Rutgers Becomes Regular Army Post.

S. A. T. C. PLANS LAID OUT.

The greatest new factor, probably, in the United States Military System "over here" is the newly organized Students' Army Training Corps. It is for the purpose of inducting and training the college men of America for officers in the United States Army. In 350 colleges and universities, among which is Rutgers, units have been placed by the Government. In this way it is expected that over 150,000 college students will be immediately inducted into the military service of the country.

Every man in the student body, eighteen years of age or over, not an enemy alien, and not previously enlisted in any branch of service, who can pass the required physical examination, is eligible to be inducted into the S. A. T. C. at his own volition. Such action takes him out from under the authority of his local draft board and from that time on he is an enlisted man, candidate for a commission, and subject to all regular military rules and discipline.

To all members, tuition, housing, subsistence and clothing will be furnished by the Government, and in addition each man will receive the regular pay of a private, \$30 a month.

The college campus will be an army post, with the limits of the campus as the bounds of the post.

Lieutenant Torpey, Commandant, will ultimately be in charge of all college activities with the exception of the academic work, which will be left largely to the former college authorities.

Students Inducted Into S. A. T. C. at Noon, October 1, 1918.

The induction of all students into the S. A. T. C. took place exactly at noon, October 1, 1918. This was not only for Rutgers but for all other colleges where units of the S. A. T. C. have been established.

Exceptional speed has been made by those in charge of the institution of the new corps. Physical examinations were completed before Tuesday noon and the induction took place notwithstanding the absence of uniforms.

New Course Gives Intensive Training.

The real object of the S. A. T. C. C. is to give the members intensive military training and class-room education in subjects directly or indirectly contributing to the making of ability for service as officers in the engineers as well as line and staff officers of the army.

Hold Your Liberty Bonds.

Now that you have subscribed and paid for your bond, your job has only just begun. To carry it through to a finish, you must keep your bond as a permanent war investment.

You loaned your money to the Government because it was needed; do not ask for it back until the Government has ceased to need it.

All hedges on the campus have been cut down during the summer to about nine inches. The roots were not frozen, and they are now growing rapidly.

Patriotic Enthusiasm Marks Senator Frelinghuysen's Opening Speech in Kirkpatrick Chapel.

Wednesday, September 18, 1918, witnessed the opening of the one hundred and fifty-second year of our college. This is the third time in its history that old Rutgers has opened in an atmosphere of war, but never before has it taken such a distinctive position as a war college.

President Demarest in his opening speech stirred all hearts at the mention of James B. Scarr and Sherman L. Conklin, who have given their last full measure of devotion for their country.

Joseph S. Frelinghuysen, a trustee of the college, and United States Senator from New Jersey, was then presented 'midst a rising applause. He outlined the great work which had to be done in training the one hundred thousand officers necessary to command the men in the new draft. "We are realizing more and more," he said, "that knowledge in military arts and sciences to-day is power. We always supposed that it was bravery that won wars. But this war has shown us that it is mechanism against mechanism, science against science." Thus, study and work are

the fundamental requirements for success in the art of war.

In closing, the Senator said: "I say to you: Stand first of all for God, and work and pray for old Rutgers."

100 Per Cent Attendance Required in Chapel.

DR. BEVIER OUTLINES NEW CURRICULUM.

Numerous announcements of utmost importance are made in morning chapel. Everyone must be there to receive instructions.

Monday morning, September 30, chapel services were led by Dr. Demarest. After the prayer, Dean Bevier outlined the course of instruction as planned by the National Committee on Education. He spoke chiefly to Freshmen and Sophomores. Technical courses will be very intensive. As an example, those entering the Chemistry course will adhere strictly to chemical and military work for four terms of twelve weeks each. If they are in high standing at the end of that time they will be retained for four terms more. The four-term men will go into laboratories as analysts.

The Freshmen are given opportunity to choose either liberal or technical courses. Those who have not had Solid Geometry and Plane Trigonometry cannot take any technical course except Biology or Agriculture. Technical upper classmen will probably remain in the course which they have chosen. Those Freshmen who wish to get into the army quickly will take the liberal courses. All liberal-course men over twenty years of age may go to camp at the end of the first term. Those nineteen years of age will probably stay through two terms. All those who wanted to change courses had to do so on September 30, 1918.

A Chance to "Make Good."

A student of the S. A. T. C. in order not to win a commission or a chance for further training in a Central Officers' Training Camp must prove that he is not officer material. On the other hand, the draftee must prove that he is officer material in order to win the chance for C. O. T. C. instruction.

Mr. Howard D. McKinney opened his new series of Sunday afternoon organ recitals in Kirkpatrick Chapel on September 29, 1918.

Rutgers Has Fine Corps of Military Instructors. All S. A. T. C. Men Live Under Five Roofs.

NO FRATERNITIES.

LIEUT. TORPEY AND SIX OFFICERS TO ASSIST.

Commandant James C. Torpey, 1st Lieut., Inf., U. S. A., will have as his assistants six second lieutenants, recently commissioned from Plattsburg. Ordnance Sergeant Cooper, who has been in New Brunswick carrying on the routine work of the Military Department all summer, will also assist.

Lieutenant Torpey was born in Philadelphia, Pa., August 5, 1894. He graduated from the Northeast High School of Philadelphia, and from Villanova College in 1914. He was a member of the Pennsylvania National Guard from 1913 to 1917, and attended the Plattsburg Training Camps of 1915 and 1916. On November 27, 1917, he graduated from the Officers' Training School at Fort Oglethorpe, Ga., and was commissioned a second lieutenant. He was assigned to the 50th U. S. Infantry at Camp Greene, Charlotte, N. C., remaining there until June, 1918, when he was detailed to Plattsburg as an instructor. He was commissioned first lieutenant in July, 1918, and remained at Plattsburg until September.

The following men, all second lieutenants in Infantry and recent graduates of Plattsburg, are to act as assistant instructors in the Military Department:

Lieut. George G. Finney, Princeton.
 Lieut. William H. Downs, Princeton.
 Lieut. Dean R. Buterbaugh, Princeton.
 (Personnel Adjutant.)
 Lieut. Henry L. Everett, Jr., Episcopal, Phila.
 Lieut. Charles C. J. Carpenter, Princeton.
 Lieut. Russell Gerould, Harvard.
 (Post Adjutant.)

Physical Examination For Sophomore Class Is Held.

The physical eligibility to the S. A. T. C. of 72 men in the Sophomore class was determined September 28. The men had answered the preliminary questions on their report sheets in the morning, so that nothing but the examiners' data had to be handled. In three hours the task was done. But to accomplish it, Lieutenant Torpey required the assistance of his staff, the physical director, four physicians, and a chemist. All eligible men were measured for uniforms.

A candidate for a commission will have to pass another such examination before it is awarded him.

The War Department representatives have inspected housing facilities on the campus. A more compact arrangement is required. The following buildings have been selected to house the entire corps:

Ford Hall.
 Winants Hall.
 Delta Phi House.
 Kappa Sigma House.
 Beta Theta Pi House.

All other fraternity houses will be emptied in a few days. They will be at the disposal of the fraternities to either close or rent to civilians.

Fraternities are asked to take in no more men after September 30. A national order is expected soon to discontinue all fraternity activities for the period of the war.

Under this new housing plan heating and lighting problems will be more readily cared for.

Officers to Use Ivy Club.

Although it has not been definitely settled, it is very probable that Lieutenant Torpey with his staff of officers will occupy the Ivy Club house as officers' quarters. Under these conditions they will eat in their own barracks as regular officers' mess.

Mr. Brown Glad to Return to Rutgers.

The General Secretary of the Rutgers Y. M. C. A. has just returned from a visit to five colleges in Pennsylvania. The War Work Council of the Y. M. C. A. will hold a convention to consider ways and means for best maintaining college Y. M. C. A. work through the period of the war. Mr. Brown urged the colleges to send representatives to the convention. It is probable that the War Work Council will provide for the continuance of the "Y" work where there are 250 or more students in an S. A. T. C. unit.

A representative who will stay permanently at each college is to meet with the others of this division over the coming week-end. We are in the Eastern Division, which is co-terminant with the Eastern Division of the Army. We are one of the few colleges fortunate enough to have a general secretary.

Mr. Brown visited Albright, Franklin and Marshall, Bucknell, Dickinson, Lebanon Valley, Pennsylvania College (Gettysburg). He comes back with a new feeling of pride for old Rutgers.

Facts of the Future.

All enlisted men will wear the regulation army uniform at all times. Uniforms and equipment will be furnished by the Government, probably within two weeks.

"S. A. T. C." with the Rutgers seal will constitute the collar insignia.

The limits of the campus are the bounds of the post. No man may leave the post without a pass from the proper authority.

Under normal conditions a limited number of week-end leaves will be granted, to extend probably from 1 p. m. Saturday to "taps" Sunday night.

If an excessive number of furlough applications are filed only a certain percentage of them can be granted at one time, others having to wait their turn.

All men in good standing will be privileged to leave the post Saturdays from 1 p. m. until taps (11 p. m.). This will only be granted with the proviso that all rifles, equipment, etc., are in good shape and *clean*. So, Beware!!

There will be no regular drill on Sundays, aside from chapel formation.

Formal guard mount will not be a part of the daily schedule, but a complete program of interior guard duty will be carried out for purposes of instruction.

The post will never be left deserted.

Mess will be "served" in two sections at Winants Hall, cafeteria style, with army mess equipment.

A K. P. (Knights of the Pantry) detail will be assigned each day for dish washing and general kitchen duty.

Drill will be held at Buccleuch Park in good weather and when indoor work is necessary on the gymnasium floors.

Permanent non-commissioned officers will be appointed immediately, but all students will be given the opportunity to act in the various positions.

Regulation bugle calls will announce all formations.

Rutgers Heartily Receives Five New Professors.

It is a warm welcome that we of old Rutgers extend this year to our new professors. In this time of reorganization and preparation for what we are confident will be an exceptional service, we are glad to have these five men with us in our work. Professor Little and Mr. Hollinger are to help train the chemists among us to beat the Huns in our laboratories behind the lines. Professor Kull comes to aid

us to a fuller understanding of the present with historical backgrounds, and to prepare us for the coming era of reconstruction. Professors Crow and Samson are to help us in our educational work. We are glad to welcome these men because of what they are going to do, for we are sure they are to play a large and important part in our college courses. We are proud to welcome them to Rutgers with her fine traditions of former service, and with her promises of future attainment. And so as leaders and as comrades in a common task we bid our new "profs" "Welcome!"

S. A. T. C. Daily Schedule.

Exact details as to the working schedule starting October 1 have not yet been fully settled, but the approximate hours of formations are given as follows:

	A. M.
Reveille	6.15
Assembly	6.30
Calisthenics	
Recall—Sick Call	6.45
Mess Call	6.55
Assembly	7.00
Chapel	7.45
Classes	8.30
	P. M.
Mess Call (Cos. A, B)	12.25
Assembly	12.30
Mess Call (Cos. C, D)	12.55
Assembly	1.00
Classes	1.30
Drill	2.30
Recreation	4.30
Retreat	5.00
Mess Call	5.55
Assembly	6.00
Call to Quarters—Study	7.00
Tattoo	9.45
Taps	10.00

Ignorant Freshman: "Why are the men spraying the trees on the campus?"

Wise Young Soph: "Why, stupid, they are putting camphor on the fir trees to keep the moths away."

Handsome Salesman: "Couldn't I interest you in an automobile?"

Pretty Girl: "Perhaps you could. Come around in one some time."—*Exchange*.

All Out, Freshmen!

The Freshman class has come to the Banks of the Raritan when action is at its height. They have provoked expressions of appreciation from the older Rutgers men and faculty. In many ways the college life is completely upset by the entrance of the S. A. T. C., but the men of '22 have settled down with scarcely a complaint and are ready to go ahead.

In the midst of confusion the upper classmen have had only too little time to devote to our new class. The wish has been expressed, however, that a greater number of the men of

'22

Come
Out
For
Some
Activity.

Track season is just starting. There is a call for all track men who have any ability. Many TARGUM positions are still empty. The traditions of old Rutgers are glorious, but it was student activity that made them possible.

Rutgers May Supply Demand For Rooms.

There are nine fraternity houses on the campus, soon to be vacated by the new members of the S. A. T. C. Rooms are in great demand for accommodation of the men working in war industries of New Brunswick. It would be both patriotic and profitable to rent to these men.

Our Foot-Ball Schedule.

There are still several open dates in the schedule to be filled, but it promises to be one worthy of the great team that "Sandy" is building up. The schedule to date is:

- Sept. 28. Ursinus at New Brunswick.
- Oct. 5. Swarthmore (?) at New Brunswick.
- Oct. 12. Lafayette at New Brunswick.
- Oct. 19. Lehigh at South Bethlehem.
- Oct. 26. Open.
- Nov. 2. Colgate at Polo Grounds, New York.
- Nov. 9. Penn. State at State College, Pa.
- Nov. 16. West Virginia at New Brunswick.
- Nov. 23. Open.
- Nov. 28. Open.

The Swarthmore game has not as yet been definitely arranged. Swarthmore expects to have a very good team, as they have five veterans back and a lot of good material. Manager Horsford is hoping to fill up the three open dates with strong teams, as our trouble in the past two years has been to schedule big games.

Y. M. C. A. Holds First Meeting.

The Young Men's Christian Association held its first meeting of the year at the gymnasium, Wednesday evening, September 25. Many turned out to hear President Demarest, who was the speaker of the evening. His message was given in a discussion of the characteristics of a true Christian. First of all is achievement: a Christian must achieve, accomplish deeds of honor and worth. Second, a Christian must serve and fight for that which is right. The third characteristic of a true Christian is virtue in its true meaning, or manliness. Last of all, and most important, he must have the divine characteristic. God should be in his soul and spirit.

