mayor and former State Labor commissioner, was back from a month's vacation yesterday and made a public statement as to why he turned down Mayor John Hinchliffe's proposal that he assume the chairmanship of the newly organized Industrial Commission. Mayor Hinchliffe had recently revealed that Dr. McBride had found himself unable to serve on the commission.

Dr. McBride stated that due to his past experiences as chairman of the old Mayor's Industrial Conciliation Board during which term he found that he received no cooperation from city officials towards any attainment, he refused to be a member of the new Board unless guaranteed a free rein and greater cooperation on the part of the City government and its officials.

Since last June, Dr. McBride had exchanged several letters with the Mayor which in the end proved fruitless because of differences of opinion.

In part, Dr. McBride said, "My reasons, I feel, are sensible and intelligent and I cannot bring myself to serve on this Commission or any other unless I have adequate assurance that the City Government and its officials stand ready to do their share to make such a project successful."

"The members of the now defunct Commission had serious work to do and to the best of their ability they did what they could. Unfortunately they were unable to achieve the success for which they were working, largely because of the careless, or shall I say impractical support by that government. Practical matters such as a room in which to meet, stationery, stamps, secretarial assistance, a small appropriation to (continued on page 8)

## PATERSON COUNCIL AGAINST SALE OF FIREWORKS TO MEET

A meeting of the Paterson Safety Council will be held this evening at the home of Mrs. Pregger during which steps leading to legislative measures banning the sale of fireworks in communities of this state will be discussed. The local council has invited groups throughout the state to attend.

The meeting is preliminary to the presentation of resolutions at the National Safety Congress, which will be held in Atlantic City from October 5 to October 9.

## REV. COUGHLIN CRITICIZED BY VATICAN PAPER

**Article Intimates Radio Priest Had Been Warned**

Rome—In a lengthy article appearing in L'Osservatore Romano, semi-official Vatican paper, the Rev. Charles Coughlin and his immediate Superior, Bishop Michael Gallagher, were severely criticized, the former for his recent attack against President Roosevelt during which he called him a "liar" and the latter for his support of the radio priest.

The article seemed to contradict the statements made by Bishop Gallagher to the press that during his visit at the Vatican, the question of curbing the radio priest was not broached.

"Some newspapers," Osservatore said, "have quoted Bishop Gallagher when he was in Rome as saying the Holy See fully approves of the activities of Father Coughlin."

"This does not correspond to the truth, because Bishop Gallagher knows too well what was said to him in this regard."

"The Holy See wants respect of liberty, but also wants its clergy to respect the conventions of the court."

"It is known that an orator who inveighs against persons who represent supreme social authority, with evident danger of decreasing respect of the masses for the authorities themselves, sins against convention."

"Inconvenience of such statements is all the greater when it is a priest who is the orator."

## Exams Called For 7 Civil Service Jobs In County

Examinations to fill seven positions will be held at the County Welfare Home at Breakneck, the State Civil Service Commission announced.

The positions are open to persons who have been residents of Passaic County for the last twelve months or more.

The jobs, salaries and last day for filing applications are as follows:

Fireman and helper, salary at prevailing rates, September 9.

Supervising nurse, minimum, \$1,800 maximum, \$2,160, (both less deductions) September 12.

Chef, minimum, \$1,800, maximum \$2,160 (both less deductions), September 12.

Laboratory technician, minimum, \$1,500; maximum, \$1,920 (no deductions) September 16.

Engineer in Charge, salary at prevailing rates, September 19.

Head Cook, minimum \$1,500, maximum, \$1,700 (no deductions), September 19.

Information concerning the test may be obtained at the Civil Service office in the Court House, Paterson.

## State Fair Will Have Many Women Competing Sept. 27

In the past, State Fairs connoted rugged cattlemen and farmers and the "little woman" was lucky if she was represented by a pint jar of preserves, but this year's New Jersey State Fair which opens in Trenton on September 27th and continues to October 3rd inclusive, introduces many new divisions open only to women, and it is expected that the ranks of exhibitors this year will have just as many female names as male.

An announcement by George Hamid, who just took over the management of the New Jersey State Fair this season, stated that the Arts and Crafts Department, which is under the supervision of Mrs. Helen Stearn and Mrs. Kathryn Greywacz, will feature the hand work of women from all over the East.

There are ten different divisions into which the Arts and Crafts exhibits may be classified, and each one offers a first and second premium for the best exhibit in addition to a special Sweepstake Ribbon which will be awarded to the individual winning the greatest number of prizes among these ten divisions which consist of the following: drawn thread; tatting and crochet work in white or ecru cotton, silk embroidery and needle point work, white cotton embroidery, colored cotton, linen and wool embroidery and other fancy work, handsewing, practical ideas and plain sewing, knitted and crocheted articles, counterpane and art embroidery.

An entire Department has been set aside for exhibits in Culinary products, and under the different classifications are found: breads, rushe and muffins, plain and fancy cakes, cookies and pies, canned fruits, preserved fruits, preserved pickles and relishes, canned vegetables and candies.

Exhibitors in both the Arts and Crafts and Culinary Departments are limited to residents of New York, Pennsylvania and New Jersey. No entry fee is charged in these Departments, and exhibits in both will be received on Friday only, September 25th, up to 6 P. M. at the Domestic Arts Building of the New Jersey Fair.

A new quilt and rug contest has also been announced for this year's Fair. Those interested are requested to write in to the New Jersey State Fair, Trenton, N. J. for a pamphlet containing full instructions.

Exhibits sent by express prepaid will be received in these Departments up to September 25th under the following conditions.

