

Are You Going to the Prom?

VOLUME LIV.

NATATORS ARE TOO MUCH FOR CADETS

Scarlet Mermen Travel to West Point Saturday; Return With Army's Scalp

GIEBEL LOWERS 440 RECORD

Rutgers Takes Four of Seven Firsts; Score Close Throughout

In an extremely interesting swimming meet Rutgers defeated the Army at West Point last Saturday afternoon by the score of 35 to 27. Captain Giebel by a wonderful exhibition of swimming in the 440-yard swim, which is a new event for the Scarlet to participate in, established a new intercollegiate record when he swam the quarter-mile in the fast time of 5.34%. The former college record for this distance was held by Hazelton, of Princeton, whose time was 5.39. "Cy" Redmond was the other Scarlet entry in this event, and by a remarkable spurt in the final lap was able to finish in second place ahead of Breidster, of West Point. Rutgers won first place in four of the seven events, but they were just nosed out in the 200-yard relay, which gave the Army eight points, and this with first place in the back-stroke and hundred made the score close throughout the entire meet. As there was no basketball game on Saturday, Enander made the trip and was one of the entries in the 50-yard swim, which he won in the fast time of 26 3/4 seconds.

The Scarlet took first and second places in both the fancy dive and 100-yard breast-stroke, for Galbraith and Subin had little difficulty in winning the dive, being far superior to Polsgrove, the only West Point entry. Potts and Brenner swam a pretty race in order to win the breast-stroke event and finished first and second respectively. "Leo" and Dearmond swam a close race in the back-stroke, with the Army nator winning by the narrowest of margins.

Dearmond and Goodman were the leading mermen for the Army, the former winning the 100-yard swim and 50-yard back-stroke events, and Goodman placing in the 50-yard swim and back-stroke.

The Summary:

440-yard swim: Won by Giebel, Rutgers; Redmond, Rutgers, second; Breidster, Army, third. Time, 5.34%.

50-yard swim: Won by Enander, Rutgers; Goodman, Army, second; Burrill, Army, third. Time, 26 3/4 seconds.

100-yard swim: Won by Dearmond, Army; Ross, Rutgers, second; Duerr, Army, third. Time, 53 3/4 seconds.

Dive—Won by Galbraith, Rutgers; Subin, Rutgers, second; Polsgrove, Army, third.

50-yard back-stroke—Won by Dearmond, Army; Giebel, Rutgers, second; Goodman, Army, third. Time, 32 3/4 seconds.

100-yard breast-stroke—Won by Potts, Rutgers; Brenner, Rutgers, second; Dawson, Army, third. Time, 1.23 3/4 seconds.

200-yard relay—Won by Army (Goodman, Duerr, Burrill and Goodman); Rutgers (Giebel, Ross, Rosetti and Cass), second. Time, 1.56 1/2.

PHILO MEETS, RECEIVES REPORTS OF COMMITTEES

The regular meeting of the Philoclean Literary Society was held last Thursday evening, at which time the first program of the new year was ably conducted by the new president, T. C. Summerill '23. The attendance was very meager, due probably to the inclement weather.

The treasurer made his report, which showed a balance of \$31.03 now in treasury.

The chairman of the Picture Committee, Pelly, reported that the picture of Philoclean had been sent to the Scarlet Letter and that individuals could have the pictures for the nominal fee of 50 cents.

Wharton '25, of the Humorous Magazine Committee, presented his report, which proved of great interest to all the members. He is making efforts to get figures and costs of other college humorous magazines in order to determine the practicability of a magazine at Rutgers. "Rutgers should and can have such a magazine if the students will only get behind it," he said, "and it but remains to get concrete figures as to costs before we publish one of the best humorous magazines in collegiate circles."

His report was followed by an open discussion of the question, which proved of great value and interest.

A committee composed of Seiffert '23, Sellers '23 and Dayton '25 was appointed to take charge of all men interested in debate judging, following a motion for the same by J. Bebout '23.

MID-YEARS FATAL TO 43

Forty-three men, of whom two were juniors, twelve were sophomores, and twenty-nine were freshmen, were forced to leave college last week because their term averages were less than the required sixty per cent. This number is about the same as that of last year, states Registrar Luther H. Martin, because forty-four left college last February as compared with the forty-three of this year.

The general average of all those who have been forced to leave this year is likewise about the same as that of last, for although more freshmen were expelled this December than last, on account of failing in their intelligence tests, the slightly increased enrollment combined with the almost equal number of failures in the mid-year examinations tends to compensate this difference.

SOPHOMORES DINE AT THE HOTEL McALPIN

Professor Fales is Speaker of the Evening. One Frosh is Held as Guest

The annual banquet of the class of 1925 was held Tuesday evening, January 30, in the Hotel McAlpin, New York City. There were sixty-five sophomores and one freshman present to enjoy the dinner, served in the Colonial room of the hotel. Not one sophomore who had purchased a ticket was missing from the function.

At about 1.30 o'clock on the banquet day, Harry O. Gray, the sophomore president, was met at the Central Railroad station in Bound Brook by several classmates and Edward H. Benzoni of the Senior Council. The group returned to the college at about 2.30 o'clock, when Benzoni received Gray's signature as required by the rules governing the banquet. Benzoni was then dropped at the Kappa Sigma House; the sophomore party drove up to watch the drill for a short time, then gave the class yell, and departed to get a Lehigh Valley train to New York.

Just before banquet time a group of sophomores in the Pennsylvania Terminal in New York jumped a trio of freshmen in the station. Two were taken to the McAlpin, the other was heroically rescued by the New York police department. At the hotel was another freshman, brought in from Park Place, Newark. Two of the three captives were released by lot, the other remained as the guest of the class of '25.

Following the serving of the dinner, several Rutgers songs, including "On the Banks" were sung, and speeches made by Dr. David Fales, Jr., of the faculty, who gave a picture of the sophomore-freshman sections during class hours that day, and by James S. Hunter '26, who spoke of the Grand and Glorious Class of 1925.

HOTEL ASTOR IS SCENE OF FRESHMEN BANQUET

Every Banquet Ticket is Used; Class Warfare Affects Only Few Men

One hundred and fifteen freshmen attended the first banquet of the class of '26, held in the Hotel Astor, New York, last Tuesday evening. Since this important social function was on the same evening as the sophomore banquet, the usual warfare was practically eliminated. The only exception was the capture of three freshmen at the Pennsylvania Terminal. The sophomores had compassion on the ill-fated three, and by casting lots selected one to be entertained at their expense and their mortification; allowing the other two to attend their own banquet.

The dinner, which was served in the Belvedere Room on the tenth floor of the hotel, was preceded by "On the Banks," played by Dick Cass, and sang by everybody. Elaborately served dishes tickled the palate without any fuss as to the correct pronunciation of their long French names.

After the dinner, toastmaster Edward D. Lloyd started the speaking. He called first upon Professor Barbour, to read a letter from Professor Charles Hale expressing his regret at being unable to attend the banquet. The reading of the letter was interrupted by the arrival of Hunter, who had been detained by the sophs. Ed Lloyd called on him to speak. Joking about his narrow escape from being scalped, he told of his experiences.

William Kingman '24, captain-elect of the football team, spoke next. He urged the continued support of the class of 1926 for his team that it may remain undefeated throughout the entire season.

Robert A. Nash, of the class of 1916, and one of Rutgers star football men, noted that lots of talk does not make school spirit. "Action must be the sole criterion of the real student feeling," he said. As the class of '16 was a star class, so will be the class of '26, if one may judge by its banquet.

On behalf of the Senior Council, Warren Dixon thanked the class for its compliance with the rules. Calling then upon G. H. Shade, Ed Lloyd asked for a word from the committee which had made the affair a success. After "Gill's" speech, Professor Edward Livingston Barbour then gave an inspiring recitation of the fascinating poem "Ostler Joe," holding his audience spellbound from start to finish.

Richard A. Kuehn, the class president, remarked in closing: "We have heard of the spirit of '16, and have had it associated with '26. Let us complete the triad with the famous Spirit of '76, and use it as a guide to our activities and loyalty to class and college." With these three sixes in mind, the evening was completely by the singing of "On the Banks."

"IMMORTALITY" SUBJECT OF NEXT "Y" MEETING

Prof. Henry H. Tweedy, of the Yale Divinity School, at New Haven, will be the speaker at the Y. M. C. A. meeting this Wednesday evening. "Immortality" will be the subject of his talk.

Professor Tweedy treats his subject from both the scientific and religious standpoint, and he is well fitted for this, since he is a student of science as well as theology. It is his object to show the reasonable grounds for a future life from the physical and mental sciences as well as religion.

RUTGERS DEFEATS SWARTHMORE FIVE

Friday Evening's Victory in Gym is Result of Reversal of Mid-Week Form

CONTEST FASTEST OF SEASON

Garnet Puts Up Hard Game But Is Not Able to Down Scarlet

Showing almost a complete reversal of form over its playing against Princeton in the mid-week game at Tigertown, the Scarlet five decisively defeated the Swarthmore quintet by a score of 39 to 24 on the Ballantine floor Friday evening. It was by far the fastest game which has been staged on the home court this season.

Jack Ellis led in the scoring with four field goals and eleven counters from the foul line. His work was most encouraging after his disastrous experience at Princeton. In his attempts from the black line he was successful in eleven of his sixteen attempts.

Benzoni proved worthy of his old title, "the Flash," in his dribbling in the first half when he scored three of the seven goals of the first half. He played a close guarding game which effectively checked his Garnet opponent.

With Calhoun ineligible, Manch was sent into the game and displayed even better form than in the battle at Princeton where his playing was one of the features of the evening. He was pitted against Wood, one of Swarthmore's veteran players, who was on his trail from the first whistle. One field goal in each half was Manch's contribution to the evening's total.

Guarding Is Efficient

Pipes Enander and Bruno Raub proved to be efficient guards, holding Bartlett and Captain Schane, the Garnet forwards to a lone goal, while in the second half their opponents made only three field goals. Enander did not permit his guarding to interfere with possible trips to the basket, as his three field goals prove. His court duty seemed to act as a stimulant for the swimming meet with the Army the following day when he copped first place in the fifty-yard swim. Raub's knee gave him trouble near the close of the initial half and he was forced to retire in favor of Pan-

(Continued on page 4)

MANY EVENTS PLANNED FOR JUNIOR PROM WEEK-END

Plans for the week-end of the Junior Prom are now rapidly nearing completion under the direction of the chairman, Leon Kolb. As things now stand the week-end will be started on the evening of Washington's Birthday, the 22nd of February, by a Glee Club concert and dance afterwards at the Ballantine Gymnasium. The following day until 9 o'clock will be at the disposal of the guests. Many of the fraternities on the campus are planning for tea dances, and efforts are being made by the committee to have as good a program as possible at the State for that afternoon. All attention at 9 o'clock, however, will be centered in the Prom itself, which is to be held in the usual place—the gymnasium. For this occasion Benny Krueger's orchestra will furnish the music, last from 9 o'clock to 3. The most important thing about this is that the incomparable Benny himself will play during the entire dance, assisted, as far as is now known by Zee Confrey, the famous jazz pianist. The decorating of the gym has been given over into the hands of Langreen, from Elizabeth, who promises something entirely different in this line from any of his former schemes of transforming the interior of the gym into a ballroom of surpassing beauty. Arrangements for the catering have not as yet been definitely decided upon. Saturday, the final day of the week-end, will witness the basketball game between Stevens Institute and Rutgers in the afternoon. During the course of the evening the various houses will have their own dances, which will last until 12 o'clock, the hour prescribed for departing from the fraternity houses.

The neutrals in College Lodge will entertain their guests at the Country Club. That hour also marks the end of the much anticipated Junior Prom.

FLONZALEY QUARTET DRAWS LARGE AUDIENCE

In spite of the inclement weather on Saturday evening, January 20, a great many music lovers of Rutgers College and New Brunswick attended the concert of the world-famous Flonzaley Quartet. From the opening notes of Schubert's "Quartet in A Minor" to the end of the performance the audience listened enthralled to the four men who with their expert artistry seemed to make their instruments speak.

This quartet, which has appeared in concerts in this country for a period of over eighteen years, is composed of doleto Betti, first violin; Alfred Poehon, second violin; Louis Bailly, viola, and Iwan d'Archeambeau, violoncello. They have been one of the few string quartets which have made successful phonograph records. They have made a number of records for Victor.

Credit for the securing of these famous artists is due to Mr. Howard D. McKinney, Director of Music at the college. In managing the concert he was assisted by members of the Liberal Club.

VARSITY SQUADS TO MEET COLGATE

Dual Debate Arranged. Next Contest Scheduled with N. J. C. on March 9

FROSH TO DEBATE WITH N.Y.U.

Rutgers May Be Forced to Form New Debating League

Two picked teams of the 1923 debating squad will meet Colgate in a dual debate Friday, February 13, on the question, "Resolved: That the United States should enter the League of Nations at once." This is the opening debate of the season.

The home team, which consists of J. E. Bebout '23, captain, C. R. Kleinhaus '23, H. L. McConaughy '24, and E. S. Fulop '25, alternate, will debate their opponents in Kirkpatrick Chapel, but the team which is to travel, made up of Charles Dayton '25, captain, A. B. Lincoln '23, Alexander Feller '24, and T. G. Wharton '25, alternate, will meet the Colgate team in a neighboring city, Rome, N. Y. The reason given by Colgate for holding this debate outside of the home town is that the Colgate home schedule is particularly heavy this year, and it was therefore thought wise to have at least one debate in a non-college town. The Rutgers management is observing the working out of this idea, and if it proves successful, may follow the example of Colgate in the future.

The next contest on the schedule is the debate with N. J. C. on March 9, on the question of the Fordney-McCumber Tariff Bill.

The 1923 debating schedule calls for debates with Penn State at State College, Pa., April 12, and W. and J. at Washington, Pa., April 14, on the question of the Kansas Industrial Court System. These two debates in Pennsylvania are taking the place of the southern trip which was originally contemplated.

Although the first freshman debate will be a dual debate with N. Y. U. on Wednesday, February 28, on the question, "Resolved, That in general the rates of the Fordney-McCumber Tariff Bill are too high for the best interests of the country," debates with Hackensack High School and possibly other New Jersey high schools will take place during April. (Continued on page 4)

MANAGER REPORTS MUSICAL CLUBS HAVING GOOD SEASON

With a splendid record of entertainments given and seven more concerts yet to be staged, the Rutgers Glee and Mandolin Clubs are now at the height of the most brilliant season they have ever experienced.

Noel Kane, manager of the clubs, reports that the clubs have been singularly successful and enthusiastically received in every concert given this year. Much of this success, he adds, is due to the clever work of "Scrappy" Lambert.

The next concert will be held in Metuchen on Friday evening, March 16, under the auspices of the local Y. M. C. A. On the following evening the clubs will entertain in Newark a large audience arranged by the Rutgers alumni of Newark.

One of the best concerts will be given in the Ballantine Gymnasium on the evening before the Junior Prom. For this presentation the clubs are arranging several snappy special features, such as a novel piano duet by Hillpot and Potter, which are bound to make this concert the best ever. Special attention is also being given to the dancing which will follow the programs of the clubs. The manager is now negotiating with one of the best jazz orchestras in New York and is determined to make this portion of the evening's activities of a quality equal to the concert and the general atmosphere of junior week.

Further scheduled concerts are for the Stacy-Trent in Trenton on March 17, sponsored by Jimmy Burke, and another in the Hotel Plaza, New York City, which will be given under the auspices of two former Rutgers men, Arthur Busch '15 and Phil Bret '22.

It is probable that the clubs will give their concert in Paterson and Elizabeth on March 9 and 10, though not entirely decided as yet. The final event of the clubs' activities is the banquet which follows their present season.

MONEY STILL BEING PAID IN BASEBALL FUND DRIVE

Of the \$1,292 pledged by the undergraduate student body to the baseball fund \$900 has been paid, with the remainder coming in fast. The old grads have responded with an amount of \$2,150 pledged and paid. Their goal is \$2,500.

The drive was launched in chapel January 17 by Coach Sanford and Graduate Manager Garrison. They explained to the student body that the Athletic Association was in debt to the amount of \$10,000, a figure caused largely by poor weather at the Louisiana State game.

It had been estimated that the cost of sports during the spring season would approximate an additional \$6,500, whereas the trustees would allow an increase in the debt of only \$2,500. This would mean eliminating that sport which would be the greatest financial burden—baseball. The student body met the appeal with pledges totalling \$900, while \$391 was raised during the next few days through the efforts of the chairman of the committee, Manager Edwin Gidley, of the 1923 team. Fifty-four per cent of the undergraduates pledged themselves, with an average of \$3.08 per man.

HONOR COURT PUT TO TEST IN SERIOUS CASE

Five Cases Tried; New Trial Called for Case on Which Jury Sat for One Hour After Midnight

After being behind closed doors for nearly an hour after the trial which was brought to a close shortly after midnight, Heber Loveland for the jury which heard the case of Rutgers College vs. Richard W. Barkeley '23 announced that the jury had been unable to reach an agreement, following which a new trial was ordered.

The juries rendered verdicts of not guilty in the cases of S. R. Estey '26, H. E. Romond '26, and Frank B. Gallagher '26. Parker E. Nelson '26, confessing to a violation, was declared guilty and leniency advocated.

Barkeley was charged with a violation of the Honor System in a philosophy examination held in the Chemistry Lecture Room on January 18. Warren Dixon '23, prosecuting attorney, presented the case for the college, while the defendant was represented by Nathan Duff and Morgan R. Seiffert '23.

Barkeley was charged with copying from the paper of Maurice Erlich. In presenting the case for the college Dixon called five seniors as witnesses: F. R. Ottman, O. J. Weaver, D. W. Teller, H. M. Bartlett and A. M. Smith. All these men declared that Barkeley's actions during the examination had been suspicious, but only two could swear that they had seen him look at Erlich's paper and then put down something upon his own paper. Dixon then brought out facts as obtained from Dr. Marvin. Erlich, ordinarily an exceptional student, had turned in a perfect paper, while the defendant, an average student, had submitted one with only two errors. In an effort to be fair to all parties, he was given a second examination in which he made seventeen errors. In the course of the examination Erlich testified that he had taken his place in the lecture room prior to the time that Potter and Barkeley took theirs. This was contradictory to the evidence offered by Potter and the defendant earlier in the trial.

Seiffert Calls Witnesses

For the defense Seiffert called upon C. J. Redmond, I. B. Scrubsky and R. V. Potter. Scrubsky and Potter, although situated in better positions for observing the actions of Barkeley, had noted nothing suspicious in the latter's actions. Potter and Barkeley both declared that they had been seated prior to Erlich's taking his place in front and to the left of the defendant. Redmond testified that he had studied with Barkeley, who appeared to have a good command of the subject.

Seiffert presented the grades of the defendant for the past term as evidence that he had maintained a good average all term, that in Philosophy he had met all requirements in quizzes and collateral reading and that in view of this would have no reason to seek information in this manner; showed that he had made preparation for the test; and that he had taken the second examination upon three hours' notice with no preparation and with the knowledge that "he would be exonerated from all charges if he were to make as high a grade as in the first test. Dr. Marvin, so Seiffert stated, had said that under a nervous tension, such as the defendant might well have experienced, he might be expected to make a much lower score than in the first test.

He jury which heard the case included: Kenneth C. Angleman, George R. Atkinson, Raymond Brandes, Robert Garlock, Louis P. Hasbrouck, Robert Heck, Kearney Y. Kuhlthau, Herber Loveland, foreman; Harold L. McConaughy, Fraser Rhodes, Clarence Ross, and Frederick P. Merritt.

COURT VOTES RETRIAL; APPROVES NEW RULES TO ELIMINATE DEFECTS

At a meeting of the Honor Court today noon the body voted to uphold the decision of Judge Scudder in calling for a re-trial in the case of Richard W. Barkeley. This decision was made last night following the disagreement of the jury. Upon protest against this decision Scudder declared that a petition might be presented to the Honor Court by those opposed to such action.

The court also considered and approved two measures to remedy defects in the Honor Court Constitution as brought out last night. One is the insertion of the words "or acquittal" in the existing clause "A five-sixth vote shall be necessary for conviction," while the other is in effect that the Legal Laws of the state of New Jersey shall govern court procedure in all cases except wherein they conflict with the Honor Court Constitution.

The second measure was considered advisable in view of the proceedings of last night. Several clashes in the form of procedure occurred. The court believes that there must be some sound law upon which to base its judicial proceedings.

The incorporation of the words "or acquittal" in the constitution is believed necessary since there is no such provision at the present time. Former Honor Courts have so interpreted this, but no specific provision has been made in the constitution.

PHALANX TO HOLD MEETING

The first meeting of the Phalanx for the new term will be held on Monday evening, February 12, at 7.30 o'clock, at the Alumni House. At this meeting, Captain T. K. Vincent will lead an informal discussion on "Scabbard and Blade," the national army officers' fraternity. Captain Vincent is a member of this organization and is now attached to the staff at Raritan Arsenal.

Westinghouse Engineer to speak on The Orient

"COLLEGE LODGE" IS ORGANIZED FOR NEUTRALS

Non-Fraternity Club for Freshmen and Upper Classmen is to Supply Social Need

MEMBERS UNBOUND BY PLEDGES

Admission of Men by Application; To be Eligible Must Fulfill Set Requirements

A new campus social organization, named the "College Lodge," has been formed by a number of neutrals and has secured the recognition and approval of the faculty. A petition for permission to obtain a house to serve as a headquarters for the club and a living place for the officers and some of the members has been submitted to the Board of Trustees. Final action is expected on this petition at the April meeting of the Board. If the action is favorable the club plans to negotiate at once for a house in which to begin operations next September.

The society was organized informally early in the college year by a small group of upper classmen who had come to feel the need for some organization through which the neutrals might take a fuller and more active part in the general college life. It was the opinion of the organizers that the average non-fraternity man was very much like the average fraternity man, but that the lack of an organization through which neutrals might work together for the good of the group and for the good of the college as a whole was a handicap to their effective participation in the college life. They felt that this condition was not only unfortunate from the point of view of the individual, but that it resulted in a waste to the college itself. Believing that the problem could not be wholly solved by the formation of an indefinite number of new fraternities, they sought to evolve an entirely new plan which would at the same time fit into the present situation and satisfy their objects. Their idea was simply to fill a gap in the organization of undergraduate life without introducing any inharmonious element.

To Encourage Activities

The result was the creation of the College Lodge, which it is hoped by means of its requirements for membership and the fellowship and mutual cooperation which it will foster will serve to encourage neutrals to take a more active part in undergraduate activities and to strive for higher scholastic standing. Moreover, it will be able to function as a fraternity in social matters, particularly in respect to dances and house parties.

There is an association of somewhat similar organizations in a number of Western colleges. The first one was organized at Dennison College, Ohio, and has had a very successful career.

The objects of this organization, as expressed in its constitution, are: "To promote the social interests of the non-fraternity men of Rutgers College; to foster active interest in all undergraduate activities."

RUMOR ROOSMA ENTERING RUTGERS UNFOUNDED

There has been consistent rumor on the campus concerning the possibility of Johnny Roosma, the former Passaic High School star basketball player and at present at West Point, coming to Rutgers. Roosma, because of deficiencies, has not been a member of the Army basketball team for the past few weeks, and there was a rumor that he would enter Rutgers as a sophomore at the beginning of the second semester. The following communication, which was received on January 28, by Graduate Manager William P. Garrison, is self-explanatory: My Dear Mr. Garrison:

I wish to take this opportunity of thanking you for your very kind and thoughtful letter in reference to Cadet John Roosma. A number of newspaper clippings referring to the fact that Roosma was to enter Rutgers College have been sent to me, but frankly speaking I paid no attention to them whatever, in fact, I never even mentioned the fact to the boy. I was confident that the story was written by some correspondent that needed money and it never entered by mind that anyone connected with Rutgers College shared any responsibility for the rumor.

I am sure that every good American feels as you do, that a cadet once entering the United States Military should make every effort to complete his course. Roosma is a fine boy, like the Academy and will no doubt finish his course providing he can pass his work, which has been giving him considerable trouble. He is now deficient in one subject and until he becomes proficient is lost to the basketball team.

I assure you that all connected with the Academy, appreciate your kind sentiments. Again thanking you and with kindest personal regards, I am,

Cordially yours,
HARRY A. FISHER.

Note—Harry A. Fisher is a graduate of Columbia a well known football official, and for some time has been coach of the basketball team in U. S. Military Academy at West Point.

WILLIAM P. GARRISON,
Graduate Manager.

The Targum.

ESTABLISHED 1929

Entered at the New Brunswick Post Office as second class matter.

THE HONOR COURT IS RIGHT

When the Honor Court voted this afternoon to sustain Judge Scudder's order of a retrial in the case of Richard W. Barkelew, it took the only action possible if justice is to be done and if the Honor System is to prove its competence. This is quite as important from the point of view of the defendant as from that of the college as a whole.

