

REFERENCES & NOTES:
Digital images of the USGS QuikDike Maps of Portland, NJ-PA, Belvidere, NJ-PA and Washington, NJ were used for this map.
Steep slopes data was derived from NGS "Digital Elevation Grids of New Jersey", 1999.
Property boundaries were taken from a composite tax map of White Township and adjusted accordingly.
This map has been prepared as a guide for the White Township Master Plan. Data on this map should not be relied upon for individual lot planning.
This map was developed using NGS's NGS Geographic Information System digital data, but this secondary product has not been verified by the NGS or NGS and is not State-authorized.
