Dear Silvers:

Received the letter of the Rutgers War Service Bureau of September 19. and was certainly mighty glad to get it. I only stayed at Rutgers a few short months but I am indeed sorry that it wasn't my privilege to spend a full four years at Rutgers. It is certainly fine to receive news from you about the college and what the men are doing. Glad to hear that the whole college is going "to war" in earnest. That is the spirit that will win the war — the will to do and to accomplish — to overcome obstacles — to reach a victorious end.

Received a letter a few days ago from Bull Feitner and in it he told me of his hopes for the Rutgers football team. all I can say upon the subject is — that I think that

Sandy's "Big Team" will come thro
the season with not a single defeat. I
only hope that ~~the~~ team plays the kind
of football that it played in the fall of '17.
and I'm positive that nothing can stop them.

I have now been in France over three
months and am learning to like it rather well.
It is a very pretty country and very picturesque.

As I have said before it was indeed
a pleasure to receive your letter and I hope
that I will continue to hear from you.

Sincerely,

George W. Danks.

Dear Mr. Davis:-

I acknowledge with appreciation your letter of October 21st, and your good word about the War Service Bureau. I suppose you have heard by this time that our foot-ball team has fulfilled its promise of the early season, and is probably the best college team in the country. I only wish that your men could be here to see the Varsity in action.

Very sincerely yours,
