Mrs. Ellen Nakamura  
Personal Relations Dept.  
Seabrook Farms  
R. F. D. #5  
Bridgeton, New Jersey

Dear Ellen:

In your report of December 18, 1944, about the number of Japanese Americans at Seabrook Farms, I could not make out whether the 13 children who are working were included in your "Total Number Employed Japanese Americans" that is 588. It seems to me that the 13 children were not included in the 588. Is this correct? If so, the report might more accurately be set up as I have done it below:

Seabrook Farms Japanese-American Population

Total employed Japanese Americans.....	601		5596
Men workers.....	428	419	
Women workers.....	160	164	
Children workers.....	13	13	
		596	235
Total unemployed Japanese Americans.....	216		
Men non-workers.....	6	6	
Women non-workers.....	50	55	
Children non-workers.....	160	174	
		235	
Total population.....	817		831
Total Number of families.....	156		163
Total housed in family dwellings.....	542		588
Men workers in family dwellings.....	182	184	
Women workers in family dwellings...	144	148	
Others living in family dwellings...	216	235	
Total workers housed in dormitories.....	262	262	251
Men workers.....	246	235	
Women workers.....	16	16	

Mrs. Ellen Nakamura

December 26, 1944

Would you let me know if the way I have done it is correct? I am giving a copy of this letter to Mr. Chapman so that he can discuss it with you.

In the foregoing figures taken from your report of December 18th, the "Total Housed in Family Dwellings" is 542 and the "Total Workers Housed in Dormitories" is 262 making a total of 804 people living in family units and dormitories. As the total population is 817, there are 13 whose housing accommodations are not indicated in your report. Could you let us know where the 13 are housed?

Thank you for your cooperation.

Sincerely yours,

*H. Leon Yager*