Each article in the consignment must have the regular entry card (obtainable by writing in to the State Fair) securely attached which requires that entries must be made by September 15th, and postage furnished for return of entry. No entry in the Culinary Department will be returned unless brought in person by the exhibitor or someone appointed by him. Letter containing addressed tag for the return of exhibits must be attached to the inside of the trunk, crate or box and the insurance value noted.

Great care should be taken by exhibitors to see that articles are entered in proper classes otherwise they will not be considered by the Judges. Articles that have taken a premium at this Fair previously cannot complete. Entry blanks may be secured from the Secretary or Department clerks. The entry office will be open at the Fair Grounds, Trenton, N. J. from 9:00 A. M. to 5:00 P. M. from Monday, September 27th to Thursday afternoon, September 24th.

## President May Be In Jersey City To Lay Corner Stone On September 20th

A visit to Jersey City by President Roosevelt in September was looked forward to by State Democratic leaders for the cornerstone laying of a building in the Medical Center. The ceremony to which Roosevelt has been invited would involve either the \$2,696,000 tuberculosis hospital being built with PWA funds or the 21 story addition to the City Hospital. The addition was built with a PWA grant of \$2,045,454 and additional loan of \$2,500,000 to Jersey City.

A seventeen story nurses' home the Margaret Hague Maternity Hospital, the medical and surgical buildings

and other structures are among the medical center group.

Mayor Frank Hague, State Democratic leader, at a New York conference Monday with James A. Farley, Democratic National chairman, and others said he had asked the President to attend the ceremony.

Others present said there was little doubt that Roosevelt would place a visit to Jersey City in his campaign schedule, possibly on September 20.

"We are very confident of carrying New Jersey for Mr. Roosevelt," William Kelly, Democratic State chairman in New Jersey, told Farley.

## New Agreement Is Signed By Weiss Wilhelm and Union

Renewal for two years of a labor contract now in effect constituted the agreement signed last week end by the Weiss and Wilhelm Company, textile printers of 222 Passaic Street, and representatives of Passaic Dyers and Finishers Local, No. 1932, and the Federation of Dyers, Finishers and Bleachers of America.

The contract, according to union officials, is a closed shop agreement and provides for the same scale of wages as in other textile printing shops in this vicinity. It will go into effect next Tuesday. The present contract expires on Monday.

The company was represented during the negotiations by A. Wilhelm, vice president, and the union by Frank J. Benti, vice president of the Federation of Dyers, Finishers and Bleachers, and president of the Passaic Local of Dyers and Finishers.

## Large Plant To Be Built In Linden By General Motors Co.

Announcement of especial interest to residents of New Jersey was made this week by General Motors Corporation that it will build one of the largest assembly plants for passenger cars in the world at Linden, New Jersey.

The plant, which will assemble motors for delivery to the East Coast region and overseas territories, when fully equipped for maximum operation will represent an outlay of about \$5,575,000.

Construction will begin immediately and is scheduled to be completed in December.

The new unit will have a normal capacity of 120,000 cars a year. Approximately 2,000 persons will be employed when the plant is operating at capacity.

The corporation announced 80 acres on the Lincoln Highway near Stiles Street have been acquired as the site for the structure.

About two thirds of the output is scheduled for domestic delivery and one third for export.

Establishment of the Linden plant marks the second step this year in the decentralization of production of some of the General Motors lines.

The first move was the opening in May of the plant of the new Southern California Division of General Motors at Los Angeles, Calif. to serve the west coast area.

The plant will consist of four buildings and an oval test tract nearly

## Hearing On Flood Control Will Be Heard Sept. 29th

A public meeting called for September 29 at 45 Church Street, Paterson at 11 A. M. will feature a discussion of flood control of the Passaic River. The meeting was called by the U. S. Army Engineers.

Through the efforts of Representative George N. Seger, Congress authorized a preliminary examination of the Passaic River with a view to the control of its floods and authorized certain construction to accomplish this aim.

"It is especially desired," said Lieutenant Colonel David McConch, Jr. in charge of the Second Engineer District, "to obtain the views of officials of the State, Counties municipalities and other political subdivisions, and also of Chambers of Commerce, Boards of Trade, flood control associations, water conservation commissions and other like associations."

"Views of representatives of industries and of railroad companies operating within the watershed of the Passaic River, and of State highway commissions are also desired."

The Army Engineers seek data on the high water elevations during floods, flood damage, traffic interruptions and properties affected by floods.

## SEGER, WISE, SULLIVAN STUDY WATER PROBLEMS

Asked To Serve On Committee For The Passaic Valley

A large group of men were asked to serve on a committee to study the water problems of the Passaic Valley, Charles Edison, State director of the National Emergency Council announced.

Representing George N. Seger, former Assemblyman Russell S. Wise, and Arthur J. Sullivan of the Passaic County Park Commission are among the local men appointed to the committee.

The organization meeting of the committee will not be held until the results of surveys now being made by several groups are ready. An all day meeting early in October in Newark is planned at which the committee is to organize permanently and map its campaign.

half a mile in circumference. The buildings will include the main factory, an office building, a loading dock and a power house.

The new plant will well considerably the already active automobile industry in New Jersey. The corporation has an automobile boxing plant and a battery division at Bloomfield and a roller bearing unit at Harrison.

## SPEEDY STOWAWAY

Guinta Uses Queen Mary To Make Escape With \$36.39 —Ship Returning Him

Dominick Guinta, 24, of 20 Brinkerhoff Place Passaic, who obtained passage to Europe as a stowaway aboard the Queen Mary in its record-breaking trip across the Atlantic last weekend, is being held by ship authorities on an alleged charge of embezzlement for return to New York on the ship's next trip. The queen of the seas is expected back in New York Sunday.

It is expected Guinta will waive extradition charges for return here to face the embezzlement charge. He is reported to have informed his employer, the Bodner Baking Company of Hope Avenue, that he was leaving his job and going away. Guinta failed to report back to work that day with a collection said to total \$36.39.

