Dear Mr. Silvers:—

In reply to your letter would state that I have already passed the medical examination. On Aug. 24, I was certified by my local board to district board as having been called for military service but have not been ordered to camp as yet.

Very truly yours,
Kenneth A. Turner.

Mr. Carl Reed Silvers; -

Dear Sir: -

This
little note I am writing
rather hastily to notify
you of a change of
address. I regret my
neglect in not notifying
you before.

Please accept my
sincere thanks for the

many Rutgers letters ⁽²⁾
that I have received.

They certainly are
appreciated and I en-
joy reading them so
much. Although I
never finished my
whole 4 years Rutgers
has always been
very dear to me.

Really this is some
war we have over
here. Old Fritz is
quite at sea now. He

receives a smash
such way he turns.

As for myself I am
quite ashamed. The
very first thing I do is
catch a nice case of
measles and have
been out of the game
very nearly 6 weeks.

Thanking you again
and wishing "The War
Service Bureau" every
possible success
in its splendid

(47).
undertaking of keeping
Rutgers men in touch
with dear old Rutgers
I am,

Sincerely,

Kenneth G. Lums,

Mr. Kenneth Turner,

Dear Mr. Turner:

Your letter of August 9th came to me to day and I
appreciate your kindness in writing me.

I saw on the casualty list the name of Donald Turner
of Basking Ridge who I believe is your brother. Will you please
accept my deepest sympathy.

Sincerely yours,

Director.

My dear Mr. Blier:-

Having safely
returned from overseas service
I have just recently been
discharged from the army.

I am very happy indeed
to be home again. So put it
mildly it was some war.
I was in the St. Mihiel
drive and the Argonne.

I thank you ever so
much for the splendid War
Service letters. They were

always welcome messengers
and I always enjoyed reading
them. I can not praise too
highly the service the
War Service Bureau rendered
to Rutgers men in service.

Thanking you and
with every best wish to
dear old Rutgers Jan,
Sincerely,

Kenneth A. Turner X'14.
