

December 12, 1917.

To Whom It May Concern:

Mr. William M. Cherry is desirous of securing a position in the Ordnance Department of the United States Army, I understand. I would most heartily commend him to your favorable attention. He attended Rutgers College for two years, taking the course in Electrical Engineering and doing his work well. He was forced to leave college because of financial conditions, and since that time has been employed in the construction department of the Pennsylvania Railroad and as material clerk for the contracting firm of E. H. Vare, of Philadelphia. He is, I believe, qualified for service in the Ordnance Department.

War Service Director