Guinta has been arrested for speeding four times, thus in a position to claim that the Queen Mary has nothing on him when it comes to speed.

## Find New Patman Ruling Distant

Authorities on the recently enacted Robinson Patman anti price discrimination law said it would be several years before the Supreme Court receives test cases under the new law.

In the interim manufacturers, wholesalers and retailers are showing anxiety to conform with the law and to avoid being made the subject of long legal controversies.

Most interpreters of the act are agreed on one point, that any price discounts or discriminations or free goods given away with purchases must represent in value no more than the amount the seller saves by doing business in large volume.

In other words, large buyers can be given special prices if the seller is prepared to prove that he saves as much as the discount by doing business in large quantities.

This will mean reduction in price differentials in most cases. It is widely predicted it probably also will mean establishment of more careful cost accounting systems.

## BANK GROUPS MAKE NATIONWIDE SURVEY

American and State Banking  
Associations Collaborate  
in Investigation

### LOAN SERVICES STUDIED

Activities of the Government  
in the Banking Field Are  
Reviewed and Position  
of Banks Analyzed

NEW YORK.—Detailed bank researches, covering all phases of practical operating and economic facts and conditions related to banking, are being made by the American Bankers Association. The resulting material is being placed at the disposal of all state banking associations, which in many instances are extending the researches of the national association in their own states. These activities are said to be a part of the general program of banking development which is being carried on by the organized banking business.

Among the most extensive researches being conducted by the American Bankers Association is that of its Committee on Banking Studies, which is making a detailed survey of Federal Government lending agencies and policies. The basic material, which is kept up to date by continuing studies, shows where the Government agencies get the money they lend, what liability the Government assumes, what subsidy it extends, what return it gets, for what and to whom the money goes and on what terms it is loaned.

#### The Government in Banking

"It is not the intention of the committee to express its viewpoint about any agency," says the foreword to this material. "Its intention is only to determine the facts. These facts properly assembled and presented should help banks to meet Government competition if and where it exists. The committee believes the Government entered the lending field at a critical period in order to aid banks and financial institutions. If the time has come for the Government to withdraw, it is the duty of bankers to demonstrate their readiness to take care of all sound credit needs."

It adds that the banks must be equipped with full factual material as to the Government's emergency lending activities and practices, and that full cooperation has been given the committee by Government agencies in obtaining facts. Binders of the material gathered have been placed by the committee in the hands of state association officers and committees of three members appointed to cooperate with it in carrying on banking research.

The Committee on Banking Studies has also made a survey of the Postal Savings System throughout the United States to ascertain to what extent it is competing with chartered banks. Questionnaires were sent to banks in all places where Postal Savings depositories are operated and over 93 per cent returned answers which will be analyzed as a basis for the committee's findings.

The Bank Management Commission of the American Bankers Association has made a nation-wide survey covering the movement among banks to increase their earning abilities "through fair and legitimate rates for services they render their depositors." The commission has developed a uniform plan of account analysis as a basis of sound charges.

#### Personal Income Loans

The Bank Management Commission has also formulated methods for installing and operating personal income loan departments in banks. "This plan contemplates making loans primarily to individuals and small business concerns, based upon the character and assured incomes of the borrowers, as distinguished from the usual basis for commercial loans," the commission says.

It points out that a large part of the population is not now making use of available bank credit and that these receive the personal loan

department extends a valuable service which at the same time is profitable to the bank. It adds that it is "the duty of the banks to educate the public to come to the bank for all financial services. Small borrowers should be informed that the local bank is ready and willing to take care of their demands."

#### Other Researches

Other researches are being made by the Economic Policy Commission of the association dealing with shrinkages in liquid commercial loans caused by the economic changes in the nation's business methods, while the National Bank Division has made studies of the lending and investment powers of this class of bank, the present status of the real estate investment field and of detailed data by states on earnings and expenses.

The Savings Division has gathered the facts showing savings in banks of all types, the number of savings depositors, the per capita savings for the country as a whole and the effects of current economic and social changes upon the savings habits of the American people.

The association's State Bank Division has issued the most recent figures available as to the detailed conditions of state banks, showing steady improvement in the position of the state banks, with marked expansion in their aggregate resources, while the Trust Division has compiled a guide to fees with a recommended cost accounting system.

### "FRESHMAN WEEK" SET AT PATERSON COLLEGE 21st

Student Body Will Receive Talks  
From Heads, Faculty Then

The Fall term of the College of Paterson will be signalized by "Freshman Week", slated for the week beginning Monday, September 21, President Robinson announced.

Members of the administrative and faculty staffs will give the student body informal talks on various subjects.

At stated hours during the week, students will be given opportunities to take various vocational and personality tests. The facts revealed by these tests are used for purpose of educational direction and vocational guidance.

"Freshman Week" makes easier the transition between high school and college, and it also serves to introduce new students to the pleasures and the responsibilities of college life and activities. In addition to its academic side, "Freshman Week" is marked by social and recreational features in the form of singing, dancing, music and dramatic entertainment.

### BUSINESS FAILURES UP

Rise 3 Over Preceding Week, But  
Under Figures Of Year Ago

Dun and Bradstreet, Inc. reported that business failures in the last week of August were 138, a rise of 3 from the preceding week, but well under the 261 defaults reported in the corresponding week a year ago.

Insolvencies, with liabilities of \$5,000 or over, totaled 76 the week ended last Thursday, compared with 71 in the previous week and 116 a year ago. In Canada defaults numbered 19 against 165 in the previous week and 21 a year ago.

## Many Cretona Bids Ready To Be Made

That there will be a number of bids offered for the Cretona Print and Dye Works when the assets of the defunct Clifton dye plant are sold at public auction before Referee John Grimshaw, Jr., September 9, was reliably reported in silk dyeing circles.