The failure of the jury to render a decision left the case exactly where it stood before the trial. Neither the guilt nor innocence of the accused has been established. Obviously it is to the best interests of the defendant to clear his name from all taint of the charge, and the only possible way is through a new trial. As Judge Scudder said last evening, it would be highly unfortunate for the accused to have things left as they are.

In like manner, if the Honor System is to be effective, it is most important that in this test case it should show its ability to reach a final and just decision. We can think of nothing more undesirable than a court which, when difficult and serious cases arise, could do no more than report disagreement among the jurors. It would defeat the purpose of the system and work a great injustice on those accused. A man charged of an offense has a right to a final verdict after a careful weighing of all evidence by a competent and impartial court. Otherwise, whether it be just or not, he will, in the mind of society, bear the rest of his life the taint of a cruel suspicion of guilt.

It is true that the trials last night revealed minor technical defects in the constitution and procedure of the Honor Court. The prompt action of the court in approving changes to remedy these defects, however, is a most hopeful sign. The same ability to profit by experience was shown after the first trials held under the new constitution. The Honor System is new and cannot be expected to work perfectly at first. It is important that every one who does not want Rutgers to go before the world with the admission that it could not come up to the standards of other colleges in this respect to take a sympathetic and helpful attitude toward the court in these hours of trial. The members are honestly and sincerely trying to do their best.

Even if it were possible to get the present case dismissed on a technicality, it would, for the reasons stated above, be highly unfortunate for all parties concerned. It is not conviction or acquittal that we want; it is justice, and there is left only one way to secure it.

DAILY CHAPEL

The question of daily chapel merits a serious consideration.

Student disapproval, or at best disregard, of the present service is manifested in a number of ways obvious to any one with ears to hear or eyes to see. A large number either fail to participate in the religious parts of the service or make an utter burlesque of the proceedings. The first and most obvious question raised by this state of affairs is: "Where were they brought up?" But there is an even more serious side. Neither the cause of religion nor the best interests of the college body is promoted by such a service, which brings up the question: "What is daily chapel for?" Is it primarily a religious service, or is it primarily a common meeting held under religious auspices?

The consensus of campus opinion seems to be that chapel is mainly for the purpose of getting the whole body of students together once a day with a view to building up college spirit and providing a place where the entire college may discuss or be addressed upon matters of common interest. This, to judge from the statement of Dean Marvin, appears to be substantially the opinion of the college authorities as well.

Such a meeting is most desirable and a great convenience. For many reasons it is rightly deemed necessary to have a daily all-college assembly. As the college grows and its interests become more and more scattered, daily chapel should continue to be the one essential and most powerful unifying force. Any dignified program which featured a short talk on a live topic, college songs, or a brief musical selection would be in keeping with the true purpose of the service and would lend a pleasing variety to what easily degenerates into a monotonous and empty formality.

It is indeed altogether fitting that the exercises should be held, as are all dignified public gatherings even of the most secular nature, "under religious auspices;" but we believe that when the "auspices," in themselves cut-and-dried and almost purely formal in character, become the main feature, the cart has gotten ahead of the horse.

The fact is that chapel this year has almost completely failed to fulfill its main purpose, and as a result, has failed miserably to gain general support. It has, in fact, become a mere tiresome routine. It is too valuable an institution to let go and we feel that it is time that something were done about it.

The Senior Council, the undergraduate organization whose natural duty it is to tackle such matters of general concern, might well take the matter up, call a student assembly meeting and entertain suggestions on the subject, and appoint a committee to collaborate with a committee of the faculty in arranging a truly worthwhile and suitable program for daily chapel.

All this does not mean, however, that any one need continue to act like a four-year-old just because the entertainment does not precisely suit his discriminating taste. It is invariably a mark of a gentleman, and should by the same token be that of a full-grown college man, that he knows how to conform to the ordinary standards of etiquette and common courtesy that have gradually been developed among civilized peoples. Let us try to be gentlemen even if we can not always be pleased.

POTPOURRI

THE AFTERMATH

(Patterned after Mr. Don Marquis' "The Formal Touch")

1

Mr. Luther Harned Martin
Regrets exceedingly

To announce that after this date
Mr. Howard Moist Schmalz, Jr.,
Of the Class of 1926, Rutgers College
Will no longer be connected
With that institution.

January the twenty-ninth.

2

Mr. Howard Moist Schmalz, Jr.,
Begs to advise
Mr. Howard Moist Schmalz, Sr.,
That his education at Rutgers College
Has come to an
Abrupt end.

February the first.

3

Mr. Howard Moist Schmalz, Sr.
Takes pleasure in advising
Mr. Howard Moist Schmalz, Jr.
That after this date,
February the second,
He can get the hell out
To work.

4

Mr. Howard Moist Schmalz, Jr.,
Of 115 Bowery Place,
Begs to announce to all and sundry
That after February the fifteenth
He will be engaged
In the profession of
Bootlegging
At the above address.

Admission by card only.

5

Mr. Howard Moist Schmalz, Jr.
Begs to tell
The World Fair
That business is booming.

March the first.

6

The Government of the United States
of America
Regrets to announce
That
Mr. Howard Moist Schmalz, Jr.
Will spend the next fifteen years
Of his life
As a guest of the Government
At Atlanta, Georgia.

The Federal Penitentiary,
April the first.

Where are Our Wandering Boys Tonight?

"In Chicago, a well-known manufacturer perfected all arrangements to take as his mate by radio the prettiest girl in Cos Cob, Conn. Through broadcasting errors he was united to the Rutgers College Glee Club in Songs and Instrumental Music, 8.45 p. m."

—H. I. Phillips, in the N. Y. Globe.

O Lord, I pray Thee, give me class—
Give me a smooth, free-running line
Of stuff—a good supply of gas.
You know, I simply have to shine;
I want to stand out from the mass.
And say, while you are at it, Lord,
Send a collegiate with a car.
If his car's cute, that's best by far:
The Stutz is Mightier than the Ford.

—DOUGLAS DE Y. SILVER.

Some day a law will be passed by which a man arrested for murdering someone who has retained a library newspaper over an hour will be pardoned immediately.

Evolutionary Love-Making

Ancient: Kill a dragon.
Medieval: Slay a rival.
Modern: Shoot a ten spot.

—The Collegian, Tulsa, Okla.

This is the season of the year when a survivor of mid-years will, in a burst of scholastic enthusiasm, pay five dollars for a text-book which he won't open until about June 1.

A novel idea would be to wrap up certain text-books, put a Christmas card on each package, and write on it, "Not to be Opened 'Till Finals."

Questions We Did Not See on the Exams

- (a) What do you think of this course? (b) What do you mean by using such language?
- Mention the color and price of the text book. Where do you think the Book-Store got its nerve to charge such a price?
- How old do you think your professor is? How much older is this than he should be? Give exact figures; avoid verbosity.
- (a) What ever gave you the idea you could pass this course? (b) Are you now thoroughly discouraged?
- How are the folks?
- Who is your bootlegger? Your barber, if any?
- Do you give up?
- How many re-exams in this course do you think your pocketbook will stand?
- Explain in detail the theory that Jesse James originated the idea of charging for re-exams.
- What mark should be given to a man who hands in a paper on which nothing is correct but the Honor Pledge?
- Have you the time?
- Mention four good, reliable telephone numbers.
- Outline the difference between the text-book used in this course and the telephone directory.
- Do you think a student should present his professor with a box of cigars while handing in his paper? Men wishing to discuss the ethics of this question will please remain after the examination.
- What have you planned to do after I stick you out?
- Can you recommend something to cure baldness?

Threnody

Two of us are looking for you.
Sometimes in the gentle night
Your spirit seems to come again within these walls—
The sturdy self, that once was wont to say
"They broke the mold that made me!"
Laughing defiance in the face of petty gods.
There is a crispness in the air
That seems to speak of happy confidence,
Unbroken pride, and ambition.

* * *

After all,
It is nothing but the lamentation
Of your god, the Night Wind.
For the solitary image of the mold
Is crumbling.

—H. W. L.

DR. LULL'S AUDIENCE TAXES ACCOMODATIONS

Over 300 Crowd Chem. Lecture Room to Hear Alumnus Speak

About 300 persons crowded the Chemistry lecture room on Monday evening, January 15, to listen to the lecture on "The Antiquity of Man" delivered by Dr. Richard Swan Lull, professor of vertebrate paleontology at Yale University. Dr. Lull graduated from Rutgers in 1893, and is today regarded as one of the leading paleontologists of the world.

Dr. Lull introduced his interesting subject by saying that an English theologian Dr. Thomas Lightwood, had reached the conclusion, after diligent study of the first two chapters of the book of Genesis, that man was created on October 23, 4004 B. C., at 9 o'clock in the morning. Dr. Lull began his proof of the great antiquity of man by referring to the tablets found in Asia, known to date as far back as 4500 B. C., which give evidence of a high state of civilization which had already been attained. He spoke of the difficulties of studying the question, and mentioned as the chief sources of information stone implements unearthed, remote stagnant races which are extinct today, European chronology, and the deposits of fossils.

The lecture was illustrated by many stereopticon slides, which aided greatly in clarifying the study of the question. Dr. Lull interspersed numerous bits of humor, and presented the subject in a way that held the close attention of the large audience from start to finish.

Dr. Lull, who is a past president of the Yale chapter of Sigma Xi, presented to the local chapter on behalf of the Yale branch, a book on "The Evolution of Man," comprising a series of lectures given by himself and his colleagues on this subject. The gift was gratefully accepted for the Rutgers chapter by Dr. Cook.

EXPERT LECTURES ON MARVELS OF RADIUM

Dr. Hess Outlines Radiochemistry and Preparation of Radium

The local Scientific Club in collaboration with the Physics department brought Dr. Hess to lecture and demonstrate the marvels of science's latest and most engrossing realm, "Radio and Radioactivity." The lecture was presented in the lecture room of the Chemistry building by Dr. Hess, who is a noted authority in his field, having been associated with the University of Graz and Director of the Vienna Radium Institute before he associated himself with the Radium Corporation of America.

The demonstrations were preceded by a concise resumé of the historical development of radiochemistry and a general outline of radioactive chemistry. The electrical effects of radium emanations being shown. There were in addition, exhibitions of fluorescence caused by ordinary light rays and also a similar phenomenon induced by the active radiations of radium compounds.

Considerable amusement was caused when Dr. Hess several times misplaced a minute glass phial containing a pinch of radium compound. His apprehension was appreciated when the audience learned that each tube represented several thousands of dollars.

The lecture was concluded with a highly entertaining film showing the preparation of a pinch of radium salt from tons of material. The application of radium to everyday life was also shown, luminous clocks, watches, and scientific instruments with which we are all familiar.

The undergraduates in the audience were especially delighted with two galloping dice which rolled out upon the dark screen and came to a stop with the mystic seven dots gleaming on top.

The lecture and pictures were presented to a gathering which filled the lecture room to its capacity.

AGRICULTURAL PROFESSOR, LOUIS A. CLINTON, DEAD

Prof. Louis Adelbert Clinton, Director of Extension for the New Jersey Agricultural College, died in his 54th year on January 21 in the Harper Hospital of Detroit, Mich. His death came as a result of a long illness contracted while visiting his daughter in Detroit.

Four years ago Professor Clinton came to Rutgers and his amiable disposition soon made him very popular with the "Ag" students. Much of the recent expansion of the College Farm is due to the unselfish efforts and great influence of Professor Clinton.

At Michigan Agricultural College Professor Clinton obtained his early education. From 1890 to 1893 he acted as assistant director of this college. From 1893 to 1895 he held this same position at Clemson College, South Carolina. He was assistant agriculturist at Cornell University for the next seven years. From 1902 to 1912 he was professor of agriculture at the Connecticut Agricultural College.

Simultaneous with the funeral services at Grand Rapids, Mich., a memorial service was held in Kirkpatrick Chapel on the 24th for Professor Clinton.

NOTED ENGINEERS WILL ADDRESS STUDENTS SOON

Mr. S. Q. Hayes, noted engineer of the Westinghouse Electric and Manufacturing Company, who has recently returned from traveling in China, the Orient and Australia, will lecture here February 9 on "The Electric Power Development and Railroad Conditions in the Orient." Classes will be dismissed at 11 a. m. in order to give the entire student body the privilege of hearing Mr. Hayes.

Mr. John W. Lieb, vice-president of the New York Edison Company, will deliver his well-known lecture on "Leonardo da Vinci—Artist, Natural Philosopher and Engineer," on the evening of February 15 in the Chemistry Lecture Room. In the entire world there is perhaps no better informed man on the life of Leonardo da Vinci than Mr. Lieb.

Frank Bergen, of the Public Service legal staff, recently gave \$20,000 to Rutgers to establish a memorial in honor of his mother. The income of the fund is to be used to procure the attendance of clergymen from this and other states to preach at least twenty sermons a year in Kirkpatrick Chapel.

Paul Robeson, in a letter to the graduate manager's office, emphatically denied the rumor that he contemplated leaving the legal profession to become a contender for the heavyweight boxing championship. Robie has not yet taken the state bar examinations.

Dr. William B. Gourley, of Paterson, N. J., has recently been appointed a trustee of the college.

Professor Robert C. H. Heck has been awarded life membership in the A. S. M. E. for a paper on "Steam Formulas."

About forty of the friends and colleagues of Dr. Frank App tendered him a farewell dinner at the Hotel Klein January 27. Dr. App resigned February 1 in order to become vice-president of Minch Bros. Inc., a large farming corporation at Bridgeton.

Freshmen in agriculture are now required to take advanced algebra in the first term. Instead of continuing with the regular courses in mathematics, they will take the course in agricultural mathematics. This course will consist of trigonometry, advanced algebra and solid geometry combined and applied to agricultural problems. Professor Stark will teach the course.

The Second Annual Rutgers College Egg Show, under the auspices of juniors in poultry husbandry, will be held in the Poultry Building, February 14, 15 and 16. The five classes will be: 1. Experimental Station Workers; 2. Producers; 3. Boys' and Girls' Clubs; 4. Students of both Long and Short Courses; 5. High School students taking courses in vocational agriculture.

R. O. T. C.

Last Saturday morning, February 3, six squads commanded by Cadet Major Harold Goulden '23 served as a funeral escort for an ex-soldier, Tobin, a member of the local post of the American Legion. Ten men carried rifles and were used as a firing squad. A bugler played taps. Cadet Captain Carroll K. Sellers '23 was second in command. First Sergeant Heck '25 acted as ranking non-commissioned officer.

The band has lost all its solo cornetists through the examinations. Men able to play this instrument are requested to see Sergeant Krasowski at the gymnasium as soon as possible.

There will be a meeting of the Phalanx on the night of February 12 at the Alumni House. Captain T. K. Vincent, of Raritan Arsenal, will speak on the subject of Scabbard and Blade, the national military society with which Phalanx is anxious to affiliate.

Within a few days underclassmen will be asked whether they expect to attend the basic camp at Plattsburg this summer.

George M. Brien '22, of Orange, N. J., has been commissioned a second lieutenant of field artillery in the regular army. His first choice was infantry, due to his military instruction in college, but because of his academic training in mathematics and other courses the War Department thought him particularly fitted for the artillery. While at Rutgers he was cadet captain of "A" company. He is a member of the Delta Kappa Epsilon fraternity.

SCARLET DEFEATS
MUHLENBERG FIVE

No Substitutions Made During Game;
Revised Lineup a Surprise

With the Scarlet quintet maintaining the lead throughout the entire game, Rutgers defeated the Muhlenberg basketball five by the score of 45 to 23, on the Ballantine court, Saturday evening, January 27. This was the first game which the Rutgers team played after several weeks' rest due to examinations, and Coach Hill sprang the surprise of the evening by revising his lineup, having Ellis and Manch, two substitutes, in the forward positions, and shifting Captain Benzon and Enander to the defensive positions, with "Bruno" Raub in the center rig. Enander was the only player to be in his regular position, for Calhoun and Darwent, the two freshmen who had been playing regularly, remained on the bench during the entire game, not a single substitution being made.

The mixed line-up seemed to work successfully with Ellis and Manch dividing the honors, the former making six field goals and eleven fouls for a total of twenty-three points, and Manch scoring seven goals from the floor. Benzon and Enander handled the defensive work in a masterly manner, holding the Allen-town college to seven field goals. Although Raub played center, he worked as back guard the greater part of the time, allowing Benzon to supervise the team work.

Muhlenberg's passing was their chief asset, but they were not fast or elusive enough to avoid the Scarlet, who held them down by a tight defense when within the foul zone. Lewis, the Maroon guard, gave a fine exhibition of foul shooting, when he scored on nine of his ten trips to the foul mark. Several times the Muhlenberg team made attempted rallies cutting down the Scarlet lead to a few points, but they were never able to move to the front.

The box score:

RUTGERS (45)			
	Fld.G.	Flt.G.	P.S.
Ellis, f.	6	11	23
Manch, f.	7	0	14
Raub, c.	1	0	2

PRINCETON BEATS
SCARLET QUINTET

Heavy Weight of Tiger Defenders
Prevents Scoring of Baskets
Until Second Half

GUARDING A NOTABLE FEATURE

Rutgers Basketball Team Has Won
all Home Games This Season

Stimulated by the support of about three hundred Rutgers rooters, the Scarlet quintet traveled to Princeton last Tuesday night with the avowed intention of upsetting the triumph of 1920. The journey to Tigertown was not entirely successful in view of a 33-14 defeat administered the Scarlet, but Coach Hill's pupils put up a strong fight against a fast, husky opponent; and provided enough thrills to keep the enthusiasm high.

In the words of Coach Hill we have a "home basketball club." This is readily evident in view of the fact that so far the Scarlet has yet to lose a game in Ballantine Gymnasium, while all contests away have resulted in defeat. The game at Princeton was no exception to the rule, and in spots the Rutgers quintet showed some ragged basketball. But it is absolutely the wrong attitude to imagine that the team can win only on its own court, and before the season closes this Rutgers basketball squad will prove the fallacy of the assertion.

Same Lineup Used
The same Rutgers line-up that so decisively defeated Muhlenberg faced the Princeton team. The Scarlet quintet was small and light compared with the Tiger clan and seemed unable to penetrate the enemy's defense. It was not until the second half that Manch managed to break through and cage Rutgers' first field goal.

Both sides set a fast pace all the way. For the first few minutes neither side was able to get loose. Rapid-fire passing and some pretty guarding by Enander and Raub kept the ball out of Scarlet territory. But gradually Princeton's weight began to tell and the Scarlet was forced to give ground before a vicious attack. The Orange and Black slowly ran up an impressive lead while Rutgers fought doggedly to maintain possession of the ball and carry it through. Time after time the Scarlet forwards carried the ball down to the Princeton basket, only to be checked by the heavy defense of the Tiger. The score at half-time was 15-4, Rutgers' count being the result of throws from the fifteen-foot mark.

Scarlet Starts Attack
After a little pow-wow with Coach Hill the Scarlet warriors started a whirlwind attack which threw consternation into the Tiger ranks, and drew joyous acclaim from the Scarlet cheering section. The Rutgers five quickly ran the count up to 17-10 and seemed destined to

tie the score. But at this point Princeton made several changes in the line-up, and the Scarlet impetus was greatly slowed by the introduction of these fresh men. Worn by the fast pace Rutgers was forced to surrender the initiative to the Orange and Black. Several baskets in rapid succession dimmed the Scarlet hopes, and gave Princeton an imposing lead which was maintained until the end of the game.

When the game started the captains of last fall's football squads opposed each other at the pivot position—Dickinson of Princeton and Raub of Rutgers. Both put up a strong game, and aided materially in the defense of their respective teams. Bruno was particularly active in breaking up Princeton plays, and proved hard to get by. Enander played his usual sturdy game at guard.

Bad Foul Shooting Noticed
Fouls played an important part in the game, and the inability of the Scarlet to count its free throws held down the score considerably. Captain Jeffries was easily the star of the game, shooting twelve out of sixteen fouls and caging two baskets from scrimmage. Rutgers was only able to throw eight out of eighteen fouls. Captain Benzon tried his hand at throwing fouls and until tired by the fast pace seemed to have much of his old form. An improvement in this department of the game would certainly help, and it is to be hoped that Benzon will continue in his old style. Calhoun is ineligible and the team will miss his

THRILLED?

YOU bet he is! He's making a tremendous hit! She has just told him that he has hair like Rudolph Valentino's. But he doesn't know whether to pretend that it came that way or confess that he did it with his little bottle of "Vaseline" Hair Tonic. He owes a lot of his manly beauty to that bottle. "Vaseline" Hair Tonic promotes the growth of the hair and keeps the scalp in the best condition. At all drug stores and student barber shops.

Johnson's
Shaving Cream
Soap

This non-irritating, skin-soothing, antiseptic cream has real speed as a beard softener. There is a certain smoothness and refreshment about it which is not experienced in the use of ordinary soaps. It immediately brushes up into a luxuriant, bountiful and rich creamy lather that retains its moisture and does not dry on the face.

Each tube contains enough cream for five months of daily shaves. It is economical in cost as well as in time and labor.

Get a tube at your druggist's and learn that "the lather's the thing"

Johnson & Johnson,
NEW BRUNSWICK, NEW JERSEY, U.S.A.

DENIS PAPIN'S

STEAM CYLINDER

They Weighed Air—
and Charles II Laughed

SAMUEL PEPYS says in his diary that Charles II, for all his interest in the Royal Society, laughed uproariously at its members "for spending their time only in weighing of air and doing nothing else since they sat."

This helps to explain why Charles has come down to us as the "merry monarch."

The Royal Society was engaged in important research. It was trying to substitute facts for the meaningless phrase "nature abhors a vacuum," which had long served to explain why water rushes into a syringe—the commonest form of pump—when the piston is pulled out.

Denis Papin had as much to do as anyone with these laughable activities of the Royal Society. Papin turned up in London one day with a cylinder in which a piston could slide. He boiled water in the cylinder. The steam generated pushed the piston out. When the flame was removed, the steam

condensed. A vacuum was formed and the weight of the outer air forced the unresisting piston in.

Out of these researches eventually came the steam engine.

London talked of the scandalous life that King Charles led, and paid scant attention to such physicists as Papin, whose work did so much to change the whole character of industry.

The study of air and air pumps has been continued in spite of Charles's laughter. In the General Electric Company's Research Laboratories, for instance, pumps have been developed which will exhaust all but the last ten-billionth of an atmosphere in a vessel.

This achievement marks the beginning of a new kind of chemistry—a chemistry that concerns itself with the effect of forces on matter in the absence of air, a chemistry that has already enriched the world with invaluable improvements in illumination, radio communication, and roentgenology.

General Electric
General Office Company Schenectady, N.Y.

COLLEGE LODGE IS ORGANIZED BY NEUTRALS

(Continued from page 1)

tivities; to encourage high attainment in scholarship; to provide a bond of interest and fellowship between non-fraternity alumni and undergraduates.

The constitution provides that there shall be two classes of members, undergraduate and alumni. "Undergraduate members shall enjoy full privileges of the organization subject to any restrictions deemed advisable by the Board of Directors. Alumni members to remain in good standing shall pay a yearly fee of \$5 for the first five years following graduation, which shall entitle them to the hospitality of the club for life."

Is Not a Fraternity

The organization is in no sense a fraternity. Admission to membership is normally to be gained upon application and the satisfaction of certain set published requirements rather than by invitation. According to the constitution, "any non-fraternity student who has passed the first term's work of his first year at Rutgers and fulfills the requirements set forth in this article may apply for membership in this organization. The Board of Directors, after receiving a favorable report from the membership committee on the eligibility of the applicant, shall declare him a candidate for initiation. To be eligible for membership a man must hold at least one of the following positions in undergraduate activities." Then follows a long list of various activities,

such as athletic teams, musical clubs, debating teams, athletic managers and managerial candidates, etc., whose members are eligible for membership. An exception is made in the case of men working their way through college. They need not necessarily be in one of the activities listed in order to be eligible. "To become a member an applicant shall be a subscriber to THE TARGUM and A. A. No man who has been convicted for violation of the Honor System may become a member. No man who has in the opinion of the Board of Directors and three-fourths of the members of this organization shown himself as unworthy to bear the name of Rutgers man may become a member. No man deficient in five or more hours of his course may become a member until his deficiencies have been removed."

The constitution provides that a member may withdraw at any time and for any cause. The only exceptions to this are the president, treasurer, and steward, who when they accept office agree to remain members for their term of office. When a member joins an active fraternity he automatically withdraws from the College Lodge.

Will Have Booth at Prom

The College Lodge is planning to have a booth at the Junior Prom. It is possible also that it will hold a house dance at the Country Club on the following evening.

