

DELEGATES OF DISTRICT V AT LINCOLN

## The District Conferences

HERBERT WHEATON CONGDON, *Columbia '97*

CONFERENCES were held in all the Districts save that of the Pacific Coast, where the great distance to be traveled by delegates from the California Chapters made it impossible under conditions of war finance to accept Washington's invitation. The District Supervisor had arranged sessions so that he was able to attend all of the Conferences, and he returns convinced that there is no question of the value of these meetings particularly in war time.

Some doubt was expressed as to whether the Conferences ought to be held in these times of intensive effort and personal economy; but it is certain that those attending the various Conferences are unanimous in their opinion that the inspiration and encouragement that they could take back their hard-pressed Chap-

ters, as well as the practical information that was obtained from the discussions, made the Conferences things of necessity and peculiarly important to maintain during the war.

It is unfortunate that a few of the Chapters failed to foresee the importance of sending underclassmen as delegates, although the great majority of the Chapters took that precaution, and are, therefore, assured next year of the presence of these men who took part in the discussions and felt the inspiration which is inevitably derived from the realization that other people are suffering the same hardships as themselves.

The sessions were shorter than usual and given up almost entirely to business. This was, of course, somewhat exhausting to the delegates; but there was every-

## A BOCHE NIGHT RAID

Swift through the keen swift night,  
Under the star-sparked sky,  
We wend our singing flight  
Over the towns that lie.  
Sons of the Vikings we,  
Forging our steels to their will;  
Werewolves' spawn as we sweep to the  
dawn  
And fang to the Call of the Kill.

The hum of the motor's breath  
Swells to the silent skies,  
For the sweet, warm reek of death,  
Of blood, warm blood, shall rise.  
The buds that we bear are black;  
They shall blossom in red-flowered flame  
For the torn, sweet bodies of babes.  
You'll track  
Our course by the curse on our name.

The Beast shall be glutted with blood,  
The Beast of our worship and prayer.  
The God of the richened flood  
That we start through the crying air.  
Mother and wife and child,  
Limbs that twist and are still,  
We slay, we slay, till the hurrying day,  
As we fang to the Call of the Kill.

## TO HER

White butterflies above a buckwheat field  
In blossom, like faint petals flung  
Up from the flowers, wind-held, drifting  
slow.

You said that they were olden lover-souls,  
Lovers of earth and beauty. All in life  
That sang was sweet to them, and now  
they float  
Flesh-free, the beauty that they thrilled  
to know.

If some time I shall feel the sudden, single  
breath

Chill me to stillness while you still are  
here

On earth, and in sunshine you shall see  
White butterflies above a buckwheat field,  
Perhaps—you said—you will remember,  
Dear?

## A FRENCH MILITARY GRAVEYARD

Long, straight rows of mounds, white  
with the chalky earth,  
Heading each a slender cross of wood;  
On it a name, a regiment, a benediction,  
"Mort pour la France."  
A few, apart, yet put so only by man's  
hands,

A lonely row of Moslem graves,  
With fingerboard shafts. On them  
Strange-charactered, a name, a crescent  
and a benediction:  
"Mort pour la France."

You will not see until you walk along  
and watch

That here and there are mounds, cross-  
marked,

"Un soldat Allemand." All of them lie  
together now—

The Poilu and the Boche, waiting.

On some graves

Sod crosses, or perhaps a gaudy wreath,  
"A Notre Camarade," or "A Notre Fils."  
In each gaunt mound

An empty wine bottle, upside down,  
To hold and shelter a sodden paper or a  
picture.

One row is not yet finished,

The seed not yet all sown;

The holes yawn brown against the deep  
dead white of the rest of the soil

Waiting for men to die.

Yet this is no place of tarnished glory,  
Of mouldering honor, or of slow tears.  
This is the France that dies, yet cannot  
die.

