Hightstown, Oct. 4, 1860.

My dear Mother,

I write these few lines to you hoping that you are now and will continue to be in good health when these shall reach you. How is Uncle and how are the children? Do they still continue to be in good health? And how is sister Margaret and Brother Owen and Brother Thomas? Do they still enjoy good health?

I was very sorry when I received your letter that Brother Owen thought hard of me because I did not ask about him. I did intend asking of him but made a mistake.

Dear Mother, I fear that you think that I have forgotten you but this is not the case for I think of you every day of my life. The cause of my not writing to you sooner was because we had sickness in the family that I had in for a long time. I have left the place that I was at when I last wrote you and am now living in Hightstown about four miles from where I was before. I feel very uneasy about you all for fear that you may be sick or dead or that you may be suffering for the want of the comforts of life. I am going to send home to you four pounds and I hope that you will not want for any more necessary things. I will work and earn money though while God spares my life and strength. I hope you will forget to tell my Uncle for I love him as much as I could say. I hope you will give him the four pounds for I don't want to hear of him any more.
of his children suffer for any thing more than
would myself, I should like to have very much
my uncle's daughter, Mary and Betty Elizabeth
here with me for I know that they could make
a very good living in this country, I want to
know how little Patrick is and how is John
May and his family; If his daughter Catherine
is coming to this country; I hope that our Frank
Conner and all his family are in good health, and
also Thomas Catherine. Now I want you to tell
me in the next letter how all these folks are that
I have asked about and any other uncle's little
Mary and Patrick are? Are Peter Kaffsally and
his family in good health? And lastly are all
the neighbors in general in good health?
I forget to mention Rosie and Owen Conner are
very ill good healthy and all his family?
Dear Mother, I should like to know what
you did last in the summer, I am afraid that
it has been, I want to know also how my uncle
is getting along with his trade; If he is earning
plenty of money to support his family if he does,
I think he had better come over to this country for
here he can make a good living and perhaps get
rich. I love to live in this country very much. It's
all better than in Ireland. For Ireland is a poor
place and I would not live one week in it again.
If I had money to take me over here,
Dear Mother I should like to have you come
over here very much if you think you would be
strong enough to stand the voyage.
I hope you will leave that crowded country
and come over here. I am very happy now but
I should be still more happy if I could see you
more and have you here with me, but I don't
want you to come if you don't think yourself
strong enough to work. I want you to write soon
and let me know if you will come and if you do what
about what time in the spring I may expect you. When you arrive in New York you must go to 30, Mallery's St., No. 3, 3 Howard Street, New York, and let me know from there by letter so that I can come you or to send for you to come out here. If you don't think yourself able to come I want your sister Margaret to come. If your sister is dead I want the money to go to my sister Margaret and if she is not it is for her and she may do what she pleases with it. I have to tell you of the death of Harry Mallery's wife. She was buried on good Friday last. I have not seen any of my comrades since I left New York. I have been very.contrary for I have seen no one that I knew. I was very sorry when I heard the death of Uncle Henrion. I live in Hightown as I said before with Dr. McMillan. It is a large family. He keeps a Hotel and quite a large one too. I like it here very much indeed. I get $2 50 a month which is two more than I got at the other place. There are 6 children and 7 or 8 Irish girls beside all the boarders and help. The children are two girls and four boys. The baby which is a little girl has been very sick for the last three months so that we have not thought that she could live. But she is getting better now. She is very fond of me and I of her. There is an Irish girl in the employ of Mr. Smith, his name is Nelly Coles, and she is an Irish girl living opposite me in another Hotel named Hannah. I am little acquainted with her but she appears to be very nice.

Dear Mother it will be necessary for you to take some provision with you that you will not be likely to get on sea. They are some salt fish, some flesh eggs and some potatoes. There will be all that you will need for you will get some of everything else when you can use.
I am anxious to know if Brother Thomas is living for I am afraid that he is dead. You will tell me in your next letter.

I was not sick at all; I thought it was very unpleasant until the last week or two when I became tired and began to want to go home. I hope that you will fare as well as I did, but I am afraid that you will not, as you are now aged. I hope you will let me know when you are coming about two months before you come so that I can procure you good clothes near by. If you need any money to come, well you must let me know in the next letter so that I can send it to you in time.

I want very much to send a present to my Uncle's daughter Mary, but I have no way of doing so at present. I hope to the next time that I send anything at home if not a present the price of one which will be just the same.

The boys get in that ten dollars a month for driving stage in this country, some of course do not get as much as that but according to their goodness and age. Girls get from three to eight dollars a month according what they can do. Books only get eight dollars a month. I get good wages for what I do.

Dear Mother you had better get you a good warm shawl a red plaid one before you come over.

The different kinds of victuals that we have on the table every day are beef, pork, lamb, chicken, duck, turkey, fish, potatoes, sweet potatoes and Irish potatoes, cabbage, onions, beets, tomatoes, corn, beans, peas, cranberries, apples, pies, puddings, and many other things too tedious to mention.

The prices of eggs are 25c per dozen, beef 15c per pound, pork 10c per pound, butter 40c per pound, corn 35c per bushel, flour 50c per bushel, potatoes 35c per bushel. Now dear, mother, I must close for I have written you a long letter.