The club has been holding meetings every Tuesday evening at the Y. M. C. A. Building, 24 College avenue, for the past

three and a half months. About thirty men from the three upper classes are members at the present time, but as yet the existence of the organization has not been generally known and there has been no attempt to obtain more than a nucleus.

Now that the examinations are over, freshmen are eligible for membership, provided that they satisfy all other qualifications. Neutral freshmen and upper classmen who consider themselves eligible and who desire to become members should speak to D. W. Teller '23, chairman of the membership committee, or to W. M. Staples '24, chairman of the freshman committee. After their eligibility has been favorably passed on by the committee they will be initiated and installed without further ceremony.

The officers of the club are as follows: President, John E. Bebout '23; vice-president, William M. Staples '24; treasurer, J. Henry Noble '23; secretary, Templar S. Cawthorne '24, and steward, George M. Lindsay '23.

STUDENTS TO ATTEND MEETING AT MADISON, N. J.

The Annual Student Volunteer Conference of 1923 will be held at Drew Seminary in Madison, N. J., February 9, 10 and 11. To interest men in foreign Christian service is the purpose of this conference. One of the ten eminent speakers will be Dr. S. M. Zwemer, who is editor of the *Moslem World* and who knows more about Mohammedan conditions than perhaps any other man in the United States. So far nine Rutgers students expect to attend the conference. Secretary Lawrence French will gladly talk with any other student who cares to go. The outside expenses will not exceed \$4.40. Rutgers delegates will leave this Friday afternoon on the 4.24 train for Elizabeth. They will go from Elizabeth to Madison by trolley.

The State Association of Y. M. C. A.'s of New Jersey will hold its 42nd State convention at Haddon Hall, Atlantic City, February 16, 17 and 18. The convention theme is "Christianity, the Religion of Today." Secretary Lawrence French desires that all Rutgers delegates see him concerning certificates for reduced railroad rates of one-half fare on return tickets. The Rutgers delegates will leave on the morning of February 16 on the 10.23 train for Trenton.

DEBATING TEAM TO MEET COLGATE

(Continued from page 1)

The freshmen report that they have been working on the question for some time, so that the prospects look good for a record as that of last year, when the freshman team won both of its debates.

One of the great difficulties with which the debating management has had to contend this year is that of scheduling debates. The reason for this difficulty in making up the schedule lies in the fact that the New England colleges, the Pennsylvania colleges, and larger eastern colleges have formed leagues whose schedules leave them no time to debate colleges outside of their own leagues. The athletic system of two-year agreements is being adopted by Rutgers to make this work of forming the schedule easier, but manager Sellers states that Rutgers may be forced to inaugurate a movement for the formation of a new league if it would have a full and really worthwhile schedule every year.

Debating Schedule

The schedule of debates and the teams which will take part is as follows. February 12: Colgate Dual, Resolved, That the United States should enter the League of Nations at once. Teams given above.

March 9: N. J. C. Single, Resolved, That in general the rates in the Fordney-McCumber Tariff Bill are too high for the best interests of the country. Rutgers team: M. R. Seiffert '23, captain; John Scudder '23, John E. Bebout '23, and W. F. Lecraw '23, alternate.

March 27: Penn State Single at home. Resolved, That the United States and the several states should adopt some form of the Kansas Industrial Court System. Team: Charles Dayton '25, captain; A. B. Lincoln '23, H. L. McConaughy '24, and Nathan Duff '23, alternate.

April 6: W. and J. Single at home. Question and team same as above.

April 12: Penn State Single at Penn State. Kansas Industrial Court Question. Team: M. R. Seiffert '23, captain; John Scudder '23, C. R. Kleinhans '23, and J. B. Molinoux '24, alternate.

April 14: W. and J. Single at W. and J. Question and team same as above.

FRESHMAN TEAM DEFEATS ALDELPHI PREP QUINTET

The freshmen five defeated the Adelphi Prep School, of Brooklyn, by the close score of 23 to 19 in the preliminary to the Rutgers-Swarthmore game in Ballantine Gymnasium last Friday evening. Due to the inexperience of the two teams, the playing was ragged during the first and part of the final period, but in the closing minutes, with the winner in doubt, the game became extremely interesting.

The frosh were in the lead during much of the first period, but just before the half ended their opponents forged to the front and led at half time by 11 to 10 score. At the beginning of the second half Politika, the 1926 star, and who had missed a train to this city from New York, arrived on the court and took one of the guard positions. With him in the line-up the freshmen seemed to gain new life and immediately took the lead. The score was tied three times during the last half, but with Politika scoring two field goals and six goals from the foul line the frosh gained a slight lead during the last four minutes, which they held until the final whistle.

The diminutive Zerman and LeBauer exhibited some fine floor work for the frosh, while Sigler and Tones scored the majority of Adelphi's field goals.

The box score:

RUTGERS FRESHMAN (23)		Fid.G. Fl.G. P.S.	
Zerman, forward	2	0	5
Doublier, forward	0	1	0
Pope, center	1	0	2
Le Bauer, guard	1	0	2
Voorhes, guard	2	0	4
Sayre, forward	0	0	0
Kimble, forward	0	0	0
Politika, center	2	6	10
	8	7	23

ADELPHI (19)		Fid.G. Fl.G. P.S.	
Little, forward	0	0	0
Sigler, forward	3	0	6
Tones, center	3	0	6
Hitchings, guard	0	0	0
Gurney, guard	0	5	5
Cabill, forward	0	0	0
Perry, forward	1	0	2
	7	5	19

Referee: Stine, Springfield.
Fouls called: On Rutgers, 11; on Adelphi, 17.

SCARLET DOWNS GARNET IN FAST GAME

(Continued from page 1)

coast. Bruno played again in the second half. Swarthmore played a hard, fast, and at times a rough game. Wood tallied four times and many more attempts from the mid-court. He contributed just half of his team's field goals. Shane, the Garnet leader, was closely guarded and managed to break through for only one field goal, but added seven counters on free shots from the black line.

Swarthmore was the first to score. Manich's field goal, however, carried Benzoni's followers into the lead and they were never headed. At half time the score was 20 to 11. Rutgers continued a fast type of playing in the second half and with only a few minutes to go, Coach Hill sent in the second string men. The game ended in a 39-24 victory for the Scarlet.

The line-up and summary:

RUTGERS (39)		Fid.G. Fl.G. P.S.	
Manich, f.	2	0	4
Ellis, f.	4	11	19
Raub, c.	1	0	2
Pancoast, g.	0	0	0
Benzoni, g.	4	0	8
Enander, g.	3	0	6
Hicks, c.	0	0	0
Benkert, g.	0	0	0
Heine, f.	0	0	0
Keiler, f.	0	0	0
	14	11	39

SWARTHMORE (24)		Fid.G. Fl.G. P.S.	
Shane, f.	1	7	9
Bartlett, f.	0	0	0
Asplundh, c.	1	0	2
Wood, g.	4	0	8

SCARLET QUINTET OVERCOMES LEAD TO BEAT LEHIGH

Lehigh Holds Early Lead Until
Furious Offense Wins for
Rutgers Near Game's End

GAME FOURTH STRAIGHT WIN

Victory Due to Fine Team Work
Plus Superlative Individual
Performances

In a game which was in almost perfect contrast to that of the evening before against Lafayette, the smooth working Rutgers basketball machine annexed its fourth straight victory at South Bethlehem Saturday evening when it defeated the fast Lehigh team by the score of 24 to 22. The game was the fastest and hardest fought which has been played by Lehigh this season. Until the last ten minutes of play, the Scarlet team was trailing its opponents by a few points, but by displaying a furious offense it sprang to the front and clung tenaciously to the scant lead of two points which still separated the teams at the end of

of contest. The Scarlet team appeared to be somewhat weakened at the start due to the hard game the night before, and for this reason the Brown and White team was able to maintain an early lead. The shooting of Hess and Captain Lingle during the opening period was sufficient, with the close guarding of the Lehigh defense, to gain the upper hand during the first half. This defensive play of Lehigh rendered it impossible for Captain Benzon to stage one of his scoring sprees, for the network of defense was so great that the Scarlet was unable to get fairly started.

Win in Second Period

However, in the second period Coach Hill's men began to let themselves out, and Benzie exhibited some dazzling dribble work which enabled him to get within scoring distance of the basket. He dropped most of his four field goals in this manner. Raub also scored from the field in this period.

But in the furious play of the last ten minutes the Scarlet combination worked as a unit, and passed the ball with a grim determination to win. In trying to stop the Rutgers assault, Captain Zingle and Hartung became victims of the foul ruling and were expelled from the game, thus materially weakening their team.

As both quintets scored seven field goals (Continued on page 4)

SCARLET QUINTET HAS GOOD START FOR WINNING STREAK

With the winning of the two basketball games on the three-day trip into Eastern Pennsylvania, the Scarlet quintet not only defeated two of its foremost rivals in Eastern intercollegiate circles, but almost assured itself of having a successful court season. With these two victories under its belt the Rutgers basketball team has now a record of seven wins and three defeats. The four games played in the past ten days have all been clean cut victories. Of these three setbacks the only decisive one was at the hands of Princeton. This game, however, was played too soon after examinations, when the team lacked practice, for since that time the offensive playing of Manck, Ellis and Captain Benzon has been on a par with that of the members of the Scarlet quintets of the past three seasons.

The most bitter court rival outside of Stevens will be encountered Friday evening, when the Rutgers team will journey to Morningside Heights and meet the New York University five. It was this college which defeated Rutgers in the final game at Atlanta, Georgia, in 1920 for the amateur basketball championship of the United States. It also defeated the crack 1921 Scarlet quintet in New York by a 45-15 score, but this was avenged in Ballantine Gymnasium last year, when Rutgers scored a decisive victory. Coach Hill's men will do their utmost on Friday to win their second straight victory over the Violet team. The N. Y. U. team has not been very successful this season, having won but half of its contests.

BASEBALL TEAM IMPOSSIBLE WITHOUT STUDENT SUPPORT

The answer to the question as to whether Rutgers College will have a baseball team this spring depends now entirely upon the way in which the student body meets its pledges. Over \$2,000 has been collected from the alumni and a total of \$2,500 is expected, while of the \$1,200 pledged by the student body \$850 has been collected.

It is necessary to raise \$3,500 at this time in order to reduce the debt of the Athletic Association to a point where the trustees' approval to a note will be given, and since the alumni have met their part of the subscription it remains for the student body to pay the rest of the amount pledged in order to make the baseball team a reality.

No provision, however, will be made for a team until the entire amount necessary has been raised. Prospects for a winning team are promising, and a tentative schedule has been prepared which will become effective if the pledges are met.

Should these plans for the sport prove unsuccessful all money raised will be refunded to both the alumni and the members of the student body.

NEW REGULATIONS IN FORCE DURING THE JUNIOR PROM

"A raising of standards at Rutgers dances and house-parties" was the main topic of discussion at a meeting of the committee of the Ladies of the Faculty on Social Relations last Monday evening at the home of Mrs. Walter Greacen.

For the purpose of weighing opinions and to bring forth suggestions the committee invited one member of each fraternity on the campus to attend the meeting. These men were surprised at some of the facts brought to their attention by the ladies of the committee with regard to questionable conduct manifested at various times by persons attending social events held under the auspices of college organizations. The women deplored these conditions and demanded that something be done to remedy unseemly behavior at dances particularly, hinting that non-improvement might lead to their abolition.

As a result of the discussion it was decided that each fraternity should appoint one man who is to be responsible for the general conduct of his fraternity at dances and house parties. He is to instruct the chaperones as to their duties and to see that they enforce regulations. Finally, each man is to be directly responsible for his fraternity to the Ladies' Committee.

REGISTRAR ANNOUNCES RESULT OF MIDYEARS

Quality Credit System Causes Odd
Situation Among Fresh

Reports from the Registrar's office show that of the twenty-nine freshmen dropped from the college roll as a result of the midyear examinations six had maintained grades slightly above sixty per cent, but were dropped because they had too few Quality Credits. Under the old system they would have been able to continue their courses. Quality Credits, however, require one to make a better standing than a mere passing grade in all subjects. The system was fully outlined and explained in the TARGUM, issue of October 10, of last year.

While six were dropped because of too few Quality Credits, two members of 1926 were able to maintain their class standing despite the fact that their term averages were below sixty per cent, because their grades in a number of subjects gave them sufficient quality credits.

The system of credits which was instituted last fall and which applies to the present freshman class only, will be continued during the second term. Under this system all will be required to obtain sixty per cent credits for both the first and second term. Those who may only fifty per cent in the first term will have to secure seventy per cent in the second term if they are successfully to complete the year's work.

710 Men Now in College

Statistics show that during the first term fifty-nine men left college. Thirty-two were freshmen, thirteen sophomores, twelve juniors, and on senior. Forty-three were numbered in the quiz casualties, two of these being juniors, twelve sophomores, and twenty-nine freshmen. Twelve entered college at the beginning of the second term. There are now seven hundred and ten enrolled.

While assembling the data which has been given above it was learned that re-examinations for the removal of deficiencies for the first term will be held in March during the week beginning Monday, the twelfth. Those expecting to take any such examinations must notify the Registrar at least ten days before that date. Friday, March 2, will be the last day on which such registrations may be made. Under the regulations governing such re-examinations a fee of five dollars must be paid at the Treasurer's office for each examination.

Those who do not care to take examinations at that time may elect to do so in August. A second re-exam can be taken in September only, and any such examination will be given subject to a fee of ten dollars.

SCARLET MERMEN TO MEET SWARTHMORE ON FRIDAY

Springfield afforded little opposition for the Scarlet natators on Saturday in the last home meet of the Rutgers swimming team this season. This meet incidentally was the last easy meet for the Scarlet mermen, who will be forced from now on to show their greatest strength if they wish to go through the season undefeated. They have been conceding the meet next Saturday with Swarthmore, but even in this meet the Little Quakers may be even stronger than they are alleged to be.

Swarthmore gained a 36 to 26 victory in the tank on Saturday over Lukens Lehigh swimming team. The winners took four first places besides the 200-yard relay in the seven events contested. Crownover, the speedy Garnet tank man, was the individual high light of the meet, for he won first honors in the 50 and 100, besides swimming as anchor man on the relay quartet.

If comparisons are of any worth, however, the decisive victory which Rutgers registered over Lehigh in the initial meet of the season makes the Scarlet far superior to the Swarthmore natators. Nevertheless, Rutgers is handicapped in the 50 and 100 because it has no speedy swimmer for the short distances besides Foster and Enander, and the latter, who is not in the best of condition, will probably not make the trip to Swarthmore.

SCARLET SCORES VICTORY IN TANK

Rutgers Takes All Firsts in Last
Home Meet of the Season
Score 54-17

DIVE WON BY NARROW MARGIN

Clark '25 Jumps Into Pool and
Collects Wager

While only eight hundredths of one per cent was the margin by which Galbraith won the fancy dive event, Rutgers scored a 54-17 victory over Springfield in the meet which was held in the Ballantine pool Saturday afternoon. This meet marked the final appearance of the Scarlet team in the home pool.

Eversden L. Clark '25 provided a bit of comedy for the spectators before the meet when he jumped into the pool as a result of a wager. He quickly crawled out, collected a greenback having a "V" in each corner, and trotted to his room. He was back in time to see the first event, the 50-yard swim, which was won by Cass, Rossetti taking third place. Deducting the tailor's charges for pressing the suit, it would still seem that Clark's indoor sport must have been a profitable venture.

Redmond and Pat Schoonmaker carried the Scarlet colors in the 220 event. Redmond swam a pretty race and finished well ahead of Shepherd, of Springfield, who annexed second place. Schoonmaker was the third man to drop anchor.

Ross and Foster furnished the opposition for Beukema in the century swim. Ross cut the water at a fast clip and scored a first. Foster trailed Beukema to the finish line.

Potts and Brenner proved too fast for Springfield's lone entry in the breaststroke and took first and second respectively.

Manager Scrubsky sprung a surprise when he sent Captain Giebel into the submarine competition. Plunging is a slow means of navigation for Leo, but he added a point to the score when he took third with a plunge of sixty feet. Von Stanley annexed first place with sixty-two feet, six inches more than Bullock, Springfield, who took second.

In the dive the competition was keen, and it was only after all means of calculating had been brought into play that a winner was decided upon. Galbraith, Abercrombie and Subin finished in the order named.

Captain Giebel and Mitchell scored eight points in the fifty-yard backstroke, Ellenworth, of Springfield, scoring third. The relay added eight points to the Rutgers score. Giebel, Ross, Rossetti and Foster were the winning quartet.

Summary:

50-yard swim: Won by Cass, Rutgers; Beukema, Springfield, second; Rossetti, Rutgers, third. Time, 27 seconds.

220-yard swim: Won by Redmond, Rutgers; Shepherd, Springfield, second; Schoonmaker, Rutgers, third. Time, 2:48 1/2.

100-yard swim: Won by Ross, Rutgers; Beukema, Springfield, second; Foster, Rutgers, third. Time, 61 seconds.

100-yard breaststroke: Won by Potts, Rutgers; Brenner, Rutgers, second; Ellenworth, Springfield, third. Time, 1:22 1/2.

Plunge—Won by Von Stanley, Rutgers, distance 62 feet; Bullock, Springfield, distance 61 1/2 feet; Giebel, Rutgers, third, 60 feet.

Fancy dive—Won by Galbraith, Rutgers, 302.08 points; Abercrombie, Springfield, second, 302 points; Subin, Rutgers, third.

50-yard backstroke swim: Won by Giebel, Rutgers; Mitchell, Rutgers, second; Ellenworth, Springfield, third. Time, 32 1/2 seconds.

200-yard relay: Won by Rutgers (Giebel, Ross, Rossetti and Foster); Springfield (Beukema, Dillenback, Shepherd and Mumson), second. Time, 1:48 1/2.

NEW CAMPUS VIEWS WILL BE FEATURE OF YEAR BOOK

"A rotogravure section consisting of sixteen pages of campus views is but one of the attractive features which the 1924 Scarlet Letter has to offer," said Editor-in-chief T. B. Carpenter '24 to a TARGUM reporter in a recent interview. "The year book is to contain, in addition to this, a twelve-page football section devoted to write-ups and photographs of last season's games, and an especially fine non-sensia department edited by Harvey W. Lloyd '24, creator of the famous 'Joe Moist'."

"Contributors to the literary and non-sensia departments are urged to turn in their work at once in order to facilitate an early preparation of copy, as forms for the year book are already being set up by the printer, and it is announced that it will go to press on the 15th of March. All copy must be in the hands of the editors by the day of the Junior Prom, February 23, at the latest; all photographs and club write-ups, however, are due this week, on February 15.

"The dedication of the Scarlet Letter has in former years always remained a secret until the date of publication, and the same custom is to be followed this year, although the person to whom the year book will be dedicated has already been decided upon.

"Those who desire to assure themselves of getting a copy or copies of the 1924 Scarlet Letter should sign up as soon as possible, as only a limited number of copies are being published and it will be difficult to obtain more than this specified number. 'Sign up early and avoid the rush,' is the slogan of Business Manager Kenneth Q. Jennings."

JUNIOR PROMENADE TO BE GALA EVENT

Holiday Week-End to be Ushered
in with Concert by Combined
Musical Clubs

MUSIC BY BENNIE KRUEGER

Game With Stevens and House Parties Will Conclude Festivities

A unique concert by the musical clubs, Prom music by one of the four best orchestras, a pleasing dance order, a keen basketball game, and house parties promise a Junior week that will make a mark in the history of Rutgers' social life.

Last-minute details for the Prom are now being arranged by the committee under the chairmanship of Leon Kolb. Everything is receiving a maximum of attention so that this gala event may run off without a hitch.

One of the features of the week-end will be the concert of the Glee and Mandolin Clubs, to be given on the night of February 22. The musical clubs have met with the greatest of success and appreciation wherever they have performed this year and it is certain that they will be at their best a week from Thursday night. Manager Noel Kane announces that the clubs are preparing several new features, both instrumental and vocal, for the occasion. "Scrappy" Lambert is working on new numbers and those who heard him sing in Chapel last Wednesday can appreciate the pleasure in store. Following the concert there will be dancing to the strains of Larry Butler's eight-piece orchestra. "Thus ends the first day."

On Friday afternoon, guests will be entertained at the various fraternity house-teas and at the downtown theaters. Then the Prom at 9 p. m. Music by the Rutgers favorite, Bennie Krueger and his orchestra. Mr. Krueger will bring with him his original combination which played at Delmonico's Club Durant, and in various vaudeville engagements throughout the East. This is the orchestra which plays with Mr. Krueger for Brunswick records, and is today recognized as one of the best in the country. The following is the dance order selected by the committee:

PART ONE
1. "Lady of the Evening."
2. "Where the Bamboo-Babies Grow."
3. "Way Down Yonder in New Orleans."
4. "Rose of the Blues."
5. "Low Down the Rio Grande."
6. "Toot-Toot-Tootie."
7. "Sweetheart Lane."
8. "Parade of the Wooden Soldiers."

PART II
1. "Pack Up Your Sins."
2. "Pale Venetian Moon."
3. "Flower of Araby."
4. "Only Just Suppose."
5. "Dumbell."
6. "Who Cares?"
7. "When Hearts are Young."
8. "Come on Home."

Something new in decorations and favors is promised, and refreshments will be the best obtainable. On Saturday afternoon the Scarlet quintet will meet Stevens and attempt to avenge the defeat recently received at the hands of the Engineers. There is a large demand for tickets for this contest. Reservations should be made early in order to insure good seats for the fair ones.

In the evening the various house-parties will be held. The houses will be decorated and music is now being arranged for. The guests of the newly-organized "College Lodge" will be entertained at the New Brunswick Country Club which has been engaged for the occasion.

BOXING AND WRESTLING CLASSES HELD REGULARLY

Boxing and wrestling classes under the coaching of Mr. Berger and Instructor Boutsauras are progressing splendidly, according to Physical Director Reilly. Mr. Berger, of the Physics Department, who has volunteered to fill the vacancy created by the resignation of Mr. Hunter, has had considerable experience in this phase of athletics. During his four years on the Penn State team he was undefeated in the middleweight class, and while in service on the Mexican border and in France he often entertained by his skill with the gloves. Mr. Berger has coached many Rutgers men at various times and has proved a very capable and efficient instructor. Classes will be conducted in the upper gym on Tuesdays and Fridays.

The nucleus of a varsity wrestling team is rounding into form under the direction of Mike Boutsauras, lightweight champion of New Jersey. The matmen have been developing rapidly and will soon be in condition to represent Rutgers in intercollegiate competition. Although there is in the class at present at least one good representative from each weight, it will be necessary for more men to turn out in order that a varsity team can be formally organized. Mostwill, Kiger, Elssesser and Cervasio are rapidly learning the holds and breaks in the lighter weights, while Guerin, Pfaffhausen and Brauer have been working in the heavier classes.

SOUTH AMERICA SUBJECT OF NEXT "Y" MEETING

"South American Problems" will be presented and discussed by Dr. Samuel G. Inman, at the "Y" meeting in the Fine Arts room at 7 p. m. on Wednesday evening, February 14th. Dr. Inman has traveled extensively in South American countries and has material for an interesting talk.

Rutgers Calendar

- FEBRUARY 14-21
14. Wednesday. Biological Seminar, paper by Mr. A. P. Kelley. New Jersey Hall, 4.15 p. m.
 - Y. M. C. A. Address by Dr. Samuel G. Inman on "South America." Fine Arts Room, 7 p. m.
 - Economics Club. Open meeting. Lecture by Professor Paul Brissenden, of Columbia. Chemistry Building, 7.30 p. m.
 15. Senior Council. Queens Building, 7 p. m.
 - Philoclean Literary Society. Regular meeting. Philosophy Library, 7.15 p. m.
 - American Institute of Electrical Engineers. Illustrated lecture by John H. Lieb, Esq. Chemistry Lecture Room, 7.30 p. m.
 - Biological Club. Regular meeting. New Jersey Hall, 7.30 p. m.
 - Friday. Intercollegiate debate, College vs. Rutgers. Subject: "Resolved, That the United States should join the League of Nations at once." Kirkpatrick Chapel, 8 p. m.
 - Public Worship. Sermon by the Rev. William Elliot Griffiths, D.D. Kirkpatrick Chapel, 11 a. m.
 - Monday. Board of Managers, regular meeting. Philosophy Library, 7.30 p. m.
 - Wednesday. Washington's Birthday recess begins 4 p. m.
 - Basketball. Fordham vs. Rutgers, 8 p. m.; Dickinson High School vs. Rutgers freshmen, 7 p. m.

TRACK STARS COLLECT HONORS IN BUSY WEEK

Meyer Annexes Two Championships;
Beattie Stars in 600-yd. Run

Herb Meyer, the crack Rutgers hurdler, has brought additional fame to himself and his alma mater during the past week by winning the metropolitan championship in the 75-yard high hurdles and by breaking the indoor world's record in the 100-yard hurdles. Herb in running up the remarkable time of 11.9-10 seconds shattered a record which had been held by James S. Hill, of Baltimore, since 1907.