## DEAD YOUTH

We who have known the flowers and the  
sun,

We who have loved steep hillsides and the  
moon,

Can it be said death came to us too soon  
That fire rude-quenched, its flame but  
scarce begun?

Enough for us that Beauty found us clean,  
That the clear call has caught us unafraid.  
Singing we seek the Dark, and undis-  
mayed,

To find new kingdoms, Beauties now faint  
seen.

ample, the Chapter of thirty was maintained then by just as vigorous "electioneering" as present-day rushing, and the old-style pranks of tying a bleating ram in the college belfry (Hamilton Chapter please note) or chasing an alarmed heifer down street with a tin pail tied to her tail, are represented today by more scientific wickedness with electric light and signal circuits: while the breaking up of the "Faculty Dance" by red pepper judiciously sprinkled on the floor is not yet archaic.

The curriculum was the most distinctly different feature of this college life. Scorning our effete modern delusion of setting clocks ahead, they saved daylight by a schedule calling for Chapel at 5:45, recitation at 6 A. M., breakfast at 7 and only two other recitations; one at 11 A. M. and the other at 4 P. M., with study periods from 9 to 11, 2 to 4 and 7 to 9. During these no student was allowed out of his room. These hours did not interfere with athletics, dances and other college activities, for the simple reason that such things were "not yet invented."

Another notable difference from present-day undergraduate life was in the marked class distinctions. There was an almost total lack of interclass intercourse; it was neither desired nor encouraged. Few men entered the freshmen class, which was consequently small, the old and still famous "academies" graduating their men into the Sophomore year. The underclassmen roomed in Kellog, the upper classes in South College, two blocks away, and the termination of the evening study hour was the signal for "lights out" and complete quiet. Midnight oil was evidently not a commodity.

The two Literary Societies (which, I believe, are still existent) were the only genuine "college activity," and competition between them was keen for both men and honors. Brother Miner was a Philotechnician, and one of their strong campaign arguments was the membership therein of Mark Hopkins, not only their beloved college president, but famous over the country even in those days.

These Societies were by no means secret, yet I imagine little was said by their members about a Certain Group who on

one cold winter night piled cordwood solidly into the entrance of the Math class room, and then with patient endurance poured pail after pail of water over it until it was frozen into a solid mass.

The resourceful old Professor (God rest the soul of a good sport!) on discovering the way blocked the next morning, announced to his shivering and expectant class: "Gentlemen, today's lesson is changed, and you are hereby directed to calculate the cubical contents of this solid in three different units: yards, feet and inches. I shall make my own measurements as a check on your accuracy. Good morning."

\* \* \* \* \*

And so Brother Miner sits in the sunset, a "friend of all the world," a storehouse of cheerful anecdotes, and the beloved comrade of many.

### A Peck of Purdue

Sammy Peck, whose picture is shown herewith, is serving in France with the Rainbow Division. Would you ever think, from looking at the picture, that he could have been described in "The Debris,"

Purdue's annual publication, as follows:

"Astute, erudite, systematic, perfectly groomed, equipped with a working vocabulary of inordinate size, with a "La Pref" of modest proportions in his mouth, "Sammie" leaves the University better prepared academically than most of us to meet the demands of the engineering world. His industry early brought him a Tau Bate key, together with uncomfortable reputation of being a shark."

He is now 2nd Lieutenant of Battery D, 150th Field Artillery, A. E. F., and should be so addressed.

### "Ob" Armstrong

THE Rutgers Chapter of the Delta Upsilon Fraternity is justly proud of the record its members have made since the United States entered the war. Not only does the Chapter lead all the fraternities and clubs in the number of its members in the service, with sixty-

six names on its honor roll, but it also leads in men overseas with a total number of twenty-four. Of these men in the service but two are drafted men and both of these were rejected on physical grounds when they volunteered.