After President Demarest's talk, Dean Bevier urged all to plan to participate in the great drive for the Y. M. C. A. and its allied associations which is to be started soon after the Fourth Liberty Loan campaign is over.

Dean Bartlet of the Philadelphia Divinity School says the divinity schools are trying to send out scholars instead of ministers, and that as a result the lack of enthusiasm on the part of students has become a real tragedy.

Women's College Opens With 49 Students.

On September 17 last the New Jersey State College for women commenced its first year. At the time, this is the only institution of higher learning of its kind in this state and it certainly has every chance for development.

The formal opening took place at 3 o'clock on Wednesday afternoon. Dr. Demarest delivered the opening address, followed by speeches by Dr. Kendall and Mr. Meredith. The faculty consists of 17 members, the majority of whom are Rutgers graduates. Dr. Demarest is President and Mrs. M. S. Douglass, a Barnard graduate, is Dean.

The main building of the college, from the cupola of which the Raritan River can be seen, is situated in the center of the large campus and will be used for recitation halls and administration offices. Directly across the street from this is the former residence of Mr. D. W. Cooper, which has been secured by the college, and will be used as a dormitory. In addition to these buildings, several others on the campus are being used, in which are located completely equipped laboratories containing all apparatus necessary for a thorough course in Chemistry.

This year the college offers the following courses: Liberal Arts courses which lead to the degrees of A.B. and Litt B.; a Home Economics course which leads to the degree of B.S.; and other vocational courses. For those students electing vocational courses, the greenhouses, situated near the laboratories, will be used. Only freshmen will be received the first year. Next year, sophomores; the following year, juniors; and in 1921, seniors will be admitted. At present the total enrollment is 49, of which number 39 take the Liberal courses and 10 pursue the course in Home Economics. With the exception of a student from Vermont, all are from New Jersey.

Targum Cabinet Appoints New Managers.

Several important business matters were covered in the Targum Cabinet meeting held last Monday, September 23. Appointments were made as follows:

Harry Bloom '19, Business Manager.

Arthur Hall '20, Assistant Business Manager.

George Kuyper '19, Assistant Editor.

The office of president of the Targum Association is still open and will be filled at the next meeting. Authorization for payment of several bills was given the treasurer. A committee was appointed to set a new subscription price for the TARGUM.

S. A. T. C. PUTS WAR SPIRIT INTO COLLEGE LIFE.

The Students' Army Training Corps has already shown its value at Rutgers. It alone has made possible a large student body at a time when men are needed so much elsewhere. A great many changes have been made in order to put the institution on a strictly war basis. All other departments are secondary to the military department. Features of college and camp have been joined to develop trained men for war work in the least possible time.

The true Rutgers spirit has never been more evident than at this time. It does not take the form of class warfare. Such petty distinctions as of class and group have taken their place in history with the days of peace. Unity is the keynote to-day.

College men must realize that we are at war. There are no quiet, easy times now, if they did obtain before. The arduous routine of a soldier in camp is to become the student's. Thanks to the war regime, we do not sleep until ten o'clock in the morning and go home every week-end. When the campus is our domain there is more opportunity to improve our marginal movements for our country and college.

The War Department has told us to continue athletics, the weekly paper, and Y. M. C. A. The Government is paying the bill and every Rutgers man will give full value. Every one, from the senior member of the faculty to the youngest undergraduate, is alert for a working year. Let us give every Rutgers man in service a renewed inspiration by putting his Alma Mater behind him in action and in spirit.

SING IT OUT.

The "sings" held on the campus last year were good, but...too...far...apart!

We have a good leader, "Aut" Rice, and five hundred good voices. These "sings" are needed to make us familiar with our college and folk songs. Such meetings have a remarkable effect of unifying the student body. One of the big features of our athletic games is the singing and cheering between periods. We have hundreds of soldiers attending. They enjoy it; as do the patrons from the Women's College. The Government knows their value, and accordingly goes to great pains to organize camp and community "sings." If we are going to be leaders, here is a great opportunity.

TARGUM STAFF REBUILT.

The active staff of the TARGUM has been rebuilt and will continue to produce the TARGUM every Wednesday. The vacancies caused by enlistments have been filled by the Cabinet.

It is the purpose of the editor this year to organize the forces at work on the paper so that new men can readily take the place of those who will leave from time to time.

We regret to say that the number of Freshmen who have come out for TARGUM work is far too small. There should be at least forty men from the class of '22 asking for a place in the TARGUM ranks. It is necessary to have a large number of reporters this year because of the limited time out of class.

As has been expected, the subscription price has gone up to \$2.50 for thirty issues. The business manager will see that the full thirty numbers go to every subscriber, either here, in camp, or at home, if up-to-date addresses are provided.

LEND!

The Fourth Liberty Loan is the fighting loan. Let's make it OUR LOAN!

Exchanges.

Visitor: "Sir, I am collecting for the Poet's Hospital. Will you contribute anything?"

Editor: "With pleasure! Call to-night with the ambulance and I will have a poet ready!"

Prof.: "What! Forgotten your pencil again? What would you think of a soldier who went to war without a gun?"

Student: "I'd think he was an officer, sir."

No S. A. T. C. ESTABLISHED AT HAVERFORD.

Haverford College has declined the Government's offer to establish there an S. A. T. C. unit because its board of managers "felt that the ideals of citizenship and of higher education held by the Society of Friends were worth conserving at the present crisis" and that those ideals can best be furthered by maintaining the old curriculum.

Swarthmore is giving its enlisted men fifty-three hours per week. Colonel Alfred Reynolds of West Point is in charge of the military department.

"Do you think love is the most powerful force there is?"

"You bet! It makes the world go round, brings heaven down to earth, and raises hades."

Rutgersensis

Uniforms and chevrons are somewhat different from our khaki a century ago. At that time Rutgers "students were required to wear black gowns on all public occasions, and these bore tassels which indicated the class to which the owner belonged. Two tassels on each sleeve indicated a freshman; four a sophomore; six, a junior; and nine tassels designated the senior."—*Targum*, 1897.

Here's a note that may well put vim into weary hikers. Two of our professors tramped four hundred miles in less than three weeks this summer and did it just for fun.

On September 19, Professor Frank App was married to Miss Helen Minch of Bridgeton, N. J.

The Du Pont Powder Company has given Rutgers a scholarship worth three hundred and fifty dollars to the fortunate Senior chemist who qualifies therefor.

Ursinus Swamped in Opening Game.

The Scarlet team, with nine veterans of last year's great machine in the line-up, opened the season on Saturday by overwhelming Ursinus to the tune of 66 to 0. Although there was much loose handling of the ball throughout the game, and some rough corners needed to be smoothed off, the team was playing very close to mid-season form. Fumbles were costly at times, but Ursinus was unable to profit by them, for our line held like a stone wall on all occasions. On the offensive the interference worked together like a charm, making possible several long runs and opening up large holes in the line.

First Quarter. Ursinus kicked off to Summerill, who ran the ball back twenty yards. From our 35-yard line it took just three minutes and twenty seconds to carry the ball over for a touchdown. Our opponents seemed utterly unable to stop the quick rushes under ten or fifteen yards, and when Kelley dove over the goal line for the first touchdown the realization came to every Rutgers man in the stands that we were beginning the greatest season we have ever had. Gardner missed the goal.

Ursinus chose to receive, and by clever running ran the ball back from their 20-yard line to midfield. A line plunge failed and an attempted forward pass dropped to earth untouched. Five yards were gained by a dash off tackle, and with five more to go Ursinus tried a field goal. The ball went short and wide and Kelley, catching it full stride, ran for twenty yards before he was thrown. Isenberg of Ursinus was hurt but remained in the game.

Then the relentless rush began again. Kelley skirted right end for twenty yards, and Robeson caught a long forward pass, adding thirty more. Time out for Ursinus. When play was resumed Gardner added ten more off tackle, and on the second try ran wide around left end; and circling around behind the line, placed the ball squarely between the goal posts. The kick went under the bar.

Robeson kicked off; Breckley, running well down under the ball, dropped the man in his tracks. Ursinus punted on the first play, and the ball struck Baker's headguard and rolled back to our opponents' 40-yard line, where Moser recovered for Ursinus. Again they kicked on the first down, and this time Baker retrieved himself with a 45-yard run through a broken field. Isenberg was again hurt, and this time left the game, Fritz replacing him. A series of short rushes carried the ball to the 10-yard line, and Kelley tore off nine more through the line before he was thrown. The quarter ended with the ball on the 1-yard line. Score, 12 to 0.

Second Quarter. On the first play Summerill took the ball over. Gardner kicked the goal.

Robeson kicked off and Kelley threw the man on the 25-yard line. After a vain attempt through the line, Ursinus punted. Baker caught the ball on our 40-yard line and ran it back twenty. Robeson made five on a short pass over center, but on the next play a fumble occurred and Ursinus recovered the pigskin. An end run netted them nothing and they punted on the second down. Baker fumbled the catch, recovered, and was thrown on his 30-yard line. Summerill gained seven yards and Kelley five on line plunges, but a forward pass was intercepted and Ursinus had the ball on our 45-yard line. A line plunge resulted in no gain, a forward pass fell free, and Ursinus kicked. Kelley received and ran back twenty-five yards. Baker gained three yards on a quarter-back run, and Kelley tore through tackle for eight more and first down. Time out while Paine went in for Helfren. Kelley made a thirty-yard dash. From there the ball was pushed over in four quick rushes for the fourth touchdown, and Baker added the extra point.

Feitner kicked off to the 10-yard line. Gauch made ten yards before he was thrown, but dropped the ball, and Rutgers recovered. Four quick dashes and it was all over. Baker kicked the goal.

Ursinus kicked off and Baker raced back twenty-five yards. A forward pass was intercepted, but Ursinus failed to gain in two plays and the whistle blew for the first half. Score, 33 to 0.

In addition to the formation of the R by the student body a patriotic note was added to the usual cheering by the singing of the "Star-Spangled Banner."

Second Half. When play was resumed Feitner kicked off out of bounds. Ursinus put the ball in play, but after losing ground on two rushes, punted. Baker was run out of bounds before he could get started. Time out while French went in for Baker and Redmond for Franke, who shifted to center in place of Dunham. The march down the field began again, with Kelley, Gardner and Redmond averaging ten yards a rush. Time out and Stecker went in for Lentz. Two more plunges and Kelley went over the line. Gardner kicked the goal. At this point Betsch went in for Rollins.

Feitner kicked off to the 5-yard line, and after two unsuccessful plunges, Ursinus punted. Kelley caught the ball in midfield and with excellent interference ran back forty yards. The intervening space was covered in three downs and Gardner went over for the score.

Feitner kicked out of bounds, but the second try fell short and Ursinus had the ball on their 25-yard line. They kicked on the second down, but the ball went high and short and Redmond followed his interference back for twenty-five yards.

The quarter ended with the ball on their 30-yard line. Score, 46 to 0.

Fourth Quarter. Baker went back into the game. Gardner made fifteen yards around end and Kelley dashed off tackle for the remaining distance and the touchdown. Baker kicked the goal.

Ursinus chose to receive and, when Feitner kicked over the goal line, put the ball in play on their 20-yard line. Again they punted and again Baker ran back twenty yards. Kelley made a short gain through tackle and Gardner got away for a dazzling thirty-yard run and touchdown. The kick went over the post by inches.

Feitner again kicked over the goal line. On the second try the Ursinus runner got away for twenty yards. After losing ten yards on useless line plunges they punted and Baker ran back thirty yards. Robeson caught a pass and dashed off to the 5-yard line. The line opened up a "broad highway" and Kelley romped over for the score. Baker missed the goal.

Ursinus received the ball on their 10-yard line and promptly punted. Baker received and got away for a forty-yard run. A fake forward pass netted ten more, and as the time was short a try for a field goal was made. The ball struck the post and bounded back, and Ursinus recovered. One line plunge and the final whistle blew. Score, 66 to 0.

The line-up follows:

<i>Ursinus.</i>	<i>Rutgers.</i>
	Right End.
Newitt	Breckley
	Right Tackle.
Fenstameder	Franke, Redmond
	Right Guard.
Moore	Rollins, Betsch
	Center.
Walton	Dunham, Franke
	Left Guard.
Lentz, Stecker	Neuschaefer
	Left Tackle.
Roth	Feitner
	Left End.
Moser	Robeson
	Quarterback.
McCanarh	Baker, French
	Right Halfback.
Gauch	Gardner

Left Halfback.

Hefren, Paine Kelley

Fullback.

Isenberg, Fritz Summerill

Referee: Ferrier. Umpire: Reed (1st half), Coachems (2nd half). Head Linesman: Perry, of *New York Evening Post* (1st half), Reed (2nd half).

S. A. T. C. Induction Ceremonies Very Impressive.

At noon on the first day of October, approximately four hundred and fifty Rutgers men were drawn up before Ballantine Gymnasium to observe the S. A. T. C. induction ceremonies, simultaneously with five hundred other colleges. The height of such a beautiful day was a significant time for the memorable meeting. A very interesting program was arranged for the occasion, with Lieutenant Torpey in charge.

The following messages were read:

—o—

War Department,
Washington, D. C.
October 1, 1918.

War Department,
Washington,
August 24, 1918.

General Orders of the Day.