Coach Weier's track men had an unusually busy week on the boards, for on Monday evening the Scarlet entries at Madison Square Garden captured one first and one third place. Rutgers tied with Columbia for third place in the meet, which was won by the famous New York and Newark Athletic Clubs, who finished first and second respectively. In the Metropolitan A. A. U. games at Newark Wednesday night the Scarlet runners brought home two seconds against a strong field. In the Wilco Athletic Club games in Brooklyn on Saturday a relay team was entered for the first time. This took third place, while Meyer won the only other event in which Rutgers was entered.

Herb Meyer sprung a surprise in the championship games at Madison Square, when he nosed out Thompson, of Princeton, in the 70-yard high hurdles, winning the metropolitan championship. Herb's time of 9 1/2 seconds was exceedingly fast and shows him to be in tip-top condition. Thompson, Princeton, was second; Vickers, West Side Y. M. C. A., third, and Tom Farrell, fourth.

Captain Beattie placed third in the 600-yard run, being passed by Talley and Kelly. This gave Rutgers a total of seven points and a tie with Columbia for third place. The New York A. C. captured first place, while the Newark A. C. finished second. It is interesting to note that Bernie Weiers is coach of both the

DEBATING TEAMS TO MEET COLGATE ON FRIDAY NIGHT

Coached by Professors Louis Bevier, John H. Logan and Alfred P. Haake, the varsity debating teams are practically ready for the dual debate with Colgate on Friday, February 16, on the question: "Resolved, That the United States should enter the League of Nations at once."

The negative team, Charles Dayton '25, Allan B. Lincoln '23, and Alexander Feller '24, with Tilford G. Wharton, '25, as alternate, will travel to Rome, N. Y., to meet Colgate's affirmative team. Here the team will be welcomed with the Colgate team by the town.

John E. Bebout '23, C. R. Kleinhans '23 and Harold L. McConaughy '24, with D. Woolsey Teller, Jr., '23 as alternate, will form the affirmative team which will debate here in the Chapel Friday evening at 8 o'clock.

The judges for the home contest have not yet been decided upon, but it is certain that very capable men will be chosen.

GIDLEY '23 MAKES A PERFECT SCORE IN R. O. T. C. MATCH

E. Win L. Gidley '23, was the high man on the R. O. T. C. team which represented Rutgers in the Second Corps Area Match, shot last Friday. Gidley shot a perfect score despite the fact that he had not practiced this year. Under the regulations covering the matches each team consists of fifteen men, the ten highest to count in the scoring. The Rutgers team score was 953 out of a possible 1,000. The score of the University of Delaware was 941. As yet there have been no reports from Cornell, Syracuse, New York University, Columbia, and City College of New York, which are represented in the corps area matches. The college which amasses the highest score in the six matches, the first of which was held last Saturday, will be eligible to fire in the National Match in May.

JURY UNABLE TO REACH DECISION IN HONOR CASE

Retrial of Barkelew Case Consumes
Three Hours; No Agreement
at 4 A. M.

IMPANEL JURY FROM AUDIENCE

John E. Toolan, Assistant Prosecutor
of Middlesex, Pleads Case
for Defendant.

The second trial of the case of Rutgers College and Barkelew '23, for alleged violation of the Honor System, held last night, had the same result as the first trial: a failure of the jury to agree. The jury acting at last night's trial spent nearly five hours deliberating on the case, after which time it became apparent that it could not reach an agreement. At 4 o'clock this morning it so notified the court.

At last Monday's trial five witnesses testified that Mr. Barkelew's actions in the examination in Philosophy held January 18, in the Chemistry Lecture Room, were very suspicious. The defense summoned several men who stated that they had seen nothing suspicious in the defendant's actions, and that they probably would have noticed any such actions.

When the jury failed to reach a verdict, the defense claimed that this failure to convict constituted an acquittal, since the constitution of the Honor System provides that "a five-sixths vote shall be required for conviction." Judge Scudder declared that although the words "or acquittal" were not found in this clause, the procedure in all previous cases had been to secure five-sixths vote either way.

Last Wednesday in chapel, a motion was brought before the student body to amend the article in question to read "a five-sixths vote shall be required for conviction or acquittal." After a great deal of discussion, this motion was laid on the table in order to give Judge Scudder a chance to produce the minutes in support of his ruling. In chapel yesterday morning, this proposed amendment was unanimously adopted by the student body.

For last night's trial, only three jurors of the regular roll of the Honor Court were available, as all the others had either served on the previous one or had been challenged by either side. These men were Wallace Gibson '23, Leon Kolb '24 and William Staples '24. The nine remaining jurors were selected from the audience by drawing names from a hat. These nine men were J. H. Noble '23, H. S. Allen '26, W. Anerson '25, W. F. Lecraw '23, H. Raab '26, S. I. Hammond '23, L. E. Reif '23, R. M. North '24, and Lawrence Elkind '26. Gibson acted as foreman.

Howard Raub '24, Henry Keiler '24, Edward Olly '24, and Edward Brennan '25, were appointed by the court to act as Sergeants-at-Arms.

Warren Dixon '23, again prosecuted the case for the college. Barkelew was represented by Assistant Prosecutor Toolan, of Middlesex County, Morgan Seiffert '23, and Nathan Duff '23.

Mr. Toolan stated that under the constitution of the Honor System, the jury must reach a five-sixths vote for conviction. When the jury in the first trial failed to reach a five-sixths vote for conviction, he maintained that the defendant had been automatically acquitted.

Mr. Dixon argued that a disagreement in the former trial did not constitute an acquittal, and cited the opinions of District Court Judge Daly of this city and other lawyers, to prove that a verdict of guilt or acquittal was necessary.

Dixon, for the prosecution, called five witnesses. Weaver '23, testified that at intervals during the examination in question he had seen Barkelew in a position to copy from the paper of Maurice Er-

(Continued on page 3)

A. C. A. DISCUSSES NEW EXTENSIONS OF AWARDS

The possibility of awarding the gold "R" to members of the agricultural judging team was an important topic of discussion at the regular meeting of the Association of Campus Activities held in the Napoleonic Room of the college library on Wednesday, February 7. It was decided that a representation of the Agricultural Club should be present at the next meeting in order to help in arriving at a decision.

Five of the six campus organizations were represented when T. C. Summerill '23, called the meeting to order.

In answer to the question as to whether a man who had served three years on the TARGUM staff, including one year on the Cabinet was eligible for the gold "R", it was stated that "Rs" are given upon the recommendation of the Campus organizations and that the A. C. A. passes finally only on the awards themselves.

The next meeting, which will probably be held on Wednesday, March 14, is to be announced in Chapel.

BIOLOGS HOLD MEETING

"Chemoreceptives" was the subject of a discussion at the meeting of the Biological Club held last Thursday evening at 7.30. About twelve members of the club were present.

It is expected that Dr. Leon A. Hausman, one of the latest additions to the Biological faculty, will speak at the meeting of the club on Thursday evening, February 22. His subject has not yet been announced.

The Targum.

ESTABLISHED 1969

Entered at the New Brunswick Post Office as second class matter.

HONOR SYSTEM DEMANDS A VERDICT

It is indeed a great misfortune that the jury was unable to reach a decision last night. The Barkelew case is a very serious one both from the point of view of the defendant and of the student body. A grave suspicion has been cast on a member of the college and it is a most unsatisfactory situation if it can not either be removed or confirmed. A system which can do no more than cast suspicion, and let it rest, is of little service to anyone.

"Justice is blind," remarked the counsel for the defense when summing up his case. A case must be weighed by the value of evidence presented on both sides. It must be weighed impartially with regard for neither friends nor foe. The second result of disagreement among jurors is but a delaying of a verdict, a halting of justice.

By our constitution as followed and interpreted in all previous cases, we have placed the power of decision, the act of justice, in the trust of twelve jurors, selected according to the constitution and legal precedent. The trust is great. What is it? It is to reach a decision that the accused is either guilty or innocent beyond a reasonable doubt.

Witnesses testified at the trial on February 5, and the jury drawn according to constitution and legal custom was unable to reach the five-sixths decision.

Practically the same testimony was produced at the retrial and the jury drawn according to legal precedent was unable after five hours to reach the five-sixths decision. The question stares us in the face: Why?

There are four possible answers: insufficient evidence, an incompetent jury, an impossible case, or an unsatisfactory jury system.

So far as the evidence and the case are concerned, we believe that the testimony is quite typical of the evidence which would be produced in the great majority of cases under the Honor System. In the opinion of THE TARGUM it should be quite possible for a jury to reach a decision on the evidence presented. If this case is impossible, the Honor System itself, as at present constituted, is impossible.

The student body has voted repeatedly to make an Honor System possible. It has worked in numerous other colleges and we still have faith enough in Rutgers and Rutgers men to believe that it is no less possible here. To abolish it now would be a terrible thing in the eyes of the world and would be very demoralizing here in college. Cheating has decreased, in most sections, under its sway; and we fear that the reaction following its abolition would be nothing short of chaotic. We must and can find some way out.

If the juries have been incompetent, should we not select yet a third jury, if necessary, of older men, and receive the just verdict demanded by the interests and honor of both the defendant and the college? If on the other hand, the jury system used at present is unsatisfactory, it does not mean that the whole Honor System is at fault.

We still believe that the present case should be settled in some unequivocal manner. But even more important, is the preservation of the Honor System as an effective instrument. It may be that in view of experience, changes will have to be made. But there is no call for the abolition of the whole system. That would be the rankest sort of quitting.

CONSTITUTIONAL CHANGES

Popular elections many times place in office the popular man, regardless of his qualifications. The proposed amendments to the Targum Constitution which appear in another column of this issue, are made for the sole purpose of insuring to as large a degree as possible the best selection of men for the positions of Editor-in-Chief and Business Manager.

These amendments which must be passed upon by the members of the Targum Association (comprising all undergraduate subscribers), follow in the footsteps of the regulations recently adopted by the Board of Managers of the Athletic Association. Merit, as far as it is humanly possible, will be the criterion upon which selections will be based.

Certain it is that the undergraduate body is not and could not be expected to be in a position to judge properly of the abilities of a trio of candidates who might be placed upon the ticket. We firmly believe that TARGUM work is a campus activity which under inefficient leaders would deteriorate in one year to a degree which would require a number of years to carry it back to normal.

Like the managerial positions, places on THE TARGUM require particular training and with a proper system of merits and checks the council offered in the proposed amendments should be able to make a wiser selection than might be made at the polls.

As proposed, the council would consist of members of the student body, the faculty and the Alumni Association. Complete power to regulate the affairs of THE TARGUM would be in the hands of this council.

AN ENGINEER WITH A HOBBY

When one takes up, outside his chosen field of work, some hobby in which he expects to find not only relaxation and enjoyment but also intellectual benefits, it is often true that he gathers a fund of information which is, or could be, of interest to others. Unfortunately many "hobbyists" keep whatever pleasure they may gather from their hobbies to themselves. John W. Lieb, president of the New York Edison Company, and an eminent engineer, is an exception to the rule. It will be the privilege of all Rutgers men to share in Mr. Lieb's hobby next Thursday evening when he will

THE CONSTITUTION OF THE TARGUM ASSOCIATION OF RUTGERS COLLEGE

ARTICLE I—NAME
The name of this organization shall be "The Targum Association of Rutgers College."

ARTICLE II—OBJECT
The object of this association shall be to publish the college newspaper, known as THE TARGUM, which shall publish complete news of college life as contributed primarily by undergraduates and also by faculty and alumni.

ARTICLE III—MEMBERSHIP
Sec. 1. Any student of Rutgers College may become and continue a member of the Targum Association for the current year by paying the yearly subscription.
Sec. 2. Any member of the Faculty of Rutgers College, or any Alumnus thereof may become and continue a member of the Targum Association by payment of the yearly subscription.

ARTICLE IV—PRIVILEGES
Members of the Targum Association shall receive one copy of each issue of THE TARGUM during the period for which their membership subscription is paid, and shall be eligible to office as hereinafter provided.

ARTICLE V—OFFICERS
Sec. 1. The officers of this association shall be a President, a Secretary, and a Treasurer.

Sec. 2. There shall be a Council which shall perform duties as hereinafter provided. The Council shall be composed of the President, the Editor-in-Chief, the Business Manager, the Treasurer, the Dean of the Students, a representative from each of the three upper classes, and the chairmen of the committees of publications and undergraduate activities, respectively, of the Alumni Association.

Sec. 3. The Business Manager shall be Secretary of the Association and the Council.

Sec. 4. The Treasurer shall be a member of the Faculty or an alumnus.

ARTICLE VI—ELECTION OF OFFICERS
Sec. 1. The election for President, Editor-in-Chief, Business Manager, and Treasurer shall be held on the first Friday in March. A majority is necessary for election. The newly elected President and Editor-in-Chief shall assume office at the first meeting of the Council after elections. The new Business Manager shall perform duties of his office only at the direction of the Business Manager of the current volume of THE TARGUM. The new Treasurer shall assume complete direction of all business operations of THE TARGUM for the first time at the first meeting of the Council after elections, and continue his duties until all the business of THE TARGUM has been completed for his volume. The Treasurer shall assume his duties within one month following his election.

Sec. 2. The election of the class representatives shall take place during the third week in March at the call of the various class presidents.

Sec. 3. Nominations for President, Editor-in-Chief, Business Manager, and Treasurer shall be made at a special meeting of the Council at least one week before the election, a quorum being necessary, and these nominations shall be printed in an issue of THE TARGUM preceding the election. Nominations for class representatives shall be made in a class meeting at least two days before their election.

ARTICLE VII—DUTIES OF OFFICERS AND COUNCIL
Sec. 1. It shall be the duty of the President to preside at all meetings of the Association and of the Council. He shall have no vote in either the Association or the Council except in case of a tie.

Sec. 2. The Treasurer shall be the custodian of all the funds of the Association. He shall receive from the Business Manager all moneys accruing to the Association and shall keep by check all bills arising from the publication of THE TARGUM. He shall supervise the accounts, subscription lists, and advertising rates submitted to him by the Business Manager. He shall submit a report at the annual meeting of the Association, and at any other time that the Council may direct.

Sec. 3. The Business Manager shall perform the duties of the President of the Association in the absence of the latter. It shall be the duty of the Business Manager to attend to all matters connected with THE TARGUM except those pertaining to the editorial management and the office of the Treasurer, subject to the advice and direction of the Council. He shall keep the roll of the Association and call it when required by the President, procure advertisements, secure subscriptions, and together with the Assistant Business Managers, shall attend to the distribution of THE TARGUM to the members of the Association. He shall submit to the Treasurer the names of all subscribers, the rates of advertising, and the amount of money received from each advertiser. All money received by him shall be turned over to the Treasurer, and also all bills for advertising and approval. The Business Manager shall submit his final report and accounts together with all files, correspondence, and papers relating thereto or belonging to the first of October after the expiration of his term of office. The newly elected Business Manager shall appoint, subject to the approval of the Council, a Circulation and Advertising Manager and such assistant business managers as he may deem necessary, at the first meeting of the Council after the annual election.

Sec. 4. The Editor-in-Chief shall have charge of the literary matter of THE TARGUM at the advice and direction of the Council. Immediately upon assuming office, he shall choose, by and with the consent of the Council, two Assistant Editors, and such Associate Editors and Reporters as are deemed necessary.

Sec. 5. The Council shall meet on the first Friday of each month, a quorum, consisting of three undergraduates, the Treasurer, the Dean of Students or one alumni representative, being necessary to transact business. The Council shall elect the President, Editor-in-Chief, Business Manager, and Treasurer, and shall have complete jurisdiction over the affairs of the Association. It shall enact such rules and regulations for the execution of the policies of the Association as it deems necessary.

ARTICLE VIII—REMOVAL
Any officer of THE TARGUM or any member of the Editorial or Business staff may be removed from office for neglect of duty or malfeasance by a two-thirds vote of the Council.

ARTICLE IX—VACANCIES
A vacancy occurring from any cause except failure to elect on the specified day shall be filled by the Council for the remainder of the term.

ARTICLE X—SPECIAL MEETINGS
Special meetings of the Association shall be called at the written request of ten members of the Association, but at least twenty-four hours' notice shall be given of any meeting; nor shall any meeting be held unless a quorum is present. A quorum shall consist of one-third of the paid-up undergraduate subscribers.

ARTICLE XI—COMPENSATION
Sec. 1. The Editor-in-Chief shall receive as compensation 30 per cent. of the Business Manager 30 per cent. of the Assistant Editors and the Circulation and Advertising Manager shall receive 5 per cent. of the Business Manager 20 per cent. of the net proceeds of the year for which they shall have been elected. In no case shall the Editor-in-Chief or the Business Manager receive more than \$100 nor shall the Assistant Editors or the Circulation or Advertising Managers receive more than \$25.

Sec. 2. The Editor-in-Chief and Business Manager shall be entitled to three free copies of each issue of THE TARGUM. The junior and senior members of the editorial and business staffs shall be entitled to one free copy of each issue of THE TARGUM.

ARTICLE XII—AMENDMENT
The Constitution of the Targum Association may be altered at any meeting of the Association by a two-thirds vote of those present; provided that the proposed amendment shall have been published in the two numbers of THE TARGUM preceding the meeting at which the amendment is considered.

ARTICLE XIII—PUBLICATION
THE TARGUM shall be published weekly during the collegiate year with such omissions for holidays and recesses as the Editor-in-Chief and the Business Manager in consultation may decide.

ARTICLE XIV—RATIFICATION AND ENACTMENT
THIS CONSTITUTION shall be considered ratified and in effect immediately after two-thirds of the members present at a meeting of the Targum Association have voted in favor of its adoption. This Constitution shall replace and supersede all other existing Constitutions dated prior to March 3, 1922.

present his lecture entitled "Leonardo da Vinci—Artist, Natural Philosopher and Engineer."

Mr. Lieb while in Milan, Italy, took up the study of the original notes of this Italian painter who, in the opinion of Prof. John C. Van Dyke of our own faculty, "excelled in almost everything he undertook." Today Mr. Lieb is considered one of the best informed men on the subject. Entering upon this pastime with a view to enlarging his interests in things outside his own field of endeavor Mr. Lieb has developed a lecture which has met with enthusiastic and appreciative audiences wherever he has presented it.

All the engineering departments, the scientific organizations, and the Liberal club of the college are co-operating in presenting this lecture. It is the privilege of all members of the student body to hear this man, an engineer, present a lecture upon a subject in which he is interested from a purely cultural viewpoint. We have every reason to believe that it will appeal to every man. Such opportunities are few at best. Make the most of this one.

As a member of society every man is bound to observe the rules of the group whether they conflict with his own interests or not. If there were no restrictions placed by the group upon its members as a group the organization known as "society" could not long exist. Which leads us to the question of the Prom and the activities connected with it.

At a recent meeting of the Committee on student activities and the representatives from the various living groups it developed that all was not as it should have been at the Sophomore. Some of the more venturesome apparently overstepped the traces. In so doing they have placed the entire undergraduate body in an uncomfortable situation. It was the verdict of the committee that any house on the campus which was the subject of any unfavorable report after the Prom should be placed on the black list and that any such house would be barred from having future parties. If such reports were general, the college would be deprived of the social functions which play a real part in undergraduate life.

Rutgers has been spared the publicity and notoriety which have followed social events at other institutions. Rutgers men have been expected to conduct themselves as gentlemen, and we firmly believe that for the most part such has been the case. The few, however, have the power to snatch all privileges from the group. We urge that all houses have proper chaperonage in order that any who may be inclined to steal a march may be properly handled. True gentlemen should need no chaperons; true gentlemen will demand proper chaperonage.

HOUSE PARTIES

As a member of society every man is bound to observe the rules of the group whether they conflict with his own interests or not. If there were no restrictions placed by the group upon its members as a group the organization known as "society" could not long exist. Which leads us to the question of the Prom and the activities connected with it.

At a recent meeting of the Committee on student activities and the representatives from the various living groups it developed that all was not as it should have been at the Sophomore. Some of the more venturesome apparently overstepped the traces. In so doing they have placed the entire undergraduate body in an uncomfortable situation. It was the verdict of the committee that any house on the campus which was the subject of any unfavorable report after the Prom should be placed on the black list and that any such house would be barred from having future parties. If such reports were general, the college would be deprived of the social functions which play a real part in undergraduate life.

Rutgers has been spared the publicity and notoriety which have followed social events at other institutions. Rutgers men have been expected to conduct themselves as gentlemen, and we firmly believe that for the most part such has been the case. The few, however, have the power to snatch all privileges from the group. We urge that all houses have proper chaperonage in order that any who may be inclined to steal a march may be properly handled. True gentlemen should need no chaperons; true gentlemen will demand proper chaperonage.

RUTGERS DEFEATS LAFAYETTE FIVE

Captain Benzoni and Ellis Feature In Well Played Game at Easton

SCARLET OUTPLAY EASTONIANS

Foul Shooting is Prominent Feature of Contest

In a fast and exceptionally well-played game, featured by the shooting of Captain Benzoni and the steady work of Jack Ellis from the foul line, and some of the closest guarding seen at Easton in several years, Rutgers defeated the Lafayette quintet by a score of 22 to 16.

Benzoni and Ellis were the only ones who scored for Rutgers. Bennie shot four field goals in the first half, but was forced to be content with only one in the second half, due to the close guarding tactics of the Maroon and White. Ellis continued his good work of the past week in shooting twelve fouls out of a possible fifteen. He made nine out of twelve in the first half and all three in the second half.

Rutgers secured an early lead, outplayed the Eastonians, and led, 16 to 9, as the first half ended.

Lafayette sprung an agreeable surprise on her cohorts during the second half, for by close guarding Rutgers was prevented from scoring a single point for the first twelve minutes of this period. Although during this remarkable twelve minutes' stretch Lafayette had tallied two field goals and a foul she was unable to overtake Rutgers' lead and finished at the small end of a 22 to 16 score.

In scoring this victory the Scarlet broke the spell of the jinx which has followed the team in its previous games on foreign courts. Prior to this all home games resulted in victories and all defeats were experienced upon opponents' courts.

The box score:

LAFAYETTE (16)	Fld.G.	Flg.	P.S.
Longaker, f.	2	6	10
D. Crate, f.	1	0	2
Duffy, c.	1	0	2

Fouls called: On Lafayette, 15; on Rutgers, 15.

Time of periods: 20 minutes.

NEPTUNE HIGH QUINTET VICTORIOUS OVER FROSH

Fine Passing Attack and Accuracy in Goal Shooting Responsible

The Neptune High School team of Ocean Grove decisively defeated the freshman quintet by the score of 49 to 28 in a preliminary to the Bucknell game on last Tuesday night.

Neptune presented an extremely well developed passing attack, coupled with a wonderful standard of individual accuracy of shooting and the resulting excellency of play proved too great an obstacle for the freshmen.

The Neptune aggregation, however, is a team of no mean ability, and ranks, at present, as one of the strongest scholastic combinations in the state. Knight's floor work was of the finest type, his passes were remarkably accurate and his long shots also well placed. Hammell also played very well and the fifteen points which he scored from the foul line were an important factor in the downfall of the frosh.

Zerman and Kimble both put up fine games for the freshmen, the former especially, showing some pretty work at various times. Politika, heavily guarded, was able to score only one basket from the field, but he was prominent in every play and it was largely due to his floor work that the Neptune score rose so higher. Voorhees, at guard, also played admirably.

The box score and summary:

RUTGERS 1926	Fld.G.	Flg.	P.S.
Zerman, f.	2	1	5
Kimble, f.	2	0	4

CERAMISTS GIVE SOCIAL

The Ceramics Club dance which was held in the reception room of the new Ceramics Building last Friday evening proved to be a great success. The dance was given principally for the students and the faculty of the ceramics course. Card games and other forms of diversion were enjoyed by those who did not care to dance. The success of the affair was largely due to the co-operation of the patrons and patronesses. These were Professor and Mrs. George H. Brown, Mr. and Mrs. R. H. Minton, and Mr. and Mrs. C. C. Clark.

SCARLET CONQUERS BUCKNELL EASILY

Rutgers Outplays Visitors in Both
Offense and Defense

Bucknell proved no match for the smooth working Rutgers five when the latter team won its most decisive victory of the season, 43-24. The Lewisburg team brought with it a reputation for passing and snappy teamwork, but the Rutgers five far outplayed the visitors. The Scarlet basket shooters, showing smoother teamwork and faster passing, kept possession of the ball for the greater part of the contest. Offensive playing was but a part of the Rutgers exhibition, for the home team guarded its opponent so well that Bucknell succeeded in dropping the inflated leather through the ring but four times in the entire game. Only one of these field goals was rung up to the credit of the Pennsylvanians in the first half.