A representative of the RFC will be among the bidders, which will offer \$450,000, the amount of the mortgage it holds on the plant. Individual bids will have to go above that figure.

The RFC, if successful, plans to turn the plant over to an individual group for operation or attempt its sale at a price sufficient to cover the mortgage.

The city of Clifton also plans to bid. A tax lien of \$63,000 is held by the city.

### HEAVY TRAVEL SHOWS TREND TO RECOVERY

20,000 Traveled Across Seas This  
Year Than Period Last Year

During May, June and July, twenty thousand more Americans made transatlantic voyages than in the same months last year, Secretary of Commerce Roper announced.

Ten per cent of the increase was carried by American liners which, though they provide but 7.9 per cent of the total accommodations, were used by 11.2 per cent of the 200,000 passengers.

British ships, with 37 per cent of the accommodations, carried 31 per cent of the passengers.

### DIVIDEND INCREASED BY COMMERCIAL CREDIT CO.

The quarterly dividend was increased by directors of Commercial Credit to \$1.00 on common stock and an extra 25 cents was declared. Formerly the company paid 63 annually.

In addition, the directors carried out the previously announced intention of declaring a 20 per cent stock dividend on the common stock which was approved by shareholders at a special meeting held Wednesday.

The regular quarterly dividend of \$1.06 per share also was declared on the 4 per cent convertible preferred stock. All dividends are payable September 30 to stockholders of record September 10.

## DO YOUR OWN THINKING

Discussion of many issues of broad political and economic importance from various partisan angles during the next few weeks make them important ones for the American people. Newspapers, magazines, even the very air will be filled with political pronouncements which will increase in volume as election day approaches.

A close race for the presidency this year is America's concern because it is only fair to say that the outcome is a toss-up. It is more important now because of this year's situation for every American to understand the issues of the campaign and the position of the candidates on those issues. This requirement is more pronounced than in any previous election.

We must accept only the facts and not regard the efforts of either candidate to becloud the issue with fancy word parcels. Let us not appraise too seriously the avowed simplicity of one candidate nor the appeal of another to arouse class consciousness among our people. Let us appraise in equal measure the sunflower and the donkey insofar as their psychological effect is supposed to influence the American voter.

These are simple rules, but important ones. If we follow them we can cut through pretense to the real issues. Then and only then can we appraise the candidates upon whom we are being asked to vote.

When there is an informed electorate, unswayed by sentiment or by honeyed words, we can reap the fullest benefits from our Democracy under which we live.

Your vote is just exactly as important as the vote of anybody else in this country. We urge you to treasure that privilege. Please do your own thinking.

## UNITED PIECE FUTURE

Although the outcome of the present conferences between combatting forces in the struggle to keep the United Piece Dye Works of Lodi from leaving that South Bergen municipality have been unannounced, we hope there will be satisfactory settlement for all concerned.

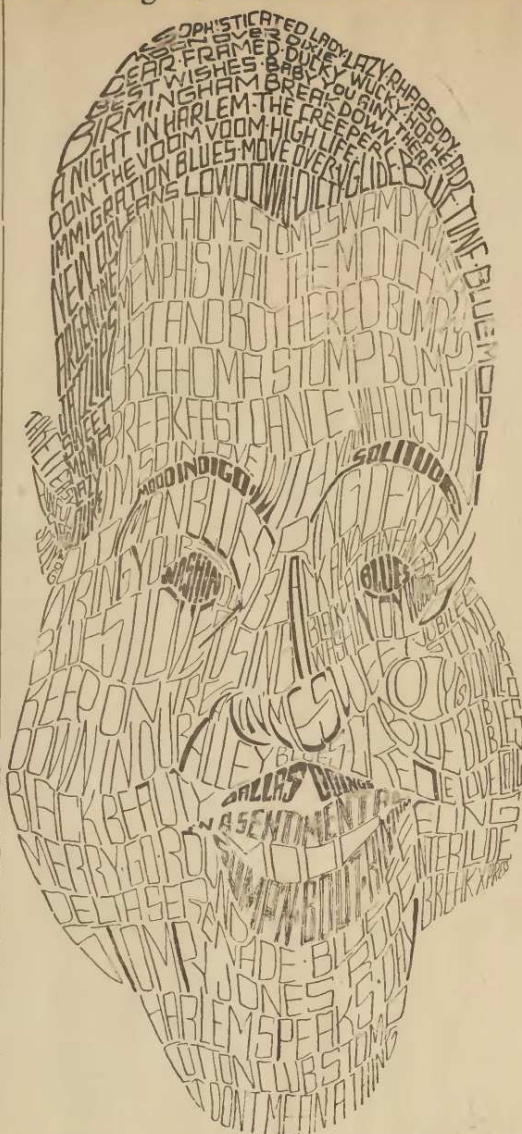

There have been a number of facts taken in consideration by both sides in this struggle, while the residents and merchants of the borough who are neither employed by the United nor have had part in the parley between major parties involved must watch patiently for the outcome that will affect them as much or more than the principal parties involved.

If the plant wins its point, the union must accede to some degree. If the union wins its point, there will have to be a major accession by the United, something it has already indicated it will not do in preference to moving to a new location. There are a number of other important details to be settled.

From all of these things the resident and merchant who appear to be uninterested parties, accept the particles of a recipe that will either bring them great happiness or much sorrow in the immediate future.

We hope the outcome results in the United's remaining in Lodi and all parties completely satisfied.

## Duke Ellington &amp; his Orchestra at Palisades

Duke Ellington and his famous orchestra who will appear this Sunday, September 6 and Labor Day as the free attraction at Palisades Amusement Park on the Jersey side of the Hudson. Ellington will give a free swing concert on the open air platform at Palisades.