1. This day has a peculiar significance for more than five hundred colleges and universities throughout the United States. It is witnessing the organization of a new and powerful instrument for the winning of the war—the "Students' Army Training Corps." The patriotism of American educational institutions is demonstrated to the world by the effective and convincing manner in which they are supporting this far-reaching plan to hasten the mobilization and training of the armies of the United States.

2. It is most fitting that this day, which will be remembered in American history, should be observed in a manner appropriate to its significance, and to

the important aims and purposes of the Students' Army Training Corps. Each commanding officer of a unit of the Students' Army Training Corps will, therefore, with the cooperation of the president and faculty of the institution where his command is stationed, arrange a program for the proper observance of this day, when more than one hundred and fifty thousand American college students offer themselves for induction into the Students' Army Training Corps, pledging themselves to the honor and defense of their country.

3. This Corps is organized by direction of the President of the United States under authority of the following General Orders:

General Orders No. 79.

Under the authority conferred by sections 1, 2, 8 and 9 of the Act of Congress "authorizing the President to increase temporarily the military establishment of the United States," approved May 18, 1917, the President directs that for the period of the existing emergency, there shall be raised and maintained by voluntary induction and draft, a Students' Army Training Corps. Units of this corps will be authorized by the Secretary of War at educational institutions that meet the requirements laid down in Special Regulations.

4. The United States Army Training Detachments established at educational institutions by the Committee on Education and Special Training are this

day merged with the Students' Army Training Corps for purposes of administration only; the Corps has been divided into the Collegiate Section and the Vocational Section. There is no distinction between soldiers of these sections. All are soldiers, and their identity is merged in the United States Army. All have equal opportunities to win promotion, each soldier's progress depending entirely upon his own individual industry and ability.

5. Orders have been issued whereby assemblies of all units of the Corps are being held simultaneously at more than five hundred colleges and universities. *At this moment*, over one hundred and fifty thousand of your comrades throughout the nation are standing at attention in recognition of their new duties as soldiers of the United States.

6. Soldiers of the Students' Army Training Corps: All of the forces of the nation are now being concentrated on the winning of the war. In this great task you are now called to take your place. The part which you will play, as members of this Corps, will contribute definitely, and in a vital manner, to the triumph of our cause. Your opportunities are exceptional and your responsibilities correspondingly great. Honor and the privilege of national service lie before you.

Grasp your opportunity! Strive for the common goal! *Win the War!*

By direction of the Committee on Education and Special Training:

R. I. REES,
Colonel, General Staff Corps, Chairman.

—o—

Message of the President of the United States.

To be Read at Assembly of the Students' Army Training Corps, October 1, 1918.

The step you have taken is a most significant one. By it you have ceased to be merely individuals, each seeking to perfect himself to win his own place in the world; and have become comrades in the common cause of making the world a better place to live in. You have joined yourselves with the entire manhood of the country and pledged, as did your forefathers, "your lives, your fortunes and your sacred honor" to the freedom of humanity.

The enterprise upon which you have embarked is a hazardous and difficult one. This is not a war of words; this is not a scholastic struggle. It is a war of ideals, yet fought with all the devices of science and with the power of machines. To succeed you must not only be inspired by the ideals for which

this country stands, but you must also be masters of the technique with which the battle is fought. You must also be masters of the weapons of to-day.

There can be no doubt of the issue. The spirit that is revealed, and the manner in which America has responded to the call, is indomitable. I have no doubt that you will use your utmost strength to maintain that spirit and to carry it forward to the final victory that will certainly be ours.

WOODROW WILSON.

—o—

Message of General March, Chief of Staff.

To be Read at First Assembly of the Students' Army Training Corps, October 1, 1918.

The Students' Army Training Corps has been organized to assist in training a body of men from whom the United States will draw officer material in large numbers. The need for these officers is one of the most imperative connected with our large army program, and patriotic young men will be given an opportunity to acquire this training, with the knowledge that they will thus be enabled to better serve their country in the great drive which is to come. Superior leadership spells success in war, and it is the duty of every member of the Students' Army Training Corps to do his utmost to qualify as a leader of men.

PEYTON C. MARCH,
General, Chief of Staff, United States Army.

—o—

Message of Hon. Benedict Crowell, Acting Secretary of War.

To be Read at First Assembly of the Students' Army Training Corps, October 1, 1918.

As college students you are accustomed to contests of physical force. You are familiar with the tedious training and self-sacrificing discipline that are required to develop a team that can win the game. You know that the contest is won by team work, push, enthusiastic cooperation with one another, and coordination of every individual talent to the single purpose of common success.

In the military struggle in which you are about to enter the same conditions prevail. In order to succeed, many weeks of thorough training and drill are essential to develop the coordination of skill and imagination that is essential to achieving the vast and vital end to which the country has pledged its every effort. The fighting machine will come into effective working order more rapidly in proportion as each individual in it devotes his full attention to the par-

ticular service for which he is best qualified. In entering upon this training as student soldiers you have the opportunity of developing your abilities to the point where they will be most effective in the common struggle. I am sure that you will do this in the same spirit and with the same enthusiasm that you have always exhibited in the lesser struggles to which you have been accustomed to devote your energies. I am sure that you will rise to this opportunity and show that America, the home of the pioneer, the inventor and the master of machines, is ready and able to turn its every energy to the construction of an all-powerful military machine, which will prove as effective in liberating men as have the reaper, the aeroplane and the telephone.

Dr. Demarest Emphasizes Importance of Induction Hour.

Dr. Demarest, in a short, appealing talk, reminded us of the importance of the moment. He emphasized the "striking of the hour" and told how men go "over the top" to win or die; how barrages are laid down and advanced; how great things in martial life and great things in civil life, all things of importance to all of us, occur at the striking of the hour. "Now," he said, "at the striking of the hour, the men in five hundred colleges throughout the country are simultaneously pledging themselves to the Stars and Stripes and the government it represents."

He said it was auspicious and significant that the hour was noon. This movement was no child of darkness but was born in the light and had its inception under the noonday sun. Of course, he expected that the Rutgers unit would shine among the most brilliant of those in the country with such an enthusiastic commandant, such a foundation in the reputation of Rutgers, and such a gratifying beginning.

Then Dr. Demarest introduced the other speakers of the occasion, who delivered talks, such that if they were not speeches, were only ruled out of that category because of their interest and brevity.

Major Buist, commanding Camp Raritan, mentioned the glorious history of New Jersey, said he was glad to be a Jerseyman, and glad to be stationed in his native state. He said that we, the students in the New Jersey State College, had every reason to be proud of the state that was educating us and every opportunity to serve the country gloriously with a precedent of service unequalled by any other state in the Union. He said he was glad to be able

to bring his band to play for us, and would always stand eager to help us in any way he could.

Judge Daly, speaking for the City of New Brunswick, told of its glorious record and of its boys now fighting for their country. He complimented us highly by stating that Rutgers College was the crowning glory of such a praiseworthy city. He welcomed the newcomers to the town and felt sure that they would soon get the spirit of manhood showered upon them by the old college walls, and develop to serve their country and to earn glory for their Alma Mater and the city in whose bosom it rests.

Camp Raritan Band Makes a Big "Hit."

One of the most pleasant features of the induction ceremonies on October first was the visit of Major Buist's pets, the Camp Raritan Band. Their work is of high calibre and was fully appreciated. Those who forfeited Mack's mess for another "earful" were amply repaid for their little inconvenience and realized what a job the Raritan boys must have standing at attention if their band happens to be playing rag-time. What a pity our quarantine did not force them to stay a while! Come again, musicians of the bursting bomb.

Fifty Per Cent of S. A. T. C. Unit Receive Week-End Passes.

Week-end passes were issued to 50 per cent of the S. A. T. C. They were given out at reveille and went into effect at 1 p. m. Saturday. The passes were good until taps on Sunday night at 10 o'clock. All those who received passes were not permitted to attend mess Saturday night and all day Sunday. They could not occupy barracks Saturday night. All passes had to be returned to the first sergeants of the respective companies, on returning to barracks Sunday night. About 50 per cent of the men accepted the privilege and were absent over the week-end. This does not necessarily set a precedent for succeeding week-ends.

Of the remaining 50 per cent, 25 per cent were allowed to "sign out" from Saturday night mess, and all Saturday formations after noon mess.

Saturday night taps were sounded at 11 o'clock. No passes were necessary to be out until 11 o'clock.

Sunday formations were slightly different from those of week-days. First call comes at 7.15 a. m., one hour later than usual. At 9.45 p. m. tattoo is blown, and taps at 10 o'clock.

Few Fraternity Initiates.

The group of fraternity initiates is rather small when we consider the total number in the class. The rushing period was abruptly closed on September 30, after which time the fraternities were requested to cease initiations. This year was looked forward to as a difficult one, so pledging started early last spring. There are still a great many men in the class of '22 who have not become fraternity men, merely because of the short pledging period. All active fraternity life about Rutgers is now suspended, leaving us all privates of similar privileges. The names of those taken in this year follow:

Rutgers to Have Special Liberty Loan Campaign.

The Fourth Liberty Loan is the biggest loan ever negotiated. We want our share in it. When the Rutgers unit of the S. A. T. C. is canvassed, let us show our appreciation for our new organization by **BUYING BONDS.**

Headquarters Students' Army Training Corps Unit.
Rutgers College, New Brunswick, N. J.,
October 3, 1918.

General Orders No. 1.

1. Commencing to-morrow, October 4, 1918, at 6.15 a. m., a schedule of calls will go into effect, as follows:

Reveille—

First call, 6.15 a. m.

March, 6.25 a. m.

Assembly, 6.30 a. m.

Breakfast—

1st mess, 7.00 a. m.

2nd mess, 7.30 a. m.

Drill—

1st call, 7.50 a. m.

2nd call, 8 a. m.

Dinner—

1st mess, 12.30 p. m.

2nd mess, 1.00 p. m.

Supper—

1st mess, 5.30 p. m.

2nd mess, 6.00 p. m.

Call to Quarters, 7.00 p. m.

Tattoo, 9.45 p. m.

Taps, 10.00 p. m.

2. Each company will furnish three privates daily for duty as kitchen police. These details will report to Mr. McCormack in Winants Hall at 6.45 a. m., their tour of duty to last until the completion of their duties after evening mess. The tour of duty detailed for to-day, October 3, 1918, will terminate after evening mess to-night, according to this schedule.

3. The company whose commander is Officer of the Day will on that day furnish two privates and one non-commissioned officer to raise the flag at Headquarters at reveille and lower the flag at retreat.

4. These provisions will be effective commencing with reveille to-morrow, October 4, 1918.

By order of

LIEUTENANT TORPEY.

RUSSELL GERAULD,

2nd Lieut., Inf., U. S. A.,

Adjutant.

—o—

Headquarters Students' Army Training Corps Unit.

Rutgers College, New Brunswick, N. J.,

October 7, 1918.

General Orders No. 2.

1. Company commanders will inspect quarters daily and see that rooms are clean at all times—bathrooms in particular. They will also see that windows are open at all times, and in inclement weather open

wide enough to admit of free air circulation.

By order of

LIEUTENANT TORPEY.

RUSSELL GEROULD,

2nd Lieut. Infantry, U. S. A.

Adjutant.

—o—

Headquarters Students' Army Training Corps Unit.

Rutgers College, New Brunswick, N. J.,

October 7, 1918.

General Orders No. 3.

1. Occupants of rooms will be held strictly responsible for the cleanliness and ventilation of their rooms at all times. Quarters will be inspected daily. Men will be particularly careful to not throw paper, cigarette butts, or other refuse, around the toilet rooms. All windows will be open at nights. Beds will not be placed together. During the day, weather permitting, all windows will be kept open. In inclement weather, windows will be open wide enough to admit of a free circulation of air. Men will occupy rooms assigned to them, and will not change to other rooms without the consent of their company commander. By order of

LIEUTENANT TORPEY.

RUSSELL GEROULD,

2nd Lieut. Infantry, U. S. A.

Adjutant.

—o—

Headquarters Students' Army Training Corps Unit.

Rutgers College, New Brunswick, N. J.,

October 7, 1918.

Special Orders No. 1.

1. During this epidemic all men of this command are warned against frequenting moving picture houses, theatres, or any common assemblies held indoors. By order of

LIEUTENANT TORPEY.

RUSSELL GEROULD,

2nd Lieut. Infantry, U. S. A.

Adjutant.

—o—

Headquarters Students' Army Training Corps Unit.

Rutgers College, New Brunswick, N. J.,

October 7, 1918.

Special Orders No. 2.

1. Until further notice this camp is under quarantine. No man will leave the limits of the campus without special permission from the commanding officer. By order of

LIEUTENANT TORPEY.

RUSSELL GEROULD,

2nd Lieut. Infantry, U. S. A.

Adjutant.

LIBERTY LOAN.

The Fourth Liberty Loan is the biggest loan ever negotiated. We want our share in it. When the Rutgers unit of the S. A. T. C. is canvassed, let us show our appreciation for our new organization by BUYING BONDS.

COMPANY SPIRIT TAKES PRECEDENCE.

The company has risen to the chief position of group interest. In our new enterprise we will be known as members of Company (X). Formerly an intangible feeling of pride wound itself around class and fraternity membership. It was the outgrowth of years of consistent effort. In the military organization these smaller units are succeeded by the company. Everyone in the S. A. T. C. is an integral part of one of four companies. The salient point is, WHICH is going to be the best?

Most of us are privates who have to do only what we are told. When that is done RIGHT, we have fulfilled our duty. Some are fortunate enough to gain non-commissioned offices, where more is expected. Neither of these positions is easy, for there are so many trifles to be made perfect.

