Dear Carl:-

I know you like to get news about the fellows now-a-days so here's for a little about myself. Guess you knew I was travelling from camp to camp, with a party of officers and enlisted men making nutritional surveys. The last of May I was transferred to Washington and have been analyzing food samples in the Bureau of Chemistry since then. Also, I was married to Miss Hazel G. Hughes at Point Pleasant, N.J. on July 4. I've just been made a 2nd Lieutenant in the Sanitary Corps and have orders to report to the Medical Officers Training Camp at Fort Oglethorpe, Ga., for instruction, and then will probably be sent out to the camps to do work ~~from~~ similar to what I was previously doing.

I'm much interested in your notes in the Alumni Quarterly and I'm sorry I can't send some about the other fellows but haven't seen or heard of any of them for a long time. That service letter is certainly a good idea too. I'd be much obliged to you if you'd pass this letter on to Silvers and it may do as my letter to him. The safest address for me now is

Lieut. Arthur C. Metcalf
Food Division, S. G. O.
7th + B Sts.

Washington, D.C.

from which address all mail will be forwarded.

Yours in 1914

Art. Metcalf

Tell Silvers to keep on sending the service letters. I've been getting them regularly, and appreciate them