Another source of pride to the Chapter is that two of its members have already distinguished themselves by winning the coveted Croix de Guerre. Obadiah P. Armstrong '16 of Newton, New Jersey, was given this decoration on September 1, 1917, by General Gratier, for conspicuous bravery in removing wounded under shell fire and gas attack. "Ob" had been rejected for our army and had enlisted in the American Ambulance sailing for France on June 20, 1917. On the sixteenth of August his section (60) went into active service and less than a week later Ob had done deeds which called down the commendation of the French military authorities. He further distinguished himself in September by clearing a bombarded road of dead horses in order that the ambulances and artillery might get to the front. At this time he was so severely gassed that he was given an honorable discharge as unfit for further duty. He returned to America to recuperate and but a few days ago was successful in his physical examination for the artillery.

The following are the official documents of the French Government in regard to the case—

Sec. San. Americaine No. LX.

Armstrong—S. S. A.—American Volunteer.

Distinguished himself in carrying on his work from the 17th to the 26th of August, 1917, with the greatest calm under different circumstances,—in particular on the night of the 19th under a violent bombardment of poisonous gas shells he himself cleared an obstructed road, so as to re-establish the evacuation service, for the moment interrupted.

GRATIER,

*Commanding General.*

ORDER NO 3413.

During the hard days which we have just passed through, the S. S. Ambulance 60 accomplished its work with a heartiness and a devotion to which all those who saw during that time unanimously render homage.

Officers, sons of officers, conducteurs—French and American—the Medicine Divisionaire thanks them all without distinction of rank—in the same way as the wounded,

whose tortures they did everything to shorten.

He is happy to let them know that, as a proof of his satisfaction, the Commanding General of the ——— Division has accorded seven decorations at the order of the Division.

He will also be happy to go on the first day of "repos" and give this decoration, on the ribbon of which our brave friends and allies will be happy to recognize one of the stars of their glorious flag.

(Signed)

MONEGER.

### Conklin of Rutgers

On January 12, 1918, the Croix de Guerre was awarded to Sherman L. Conklin '16 of Newark, New Jersey. Sherman enlisted in June in the Ambulance and was sent to the concentration camp at Allentown, Pa. In August his section sailed for France and went into active duty shortly after arrival. On several occasions the section was cited for bravery. In January the following letter

was received at the Chapter House from a member of the section—

"Cub Conklin asked me to drop you a line and say that he could not write himself on account of a pair of burned hands. A few days ago he tried to beat out a comrade's burning coat. The other fellow had without knowing it, gotten his sleeve all wet with essence and it blazed up in the air. Cub put out the fire, probably, in fact undoubtedly saved the chap's life—but was burned on the hands and a little on the face. He is being carefully looked after in an excellent French Hospital near here, and there is no danger, little chance even of scars.

We expect he'll be out and around again in a week or so, and we are mighty proud of him, because he did a man's job, as brave a one as ever was. He will probably get a *permission* after he leaves the hospital. He is as comfortable as burns will let a man be, and his care is most excellent. His hands are a bit awkward with wadded bandages or he could probably push a pen himself. However, he will soon. If anything turns up I'll write again—but next you hear will probably be first hand."

On the twelfth, the cross was conferred on Sherman while he was still in the hospital. For his burns were much more serious than were first supposed and it was five weeks before he was permitted to leave. At the expiration of that time he was granted a *permission* and is now back on active service with the Ambulance although he is attempting to transfer to Aviation.

### Colgate's War Record

An interesting statistical letter has been received in the Fraternity office from the Colgate Chapter. They feel, and rightly, that they have a record to be proud of, and it is a record of which we are likewise proud, because it is *not* unusual. It is to be hoped that other Chapters will bring to the attention of their Alumni their own splendid records. Sometimes the finer the record, the less possibility there is of writing it up, as the few men left behind are overwhelmed with work.

