Mr. Earl R. Silvers,
Rutgers College -
New Brunswick, N.J.

My dear Mr. Silvers:—

I should appreciate it very much if you would forward me the names and addresses of such Rutgers men that you know are in the military or naval service in the vicinity of Washington.

I am attached at present to the Personnel Office of the 1st. Replacement Regt. of Engineers—

Very sincerely yours,

Graham Jelton '18

My dear Mr. Silvers —

The monthly War Service Setters
have been arriving regularly, and they
certainly are a great institution. When one
reads of the important part Rutgers men
are taking in world events, the ivy covered
walls of old Queens form a mental image
dear to his heart.

While up town recently, I ran across
Sient. "Bill" Slag, '16. He was on his
way to Camp Forrest, Ga. a new Engineer
camp.

Yours for success

Graham Pelton E '18.

My dear Mr. Silvers:-

I dislike to cause you unnecessary trouble, but I should appreciate it very much if you were to mail me a list of Rutgers men who are commissioned in any branch of the Engineers, Ordnance, Aircraft Production or Quartermaster Corps, with their addresses so far as known.

Some one came up to my desk the other afternoon and said he would like to see me for a few minutes. It proved to be Mr. Kline who graduated in the class of 1917. He was on his way to the Engineer Officers Training Camp at Camp Humphries, Va.

Received the new War Letter last week, and it was extremely interesting.

Yours,

Graham Pelton, Class 1918.

Dear Mr. Pelton:

I am sorry that I am not able to send you the list of commissioned officers as suggested in your letter of August 26th. We have not such a list in type at the present time. We are short of clerical help just now and it is not possible for us to give the time to such work.

I thank you for your interest and wish you success in the line of work you have undertaken.

Very truly yours,

Director.