Within the company we feel a responsibility,—each one to every other. When this spirit of unity and interest is once caught, the battle is on. The value of these bonds of co-operation must be recognized, for they lead directly to the larger, competitive, college spirit.

HEALTH COMES FIRST.

Rutgers has been more fortunate than many other schools regarding the present epidemic of sickness. We have been able to continue classes when others have closed. But we are not so far past the danger point that we may trifle with the germs that have wrought such havoc. Sitting on stone porches and damp grass are two habits recently grown popular. Both are aids to the disease. Shall we not guard our health more carefully against the disease?

Athletics Must Go On.

WAR DEPARTMENT PRONOUNCES THEM ESSENTIAL.

Now, more than ever before, when the entire country is turning into an armed camp, when nearly all the colleges of the country have assumed the new responsibility of turning out officers, not by hundreds, but by thousands and tens of thousands, there comes the realization of what athletics mean. Football, more than other sports, is a military game which calls upon every faculty to the limit. Not only will athletics keep men in the "pink" of physical condition and build them up to play that bigger game across the sea, but it will inspire in the entire corps as we unite to cheer our warriors on to victory that all-essential thing known in the army as "esprit-de-corps."

Come out for the teams, men! They need you! Come out and cheer them on! Come out and show what the old Rutgers spirit means, and you new men get it soaked into your systems. It is the greatest thing about the college. To-day it is inspiring us to do greater things, to a new realization of our duties and responsibilities, and it will be the prime factor in many a man's success. Get the spirit now and work for your college and your country. The keynote of the day is "Make Good."

Let Us Have a 100 Per Cent Targum Subscription.

FORTY PER CENT OF STUDENT BODY ARE TARGUM SUBSCRIBERS.

Approximately 200 of the 500 students have subscribed for the TARGUM. This is decidedly a poor showing, fellows! Every man in college should take enough interest in what is going on here to subscribe for and boost his publication. Perhaps some have signed the cards distributed in chapel and have forgotten to hand them in. If this is so, turn them in at once to the treasurer's office or some member of the staff. Remember, the TARGUM is YOUR paper, and it is what YOU make it. It keeps you in touch with all activities of the college, and with those who have gone from the college.

When, perhaps, you have left for camp, with a fist made to order for the Kaiser's chin, you will certainly want to know what is going on back at old Rutgers. So bring out your subscription cards, fellows, and make that 40 per cent just two and a half times as big.

Rutgers Again to Have Military Band.

A band will be established after all other organization is complete.

Lieut. C. C. Barr Killed in France.

'18. Lieutenant Chapin C. Barr is over the top and across the bar. Dick has shown us in the most forceful and gripping way what we can do and the spirit to do it in. He gave his all from the beginning of the long climb. His brilliant military career began only last spring with enlistment in the Naval Reserves, Massachusetts Tech, where he was rated as quartermaster, third class, in the aviation ground school, flying school at Miami, Fla., first section of the Marine Aviation Force, second lieutenant in Paris only a month ago, fighting pilot and his last commission; these are the greater stepping stones in his charge to the front. Just before the supreme sacrifice he wrote to us telling of the successes with all the enthusiasm that it had taken to win them. But it's grim determination that we feel when "Dick" rises here before us.

Lafayette Game Cancelled.

Again we are having trouble with our football schedule. Lafayette is under a strict quarantine on account of an outbreak of Spanish influenza, and consequently they were forced to cancel the game which was to have been played this Saturday. Manager Horsford is trying hard to fill up the open date on short notice, and by the time that this comes from press we hope that some arrangements will have been made. Lafayette, no doubt, regrets this cancellation as much as do we, as she is hungry for vengeance after her decisive defeat last year.

Prespects For Basketball Team Good.

MANY VETERANS BACK.

The basketball team is in much the same circumstances as the football team, with many veterans and scrub men back and a wealth of new material at hand. Captain Neuschaefer will have Meury, Robeson, Kelley and Gardner of last season's fame. Rice will also be out for the team, and there are several good men in the Freshman class. Doubtless many more men from the large entering class will turn out. The trouble will be that some of the older men will be taken into active service before the season starts, but in spite of that fact there is little doubt that the season will be a very successful one.

The schedule is still in its incipient stages, but as most college schedules will likewise be upset, we should have little trouble in getting games with good teams.

Company B Heads Liberty Loan Drive.

TOTAL SUBSCRIPTION PASSES \$50,000 MARK.

Rutgers in the fore again! The Students Army Training Corps went over the top in a mighty effort to make the Fourth Liberty Loan a success.

Enthusiasm reigned high among the several contesting companies; so much so, that the spirit of the entire movement was shared by each man in every company to the maximum height. Sergeants and non-commissioned men worked like trojans in their respective companies to obtain first place in the drive. Yet this was hardly necessary, for all co-operated to their full extent, and showed a remarkably keen interest in its progress.

The figures of the subscription are as follows: Co. A, \$12,750. Co. B, \$13,200. Co. C, \$12,850. Co. D, \$10,850. Commanding Officers, \$2,500. Total, \$51,500.

Lieut. Charles C. J. Carpenter's Company has the honor of coming in first with a total of \$13,200, and an average of \$128.16 for each man in the company. Company B, coming in second, has an average of \$121.43 for each man in the company. Company C, third in the race, has an average of \$112.96 for each man. Company D, althio last in the race, has an average over \$104.32 for each man in the company. Not to forget the commanding officers, who are seven in number, an average of \$357.14 for each one speaks for itself.

The Kaiser will ever regret the formation of the S. A. T. C.!

"Non-Coms" Are Appointed.

In order better to organize our battalion, it became necessary to appoint a non-com staff to assist the company commanders. All these appointments are but temporary, and there is equal opportunity for all to secure a commanding position.

The following is the present roster of the companies:

Commandant—Lieut. Torpey.

Adjutant—Lieut. Gerould.

Personnel Adjutant—Lieut. Buterbaugh.

Company A.

Commanding Officer—Lieut. Downs.

First Sergt.—Sergt. Barbehenn.

Leader First Platoon—Sergt. Aydelott.

Right Guide—Sergt. Van Winkle.

Left Guide—Sergt. Fleming, E.

First Squad Leader—Corp. Whitehead.

Second Squad Leader—Corp. Wilson.

Third Squad Leader—Corp. Kleinhans.

Leader Second Platoon—Sergt. Sherwin.

Right Guide—Sergt. Miller, J. L.

Left Guide—Sergt. Aspinall.

First Squad Leader—Corp. Van Orden.

Second Squad Leader—Corp. Jackson.

Third Squad Leader—Corp. Gaub.

Leader Third Platoon—Sergt. Backus.

Right Guide—Sergt. Lyon.

Left Guide—Sergt. Howard.

First Squad Leader—Corp. Appleby.

Second Squad Leader—Corp. Wetterberg.

Leader Fourth Platoon—Sergt. Johnston.

First Squad Leader—Corp. Neely.

Second Squad Leader—Corp. Gritginjer.

Third Squad Leader—Corp. Rogers.

Leader Fourth Platoon—Sergt. Messer.

Right Guide—Sergt. ———.

Left Guide—Sergt. Baker, U. S. N. R. F.

First Squad Leader—Corp. Casey.

Second Squad Leader—Corp. Pettingill.

Third Squad Leader—Corp. Feitner, U.S.N.R.F.

Left Guide—Sergt. Franke, W.

Company D.

Commanding Officer—Lieut. Everett.

First Sergeant—Sergt. Moore.

Leader First Platoon—Sergt. Spooner.

Right Guide—Sergt. Waitz.

Left Guide—Sergt. Seltzer.

First Squad Leader—Corp. Miller.

Second Squad Leader—Corp. Morgan.

Third Squad Leader—Sergt. Packard.

Leader Second Platoon—Sergt. Oxley.

Right Guide—Sergt. Kull.

Left Guide—Sergt. Franke.

First Squad Leader—Corp. Ritchie.

Second Squad Leader—Corp. Wills.

Third Squad Leader—Corp. Frankle.

Leader Third Platoon—Sergt. Fouquet.

Right Guide—Sergt. Rubin.

Left Guide—Sergt. Petit.

First Squad Leader—Corp. Molineux.

Second Squad Leader—Corp. Denberg.

Third Squad Leader—Corp. Mehrhoff.

Leader Fourth Platoon—Sergeant Simmons.

Right Guide—Sergt. Ward.

Left Guide—Sergt. Curran.

First Squad Leader—Corp. Snyder.

Second Squad Leader—Corp. Froehlich.

Third Squad Leader—Corp. Cohen.

Limited Service Men.

The position of a limited service man has been very aptly described by Lieut. Dean R. Buterbaugh, our Personnel Adjutant. A limited service man can be as much in the limelight of service as his own personal acquirements will allow. He is a part of the great machine—the right man in the right place. If his abilities are very good he, too, can win a commission; so much is certain.

Under the guidance of Lieutenant Buterbaugh the limited service men are already at work. They are in charge of the records of all S. A. T. C. men, and at present are busied with completing their induction. Such men are excused from all classes and formations, including K. P. duty. In the future, after things are in a more settled condition, they will devote their drill hours to clerical work and will resume their studies.

Liberals—"First to Fight."

A new section has been started, by direction of the War Department, for all those liberal students who are twenty years of age, or will be twenty years of age by December 31, 1918. These students will undergo an intensive twelve weeks training in subjects which are prescribed by the War Department, together with military training.

Nothing definite as yet can be had from the Military Department at Rutgers as to the status of the students, but, it is understood that if during these twelve weeks the students show aptitude of possessing officer material, they will receive recommendation to a central Officers' Training Camp. Those students who do not show the required officer material, but show aptitude toward military work, will be recommended to some "non-com." school where they will undergo further training. On the other hand, if any students do not show aptitude toward military work, they will be transferred to some camp as a private.

There are seventy-eight students who will be affected by this order from the War Dept. Their names and the classes of which they are members follows:

Seniors

Armstrong	Pitt
Foley	Robeson
Higgins	Spader
Kuyper	Van Dyck
McWithey	Ward
Neuschaefer	

Juniors

Backus	Davenport
Baker, C. N.	Froelich
Burhans	Hickman
Casey	Kelley, F. B.
Corrigan	Stahl
Curran	

Sophomores

Burkhardt	Mullison
Clarke, E. A.	Pettingill
Chamberlain	Schoonmaker
Crane, R. E.	Sherwin
Farley	Shutts
Kulp	Van Derveer, G. J.
Losee	Voorhees, R. W.
Messier	Wood
Messerschmitt	Zust

Freshmen

Bergen	Mertz
Brandt	Messler
Bray	Miller, C. N.
Card	Miller, J. F.
Carson	Naudet
Clymer	Nimaroff
Cruser, L. B.	Petrillo
Danberry	Rice, K. D.
Day	Roberts
Dugan	Roche
Justin	Rogozinski
Furnivall	Rollins, F. F.
Hill, C. E.	Rowe, J. B.
Hoffman, H. A.	Ryder
Datourette	Stillwell, H. S.
Maylander	Tonking
McVey, T. C.	Voorhees, G. W.
McWilliams	

Rifles Issued.

Last Saturday morning most of the men received their rifles and were busy for the next two days getting them clean and ready for drill Monday morning. Co. A received the pick of the rifles which were U. S. Army Rifle Model of 1898.

Because of the great demand for new rifles at the present time the Rutgers unit will have to do the best it can with what it has. Besides the Krag-Jorgasens, some old Russian Rifles have been pressed into service. Even then there were not enough, so some of the file closers have to drill without arms; a thing which few of them consider a hardship.

Officers' Quarters.

The Commandant, First Lieut. Torpey, is at present living in the Alumni House. The adjutant, Lieut. Gerould, together with personnel adjutant, Lieut. Buterbaugh and Lieut. Everett, have very pleasant quarters at the home of Doctor Payson, while Lieuts. Downs, Finney and Carpenter are stationed at the D. K. E. house. The officers have their mess at the Chi Phi House.

More Students Coming.

The War Department expected Rutgers to take care of more students than are now enrolled. Of the quota of 500 assigned to us only 425 are here now. The other 75 men will undoubtedly be taken from the waiting list of those who applied for admission at first, but were not fortunate enough to be taken in September. The new comers will be divided up among the companies now existing, and will serve to bring those organizations nearer to the size of the modern company.

Women's College Closed.

SPANISH INFLUENZA PREVALENT.

The Women's College closed Wednesday, Oct. 2, because of the many cases of grippe and Spanish Influenza which developed. The Dean and nearly half of the student body are victims of the disease in some form or other. If conditions permit, college work will be renewed on Wednesday, October 21, 1918.

Band to Be Organized.

INSTRUMENT PLAYERS REPORT TO PROF. KIMBALL.

The call comes for men for the band. Any man who can play any kind of a band instrument is earnestly urged to report at once to Prof. Kimball (first floor Queens), or Mgr. H. E. Barbehenn (125 Ford Hall). A drum major is also needed. The band will play at ceremonies only, so we ought to have an especially good one. The chance for commissions will not be lessened any by playing in the band, as that fact will be considered when appointments are made for officers' camps. Remember the Camp Raritan Band! Let's have one as good! All out for our band.

Larger Scope For Our Y. M. C. A.

With the taking over of the College by the Government, and the induction of the students into the S. A. T. C., the Y. M. C. A. work here at Rutgers passes under the control of the National War Work Council, the Y. M. C. A. organization that has done such wonderful work in the army camps here at home, with our boys "over there"; and also with the armies of our allies on the other side. The Secretary becomes a war-work secretary, and a program of activities somewhat similar to that in effect in the regular camps will be carried on. Conditions in the colleges will be, of course, very different from those in the regular cantonments. The men of the S. A. T. C. will have less spare time, and greater resources for utilizing what they do have, than the men in the big camps. At the same time a varied and interesting programme of events each week is most desirable, and will be exceedingly helpful to both spirit and morale.