June 1918

The Colgate Chapter last year was one of the large ones, with a membership of forty-five men. This year they had thirty-two. They report the total number of men in the military service as thirty-two, with two men in the service of our Allies, four in Y. M. C. A. work here and abroad, one of whom, Harvey Clark '14, died in Mesopotamia while in the Y. M. C. A. service. They also have one Red Cross worker and three men engaged in civilian

work for the Government. Of the total men in the military service twelve hold commissions and seven are non-commissioned officers.

The proportionate delegation representation is likewise interesting, the class of 1917 leading with six men in service out of a delegation of seven, the smallest representation very properly being from the Class of 1921, which has two men in service out of a delegation of thirteen.

### DAWN

Across the calm, clear sky of God  
A great white glory gleams.  
The young men find the altar stairs  
Of world-rapt hopes and dreams.  
The idol crumbles into dust,  
The blood-stained crown shall fall  
Before the shining armies  
Of the Lord, the God of all.

Bow down, O ye of high estate,  
Bow down, ye men of might.  
Out of the dim, grey, faithless years  
The world moves into light.  
The thunder-guns that reel the skies  
Shall sound a mightier call  
Before the shining armies  
Of the Lord, the God of all.

### THEN

When age has dimmed the swift, clear  
glow  
Of sacrificial youth,  
And we look back, chagrined to know  
How much we've spent for truth—  
(For age will dim the swift, clear glow  
Of sacrificial youth)—

When we are tired and gray and old,  
Laggard of heart and will  
And all young dreams shall leave us cold,  
While all our lives are still—  
(For we are tired and gray and old,  
Laggard of heart and will)—

Quick may the Messenger be sped,  
To chill our bodies, for we're dead.

October 10  
1918

Mr. J. D. Livingston,  
7 Pine St .,  
New York, N.Y.

Dear Mr. Livingston:

I have been unable to see President Demarest today but I have telephoned the military department and they advise me that they have no record of any recent word from Washington regarding the fraternity situation.

However, I feel sure that the president must have received some information as he is sending around today, the enclosed memorandum to all fraternities. As this memorandum is dated September 30, he must have understood the situation prior to your letter of October 8th.

Very sincerely yours,

Enc.

Assistant to the President.

WARREN ACKERMAN MAYOU '90 served on the Draft Board in New York City during 1917 and 1918 and served as active treasurer of the National Special ~~xxxx~~ Aid Society, an organization that raised over \$ 400,000 to aid the men in the service. In the summer of 1918 he joined the American Red Cross as a semi-volunteer worker and left New York for France on Oct 2, 1918. He crossed on the Panada to England and, after being commissioned a captain, he was sent to Paris on duty at the Legal Depot, American Red Cross Headquarters. He remained there until the middle of April, 1919, being occupied with questions relating to leases, contracts, and claims of all kinds which involved a knowledge of the French language and the French law. In April, 1919, he was assigned to the Home Service Department at Camp St. Aignan-Nayers, about 40 miles east of Tours, where he advised casuals as to their legal rights and aided a number of college men to obtain their discharge in order to continue their studies in France. He remained there until the end of May when he returned to Paris and made a tour of inspection of the devastated regions of France. He set sail from Brest on the U.S.S. George Washington on June 3, 1919 and arrived in New York on July 6, 1919, and was honorably discharged.

### JOYCE KILMER '08 (Continued)

"Joyce Kilmer met his end in the heroic performance of his duty. During the Marne Advance, the 1st Battalion of the old 69th Regiment, to which we were both attached, penetrated a village which the Germans had evacuated. The night before Joyce Kilmer was killed we were in full occupation of the town and early the next morning our battalion was directed to go on and pick up ~~xxx~~ contact with the enemy again."

"Being attached to the Intelligence Department it was the duty of Kilmer to precede the battalion and discover the possible location of the enemy guns and enemy units. The last time I saw him alive was on that morning after he had crept forth along into No Man's Land, and had come back ~~ag~~ on a brief errand into the village. He was full of enthusiasm and eager to rush back into the woods where he and others had suddenly discovered enemy machine guns."