Bunting, of Bucknell, however, proficiently flipped the sphere through the net in the majority of cases when he toed the mark to take a free shot. It was his foul shooting which saved the visitors from an even more lopsided score.

Speed on the court and accuracy in scoring penalty points gave Rutgers the winning punch and lent zest to the contest. Jack Ellis put the tie to his unfortunate Princeton showing by making a remarkably creditable performance from the fifteen-foot mark. He scored seven out of a possible twenty-one points in this way.

Benzoni, easily slipping through his guard, scored seven field goals during the course of the evening.

Manck fully lived up to his reputation for clever playing. Taking advantage of his ability to pass under difficulties, he experienced but little opposition from his towering opponents.

During the initial period of play Rutgers possession of the ball was but slightly contested. The few times when the Pennsylvanians did lay their hands on the ball the unceasing guarding of Heine and Raub kept them from passing the five-yard line. Disparaging of approaching nearer, Dietrich, showing fine form, placed one through the iron hoop from mid-center.

By the end of the first period, as a result of Bunting's foul scoring, the visitors had scored a total of eight points, while the Rutgers quintet had garnered just one less than four times this number. The Bucknellians prevented the second half from being a perfect replica of the first by staging a final desperate rally, during the course of which they dropped in three more field goals.

The box score:

JURY UNABLE TO REACH DECISION IN HONOR CASE

(Continued from page 1)

lich. He could not swear that he saw the defendant actually copying. Smith '23, testified that he saw Barkeley looking at Erlich's paper, and that beyond all reasonable doubt in his mind the defendant was copying from Erlich's paper. Erlich '23, the man from whose paper Barkeley is alleged to have copied, testified that he had entered the room and taken his seat prior to Barkeley's entry. Ottman '23, and Bartlett '23, testified along the same lines as Smith had done.

Mr. Toolan, for the defense, called the defendant himself and six other witnesses to the stand. Barkeley denied the charge. He stated that he had passed the term work, and had spent considerable time studying for the examination in collaboration with Potter '23, and Redmond '23.

After the alleged violation had been reported to the Executive Committee, Judge Scudder went to Dr. Marvin and found out that Erlich, a phenomenal student, had turned in a perfect paper, while Barkeley, only an average student, had made only two mistakes. It was brought out by the prosecution that there was practically no possibility of obtaining such a mark by chance.

Mr. Barkeley accounted for the fact that his mark on the second examination, given him by Dr. Marvin in an effort to see if the charges were justified, was much lower than the first by saying that he had been out until 2 o'clock the morning of the second test, had received very short notice, and that he was working under a severe nervous strain. Redmond '23, and Potter '23, testified that they had studied for the examination with Barkeley, and that to the best of their knowledge he seemed to have a good command of the subject. Potter testified that Barkeley took his seat before Erlich entered the room, and this testimony was corroborated by Anekstein '23. This contradicted Erlich's statement. Scrubky '23, Dunham '23, and Giebel '23, all testified that they had seen no suspicious actions on the part of Barkeley. The latter stated also that he probably would have noticed any unusual action of the defendant.

In summing up, Mr. Toolan asked for an acquittal on the grounds that the testimony of the witnesses for the prosecution was not convincing beyond reasonable doubt. Mr. Dixon argued that more convincing evidence would be almost impossible to secure, and discounted the value of the testimony of the witnesses for the defense by saying that it was all negative in character.

FIRST ENGINEERING LECTURE SUCCESSFUL

S. Q. Hayes, of the Westinghouse
Company, Lectures on Japan

"Electric Railway and Power Development in the Orient" was the subject of a lecture by Mr. S. Q. Hayes, of the Westinghouse Electric and Manufacturing Company before the combined engineering groups at eleven o'clock last Friday. Mr. Hayes, who is acting in a consulting capacity for the Imperial Government of Japan in the hydro-electric development of that country, traveled in the Orient from January of 1921 to April of 1922, and with the exception of a six weeks' trip to the United States, spent all his time in China and Japan. "If you wish to travel around the world," said Mr. Hayes, "the expense will be from \$15 to \$20 per day. Unless you care to spend that much it is well to stay at home."

In a series of stereopticon views, Mr. Hayes showed many peculiarities characteristic of the Japanese and Chinese. "Japan is a great place for the men," said Mr. Hayes, "since the women do all the work, while the men 'boss' the jobs." The pictures of a "female" pile-driver operator and a boatwoman verified this statement.

Probably the most remarkable hydro-electric development in Japan has been done along the Kiso River, where within fifty-five miles ten hydro-electric stations, with a total output of 700,000 kilowatts, have been installed.

The elaborate, yet efficient, system for supplying Tokio with power was described, and served forcibly to show that Japanese cities rival our own in their modern appliances and facilities. In all work in the Orient the development cost has been about \$100 per kilowatt, while the development cost in the U. S. has ranged from \$90 to \$200 per kilowatt.

"There have been numerous instances," said Mr. Hayes, "where even the slightest suggestion as to the particular methods to be used in some work has resulted in saving the governments of China and Japan many thousands of dollars and the awarding of additional orders for material to the installing company. Thus both parties have benefited. The financial success of these projects is evident from the fact that Japanese power companies have been able to issue dividends of from six to twelve per cent and still charge a reasonable rate."

Second Lecture
The second of the series of lectures which have been arranged by the Electrical Engineering Department will be given on the evening of February 15, in the Chemistry Lecture Room by Mr. John W. Lieb, vice-president of the New York Edison Company. His subject, "Leonardo da Vinci—Artist, Natural Philosopher and Engineer," is expected to appeal to students of all the courses.

CHANGE METHOD OF AWARD
The present practice of awarding the Alliance Francaise prize in French—a silver medal—to the student who, in a special competitive examination gives evidence of the greatest proficiency in the subject, will no longer apply. In the future the medal will be awarded to the student who attains the highest grade in "French C," thus eliminating the special competitive examination.

VOLLEY BALL SEASON NEARS CLOSE WITH LAMBDA CHI ALPHA AND CHI PSI LEADING

Approaching the final games of their schedules, Interfraternity volley ball teams last week showed keen interest and better playing form than at any previous time this year.

Probably the most important game of the week was that in which Lambda Chi Alpha defeated the Ivy Club 15-12, 13-15, 15-7. Had the Ivy Club won this game it would have gone into a virtual tie with its opponents for the League leadership.

LEAGUE I			
Team	Games Won	Games Lost	Pct.
Lambda Chi Alpha	6	0	1.000
Chi Psi	3	2	.600
Ivy Club	3	2	.600
Phi Gamma Delta	3	3	.500
Phi Epsilon Pi	3	3	.500
Beta Theta	2	2	.500
Zeta Psi	1	4	.200
Raritan Club	0	5	.000

LEAGUE II			
Team	Games Won	Games Lost	Pct.
Chi Psi	5	0	1.000
Delta Psi	4	1	.800
Kappa Sigma	3	1	.750
Faculty Wildcats	1	1	.500
Delta Upsilon	2	3	.400
Delta Kappa Epsilon	2	3	.400
Pi Kappa Alpha	0	4	.000
Theta Zeta	0	4	.000

The Best Business Career

Is what every ambitious senior is thinking about at the present time. Life insurance is one of the best, one of the most desirable, and one of the most satisfactory as a permanent calling.

In assets and volume of business, life insurance is one of the three leading businesses of this country, yet the field is comparatively under-developed. Only 7 per cent of the economic value of human life in the United States is covered by insurance. This gives an idea of the big field still to be worked, especially business insurance for firms and corporations.

As to remuneration: Reports of college graduates who have entered business indicate that life insurance is at the very top as a source of income. Now is the time for you to consider what you are going to do after graduation. If you are ambitious and willing to work hard and are interested to know about life insurance, address

SCARLET FIVE OVERCOMES LEAD AND DEFEATS LEHIGH

(Continued from page 1)

goals, it was primarily the better foul shooting of Rutgers that determined the outcome of this hard-fought contest. Jack Ellis, who has been giving a wonderful exhibition of accuracy from the fifteen foot mark in the last three games, kept up his fine work and scored ten fouls out of his eighteen attempts. The work of the Lehigh players in this department of the game was not proficient. For Captain Lingle, who started to toss the fouls for the Bethlehem college, made but three out of his nine attempts and turned the work over to Lees, who did much better, scoring five of the eight tries.

"Windy" Gale, the only substitute used by Coach Hill, made his debut on the Rutgers varsity in this game. He first relieved Ellis, who later in the game again took his place in one of the forward positions. In the second period Gale replaced the diminutive Manck. The Scarlet quintet still suffers because of the loss of "Pipes" Enander, who has been physically unable to take part in the last two games.

The box score:

ELEVEN MATCHES FILL NEW TENNIS SCHEDULE

Six Contests to be on Home Court; Strong Team Expected

The tennis schedule has been completed for the coming season by Noel T. W. Kane, manager of the team, and contains eleven matches with many of the larger colleges of the East. Six of the matches will be played on the Seminary Courts, with the remaining five on opponent's courts.

Stevens will be met only once next spring, instead of in the annual home and home series. This match, which is the final of the season, is to be played here April 21. Following this match, the team will make a trip into Pennsylvania to play Lafayette and Lehigh. As in former years the Scarlet racquet wielders will make a short Southern trip, meeting Georgetown in Washington, D. C., and the Navy at Annapolis. The other away from home match is with Swarthmore on May 16.

The home matches will all be with strong teams, one of these being that of the University of Michigan, which expects to make an Eastern tour in the spring. M. I. T. and Union will journey down to meet the Rutgers team. The last two matches have been arranged with New York University and the Alumni, respectively. The latter match will be played as usual on Commencement Day.

Three varsity players of last season are available, and with several other players who gave good performances on the court in the fall tournament the squad should contain plenty of material.

The schedule:

April 21—Stevens, home.

April 27—Lehigh, away.

April 28—Lafayette, away.

May 4—Georgetown, away.

May 5—Navy, away.

May 11—Mas. Institute of Technology, home.

May 12—Union, home.

May 16—Swarthmore, away.

May 18—U. of Michigan, home.

May 25—N. Y. U., home.

June 12—Alumni, home.

INDOOR HURDLE RECORD IS SHATTERED BY HERB MEYER

(Continued from page 1)

New York A. C. and Rutgers squads, and that Carl Anderson, former track coach, is now mentor at the Newark A. C.

In the 70-yard hurdle invitation race, a feature of the games at Newark Wednesday night, Meyer ran in second place against a fast crowd. The race developed into a keen battle between the Scarlet hurdler and Christerson, the Swedish champion, with the Swede coming out on top. C. H. Kaufman, of Penn State, came in third. Time was 0.09.

Starting from scratch in the 600-yard run, Captain Beattie ran a splendid race for second place. The Scarlet captain was the only runner to start from scratch. The winner, Hulsensbach, of the N. Y. A. C., was given a handicap of twelve yards. Beattie made a gallant fight for first honors, but the handicap was too much for him. Brundage, Morningside A. C., with fifteen yards handicap, was third. Time, 1.17.

After the hard hurdling during the earlier part of the week Meyer was not expected to do any great performing in the Brooklyn meet, which brought together the greatest array of athletes which ever met on an indoor track. The Scarlet flash was opposed by U. C. Taylor, of Princeton, and T. Farrell, a former Princeton hurdler. These runners were easily outdistanced by Herb, who was in rare form, as is shown by the fact that he smashed a world's record which has been held for fourteen years.

The relay team, which was somewhat shattered after graduation last June, has been practicing faithfully all winter and entered an indoor meet for the first time on Saturday. This event was the intercollegiate medley relay and was won by Lafayette in the fast time of 9.13. New York University was second and Rutgers third.

HISTORICAL SOCIETY TO MEET

"The Development of Transportation Facilities in the Vicinity of New Brunswick" will be the subject of a paper which will be presented by Professor Albert R. Johnson of the Civil Engineering Department of Rutgers College at the regular meeting of the New Brunswick Historical Society to be held in Queens Building at 8 p. m., on the evening of February 15.

YALE DIVINE DISCUSSES SUBJECT OF IMMORTALITY

"Science has not a shred of proof that immortality does not exist," declared Professor Henry T. Tweedy of the Yale Divinity School at the regular "Y" meeting held in the Fine Arts room last Wednesday night. He addressed a large group of men, about seventy-five turning out to hear him present the case for "Immortality", the subject of his talk.

Professor Tweedy is a most pleasing speaker, and in the course of an hour covered a large field of human thought. The scientific arguments for and against immortality were discussed, evolution adduced as proving that it was entirely plausible, and history, mainly in the form of the Bible, drawn on to prove that it was possible. Quotations from the great English scientist, Huxley; and from Browning, John Fiske, and Victor Hugo, were used to show that these great men had a strong belief in immortality.

Professor Tweedy showed how "a rational universe saves all life worth saving, animal as well as human, through the fact of the indestructibility of matter." Evolution also strengthens our belief in immortality because it seems irrational that life should expand and develop and finally reach its present advanced stage and then stop.

To sum up: confronted with the choice of rejecting or believing in immortality, one should by all means choose the latter because it will lead to greater contentment with life, and will tend to make one act differently toward his "immortal" fellowmen. Life is bearable only if we accept immortality. Otherwise, we are simply animals, living only in the present.

Science Cannot Disprove

Science cannot disprove immortality; neither can theologians prove its existence. The reason of man cannot find the answer either way. It is best to listen to the deeper instincts and create an abiding faith that the soul does live on forever.

At eight o'clock the speaker ended with Brownings "Eloise", and then said that he would answer questions for the men as long as any cared to stay. Nearly all remained to join in the informal discussion which lasted a half hour.

THE HONOR SYSTEM MUST STAY

A number of things in connection with the latest case tried under the Honor System will bear further consideration. It is generally conceded that certain circumstances attending the three trials of the Barkelew case indicate something radically wrong either with the Honor System itself or with the spirit with which it is regarded or with both. A large number, following the line of least resistance, shout at once that the whole system is a failure and must be abolished.

We admit that there is something wrong both with the system and with the attitude of many toward it, but abolition would only create a worse situation. It would be, in fact, a running away from the problem and a weak admission that as Rutgers men we are incapable of rising above the level of so many unthinking and irresponsible high school youngsters. Can we not be men enough to place honor above self, above prejudice? If we can not, who can? If we abolish the system or by default permit it to be abolished, we say in effect that as for our honor, our intellectual integrity, we care not and as for the enforcement of the standards of conduct which characterize our modern civilization in its aspects, we assume no responsibility. Let others worry if they must, but we refuse to concern ourselves with such troublesome and incomprehensible matters.

Such an attitude is born either of the devil himself or of his twin children, weakness and fear. It is not fit for any self-respecting he-man, much less a college man with his alleged superiority of intellect, culture, and training, to entertain for a moment. Honor has always been recognized as the most elementary and the most necessary of virtues. In fact, it may be said that a man or a group without honor is equally without a virtue.

Are we, as individuals and as a college, devoid of that rudimentary instinct in the gentlemen of all ages that we cannot rise to so clear-cut and elementary a situation as the preservation of the honor of our alma mater? If we will only think the thing through to the end we can come to only one conclusion: cheating is the lowest sort of meanness. None but a cur or a downright weakling will indulge in it. As a society of gentlemen we can not tolerate it. We can not delegate the responsibility to any other party without all becoming privy to the dishonor. No matter what the personal cost we must stand first and always for the honor of the college. If we do not, we are not true men. We are children or incompetents, unable to appreciate and unworthy to inherit the fruits which civilization stands ready to bequeath to the more fortunate of her children. Is Rutgers a school for the development of high type men, fit for civilization, or is it an institution for the polishing off of a few half-civilized primitives, incapable of understanding the higher conception and ideals of modern life. The answer lies with us.

WHAT SHALL WE DO ABOUT IT?

The operation of the Honor System has been the subject of campus talk for the past two weeks. There is not a man who can firmly say that he believes that the system worked in the last case. If there is such a man, he does not belong in college.

It can not be denied that after the first trial the case resolved itself into a factional fight, most unfortunate from every point of view. It was generally admitted before the third trial at any rate that the case would hinge not on the evidence but upon the personnel of the jury to be selected. The evidence had all been given and discussed and practically every one in college was by that time determined beyond any power of argument, undoubtedly in some cases beyond any consideration of justice—as to how he would vote if he were on the jury.

Obviously, something must be done to remedy conditions. In the first place, as we have already indicated, we need a new attitude toward and understanding of the Honor System and its objects. To this end, it might be desirable to call some student meetings to discuss the matter seriously and sanely. Something should be done in order the better to educate the underclassmen and to spread a realization of the significance of the system into all sections.

But the jury system itself must also be changed. It might be sufficient if all upperclassmen were subject to call to serve on the jury. In this case, the right of unlimited challenges should be permitted to both prosecution and defense; and before being permitted to serve, any man should be required to say as in civil court that he has no general objections to the Honor System and no specific prejudices in regard to the particular case.

Another possible method, and we think it the more desirable, would be to return to the old small Honor Court composed of Judge, Clerk and representatives of the classes. These men would be less subject to popular prejudices and would, if experience is any indication, be better able to reach decisions than the present juries. It was generally agreed that last year's court would have been able to come to an agreement on the Barkelew case within an hour. To serve the purpose of publicity, this court should be required to publish an accurate digest of each case.

THE TARGUM is as glad as anyone that the Barkelew case has at last been disposed of. A continuation of the present situation, however, would be intolerable from the point of view of any future defendants and from that of the college as well.

THE CONSTITUTION OF THE TARGUM ASSOCIATION OF RUTGERS COLLEGE

ARTICLE I—NAME

The name of this organization shall be "The Targum Association of Rutgers College."

ARTICLE II—OBJECT

The object of this association shall be to publish the college newspaper, known as THE TARGUM, which shall publish complete news of college life as contributed primarily by undergraduates and also by faculty and alumni.

ARTICLE III—MEMBERSHIP

Sec. 1. Any student of Rutgers College may become and continue a member of the Targum Association for the current year by paying the yearly subscription.
Sec. 2. Any member of the Faculty of Rutgers College, or any Alumnus thereof may become and continue a member of the Targum Association by payment of the yearly subscription.

ARTICLE IV—PRIVILEGES

Members of the Targum Association shall receive one copy of each issue of THE TARGUM during the period for which their membership subscription is paid, and shall be eligible to office as hereinafter provided.

ARTICLE V—OFFICERS

Sec. 1. The officers of this association shall be a President, a Secretary, and a Treasurer.
Sec. 2. There shall be a Council which shall perform duties as hereinafter provided. The Council shall be composed of the President, the Editor-in-Chief, the Business Manager, the Treasurer, the Dean of the Students, a representative from each of the three upper classes, and the chairmen of the committees of publications and undergraduate activities, respectively.
Sec. 3. The Business Manager shall be Secretary of the Association and the Council.
Sec. 4. The Treasurer shall be a member of the Faculty or an alumnus.

ARTICLE VI—ELECTION OF OFFICERS

Sec. 1. The election for President, Editor-in-Chief, Business Manager, and Treasurer shall be held on the first Friday in March. A majority is necessary for election. The newly elected President and Editor-in-Chief shall assume office at the first meeting of the Council after elections. The new Business Manager shall perform duties of his office only at the direction of the Business Manager of the current volume of THE TARGUM. The new business staff shall assume complete direction of all business appertaining to THE TARGUM for the first number of the volume immediately after their election, and continue their duties until all the business of THE TARGUM has been completed for this volume. The new Treasurer shall assume his duties within one month following his election.
Sec. 2. The election of the class representatives shall take place during the third week in March at the call of the various class presidents.

Sec. 3. Nominations for President, Editor-in-Chief, Business Manager, and Treasurer shall be made at a special meeting of the Council at least one week before the election, a quorum being necessary, and these nominations shall be printed in on issue of THE TARGUM preceding the election. Nominations for class representatives shall be made in a class meeting at least two days before their election.

ARTICLE VII—DUTIES OF OFFICERS AND COUNCIL

Sec. 1. It shall be the duty of the President to preside at all meetings of the Association and of the Council. He shall have no vote in either the Association or the Council except in case of a tie.
Sec. 2. The Treasurer shall be the custodian of all the funds of the Association. He shall receive from the Business Manager all moneys accruing to the Association and shall pay by check all bills arising from the publication of THE TARGUM. He shall supervise the by the Business Manager. He shall submit a report at the annual meeting of the Association, and at any other time that the Council may direct.
Sec. 3. The Business Manager shall perform the duties of the President of the Association in the absence of the latter. It shall be the duty of the Business Manager to attend to all matters connected with THE TARGUM except those pertaining to the editorial management and the office of the Treasurer, subject to the advice and direction when required by the President, procure advertisements, secure subscriptions, and together with the Assistant Business Managers, shall attend to the distribution of THE TARGUM to the members of the Association. He shall submit to the Treasurer the names of all subscribers, the rates of advertisement, and the amount of money received from each advertiser. All money received by him shall be turned over to the Treasurer; and also all bills after checking and approval. The Business Manager shall submit his final report and accounts together with all files, correspondence, and papers relating thereto on or before the first of October after the expiration of his term of office.
Sec. 4. The Editor-in-Chief shall have charge of the literary matter of THE TARGUM at the advice and opinion of the Council. Immediately upon assuming office, he shall choose, by and with the consent of the Council, two Assistant Editors, and such Associate Editors and Reporters as are deemed necessary.

Sec. 5. The Council shall meet on the first Friday of each month, a quorum, consisting of three undergraduates, the Treasurer, the Dean of Students, or one alumni representative, being necessary to transact business. The Council shall elect the President, Editor-in-Chief, Business Manager, and Treasurer, and shall have complete jurisdiction over the affairs of the Association. It shall enact such rules and regulations for the execution of the policies of the Association as it deems necessary.

ARTICLE VIII—REMOVAL

Any officer of THE TARGUM or any member of the Editorial or Business staff may be removed from office for neglect of duty or malfeasance by a two-thirds vote of the Council.

ARTICLE IX—VACANCIES

A vacancy occurring from any cause except failure to elect on the specified day shall be filled by the Council for the remainder of the term.

ARTICLE X—SPECIAL MEETINGS

Special meetings of the Association shall be called at the written request of ten members of the Association, but at least twenty-four hours' notice shall be given of any meeting; nor shall any meeting be held unless a quorum be present. A quorum shall consist of one-third of the paid-up undergraduate subscribers.

ARTICLE XI—COMPENSATION

Sec. 1. The Editor-in-Chief shall receive as compensation 30 per cent, the Business Manager 30 per cent, each of the Assistant Editors and the Circulation and Advertising Manager shall receive 5 per cent each. The Association 20 per cent of the net proceeds of the Editor-in-Chief or the Business Manager receive more than \$100 nor receive more than \$25.
Sec. 2. The Editor-in-Chief and Business Manager shall be entitled to three free copies of each issue of THE TARGUM. The junior and senior members of the editorial and business staffs shall be entitled to one free copy of each issue of THE TARGUM.

ARTICLE XII—AMENDMENT

The Constitution of the Targum Association may be altered at any meeting of the Targum Association by a two-thirds vote of those present; provided that the proposed amendment shall have been published in the two numbers of THE TARGUM preceding the meeting at which the amendment is considered.

ARTICLE XIII—PUBLICATION

THE TARGUM shall be published weekly during the collegiate year with such omissions for holidays and recesses as the Editor-in-Chief and the Business Manager in consultation may decide.

ARTICLE XIV—RATIFICATION AND ENACTMENT

THIS CONSTITUTION shall be considered ratified and in effect immediately after two-thirds of the members present at a meeting of the Targum Association have voted in favor of its adoption. This Constitution shall replace and supersede all other existing Constitutions dated prior to March 3, 1922.

POTPOURRI

Our old friend Joe Moist has written us for a few points on how to behave at the Prom. This is the first college dance which this popular young man has attended.

He says:
"Would it be proper to bring my young lady friend some flowers? I have had two geraniums on my window sill since last September, and I might as well get rid of them. Also please tell me what I can talk to her about."
"What kind of necktie should I wear? Is one absolutely necessary?"

By all means, Joe, give her the geraniums. There's nothing like starting the evening right. As to the necktie, we favor something in a light blue. Black and blue are becoming on you, Joe.

Here are a few conversational suggestions:

1. Tell her her nose is shiny.
2. Discourse on the opening of King Tut-Ankh-Amen's tomb, using such words as "sarcophagus," "mortuary chamber," and "mausoleum" at frequent intervals. This will provide good lively conversation for an hour or so.
3. While dancing, trip her occasionally. She will say, "Pardon me" the first few times, and this will give you a chance to answer nonchalantly, "Oh, that's all right."
4. Be sure to tell her what you paid for your Prom ticket, and that your incidental expenses, including hair-cut and tip, amounted to \$1.15.
5. Carry a copy of Miss Post's etiquette book on your hip. This book contains some fine conversational hints; likewise, you and the lady can while away the moments by trying to find what is wrong with each picture.
6. Around eleven o'clock, tell her you're willing to go home any time she is.
7. After each dance, offer her a piece of gum. If this and the other suggestions don't work, drop us another line immediately. But we're confident that they'll get you a long way.