Ellington is one of the oldest and best known exponents of modern swing music. He is the composer of hundreds of popular tunes.

Duke will appear three times daily on the free act stage at Palisades Amusement Park. The performances are at 4 P. M., 7 and 10.

## JAFKE-ROTHWACKS LAW FIRM IN DISSOLUTION

## To Follow Individual Practices—Rothwacks Is Spitz Aide

Announcement was made today of the dissolution of the law firm of Jaffe and Rothwacks occupying office space in the Peoples Bank Building. Both lawyers will continue their individual practices.

Admitted to the bar in 1931, Mr. Jaffe recently passed his counsellor's examination. He is a Harvard College and Harvard Law School graduate and was formerly associated with Finance Commissioner Henry C. Whitehead.

Mr. Rothwacks was admitted to the bar in 1935, is a graduate of Cornell University and of the Cornell School of Law. He was formerly associated with Milton M. Unger of Newark. At present Mr. Rothwacks is assisting B. J. Spitz, attorney for the Commissioner of Banking and Insurance

## STEVENS SAYS ALIENS ON RELIEF "PROBLEM"

## Board Tells Retired Navy Man This Aid Not To Be Denied

Relief maintenance of approximately 1,067 aliens of the 2,900 persons now on the relief rolls in Passaic was pointed out as a serious problem by Lieutenant Harry E. Stevens, U.S.N. retired, president of the Passaic Taxpayers' Association at the board session Tuesday.

Stevens submitted a table with figures showing the number of aliens receiving relief. He said the condition was serious.

The board informed Stevens that the state and federal government made no provisions for eliminating aid to aliens. That was offered the retired Navy officer as sufficient cause for the city to continue relief to these persons.

in the liquidation of the Merchants Trust Co. and the Security Trust Co. of Paterson.

## U. S. Rubber '9' Represents Area In National Congress

Passaic's industrial area in the American Baseball Congress this month will be represented by the U. S. Rubber Products, Inc. baseball team, newly crowned Factory League champions, winner of the Colonel Charles F. H. Johnson trophy.

After a few warm-up tilts, the club takes its first step after the State title, then the National championships slated for Louisville, Kentucky late in September. The team is sponsored by the Chamber of Commerce.

Passaic's titleholders are one of the best balanced outfits in this vicinity.

The Rubbermen open with Elizabeth at Elizabeth on Saturday, September 5, and if victorious meet the winner of the Essex-Trenton game in the semi-finals on Sunday, September 6.

Perth Amboy, Union and Hudson's league champions are in the other bracket and the final for the State title will be played on Monday, September 7. The games are all scheduled for Schweitzer Field on Newark Avenue, at the boundary line between Elizabeth and Newark.

### TAKE IT OR LEAVE IT

Exactly in that frame of mind, you've either got to take the Giants' sensational leap into first place of the National League as the most daring fight in baseball history, or leave it because you're an anti-Giant roofer.

Varied and sundry reports have been coming out of the reporters' camps on the reasons why the Jints sprinted to the top of the heap in such an excited hurry. It wasn't so much of a big rush as it was a steady, grilling climb taking game after game and building up an enviable streak.

Bill Terry hasn't been backward about talking for his club. He believes that a conservative amount of hitting and fewer home runs than one might expect from a Giant team is one reason for the late successes. He believes that although his men have had off days during the year, each of them is going good now and that the club's cohesion and fighting spirit is doing much for this spirited leap to the top.

He points with particular pride to his pitching staff of six, with Carl Hubbell standing out among five others, each of whom has his own little winning streak. One day, Terry says, one of my men is the star and leads us to the tape first, and the next day, another man takes the glory for the day's victory.

It's nothing short of a dream triumph for Terry. Consider the fact that on July 15, the day the American Olympic team sailed for Germany, Terry's club was in fifth place, having won 40 games and lost 40 games. Terry himself hobbled around with a torn knee and a broken finger. That day he went into a game, the second half of a double header with Pittsburgh and helped his mates batter the Corsairs for a triumph which was to start the club on its flight into the stratosphere of first place of the National League.

Look at the Giants go now and see what a game baseball really is!

If there are to be any verbal bouquets handed out for stirring baseball in the National League—whether the Giants win or lose the pennant—those bouquets can go to no other club than Terry's battling Jints.

### AT THE MIDWAY

You've no idea what fun lies in store for you besides the goodly portion of thrills when the Irishers come to the Passaic Stadium September 13 for a bit of old-fashioned hurling. The game's an old Irish pastime in which sticks, like the hockey clubs, are used to chase a ball around...and the tense drama comes from seeing thirty players representing both teams go mad for the sphere with no need for brass knuckles...Johnny Sitarsky will play with the Panthers this football season...Which brings many Passaic memories back to

## Passaic To See Hurling Champs In Old Irish Pastime On September 13

The Passaic School Stadium will be the scene Sunday afternoon, September 13 of an exhibition of hurling, one of Ireland's most ancient games. This is the second time in Passaic's history the events are being held here. Contestants will be the New York and New Jersey championship hurling teams.

Three years ago the same teams battled to a draw here. The Jersey club recently defeated the New Yorkers and also held a decision over the Stamford, Conn. champions by a 16-6 score.

The game is an old Irish pastime, said to originate even before the Greek games of earlier days. Parishes, composed of 100 strong players, battled each other back into their respective camps. Today the game is played more scientifically with only 15

men on a side, but the chances of a bashed beeper or a shattered shin are still better than even money bets.

The implement used by the players is called a "hurley stick". It is of hard white ash, curved at one end like a hockey club. The ball used is about the size of a baseball. The stamina of the players, their clever handling of ball and stick and the speed at which they travel throughout the game are nothing short of marvelous.