"A party of us moved out with him, the battalion following slowly. Then the commander sent forth a patrol with Kilmer in the lead to establish the exact location of the machine guns which were bunched in the woods. I lost sight of Kilmer and a couple of hours later the battalion advanced into the woods to clear the spot of the enemy. In the course of this advance I suddenly caught sign of Kilmer lying on his ~~xxx~~ stomach on a bit of sloping ground, his eyes just peering over what appeared to be a natural trench. Several of us ran toward him, thinking he was alive and merely ~~laying~~

JOYCE KILMER '08 shortly after war was declared enlisted in the 7th Infantry, National Guard of New York, which was changed to the 107th Infantry and sent to Camp Wadsworth, S.C. for training. ~~He~~ In October, 1917 he secured a transfer~~ed~~ to Headquarters Company, 69th Infantry, National Guard of New Jersey, which became the 165th Infantry at Camp Mills, Long Island, N.Y. in order that he might get to France sooner. With the 42nd Division he sailed for France in the fall of 1917. Upon his arrival in France he was attached to the Regimental Adjutant's Office doing statistical work. Because he wished to get into action, he obtained a transfer to the Intelligence Department where he was promoted to sergeant. He was decorated with the Croix de Guerre and on July 30, 1918, while in the thick of the Marne fighting, he was killed by a German machine gun bullet. Numerous chances were offered him to obtain a commission, but he refused them all, preferring to remain an enlisted man. Upon his death, however, he was buried along side of some officers.

Sergeant Major Elser, a Harvard graduate, gives the following description of Kilmer's death:

lying there with his attention fixed on the enemy."

"We called to him but received no answer. Then I ran up and turned him on his back, only to find that he was dead with a bullet through his brain. What had happened was obvious. He had crawled ahead of his patrol to scent out the guns and had reached the ridge of ground behind which he ~~xxxxx~~ held himself concealed from the German gunners until, no longer to resist the temptation, he stuck his head above the ridge to get a better view of the enemy. In that position the bullet found him."

Sergeant Major Elser also said<sup>#</sup> in speaking of Kilmer: "A man of relentless energy and enthusiasm, facing death with jaws firm but laughter always in his eyes and returning always with a useful report of what he had seen and heard in No Man's Land."

Kilmer's citation for the Croix de Guerre read as follows:"

"Trained in the duties of a shock battalion, he gave evidence of great activity and bravery in the accomplishment of his work of reconnoitering. On July 9, 1918, when his battalion had been obliged to make a flank movement, he was of great assistance to his commander in assembling the details of the manoeuvre. The adjutant of his battalion having been killed, he replaced him in a remarkable manner. On July 30, 1918, he was killed by a bullet ~~xxxxx~~ while carrying forward an attack at the side of his colonel."

OBADIAH PELLET ARMSTRONG '16 ( Continued)

Sec. San Américaine No. LX.

Armstrong - S.S.U. 60 - American Volunteer.

Distinguished himself in carrying on his work from the 17th to the 26th August 1917 with the greatest calm under difficult circumstances, - in particular on the night of the 19th under a violent bombardment of poisonous gas shells he himself cleared an obstructed road, so as to re-established the evacuation service for the moment interrupted.

( Signed)

Gratier

Commanding General

-----

During the hard days which we have just passed through the S.S. Ambulance 60 accomplished its work with a heartiness and devotion to which all those who saw it during that time unanimously render homage.

Officers, sous-officers, conducteurs---French and American, the Médecin Divisionnaire thanks them all without distinction of rank-- in the same way as the wounded, whose torture they did everything to shorten.

He is happy to let them know that, as a proof of his satisfaction, the General Commanding the Division has accorded seven (7) citations at the order of the Division.

He will also be happy to go the first day of "repos" and give them this decoration, on a ribbon of which our brave friends and allies will be happy to recognize one of the stars of their glorious flag.