—H. W. L.

ECONOMICS SPEAKER TALKS ON "THE I.W.W."

Compares Its Activities with Those of Labor Federation

"The I. W. W. will continue to kick, and will continue to have a beneficial effect in stirring the American Federation of Labor to action on problems which but for the I. W. W. it would not tackle," said Professor Paul Brissander of Columbia University in addressing the Economics Club on "The I. W. W." last Wednesday evening. "The revolutionary tactics of the organization have, however, fallen off appreciably since the war," he added, but he could not say definitely whether this was because the members feared arrest or whether they had finally become convinced that such action was futile.

Professor Brissander spoke of the organization, showing a thorough knowledge of its activities which he had gained in seeking material for a book that he has written on the subject. He had delved so deeply into the problem of the I. W. W. that on several occasions he wound up in jail.

"Your I. W. W.—or Wobblies, as he prefers to be called—is not an anarchist," emphasized the speaker. "He has no thought at all of individual nations, but he is a firm believer in organized government. The Wobblies, while they are not unanimous, as to whether there should be one or two houses of Congress, hold that representation should be determined industrially instead of geographically. The bankers should elect their representatives, and so would the janitors," said Professor Brissander, and added, "The majority do not believe in violence, but they do believe in the general strike and any strike means force. However, the militant minority is nowhere near as violent as it formerly was."

Blames American F. of L.

Professor Brissander blamed the American Federation of Labor for allowing the I. W. W. to obtain a foothold in the first place. "It has gained a foothold owing to its willingness to step in where the American Federation of Labor has stood aloof, and organizations of some strength have developed, among the dock workers in Philadelphia, and to a lesser extent in New York; among the lumberjacks of the Northwest, and the farm hands of the Dakotas. Now, however," he continued, "organizations formed by the American Federation of Labor to offset the activities of the I. W. W. have larger membership than the latter, but it was the Wobblies who got the Federation to act."

In comparing the strength of the two labor organizations the speaker said, "As regards numerical strength, the Federation has three and a half million members, which is only between five and ten per cent of the people engaged in gainful pursuits, or about one-third of the factory population of the country. On the other hand," he continued, "the strength of the I. W. W. cannot be placed at more than one hundred thousand members. It is composed of twenty-nine different unions, some four or five of which have no members at all and others with but very few members. It is an unorthodox union—an industrial rather than a craft organization—similar to the United Mine Workers of America, who have several hundred times as many members, but do not seek to organize other than their own industry, while the Wobblies would revamp the entire industrial universe."

DA VINCI LECTURE IS NOVEL AND EFFECTIVE

Engineering Clubs Will Sponsor Talk by Elmer H. Sperry of Gyroscopic Fame

"Have you ever heard of Rutgers and New Brunswick before coming here this evening?" was one of the first questions which was put to me upon my entrance into the city, and before I enter upon the discussion of the life of Leonardo da Vinci, I wish to answer it, along with another. I do know of Rutgers and New Brunswick, for I came here in '79 and '80 in the rush line of a Stevens football team and I haven't been here since. "Did they do you up badly?" was the next question. In answering, I must admit that the games have left some very vivid recollections with me."

In this manner, Mr. John W. Lieb, vice-president of the New York Edison Company opened his lecture on "Leonardo da Vinci—Artist, Natural Philosopher, and Engineer," last Thursday evening in the Chemistry Lecture Room. Mr. Lieb first gave an outline of the life of the greatest mind of the Renaissance and of perhaps all time, that of Leonardo da Vinci. Throughout Leonardo's life he exhibited an irrepressible desire to know the how and why of things, which led him to investigation into the realms of all branches of human learning. Some of his work in the fields of Art, Sculpture, Astronomy, Physics, Physiology, Chemistry, Mathematics, Military Science and even Aviation, was described by means of a series of stereopticon slides which Mr. Lieb has made from the original Leonardo painting and manuscripts.

Mr. Lieb has the second largest collection of the works of this remarkable man. The largest collection is in the museum of Milan. Mr. Lieb's personal collection contains 900 books and manuscripts.

The speaker pointed out that numerous "inventions" of modern times are but reinventions of Leonardo's work. These include the helicopter and the life preserver. The humor which prevailed throughout the lecture appealed to Mr. Lieb's large audience.

THIRD LECTURE SOON

The third of this series of lectures which is being fostered by the combined engineering clubs will be given by Mr. Elmer H. Sperry in the Chemistry Lecture Room on March 9. The gyroscopic and searchlights are two of Mr. Sperry's greatest inventions. His lecture will deal with the difficulties which he had to overcome in the prevention of the famous Sperry Gyroscopic Compass. This compass eliminates all errors due to the fluctuation of the magnetic north, for once it has been set it continues to point in the same direction so long as the gyroscope is kept in motion.

The Mechanical Engineering Society is in direct supervision of this lecture.

D. U. PLAYS DADDY TO A YOUNG AUTOMOBILE VICTIM

Swinging from a metal frame suspended by a strip of canvas in the Mid-diesex General Hospital, Eugene Jaures, aged two and a half years, is suffering from a compound fracture of the left leg and numerous cuts and bruises received when he was run over by an automobile last September.

Is Eugene downhearted? No, Eugene, on the contrary, is as merry as the day is long, for to while away the two months which Dr. Runyon says must intervene before the boy can leave the hospital the men of Delta Upsilon fraternity have decided to keep him supplied with toys and to visit him regularly.

The unfortunate lad will always limp slightly, for in the three operations which have been performed it has been necessary to shorten the femur of the left leg, and consequently that leg will always be shorter than the other.

"You would expect a crowd of girls to take an interest in an unfortunate youngster, but when a chapter of regular fellows does it, it makes you feel mighty good," stated a member of the faculty in referring to the temporary adoption of the little fellow by the Delta Upsilon men. This act of kindness and of fine feeling is not going unappreciated.

DR. S. G. INMAN SPEAKS ON SOUTH AMERICA AT "Y"

"South America" was the subject of the address by Dr. Samuel G. Inman, of the Student Volunteer Movement, at the "Y" meeting last Wednesday evening in the Fine Arts Room. He spoke of the very high class of intellectual men in the capitals of our sister continent, saying that in a gathering of men which had attended at one time in Buenos Aires every man present could speak well the important languages of the world and were familiar with all the problems of science and

education in Europe and America. He then went on to tell how these men, who are so high in the world of knowledge, have slighted religion. "Religion is to them," he said, "a thing which is retarding in its action and not progressive." He pointed out that at the present time there are many Americans in South America who are endeavoring to bring to the people of that continent some feeling of spiritual responsibility.

Dr. Inman's second point was that the United States and its people are looked upon with a spirit of distrust and fear all over Latin America. The people of these Spanish speaking countries think of us an imperial power which cares for nothing but money and which will some day be the enemy of Latin America. "How can we go among these people," said Dr. Inman, "to teach them the word of God when they feel that we are not living up to the principles which we would instill into them?"

Dr. Inman concluded with an appeal for friendship and help for the South American republics.

R. O. T. C.

The R. O. T. C. of Rutgers College has designated the week of February 26 to March 3 as Faculty and Visitors' Week.

During this week the R. O. T. C. particularly requests the pleasure of inspection by visitors. There will be numerous examples of the training now given in 225 colleges and universities throughout the country.

The inspection will provide an excellent opportunity for those unfamiliar with the new plan of national defense, which embraces the training of college students for ultimate winning of commissions as reserve officers, to view the scope, method and value of this military education. The regular curriculum will be in progress during this week. Visitors will find something of interest at all times except Monday morning, Friday afternoon and Saturday.

IF YOU LIVE

You will repay, in dollars or devotion, those who are financing your education.

IF YOU DIE

You will die a debtor to those who are investing in your fullest preparation for life.

UNLESS

You show the fore-sight and appreciation of rendering certain an uncertain future through a fitting life insurance policy.

I know a college man's needs and life, health and accident insurance possibilities.

RAYMOND O. DAVIES, '21
IVY CLUB or 54 Whitestone Ave., Flushing, L. I., N.Y.

The Best Business Career

Is what every ambitious senior is thinking about at the present time. Life insurance is one of the best, one of the most desirable, and one of the most satisfactory as a permanent calling.

In assets and volume of business, life insurance is one of the three leading businesses of this country, yet the field is comparatively under-developed. Only 7 per cent of the economic value of human life in the United States is covered by insurance. This gives an idea of the big field still to be worked, especially business insurance for firms and corporations.

As to remuneration: Reports of college graduates who have entered business indicate that life insurance is at the very top as a source of income. Now is the time for you to consider what you are going to do after graduation. If you are ambitious and willing to work hard and are interested to know about life insurance, address

Engineering Levels Mountains

The Pack Train has become a relic of the past, along with the Prairie Schooner. Modern methods of transportation have leveled mountains, brought San Francisco nearer to New York, and widened the markets of all our great industries.

And the engineering brains and energy, that have developed transportation to the prominence it holds in the business of the world today, are no longer employed in improving means of overland travel alone. Street Railways, Elevator Systems, Inter-urban Lines and Improved Shipping Lines—these are some of the accomplishments of engineering in the development of better transportation.

Neither have the builders of such systems been concerned only in the actual hauling of people and materials. A study of the methods of handling passengers and freight at the large terminals has developed the Terminal Engineer, who has greatly improved existing

methods, and has developed entirely new ones, as well.

Engineering, as it is applied to transportation, has had to concern itself with many kinds of materials and many ways of handling them under all manner of circumstances. For instance the problems surrounding the handling of iron ore, in bulk, are vastly different from those encountered in moving any one of the finished products manufactured from iron ore, that must also be transported in large quantities. But Engineering constantly meets each situation with improved transportation facilities.

Industry, as a whole, and the nations and the people of the world owe much to the engineers, associated with such large manufacturing industries as Westinghouse. They have not only brought about vast improvements, but they have done so at a constantly decreasing cost to those who derive the greatest benefit from them.

Westinghouse

ACHIEVEMENT & OPPORTUNITY

RUTGERS FRESHMEN LOSE TO N. Y. U. YEARLINGS

The Rutgers freshman basketball team lost to the New York University frosh quintet in the University Heights gymnasium Friday night by the score of 12 to 6.

The freshmen failed to make proper connections in New York City Friday evening and did not arrive at the University until late. For this reason their preliminary game with the Violet freshmen was cut short, as the low score indicates. The frosh were unable to accustom themselves to the low court at the Hall of Fame and did not make a single field goal during the game, Politika scoring all the points with six tosses from the fifteen-foot line.

The N. Y. U. freshmen, who scored most of their points in the opening period, were held to a single point during the last half, due to the close guarding of the Scarlet yearlings. They used many players during this period in an effort to break through the Rutgers defense.

men was cut short, as the low score indicates. The frosh were unable to accustom themselves to the low court at the Hall of Fame and did not make a single field goal during the game, Politika scoring all the points with six tosses from the fifteen-foot line.

PROF. JOHNSON GIVES PAPER ON HISTORY OF RAILROADS

"The History of the Development of Roads and Other Transportation Facilities in New Jersey" was the topic of Professor A. R. Johnson at the meeting of the New Brunswick Historical Society on Wednesday, February 14. Starting with the original Indian trails, he traced their development into the present improved roads.

The earliest effort to establish scheduled transportation facilities between New York and Philadelphia was the establishment of stage routes in 1700," stated Professor Johnson. "Improvements in stages and traveling conditions were numerous up to the time of the Revolution. Following the invention of the steamboat, a keen competition between the stages and the steamboats developed. The climax of this competition was the famous Gibbons-Ogden case, which settled the question of state rights on interstate waterways."

In 1832 the Delaware and Raritan Canal was started. The same year the Camden-Amboy Railroad and the New Jersey Railroad and Transportation Company came into existence. The assimilation of these various companies by the Pennsylvania Railroad was the next great step in the development of land transportation facilities.

JUNIOR PROM TO BE HELD LAST PART OF WEEK

(Continued from page 1)

houses which are "all dolled up" for the occasion. Those who wander away from the campus may be entertained by special programs run at the downtown theatres.

Meanwhile the decorator, Laggren, of Elizabeth, will be putting the finishing touches on the "Gym." Something entirely new in decorative effect is promised by the floor committee, which also states that all booths must be completely arranged by five-thirty p. m. on Friday as the gymnasium will be cleared and locked at that time.

And now comes the leading lady upon the stage—the Prom itself—at nine o'clock, greeted by the last word in music—Benny Krueger's famous orchestra. This same orchestra plays vaudeville engagements throughout the east, and also plays for Brunswick records. Their music will insure a perfect evening to the dancers. The dance order follows:

PART ONE

1. "Lady of the Evening."
2. "Where the Bamboo-Babies Grow."
3. "Way Down Yonder in New Orleans."
4. "Low Down Blues."
5. "Rose of the Rio Grande."
6. "Toot-Toot-Tootsie."
7. "Sweetheart Lane."
8. "Parade of the Wooden Soldiers."

- PART TWO
1. "Pack Up Your Sins."
 2. "Pale Venetian Moon."
 3. "Flower of Araby."
 4. "Only Just Suppose."
 5. "Dumbell."
 6. "Who Cares?"
 7. "When Hearts are Young."
 8. "Come on Home."

These numbers with encores will occupy the time from nine till three, when the dance will end.

The favors will be both ornamental and cases, which will probably be long cherished as mementoes of this "Junior."

The refreshments—always an important part of any social event—will be furnished by Caterer Charles Bruns of New Brunswick, who promises to satisfy the most discriminating with his concoctions.

Thus all that mortal man can do has been done to render this Junior Prom, given by the Class of 1924, a memorable occasion.

Meet Stevens on Saturday

Continuing on Saturday afternoon, a tense and crucial basketball game will be staged between Stevens Institute and Rutgers at four o'clock in the same old Gym, now shorn of its gala clothes and stripped for action. Stevens has had the edge on Rutgers when playing at Hoboken, the home of the Engineers; but the reverse is true when they play here. Rutgers' great team of last year, the Metropolitan champion, defeated Stevens here, but lost at Hoboken. This year's team again lost the game at Hoboken. Hence, the Scarlet team is straining at the leash to avenge these reverses and even up the series. This tense situation should result in a hair-raising exhibition of basketball to entertain the Prom visitors.

Reservations of seats should be made early, as the demand is heavy, and tickets will be at a premium by Saturday afternoon.

In the evening fraternity house-dances will fill the campus with "a sound of revelry by night" as they occupy the closing hours of the Prom. The houses have made all preparations for the dances, with rooms spruced up, and arrangements completed for refreshments and music. Dancing will continue until midnight, when, according to the college regulations, the dances must end.

Thus, after a three-day sojourn in the time-light, the Junior Prom will come to a close, leaving in its wake pleasant memories of happy hours on the campus of old Rutgers.

SCARLET DEFEATS N. Y. U.

(Continued from page 1)

Heights in one of the fastest games of the season.

The Friday evening game was hard fought, as are all N. Y. U.-Rutgers contests on the Court, and the Scarlet five deserves great credit for its fifth consecutive win.

Manck is Star

Manck was the scoring ace of the Scarlet combination. During the trip into Pennsylvania on which Lehigh and Lafayette were humbled, the speedy forward, content to feed his teammates, failed to make a single basket. But Friday night the diminutive basketballer went on a rampage and rang up five field goals. His partner, Jack Ellis, kept up his excellent showing from the fifteen-foot mark, caging nine much-needed counters besides breaking through for two goals from scrimmage.

Rauh, bulwark of the defense and a powerful factor in carrying the ball through for count, continued his good work at center. Heine and Captain Benzoni, besides making four field goals between them, attended to the guarding end of the evening. The usual team-play which characterizes all of Coach Hill's combinations was much in evidence, and, working as a unit, the Scarlet team succeeded in winning one of the most decisive victories of the season.

For N. Y. U. the two guards were easily the stars, Toorock and Finberg each caging three field goals.

The summary:

HONOR SYSTEM REVISION TO BE CONSIDERED

Campus Discussion Urged by Dean.
Senior Council and Honor Board
Will Act Deliberately

TO BE ARGUED AT "Y" MEETING

Final Decision May Not be Reached for Some Time

The fate of the Honor System will be decided within the next few days. Preliminary to final action by the student body, the Honor Court, Senior Council and Y. M. C. A. are all carefully studying the whole question with a view to formulating policies and definite proposals to set before the student assembly some time toward the end of this week or the beginning of next.

The Honor Court met today and the Senior Council will meet tomorrow afternoon. At the invitation of Dean Marvin the members of the Council will have dinner with him Thursday evening, at which time it is expected that the Honor System will come up for discussion. The Y. M. C. A. Cabinet took up the matter at a meeting this afternoon and has decided to turn the Wednesday evening meeting over to a free and open discussion of all phases of the situation.

The whole matter has come up suddenly as a result of the dissatisfaction aroused by the procedure and results of the recent trials. This led to the move at the last Wednesday student assembly for the abolition of the system. The motion for abolition was introduced by B. V. Becker '23, who accepted an amendment offered by H. M. Bartlett '23 to make the motion read "that the Honor System in its present form be abolished." After considerable discussion, however, the assembly voted to table the motion in order to give time for further consideration.

Faulty Action Removed
The rumor has been circulated for the last couple of weeks that the faculty was about ready to take a hand in the matter and abolish the system. It has been found out that a very large number of the faculty feel very strongly that the Honor System is a failure and should be discontinued at once. This particularly true of the professors in the chemistry department and in certain other technical divisions. Other professors, on the other hand, are known to agree with the Honor Court in believing that if a number of well-considered changes are adopted the system may be expected to vindicate itself and Rutgers spared what they consider the great misfortune which its abolition would entail.

The faculty members who now advocate abolition recall the fact that things had come to such a pass last year that it was deemed necessary to put the system on probation. In fact, it was retained then only on the plea that the majority of the students expressed themselves in a mass meeting called to discuss the subject as emphatically desiring to give it another trial. Deans Marvin and Fales lent the weight of their influence to those who were trying to save the system, and a group, under the leadership of Paul Duffy '22, judge of the court, drew up suggested changes which were embodied in the new constitution.

The object of this constitution was, by means of open trials and the large Honor Court drawn from all sections of the campus, to bring home to the student body more forcefully the exact meaning of the Honor System. This plan was modeled directly after that in force at (Continued on page 2)

DINING HALL NOTICE OF REVISED SCHEDULE

Decrease in "Mac's" Patronage
Thought Result of Monthly Payment Rule

The management of the college dining hall has announced a new schedule of rates to take effect on March 1. It will no longer be necessary to pay for a whole month's board in advance, as it will again be possible to pay by the week at the old rate of \$7.00.

It is understood that this change is a result of the great falling off in the attendance at "Mac's" during the last few months. There have been only about 40 students eating there this month, while in normal times there have been between 125 and 150. Some of the decrease in patronage has been due to the fact that more and more houses have been establishing their own dining rooms. Nevertheless, it has been believed that a large part has been due to the rule inaugurated last year requiring payment for a month in advance, and it is the hope of the management that the return to the old system will bring back some of the old customers. A number of the students have felt that it was unprofitable to pay \$30 for an entire month when it was quite probable that several days of that time would be spent off the campus, as, for instance, in the case of the recent junior week-end.

The announcement concerning the new rates is as follows:
Starting on March 1, 1923, the following rates will be in effect:
Four weeks \$27.00
One week 7.00
All payments must be made at the Treasurer's office. All weeks start Monday breakfast and end Sunday night.
The first registration starts March 1 to 11, inclusive (\$11.00), and all following weeks at \$7.00 per week.
Students may start week any Monday or any day providing they engage board for the following week.
By order of the Management.

PROM ENJOYED BY TWO HUNDRED FIFTY COUPLES

Kreuger, Laggren and Bruns Furnish Necessary Details

Aside from being one of the most successful "Proms" of late years, the one sponsored by the class of nineteen twenty-four was undeniably the most exclusive. The outer portals were guarded by a tall divinity, blue coated and obdurate, who quickly dashed the hopes of any "bourgeois" who wished to gaze into the realm of the blessed. He had but one reply to all supplicants who were not garbed in the sacred "Tux," "g'wan, you can come in here all day tomorrow!"

If one were lucky enough to bluff the celestial "blue coat" and be allowed to pass through the portals he was indeed fortunate. Directly opposite the entrance on a slightly raised dais Benny Kreuger's eight-piece orchestra was busily sending out volumes of syncopated melody. About two hundred fifty couples glided about on the glassy-surfaced floor, while perhaps twenty-five couples more made use of the several cleverly arranged booths. The same was illuminated by many lamps, some enveloped in scarlet, some trimmed with green vines, and suspended from a ceiling of dove grey. The walls were covered with white cloth and draped from the top with dark green. Here and there diamonds of scarlet cloth added a touch of brilliancy. Laggren of Elizabeth had created a scene which was truly worthy of being shielded from the eyes of all but the chosen few.

The refreshment problem was very capably solved by Bruns of New Brunswick.

From "Lady of the Evening" to "Come on Home," which concluded the "Prom," at two-thirty the dance was a decided success. The committee which was responsible for the whole affair was as follows: Leon R. Kolb, Chairman; Treadwell K. Berg, Frank M. Powell, Robert E. Galbraith, David T. Buck, Robert Garlock, Russell W. Morgan, Templer S. Cawthorne, William F. Bausmith, John F. Barrette, Raymond Catthers, Albert R. Colville, H. Wilson Lloyd, Ellis A. Ender, Arthur A. Headley, Stephen F. Sayer and Newlin B. Watson.

The reception committee were Miss Mary Demarest, Mrs. J. F. Berg, Mrs. Walter Martin, Mrs. J. G. Lipman, Miss Helen Williamson, Mrs. W. S. Greacen, Miss Julia Williamson and Mr. Luther Martin.

The patronesses and patrons were: Mr. E. A. Stokes, Mr. James Neilson, Mrs. L. F. Loree, Mrs. J. N. Michelin, Mrs. Robert Johnson, Mrs. W. T. Marvin, Miss Mary Demarest, Mrs. R. S. Wright, Mrs. N. G. Rutgers, Mrs. G. S. Hobart, Mrs. J. F. Berg, Mrs. A. Atkinson, Mrs. C. W. Kuhlthau, Mrs. J. G. Lipman, Mrs. A. P. Haake, Mrs. J. S. Voorhees, Mrs. E. A. Hayes, Mrs. E. F. Hicks, the Misses Williamson, Mrs. William Hann, Mrs. E. S. Morehouse, Mrs. W. F. Cawthorne, Mrs. W. S. Greacen.

NATATORS TO TAKE THREE DAY TRIP TO THE SOUTH

The Rutgers swimming team is scheduled to make a Southern trip of three days during the coming week. The Scarlet will meet Johns Hopkins, at Baltimore; the United States Naval Academy, at Annapolis; and the Catholic College, at Washington.

On March 2 the Rutgers swimmers will meet Johns Hopkins at 8 p. m. in the pool of the Baltimore Athletic Club. This meet is the only test that stands between Rutgers and the Eastern collegiate championship. Johns Hopkins boasts but one outstanding star, Welsh, a formidable contender in the breast stroke and 50-yard sprints. Rutgers should experience no stiff opposition in this meet, and it will be a considerable surprise if the Scarlet does not win the title at stake.

The real trial comes the following afternoon, when the Naval Academy will send a formidable aggregation against Coach Reilly's men. Rutgers will be expected to the limit in this meet.

The Navy boys have an abundance of excellent material, notably Sinclair, intercollegiate titleholder for the 220. Giebel defeated him in this event last year, but not in record time. Two plebes, Bennett and Poole, are also said to be sprint (Continued on page 4)

TRACK MEN ARE PRIMED FOR INTERCOLLEGIATES

Although the second annual indoor championships of the Intercollegiate Association, which will be held in the Twenty-second Regiment Armory this coming Saturday night, will bring together the greatest collection of track and field stars, Rutgers is expected to win at least one of the events. The long entry list includes not only intercollegiate and A. A. U. title holders, but Olympic champions as well, and strong competition is expected in every event.

"Herb" Meyer, the Scarlet title holder in the high and low hurdles, will be opposed by many strong hurdlers. The Rutgers athlete, who holds the world's record for the 100-yard indoor low hurdles, as well as the metropolitan championship for the 70-yard high hurdles, will be hard pushed by Clark Hauer, of Harvard, the I. C. A. A. A. high hurdle champion. The other entries in this event are Robert Merrick, of Boston College; A. B. Treman, of Cornell; S. H. Thompson, of Princeton, and Hulman, of Yale.

It is expected that Rutgers will enter a relay team in both the varsity and freshman relay events, but this is not certain as yet.

