

Description: Clip 2 of 9: Problem 2: How many fewer women than men are in the room? Parent Tape: Word problems with addition and subtraction Date: 1989-03-21 Location: Harding Elementary School – Kenilworth, NJ Researcher: Carolyn Maher	Transcriber(s): Makris, Ava Verifier(s): Yedman, Madeline Date Transcribed: Spring 2013 Page: 1 of 3
---	---

1	0:00:00	Alice	Are you ready?
2	0:00:05	Stephanie	Yeah, There are 11 men in the room. There are 6 women in the room. How many fewer women are in the room? Okay lets see
3		Alice	Can everybody build that too?
4		Stephanie	Okay eleven men (hold up rod of eleven unifix cubes) and six women. (holds up rod of six unifix cubes, comparing the two)
5		Alice	Can each of you build it? Can you do it too?
6		Stephanie	Now, umm. I think what we have to do. There are...it couldn't be five rows, no, it cant be that, more women than men cause there's eleven.
7		Gerardo	There's more men than girls
8		Stephanie	There's eleven men right?
9		Gerardo	Yeah and six girls, women.
10		Stephanie	Okay you're right, what do you think it is? Think! Use your mind and use your pattern blocks! I mean Unifix cubes
11	0:01:45	Alice	What does it ask you? What is the question?
12		Gerardo	Her name is Stephanie
13		Alice	Yeah, I know, what's the question?
14	0:01:54	Stephanie	The question is I think, how many um fewer girls are in the room than boys?
15		Alice	What do you think?
16		Gerardo	No fewer boys, it says it right here. (points to paper)
17		Stephanie	Wait, Gerardo What do you think? I'm willing to go around. What do you think? Gerardo, think. You cant use your hands

			use your mind.
18	0:02:28	Gerardo	I know, that's what I'm doing
19		Stephanie	Want me to give you a few minutes and I'll come back to you? What do you think it is Aaron?
20		Sean	Shouldn't it be seven?
21	0:02:46	Stephanie	Okay count.
22		Sean	No six,
23		Stephanie	Okay...
24		Sean	Because
25		Stephanie	You think its six, Lets see, wait you cant get carried away here. Okay, what do you think?
26		Sean	Five
27		Alice	Can you show me?
28		Stephanie	Well if this is six, then six goes to here (six unifix cubes compared to tower of eleven unifix cubes)
29		Alice	mhm
30	0:03:18	Stephanie	Then you count up from here one, two, three, four, five.. I was right! It's five!
31		Sean	Yup I was right!
32		Stephanie	Let's use these its better, it helps more, than the rocks
33	0:03:34	John & Gerardo	The rocks? No the rocks.
34		Stephanie	Not the rocks, I mean the stones
35		Gerardo	The stones are better

36		Stephanie	Yeah but you can count up, and you can count down.
37		Gerardo	unintelligible
38	0:03:43	Stephanie	You could use those or these, come on.
39		Gerardo	There's not that many pages, we only have two more pages to go
40	0:03:52	Stephanie	hey hey hey don't say that you never know what [unintelligible]