There will be, of course, the Bible classes and the weekly religious meetings as before. In these days, more than ever, do we need the inspiration and the spiritual uplift that these can give. It is also planned

to have a "movie" now and then, perhaps once a week, if feasible. An entertainment of some kind, sometimes by college or town talent, sometimes by entertainers sent out from New York by the War Work Council, will also be a feature. Basket-ball games and other athletic events will also have a place on the program. Mass singing, too, under competent direction will be another means of promoting college and army spirit.

The Y. M. C. A. room in Van Nest Hall is to be equipped to an even larger extent than it is at present with writing tables and chairs. "With the colors" stationery is to be supplied, and every facility afforded for writing and mailing letters, wrapping and mailing parcel post packages, and handling laundry. A phonograph with a good supply of records will be part of the equipment, as well as newspapers, magazines and books as necessary. It is expected, when things get running as planned, that the room will be taxed to its capacity.

In addition to these functions the Y. M. C. A. room will also render service as a "public telephone pay station," without the pay, that is, except for toll calls; as a safe deposit vault, a parcel checking booth, a lost and found bureau, and as any other department bureau, as the need arises.

"Five-Mile Zone" to be Established Here.

Again Dame Rumor is busy at her old tricks, but this time in a very practical and interesting way—interesting because of the unusual yet very natural circumstances. This time Rumor is meditating on the establishment of a five-mile zone about the College, due to the presence of a unit of the Students' Army Training Corps. While we have no definite news in this particular case, we can throw a little light on the topic in hand.

By law, such a zone would automatically be established, due to the presence of a training camp here. The fact that its nature is different from that of other training camps should make no difference. The camps at Plattsburg this summer were composed of students, and yet the military authorities in charge saw fit to establish the five-mile zone. A similar condition exists here.

Not only would such a step comply with the national law, but it would also materially benefit our town, which we have adopted for a while, at least. We trust that action on this matter will be forthcoming, for it is a necessary step for the complete betterment of surrounding conditions.

Profs Who Have Gone to War.

It is interesting to note the important part played by the faculty in the splendid showing which Rutgers is making in the war. Several professors have left us within the past year to engage in some form of war service.

Professor Twiss attended the first Officers' Training Camp at Fort Myer and received a captain's commission in the infantry. Because of certain restrictions existing at that time in regard to college professors, he was later honorably discharged and resumed his duties here. Last summer he again tried for a commission and received a second lieutenancy, and is now instructing the S. A. T. C. men at Columbia.

Professor Billetdoux last winter obtained a first lieutenancy in the Interpreters' Corps, and is now in France on the private staff of General Pershing.

Professor Logan is now engaged in Red Cross work at Camp Dix.

Mr. Sturgeon, while not yet in the service, is awaiting an appointment in the Interpreters' Corps, and will, undoubtedly, soon be in France.

These professors who are doing their bit in the great struggle certainly have the best wishes of every student at Rutgers, and we hope that they will return to us when the war is over.

Spanish Influenza.

There is no cause for alarm over the fact that there are several cases of Spanish Influenza in the student body, for the percentage of cases is far below the percentage elsewhere. Most of the college cases are being taken care of either at the infirmary, or at the city hospitals, although a few have been sent home.

Any student who feels that he is developing any of the symptoms of influenza; namely, a fever, sneezing, a bad cold or cough, sore throat, pain in the chest, general weakness or chills, should report immediately to his company commander and obtain permission to see the college physician. A little care at this time will well repay you, otherwise you may be laid up for weeks, and possibly develop pneumonia.

There are certain precautions which every one should observe in order to avoid catching and spreading the disease. It is transmitted by coughing and sneezing. If you have to cough or sneeze, cover your mouth with your handkerchief. Avoid those who cough or sneeze persistently, and do not spend any more time than necessary in crowded rooms.

Do not expose yourself to colds, as a cold is often the first stage of the "flu." If we all observe these precautions, the epidemic will soon be a thing of the past.

College Infirmary Proves Its Usefulness.

The college infirmary is rendering invaluable service during the present epidemic. Its success speaks well for those connected with its management. Mrs. de Regt is the executive head. The nursing is carried on under the direction of Miss Hill, who is assisted in this work by Mrs. Maloney. Dr. Smith and Dr. Runyon, who are acting as college physicians, attend and prescribe for the patients.

The problem of providing meals threatened to be a serious one, but it has been solved through the co-operation of friends of the college. The meat and vegetables are cooked at the infirmary; while fruits, preserves, jams and jellies are contributed by those interested in the college welfare.

The present organization is a temporary one, to meet the existing situation, but there is every indication that the infirmary will continue as a college institution.

Agricultural Volunteers.

All who have volunteered have been chosen. New programs, containing three hours of soils and crops, will begin Monday, October 7. Such students will be eligible for the Agriculture Teachers Corps of Rutgers. It is hoped that this subject will be considered as a War Duty, and men will be allowed to be trained for specialists for Uncle Sam. Orders upon this subject are pending from Washington. French and English will be eliminated from the curriculum.

Swimming Team in Bad Condition.

With the loss of Gallagher and Lukens, the two stars of last year's team, swimming will be somewhat crippled. Moore and Pettengill will form the nucleus, with Sherwin in the fancy dive. As yet, almost no good swimmers have turned up in the Freshman class, but there are several men who show promise of development. Prospects will be better after Coach Riley has had a better opportunity to look over his material.

"Ever been under fire?"

"Yes, indeed, lots of times."

"In the front line trenches?"

"No, but I spend my summers hunting deer in the Maine woods."

MILITARY DISCIPLINE BRINGS SATISFACTION.

The characteristic regularity and promptness of army life constantly grows more evident. Nearly three weeks of chaos have led to the adaption of a permanent war schedule. The military department has a tremendous task in hand to develop a quota of officers in twelve weeks. Prompt attendance at all formations has made possible a degree of progress that would have been otherwise impossible. In the good old days of last year, under the cut system the question was "How many more cut have I?" It is quite common-place today to hear corporals report from one end of a company to the other, "All present!"

Cleanliness and neatness in the dormitories is maintained by men detailed from each company. There is a sense of satisfaction in living in quarters that, in this respect, remind one of home surroundings.

It is difficult to become reconciled to the interruptions caused by the five formations each day. The two hours of drill just before noon cause the afternoon hours to drag, but withal, the benefits are more valuable. The physical exercise is putting snap into us that will soon make erect carriage habitual. We are all straining to the utmost to destroy military autocracy, but a little in the right place is as good as spice in pie.

TARGUM REDUCED IN SIZE.

This issue of THE TARGUM is the first of a reduced size. Intensive academic courses and military regulations have made it impossible to continue the larger numbers. The high standard of THE TARGUM in the past will be maintained, and all news of importance to Rutgers men will be published, but in a more condensed form than hitherto.

Headquarters S. A. T. C.

RUTGERS COLLEGE,
New Brunswick, N. J.

Memorandum
No. 7

Beginning Oct. 15, two companies will each furnish one squad for Kitchen Police daily, the other two companies furnishing each one squad on the succeeding day, and so on in alternation. On Oct. 15, Cos. A and B will each furnish one squad. On Oct. 16, Cos. C and D, and so on.

RUSSELL GEROULD,
2nd Lt. Inf., U. S. A.
Adjutant.

Rutgers the Best in This Also.

We have heard so much about precision that it may seem like an "old story," but the things which are repeated often are usually the things worth while and the very ones we want to keep on emphasizing. Possibly we think sometimes that it is necessary to have everything precisely right at precisely the right time. However, spirit, or "morale" if you will, is largely the product of the manner in which we act. We would feel depressed, the team would go to pieces, if our Rugby men slouched through their practices and games. What we demand of our team for the sake of old Rutgers, we should be willing to give to the college and to our country. In classes, and especially in all our military work, from "K. P." to top-sergeant, let us give our best in spirited, snappy precision. Our work will be the better, our S. A. T. C. will gain the position and reputation we are determined it shall have, and we shall feel the more prepared to do our best when the time comes for more active service.

Professor Breazeale's Room in Queens Renovated.

Professor Breazeale's old room has been completely remodeled during the last vacation. This room has long held the honor of being judged one of the oldest rooms in the college, but from now on no one will be able to recognize it as such. In fact, the opposite is true, for it is indeed a new room. The new floor has been varnished until it shines like glass, and the ceiling is as white as a freshly starched napkin. The walls are a pale yellow which harmonizes with the darker woodwork. A great deal of beauty and neatness is added by the four electric lamps which hang by chains from the ceiling. The room will be used for reading and study under the direction of Professor Marvin.

In Memoriam.

Francis A. Minard '22, passed away at the home of his sister at Newark, N. J., Sept. 2.

He entered Rutgers College on Sept. 18, having graduated from Boonton High School the preceeding June. He held a prominent place on the debating teams of that school in the Rutgers Interscholastic Debates, and his never ceasing endeavors enabled his high school to secure first honors in its division.

He will be greatly missed by his classmates and fellow associates.

Alumniana.

'17. Lieut. David Abt is at home recovering from a machine gun wound received in France on August 7. He was hit in the right arm while chasing the Huns at St. Thebaud on the Vesle River.

'18. Joe Truscott is engineering now in "sunny" France.

Lieut. Joe Edgar is training at Camp Taylor for field artillery work.

R. Van Wagenen is with Wright-Martin, and "Bill" Angus with Merck's.

L. Meuser is a Chemist at Squibbs. The same work kept Beisler and MacDonald busy at DuPont's in Nashville, Tenn., this summer. "Mac" is wondering whether the heavy artillery or the draft board will write the first letter.

G. Summerill and W. Holman are still lined up for the "Medicals." Garnett is at University of Pa., and Wilgus is at Cornell.

'19. E. D. Perry commissioned 2nd Lieut. at Plattsburg, is now at Camp Taylor for further training in field artillery.

'19. Sam Burr, commissioned at Plattsburg, is training hard at Camp Grant, Ill.

'20. Art Hall is entering the heavy artillery at Fort Monroe.

If "position of attention" can be adopted in public speaking for the old poses, many a Freshman will be able to come right front into line with the orators of yore.

New Non-Coms Appointed in Co. D.

As was stated in the last issue, the appointments as "non-coms" were but temporary, at least for Company D, which has received quite a renovation. New "non-coms" have been chosen, who are also temporary. The following roster of Company D is as it stands as this issue goes to press:

Commanding Officer—Lieut. Everett.
 First Sergeant—Sergt. Moore.
 Mess Sergeant—Sergt. Kohn.
 Supply Sergeant—Sergt. Waitz.
 First Platoon Leader—Sergt. Spooner.
 Second Platoon Leader—Sergt. Oxley.
 Third Platoon Leader—Sergt. Waitz.
 Fourth Platoon Leader—Sergt. Simmons.
 Right Guide First Platoon—Sergt. Dunham.
 Left Guide First Platoon—Sergt. Franke.
 Right Guide Second Platoon—Sergt. Fouquet.
 Left Guide Second Platoon—Sergt. Seltzer.
 Right Guide Third Platoon—Sergt. Kull.
 Left Guide Third Platoon—Sergt. Rubin.
 Right Guide Fourth Platoon—Sergt. Kohn.
 Left Guide Fourth Platoon—Sergt. Curran.

Corporals—

First—Corp. Maylander.
 Second—Corp. Higley.
 Third—Corp. Stone.
 Fourth—Corp. Weisel.
 Fifth—Corp. Morgan.
 Sixth—Corp. Ward.
 Seventh—Corp. Wills.
 Eighth—Corp. Molineux.

Ninth—Corp. Packard.
 Tenth—Corp. Frankle.
 Eleventh—Corp. Denberg.
 Twelfth—Corp. Froelich.

Buglers—

Private Dunning.
 Private Tailby.
 Private Timberman.

Company Clerk—Prvt. Terbush.

Barracks Regulations.

Barracks regulations are practically uniform throughout the four companies. The days are not the same on which the bedding is aired, but every company airs its bedding twice a week. All windows must be open throughout the day when a student is not in his room; otherwise, when the occupants have studying to do, the windows may be shut. At night, from taps to reveille, all windows must be WIDE open. This regulation was not made for pleasure, but for the health and physical condition of the men. We are not fresh air fiends; yet is there anyone who likes to sleep in a hot, close room? All students must be in their rooms studying from 7-9 p. m. week days; Saturday and Sunday are not included. At nine, students may leave quarters till taps, when they must be in bed and lights out. Breaking any of these rules will probably result in a tour of K. P. or extra fatigue; and as most of the students are here to work, and not to learn the intricacies of K. P. or B. P., infractions of the above rules will probably be rare.

Bedding.

To each man inducted into the S. A. T. C. Corps two army blankets have been issued. Just now these are sufficient to keep a soldier warm, but as soon as mattresses come, iron cots and mattresses will be issued to each man. One of each only! Probably also, when real cold weather comes, we will be issued a comforter. No one has yet complained of army quarters, and we are especially fortunate in having desks, chairs, good lights and good quarters. If anyone thinks of complaining, let him remember the first 100,000 of the English, who during the first winters often slept in mud, lived in mud, and were for the most part buried in mud and snow!

Company D Has Merit System.

Lieutenant Everett has established a merit and demerit system in D Company. Infractions of barracks rules or other regulations are punishable by demerits. Especially meritorious work, on the other hand, is rewarded by merits. Merits and demerits are of equal value, and balance each other on a man's record. The greater the number of merits and the fewer the number of demerits, the better will be his record as a soldier.

