A letter from Bob Marston.

"...the present time..."
Tom and Mrs. Dean are taking over their own home which the Barkmiers are living at present. The Deans will leave the Cross Roads on the let of July and Roy and Charlie Viset will take over the place. We are certainly glad that Tom and Gert are going to stay in town as they have been a vital contributing factor in our community. To every activity they gave wholehearted support. It has become almost a byword with the townspeople "to ask Tom Dean will do it." And certainly Tom always will.

Sailor's take home: "I enlisted because I missed standing on the deck of the Navy yard. Now I know why they keep them off."

If you have been, my thoughts of you.

You're never far away, dear. For we have seen your picture and always we must see your photo before you left and you'll realize my prayers, I and them.

But, dear, you're not from far. And please write to me, dear.

I was almost temporarily wealthier by 1500. My wallet was found in the bushes by a boy playing baseball at Ketcon. The only name in it was "No Call." It was almost delivered to me thinking it belonged to M. Cull. But my happiness would have been shortlived as it rightfullv belonged to someone from Huddleston. As this woman was sitting in the park, a dog grabbed the wallet from her and hid it in the bushes. She didn't miss it until she got home and then was frantically tearing the bushes in which the troopers delivered it to her.

John Wookoff set fire to Garrison. He saw his name in the States papers at the Red Cross, went home and put in a note to his folks that he could call John and sure enough John got in all and the two had a date to meet at the Red Cross somewhere in southern France. They promised me some pictures of the meeting and I hope they come along soon.

Sailor weighs for Edward F. Hardy

Many years ago, Francis Koslow, son of Mr. and Mrs. Edward F. Koslow of Chester, D. I., returned the sailor who was recently visited by his daughter as a second lieutenant in the navy.

Edward Frances Bates

Battalion from Maryland Air Field was located on the islands. More than 1000 planes and ships were destroyed. Bates was a prisoner of war in the mailroom.

On a Pacific, last before returning to the United States, he learned Mrs. Mary Jane Cross.

Howard Robinson, M.D., of the hospital and very busy working every night after work.

Harold Blaine is building a garage in the rear of his house.

Mr. Hollenbeck believes Elvin is still in France. After he left the home, he was sent back to France and he has had the same address for a long time.

Stanley was in the 3rd Army for awhile, having been changed from the 6th Army. He met his cousin Robert in Germany and they were able to have a little time together.

Mr. and Mrs. Robert Army came home last week. Mr. Army was promoted from corporal to private first class.

Mickey Karchison was told to me about a skunk that carried off a little baby. Mickey is playing baseball. His team finished the season against the Mets, a doubleheader 5-0, 3-2. Mickey had an opportunity to hit against a great Leagu e pitcher and believe it or not his average for the season is .347. A lot of his 6 homers were hit for 4 runs, fast drives over the fence in center field. He wants more news from Art Thompson and a letter from him.

FEB. 9-Murdered at seven o'clock, not far from his home, was John H. McMillan, 36. The couple after a brief engagement had bought a home high on a hill near the intersection of a main street in town. Twenty minutes after the body was found, the wife complained of a "slight illness." The police, responding to an emergency call, found the woman dead and the telephone wire cut. There were no signs of struggle, and the police were not called.

Bill Lance and his family are living with Bill's mother in Long Valley. Bill still runs the garage in town. He committee every day.

Mrs. Wergard is living at the home in Chester again.

Alice Fry was home for the Easter vacation from college. She completed her course this June and then hopes to go to Latin American Sect. School for 8 more months.

The first electric light was invented in the year 1809. Thomas Edison was born.

Kellie has been told that big son of his, Baby's doing fine, Mother is in the hospital and Ken is somewhere in the Pacific. He crossed the ocean and wrote home a description of his initiation to his parents and Tom out fishing already.

Chester Names Police To All Salty Dogs

CHRISTENSON-At a special meeting of the Chester board of control, the following persons were sworn in as special police officers for the purpose of killing dogs running at large, John Haffeman of Post Channel, William L. Andrew of Pleasant Bay, and Robert L. Stineman of McLean. This action is taken to prevent the spread of dog disease. Chester is now in the middle of a heat wave and police are working overtime to enforce the dog laws.

The cellar of the Com., church is getting bigger and nearer the end. The cement work has been completed and some men are planning to devote a night a week to do the carpentry work. The next event will be the purchase of the equipment. The Gees have recently held a thriller diller of a movie and Gay Nineties, whose benefit of the basement fund. The movie was the strong silent type with Mabel Normand of the Flapper age in a Western thriller. More people were shot, the villain was the blackest, and the hero the handsomest. Great stuff. We used to think it great. The Gay Nineties show was a typical collection of tear-jerking numbers. Dick Abeles was Mr. Zozo, Bob Call, Harold hospital, and Dick Abeles made up a barber shop number. The boys longer than the better they got. The Willis Manfield danced Mary Luz, Call and Jane Uracy supplied the young interesting. Abeles, Lowery, Minx, Harold Roping and Charlie Horton were the Corps as the pledge, 6 Grecian Ballet dancers who sneezed-up the place (with William Bagge), Lyt Rockwell and her 2 sisters, Bobbie and Betty supplied the music tissue, innocent, sweet and melodious. If you call Judy Canova, melodious. Baker Meyer sang his favorites. When Irish Eyes are Smiling. A young Siurante from Stanhope added a bit, and Max Call and Martha Fry supplied their very usual two and 1/2 fiber of song, dance and chatter. 3 Fire Companies Fight Manfield Blazes MINNEAPOLIS.—A serious fire of incendiary device spread from various frames and then apparatus from Minneapolis and St. Paul was extinguished. The fire, which started in a corner of the packing plant owned by Mr. and Mrs. John Keeler, caused some damage in St. Paul and in the packing plant building and sawdust coming out of the ventilating duct. Mr. Keeler estimated that about 200,000 eggs were destroyed and about 200,000 packing cases destroyed. The packing plant building was destroyed. We identified the Keeler that the fire did not reach anything back to the building on the street, but the smoke made it seem so. The heavy damage was caused by the fire spreading over a period of 30 minutes. Although the Minneapolis Department was called for only 11 chairs of the firemen were not rescued from the fire.