Those who have never seen the old Gaelic game will have an opportunity of watching two of the best teams now in the field when the New York and New Jersey hurling champions clash at the Stadium one week from Sunday. The contest will start promptly at 3 P. M.

## PANTHERS GET SITARSKY; OPEN SEASON SEPTEMBER 13

The Paterson Panthers will have Johnny Sitarsky, one of the strongest football products in the State's history, in their lineup this season. Only a month ago, the popular Rutherford youth accepted a job as coach of Bucknell University's freshman squad. The Bucknell post will not interfere with his play here, however.

At college, Sitarsky rated as an extraordinary punter, kicking the ball for an average of over 50 yards through his career. He plays half-back and quarterback, is five feet, eleven inches tall and weighs 195. While he was striking fear into the hearts of enemy high schools in the Rutherford High School lineup he was hailed as one of the greatest football players ever to be produced in Jersey. And at Bucknell, he met all expectations.

The addition of Sitarsky adds further strength to the Paterson Panthers, already well heeled in all around grid strength. Those who have signed to date are: "Bullet" Dick Baltzell, Mush Dubofsky, George Palmers, Edward Brominski, Tony "Red" Mays, Ed Kennedy, Al Kanya, Pete Zucks and Joe Meglen.

The Panthers will be coached by Hap Moran, former Giant player and star with the Paterson club.

The Panthers will open their season with the Brooklyn Dodgers of the National League, on Sunday, September 13th, at the Hinchliffe Stadium.

Walker of the Tigers ripped the shortstop's left wrist with his ankles last Saturday. Four stitches sewn in Crosetti's wound will have to remain in another week and it will take an additional week for the infielder to get back into playing shape.

"Going as we are," McCarthy said, "we won't miss him much, but he can come back rested, and perhaps even more efficient."

the November that little Johnny ran through Passaic High Schools defense at the Stadium to give the Blues of Rutherford a 7-0 triumph over Pickett's Reds...I've got two bucks to place on the Yanks in the World Series, even if the Giants win the National.

## Grand Array Of Entertainment At The Reading Fair

Reading, Pa.—Hailed as the most elaborate program of outdoor entertainment yet conceived Reading Fair's big grandstand show will offer something new and novel to patrons of the mid-September exposition.

Beginning Sunday, September 13, and concluding Sunday, September 20, daily entertainment will run the gamut from Grand Circuit harness racing to a death-defying thrill show. Two concerts by Edwin Franko Goldman's Internationally famous band will officially open the exposition, Sunday, September 13.

Five days of Grand Circuit harness racing will be inaugurated Monday, of Fair Week, with the \$2100 futurity for two-year-old trotters topping the card. Judging will also begin that day in the various livestock, produce and industrial departments.

Perennial scene of the East's major speed conflicts, Reading has again been included in the Eastern championship auto racing circuit of early autumn.

Six events of big time speed competition have been listed as the concluding feature of the 22nd annual Reading Fair, Sunday, September 20. It will be Reading's concluding auto race presentation of the year.

## 5 DOUBLE BILLS YET ON GIANT'S CALENDAR

Pity the plight of the New York Giants in the remainder of their tough schedule. There are now five double headers remaining on the calendar for the club.

A recently rained out tilt with Cincinnati will be played as part of a double bill at the Polo Grounds September 9. The other double headers are: Saturday, September 5th, Boston at the Polo Grounds; Labor Day, September 7, Philadelphia, at Philadelphia; Sunday, September 13, Cardinals, at the Polo Grounds, and Thursday, September 24, Braves, at Boston.

## CROSETTI OUT 2 WEEKS

### Hurt Saturday, Italian Infield Man For Yanks, Gets Rest

Frankie Crosetti, Italian slugger of the New York Yankees, will be out of the game the next two weeks, according to Manager Joseph McCarthy.

"I return from Moscow feeling that the Soviet now holds Japan in contempt."—Hikosaburo Hata Japanese Colonel.

## Frisch Gets 1937 Cardinal Contract

Frank Frisch was signed to remain as manager of the St. Louis Cardinals of the National League for the 1937 season by Sam Breadon, president of the Cards. Breadon announced the contract shortly after the Cards had suffered their fourth straight defeat last week. No salary terms were revealed.

"Frisch is a great manager, Breadon said, "and I thought this was an opportune time to name him as the team's leader next year. He has done remarkably well considering the bad breaks against him in the way of injuries, and he has my best wishes for further success."

Frisch said: "I thank Breadon for his faith in me. At the same time, I'm announcing the fact that we're not out of the running for this year's pennant. Two years ago we were seven games back of the Giants in September, but we went on to win the pennant and also the 'World Series.'"

"Traffic today is a combination of an 80-mile an hour car in the hands of a 20-mile an hour driver, struggling to adjust itself to a 30-mile an hour road.

## Establishment Of St. Peter's College In Montclair Of Interest To Many Here

The establishment on October 5 of St. Peter's College in its own home on the Boulevard, off Montgomery Street, in upper Jersey City is of interest to Passaic, Clifton and South Bergen residents.

St. Peter's, established by the Jesuit Fathers in 1872, closed its doors during the World War. Wholesale enrollment in Army and Navy of faculty members, priests and laymen, and of the student body made it a deserted college.

It was re-opened six years ago under the leadership of the Rev. Joseph Danneen, S. J. president of St. Peter's and of the Rev. Robert Gannon, S. J. who but a month ago was made president of Fordham University.

ident of Fordham University.

A modest but energetic beginning of the resurrected college was made in the floors of the Chamber of Commerce Building, on Newark Avenue, Jersey City, in the Fall of 1930. One hundred applications for enrollment were made and of these 85 were able to meet the scholastic requirement for admission to the freshman class of 1930. Each succeeding year proved a need for the new college, for the combined student registration of the 1935-1936 school year reached well over 400 with representation from over 90 high schools throughout New Jersey.