Last Call For the Band.

MORE MEN NEEDED.

We are going to have a band that will be the pride of Rutgers, and at the same time the greatest asset to the Students' Army Training Corps and the football team. It is an absolute necessity in our military organization; it will put "pep" in every man, and help us forget the fatigue of the march or of strenuous drill. Cheer and joy are its essence; it is the greatest of all stimulants. In the army it is the pillar of morale.

The last call for the band has been made. More men are needed immediately—our S. A. T. C. must be complete. It will be judged by its band, and likewise Rutgers will be rated in a great measure by the showing of its band.

The following are the important points in regard to the band. Eighteen men have already reported. A drum major is wanted. A 30-piece band is the goal. The best band music is already in our possession. Our military department will furnish instruments when the player does not possess one. To sum up: Men are urged to try, especially Freshmen. It will be an honor worth while. Steady and punctual rehearsals will be held in the gym every Monday at 7.30.

When our entire corp goes to New York the band will be its satellite; in football games it will be the bulwark of the show. Here's to the band! May it be as good as Camp Raritan's!

Progress in Drill.

Under their several commanders, and through the efficiency and hard work of the different sergeants, the four companies have made rapid progress during the past two weeks. First, having no rifles, the companies were drilled simply in the school of the soldier and the squad. Then, when the rifles were issued, the same drill was again given, but with the rifles, and now all the companies can do everything from order arms to inspection arms, for the most part accurately. The company has also had the regular company drill, close order and extended order. With a few more days of drill, perhaps all this week, the companies will be efficient enough to warrant battalion drill, which is the hope of each company commander.

Chapel Services.

Although it was at first deemed necessary under the new military program to discontinue our daily chapel service, a way has been found to hold the service without interfering with the military work. The four companies shorten their drill by five minutes in order to arrive at the gym by 11.55, thus permitting a five-minute chapel service. This service includes the singing of "The Star-Spangled Banner," reading from the Scriptures, prayer by President Demarest, and whatever military announcements there may be. It is indeed fortunate that we should be enabled to maintain this important college custom at a time when so many of our old customs have been suspended.

College Prizes.

Old times seem again pushed back. The TARGUM is sorry to announce that the traditional custom of issuing "College Prizes" will not be followed this year. The military regime makes this hardly possible. But, in the good days to come, "College Prizes" will again take their regular place; and the joy of hard endeavor, in that line, may again be realized. In the meantime, you are all given the opportunity to win far higher prizes. Your Government calls you—make but a greater effort and the supreme prize is yours!

Mess and Supply Sergeants Appointed.

Since the last issue of this paper, things have taken on a very distinct military atmosphere. Each company has appointed a Supply Sergeant and some have appointed Mess Sergeants. The duties of these "non-coms" are what their titles imply: the Supply Sergeant takes care of all the supplies that are, or will be, issued the different companies; he supervises their distribution, and also sees to it that proper records are kept. The Mess Sergeant sees to it that order is preserved at mess and that all offenders are reported to the company commanders.

The following is a list of sergeants appointed to date:

Company A.

Mess Sergeant—Sergt. Sherwin.

Supply Sergeant—Sergt. Johnston.

Company B.

Supply Sergeant—Sergt. Brien.

Company C.

Mess Sergeant—Sergt. Messer.

Supply Sergeant—Sergt. Baker.

Company D.

Mess Sergeant—Sergt. Kohn.

Supply Sergeant—Sergt. Waitz.

Orderly Rooms Established.

There has been some confusion among the men as to just where the orderly rooms of each company are. For the benefit of these this list of the location of the rooms is printed:

Company A. Room 52, Winants, second floor center, head of stairs.

Company B. Room 50, Winants, second floor center, head of stairs.

Company C. Room 516, Ford Barracks, fifth house, first floor, near entrance.

Company D. Room 311, Ford Barracks, third house, first floor, near entrance.

Fraternity Houses Being Used.

Because all members of the S. A. T. C. must live in their assigned quarters, a great many of the fragment has taken the Delta Phi, the Kappa Sigma ment has taken the Delta Phi, the Kappa Sigman and the Beta Theta Pi houses for barracks, but the rest were left at the disposal of the fraternities themselves. The rooms of the Chi Phi, the Pi Kappa Alpha and the Delta Upsilon houses have all been let to officers and men of the Wright-Martin plant. The pool table of the D. U. house has been dis-

manteled and set up in the New Brunswick canteen for the duration of the war. As stated in last week's TARGUM, officers mess at the Chi Phi, and the Delta Kappa Epsilon is quarters for Lieutenants Downs, Finney and Carpenter. The Ivy Club, because of the influenza epidemic, is converted into the infirmary. As yet, nothing has been done with the Lambda Chi Alpha, the Chi Psi, and the Zeta Psi houses, but the Zeta Psi plans to let its lower floor to the Red Cross. The rooms of the Phi Gamma Delta have been rented to students who are not members of the S. A. T. C.

Why the Targum Was Delayed.

The TARGUM is so seldom subject to delay, that the occurrence of last week's delay requires an explanation. The inevitable, however, happened. Our business manager, Harry Bloom, was taken sick on the very day that his services were to be utilized to obtain the printed copies from town. He is not a member of the S. A. T. C., and hence has the privilege of coming and going in spite of the quarantine. Efforts were made to obtain the copies, but the necessary permission to leave the campus could not be obtained, because Lieutenant Torpey could not be interviewed. A day was thus lost—yet, now-a-days, such things cannot be helped. The TARGUM aims for punctuality, for it is but one link in its efficiency.

Best Wishes For Dr. Scott.

We are very sorry that illness has caused the temporary absence from college of one of our best friends, a friend who tries to know us not only as Rutgers men but individually and personally. The middle of last week Dr. Scott was forced to stay away on account of a severe attack of heart trouble. Dr. Payson and Mr. Graham are taking his classes for the present and we are glad that there are such good men available to carry on the work. However, both Dr. Payson and Mr. Graham already have their places in our esteem, and they can never fully take the place of Dr. Scott.

There is good news, however. Dr. Scott is much better and not confined to bed. The doctors think that a complete rest, possibly of several weeks, is all that will be required to enable him to return. There is no one who can enjoy a better earned rest than can Dr. Scott, and we all hope that he will take all he needs. Nevertheless, we are looking forward to the day when he will come back completely restored and ready to take his place again among us.

THE DINING HALL TELLS A STORY.

The dining hall is the point of most frequent meeting on the post, and should arrest our thought from time to time as a center of fellowship. We may think of it in two ways: as a source from which a hungry army is quickly fed three times daily; and as a college dining hall. It appears that we are prone to neglect the latter phase under the hunger and hurry that summons us at meal hours.

An unpleasant habit of commandeering too great a stock of supplies has wrought several evils. When over-sized helpings of victuals are taken by individuals, the supply is unequally distributed. Others have to wait for serving dishes to be replenished. Food is wasted by inability to eat all that is taken. This is due to the novelty of the situation, we are pleased to believe. Though there is often more to be desired in quality, there is always sufficient quantity. If we realize there will be plenty for even the last man, and take moderate portions, these evils will disappear.

The disposal of these supplies is another matter of interest. Under the best conditions possible there is only too much haste. There is always a reasonable limit to the amount of food, and the speed with which it should be eaten. Coming in from the invigorating air, it is easy to disregard these bounds, and imprudently overburden our digestion. It is paid for by discomfort and reduced efficiency.

"Let me dine with a man and I will tell you what I think of him," is a statement often made by men where quick judgment is a requisite. Do we remember that this axiom is applied at nearly every meal? We have been here long enough now to live down the novelty, and "find ourselves." We are in college, men, regardless of its temporary military status. Where college men are round, we expect to see exemplified in them the degree of culture that a college represents. Where can it be better expressed than in the dining hall? Patience and thoughtfulness, added to the already cheerful attitude of our dining room, will make better Rutgers men.

In Memoriam.

The news of the death of Harry Morris Hansen brings both sorrow and glory to the college. He was born at Perth Amboy, New Jersey, on July 19, 1897. After preparing for college at Blair Academy, he entered Rutgers in the fall of 1916. At the outbreak of the war he immediately enlisted in the Naval Reserve, but he obtained permission to pursue his college course. On July 18, 1918, however, he was ordered to report to the Pelham Bay Training Station. About the 1st of October, while on duty on the U. S. S. Merchant, he was taken ill and was transferred to the Saint Catherine Hospital, Brooklyn, N. Y. There he died on Sunday, October 13, of bronchial pneumonia. Funeral services were held at his home in Metuchen on Thursday, October 17. He was a member of the Gamma Upsilon Chapter of Kappa Sigma.

Kappa Sigma Resolutions.

WHEREAS, It has pleased Almighty God in His infinite wisdom, to call from us our brother, Harry M. Hansen, of the class of 1920, we, the members of the Gamma Upsilon Chapter of Kappa Sigma, express our sincere sorrow at the loss we have sustained, and express to his relatives and friends our deep sympathy and consolation. And be it

Resolved, That the pins of the Chapter be worn in the customary manner and be draped, for a period of thirty days. And be it further

Resolved, That a copy of these resolutions be sent to the family of the deceased, be sent to the TARGUM, and be spread upon the minutes of the Chapter's meeting.

CHAS. E. KULP.
J. LLOYD MILLER.
H. VERNON ASPINALL.

'86. George A. Viehmann succumbed to an attack of pneumonia on October 12. Mr. Viehmann, mayor of New Brunswick in 1901-02, leaves a record of no inconsiderable prominence in the fields of finance and political activity. When a student here he showed unusual ability in mathematics, which won for him the Joseph P. Bradley Prize and encouraged his success in later life as a banker. He did much toward securing the Carnegie Library for New Brunswick, as well as bringing to realization many other valuable civic improvements.

The Kaiser's Despair.

REALIZING THAT THE END IS NEAR, HE MAKES HIS WILL.

(From Our Special Correspondent in Berlin.)

It is rumored in Germany that the Emperor now realizes that his number is up, and is accordingly making his will, revoking all wills made before.

The will is said to read as follows:

This is the Last Will and Testament of me, Wilhelm, the superswanker and ruler of the sausage eaters; recognizing that I am fairly up against it, and expecting to meet with a violent death at any time at the hands of brave Sammies, I hereby make my last Will and Testament.

I appoint the Emperor of Austria to be my sole executor. (By kind permission of the Allies.)

1. I give and bequeath to France the territories of Alsace and Lorraine. (As this is only a case of returning stolen property, I don't deserve any credit for it, and am not likely to get it either.)

2. To Servia I give Austria.

3. To Russia I give Turkey, for the Tsar's Christmas dinner.

4. To Belgium I should like to give all the thick ears, black eyes, and broken noses, that she presented to me when I politely trespassed on her territory.

5. To your UNCLE SAM I give all my dreadnoughts, submarines, torpedo-boat destroyers and fleet of Funkers generally what is left of them. He's bound to have them in the end, so this is merely anticipating events.

6. To John Bull I give what is left of my army, as his General Haig seems so handy at turning my men into sausage meat.

7. To the College of Science and Museum I leave my famous mustaches, souvenir of the greatest swanker in this or any other age.

8. To Mrs. Pankhurst and the wild women I leave my mailed fist. (They'll find it useful, no doubt, when they resume their militant tactics.)

9. To Sir Ernest Shackleton I leave the Pole. I've been up it for so long that I regard it as my own property.

(Signed) H. I. M. WILHELM,
Lord of the Land, Sea and Air.

Ursinus students are giving strong support to their two literary clubs with very creditable enthusiasm for war times.

Rutgers Defeats Pelham, 7-0.

The team from Pelham Bay Naval Training Station came up Saturday, thirty strong, with blood in their eyes, and put up a fight worthy of a well-trained college team. The Pelham line with a good season's coaching and training would have been well-nigh invincible. As it was, there were few good holes opened up and several times they wrested the ball from us on downs. However, the "big red team" was not playing together like the old machine of last year, due to the fact that Feitner and Gardner have been out of the line-up for a week. Loose handling of the ball was again prominent and at costly times. Twice Rutgers was held for downs because of precious yards lost by fumbles.

Kelley received the kick-off and started the ball rolling by tearing off fifteen yards before he was thrown. Gardner made five, and on a second plunge five more for first down. Kelley made six off tackle, but on a second try a big Pelham line-man broke through and spoiled the play. Summerill punted, the Pelham quarter fumbled, and Kelley picking up the ball ran for ten yards before he was tackled. With the ball on the 25-yard line in striking distance of the goal the prospects were bright, but the sun went under the clouds very fast. Summerill galloped through center for eight yards, but the Pelham line immediately stiffened and held for downs. One play off tackle netted no gain and a kick was called for. The pass was high and wide, roled toward the goal, and Oed trying to run with it was thrown hard in the very shadow of the goal posts. He was tackled so hard that he was unable to continue and Bernstein replaced him. A punt went out of bounds on the 25-yard line and the ball was put in play by Pelham from the twenty. They promptly punted and Baker was run out of bounds on Rutgers' 35-yard line. Hardly had the team started before a fumble put the ball into Pelham's hands. A couple of short plunges and the whistle blew for the first quarter, with the score for both teams still at the zero mark and the ball in Pelham's possession at midfield.