TANKMEN MEET FIRST DEFEAT

Giebel, VonStanley and Jones Hang
Up Three New Records in
Brown Pool

SCORES DIFFER BY 3 POINTS

Tankmen Fortunate in Opportune
Return of Captain "Davey"
Jones to Ranks

The Rutgers swimmers lost their first meet of the season last Thursday night at Providence, when they were defeated by Brown in the most thrilling swimming competition ever held in the Brown University tank. It was only after two intercollegiate records and one Rutgers record had been shattered that the crack Brunonians were able to defeat the Scarlet natators by the scant margin of three points.

The Brown tankmen were fortunate in having Captain Davey Jones return to their ranks just in time for the Rutgers meet, for with him in their midst they were just equal to the Rutgers mermen. The spectators who crowded their way into the Brown pool were given a great exhibition of swimming, for practically every event was closely contested, and the result of the competition rested on the relay, which was won by Brown by a scant two feet. In this event both captains were anchor men, but as Jones had the advantage of the gain made by the three previous swimmers, Giebel was unable to overcome this handicap.

Giebel Sets Another Record
Captain Giebel made a new intercollegiate record in the 150-yard back stroke, which he won in 1 minute 55 1/2 seconds, incidentally beating James M. Stifler, the former Peddie Institute all-round athlete.

The old time for this event was 1 minute 59 1/2 seconds. The second intercollegiate record that fell in the meet was the hundred yard free style sprint, which Captain Davey Jones won in 54 1/2 seconds, three-fifths of a second faster than the record set by Banks, of Yale, two weeks ago in the meet with Wesleyan. The Brown captain made this record in the second heat and was timed by six timers.

Von Stanley, the Scarlet plunger, established a new Rutgers record in the plunge for distance when he traversed the length of the pool in 46 1/2 seconds, breaking his own record of 75 feet made in the Lehigh meet. His old time for the length of the pool was 56 1/2 seconds. In the Brown meet ten seconds was cut from this mark.

Not only did Giebel win the 150-yard back stroke in record time, but he also won first place in the 440-yard swim. In the quarter-mile swim he was opposed by Metzgar, former Asbury Park High School swimmer, who annexed second place, with "Cy" Redmond finishing close behind the Brown entry.

Scarlet Divers Shine
The other of the four first places which the Scarlet won was the fancy dive, the Rutgers artists taking first and second places. Both Bob Galbraith and Eddie Subin gave fine exhibitions and far outshone the Providence entries in this event. In the breast stroke Pot was beaten out by Reynolds, of Brown, by six inches, the latter making a driving finish which gave him the race. Brenner took third in this event.

Captain Davey Jones, like Captain Giebel, swam in three events, but, unlike Giebel, he is proficient only in the short (Continued on page 3)

BROOKLYN POLY ENGINEERS TO BE GUESTS OF RUTGERS

Mr. Elmer A. Sperry will address the next joint meeting of the Engineering Societies, which is to be held March 9. This meeting will be unique in that the members of the Brooklyn Polytechnic Chapter of the American Society of Mechanical Engineers will be the guests of the Rutgers chapter. Last year a similar meeting was held at the Brooklyn institution, and its success led the societies to arrange the holding of another this year.

The afternoon will be spent in an inspection trip of the plant of the International Motors Company. This plant represents the latest word in modern factory development, and the inspection trip promises to be of great interest. Supper will be served for the guests at the college dining hall, after which there will be an inspection of the Rutgers Mechanical and Electrical laboratories.

The evening meeting will be held in the Chemistry lecture room and Mr. Elmer A. Sperry will speak on "Putting the Gyroscope to Work." Moving pictures will accompany his address. Mr. Sperry's talk will be of such a character that it is expected to appeal to men of all the courses here in college.

Mr. Sperry's work has consisted principally in the development of the gyroscope from the invention of Foucault to its practical use in the stabilizer and compass, in the manufacture of the largest searchlights in the world, and in the development of the Diesel engine to a point where it can compete with the modern steam engine. The gyrocompass, which operates on an entirely different principle from that of the magnetic compass, always points to the geographic north and thereby eliminates the correction for declination which is necessary with the use of the magnetic compass. The gyrocompass is part of the standard equipment in all naval vessels and it is rapidly replacing the magnetic compass in the merchant marine service. Mr. Sperry has developed a system by means of which a ship can be steered more accurately by a gyro-compass than by a man.

RUTGERS MERMEN BOW BEFORE YALE

Swimming Meet at New Haven
Causes Many Records to Fall
In Keen Competition

GIEBEL SETS A NEW RECORD

Subin and Von Stanley also Star
for Rutgers

Fresh from breaking the intercollegiate record for the 150-yard back stroke in the Brown meet the night before, Captain Leo Giebel gave a great performance of swimming against Yale last Friday night, creating one new intercollegiate record and equalling another, although Rutgers lost the meet, 45 to 26. As in the Brown meet, the Scarlet natators annexed half of the eight first places, but as they lost the relay and gained only a few seconds and thirds their opponents were able to outscore them. Although the short New England trip was unsuccessful, since both meets were lost, the Rutgers swimmers made a very creditable showing, three intercollegiate records being broken and two new Rutgers records created.

The Rutgers captain negotiated the 440-yard swim in the fast time of 5:30, thereby lowering his record by 4 1/2 seconds, which he made against West Point several weeks ago. "Leo" in establishing the record in the Army meet shattered that held by Hazelton, of Princeton, who was the former record holder with 5:39 1/2. On the previous night against Brown, Giebel made a new New England record for the quarter-mile swim, at the same time coming within one-fifth of a second of the intercollegiate mark.

In addition to winning the 440-yard event, the Scarlet captain also took first honors in the 150-yard back stroke swim, winning in the time of 1 minute 55 1/2 seconds, which equals the intercollegiate record for this event which he made against Brown.

Another Record Broken
The other record breaker in the meet was Eddie Bench, Yale's football star, who broke the intercollegiate record for the 200-yard breast stroke, going this distance in 2 minutes 55 1/2 seconds. The previous record was made by Vender, the Yale star's teammate, in the Penn meet last Saturday. Vender's time was 3 minutes 1 1/2 seconds, and on the night of the Rutgers-Yale meet Vender's performance was smashed by Harden, of Princeton, in the meet held at Princeton between that college and Penn.

Von Stanley, after breaking the Rutgers record for the plunge by 10 seconds in the Brown-Rutgers meet at Providence on Thursday evening, shattered his own performance in the meet with Yale and travelled the 75 feet in 46 seconds flat. His time the night previous was 46 1/2 seconds.

Eddie Subin, who has placed in all competition in which he has been entered, annexed first place in the fancy dive. Bob Galbraith, who took first honors in this event against Brown, failed to place in the competition with the Blue. Subin displayed rare form in all of his dives. Although Potts trailed Bench in the breast stroke, Vender, the former title holder, was forced to content himself (Continued on page 4)

FRESHMEN DEBATING TEAM MAKE DEBUT WITH N. Y. U.

The freshman debating team, speaking for the first time this year, will meet the freshmen of N. Y. U. on the evening of Wednesday, February 28, on the question, "Resolved, That in general, the rates of the Fordney-McCumber Tariff Bill are too high for the best interests of the country." The debate taking place at Rutgers will be held in the Fine Arts Room immediately after the Y. M. C. A. meeting. The members of the frosh team have been putting a good deal of time into the preparation of this debate, and express themselves as hopeful of being able to defeat the first-year men of N. Y. U.

Following the defeat, which was sustained at the hands of Colgate February 16, the varsity debating team is hard at work in preparation for the debate with N. J. C. to be held March 9 on the Tariff question. This encounter is being looked forward to with a lively interest on the part of the student bodies of both institutions and promises to be one of the most exciting as well as interesting and instructive debates on the 1923 schedule.

A challenge from an alumni team for a debate on the question, "Resolved, That the New Jersey College for Women should be abolished," has been received and is being seriously considered, according to Manager Sellers. If suitable arrangements can be made, the debate will probably take place in Kirkpatrick Chapel some time in April. The alumni undertake to uphold the affirmative of the proposition.

It has been learned that the people of Rome, New York, who turned out en masse to hear the Rutgers-Colgate debate on the 16th were so well pleased that they are anxious that the performance should be repeated next year. In view of the success of this first experience of the Rutgers management in staging a debate in a non-college town, it is probable that this practice will become a regular feature of the Rutgers intercollegiate debating program.

It is felt that the plan has a number of advantages in that it advertises the college in a most desirable way, while it secures a better audience than might otherwise be obtained if a number of debates on the same subject were held at the college.

RETURN CONCERT BY SYMPHONY ORCHESTRA

Tickets for Event of Next Monday in
Great Demand

"Get your tickets for the City Symphony Orchestra concert at once" is the advice which Director of Music Howard D. McKinney gives to all who expect to attend the concert in Ballantine Gymnasium next Monday evening. There is a big demand for tickets and the demand from all indications will far exceed the supply. Tickets are now on sale at the College Book Store. Student tickets, which are limited in number, may be had for 75 cents each.

The orchestra, which has met with great success since its appearance here in November, will present a most attractive and varied program. As was announced in last week's issue of THE TARGUM, one of the selections which will be offered will be Schubert's "Unfinished Symphony," which was the theme of "Blossom Time," one of Broadway's most delightful operettas in the Century Theatre.

Mr. Foch and his orchestra since their appearance here have been constantly at work at their daily rehearsals and three appearances a week in New York. Recent concerts have been played before capacity houses in Carnegie Hall, a remarkable record for so young an organization. Sunday concerts have been given in the Century Theatre and have proved most successful.

It is from the numerous pieces which have been given in these concerts that the program has been arranged. It comprises the numbers which have met with the greatest favor and which are best rendered by the orchestra.

The complete program:

1. Smetana—Overture to "The Bartered Bride."
2. Schubert—Symphony No. 3, in B Minor, "Unfinished."
—Allegro moderato
—Andante con moto.
(Intermission)
3. A. Brahms—Two Hungarian Dances.
—No. 5, in G Minor.
—No. 6, in D Major.
B. Ippolitoff Ivanoff—"Dans l'Aoule" from "Caucasian Sketches."
4. Wagner—Overture to "The Flying Dutchman."

BEATTIE IS JUNIOR METROPOLITAN CHAMP

Running against a fast field, Captain Stewart Beattie, who has been one of the mainstays on the Scarlet relay team for the past three years, led the field for the finish of the 600-yard run in the 13th Regiment Armory, Brooklyn, on Washington's Birthday, and won the Junior Metropolitan Championship. Beattie negotiated the distance in the fast time of 1:55 1/2. Barnes and Bennett, both of the St. Anthony A. C., finished behind Beattie.

In the New York Athletic Club games in the 22nd Regiment Armory Saturday night the Rutgers freshmen relay quartet placed third in the mile relay event, in which it met Yale and University of Pennsylvania. The yearlings ran in a very creditable manner, but were outclassed by their opponents.

Penn led at the end of the first lap with Rutgers and Yale close behind in the order named. Bellis, who ran second for Rutgers, maintained his slight advantage and slipped the baton to Politika before the Yale runner reached his teammate. The third runner for the Blue proved to be a sturdy and fast traveller. The last to begin the third lap, he shot into high and before he had completed the circuit he had passed both Politika and the Penn runner. Yale started the final lap with a slight margin, which was maintained by the Blue anchor man. Penn annexed second place, and Brandis, who ran from anchor for Rutgers, finished third.

IMPORTANT PHILO MEETING TO BE HELD THURSDAY EVE.

The next meeting of the Philoclean Literary Society will be held in the Philoclean Library Thursday evening. The main topic for discussion will be the report of T. G. Wharton for the humorous magazine committee. This matter is one of concern to the whole college, and all members of the society are urged to attend Thursday night's meeting.

After the Philo meeting there will be a meeting of all those members interested in acting as judges for the high school debates held under the Interscholastic Debating League this spring. Assistant Secretary Brinkerhoff will be there to discuss the matter and tell what preparations will be needed. An outline has been prepared as a guide for judges, and all Rutgers men will use this as a basis. There has in previous years always been a call for a number of student judges and it is expected that there will again be plenty of opportunities for those interested. The committee has decided, however, that no one will be sent out who has not shown by study and experience that he knows the principles of good debating and debate judging.

The Civil Engineers will hold their next regular monthly meeting at the regular time next Thursday evening, March 1, in the Alumni House. This will be the first gathering in two months and the members are requested to attend. A financial reckoning will be held at the meeting.

R. O. T. C.

Freshmen and sophomores interested in the basic summer camp to be held this year at Plattsburg from June 14 to July 25 should see Captain Rolfe at the military office as soon as possible in order to enroll or to secure information.

RUTGERS DEFEATS STEVENS QUINTET

Prom Guests See Stevens Defeated
In Fast Game at Ballantine
Gymnasium

OVER 1200 SEE THE GAME

Game is Seventh Straight Win for
Scarlet Five

Before a capacity crowd of over twelve hundred persons Rutgers avenged an early season defeat and registered its seventh straight victory in scoring a 33-18 win over Stevens in Ballantine Gymnasium last Saturday afternoon.

The game which marked the final appearance of the Scarlet quintet on the home court was played before a gay and colorful crowd. As a climax to the Junior Prom activities which began Thursday evening, the contest between the two bitter rivals was keenly fought from start to finish. Two hundred loyal rooters accompanied the Engineers to the Scarlet stronghold.

Captain Benzoni was the individual star of the game. Five times he caged the ball for double-deckers, several of these being of the long-distance variety. The Stevens defense was expected to give the former Union Hill star some serious trouble, but Bennie was in a scoring mood and proved too much for the Engineers' defense.

Pipes Enander played a stellar game at guard. Enander held his man in check and found time to score three goals in his spare time. The entire Red and Grey team was able to score only four goals during the game.

Raub played a good game and was seldom outjumped by Ingbertson or Seidler, who were opposite him in the circle. Gale tallied once from the floor, as did Ellis also, while Manck tallied twice. Ellis was successful in nine out of his fourteen attempts from the fifteen-foot mark. Kurtz, for Stevens, scored ten fouls out of sixteen efforts.

Rutgers Defense Good
The five-man defense of the Scarlet proved a most effective check against the Stevens forwards. In a fan-like formation Rutgers effectively blocked advances toward its own basket. Captain Kurtz found his match in Enander, who trailed him throughout the game. The Stevens star succeeded in caging but two baskets in the entire game. Hindlemann scored the other two goals for the Hoboken quintet.

After two minutes of play Benzoni broke loose, dribbled the length of the floor and scored the first goal of the game. The first half showed little scoring by either team, as the guarding was unusually close. As the quintets left the floor at the close of the first half the score was 14-6, with Captain Benzoni's cohorts leading the way.

Stevens made a strong bid for the game in the second half, but as in the initial period the Scarlet's defensive tactics more than met the threatening attack. It was in this half that Benzoni scored three of his five field goals, all of which (Continued on page 4)

LACROSSE TEAM STARTS PRACTICE IN THE GYM

Prospects are Bright for a Winning
Combination This Year

The first indoor lacrosse practice was held this afternoon in Ballantine Gymnasium under the direction of Coach Albert Brisotti, of the New York Lacrosse Club, who has coached Rutgers twelve for the past two years.

The letter men around whom Coach Brisotti hopes to build a winning combination include Captain "Willie" Sparks, Duke Matheis, D. Woolsey Teller, Art Weiss, Howie Raub and Keiler will be available for duty when the season opens. Kenneth Rich, Warner Moore and Richard Cass are among the freshmen who are expected to strengthen the team. These three, all of whom are from Brooklyn, have had experience in the Indian game.

At present Manager Robinson has contracts for seven games, five of which are scheduled for Neilson Field. Two dates are still open, but Robinson expects to sign up two strong teams before the season opens on April 7, with Brooklyn Poly invading the Neilson Field stamping grounds.

Prospects point to a strong twelve which should win a majority of the games. Last year's twelve lost only two games, one to Lehigh and the other, the final battle of the season, against Princeton.

Three players who will doubtless gain berths on the twelve are Pancoast, who was all-American player at Lehigh before entering Rutgers last year; Rosetti, who played an aggressive game while a member of the Colgate team before transferring here; and Brenner, who covered the center position on the Scarlet twelve two years ago. Pancoast and Rosetti were barred from playing last spring because of the one-year residence ruling, while Brenner was eliminated through scholastic difficulties.

The schedule:
April 7—Brooklyn Poly, at Neilson Field.
April 19—Harvard, at Neilson Field.
April 21—Owen.
April 28—Lehigh, at South Bethlehem.
May 5—N. Y. U., at New York.
May 12—Swarthmore, at Neilson Field.
May 19—Stevens, at Neilson Field.
May 26—Princeton, at Neilson Field.
June 12 (Commencement Day)—Open.

The Targum.

THE RUTGERS HELLO

A grand old custom at Rutgers is dying. We refer to the tradition of greeting every Rutgers man with a cordial "Hello", which has declined notably of late years, and is destined to pass entirely unless Rutgers undergraduates, particularly the freshmen, execute a right-about-face in their increasing tendency to neglect the campus greeting.

The "Hello!" custom is not exclusively the property of Rutgers. Other colleges have realized its value in building up spirit. In the Amherst Freshman Bible we notice the following among "Amherst Customs":

"Say hello when passing Amherst men on the streets or campus."

On the other hand there are a number of institutions where the men do not speak. Princeton has no "Hello!" custom. Men must be introduced or come into close contact on the campus before they speak to one another. The same is true at Columbia University. The bond of a common alma mater is not enough at these places. We are drifting toward this condition at Rutgers. Do we want it?

Our Rutgers "Hello!" exchanged between two students signifies mutual realization of a common bond and a common purpose. It says, in effect, "Greetings! Brother. We stand together in Rutgers, pursuing our common goal." The feeling which should be behind it is similar to that which caused the American doughboys in France to address their comrades-in-arms as "Buddies"—brothers in a common cause. We here together at Rutgers, striving to dispel the clouds of ignorance which impede progress, are also "Buddies", fighting sometimes just as grim a battle as they fought in Flanders. We do not recognize the fact?

The true "Hello!" is impersonal. Born in the realization of common interest, it is addressed to the man as a Rutgers man and not as an individual. Just as the army the salute is addressed to the uniform and not to the officer as an individual, so our Rutgers "Hello!" is given to the Rutgers man and not to the student as an individual.

The freshmen particularly must bear this in mind. Only with this idea in mind, will it be possible for them to greet some types found on every college campus, such as the man with the swelled head and the snob.

But the old tradition will pass unless all are greeted and greeted with cordiality. The word alone means nothing; the tone and manner of saying is everything. The "Hello!" is worthless unless given in a cordial manner. It should be warm and cheery as the Freshman Bible of 1922 so aptly describes it; not cold, dead and depressing; given against the will because the rules say so, in a tone and manner so lacking in warmth as to be almost insulting. Such formal "iceberg" hellos should be treated as germs of contagious disease which threaten the life of our old tradition.

Sophomores should teach the freshmen about the "Hello!" and see that they "watch their step" in its observance; and all the upper classmen should strive for a better spirit in the campus greeting.

Let's keep alive the democratic old tradition.

Let's have a cheery Rutgers "Hello!" for every Rutgers man.

"RUTGERS FOR HER MEN . . ."

So the old song goes: "Rutgers for her men." During the past few weeks Rutgers has been making a name for herself as the stronghold of athletes and of teams which enjoy more than ordinary success. The alumnus who has scanned the daily paper with his coffee and toast has found much in the way of Rutgers news to stimulate his digestion. The A. A. office has been busy placing new names on the roll of honor.

Herb Meyer began the string of successes when he established a world's record in the indoor hurdles; Stewart Beattie chose George Washington's Birthday as a fitting time to annex a Junior Metropolitan title; Leo Giebel has been establishing a record one week in swimming competition and breaking it the next. Equalling records has been Leo's pastime, too. Von Stanley has established a new college record for the plunge in the local pool. As for the basketball team, it bids fair to wind up the season with a run of eight straight victories and a season's record of eleven out of fourteen games.

To the undergraduate and the alumnus these feats in athletic competition must bring with them a certain degree of satisfaction, for true it is that success or failure in intercollegiate competition are the criteria by which a college is judged.

Rutgers has maintained a place in collegiate competition which has placed her just out of the class of colleges of her own size and yet in a position in which she has found the "big college" competition a bit stiff. Excellent showings have been made, nevertheless, in almost all branches of sports. While not paying large salaries to the coaches the college has been most fortunate in having its athletes and athletic teams so well coached.

Whether the successes on the basketball court, in the swimming pool, and the showings of the men in the indoor track meets have had anything to do with the response of the alumni to the baseball funding proposition we do not know, but certain it is that the graduates have responded. There is still a sum which has been pledged but not paid up by the undergraduates. In another column of this issue of THE TARGUM there appears the schedule of baseball contests which will be carried through if the pledges are met.

Coach Cox is making an early start this year and hopes to have a team which will creditably represent the college. Competition for places on the other teams has brought success. A large turnout for the early indoor practices of the nine will assure a successful season. The successes in the winter competition should and can be duplicated on the diamond. Everybody out!

POTPOURRI

To Mamma and Papa Benzoni

If the game be with Ursinus,
Pennsylvania or Cornell;
If the Rutgers team is going
Rather poorly or quite well—
You can bet that Captain Benny
Is craving for the fray,
'Cause Ma and Pa Benzoni
Are here to see him play.

And if he fails to dribble
As the rules maintain he should;
Or if he tries a foul shot
And he fails to make it good,
You can bet he'll get a spanking
On some not distant day,
'Cause Ma and Pa Benzoni
Are here to see him play.

And if upstairs in Heaven
They have a saintly team
And Eddie plays upon it—
(This here is but a dream)—
You can bet your earthly shekels
On this: That, come what may,
Old Pa and Ma Benzoni
Will be there to see him play.

Vera Fast

A Tale of the Jazz Age

Joe College was only a simple young thing,
More simple than young,
But just the same
Joe decided to go to
The Junior Prom.

"I'll do my stuff,"
Said Joe,
Or words to that effect.
Joe proceeded to buy himself
The required uniform,
A Prom ticket,
And a Glee Club concert ticket.

"Hot damn!"
Remarked Joe.
"Let's go!"
Joe took his eye with him
When he went to the Glee Club concert (stag)

And the first thing you know
His eye was knocked out
By a damsel with bobbed hair,
A simple line,
And some clothe.

(The word "clothe" is used
Because there wasn't enough of them
To justify the use
Of the plural form, "clothes.")
This damsel was Vera Fast, our heroine.
After Joe had cut in on her twice
And discovered that she knew
A few words of English,
He said:

"Vera, wot say
If we get married?"
And Vera,
Between chews on a bit of gum,
Answered:
"How's it for waitin'
Until after tomorrow night anyway?
I got a bid to the Prom."

And Joe said: "Sure. No hurry.
I'll see you there."

Wise Joe
Decided to stag the Prom also.
So he hid himself there,
And for a while
He watched everyone get thrown
For a loss.

By the receiving line.
Then he turned his attention
To the orchestra
And was engrossed in listening
To Benny Kremer
Telling his trombone player
To "Toot at 'em, Boy!"

Next he took a handful of gazes
At the dancing crowd,
Made a few notes on
How far you can bend a back
Without breaking it,
And discovered that
Most of the girls
Were wearing the same dresses.

They had worn at the G. C. concert,
Only they had left part of them home.
Suddenly he remembered
That he had met Vera Fast
The evening before.
So he looked for her
And when he finally recognized her
He cut in.

"My name,"
He said,
"Is Joe College. Last night
I asked you to marry me."
"Oh, yes," said Vera.
"Remind me about that
Tomorrow night,
Will you?"

I'll be at the
Blank Blanka house party."
"Sure,"
Said Joe.
"Mind if I go out for a smoke?"

Saturday night
Joe dressed himself properly
For a house dance,
Including flask,
And appeared at the
Blank Blanka dance.

The first thing he saw
Was a damsel sitting all by herself
In a corner.
"Aha," said playful Joe.
"A trying place, eh?"

Planning a party
In this quiet nook, eh?
I'll tell the chaperone!"
The lady made a pass at him.
"Get out," said she.
"I am the chaperone.
That's why this is
A quiet nook."

After several hours of
Waiting
Vera Fast appeared
And Joe cut in.
"What d'ya say
About that marriage proposition,
Kid?" inquired Joe as a starter.
"Who are you, anyway?"
Said Vera distantly.

"I don't remember your face,
But your breath is familiar."
And when Joe had recovered
He got his hat and went home,
Saying, "From now on
I'm an old-fashioned conservative.
This life
Is too fast
For me."
And that's all there is
To the story.
And it isn't so much,
But it brings Joe Colum
Right down to the
Last line.

H. W. L.

REVISION OF HONOR SYSTEM

(Continued from page 1)

Lehigh and actually seemed to be working fairly well until the Barkeley case came up. For the first time cases were being reported by students and it seemed as if the forces behind the system were becoming stronger.