## Congregation Of Our Lady Of Miracles Honor Patron Saint Saturday, Sunday

The Congregation of Our Lady of Miracles, patron saint of the Mussoni Italian citizens of Passaic, will celebrate the feast of the Blessed Virgin Saturday, and Sunday with special masses at our Lady of Mount Carmel R. C. Church, McLean and Park Place, Passaic.

Band concerts and a parade at three thirty o'clock Sunday afternoon when the statue of the Saint will be borne through the Italian sections of the city, will feature the celebration.

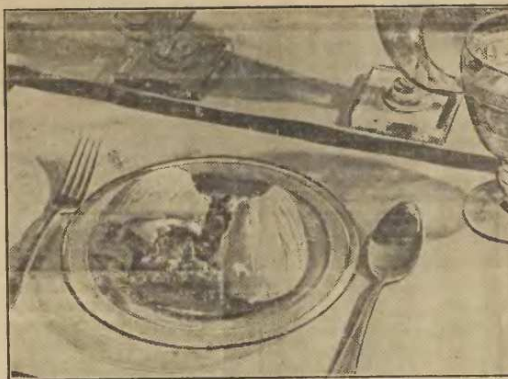

McLean Street will be gaily illuminated for the occasion. Fiesta atmosphere is expected prevail.

The Rev. Remigio Borghesi,

O. M., Cap., pastor of the Mt. Carmel Church, will officiate at the religious functions which will include vespers in honor of the saint at the church at 7:30 p. m., Saturday.

A solemn high mass will be said at 11 o'clock Sunday morning with the Rev. Leopoldi Adrina delivering the panegyric at 2:30 p. m. From 9:30 to 11:30 p. m. Saturday and again at 8:30 a. m. Sunday, Prof. Campione's band will play. On Sunday he will be assisted by another band. From 9:30 to midnight Sunday a band concert will be given with Prof. Campione directing.

## A Simple Three-In-One Dessert

Courtesy Sealtest Laboratory Kitchen

By BEULAH V. GILLASPIE  
Director, Sealtest Laboratory Kitchen

WITH fine berries of many sorts now available at the markets—with delicious ice creams providing a variety of flavors—we've found in our kitchen a way to make and serve a "three-in-one" dessert that makes you ask for seconds, every time. Berries and ice cream in a pudding! Ask the men folks how that sounds to them and then try it out, tonight. It's really easy to make; wholesome and new! Use your own variations of this suggested recipe.

### Blueberry Ice Cream Pudding

1 cup buttermilk  
2 cups toasted bread crumbs  
3 tablespoons butter  
1 cup sugar  
Few grains salt  
¼ teaspoon grated nutmeg

2 eggs  
1 tablespoon lemon juice  
¼ teaspoon soda  
1 tablespoon water  
1 cup blueberries  
¼ cup flour  
Vanilla ice cream

Pour the buttermilk over the bread crumbs. Cream together the butter and sugar and add the salt, nutmeg, well beaten eggs, lemon juice and soda dissolved in water. Combine the two mixtures and fold in the blueberries, sprinkled with the flour. Pour into a buttered square pan and bake in a moderate oven (350° F.) for about 1 hour. Cut in squares and serve while still warm with the ice cream. Serves 6 to 8.

## DROUGHT HAS LITTLE EFFECT ON '36 FLOOD

That the drought would have little effect on the nation's food supply from now until the end of next June was predicted by the Department of Agriculture economists. A special survey on the "food situation" by the Bureau of Agriculture Economics said "the supply of food available for domestic consumption will be almost as large as last year."

The drought has been particularly severe on feed crops, spring wheat, potatoes and vegetables for canning.

## GOLD OUTPUT HIGHER 34% IN PHILIPPINES

1936 Total Is Expected To Run Up To \$21,000,000

A survey completed by the American Chamber of Commerce Journal indicated that the production of gold in the Philippines in the first half of the year jumped 34 per cent to a total of 19,656,571 pesos, equal to \$9,800,000. Production in the first half last year was 14,674,404 pesos or \$7,300,000.

Mining interests here predict the full year production in 1936 will run up to \$21,000,000. Recent output has been running \$2,000,000 a month, with Benguet Consolidated Co. the leading production interest.

The latest discovery in gold mining of the Islands has been on Sibuyan Island. A typhoon hit this small land in the Sibuyan Sea last autumn, causing a landslide. Prospectors later found the slide had uncovered gold bearing quartz.

## State G.O.P. Has United Front In National Battle

Republicans of New Jersey claimed a united front this week as they headed into the Fall campaign. Summer political activities, what there have been of them, virtually closed out on the date books.

It has been reported that populous Essex County, where one faction has supported Governor Hoffman and the other the Clean Government Group, had forgotten internal differences to get behind the Landon-Knox ticket.

It was the opinion of W. Stanley Naughton, Essex chairman who was a visitor at the Sea Girt session Governor's Day, that the Republican National ticket would carry Essex by 75,000.

United States Senator W. Warren Barbour believes Alf M. Landon will carry New Jersey by 250,000. Barbour plans an extensive campaign for his re-election. His tentative schedule included almost daily speaking engagements until Election Day.

Governor Hoffman made known he planned a extensive speaking campaign in behalf of the State and National tickets. His first out of State speech will be at Erie, Pa. on September 9, where he will substitute for United States Senator Arthur Vandenberg.

The Governor's secretary, Miss Elizabeth McLaughlin, issued a statement saying that while some of the Governor's critics have been at the Summer and mountain resorts resting up for the campaign and expressing fears about the Governor's inactivity, Governor Hoffman has not only been taking care of his governmental duties but has found time to make speeches in behalf of National and State candidates.