On the first play they made ten yards through the line before the Scarlet team got together. A quick forward netted five, and a skin tackle play made four more. Then the Rutgers team stiffened their defense and on the second play Neuschaefer intercepted a forward pass and ran back twenty yards. Then the team settled down to business. Kelley made four on a line plunge and Baker tore off six more, but when tackled fell with his head doubled under him and

was taken off the field in a groggy condition. French went in at quarter and the march down the field went on. Gardner got away around left end for twelve yards and Kelley kept his feet for ten more. Two more rushes and the ball was on the 18-yard line. Then came the break! A forward pass settled into the arms of Bernstein and he was away with a clear field, and Summerill, the nearest man, ten long yards behind. Inch by inch and foot by foot the gap narrowed down, and after sixty-five yards of the hardest running he caught him from behind with a perfect tackle that sent the stands crazy with joy at the averted catastrophe. After that the team went into the fight like bull-dogs. The first play was broken up for a five-yard loss, and Breckley broke through on an end run and tackled the man seven yards behind the line of scrimmage. A third plunge failed to make up any of the lost ground and the fullback took a try at a field goal. The ball went low under the bar and everybody began to breathe again. The time was almost up and after three plunges the whistle blew for the first half. Score, 0-0.

Second Half. Feitner kicked off and the man was downed before he got started. Seven yards off tackle and one through the line, but a third plunge lost ground and Pelham punted out of danger. French received the kick and made seven yards before he was downed. Kelley added three, but on the next play there was a fumble resulting in a loss, although Gardner recovered the ball. Summerill punted to Pelham's 31-yard line. The kick was recalled, however, and Pelham penalized five yards for being off-side. Summerill netted two through the line, but a criss-cross end run was broken up with only a yard gain. Rutgers was penalized fifteen yards and Summerill was forced to kick. "Roby" caught the man on the 25-yard line before he could get started. Three plunges totalled only four yards and Pelham punted. The whistle blew as Kelly was tackled. Score, 0-0.

With the beginning of the third quarter Baker went back to quarter. Summerill made three through center, but an attempted forward pass was incomplete, a line plunge made only one yard, and on the fourth down the Pelham line held like a stone wall and they took the ball on downs. Three plunges netted a total of eight yards, but a forward pass was intercepted by Neuschaefer. Rutgers' ball. Gardner made eight yards on the first play, but Kelley ran wide on an end run and was thrown with no gain. A forward pass fell clear, and Summerill's punt on the next play was blocked, Pelham recovering on their 43-yard line. Pelham kicked on the second

down. Higgins went in for Breckley at end. Kelley made no gain, but Baker got away for a fourteen-yard dash. A long forward was caught by Robeson who carried the ball to Pelham's 28-yard line. Gardner was thrown for no gain, but on the next down netted five yards around end. Kelley made six and Summerill four more. The old team got together for the first time and were working like a machine. Gardner got away for six yards and Kelley made four more in two tries. Then the ice broke and Baker tore himself clear for the intervening distance and touchdown. Not content with that, he proceeded to kick the goal.

Feitner kicked off, but after one short rush the final whistle blew and the cheering students burst out upon the field and carried the team off. Final score, 7-0.

Exchange. "Ursinus Weekly" introduces an account of our game with them, as follows:

66-0 SCORE

"Lacking veteran material, a coach, and sufficient practice, Ursinus was an easy victim of the terrific, nerve-racking onslaught of the fast New Brunswick machine which made the appearance of a championship team on Neilson Field last Saturday. Rutgers, with nine veterans in perfect shape, had no difficulty in smashing at will through the Ursinus line for long gains."

Rutgers to Play Georgia Tech or Pittsburgh.

BIG BENEFIT GAME FOR RED CROSS.

Dame Rumor has been around again with her tales. The latest is that of a possible game with either Georgia Tech or Pittsburgh, to be played in New York at the Polo Grounds for a benefit. Arrangements are being tried to bring this about. The scheme as planned is for Pittsburgh to play Georgia Tech and then for Rutgers to play the winner. Pittsburgh and Georgia Tech were the two teams last season that made such excellent records, and the decision when made between the three teams would clearly be deciding the best and strongest team in the country.

Rutgersensin

A great many of the fellows in college were late, last Thursday, for their second morning recitation. And it is certain that one of those tardy got to his class with a stiff and tired neck. After watching that birdman soar about, more than one man must have wished that he might enlist in aviation then and there, rather than report to his lecture. Lieutenant William H. Martin of New Brunswick, now stationed at Mineola, was the visiting airman.

News from Trenton seems to carry the threat that the "banks of the old Raritan" may be no more. For if the Elizabeth Water Company succeeds in monopolizing the Raritan's supply of delicious drinking water these famous banks will merge into one and the Raritan will no longer flow between! Woe unto us!

We are sorry that Professor Agee has removed his home from New Brunswick, but hope that the town of Princeton has given him a hospitable reception.

On October 14, Dr. Scott and Dean Bevier were active forces in shaping the work of the New Brunswick Public Library at the quarterly meeting of its board of trustees.

Cornell and Brown intend to form S. A. T. C. football teams. Columbia and N. Y. U. are holding strenuous practice, and we thought we had a chance to trim Penn when they said they were ready for a strong team. Perhaps they are looking for one not too strong.

Bayonet Killing.

Yes! Bayonet killing. It's nasty work, but has to be done, and we'll have a chance to do it. Get mad! Yell! Cuss! And get your man! That's why we have bayonet killing. The infantry does the actual work, the meeting of infantry is the battle, and the best infantry decides the outcome. Bayonet killing? You bet! Who wins the battle? It's the men with pep; men with *guts*; but above all—*men*. These men know their rifle and how to use it. Do you? *Will* you? Remember, the German gets just as much bayonet-killing practice as we do, and for the most part has had actual experience. He gets more parrying work, as far as that goes, but what good will it do him if the other fellow gets there first?

Speed, that's it! Lightning speed! In—out; here's another one. Got him? Damn right! Accuracy! Watch me! Grrr! Right through the eye. Can you do it every time? Yes! I've practiced enough.

Get a stick; put a loop on the end; make it,—believe it a Hun, and stick him! Do it again! Who's going to be the best man?

The grunting and cussing is not a waste of breath. No one likes to *see* another man, even if it is a Boche, pass out, and still less hear him doing it. That's the big idea of the noise. It will scare him, too! Too much Kultur. Don't let any thing or any sound unnerve you! Get at it; keep at it; and you'll be a man's man—a big "He"!

Start slowly. Take it easy. It isn't an overnight's growth. Accuracy first. *Speed* later. Without real-

izing, you'll have the combination. You'll want to use it, and then—"Gott" pity the first Boche you run through.

Put life into it. Each motion distinct, accurate. Get someone to show you. Keep at it! Make your rifle a part of yourself, and remember "the will to use the bayonet!"

Quarantine Lifted.

The quarantine which has held so many of us on the campus has been lifted by order of Lieutenant Torpey, coincidentally with that of the town, at 6.00 o'clock Saturday night.

Now that the epidemic is apparently over in New Brunswick, the stores (such as we most feel in need of) have reopened, together with the movies and the Opera House. The college supplied its quota to these, you need have no fear, as it has in the past.

From Mr. Brown's standpoint, the men needed everything from a stamp to a toothpick. Certainly he did his share in getting our needs filled. Again the Y. M. C. A. is proving itself a thing so necessary.

Tender left arms have been very much in evidence the past week, and considerable rivalry for the honor of having the "best vaccination" has existed among S. A. T. C. members. Companies A and B enjoyed a temporary advantage, due to the fact that they were scratched a few days earlier, but C and D soon overcame this advantage and by the end of the week were the undisputed champions.

Our Former Military Instructors.

Captain Leasure, who was commandant here two years ago, has been in France for some time and was, until recently, a lieutenant-colonel on General Pershing's staff. A short time ago he was promoted to colonel and assigned elsewhere, details as to his assignment not being known to us. We are all glad to hear of his steady advancement, for, during his stay with us, Captain Leasure brought our cadet corps to a high state of efficiency, and won the respect and admiration of every one.

Major Bigelow, our commandant last year, is now in Washington with the Intelligence Department and is engaged in writing a history of the war. Major Bigelow is well qualified for this work, as he has already written several valuable books on military matters.

Sergeant White, who assisted Captain Leasure and whom all Juniors and Seniors will remember, is now a captain in the Signal Corps, stationed at Manila.

Sergeants Siebert and Erlander, who also assisted Captain Leasure two years ago, are now both commissioned officers in the Infantry, and when last heard from Sergeant Erlander was a captain.

These former military instructors of ours have all won a high place in our esteem. The college is following their careers with interest, and we wish them all the best of success.

War-Risk Insurance.

Applications have been filed with the company commanders by the inducted men for war-risk insurance. It is needless to state here just what this insurance is, for almost everyone is acquainted with its ultimate value.

A very striking point about this insurance is that if a man is disabled he receives \$5.75 per \$1,000 per month for 240 months, but if the disabled is totally and permanently disabled and lives longer than 240 months, the payments will be continued as long as he lives and is so disabled. The smallest sum for which a man can be insured is \$1,000 and the largest amount is \$10,000. Between such limits, insurance may be applied for in any sum, provided it is in multiples of \$500.

The monthly premiums, which are deducted from the soldier's pay, are very reasonable and the rates per \$1,000 are:

Age	Monthly Prem.	Age	Monthly Prem.
15	\$0.63	41	\$0.82
16	.63	42	.84
17	.63	43	.87

Age	Monthly Prem.	Age	Monthly Prem.
18	\$0.64	44	\$0.89
19	.64	45	.92
20	.64	46	.95
21	.65	47	.99
22	.65	48	1.03
23	.65	49	1.08
24	.66	50	1.14
25	.66	51	1.20
26	.67	52	1.27
27	.67	53	1.35
28	.68	54	1.44
29	.69	55	1.53
30	.69	56	1.64
31	.70	57	1.76
32	.71	58	1.90
33	.72	59	2.05
34	.73	60	2.21
35	.74	61	2.40
36	.75	62	2.60
37	.76	63	2.82
38	.77	64	3.07
39	.79	65	3.35
40	.81		

Progress of Induction.

The induction of all the members of the S. A. T. C. is nearing completion. There are some whose induction is being delayed by the failure of their draft boards in forwarding the necessary induction papers.

Up to the time of going to press there were 326 men fully inducted, 40 enrolled, and 59 who are in the process of induction by waiting for their induction papers.

It is hoped that all members will be inducted at an early date in order that the records at headquarters may be complete.

As the hour for drill drew near last Monday rumor had it that there would be battalion drill. Rumor, as usual, hadn't listened to all the facts. What really happened was "calisthenics by battalion." For twenty minutes, hands rose, legs straddled, trunks twisted, and fingers wiggled, all more or less in cadence. Lieutenant Torpey kept the exercise at top speed, and constantly called for more pep, accompanying every appeal by putting more vigor into his own movements. The effectiveness of the drill was clearly demonstrated the following morning, when every step and turn were followed by protests from aching muscles.

First Sunday Services Held in Chapel.

Due to health conditions, Sunday chapel services were not permitted, but with the quarantine lifted on October 26, the first services were held October 27 at 11.00 a. m. Rev. W. I. Chamberlain '92, alumnus and trustee of the college, who is now a chaplain in the United States Army, delivered the sermon.

The text was taken from Job 11:7, "Canst thou by searching find out God? Canst thou find out the Almighty unto perfection?" St. John 1-18 the answer: "No man hath seen God at any time; the only begotten Son which is in the bosom of the Father, he hath declared him." And Mark 9:49, the cost of the answer: "For every one shall be salted with fire, and every sacrifice shall be salted with salt."

Man has been more concerned with ideas than with ideals. The tendencies have been toward things interesting and amusing rather than toward convictions and ideals. A change is taking place throughout the world, illustrated by the faith in God, growing and strengthening in the camps. Man is putting more faith in God and the cost is fire and sacrifice. Yet it is infinitely better that the stars on our service flag should be gold, than that the spirit of America should be lost.

Services were to have been held October 20, but as the quarantine could not be lifted the services were omitted. However, short religious services were held in front of Old Queens, led by President Demarest.

Short Winter Course at College Farm.

The magnitude of the scope embraced by Rutgers College will this winter, by the plans of the State Agricultural College, be enlarged still further. College Farm will open its doors to New Jersey boys and girls, other than college students, for a Winter's Short Course in Agriculture, beginning November 18 and terminating February 19.

During such a short time—a winter's spell—boys and girls may obtain an excellent and practical course in modern Agriculture, and in addition the girls can pursue the domestic art and science courses. Tuition is free, and the rest of the requirements are all in harmony with the objective; namely: opportunity and service to non-college students in Agriculture.

All this will be done this winter and within the jurisdiction of our great college. We will be proud of it; and help those in pursuing of the study of Agriculture to make it what it should be—the strong-pillar of civilization!

Burke, '22, Injured by Fall.

While returning from football practice last Thursday, James M. Burke, a freshman member of the squad, fell fifty feet over the Raritan embankment in back of the football field. Absorbed in chasing a rolling football, he realized the nearness of the embankment too late and slid feet first over it. He struck the shore below and rolled into the canal; he was rescued by George Conover and sent to Wells Hospital. At first Burke was partly paralyzed, but he is now much better, although confined in the hospital by a broken wrist and a sprained ankle. We all wish him the speediest of recoveries and an equally speedy return to college.

Women's College Reopens With 51 Students.

The recent influenza epidemic disregarded the all-important fact that the New Jersey State College for Women had only commenced its life's sojourn but a little more than a month ago, and checked the infant in its bud. 'Twas a hard blow to so young an institute. We are very glad to announce, however, that the college was again opened last Monday, October 21. A total of fifty-one students returned and but two were absent. It is to be regretted that Mrs. M. S. Douglas, Dean of the college, is still ill at her home in Jersey City.