In spite of the setback which recent events have given this progress, it is felt by both the faculty and student supporters of the Honor System that there is still a large proportion of the student body desirous of making it effective, and that some further changes can be made in view of experience which will make it possible for it to function more smoothly. The system has already shown its adaptability and it is argued that it will prove so in this emergency.

Dr. Marvin in chapel today asked the student body to refrain from taking hasty or ill-considered action. He suggested general informal discussion by everybody, but expressed the opinion that the Senior Council and Honor Court should be given several weeks if necessary to study the whole situation and make recommendations which will be a credit to the college. It was generally felt that the general tenor of Dr. Marvin's remarks indicated a disposition on the part of the administration to leave the solution of the problem to the representatives of the student body. There is nothing to indicate that the college authorities are inclined to interfere at present except in the way of co-operating with the students in whatever well-planned action they may desire to take. Of course it is assumed that things will not be permitted to continue as they are at present.

Several Plans Considered
A well-known liberal professor who has declared his belief that the system in its present form has proved impracticable has made suggestions regarding its improvement. His plan calls for a small permanent Honor Court. When any case was brought up for trial, a member of the court would be entrusted with the duty of presenting all aspects of the case. There would be no counsel for the defense and the accused would speak for himself. The trial would be public but informal. The members of the Court, acting as the jury, would practically conduct the trial themselves, questioning the witnesses and the accused with a view to getting at the truth.

This is only one of a number of plans that are being considered by the Senior Council and Honor Court. Another suggestion that has been made is a return to the old, small Honor Court of six members. Trial would be secret, but a complete account of each case published in order to let the student body know exactly what the court was doing.

A proposition to exempt freshmen from the Honor System, which was considered last spring, is also being given serious attention. This would obviate the difficulty with freshmen who, having come from schools where the spirit of an Honor System is absolutely unknown, are unable to adjust themselves to the new methods. An educational propaganda would be carried on among them during their first year so that by the time they were sophomores they would have no excuse for failing to understand the responsibilities that they were assuming. Along this line are various plans for making the idea of the Honor System better known among prospective freshmen.

A. A. OFFICE ISSUES BASEBALL SCHEDULE

Completed Schedule Includes Fifteen Games; Seven to be Played Here

Although only \$900 out of the \$1,200 pledged to the Athletic Association by the student body in order to permit the carrying out of the baseball schedule this spring have as yet been paid, definite plans for the coming season have been completed. Battery practice started in the Seminary gymnasium yesterday afternoon and Coach Cox will get all his men to work out of doors as soon as the weather permits.

Captain Platt is the only letter man left from last year's team, but there is other promising material. Among the candidates for the mound position are Bowman, D. Bender, T. McGinley and C. Cunningham. C. Ross, who has been a second-string man for the past three years, will, unless unexpected competition develops, undoubtedly receive the regular assignment behind the bat. What material there may be in the class of '26 is not yet known, but Coach Cox is hopeful of unearthing some valuable recruits.

Although the A. A. is going ahead with baseball, it is on the assumption that the other \$300 pledged by the students will be forthcoming. Any man who has not yet paid his \$3 is requested to report at the A. A. office at once. The alumni have already contributed \$2,965 toward the fund.

The completed schedule includes fifteen games, seven of which will be played on Neilson Field. There will be home and home games with both Stevens and Columbia. As a lacrosse game will take the place of the regular baseball game as the Commencement Day attraction, the last appearance of Captain Platt's men will be at Easton on June 9.

The schedule:

- The Schedule**
1. Wednesday, April 18—Stevens, at Hoboken.
 2. Saturday, April 21—Ursinus, at home.
 3. Thursday, April 26—Columbia, at home.
 4. Saturday, April 28—Stevens, at home.
 5. Saturday, May 5—Columbia, at New York.
 6. Wednesday, May 9—Lehigh, at South Bethlehem.
 7. Friday, May 11—Washington and Lee, at home.
 8. Saturday, May 12—Swarthmore, at home.
 9. Friday, May 18—D. and H. General, at Albany.
 10. Saturday, May 19—Union, at Schenectady.
 11. Tuesday, May 22—Syracuse, home.
 12. Saturday, May 26—N. Y. U., at New York.
 13. Wednesday, May 30—Crescent A. C., at Brooklyn.
 14. Saturday, June 2—Drexel, at home.
 15. Saturday, June 9—Lafayette, at Easton.

HOUSE PARTIES CONCLUDE PROM

The Junior Celebration Closes with Dances Given by the Various Groups

MANY OUT OF TOWN GUESTS

Festivities for the Prom were given a fitting conclusion by the many successful dances at the various fraternities and living groups on Saturday night.

Beta Theta Pi
With excellent music furnished by the Jazz Bandits, about fifteen couples made merry at the Beta Theta Pi house party. Attractive decorations were made in the pink and blue fraternity colors. Mrs. M. V. Kbbe and Mrs. Homer Hazel chaperoned the party.

Chi Phi
Fourteen couples enjoyed dancing at the Chi Phi house to the strains of music furnished by Larry Butler's six-piece orchestra. The house was artistically decorated in the scarlet and blue colors of the fraternity. The chaperones were Mrs. C. H. Robertson of Freehold and Mrs. J. S. Voorhees.

Chi Psi
A small but enthusiastic group enjoyed the house dance given at the Chi Psi Lodge. A most excellent combination of jazz and song was rendered by Freddie Schlectman and his orchestra, of Elizabeth. The Lodge was decorated with pleasing lighting effects. The party was well chaperoned by Mrs. R. C. H. Heck and Mrs. Asher Atkinson of New Brunswick.

College Lodge
Twenty-six members and friends of the College Lodge entertained their guests at a dance held at the New Brunswick Country Club. The music was furnished by Cortelyou's four-piece orchestra from Highland Park. The chaperones were Mrs. W. F. Cawthorne and the Misses Lee and Thompson of the New Jersey College for Women.

Delta Kappa Epsilon
The guests of the Delta Kappa Epsilon fraternity were treated to a very happy and enthusiastic dance. Music was furnished in an excellent manner by the Robert Treat orchestra of Newark. The house was well decorated with evergreens, college colors and a mellow lighting effect. The chaperones for the party were Mrs. Cortelyou and Mrs. James Mason of New Brunswick.

Delta Phi
Fifteen couples were treated to some fine music by a five-piece orchestra at the Delta Phi house. In honor of the festivities the house had been tastefully decorated with jonquils and carnations. Mrs. Robert E. Farley of White Plains, New York, and Mrs. J. Frederick Berg of Brooklyn, New York, chaperoned the occasion.

Delta Upsilon
Delta Upsilon not only had an excellent dance Saturday night but also gave a tea dance on Friday afternoon. Music for the dance on Saturday was furnished by O'Brien's orchestra of Perth Amboy. Evergreens and palms were used in decorating the house. Mr. and Mrs. Charles Reed and Mrs. Henry Bartlett were the chaperones.

Ivy Club
With music furnished by the four-piece orchestra of Connie Atkinson of this city, about a dozen couples enjoyed the house party and dance given at the Ivy Club. Appropriate decorations were made in the club colors, green and white. The chaperones were Mrs. F. R. Angus of Passaic, and Mrs. C. W. Oley, of Schenectady, N. Y.

Kappa Sigma
About a dozen couples enjoyed the music of the Regal seven-piece orchestra of Passaic, which played at the dance given at the Kappa Sigma house. The house was decorated in the fraternity colors, red, white and green. Acting as chaperones were Captain and Mrs. Lovejoy and Mr. and Mrs. Mankin.

Lambda Chi Alpha
Hoffman Brothers' orchestra of Bound Brook furnished the music for about fifteen couples at the Lambda Chi Alpha house. The rooms were decorated in the college colors and in the fraternity colors, yellow and purple.

Phi Epsilon Pi
Ten couples enjoyed the splendid music furnished by one of Connie Atkinson's orchestras at the Phi Epsilon Pi house. College colors and fraternity colors made up the decorations. Mrs. Abraham Jelin and Mrs. S. Teller of New Brunswick were the chaperones.

Phi Gamma Delta
Dancing to the music furnished by Ritter's Society Syncopators of Perth Amboy, fifteen couples made merry at the Phi Gamma Delta house dance. Mrs. J. J. Evans of Montclair, New Jersey, and Mrs. Brooks Martin of Bloomfield, New Jersey, were the chaperones.

Pi Kappa Alpha
About ten couples danced to the strains of music furnished by an excellent orchestra at the Pi Kappa Alpha house. Mr. Charles Messer, a graduate of last year and Mr. Harry Pennington were guests for the festivities.

Theta Zeta
The Society Syncopators of Princeton were kept busy furnishing music for fifteen couples at the Theta Zeta house. Buff and blue predominated in the color scheme of the decorations. The chaperones were the Misses McEwen, Knollin, Burroughs and Wagner.

Zeta Psi
A combined house warming and dance was staged for the eighteen guests of the Zeta Psi house. The new dining room of the fraternity was opened for the first time for the dance. Music for the party was furnished by De Steffani's Orchestra of Brooklyn, N. Y. The chaperones for the party were Major and Mrs. Bandholz of Philadelphia, Pa.

CHAPEL CHANGE AT PRINCETON
PRINCETON, N. J., Feb. 21.—A new form of morning chapel services which puts more stress upon the service itself than upon the sermon was inaugurated at Princeton yesterday. Services will be primarily devotional with responsive readings and singing of hymns. The change will bring about a more active part in the services by the undergraduates than was possible under the old system.

RUTGERS BASKETEERS WIN FROM BRONX

Hard Fought Game is Marked by Close Defensive Work

Playing a brilliant brand of basketball before the largest mid-week crowd of the season, the Scarlet basketeers turned in a decisive victory over Fordham last Wednesday evening, winning 30-23 and thereby scoring their ninth victory of the season and the sixth consecutive win since the Princeton defeat.

Hard-fought all the way, the game was marked by many fouls, and exceptionally close guarding. During the first half the Fordham defense was almost impenetrable and time after time the Scarlet attack was driven back. Fordham was unable to solve the Rutgers defense, and so the ball travelled back and forth with neither side gaining the advantage. Spectacular shots by Captain Benzoni combined with the accurate foul-shooting of Ellis kept the Scarlet in the lead, although the score was tied constantly.

During the first half team-work on the part of the Rutgers quintet was noticeably absent, and this lapse gave the Bronx five a decided advantage. The efficient guarding of Enander and Raub prevented the Maroon from gaining any lead over the Scarlet. Had the team been working as a unit Fordham would never have been dangerous. The score at half time was 15-15, the Maroon tying it up in the closing minutes of the period.

Coach Instills Teamwork
During the intermission Coach Hill conducted a little lecture course in the Scarlet chamber below. His talk had its effect, judging by the showing of the second half. The team staged a comeback with all its old time form, running up a lead which it held all the way.

During this period Captain Benzoni, aided by his teammates, broke through for four field goals. Ellis and Enander each tossed in a two-pointer. Manck, who has been on a scoring spree since the Princeton game, contented himself with aiding his team mates in advancing the ball. His brilliant floor work aided materially in the victory. Like Manck, Raub proved a power on the defense.

The Fordham victory was the sixth straight for the Scarlet. No little part of these recent court triumphs has been due to the accurate work of Jack Ellis from the fifteen-foot mark. During the earlier parts of the season this department was well taken care of by Calhoun, the freshman star. Mid-years eliminated Calhoun, and for a time the team lacked scoring power in this department. Ellis was elected to fill the gap and not once in the last six contests has his average fallen below par. In fact, several of the victories have been made possible by his work. In the Fordham game, Ellis took advantage of the opposing quintet's misplay and was successful in fourteen out of twenty-two attempts, keeping his team in the running all the way.

Enander, playing his first game since his recent illness, showed little of the effects and played with all his old-time dash and fight. As a guard his defensive work was of high order.

For Fordham, Captain McMahon was high scorer, making three field goals and nine fouls. Cavanagh and Henley played a strong game for the Maroon.

PRINCETONIAN DISCUSSES TURKS TO LIBERAL CLUB

"It is psychologically impossible for one to understand the mental processes of a man of another race," said Professor Philip Marshall Brown, of Princeton University, speaking before an interested audience at the Liberal Club lecture a week ago last night. Professor Brown, who has spent years among the Turkish people, showed clearly that it is practically impossible for Westerners to understand them sufficiently to pass judgment upon their actions.

"The Turk, originally honest, generous, trustful and highly impractical, has been made terrible only through contact with the political avarice of the so-called 'Christian' nations," said Mr. Brown. "The Armenian massacres were not sanctioned by the whole Turkish nation, but were perpetrated by the 'Young Turks' at the instigation of the German government. England, interfering for selfish reasons, aroused the resentment of the Turks, who retaliated by still greater atrocities," he continued.

The speaker struck a humorous note in illustrating the impracticality of the Turk. A high official of the government spoke of his desire for reform, and when confronted by a concrete question replied, after some deliberation: "First, I should close all of the coffee houses."

Then replying to the professor's astonished question, he said: "Well, all of the unemployed gather at the coffee houses. If we close the houses the men will have to go to work."

In concluding Professor Brown showed that it will never be possible to impress our "civilization"—rushing, mechanically efficient, and possibly chivalrous—on the Turk, who delights in the leisurely, the mystic and the contemplative. "However, we may aid him if we will," he said, "and we are the only nation that can, as past experience has made him distrust the others."

A splendid tribute was paid to Professor Brown by Warren Dixon '23, the president of the Liberal Club, when he said: "It is by bringing such lectures to Rutgers that the Liberal Club can render the college its greatest service."

MUSICAL CLUB CONCERT OPENS PROM GAYETIES

Augmented Program Charms Audience of Six Hundred

Commencing the gay activities of Junior Prom, the concert given in the Ballantine Gymnasium, by the combined Glee and Mandolin Clubs of Rutgers College on Thursday evening, struck the keynote of quality which sounded so clearly throughout the period of festivities.

To the regular program were added certain special features that made this concert the climax of one of the most successful seasons in the history of the clubs. An audience of about six hundred persons, many of whom were prom guests, were on hand when the curtain rose at 8:15. The three old plantation songs, "Deep River," by William Fisher; "Who did Swallow Jonah?" by David Propert; and "Swing Low, Sweet Chariot," by Harry Gaul, won the enthusiastic support of the audience for the whole evening.

Then followed the regular program of songs and banjo and mandolin selections. Among other novelties were two new songs by "Scrappy" Lambert '23, "Uncle Kane," written by Sidney Horner; and "World is Waiting," by Ernest Seitz. The three snappy banjo duets by Hillpot '26 and Potter '23, were noteworthy features presented by the Mandolin Club. Although the clubs have had hearty receptions in all of their concerts this season it is doubtful if any audience expressed this appreciation more enthusiastically than the local audience. The concert closed at 10:45 with "On the Banks" rendered by the combined clubs, the audience joining heartily.

Although the dance that followed was only a preliminary to the Prom to follow it was nevertheless an excellent curtain-raiser to the big event, for the tunes of Larry Butler's local orchestra the guests and the forty-five men from the clubs danced until nearly 1 a. m.

It is due to the untiring efforts of Director McKinney that the success of the Glee Club this season is largely due. "As for the Mandolin Clubs," declares Manager Noel Kane, "Babe Hitchner, who has been directing the instruments, is responsible for the excellent quality they have been showing."

FRATERNITIES COMBINE AT STUTE

HOBOKEN, N. J., Feb. 21.—A big surprise was sprung in fraternity circles at Stevens last Monday night when members of Alpha Delta, a local fraternity, disbanded and were at once initiated into the Gamma Delta of Sigma Nu. The union of the two groups was a complete surprise to the student body. Alpha Delta was founded at Stevens in 1883. Gamma Delta of Sigma Nu was organized in 1900.

RUTGERS FROSH LOSE TO DICKINSON HIGH SCHOOL

The Rutgers freshmen in their final game of the season last Wednesday evening in the Ballantine Gymnasium lost to Dickinson High School by a 47-22 score. The frosh fought a game battle and were able to penetrate the strong Dickinson defense for ten goals.

However, the Jersey City squad presented what was probably the most evenly balanced line-up that the frosh has met this season. Each man played a strong game individually, while the teamwork was of almost varsity type. Roepke was the outstanding player of his team, caging seven baskets and jumping a good center. Kent, scoring nine out of eleven free tries, was not far behind. The visitors played a remarkable game in that Dickinson men were called for fouls but three times during the entire game.

Captain Ted Politika played his usual good game, breaking even with Roepke at pivot, netting all but four of the Rutgers goals and succeeding in two out of three shots from the fifteen-foot mark.

The summary:

RUTGERS FRESHMAN (22)		Fid. G. Fld. G. P. S.

TANKMEN MEET FIRST DEFEAT

(Continued from page 1)

distances. After setting a new record in the hundred, in which he was closely followed by Clare Ross, the Brown leader won the 50-yard sprint in the fast time of 25 seconds.

This is the second time in two years that Brown has defeated the Rutgers swimmers by a margin of three points. On both occasions the victory by the Bruins has been the first defeat of the season for Rutgers.

The summary:
50-yard swim: Won by Jones, Brown; Coles, Brown, second; Ross, Rutgers, third. Time, 25 seconds.

440-yard swim: Won by Giebel, Rutgers; Metzgar, Brown, second; Redmond, Rutgers, third. Time, 5:35%.

150-yard back stroke—Won by Giebel, Rutgers; Stefler, Brown, second; Mitchell, Rutgers, third. Time, 1:55%.

Dive: Won by Galbraith, Rutgers; Subin, Rutgers, second; Whitehouse, Brown, third.

Plunge: Won by Von Stanley, Rutgers; Metzgar, Brown, second; Sparks, Rutgers, third. Distance, 75 feet in 46% seconds, breaking Rutgers College record.

160-yard breast stroke: Won by Reynolds, Brown; Potts, Rutgers, second; Brenner, Rutgers, third.

Relay: Won by Brown, Almy, Adams, Coles and Jones; Rutgers, Ross, Cass, Foster and Giebel, second. Time, 1:44%.

100-yard swim: Won by Jones, Brown; Ross, Rutgers, second; Staples, Brown, third. Time, 54% seconds. (New intercollegiate record.)

RIFLE TEAM GETS INSIGNIA

Eleven Men Receive "RtR" Insignia at Board Meeting

Eleven "RtR" insignia were awarded and the status and method of selecting and granting awards to cheer leaders was discussed at the meeting of the Board of Managers held Monday evening, February 19.

Eleven letters were awarded members of the rifle team, the awards being based upon the old system of merits and not upon the new basis which was adopted a month ago. The team enjoyed a highly successful season, winning seven out of nine matches. Those who received letters by virtue of having fired in at least half of the meets and having placed in half of the meets in which they fired were:

Matches Placed

Captain T. S. Cawthorne '24	5	4
Harry Pennington '23	8	6
Walter F. Mitchell '23	9	8
A. J. Harrison '23	6	3
Manager John C. Edson '24	9	6
S. E. Morehouse '24	6	3
R. E. Moody '24	5	3
H. E. Potts '25	5	5
G. A. Cockfair '25	6	4
Stephen Geoghegan '26	9	8
Richard Cass '26	9	7

The question was presented as to just what the status of the cheer leaders was, how they were chosen and upon what basis and by whom the letters of recognition should be granted. At the next meeting of the Board of Managers a definite report and recommendation may be presented.

Shaving is Easier Now

COLGATE'S Rapid-Shave Cream (new)
softens the beard at the base, where the razor's work is done.

It needs no mussy rubbing in with the fingers. Just press half an inch of it upon the end of your well moistened brush. Then lather up for an easy, velvety shave.

Colgate's Rapid-Shave Cream has been brought to perfection after years of scientific effort.

It takes the smart out of shaving and puts it in your appearance.

"WHERE THE STUDENTS GO."

The Realization of Shaving Comfort

The busy student not only enjoys the cool, refreshing, soothing comfort of a perfect shave, but he cuts down the time required for shaving when he uses

Johnson's Shaving Cream Soap

This non-irritating, skin-soothing, antiseptic cream has real speed as a beard softener. There is a certain smoothness and refreshment about it which is not experienced in the use of ordinary soaps. It immediately brushes up into a luxuriant, bountiful and rich creamy lather that retains its moisture and does not dry on the face.

Each tube contains enough cream for five months of daily shaves. It is economical in cost as well as in time and labor.

Get a tube at your druggist's and learn that "the lather's the thing"

He Reached the Top

THE Vice-President of a great life insurance company who began his career as an agent has this to say to seniors who are about to graduate from college:

"If you love work and desire to pursue an honorable, useful and lucrative mission in life this is the business for you to take up. Life insurance salesmanship offers a fine field for the energies of the splendid young men in our colleges."

"That this is true is demonstrated by those college men who have taken up life insurance for they have shown that the college man is fit for this kind of a job and that the job also is fit for the college man."

"The work of the life insurance salesman is distinguished by independence and opportunity for directing his own. It gives all possible opportunity for individual initiative and a chance to make an ample income at an age when most fellows are struggling on a wage pittance."

That is the story of one who began at the bottom and reached the top without the help of a college education. The advantages are with you who graduate from college. Before deciding your career make inquiries of the "Agency Department."

SCARLET MERMEN TO GO SOUTH

(Continued from page 1)

specialists. Despite this formidable array of talent, Rutgers has very good prospects of coming through the big end of the horn. The Annapolis pool is too shallow for the fancy dive, so Rutgers loses the advantage that Galbraith and Subin would surely have won, but Leo Giebel, the Scarlet captain, may again break the 440 record in the fast Navy pool. This will be Giebel's last chance at the record before the intercollegiate.

At 8 o'clock the same evening the barnstormers will go to Washington and match their speed with the Catholic College. The final arrangements for this meet have not yet been completed. If, however, the meet takes place, it should not prove a very difficult one for Captain Giebel's followers.

The entire trip is to be made in three days in order to cut down expenses. All sports are tightening up on expenses so as to enable the A. A. to support baseball this spring and carry out a well rounded season.

The team for the Southern trip will probably consist of the following: Captain Leo Giebel, Ross, Rossetti, Galbraith, Subin, Redmond, Mitchell, Von Stanley, Sparks, Foster, Cass, Potts, Brennen and Enander. As the basketball season closes March 2 Enander will be able to swim against the Navy the next day.

COLLEGE SONG CONTEST

NEW YORK, Feb. 24.—Eleven colleges will compete in Carnegie Hall next Friday night in an intercollegiate prize singing contest which is sponsored by the Intercollegiate Musical Corporation.

The colleges which have already signed up to enter the competition are Cornell, Dartmouth, Yale, Wesleyan, Amherst, Columbia, Harvard, University of Pennsylvania, Penn State, New York University and Princeton. Last year Harvard carried off first honors with a score of 289 out of a possible 300.

FOR THE CHILDREN

HUMOROUS SECTION TO BE SCARLET LETTER FEATURE

The 1923 edition of the Scarlet Letter is nearing completion with encouraging rapidity, and each department is accomplishing its work in a most praiseworthy manner, according to Editor-in-Chief Carpenter.

The high standard set by previous publications has not been lowered, however, by reason of the speed with which this year's book is being edited. In fact, the staff feels that the value of the book has been raised immensely by the introduction of several new and interesting features.

The most prominent of these improvements is said to be in the Nonsensia Department, cleverly arranged by H. W. Lloyd '24, and composed entirely of a collection of humorous articles on undergraduate life.

The photographs of the seniors have also turned out well. The somewhat poor proofs created a feeling that the resulting prints would not be satisfactory, but the White Studio lived up to its reputation and produced a group of pictures which are beyond criticism.

The literary department is the only one that can be assisted by the student body now. Already containing a great deal of fine work, this section is not yet complete and any contributions will be greatly appreciated. All material for this department must be in by March 10.

In view of the progress already made the staff predicts that the publication will be on the campus by May 1.

PHALANX TO PETITION SCABBARD AND BLADE

Captain Vincent, of the Raritan Arsenal, addressed the last meeting of the Phalanx on the subject of Scabbard and Blade. The speaker is a member of this Kansas State College chapter of this national society. He outlined the aims and general organization of the order.

"Scabbard and Blade," he said, "is not a fraternity; it is, however, a national secret society which aims to promote interest in military science among college men. Founded in 1908, it has since had a continuous active existence except during the World War. Its chapters are called companies and they are organized into battalions and regiments. In time of war all chapters are revoked and all members are expected to serve with the colors. The order has had a very rapid expansion; in the past seven years the number of its chapters having increased from ten to forty-one."

Phalanx expects to petition for a charter in the not very distant future. Captain Vincent has promised to try to secure all the necessary details. Cadet Major H. DeW. Goulden and Cadet Captain H. R. Cook, the principal men behind the movement, are very anxious to see a company of Scabbard and Blade installed here before the end of the present academic year.