## RETAIL FOOD PRICES SOAR IN NEW JERSEY

Average Cost Is Higher Than Year Ago—Few Foods Low

William B. Duryee, State secretary of agriculture, held this week that there was a moderate but definite advance in retail costs of many food articles bought by consumers in Jersey during July, as compared with July a year ago.

Even though there are outstanding exceptions to the general price advance, most housewives are confronted with average retail prices for all food that are 3.61 per cent higher than those prevailing a year ago.

"Present retail price trends are becoming a challenge to the housewife with a limited budget," stated Duryee. Despite the price advances for some foods, however, bargains remain in many substitute items," he added, pointing out that August brings the peak of the harvest season for nearby grown fruits and vegetables, most of which are available now at prices already below those reported for last month.

## "GLARELESS" WINDSHIELD

New Safety Device First Shown At Buffalo Conference

A "glareless" windshield glass will be disclosed at the convention of the Illuminating Engineering Society this week in Buffalo. Details of the latest development in highway safety is expected to feature the congress.

The new safety development will be the subject of a paper by L. W. Chubb, director of the research laboratories of Westinghouse Electric and Manufacturing Company, of East Pittsburgh, Pa.

## "Three Kids And A Queen" At The State

Henry Armetta's passion for spaghetti was tried to the breaking point recently when the popular Italian character actor was playing the principal role in support of May Robson in "Three Kids and a Queen." Armetta found himself called upon the scenario to partake of a prolonged meal of meatballs and spaghetti—his favorite dish and the one which he prepares best of all. So Director Edward Ludwig agreed that Armetta could cook the feast at home and bring it to the studio for actual consumption.

But the scenes of the meal continued for three days, with long shots, medium shots and closeups showing the fast weakening Henry consuming large quantities of the spaghetti with enthusiasm and gusto. Every night he prepared a fresh batch, to be kept hot on the set the following day, but finally even his own expert cooking began to pall on him.

In "Three Kids and a Queen" Miss Robson is starred as a wealthy, eccentric old maid, and other members of her supporting cast are Frankie Darro, Charlotte Henry, William Benedict, Billy Burrud and Herman Bing.

"Three Kids and a Queen" starring Henry Armetta and May Robson associated with "Double Harness" starring William Powell and Ann Harding offers a splendid show now playing at the State Theater on Van Houten Street. Popular prices prevail and continuous performances begin at 11.30 A. M. Saturday evening the popular game of "Lucky" will be played. "The new adventure of Tarzan" starring Herman Brix continues to play Friday and Saturday disclosing another interesting chapter.

## "His Brother's Wife" At Fabian Friday

"His Brother's Wife" is the title of the daring picture which comes to the Fabian Theatre tomorrow with the attractive co-starring team of Barbara Stanwyck and Robert Taylor.

Robert Taylor, now the most popular young star in Hollywood appears in the role of a venturesome scientist about to embark on an expedition into the tropical jungle. On his final fling in New York he encounters a red-headed girl and falls in love with her instantly. He considers quitting the proposed expedition but his brother persuades him to carry on. In her bitter reaction of anger and disappointment the girl marries the brother at home. This is the situation to which the young explorer returns.

Her love for him is just as reckless and they go back into the jungle together. There, after her husband has divorced her, the young scientist turns on the girl and orders her to go back. He has failed in his battle to or-

vercome a dreaded jungle disease by discovering an anti-toxin and has determined to inject the germ into his own veins in order to study its secrets.

But the girl anticipates his plan. She thrusts the deadly hypodermic into her own arm and becomes a victim of the malady. In his fight to save her the scientist not only restores their love but discovers the very secret of the jungle for which he has been searching.

Van Dyke, who directed "Trader Horn" and other pictures of jungle existence has employed his rare knowledge of the atmosphere to make the picture authentic in every detail.

The co-feature on the same bill is "Postal Inspector" with Ricardo Cortez and Patricia Ellis.

## "My American Wife" At The U.S. Theater

A fine cast of stage and screen veterans, a neatly designed film play, and expert direction make "My American Wife", Francis Lederer picture with Ann Sothorn, which opens tomorrow at the U. S. Theater, top grade film entertainment.

Lederer, of course, is both charming and convincing in his role, as he has been in every motion picture in which he has appeared. Ann Sothorn, lovely, exotic, and capable of handling the story's breezy, romantic dialogue proves herself a perfect movie team mate for the European star.

Fred Stone, appearing as an old Arizona pioneer who disapproves of the marriage of his granddaughter, Miss Sothorn, to a foreign count, contributes a characterization only Stone could. Billie Burke, who is cast as the heroine's society conscious mother, proves her years of experience on the stage have given her the ability to handle any assignment. Enest Cossart, who has succeeded in working butler roles in to many a picture since he arrived in Hollywood, simply because he proved himself such a superb "gentleman's gentleman," joins with Stone in keeping the romance spiced with comedy.

The story of "My American

Wife" gives an unusual, reverse angle twist to the situation of the title seeking girl of wealth and the money seeking nobleman. Lederer and Miss Sothorn, count and girl of wealth, marry for love. Returned to Arizona, Miss Sothorn is gradually led by her mother to use her titled husband as a rung in the social ladder, while the count himself, in love with America and the open West wants to become a cowboy rancher and swap his title for the nickname "Spike".

The resulting situation brings the pair almost to divorce. Lederer finds his closest friend, after a time, is the man who despised him most on his arrival in Arizona, the old settler grandfather. At the close, Stone has been instrumental in bringing the couple back together.

The co-feature on the same bill is "The Final Hour", with Ralph Bellamy and Marguerite Churchill.