From the natural tendency to show that they were all healthy and full of life, a party was held last Friday in honor of the opening of the college. All had a merry time; and it was voted so much in keeping with their rising spirits and with the coming season of jubilee that another party will be held on Hallowe'en night. But here is the additional news which will interest some Rutgers men here. Dr. Demarest will select a definite number of honor men to go over to the party. Such lucky men as chosen will be allowed to stay over taps if it can be so arranged. So much for the party.

Last week Miss Peckham, physical instructor of Women's College, was called for overseas duty. Miss Peckham will do reconstruction work in the physical line, that is, she will lend her efforts to rebuilding the maimed, paralytic and wounded. Miss Aranoff, of Trenton, N. J., was engaged last Wednesday to replace Miss Peckham as physical instructor.

The S. A. T. C. payroll included 325 names when signatures were obtained Friday evening. At headquarters it was announced that pay day would probably be November 1.

COLLEGE DIRECTORY.

Senior Council—President, C. H. Y. Bellerjeau.
Y. M. C. A.—President, C. Wimpenny.
Athletic Association—President, C. H. Y. Bellerjeau.
Targum Association—President, T. B. Maxwell.
Philoclean Literary Society—President, M. S. Pitt.
Queens Players—President, H. S. McWithey.
Glee and Mandolin Clubs—Manager, A. M. Rice.

OUR Y. M. C. A.

In a recent issue of the TARGUM an article appeared describing the probable work of our College Y. M. C. A. Most of that work is still in the plan-form, soon to be realized. But this does not stop the Y. M.'s importance. We cannot be sufficiently thankful to the Secretary, Mr. Brown, for the manner in which he aided us during the quarantine. The Y. M. proved a material advantage. But is that all? The college body is undergoing a severe crisis. Our regular life—college, class, individual—is changed. And in the new positions we should not lose ourselves. Here the Y. M. can benefit us morally and spiritually. The Y. M. room, with its books, papers, magazines, chess, etc., is a place in which we can quietly gather together and preserve our college, moral spirit. The Bible classes to be organized under Y. M. direction are to be a great spiritual aid. Fellows, let us patronize all its activities! Give the Y. M. C. A. all the boost you can! Its organization must be preserved. Mr. Brown has a number of surprises ready for us. Give him our united support to carry on!

One of the important branches of the Y. M. C. A. is the Social Service work done in the city. Each successive year has brought greater opportunities for this work, and greater efforts and success. Our military regime will no doubt seriously interfere with this branch of work. But there are two week-end evenings when a great amount of good could be done. To this also give your material aid, as well as moral support. When the call for volunteer workers comes, *respond* with "pep." The more you give of your aid, the more will be your reward.

The Y. M. C. A. is an up-to-date part of our college life, and is keeping steady pace with all changes. It is a "live wire"—and it is part of our duty to keep in close touch and harmony with our branch of a world-organization.

Checkers Tournament Next Week.

During the week beginning November 4 a checkers tournament will be held under the auspices of the Y. M. C. A. All men desiring to enter should hand their names to the secretary not later than 7 p. m. on November 4, as the tournament will begin the following day. The list of names of men who are to play the first round will be posted in the Y. M. C. A. room and the first games should be played forty-eight hours after the list is posted. To judge by the interest shown in checkers there should be a large number of entries.

With Other Colleges.

Reveille at 5 a. m.! As you were! A Knox bugler's watch was an hour fast. We wonder if his promptness was appreciated? Glad to say that our buglers have not yet made this mistake, but when they do—Br-r-r. "Oh, it's nice to get up in the morning."

New Hampshire engineers are certainly "live wires." They are not only training and learning, but they are doing things. Here are some of their jobs:

Concrete walks on the campus.

Foundations for new buildings.

Sewage construction.

Farm buildings.

Garage.

Auto repairs.

Barracks, mess hall, kitchen, and bakery for 500 men.

When they attack their work with such vim it seems very probable that their two-year engineering course will be a success. Under this new plan, men completing twenty-four months or eight terms will have covered the regular four years' work and will be given a bachelor's degree.

Ursinus lost her second game October 19, when Lafayette scored all the seventeen points on the board.

In the State of Illinois alone there are twenty-three S. A. T. C. college units.

Beta Theta Pi Resolution.

WHEREAS, It has pleased Almighty God in His infinite wisdom, to call from us our brother, Rudolph Elmer, of the class of 1917, we, the members of the Beta Gamma Chapter of Beta Theta Pi, express our deep sorrow at the loss we have sustained, and express to his relatives and friends our sincere sympathy and consolation.

Opening this column
Is no cinch to do,
But I've got to scribble
A line or two.
If it isn't real poetry,
Let's not quibble,
Because I'm not a poet,—
I just scribble.

Now that that's off our mind, we might observe that, in the case of Germany, "Too many cooks spoil the broth." Condensing the President's note, we get the following: Hapsburg and Hohenzollern, birds of a feather; for peace as in war to be treated together.

Now that we are in the S. A. T. C., what happened to the pater's cash that was to put us through college? Why, his daughter Nantucket.

(Getting worse.)

What do you mean by college bred?
Usually we mean a four years' loaf.
Now we're in S. A. T. C.
That can no longer be.

Math. Prof. (trying to drive home a problem in fractions to dull student): "Now, Mr. K., how many quarters are there in a football game?"

Mr. K.: "Why—ah—now—ah."

M. P.: "Why, there are four, aren't there?"

Small Voice in Back of Room: "Professor, suppose it rains?"

(We haven't solved it ourselves yet. Some sugar in your cereal if you send in the correct answer.)

I now must write a line or two,
As all good poets sometimes do.
Of all sickness, I am glad
"Influ" I have never had.
I never mind a chimney "flue,"
Or an army cot, just broke in two;
But of all the birds that ever fly,
This "flu" bird simply takes my eye.
So take a bath, and never doubt
The "flu" will get you,
If you don't watch out.

Well, here's where I get off.

LEW TENANT.

Lehigh Fails to Score.

INDIVIDUAL STARRING A FEATURE.

For the first time in several years Lehigh sent down a team, but the renewal of hostilities with us was of little profit to them, for the Brown and White warriors were beaten from the start. Although outplayed at all times, they tackled clean and hard, which was the main factor in holding down the score. Only once did the ball ever advance within scoring distance of the Rutgers goal line, and then only due to a long forward pass and a heavy penalty. At no time was the Maroon and White able to develop a strong, consistent attack, although here and there one could see individual flashes and several good gains.

At last the Scarlet team has gotten together and is working smoothly, as any observer of Saturday's game can easily see. Not only was the team working like a machine, but the individual playing was so brilliant that the space allotted to "ye poor scribe" is insufficient to begin to give details. We will consider the fact that everyone deserved individual mention and refer solely to the playing of Kelley, Robeson, and the fast and clever running of French. When yards were needed it was Kelley that was called upon, and his consistent hard running and perseverance could not be denied. Robeson was there at all times and twice dazzled the crowd by pulling the ball down out of the air and striding across the goal with half a dozen opponents on his back. The lubricating oil for that machine, the brains that were always behind it, were those of Baker, and we give him the credit he deserves. But we had better stop here before we fill up too much space with individual praise. Sufficient to say that after the game the umpire told Coach Sanford that he had never seen a team play such football as Rutgers did then.

First Quarter. Baker received the kick-off and ran back twenty yards before he was downed. With the backfield alternating at carrying the ball, the steam roller went down the field, and in twelve plays Kelley went over the line for the first score. Baker missed the goal.

Lehigh chose to kick off, considering it safer to keep the ball in our territory, but they miscalculated. Kelley caught the ball on the 15-yard line and carried it back to midfield and the march was on again. A forward and a line plunge both failed and then Baker called for the onside kick play which Coach Sanford has been developing. With nine yards to start with the team marched to the 17-yard line. There Lehigh fought desperately and Kelley tried a field goal. The ball went low and was carried back

to the 25-yard line. An exchange of punts left the ball in Rutgers' hands on her own 33-yard line. Time out for Baker. Two short gains counteracted by a fifteen-yard penalty put us in a bad way and Summerill was forced to punt. Feitner dropped Hamplin in midfield and time was taken out for the latter. Just as play was resumed the whistle blew for the first quarter. Score, 6-0.

Second Quarter. Breckley broke through on the first play and broke up the play for a ten-yard loss. Another penalty of fifteen yards and a completed pass made fourteen more, and Lehigh was within scoring distance. The try at field goal failed, however, and the ball was put in play from the 20-yard line. Kelley tore himself clear for a dazzling forty-yard run, but the play was called back and Lehigh penalized fifteen yards. After a couple of short gains through the line Summerill got off a long punt and Robeson touched the ball on Lehigh's 27-yard line. Lehigh returned the punt and Baker carried it back to midfield. Baker made an end run for seven yards and then Robeson broke into eternal fame by pulling down a long forward from Kelley and marching over the goal line. Baker missed the goal.

Lehigh again chose to kick, and well screened by interference Baker tore back clean into Lehigh territory. However, he was tackled so hard that the ball got away from him and Lehigh recovered. After losing twelve yards on the first play they were saved by the whistle. Score, 12-0.

Second Half. Lehigh kicked off and Baker ran back twenty yards. The steady, uniform drive was interrupted for the minute by Kelley, who tore himself clear and ran to within Lehigh's 20-yard line. On the second play Gardner went over the line. Baker kicked the goal.

Lehigh kicked off and again Kelley got away for a long gain to Lehigh's 35-yard line. After making a first down the onside kick was tried again and Robeson picking it up on the bounce was thrown out of bounds on the 2-yard line. French went in for Baker. A disastrous fumble on the very goal line followed and Lehigh kicked out of danger, but French uncorked some great speed and ran back to the 25-yard line. Higgins went in for Breckley. Kelley and Gardner kept on hammering and on the fourth play Gardner went over for a score. Gardner added the extra point. Feitner kicked off over the goal line and Robeson threw the man on the 15-yard line. Lehigh kicked, but French again opened up on his throttle and the ball was on the 5-yard line. From there Kelley went over and Gardner kicked the goal. Score, 33-0.

Fourth Quarter. Gardner ran back the kick-off for twenty yards. Two penalties set us back, but a forward pass made up some of the ground and Summerill kicked. Lehigh tried a forward but counted without Robie's six-feet-four, and he made his second touchdown. Gardner missed the goal.

Lehigh kicked off to Higgins who was thrown before he got started. Gardner and Kelley made a first down. Redmond in for Higgins. Kelley, Gardner and Summerill were still plowing through but beginning to show the strain, and after ten yards more Kull went in for Summerill. An onside kick was intercepted by Lehigh and run back to midfield. After trying four successive forward passes it was Rutgers' ball on downs. Lehigh intercepted a forward pass but suffered the same experience on the next play and the whistle held off just long enough for French to get away for a long run. He was thrown just seven yards short of a touchdown. Final score, 39-0. The line-up follows:

<i>Rutgers.</i>		<i>Lehigh.</i>
	Left End.	
Robeson		Saxman
	Left Tackle.	
Feitner		Spagna
	Left Guard.	
Neuschaefer		Hatton
	Center.	
Dunham		Goldman
	Right Guard.	
Rollins		Parker
	Right Tackle.	
Mount		Booth
	Right End.	
Breckley		Kaplan
	Quarterback.	
Baker		Wysachi
	Left Halfback.	
Kelley		Weber
	Right Halfback.	
Gardner		Smith
	Fullback.	
Summerill		Dowd

Substitutions: For Rutgers—French, Higgins, Redmond, Kull. For Lehigh—Hickman, Shann.

Umpire: Dr. Keogh. Referee: Mr. Maxwell. Head Linesman: Mr. Perry.

The class of 1888 has presented to the library a set of text books written by one of their members, Harmon B. Niver. Among them is an exhaustive geography of our state and that of New York.

Alumniana.

'80. Dr. John L. Suydam was painfully injured in an automobile accident on October 11, near Jamesburg. The car in which he was riding swerved from the road and was hurled down an embankment of considerable height. In view of the violence of its fall, it was little short of a miracle that several lives were not lost. We trust that Dr. Suydam has completely recovered from his injuries.

'04. Capt. B. F. Shivler died at his home on October 14 as a result of the dread influenza and pneumonia. Captain Shivler was head of the explosives section, Philadelphia Division, United States Ordnance Department.

'08. A memorial mass on October 15 in St. Patrick's Cathedral, showed again to some degree how widely shared, and how great, is the devotion of Joyce Kilmer's host of friends. The massive pile was filled with men of fame, scores of representatives from literary societies, reverent admirers, and military comrades. The just praise of the funeral oration needs no emphasis. To understand its truth, a stranger would need but to turn to the works of his pen. The memorial edition of his prose and verse is a beautiful monument to that wholesome, virile spirit expressed in:

"If I should live in a forest
And sleep underneath a tree,
No grove of impudent saplings
Would make a home for me.

"I'd go where the old oaks gather,
Serene and good and strong,
And they would not sigh and tremble
And vex me with a song."

'12. Influenza has again taken its merciless toll. On October 22, Louis Fowler Merrill died of pneumonia. Mr. Merrill was farm demonstrator for Bergen County. On graduating from Rutgers he had engaged in experiment station work for two years.

'18. Lieut. William H. Martin is a member of Squadron 253, stationed at Roosevelt Field, Mineola. He will probably appear in the big air meet to be held at Mineola shortly.

'18. Lieut. Frank M. Meyerend is stationed at Camp Jackson, S. C. He is rather busy with his duties of lieutenant, head of mess, and assistant paymaster.
